Graduate Certificate in Evidence-Based Design ......................... 676
Master of Science in Design and Merchandising, Plan A, Apparel and Merchandising Specialization .................. 676
Master of Science in Design and Merchandising, Plan B, Apparel and Merchandising Specialization .................. 676
Master of Science in Design and Merchandising, Plan A, Interior Design Specialization .................................. 677
Master of Science in Design and Merchandising, Plan B, Interior Design Specialization .................................. 677

School of Education ............................................................... 678
Major in Family and Consumer Sciences ................................... 723
Major in Family and Consumer Sciences, Family and Consumer Sciences Concentration .............................. 724
Major in Family and Consumer Sciences, Family and Consumer Sciences Education Concentration ................ 728
Graduate Certificate in Adult Basic Education ......................... 731
Graduate Certificate in Campus Crisis Management ............... 731
Graduate Certificate in Facilitating Adult Learning ................... 732
Graduate Certificate in High Impact On-Demand Learning Solutions ............................................................... 732
Graduate Certificate in Postsecondary Access and Success Programs .............................................................. 733
Graduate Certificate in Student Affairs Administration ............ 733
Graduate Certificate in Student Affairs Management of Auxiliary Enterprises .................................................... 734
Master of Arts in Counseling and Career Development .......... 734
Master of Arts in Counseling and Career Development, Plan B, Career Counseling Specialization .................. 735
Master of Arts in Counseling and Career Development, Plan B, Clinical Mental Health Counseling Specialization .... 735
Master of Arts in Counseling and Career Development, Plan B, School Counseling Specialization ..................... 736
Master of Education in Education and Human Resource Studies, Plan A, Adult Education and Training Specialization ................................................................. 737
Master of Education in Education and Human Resource Studies, Plan B, Adult Education and Training Specialization ................................................................. 738
Master of Education in Education and Human Resource Studies, Education Sciences Specialization .................. 738
Master of Education in Education and Human Resource Studies, Organizational Learning, Performance and Change Specialization .................................................. 739
Master of Science in Student Affairs in Higher Education ......... 740
Ph.D. in Education and Human Resource Studies, Education, Equity, and Transformation Specialization ............... 741
Ph.D. in Education and Human Resource Studies, School Leadership Specialization ........................................ 742
Ph.D. in Education and Human Resource Studies, Higher Education Leadership Specialization ....................... 742
Ph.D. in Education and Human Resource Studies, Organizational Learning, Performance, and Change Specialization ................................................................. 743

Department of Food Science and Human Nutrition .................. 744
Major in Fermentation Science and Technology ....................... 755
Major in Hospitality Management ............................................ 759
Major in Nutrition and Food Science ........................................ 763
Major in Nutrition and Food Science, Dietetics and Nutrition Management Concentration .............................. 764
Major in Nutrition and Food Science, Dietetics and Nutrition Management Concentration, Accredited Didactic Program Option ............................................................... 764
Major in Nutrition and Food Science, Dietetics and Nutrition Management Concentration, Childhood Nutrition Option ................................................................. 768
Major in Nutrition and Food Science, Dietetics and Nutrition Management Concentration, Gerontology Nutrition Option ................................................................. 771
Major in Nutrition and Food Science, Food Safety and Nutrition Concentration .................................................. 775
Major in Nutrition and Food Science, Nutrition and Fitness Concentration .......................................................... 778
Major in Nutrition and Food Science, Nutritional Sciences Concentration .......................................................... 782
Graduate Certificate in Nutrition Sciences ............................... 786
Master of Science in Food Science and Nutrition, Dietetics Option (online) .......................................................... 786
Master of Science in Food Science and Nutrition, Food Science Specialization .................................................. 787
Master of Science in Food Science and Nutrition, Nutrition Specialization .......................................................... 789
Ph.D. in Food Science and Nutrition, Food Science Specialization ................................................................. 791
Ph.D. in Food Science and Nutrition, Nutrition Specialization ................................................................. 792
Minor in Nutrition ................................................................. 794
Graduate Certificate in PreK-12 School Social Worker ....................... 885
Master of Social Work ........................................................................ 886
Ph.D. in Social Work ........................................................................... 887
College of Liberal Arts ...................................................................... 887
Dual Degree in Interdisciplinary Liberal Arts, B.A. and Engineering Science, B.S. ................................................................. 889
Dual Degree in Engineering Science (B.S.) and International Studies (B.A.) .................................................................................. 894
Major in International Studies ............................................................ 903
Major in International Studies, Asian Studies Concentration ............... 904
Major in International Studies, European Studies Concentration ........... 910
Major in International Studies, Latin American Studies Concentration ......................................................................................... 918

Minor in Anthropology ....................................................................... 982
Major in Geography .......................................................................... 983
Minor in Geography .......................................................................... 987
Certificate in Museum and Cultural Heritage Studies .......................... 987
Master of Arts in Anthropology .......................................................... 988
Majors:

**Department of Political Science**
- 1377

**Department of Philosophy**
- 1357

**Major in Political Science**
- 1387

**Major in Political Science, Environmental Politics and Policy Concentration**
- 1393

**Major in Political Science, Global Politics and Policy Concentration**
- 1398

**Major in Political Science, U.S. Government, Law, and Policy Concentration**
- 1404

**Minor in Applied Environmental Policy Analysis**
- 1409

**Minor in Political Science**
- 1410

**Department of Sociology**
- 1410

**Major in Sociology**
- 1418

**Major in Sociology, Criminology and Criminal Justice Concentration**
- 1419

**Major in Sociology, Environmental Sociology Concentration**
- 1424

**Major in Sociology, General Sociology Concentration**
- 1428

**Minor in Criminology and Criminal Justice**
- 1432

**Minor in General Sociology**
- 1433

**Certificate in Sociological Methods**
- 1433

**Warner College of Natural Resources**
- 1433

**Graduate Certificate in Sustainable Military Lands Management**
- 1434

**Minor in Geospatial Information Science for Natural Resources**
- 1435

**Department of Ecosystem Science and Sustainability**
- 1435

**Major in Ecosystem Science and Sustainability**
- 1443

**Major in Watershed Science**
- 1449

**Minor in Watershed Science**
- 1454

**Graduate Certificate in Carbon Management**
- 1454

**Graduate Certificate in Water Resources**
- 1454

**Master of Greenhouse Gas Management and Accounting, Plan C (M.G.M.A)**
- 1455

**Master of Science in Ecosystem Sustainability, Plan A**
- 1455

**Master of Science in Watershed Science, Plan A**
- 1457

**Master of Science in Watershed Science, Plan B**
- 1457

**Professional Science Master's in Ecosystem Science and Sustainability**
- 1458

**Ph.D. in Ecosystem Sustainability**
- 1458

**Ph.D. in Watershed Science**
- 1460

**Department of Fish, Wildlife, and Conservation Biology**
- 1461

**Major in Fish, Wildlife, and Conservation Biology**
- 1468

**Major in Fish, Wildlife, and Conservation Biology, Conservation Biology Concentration**
- 1469

**Major in Fish, Wildlife, and Conservation Biology, Fisheries and Aquatic Sciences Concentration**
- 1475

**Major in Fish, Wildlife, and Conservation Biology, Wildlife Biology Concentration**
- 1482

**Minor in Fishery Biology**
- 1488
Department of Environmental Science and Policy

Major in Environmental Science and Policy ........................................... 1530
Minor in Environmental Science ....................................................... 1531
Minor in Environmental Education ..................................................... 1531

Department of Forestry and Natural Resources

Major in Forest and Natural Resources Management, Plan A ......... 1500
Major in Forest and Natural Resources Management, Plan B ......... 1500
Minor in Forestry Management ....................................................... 1524

Department of Geography

Major in Geography, Physical Geography Concentration ............. 1513
Major in Geography, Human Geography Concentration ............ 1513
Major in Geography, Environmental Geography Concentration .... 1513
Major in Geography, Geology Concentration .................. 1514

Graduate Certificate in Agriculture and Environmental Policy ... 1498

Department of Geosciences

Major in Geology, Geology Concentration ........................................ 1534
Major in Geology, Geology Concentration, Earth Science Specialization .................. 1534
Master of Science in Geosciences, Plan A ................................. 1546
Ph.D. in Geosciences ........................................................................ 1549

# Academic Calendar

## Fall Semester - 2020
- **August 20-21**: Thursday-Friday Orientation
- **August 24**: Monday Classes Begin
- **August 28**: Friday End Restricted Drop
- **August 30**: Sunday End Add Without Override
- **September 7**: Monday Holiday - University Offices Closed - No Classes
- **September 9**: Wednesday Registration Closes - end of period for adding courses - last day for dropping courses without record entry, changes in grade option, and tuition and fee adjustment
- **October 19**: Monday End Course Withdrawals ("W") Period, Repeat/Delete Deadline
- **November 21**: Saturday Fall Recess Begins, No Classes Next Week
- **November 26-27**: Thursday-Friday Holiday - University Offices Closed
- **November 30**: Monday Classes Resume
- **December 11**: Friday Last Day of Classes; University Withdrawal Deadline
- **December 14-18**: Monday-Friday Final Examinations
- **December 23-25**: Wednesday-Friday Holiday - University Offices Closed

