The Graduate Degree Program in Ecology (GDPE) offers outstanding opportunities for graduate studies ecology, including social-environmental systems. Students can specialize in Human-Environment Interactions as part of their PhD in Ecology degree plan. The HEI program aims to develop students as scientists and policy makers with interdisciplinary problem-solving skills focused particularly on social-environmental approaches to addressing global challenges in the ecological sciences from local to global scales. Students specializing in Human-Environment Interactions engage in independent and collaborative research guided by advisors in the program.

Students interested in graduate work should visit the Graduate Degree Program in Ecology (https://ecology.colostate.edu/) website for more information.
