Continuing Education/CSU Online

Colorado State University Online (http://www.online.colostate.edu) has more than 45 years of experience delivering online and distance education. We support CSU's land-grant mission of expanding access to education. We provide students who cannot or choose not to come to campus opportunities to connect with CSU's renowned faculty, research, and academic curricula. Through CSU Online, more than 10,000 students each year gain a world-class education (http://www.online.colostate.edu/about/csu-rankings.dot) that can be balanced with their professional and personal commitments.

Whether you're just starting down your career advancement path and are in need of a graduate program, or you are looking to finish your bachelor's degree, CSU Online features a comprehensive range of online graduate degrees and online undergraduate degree programs, as well as industry-focused certificates and online undergraduate courses.

As a CSU Online student, you can expect the same quality education from expert faculty, carrying the same esteemed CSU reputation as on-campus students receive. In fact, all of our degrees are regionally-accredited CSU degrees, which is why our graduates receive a CSU diploma that is indistinguishable from one earned by students who attend classes on campus.

In today's job market, it's important to stay current, building and adapting your industry knowledge to reflect change on a regular basis. With CSU Online, you get the academic excellence, convenience, value, and innovation that you need to gain a competitive edge, without the restrictions of time and place. **Student Services and Resources**

In addition to several resources found online, the Student Success Team at CSU Online is here to ensure your experience at CSU is top notch. They’re available to answer any questions you might have about a specific program, online learning, and more. They welcome the opportunity to get to know your story, including what you hope to accomplish with an advanced education, what it will take for you to get there, and which program is the right fit for your goals.

Contact our team today (http://www.online.colostate.edu/contact) to get started planning your educational journey.

**Graduation**

CSU Online students receive the same quality education, taught by expert faculty, marked with an identical diploma as their on-campus counterpart classmates. As such, they are just as much a part of every graduating class as someone who physically attended lectures on-campus. We welcome and encourage our online students to take advantage of the opportunity to turn their tassel at CSU’s graduation ceremonies. CSU Online hosts a special event that recognizes online students and allows them to meet one another, shake hands with their professors, and celebrate with friends and family. See more at CSU Online (http://www.online.colostate.edu/answers/services/graduation.dot).