## Spring Semester - 2021
- **January 1**: Friday Holiday - University Offices Closed
- **January 14-15**: Thursday-Friday Orientation, Advising and Registration for New Students
- **January 18**: Monday Holiday - University Offices Closed
- **January 19**: Tuesday Classes Begin
- **January 22**: Friday End Restricted Drop
- **January 24**: Sunday End Add Without Override
- **February 3**: Wednesday Registration Closes - end of period for adding courses - last day for dropping courses without record entry, changes in grade option, and tuition and fee adjustment
- **February 11**: Founder’s Day - CSU’s 151st birthday
- **March 13**: Saturday Spring Break Begins - No Classes Next Week
- **March 22**: Monday End Course Withdrawal ("W") Period, Repeat/Delete Deadline
- **March 22**: Monday Classes Resume
- **May 7**: Friday Last Day of Classes; University Withdrawal Deadline
- **May 10-14**: Monday-Friday Final Examinations

## Summer Session - 2021
- **May 17**: Monday 1st 4 Week Terms Begin
- **May 31**: Monday Holiday - University Offices Closed - No Classes
- **June 11**: Friday 1st 4 Week Term Ends
- **June 14**: Monday 2nd 4 Week Term and 8 Week Terms Begin
- **June 23**: Wednesday Census
- **July 5**: Monday Holiday - University Offices Closed - No Classes
- **July 9**: Friday 2nd 4 Week Term Ends
- **July 12**: Monday 3rd 4 Week Term Begins
- **July 26**: Monday Repeat/Delete Deadline
- **August 6**: Friday 8 Week, 12 Week, and 3rd 4 Week Terms End
- **August 10**: Tuesday Grades Due

## Fall Semester - 2021
- **August 19-20**: Thursday-Friday Orientation
- **August 23**: Monday Classes Begin
- **August 27**: Friday End Restricted Drop
- **August 29**: Sunday End Add Without Override
- **September 6**: Monday Holiday - University Offices Closed - No Classes
- **September 8**: Wednesday Registration Closes - end of period for adding courses - last day for dropping courses without record entry, changes in grade option, and tuition and fee adjustment
- **October 18**: Monday End Course Withdrawals ("W") Period, Repeat/Delete Deadline
- **November 20**: Saturday Fall Recess Begins, No Classes Next Week
- **November 25-26**: Thursday-Friday Holiday - University Offices Closed
- **November 29**: Monday Classes Resume
- **December 10**: Friday Last Day of Classes; University Withdrawal Deadline
- **December 13-17**: Monday-Friday Final Examinations
- **December 17-18**: Friday-Saturday Commencement
- **December 21**: Tuesday Grades Due
- **December 22-24**: Wednesday-Friday Holiday - University Offices Closed

## Spring Semester - 2022
- **December 31**: Friday Holiday - University Offices Closed
- **January 13-14**: Thursday-Friday Orientation, Advising and Registration for New Students
- **January 17**: Monday Holiday - University Offices Closed
- **January 18**: Tuesday Classes Begin
- **January 21**: Friday End Restricted Drop
- **January 23**: Sunday End Add Without Override
- **February 2**: Wednesday Registration Closes - end of period for adding courses - last day for dropping courses without record entry, changes in grade option, and tuition and fee adjustment
- **February 11**: Founder’s Day - CSU’s 152nd birthday

</table>
Welcome to Colorado State University! You have joined a campus that is proudly inclusive, and a community where you will discover mentors and life-long friends. Alongside those new friends and guided by those mentors, you will reach for extraordinary goals: To become scholars. To become researchers. To become leaders. To become engaged contributors to our world.

At CSU, our goal is to help you achieve all these goals. This General Catalog will help you navigate the many timelines and deadlines you must keep track of and the many decisions and choices you must make as you pursue your CSU degree. The General Catalog is also the best place to find the answers to questions you may have about University operations and protocols.

Of course, there are questions you won’t find answered here, or questions that may not have just one right answer. What’s one class I should absolutely sign up for this semester? What academic major will most excite and energize me? What do I want to do with my life once I leave campus? How can I begin to make an impact on the world while I am still on campus? For these questions, I urge you to engage with the tremendously talented, passionate faculty and staff around you. Go to office hours. Make—and keep—regular appointments with your advisor. Ask for help whenever you need it, over email or after class, in tutoring centers and the library. Then come back to this General Catalog to ensure you’re on track.

We are so excited to welcome you to CSU. We are here to support you in your pursuit of your most ambitious goals, and we know you will achieve them, becoming the scholars, researchers, leaders and engaged citizens whom we need in our world, today and tomorrow. Go Rams!

Joyce E. McConnell
President

University Mission, Values, and Guiding Principles

Mission

Inspired by its land-grant heritage, Colorado State University is committed to excellence, setting the standard for public research universities in teaching, research, service and extension for the benefit of the citizens of Colorado, the United States and the world.

Values

- Be accountable
- Promote civic responsibility
- Employ a customer focus
- Promote freedom of expression
- Demonstrate inclusiveness and diversity
- Encourage and reward innovation
- Act with integrity and mutual respect
- Provide opportunity and access
- Support excellence in teaching and research

Guiding Principles

CSU is a community dedicated to higher learning in which all members share in pursuit of knowledge, development of students, and protection of essential conditions conducive for learning. These protections are presented in the form of university policies, applicable federal and state laws, and statements of fundamental rights and responsibilities, which govern both the academic setting and the university community as a whole. Some of the policies and expectations described in this Catalog are among those most relevant to students, faculty, and staff; others are focused specifically on the student population but are not intended to serve as an exhaustive list of all policies that pertain to students or life on campus. A complete guide to CSU policies is available online through the Office of Policy and Compliance (http://opc.prep.colostate.edu/).

CSU expects students to maintain standards of personal integrity that are in harmony with the educational goals of the institution; to observe national, state, and local laws, and University regulations; and to respect the rights, privileges, and property of other people. Principles of academic honesty, respect for diversity, and pursuit of lifestyles free of alcohol and drug abuse are examples of these standards. Students are not only members of the academic community; they are, additionally, members of
the larger society and thus retain the rights, protection guarantees, and responsibilities which are held by all citizens.

**Commitment to Diversity**

CSU has a unique mission in the State of Colorado. As a land grant university we are committed to a foundational principle of inclusive excellence recognizing that our institutional success depends on how well we welcome, value, and affirm all members of the CSU community. Only through the inclusion of the rich diversity of students, staff, faculty, administrators, and alumni can we truly be excellent in our pursuits.

Our inclusive excellence efforts hinge on four key ideas:

**Broad and inclusive definition of diversity.**

We recognize that to truly be inclusive we must draw attention to the depth and breadth of the diversity represented at CSU. Our definition includes age, culture, different ideas and perspectives, disability, ethnicity, first generation status, familial status, gender identity and expression, geographic background, marital status, national origin, race, religious and spiritual beliefs, sex, sexual orientation, socioeconomic status, and veteran status. We also recognize that the historical exclusion and marginalization of specific social groups must be addressed to promote equity.

**Inclusiveness and excellence are interdependent.**

We recognize that to continue to stay current in the global marketplace and stay relevant in an increasingly diverse world, we must embody inclusion. To practice inclusiveness is excellence.

**Everyone is responsible for inclusive excellence.**

All members of the campus community (administrators, faculty, staff, students, and alumni) must recognize and assume responsibility for the climate of the university. A unit or person can drive the process, but every individual at CSU assumes responsibility for positive change.

**Inclusive excellence goes beyond numbers.**

Historically, diversity has been gauged by demographics or numbers; we must move beyond solely numbers toward an inclusive community that embeds diversity throughout the institution in multiple areas including demographics, policies, and communications; curriculum, pedagogy, and student learning; recruitment, hiring and retention, evaluation and supervision.

Achieving inclusive excellence is a long-term commitment and must have a comprehensive broad approach, embedding appreciation of all members and inclusion best practices into the very fabric of CSU’s organizational culture.

