

MASTER OF NATURAL RESOURCES STEWARDSHIP, PLAN C, FOREST SCIENCES SPECIALIZATION

The Master of Natural Resources Stewardship (M.N.R.S.), Plan C, Forest Sciences Specialization is a coursework-intensive professional master's degree. It provides students with a broad natural resources education and specialized resource management expertise in forest sciences.

Students interested in graduate work should refer to the Graduate and Professional Bulletin.

Learning Objectives

Students will:

1. Demonstrate broad knowledge of natural resource issues and management and in depth knowledge in one area of specialization: rangeland ecosystems, forested lands, or ecological restoration.
2. Design natural resource inventory and monitoring programs and collect, process and interpret data.
3. Oversee the preparation of and critically analyze an Environmental Impact Assessment, including its content, structure, and compliance with the intent and legal requirements of the National Environmental Policy Act.
