MAJOR IN ART (B.F.A.), ART EDUCATION CONCENTRATION

The Major in Art, B.F.A., Art Education concentration, embraces the artist-teacher concept, allowing students to develop a strong studio practice and take coursework to prepare to teach art at the K-12 level. Students engage in philosophical and theoretical studies, contemporary pedagogical practices, and arts-based research to prepare for the complexities of the K-12 art studio. Student teaching, field work, and service learning is expected and prepares students to enter a career as an art educator.