**Equal Opportunity and Nondiscrimination**

Colorado State University does not discriminate on the basis of race, age, creed, color, religion, national origin or ancestry, sex, gender, disability, veteran status, genetic information, sexual orientation, gender identity or expression, or pregnancy and will not discharge or in any other manner discriminate against employees or applicants because they have inquired about, discussed, or disclosed their own pay or the pay of another employee or applicant. Colorado State University is an equal opportunity/equal access/affirmative action employer fully committed to achieving a diverse workforce and complies with all Federal and Colorado State laws, regulations, and executive orders regarding non-discrimination and affirmative action. Accordingly, equal access and opportunity in treatment, employment, admissions, programs and activities shall be extended to all persons. The University shall promote equal opportunity and treatment in employment through a positive and continuing affirmative action program for ethnic minorities, women, persons with disabilities, and veterans. The Office of Equal Opportunity (http://oeo.colostate.edu/) is located in 101 Student Services Building.

The Title IX Coordinator is the Vice President for Equity, Equal Opportunity, and Title IX, 123 Student Services Building, Fort Collins, CO 80523-0160, (970) 491-1715.

The Section 504 and ADA Coordinator is the Vice President for Equity, Equal Opportunity, and Title IX, Office of Equal Opportunity, 101 Student Services Building, Fort Collins, CO 80523-0160, (970) 491-5836.

Admission of students, employment, and availability and access to CSU’s programs and activities are made in accordance with these policies of nondiscrimination. Off campus householders who desire to list student accommodations with CSU must certify that they will comply with CSU’s policy on nondiscrimination in student housing.

Any student or University employee who encounters acts of discrimination, either on or off campus, is urged to report such incidents to the Office of Equal Opportunity (http://oeo.colostate.edu/) of CSU, located in 101 Student Services, 970-491-5836. Any person who wishes to discuss a possible discriminatory act without filing a complaint is welcome to do so.

Any of the above discriminatory acts can also be the subject of complaints to the Department of Education, Office for Civil Rights, as well as to the Office of Federal Contract Compliance Programs, Equal Employment Opportunity Commission, and the Colorado Civil Rights Division; information on filing complaints with any of these agencies is available in the Office of Equal Opportunity (http://oeo.colostate.edu).

**Freedom from Personal Abuse**

CSU acknowledges the right of all people to freedom from personal abuse. Abusive treatment of individuals on a personal or stereotyped basis prevents the attainment of CSU’s objective to create and maintain an environment that supports, nurtures, and encourages people to excel in teaching, learning, and creativity. Therefore, CSU deplores, condemns, and will act energetically to prevent all forms of personal abuse, including sexual harassment. For statements of university policy concerning discrimination, harassment, sexual harassment, and other misconduct, see the University Policies section of this Catalog.

**Principles of Community**

The Principles of Community (https://diversity.colostate.edu/resources/principles-of-community/) support the Colorado State University mission and vision of access, research, teaching, service and engagement. A collaborative and vibrant community is a foundation for learning, critical inquiry, and discovery. Therefore, each member of the CSU community has a responsibility to uphold these principles when engaging with one another and acting on behalf of the University.

**Inclusion:** We create and nurture inclusive environments and welcome, value and affirm all members of our community, including their various identities, skills, ideas, talents and contributions.

**Integrity:** We are accountable for our actions and will act ethically and honestly in all our interactions.
Respect: We honor the inherent dignity of all people within an environment where we are committed to freedom of expression, critical discourse, and the advancement of knowledge.

Service: We are responsible, individually and collectively, to give of our time, talents, and resources to promote the well-being of each other and the development of our local, regional, and global communities.

Social Justice: We have the right to be treated and the responsibility to treat others with fairness and equity, the duty to challenge prejudice, and to uphold the laws, policies and procedures that promote justice in all respects.

Campus Map

Interactive Campus Maps (http://maps.colostate.edu/)

University Welcome Center

Ammons Hall

The University Welcome Center in Ammons Hall serves as CSU’s official front door for our visitors and friends. Located on the historic Oval, the Welcome Center offers general information about campus and the Fort Collins community.

Admissions Tours for Prospective Students

Ammons Hall is also home to the Office of Admissions. Daily information sessions and tours (https://admissions.colostate.edu/visit-campus/
The following is a listing of university policies that are of particular interest to students and their families. A complete guide to University Policies is available in the online CSU Policy Library (http://policylibrary.colostate.edu/).

Campus Safety and Clery Act
Consensual Relationships
FERPA (Student Privacy)
Freedom of Expression and Inquiry
Free Speech and Right to Peaceful Assembly
Hazing
Sexual Harassment, Sexual Assault, Sexual Misconduct, Domestic Violence, Dating Violence, Stalking, and Retaliation
Alcohol and Sexual Assault Education
Students’ Rights
Students’ Responsibilities
State Authorization Compliance
Public Health Emergency Notification

Emergency Notifications and Timely Warnings

The Clery Act requires the university to notify the campus community about serious threats to safety on or near campus. When there is an immediate threat to health and safety on or approaching the physical grounds of campus, the university will issue an emergency notification to students, faculty and staff. When appropriate, the University may choose to limit the recipients of the notification to those directly affected by the threat, and in these instances it is not released campus-wide. Notifications may be made through any or all of the following methods:

• CSU emergency e-mail system
• Emergency text alert system
• Posting to the safety website (http://safety.colostate.edu) (safety.colostate.edu)
• Social media (CSUPD/Public Safety Team Facebook and Twitter, and also the main university social media platforms)
• Mass notification (via recorded emergency telephone calls from CSUPD)
• Emergency alert cable television system
• In-person notifications by police officers to specific audiences
• Flyers with safety information distributed to key buildings
• Outdoor digital signs located on campus
• CSU's online newsletter, SOURCE (https://source.colostate.edu/)
• Parent and Family online newsletter (https://parentsandfamily.colostate.edu/) and social media accounts (called Colorado State Parents & Families on Facebook)
• CSU status recorded line 970-491-7669

When a crime covered under the Clery Act has been committed on campus property, but the facts do not indicate that the issuance of an emergency notification is appropriate, then the university may determine that a timely warning notification should be issued. A timely warning may also be shared if a crime occurs off-campus if it occurs on property covered by the Clery Act. The purpose of a timely warning is to keep the campus community informed about safety and security issues on an ongoing basis and to aid in the prevention of similar crimes. To warrant a timely warning, the crime committed must be determined by university safety officials to constitute a serious and continuing threat to students and/or employees. Such a warning puts the community on alert, helps to educate students and employees about dangers on campus, and in some cases, may even lead to the apprehension of a suspect or reduction of the threat. Timely warnings may be issued through any of the methods listed above for emergency notifications.

Emergency email and text notification systems will be tested periodically (usually three times per year after student census), using test messages.

For more information about emergency notifications and timely warning procedures, see the Annual Fire and Safety Report (https://safetyreport.colostate.edu/).

Missing Student Notification

When a student who resides in university housing is reported missing, the University will initiate an investigation to determine whether the student is indeed missing. If there is good cause to believe the student is missing, the University may, among other measures, attempt to contact the individual or individuals designated by the student as confidential emergency contacts. Where the reportedly missing student
is an unemancipated minor under the age of 18, the student’s parents or guardian may be contacted. CSU Police will also be contacted, if they have not already been notified of the concern.

If you believe a CSU student is missing, you should immediately contact the CSU Police Department by calling (970) 491-6425. See the missing student notification procedures in the Annual Fire and Safety Report (https://safetyreport.colostate.edu/) for more information.

Registered Sex Offenders
The CSU Police Department is required to notify the CSU community about where public information regarding registered sex offenders can be obtained. A current listing of sex offenders is available at the Colorado Bureau of Investigation Convicted Sex Offender Site (https://www.colorado.gov/apps/cdps/sor/).

CSU Police Department Services
The CSU Police Department offers additional services to the CSU community.

Consensual Relationships
CSU is committed to the principle that its personnel shall carry out their duties in an objective and ethical fashion and in an atmosphere in which conflicts of interest are identified and managed. CSU does not interfere with private choices regarding personal relationships when these relationships do not interfere with the goals and policies of CSU. However, consensual romantic or sexual relationships in which one party retains a direct supervisory or evaluative role over the other party have the potential to interfere with these goals and policies. Therefore, consistent with its commitment to objectivity and ethical behavior, CSU is required to intervene in such circumstances.

A romantic, intimate, or sexual relationship in which one individual is in a position to exercise authority over the other creates conflicts of interest and perceptions of undue advantage or disadvantage. When both parties have consented at the outset to a romantic, intimate, or sexual relationship, this consent does not remove grounds for a charge of conflict of interest, sexual harassment, or violation of applicable parts of CSU’s Code of Ethical Behavior, based upon subsequent unwelcome conduct. Pursuant to this policy, faculty members are prohibited from entering into consensual, intimate relationships with students over whom they exercise authority. Refer to the full CSU Policy on Consensual Relationships (https://oeo.colostate.edu/consensual-relationships/) for scope, definitions, applicability, and requirements, along with procedures for reporting any violation of such policy.

Retaliation against persons who report concerns about consensual relationships is also prohibited and constitutes a violation of this policy.

