

MAJOR IN MATHEMATICS, MATHEMATICS EDUCATION CONCENTRATION

The Major in Mathematics, Mathematics Education Concentration is a professionally oriented program designed to prepare students for a secondary teaching certificate in Mathematics. Students in this concentration take a strong mathematics core, including the proofs-oriented course in advanced calculus required in the other concentrations. The program aims to prepare leaders in secondary education.

Students interested in pursuing a teaching license through CSU may refer to the Center for Educator Preparation (<http://www.cep.chhs.colostate.edu/>) and the School of Education (<http://catalog.colostate.edu/general-catalog/colleges/health-human-sciences/education/>) for general information.
