Graduate
Graduate Programs in Public Communication and Technology
The department offers a Master of Science degree in Public Communication and Technology for students aspiring to communication management careers in technical and scientific communication, public relations, or public information for business, industry, government, and educational institutions.

The department’s Ph.D. program in Public Communication and Technology enables students to explore the role of information in the public’s understanding of contemporary issues and the impact of new communication technologies in people’s lives. Doctoral students develop expertise in one of three areas: human behavior and technology, organizations and technology, or social policy and technology.

A description of these programs may be found in the Graduate and Professional Bulletin and the Department of Journalism and Media Communication (http://journalism.colostate.edu).
