Online Degree Programs

The major in Human Development and Family Studies (HDFS) is offered in two formats, both leading to a Bachelor of Science degree. We offer on-campus classes to local degree-seeking students, and we offer distance students the HDFS degree through the Division of Continuing Education and CSU Online. The Online Bachelor of Science Degree in HDFS (http://www.online.colostate.edu/degrees/hdfs) provides a high quality university education that is flexible, convenient, and accessible for working and distance students. The courses in the online program are the same as the on-campus courses. The five concentrations are available online with only some limitations, as not all CSU courses are available online. The online Bachelor of Science degree in HDFS carries the full accreditation of CSU and is indistinguishable on student transcripts from the on-campus version of the degree. The Gerontology Interdisciplinary Minor and courses required to pursue a variety of certifications are also available online.

Gerontology Interdisciplinary Minor

The Gerontology Interdisciplinary Minor is a 21-23 credit program, housed in HDFS and available on-campus as well as online, that provides students with the opportunity to earn an undergraduate minor in gerontology. The Gerontology Interdisciplinary Minor helps students to develop an understanding of the aging process, including the biological, psychological and social aspects of adult development and aging. Admission is ongoing throughout the year. The full program may be found under University-Wide Instructional Programs.

Graduate

Graduate Programs in Human Development and Family Studies

The Department of Human Development and Family Studies offers two specializations leading to the Master of Science degree in Human Development and Family Studies (HDFS), and one doctoral program in Applied Developmental Science. The focus of the department is the development of the individual and the family throughout the lifespan. Our graduate programs provide students with an advanced understanding of human behavior and development, as well as with skills enabling them to contribute to scholarship and professional practice.

Students interested in graduate work should refer to the Graduate and Professional Bulletin and the Department of Human Development and Family Studies (http://www.hdfs.chhs.colostate.edu/students). (http://hdfs.chhs.colostate.edu/students/masters)

Master Programs

The Master of Science degree in HDFS (Plan A thesis option only) has two specializations, one in Prevention Science and one in Marriage and Family Therapy. Curricula in both programs include core courses in individual development and family theories, issues in HDFS, and research methods, as well as a research thesis.

• Master of Science in HDFS, Prevention Science Specialization
• Master of Science in HDFS, Marriage & Family Therapy Specialization

Ph.D.

• Ph.D. in Applied Developmental Science
