ORGANIC AGRICULTURE INTERDISCIPLINARY MINOR

Contact information:
organic.agsci.colostate.edu (http://organic.colostate.edu)

Department of Soil and Crop Sciences
Adriane Elliott (Adriane.Elliott@ColoState.EDU), (970) 491-6984, Plant Sciences C110

Department of Horticulture and Landscape Architecture
Dr. Mark Uchanski (Mark.Uchanski@colostate.edu), (970) 491-4885, Shepardson 211

Coordinated by a Faculty Advisory Board

The Organic Agriculture Interdisciplinary Minor is designed for students with an interest in alternative agricultural production approaches, in particular, organic agriculture. The focus of this program is on the science of organic agriculture with additional courses specifically focused on organic agriculture production techniques, business management, marketing, and decision making. Experiential learning is a critical part of this field of study and found in many levels in discussions, laboratories, and, most importantly, internship experiences.

The program is a cooperative effort of four departments: Agricultural and Resource Economics, Bioagricultural Sciences and Pest Management, Horticulture and Landscape Architecture, and Soil and Crop Sciences. Although participating students will take courses from all four departments, they will receive their degree from their home department, and completion of requirements for the interdisciplinary minor will be noted on their transcript.

Program details are available from Adriane Elliott (Adriane.Elliott@ColoState.EDU) and Mark Uchanski (Mark.Uchanski@colostate.edu). For more information, visit our website at organic.agsci.colostate.edu (http://organic.colostate.edu).

Requirements
Effective Fall 2018

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

Selective Courses (3-4 credits):

- BSPM 302 Applied and General Entomology
- BSPM 303A Entomology Laboratory: General
- BSPM 303B Entomology Laboratory: Horticultural
- BSPM 303C Entomology Laboratory: Agricultural

Group B (3 credits):
- BSPM 308 Ecology and Management of Weeds

Group C (3 credits):
- BSPM 361 Elements of Plant Pathology

Select two courses from the following:

- HORT 450A Horticulture Food Crops: Cool Season Vegetable Production
- HORT 450B Horticulture Food Crops: Warm Season Vegetable Production
- HORT 450C Horticulture Food Crops: Small Fruit Production
- HORT 450D Horticulture Food Crops: Tree Fruit Production
- HORT 452 Viticulture-Grape Production

Select one course from the following:

- LAND 220/LIFE 220 Fundamentals of Ecology (GT-SC2)
- LIFE 320 Ecology
- NR 120A Environmental Conservation (GT-SC2)

Select four credits from the following:

- HORT 344 Organic Greenhouse Production
- SOCR 341 Microbiology for Sustainable Agriculture
- SOCR 343 Composting Principles and Practices
- SOCR 344 Crop Development Techniques
- SOCR 415/BSPM 415 Pollinator Management in Agroecosystems

Program Total Credits: 46-47