FERPA (Student Privacy)

Family Educational Rights and Privacy Act

Students have certain rights concerning their “education records” under the Family Educational Rights and Privacy Act (FERPA), as amended, 20 U.S.C. §1232g, et seq. These include:

1. The right to inspect and review the student’s education records within 45 days of the day CSU receives the request for access.

   All enrolled and former students may access their education records maintained by CSU. Written requests identifying the record(s) to be inspected should be submitted to the Registrar’s Office, or, in the case of graduate students, to the Graduate School. The CSU official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the CSU official to whom the request was submitted, that official will advise the student of the correct official to whom the request should be addressed. A student may receive one copy of each item of information contained in the education record at a cost of $.25 per page (charge subject to change).

2. The right to request the amendment of the student’s education records that the student believes are inaccurate or misleading.

   Students may ask CSU to amend a record that they believe is inaccurate or misleading as recorded or reported in that record. They should write the CSU official responsible for the record, clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading.

   If CSU decides not to amend the record as requested by the student, CSU will notify the student of the decision and advise the student of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

3. The right to consent to disclosure of personally identifiable information (defined below) contained in the student’s education records, except to the extent that FERPA authorizes disclosure without consent.

   Individuals and agencies having access to a student’s records without the student’s consent include “school officials,” defined below, with legitimate educational interests; parents claiming a student as a dependent on their federal income tax; scholarship and other financial aid organizations supporting the student; organizations conducting studies for, or on behalf of, educational agencies or institutions for the purpose of developing, validating, or administering predictive tests, student aid programs, or to improve instruction; organizations carrying out accrediting functions of programs offered by CSU; appropriate person(s) in an emergency; and any party designated by judicial order or subpoena, provided that, except for subpoenas and orders issued for law enforcement purposes, CSU first notifies the student of the order or subpoena. Any other individual or organization must have a student’s written consent to view or have access to the education record.

   For purposes of disclosure of information about the student to school officials with legitimate educational interests, a “school official” is a person employed by CSU in an administrative, supervisory, academic or research, or support staff position (including law enforcement unit personnel in an educational role and health staff); a person or company with whom CSU has contracted (such as an attorney, auditor, or collection agent); a person serving on the governing board of CSU; or a student serving on an official committee, or in a volunteer capacity, such as a peer mentor or member of a disciplinary or grievance committee, or assisting another school official in performing assigned tasks. Such officials have legitimate educational interests when they need to review a student’s education records to fulfill their responsibilities to CSU. As an example of a company with whom CSU has contracted, CSU works with the National Student Clearinghouse which provides an Enrollment Verification Certificate and/or degree verification to students and vendors indicating whether
the students are enrolled for part-time or full-time status at CSU, or have received a degree.

4. Furthermore, CSU discloses students’ education records without consent, upon request, to officials of other schools in which a student seeks to or intends to enroll.

Students can authorize the release of their education records through FAMweb (http://parentsandfamily.colostate.edu/famweb/), a secure online portal that provides limited access to a student’s education records to families and trusted individuals designated by the student. In RAMweb (https://ramweb.colostate.edu/registrar/Public/Login.aspx), the secure online student portal, the student sets permissions to allow others to use FAMweb to access certain categories of education records that are frequently requested for release. The following types of student information can be viewed in FAMweb:

- eBilling information
- Grades for the last completed term
- Unofficial transcript
- Class schedule for the semester in session
- Tax information

An exception to the requirement for prior authorization for release of records exists for public release of “directory information” which is published in university directories and may be released to third parties. FERPA allows a student to limit the release of directory information; see the Office of the Registrar (https://registrar.colostate.edu/student-privacy-ferpa/) for procedures to apply restrictions on directory information.

CSU defines “directory information” as the following:

- Student name
- E-Mail address
- Telephone number
- Major field of study
- Classification level (freshman, sophomore, junior, senior, graduate)
- Dates of attendance
- Current or previous enrollment status (full-time, half-time, three-quarters, and/or less than half-time)
- Anticipated date/term of graduation and expected degree(s)
- Honors and degrees awarded
- Participation in officially recognized activities and sports
- Height and weight of athletic team members
- Video and photographic images of students, with the exception of the official CSU identification photograph

5. The right to file a complaint with the U.S. Department of Education concerning alleged failures by CSU to comply with the requirements of FERPA. The name and address of the office that administers FERPA is: Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Ave. SW, Washington, DC 20202-4605.

Freedom of Expression and Inquiry

The faculty of CSU considers freedom of discussion, inquiry, and expression to be in keeping with the history and traditions of our country and to be a cornerstone of education in a democracy. CSU is committed to valuing and respecting diversity, including respect for diverse viewpoints. If any members of our campus community (students, faculty, or staff) feel that they have been treated unfairly because of their views, they should contact the Student Resolution Center (https://resolutioncenter.colostate.edu/). The policy of CSU is to encourage members of the CSU community to engage in discussion, to exchange ideas and opinions, and to speak, write, and publish freely in accordance with the guarantees and limitations of our state and national constitutions.

Faculty and students have not only a right, but also a responsibility, to examine critically the insights, understandings, values, issues, and concerns which have evolved in the various areas of human activity. Consequently, it is the policy of the University that CSU-registered student organizations may extend invitations for guest lecturers, exhibitors, performers, and exhibitions of works of art with no restrictions of form or content other than those imposed by law. It is understood that inviting a speaker, performer, or exhibit does not imply concurrence of the CSU or of the sponsoring organization with the opinions, beliefs, or values expressed.

In exercising their rights, members of the CSU community should understand that the public may judge the institution by their actions. Hence, they should at all times strive to be honest and accurate, exercise appropriate restraint, and show appropriate respect for the opinions of others.

Free Speech and Right to Peaceful Assembly

CSU acknowledges the rights of students and others to engage in free speech and to assemble in groups for peaceful purposes. At such gatherings, CSU expects the rights and privileges of all persons to be respected and that there will be no endangerment to health or safety. Such gatherings must in no way disrupt the normal conduct of University affairs or endanger University property.

CSU may, consistent with the constitution, establish reasonable regulations regarding the time, place, and manner in which persons...
exercise their free speech rights to the extent necessary to prevent disruption of the normal conduct of University affairs or endangerment of health and safety of persons or damage to property. Accordingly, persons planning such assemblies on the CSU campus must coordinate their activities and plans in advance through the Lory Student Center Event Planning Services (http://lsc.colostate.edu/services/event-planning-services/) or Facilities Management (http://www.fm.colostate.edu/events/). The sponsoring individual or group must assume responsibility for compliance with all state and municipal laws and CSU policies. Assistance from staff is available to help plan such events, and the assistance of University police may be requested to help with traffic or crowds.

Any act by demonstrators or groups which interferes with the rights of others, disrupts the normal functioning of CSU, damages property, or endangers health or safety may be grounds for suspension or dismissal from the University and/or removal from University property. In addition, such actions may also be the basis for criminal charges by law enforcement authorities. Demonstrations are prohibited in any special-use facility, classroom, and in any place or manner that interferes with educational and other normal functions and operations of the institution. Demonstrators refusing to vacate premises upon request are subject to immediate temporary suspension and arrest under applicable municipal and state laws.

Commercial speech may be regulated by the University to a greater extent than noncommercial speech and expressive activities. Commercial speech is any form of expression or activity that is primarily intended to advertise, market, sell, or promote goods and services on behalf of any person or entity that is not a CSU department or affiliated organization. Soliciting for contributions or donations is included in the definition of commercial speech. The University is under no obligation to make any campus areas or facilities available for commercial activities. When permitted, commercial speech should promote an educational, rather than commercial atmosphere on campus, prevent exploitation of students, and preserve the tranquility of the campus. In order to promote these objectives, the Campus Activities Director acts as, or may designate, a coordinator for commercial events held on campus, including (but not limited to) events at the Lory Student Center Plaza. The coordinator is responsible for working with student organizations, other sponsors, and vendors to assure that events are in accordance with University regulations.

To learn more about the University’s policy on the rights to free speech and peaceful assembly, visit the CSU Policy Library website (http://policylibrary.colostate.edu/policy.aspx?id=696).

**Hazing**

Hazing is against the law in Colorado and is a violation of the Student Conduct Code that may result in discipline of individuals and student organizations who engage in such conduct. Hazing means any act that endangers the mental, physical, or emotional health or safety of a student, or that destroys or removes public or private property for the purpose of initiation, admission into, affiliation with, or as a condition for continued membership in a group or student organization. It includes participating in, condoning, encouraging, requiring, or allowing an opportunity for hazing. A hazing violation may occur even when the victim expressed or implied consent. For more information regarding hazing, resources available to students who may encounter it, and how to report instances of hazing, see the CSU End Hazing website.

