

MAJOR IN HEALTH AND EXERCISE SCIENCE, HEALTH PROMOTION CONCENTRATION

A concentration in Health Promotion provides academic content and experience in promoting positive health behaviors such as physical activity, weight management, stress management, identification of

risk factors associated with chronic disease and exercise prescription. The curriculum focuses on exercise science, behavior change, health promotion program development, business administration, and practical field experiences. This concentration prepares students for careers in a wide variety of allied health fields, such as health/wellness, fitness facilities, sport specific training, clinical rehabilitative settings, corporate health and wellness programs, and non-profit organizations.

Cardiac Care Internship Requirements

Students enrolling in internships in cardiac care must take HES 420 prior to the internship. Students may use elective credits in the sophomore, junior, or senior year to do so. A minimum grade of B (3.00) is required in HES 420 prior to internship placement.

Code	Title	Credits
HES 420	Electrocardiography and Exercise Management	3
It is recommended, but not required, that students enrolling in cardiac care internships take the following courses using elective credit.		
BMS 420	Cardiopulmonary Physiology	3
BMS 450	Pharmacology	3

¹ MATH 155 or MATH 160 can be substituted for MATH 118, MATH 124 and MATH 125.

² CHEM 111/CHEM 112 can be substituted for CHEM 107/ CHEM 108, and should be seriously considered by students who want to go on to graduate studies.

³ Students may substitute HES 307 and HES 319 for HES 303.

⁴ The minimum GPA for students in the Health Promotion concentration must be at least 2.750 with no grade below a C in the following courses BMS 300, FSHN 150, HES 207, and HES 145 before department approval will be given to register for HES 386.

⁵ Select enough elective credits to bring the program to a minimum of 120 credits, of which at least 42 must be upper-division (300- to 400-level).
