MINOR IN CONSTRUCTION MANAGEMENT

About the Minor
The Construction Management minor is designed to provide students an opportunity to study basic concepts of construction, materials, techniques, design, and managerial skills required for the construction industry. The minor has entrance criteria and consists of nine courses beginning with CON 101. The minor will take students a minimum of five semesters to complete.

How to add the Construction Management minor
Students must meet with a Construction Management advisor to declare interest in the minor and will be given an override to register for CON 101. Once a student satisfies the entrance criteria, the minor will be added and the student will be allowed to register for additional required Construction Management courses. Students are admitted each semester in May and December.

Entrance Criteria:
• Earn a minimum 2.750 cumulative CSU GPA
• Complete CON 101 with a “B” grade or better
• Complete CO 150 with a “B” grade or better
• Complete MATH 125 with a “C” grade or better

Learn more about the Construction Management minor on the Department of Construction Management website (https://www.chhs.colostate.edu/cm/programs-and-degrees/minor-in-construction-management/).

Requirements
Effective Fall 2019
Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.