**Sexual Harassment, Sexual Assault, Domestic Violence, Dating Violence, Stalking, and Retaliation**

CSU is committed to providing an environment that respects the dignity and worth of every member of its community. CSU strives to create and maintain a work and study environment that is equitable, fair, and inclusive, so that each member of the CSU community is treated with dignity and respect and is rewarded for relevant considerations such as ability and performance. CSU has adopted a sexual harassment policy to define the types of conduct that are prohibited and to prevent harm arising from sex discrimination, which includes sexual harassment. In turn, sexual harassment includes sexual assault, domestic violence, dating violence, stalking, and retaliation as defined under Title IX of the Higher Education Amendment of 1972. Conduct that is discriminatory or harmful under the policy inhibits the achievement of the stated goals. All students, faculty, staff, and other persons having business with CSU are expected to know and follow this policy.

Details regarding what constitutes sexual harassment under Title IX, how to make a report of sexual harassment, what is involved in bringing a complaint and the procedures for informal and formal resolution are available from the Office of Title IX Programs and Gender Equity for matters involving students and non-students such as faculty, staff, affiliates, or visitors. CSU has appointed an Interim Title IX Coordinator, whose contact information is:

Diana Prieto, Vice President for Equity, Equal Opportunity and Title IX/Interim Title IX Coordinator  
Office of Title IX Programs and Gender Equity (https://titleix.colostate.edu/)  
123 Student Services Building (Corner of University Ave & Libby Coy Way)  
Fort Collins, CO 80523-0160  
(970) 491-1715  
Email: titleix@colostate.edu

**Alcohol and Sexual Assault Education**

CSU is committed to providing a safe campus for all students and promoting a culture of respect, dignity, and safety. As a result, CSU requires students to complete the Sexual Assault Prevention and AlcoholEdu online programs.

All enrolled students are required to complete the Sexual Assault Prevention online module, which educates students on issues associated with stalking, relationship violence, and sexual assault. Students learn about consent, how to help a friend, and how to intervene in a situation that might escalate to sexual assault. Built in collaboration with leading researchers and practitioners, Sexual Assault Prevention is an interactive module designed to engage and empower students to create safe and healthy campus environments. This course meets the educational mandate of the 2013 Federal Campus Sexual Violence Elimination Act.

AlcoholEdu for College is an interactive, online program designed to inform students about how alcohol affects the body, mind, perceptions, and behaviors. The research-based course offers accurate information
in a non-judgmental tone, while providing personalized feedback that encourages students to consider their own drinking decisions and those of their peers. Undergraduate students under age 23 must complete the AlcoholEdu Program. Even if students don’t drink, they may still be impacted by alcohol use in the college environment.

Incoming students who must meet these requirements can access the online programs through RAMweb thirty (30) days in advance of the first day of classes on their first enrolled semester at CSU.

More information about these important programs is available on the CSU Health Network (http://health.colostate.edu/new-student-checklist/) New Student Checklist web page (https://health.colostate.edu/new-student-checklist/#alcoholedu).

**Students' Rights**

As members of the CSU community, students can reasonably expect the following:

1. Students have the right to freedom from discriminatory harassment on the basis of race, color, gender identity or expression, sexual orientation, genetic information, religion, creed, political beliefs, veteran status, pregnancy, national origin or ancestry, age, or disability.
2. The University shall not interfere with the rights of students to join associations.
3. Students should have accurate information relating to maintaining acceptable academic standing, graduation requirements, program student learning outcomes, and individual course objectives and requirements.
4. Student records will be maintained in keeping with the Family Educational Rights and Privacy Act of 1974 and subsequent amendments and the guidelines for implementation.
5. In all instances of general discipline, academic discipline, and academic evaluation, the student has the right to fair and impartial treatment.
6. CSU considers freedom of inquiry and discussion essential to a student’s educational development. Thus, the University recognizes the right of all students to engage in discussion, to exchange thought and opinion, and to speak, write, or print freely on any subject in accordance with the guarantees of Federal and State constitutions. This broad principle is the cornerstone of education in a democracy.
7. Students have the right to be free from illegal searches and seizures.
8. Students have the right to freely exercise their full rights as citizens. In this light, the University affirms the rights of students to exercise their freedoms without fear of University interference for such activity.

**Student Bill of Rights**

The Colorado Student Bill of Rights, Colo. Rev. Stat. § 23-1-125, guarantees certain rights and expectations for various aspects of student academic life including advising, transferability of credits, and degree completion.

One such right is that a student may enter into an agreement with the University to formalize a plan to obtain a degree in four years (§ 23-1-125(1)(b), C.R.S.). CSU supports this timeline for graduation by publishing advising guidelines under which a student may expect to graduate in four years, and also maintains Major Completion Maps. Major Completion Maps are designed to assist students and their advisors in building a semester-by-semester course schedule that will enable students to complete their baccalaureate degree within the minimum number of semesters established in the major’s program of study. Major Completion Maps have been approved through the University’s curriculum process. Review CSU Major Completion Maps on the "Major Completion Map" tab for each undergraduate program of study listed in this General Catalog.

There are some majors that a student may not be able to complete in four years because of additional degree requirements recognized by the Colorado Department of Higher Education.

The Bill of Rights also includes:

§ 23-1-125. Commission directive - student bill of rights - degree requirements - implementation of core courses - competency test - prior learning

1. Student bill of rights. The general assembly hereby finds that students enrolled in public institutions of higher education shall have the following rights:
   a. Students should be able to complete their associate of arts and associate of science degree programs in no more than sixty credit hours or their baccalaureate programs in no more than one hundred twenty credit hours unless there are additional degree requirements recognized by the commission;
   b. A student can sign a two-year or four-year graduation agreement that formalizes a plan for that student to obtain a degree in two or four years, unless there are additional degree requirements recognized by the commission;
   c. Students have a right to clear and concise information concerning which courses must be completed successfully to complete their degrees;
   d. Students have a right to know which courses are transferable among the state public two-year and four-year institutions of higher education;
   e. Students, upon completion of core general education courses, regardless of the delivery method, should have those courses satisfy the core course requirements of all Colorado public institutions of higher education;
   f. Students have a right to know if courses from one or more public higher education institutions satisfy the students’ degree requirements;
   g. A student’s credit for the completion of the core requirements and core courses shall not expire for ten years from the date of initial enrollment and shall be transferable [sic].

**Student Bill of Rights**

Students’ Rights Regarding Their Education Records
Right to Discuss Concerns with Department Heads/Chairs
Right to File a Grade Appeal
Right to File a Complaint
Right to Seek Membership in Student Organizations
Victims’ Rights
Resources
Students’ Rights Regarding Their Education Records

Students have certain rights concerning their “education records” under the Family Educational Rights and Privacy Act (FERPA), as amended, 20 U.S.C. 1232g et. seq. Please see the FERPA (Student Privacy) section of this catalog for more information on FERPA.

Right to Discuss Concerns with Department Heads/Chairs

Academic department heads are expected to incorporate student input into decisions affecting academic instruction, advising, and student learning assessment. This input usually takes form through departmental advisory committees and student evaluation of faculty members. Individual students, however, may make appointments with their department heads to discuss specific problems, plans, or suggestions.

Right to File a Grade Appeal

Instructors are responsible for stating clearly the instructional objectives of the course at the beginning of each term and for evaluating student achievement in a manner consistent with these objectives. Students are responsible for maintaining standards of academic performance established for each course in which they are enrolled. Instructors are responsible for determining and assigning final course grades. Graded examinations, papers, and other materials used as a basis for evaluating a student’s achievement will be available to the student for inspection and discussion.

Students may appeal instructors’ grading decisions. The burden of proof, however, rests with the student. More information is available in Grading.

Right to File a Complaint

CSU is committed to treating all students fairly and respectfully. CSU’s policies that apply to students are published annually in the General Catalog, in addition to those found in other resources from individual departments and offices. In an instance of perceived violation of a CSU policy, a student may file a complaint in accordance with the Student Complaint Reporting (http://policylibrary.colostate.edu/policy.aspx?id=603) policy.

When a student encounters a problem on campus that they do not know how to resolve, they should always try to work the problem out by first discussing it with those involved. Dealing with concerns in the most direct and honest fashion should always be the first step toward resolution. Many problems are resolved when a student makes an appointment with a faculty or staff member and calmly and honestly communicates their concerns.

If, however, an issue or problem still exists, a student may initiate the formal complaint procedures at CSU. All formal complaints must be put in writing and must be signed by the student (including electronic or digital facsimile signatures clearly attributable to the student—for example, the student’s name in an email message received from their CSU email account). A Student Complaint Form is provided as a tool for presenting a written complaint, but is not required.

