

MASTER OF ENGINEERING, PLAN C, ELECTRICAL ENGINEERING SPECIALIZATION

The Master of Engineering, Plan C, Electrical Engineering Specialization focuses on enhancing the expertise of working electrical engineering professionals. Engineers who want to further their careers with engineering related firms and governmental agencies should consider this degree. Students have flexibility to develop a plan of study in their area of interest. Students interested in graduate work should refer to CSU's Graduate and Professional Bulletin (<http://catalog.colostate.edu/general-catalog/graduate-bulletin/>) and the Electrical and Computer Engineering Department (<http://www.engr.colostate.edu/ece/>) website.
