UNIVERSITY INTERDISCIPLINARY STUDIES PROGRAMS

Graduate
A Graduate Certificate is used to identify the successful completion of a focused area of study deemed important to a student’s career objectives. A Graduate Certificate consists of a minimum of 9 specified credits, and not more than 15 credits at the 500 level or above.

CSU offers interdisciplinary degree programs at the graduate level (listed below). Interdisciplinary degree programs include a series of courses from a variety of academic disciplines. The result of completing an interdisciplinary degree program is a graduate degree. See individual programs below for more details.

Graduate Interdisciplinary Studies Programs (GISPs) are composed of a series of courses focused on a particular problem or area of concern providing multidisciplinary perspectives. No minimum number of credits is specified at the graduate level. Completion of the requirements for an interdisciplinary studies program does not lead to a degree. Credits earned in interdisciplinary studies programs can be used in meeting the requirements for a degree. Courses are noted on the student’s academic record (transcript). Completion of the interdisciplinary studies program is noted on the student’s academic record (transcript) but not on the diploma.