Procedures for Filing a Written Complaint

1. Attempt an informal resolution of the matter as noted above.
2. Complete the Student Complaint Form and mail, email, or deliver it to the VPSA by mail, email, or campus delivery to:
   - Vice President for Student Affairs
   - Attn: Dean of Students
   - 201 Administration Building
   - 8004 Campus Delivery
   - Fort Collins, CO 80523-8004
   - email: VPSA@colostate.edu
   - Tel: (970) 491-5312
   - Fax: (970) 491-7025

The VPSA Office will notify you with an acknowledgement that the complaint was received.

NOTE: All Student Complaints must be submitted in writing. A complaint reported by telephone will not be considered as submitted for review.

Complaint Review and Resolution Process

The VPSA Office is not an advocate for any party to a dispute but is an advocate for a fair process. Acting as a neutral, third party, the Dean of Students or their designee will first attempt to resolve the complaint by working with the student and the appropriate CSU employees and officials to assure a fair process. The Dean of Students may refer the matter to the Student Resolution Center for assistance in attempting an informal resolution. This assures that the complaint is considered by the appropriate officials and receives an impartial review.

If the matter is not able to be resolved informally, the Dean of Students will forward the complaint to the appropriate CSU Vice President or other official for further review and attempt to resolve the matter. If the matter is still not resolved to the Student’s satisfaction, the Dean of Students will help identify other resources that may be available to the Student including any appeals that may be available from agencies external to CSU, including the Colorado Department of Higher Education (CDHE) and Higher Learning Commission (HLC). Contact information for these agencies is provided in the full policy document (http://policylibrary.colostate.edu/policy.aspx?id=603).

The complete policy and procedures for filing a student complaint is available through the Policy Library (http://policylibrary.colostate.edu/).

Right to Seek Membership in Student Organizations

CSU officially recognizes a great variety of student organizations. Policies established by the Board of Governors prohibit any recognized student organization from excluding students from membership on the basis of race, age, creed, color, religion, national origin, ancestry, sex, gender, disability, veteran status, genetic information, sexual orientation, gender identity or expression, or pregnancy.

All recognized student organizations must assure CSU that their membership policies and procedures are in compliance with this policy.
Local chapters of regional, national, or international organizations must assure CSU that membership policies of the parent organization do not require the local chapter to exclude any student from membership on the basis of race, age, creed, color, religion, national origin, ancestry, sex, gender, disability, veteran status, genetic information, sexual orientation, gender identity or expression, or pregnancy.

Victims’ Rights

The University is committed to providing appropriate support and referrals to persons who have been the victims of crimes or violations of University Policy or the Student Conduct Code. A victim of another person’s unlawful or prohibited actions may seek personal support, explore options, and report the incident.

Confidential services are available through the Victim Assistance Team (http://www.wgac.colostate.edu/support/), University Counseling Center (https://health.colostate.edu/about-counselling-services/), CSU Health Network (http://health.colostate.edu/), and Student Legal Services (http://sls.colostate.edu/). Other University agencies may be required by law and University policy to take appropriate action when notified. Victims may receive assistance from other appropriate University resources, such as relocation within or to campus housing; academic support services; notification of appropriate persons/agencies; University resources, such as relocation within or to campus housing; academic support services; notification of appropriate persons/agencies; and, at the victim’s request, University cooperation in using University procedures to deter harassment or retribution.

Students are encouraged to report complaints of:

- Sexual harassment or discrimination to the Office of Equal Opportunity (http://oeo.colostate.edu/; (http://oeo.colostate.edu/)
- Crimes to the Colorado State University Police (http://police.colostate.edu/);
- Violations of the Student Conduct Code to University Housing staff (https://housing.colostate.edu/halls/policies/) or Student Conduct Services at the Student Resolution Center (https://resolutioncenter.colostate.edu/);
- Interpersonal and sexual violence to the Office of Equal Opportunity - Title IX (https://oeo.colostate.edu/title-ix-sexual-assault-sexual-violence-sexual-harassment/), Office of Support and Safety Assessment (http://www.supportandsafety.colostate.edu/), Colorado State University Police (http://police.colostate.edu/), and Victim Assistance Team (http://www.wgac.colostate.edu/support/) (confidential resource);
- Violations of their right to free speech in the classroom directly to the instructor involved or the department chair or Student Conduct Services (https://resolutioncenter.colostate.edu/) at the Student Resolution Center.

Sexual Misconduct Reporting Exemption: The University encourages reporting of sexual misconduct by the impacted party or others who are aware of sexual misconduct incidents. To encourage reporting, it is the practice of Student Conduct Services (https://resolutioncenter.colostate.edu/) to not charge reporting parties for other, lesser violations of this Student Conduct Code that may be related to the sexual misconduct incident. For example, a student who may have been under the influence of drugs or alcohol at the time of experiencing or witnessing a sexual misconduct incident will not be charged with drug or alcohol violations in connection with the reported incident.

Resources

Students who have questions, concerns, or need assistance with application of rights listed above may contact the pertinent resource including: Student Resolution Center, Office of the Vice President for Student Affairs, Office of Equal Opportunity, Provost/Executive Vice President’s Office, or academic department office. If unclear as to which office to approach, begin with the Student Resolution Center (https://resolutioncenter.colostate.edu/).

Students’ Responsibilities

CSU has twice been ranked among the nation’s Top Character Building Institutions (http://campusofcharacter.colostate.edu/) by the Templeton Foundation. Through curricular and co-curricular programs, students at CSU develop knowledge and skills to engage as respectful citizens in a diverse society, recognize the implications of their many choices, and become ethically responsible individuals. The policies that follow reflect CSU’s continuing commitment to uphold the highest standards of ethical responsibility and conduct.

Classroom Behavior

Student Health Insurance Requirement
First Year Residence Hall Requirement
Academic Integrity/Misconduct
CSU Student Conduct Code

Classroom Behavior

The classroom instructor is responsible for controlling the conduct of the class and the demeanor and behavior of the students in exercising classroom discipline, subject to accepted departmental, college, and University standards and practices. CSU policy permits only enrolled students, persons authorized by the instructor, and administrative personnel to be admitted to instructional areas during scheduled periods. CSU policy and Colorado state law also prohibit all forms of disruptive or obstructive behavior in academic areas during periods of scheduled use or any actions which would disrupt scheduled academic activity. Use of classrooms and other areas of academic buildings during nonscheduled periods is permitted only in accordance with departmental, college, or CSU practices.

Any person or persons in unauthorized attendance or causing a disturbance during scheduled academic activity shall be identified by the instructor and asked to leave. Persons refusing such a request may be removed by the CSU police and are liable to legal prosecution and/or disciplinary action.

Student Health Insurance Requirement

Domestic students taking six or more resident instruction credits, and all INTO and international students enrolled in any credit level, are required to have health insurance. Eligible students will be automatically enrolled in the CSU Student Health Insurance Plan (http://health.colostate.edu/student-health-insurance/) unless they waive coverage by showing proof of private health insurance.
First Year Residence Hall Requirement

Experience and research has demonstrated that students who live on campus adjust to college life faster, have higher GPAs, and are more likely to graduate than students who live off campus. For this reason, all newly admitted first-year students without previous college experience, who are single, under 21 years of age, and not living with their parents in the Fort Collins area, are required to live their first two consecutive semesters in a residence hall (https://housing.colostate.edu/halls/policies/). Credits taken concurrent with high school and/or credits attained through Advanced Placement (AP) do not apply toward living experience.

Academic Integrity/Misconduct

The foundation of a university is truth and knowledge, each of which relies in a fundamental manner upon academic integrity and is diminished significantly by academic misconduct. Academic integrity is conceptualized as doing and taking credit for one’s own work. A pervasive attitude promoting academic integrity enhances the sense of community and adds value to the educational process. All within the University are affected by the cooperative commitment to academic integrity.

Course instructors and departments shall work to enhance a culture of academic integrity at the University.

Each course instructor shall state clearly in their course syllabus that the course will adhere to the Academic Integrity Policy of the Colorado State University General Catalog and the Student Conduct Code. The TILT Academic Integrity website provides examples of possible wordings for the course syllabus (https://tilt.colostate.edu/Integrity/ FacultyResources/AddressAM/).

By the end of the second week of the course and/or in the course syllabus, the course instructor shall address academic integrity as it applies to their course components, such as homework, written assignments, lab work, group projects, quizzes, and exams. Examples of items to address include, but are not limited to, the use of class notes, study sheets, and solution manuals; appropriate uses of sources, Internet or otherwise; receiving assistance from others; and the use of prior work.

The course instructor shall decide which course components will use an honor pledge. For those course components, the course instructor shall provide the opportunity for students to sign an affirmative honor pledge. The honor pledge shall include one of the following statements and may be expanded according to instructor, department, or college practices and policies:

HONOR PLEDGE: I have not given, received, or used any unauthorized assistance.

