

GRADUATE CERTIFICATE IN FACILITATING ADULT LEARNING

Students who earn the Graduate Certificate in Facilitating Adult Learning gain the practical skills needed to effectively design and deliver instruction for learners within a variety of settings including higher education, workplace training, and community settings.

Learning Objectives

1. Prepare professional adult learning facilitators to work in a variety of learning environments within a culturally diverse global context.
2. Assist candidates in becoming critically reflective practitioners capable of conducting and communicating workplace research as it relates to and informs the field of adult learning.
3. Encourage individual and professional growth through exposure to other colleagues and collaborative and project based learning environments.

Requirements Effective Spring 2022

Additional coursework may be required due to prerequisites.
