

GRADUATE CERTIFICATE IN EVIDENCE-BASED DESIGN

Requirements

This certificate features skill development, theoretical understanding, and linkage to research approaches, assessment of instruments, exposure to professionals engaged in evidence-based projects, and use of the tools and concepts learned in each course applied to evidence-based research projects in the community. Professionals in design, healthcare, education, engineering, construction, and product manufacturing are the target audience of this sequential cohort-based certificate.

Effective Spring 2016

Additional coursework may be required due to prerequisites.

Code	Title	Credits