HONOR PLEDGE: I will not give, receive, or use any unauthorized assistance.

A course instructor may offer the student the opportunity to write out the pledge if deemed practicable. Students may be given the opportunity to include an honor pledge along with electronic submissions of their work. A student’s decision to forego signing the honor pledge shall not be used as evidence of academic misconduct and shall not negatively impact a student’s grade.

Academic misconduct (see examples below) undermines the educational experience at Colorado State University, lowers morale by engendering a skeptical attitude about the quality of education, and negatively affects the relationship between students and course instructors.

Students are encouraged to positively impact the academic integrity culture of CSU by reporting incidents of academic misconduct.

Course instructors are expected to use reasonably practical means of preventing and detecting academic misconduct. Any student found responsible for having engaged in academic misconduct will be subject to academic penalty and/or University disciplinary action.

Examples of academic misconduct include (but are not limited to):

1. Cheating – Cheating includes using unauthorized sources of information and providing or receiving unauthorized assistance on any form of academic work or engaging in any behavior specifically prohibited by the instructor in the course syllabus or class presentation.
2. Plagiarism – Plagiarism includes the copying of language, structure, images, ideas, or thoughts of another, and representing them as one’s own without proper acknowledgment, and is related only to work submitted for credit. Also included is the failure to cite sources properly; sources must always be appropriately referenced, whether the source is printed, electronic or spoken.
3. Unauthorized Possession or Disposition of Academic Materials – Unauthorized possession or disposition of academic materials includes the unauthorized selling or purchasing of examinations, term papers, or other academic work; stealing another student’s work; and using information from or possessing exams that an instructor did not authorize for release to students.
4. Falsification – Falsification encompasses any untruth, either verbal or written, in one’s academic work.
5. Facilitation of any act of Academic Misconduct – Facilitation of any act of academic misconduct includes knowingly assisting another to commit an act of misconduct.

(Academic Integrity policies appear in the Graduate and Professional Bulletin, the Faculty and Administrative Professional Manual, and the Honor Code of the Professional Veterinary School and the School of Public Health as applicable.)

Procedures for Dealing with Academic Misconduct

Instructors shall adhere to the following procedures when they allege that academic misconduct has occurred:

If a course instructor has information that suggests a student has engaged in academic misconduct in their course, prior to assigning any academic penalty, the course instructor shall notify the student of the concern and make an appointment with the student to discuss the concern. The student shall be given the opportunity to give their position on the matter. After being given this opportunity, if the student admits to engaging in academic misconduct, or if the course instructor judges that the information supports the allegation of academic misconduct, the course instructor may then assign an academic penalty. The course instructor may choose to refer the case to Student Conduct Services in the Student Resolution Center for a hearing before deciding on a penalty. The course instructor shall notify the student in writing of the infraction and any academic penalty, the course instructor shall notify the student of the infraction and the academic penalty to be imposed. A copy of this notification shall be sent to Student Conduct Services. Examples of academic penalties include assigning a reduced grade for the work, assigning a failing grade
in the course, removing the Repeat/Delete option for that course, or other lesser penalty as the course instructor deems appropriate.

If, after making reasonable efforts, the course instructor is unable to contact the student or is unable to collect all relevant information before final course grades are assigned, they shall assign an interim grade of Incomplete and notify the student in writing of the reason for this action.

If evidence of academic misconduct is discovered after the final course grades have been submitted, the course instructor shall follow the above procedure in properly notifying the student and providing an opportunity for the student to give their position on the matter before making a decision about any academic penalty. The course instructor must notify the student in writing of the infraction and any academic penalty subsequently imposed. A copy of this notification shall be sent to Student Conduct Services.

If the course instructor so requests, Student Conduct Services will conduct a hearing to determine if the Student Conduct Code has been violated. If the Hearing Officer determines that a violation has occurred, they may impose sanctions in addition to the grading penalty.

Student Response
If a student disputes a decision of a course instructor regarding alleged academic misconduct, they may request a hearing with Student Conduct Services. The request must be submitted no later than thirty (30) calendar days after the first day of classes of the next regular semester following the date that the grade for the course was initially recorded or subsequently revised. If no appeal is filed within this time period, the decision of the course instructor shall be final.

Hearings
If a hearing is conducted by Student Conduct Services, in order for there to be a finding that a student has engaged in prohibited conduct, the information must demonstrate that it is more likely than not that a violation occurred (also known as preponderance of information).

The hearing shall be conducted by a Hearing Officer assigned by the Director of the Student Resolution Center (or the Director’s designee). The Hearing Officer shall give the student the opportunity to respond to the allegation made by the course instructor, and they shall give the course instructor the opportunity to respond to claims made by the student. The Hearing Officer shall make one of the following two (2) decisions:

1. The allegation of academic misconduct is supported by a preponderance of the information.

   Prior to forwarding the case to an Academic Misconduct Review Committee, the Hearing Officer shall inform the course instructor and the student of their concerns related to the allegations, and the course instructor and the student shall each be given a chance to respond to the Hearing Officer regarding these concerns.

   In this case, an Academic Misconduct Review Committee consisting of three members shall be selected from the members of the Appeal Committee. These members shall be selected by the Chair of the pool, and they shall consist of two faculty members and one student. The Chair may or may not be one of the two faculty members. Student Conduct Services shall provide the Academic Misconduct Review Committee with the case file (including all information received by the Hearing Officer) and a summary of any concerns.

   After consideration of the case, the members of the Academic Misconduct Review Committee shall make a recommendation to the Director of the Student Resolution Center (or the Director’s designee), who will then make a determination regarding whether or not a preponderance of the information supports the allegation of academic misconduct.

   If the determination is that the allegation of academic misconduct is not supported by a preponderance of the information, then the course instructor shall determine a grade based on the student’s academic performance and without any consideration of the charge of academic misconduct and change any previously assigned grade accordingly.

   If the determination is that the allegation of academic misconduct is supported by a preponderance of the information, then the Director of the Student Resolution Center (or the Director’s designee) and the course instructor shall confer regarding appropriate sanctions. The course instructor shall make the final decision regarding academic penalties, which may include, among other options, a reduced grade for the course and/or removal of the Repeat/Delete option. The Director of the Student Resolution Center (or the Director’s designee) shall make the final determination regarding disciplinary sanctions.

Student Appeal
If the student disagrees with the findings of the hearing, they may file an appeal. This is done by following the procedures in the Student Conduct Code for an appeal of a disciplinary decision. If an Appeal Committee is formed, it will consist of two faculty members and one student from the pool described in Section 1.4, excluding any members of this pool who have already served on an Academic Misconduct Review Committee for this case.

Transcript Notation for Academic Misconduct
In the case of a serious infraction or repeat offense of academic misconduct that is upheld through a hearing, the Hearing Officer and the course instructor shall decide whether the student's transcript shall be marked with a notation of “AM,” which shall be explained on the student's transcript as a “finding of Academic Misconduct.” A notation of “AM” shall be made on the student's transcript only if both the Hearing Officer and the course instructor agree that this penalty should be imposed. Grades marked on the student's transcript with the designation “AM” shall not be eligible for the Repeat/Delete option.

Records
Information regarding incidents of academic misconduct is kept on file with Student Conduct Services.
CSU Student Conduct Code

The Student Conduct Code exists to notify students, faculty, and staff of the specific expectations Colorado State University holds related to student behavior and the rights and responsibilities that accompany being a student and participating in student organizations.

Colorado State University expects students to maintain standards of personal integrity in harmony with its educational goals; to be responsible for their actions; to observe national, state, local laws, and University regulations; and to respect the rights, privileges, and property of other people.

The student conduct process is intended to be a learning experience which can yield growth, behavioral changes, and personal understanding of one's responsibilities and the consequences and impacts of one's actions. This process balances the needs and rights of students with the needs and expectations of the University and larger community. The student conduct process offers a continuum of responses to allegations of misconduct. Students are treated with care and respect while being afforded the opportunity to receive a fair hearing. Many sanctions and interventions are designed to be educational and restorative in nature, promoting the University's mission.

The Student Conduct Code defines University intervention, resolution options and possible disciplinary action related to the behavior of both individual students and student organizations.

The Student Conduct Code is available:

1. On the web at Student Resolution Center (https://resolutioncenter.colostate.edu/student-conduct-code/)
2. In print copy at:
   - Student Resolution Center, 501 West Lake St., Suite A

State Authorization Compliance

In 2019, the U.S. Department of Education implemented regulations that require institutions that offer out-of-state academic activities (including practicum experiences, student teaching, field experiences, faculty teaching from another state, distance education, online education, marketing, advertising, etc.) to be authorized to do so by the state in which the activities are located. Institutional access to Title IV funds is contingent on compliance with these regulations. As part of our compliance efforts, CSU maintains membership in the National Council of State Authorization of Reciprocity Agreements (NC-SARA).

