

MAJOR IN HISTORY, DIGITAL AND PUBLIC HISTORY CONCENTRATION

The Digital and Public History Concentration offers an opportunity for focused coursework in public history (i.e. National Parks, historic preservation, cultural resources management, etc.) and digital history, which applies twenty-first century tools and technologies to understand and interpret the past. This concentration also requires an **internship** for at least 3 credits, so students receive real-world experience in these fields before graduation.

History majors who select the Digital and Public History concentration must complete another major or minor offered at CSU (except the minor in History).
