Offices in the TILT Building, Room 121

Human Health Professions Advising
CSU does not offer specific “pre-health” majors because health professions programs neither prefer nor recommend particular undergraduate majors. Students interested in a career in the health professions may select a major from among the many choices offered by CSU. After declaring an academic major, a student is assigned an academic advisor from that department to ensure they fulfill the requirements for that major.

Undergraduates who intend to pursue careers in the health professions will want to be sure the courses they take also satisfy the prerequisites for acceptance into one of the professional and post-baccalaureate programs. Health Professions advisors assist students in planning for entrance into accredited programs of dentistry, medicine, nursing, occupational therapy, optometry, pharmacy, physical therapy, physician assistant, podiatry, chiropractic, and other human health professions. Advisors assist students in determining which courses to take, help them gain the experiences needed to make them viable candidates, and assist them in preparing their applications to professional programs.

Pre-Veterinary Medicine Advising
Pre-veterinary advising provides guidance for students in any major who are interested in pursuing a career in veterinary medicine. Placement into professional veterinary medical programs is extremely competitive and a successful applicant needs to be well informed regarding course requirements and other factors considered by veterinary admissions committees.

Students work with their academic advisor to ensure that they fulfill the graduation requirements in their major and the pre-veterinary advisor to be sure that their courses also satisfy admission requirements for professional veterinary programs.

Student Clubs
Offices for several student clubs related to the health professions are located in The Institute for Learning and Teaching (TILT Building) on the Oval. Staff members serve as advisors for the Premedica, Pre-Vet, Pre-Dental, Pre-Occupational Therapy, Pre-Physical Therapy, Pre-Pharmacy, and Pre-Optometry clubs and provide assistance and support for club activities.

More information about Health Professions Advising (http://hp.casa.colostate.edu) may be found on the CASA website.