Public Health Emergency Notification

Public Health Emergency Notification

In response to a public health emergency, the University may take any action in order to comply with any law, executive order, public health emergency order, and/or public health guidelines or recommendations, including without limitation temporarily closing or limiting access to campus and campus facilities, such as classrooms, offices, and on-campus housing, as well as temporarily closing or modifying university operations and modifying the method of academic instruction from in-person to remote or online instruction, or such other academic modifications as may be reasonable, practicable and necessary in response to a public health emergency.

In order to help protect the health and safety of the campus community and minimize disruption to the normal conduct and operations of the university, all students are required to comply with all university policies, procedures, protocols, directives and guidelines, including those relating to public health emergencies ("Public Health Emergency Rules"). The Public Health Emergency Rules may be updated, supplemented, or modified by the university at any time and for any reason, including but not limited to, complying with revised executive orders, public health orders or public health guidelines. Although the University takes reasonable steps to minimize risks to public health, the University cannot and does not guarantee protection from illness or complications that may result from illness. Students are responsible for educating themselves regarding all potential risks associated with a contagious disease and/or any other public health emergency and are required to take all necessary and reasonable steps to protect their health against contagious diseases and/or public health emergencies. Students voluntarily assume all risks related to exposure to contagious diseases and/or public health emergencies.

Tuition and fees for any academic year are approved by the Board of Governors of the Colorado State University System and are posted by the university. Students are advised that, in response to a public health emergency or potential public health emergency, some or all instruction for all or part of any particular academic year may be delivered remotely. Tuition and fees have been set regardless of the method of instruction and will not be refunded in the event instruction occurs remotely, in whole or in part, for any part of the academic year. (Effective June 5, 2020 by Board Resolution)
Colorado State University reserves the right at any time, without notice, to change, modify, or cancel any course, program, procedure, policy, financial requirement, or disciplinary arrangement set forth in this catalog whenever, in its sole discretion, it determines such action to be appropriate. Furthermore, Colorado State University will not be responsible for any failure to present or complete any course or program or to perform any other activity, function, or obligation mentioned in this catalog. Since changes may occur at any time, students must check the relevant website (as noted on various pages in this catalog).

Glossary

This glossary defines terms to assist users to better understand content in the General Catalog.

<table>
<thead>
<tr>
<th>Term</th>
<th>Definition</th>
</tr>
</thead>
<tbody>
<tr>
<td>Bachelor's Degree</td>
<td>An award conferred by CSU signifying that the recipient has satisfactorily completed a minimum of 120 credit hours in an undergraduate course of study.</td>
</tr>
<tr>
<td>Catalog Updates</td>
<td>The General Catalog is published online once annually prior to the beginning of the fall term. Changes made to policy or curriculum after publication that are effective in the catalog year (spring or summer terms) will be noted in the Catalog Updates section of the General Catalog (left navigation bar under &quot;About the Catalog&quot;).</td>
</tr>
<tr>
<td>Certificate - Graduate</td>
<td>A Graduate Certificate is used to identify the successful completion of a focused area of study deemed important to a student’s career objectives. A Graduate Certificate consists of a minimum of 9 specified credits, and not more than 15 credits at the 500 level or above.</td>
</tr>
<tr>
<td>Certificate - Undergraduate</td>
<td>An Undergraduate Certificate is used to identify the successful completion of a focused area of study deemed important to a student’s career objectives. Certificates are an option and are offered by certain departments. An undergraduate certificate consists of a minimum of 9 specified credits, and not more than 15 credits. A minimum of 9 credits must be course work at the upper-division level (300-400).</td>
</tr>
<tr>
<td>CEU</td>
<td>Continuing Education Unit (CEU) or Continuing Education Credit (CEC) is a measure used in continuing education programs, often those required in a licensed profession, for the professional to maintain a license or certification.</td>
</tr>
<tr>
<td>Concentration</td>
<td>A concentration is a sequence of at least 12 semester credits of designated courses within a major designed to accommodate specific interests of undergraduate students.</td>
</tr>
<tr>
<td>Credit</td>
<td>Unit that gives weight to the value, level or time requirements of an academic course taken at CSU.</td>
</tr>
<tr>
<td>Credit hour</td>
<td>A credit hour is defined as a minimum of 50 minutes of lecture or discussion/recitation per week for 16 weeks (800 minutes in a semester), 100 minutes of laboratory per week for 16 weeks (1600 minutes in a semester) when outside preparation is required, or 150 minutes of laboratory per week for 16 weeks (2400 minutes in a semester) when no outside preparation is required.</td>
</tr>
<tr>
<td>Credit load</td>
<td>For workload planning purposes (and to graduate with 120 credits in eight semesters), students should plan on an average of 15 credits per semester and should expect that each credit hour will require approximately two to three hours (for some students in some classes, more time and in a few classes less time) of effort per week to accomplish readings and out-of-class assignments in preparation for successful completion of the course requirements.</td>
</tr>
<tr>
<td>Degree</td>
<td>An academic degree is the recognized completion of studies at CSU. A diploma is issued in recognition of having satisfactorily completed the prescribed course of study.</td>
</tr>
<tr>
<td>Degree Completion Program</td>
<td>Selected undergraduate majors offered by CSU, student usually transfers in 60 credits from another institution(s) and completes the degree at CSU.</td>
</tr>
<tr>
<td>Diploma</td>
<td>An academic credential issued by CSU signifying the recipient has successfully completed a particular course of study, which confers the degree.</td>
</tr>
<tr>
<td>Faculty - Instructor</td>
<td>Typically a non-tenure track faculty member that focuses on the teaching mission of the university.</td>
</tr>
<tr>
<td>Faculty - Assistant Professor</td>
<td>A tenure track or non-tenure track faculty member early in their career. After 5 years of service they are reviewed for advancement to associate professor. All faculty members at every rank are reviewed annually for performance.</td>
</tr>
<tr>
<td>Faculty - Associate Professor</td>
<td>A tenured or non-tenure track faculty member whose performance in teaching, scholarly activities, and service has supported their promotion to associate professor. Tenured faculty typically have responsibility in all three areas whereas non-tenure track faculty generally focus on teaching or scholarship.</td>
</tr>
<tr>
<td>Faculty - Full Professor</td>
<td>A tenured or non-tenure track faculty member who has attained the rank of professor and is recognized for significant accomplishments at CSU and/or nationally and internationally in their field.</td>
</tr>
<tr>
<td>Grade mode - Instructor Option</td>
<td>Allows the instructor to choose and inform the class whether Traditional or (S/U) Satisfactory/Unsatisfactory grading will be used for a course.</td>
</tr>
</tbody>
</table>
Grade mode - Student Option
Either Traditional or Satisfactory/Unsatisfactory grading selected by the student at the time of registration.

Grade mode - Satisfactory/Unsatisfactory
Performance equivalent to a grade of C or better is recorded as Satisfactory. Performance equivalent to D or F is recorded as Unsatisfactory. Neither S or U grades are used in calculating the CSU GPA.

Grade mode - Traditional
Uses letter grades A to F. Instructor has the option to use pluses (+) or minuses (-) as indicated in the catalog section on Grading. Effective Fall 2008, C-, D+, and D- grades are not assigned at CSU.

Graduate level
Degrees at the masters, doctorate, or professional level. Graduate level courses are those numbered 500 and above.

Incomplete (grade)
Used when circumstances prevent student from completing course work, agreement to be made with instructor for completion. An "I" grade converts to F if not completed within one year.

Independent Study
Individualized learning not available in courses, which allows a student to work independently with the approval and guidance of a supervising instructor for predetermined credits.

Interdisciplinary Studies Program
Graduate level program that is intra-college (within one college) or intra-university (across disciplines of more than one college). They are a series of courses focused on a particular problem or area of concern providing multi-disciplinary perspectives.

Licensure--teacher/educator
A series of courses including student teaching preparing students to be PK-12 teachers/educators. CSU in cooperation with the state offers credentials in areas listed in the School of Education section. Undergraduate students major in a discipline (e.g., Music, Agriculture, Early Childhood, Chemistry).

Major
A sequence of courses in an academic discipline or area, which when accompanied by appropriate supporting courses, leads to an undergraduate degree.

Major Completion Map
A semester-by-semester course plan to complete their baccalaureate degree within the minimum number of semesters indicated in the major. An advising tool to guide the student through their program of study.

Minor
A sequence of related courses (minimum of 21 credits), which provide a student with unique opportunities to complement the major. Minors may be disciplinary (e.g., economics, range ecology) or interdisciplinary (e.g., film studies, gerontology) and are offered only at the undergraduate level.

Option
A sequence of courses within a major or concentration of either guided electives or electives selected from areas of interest as approved by the department (not identified on a transcript)

Prerequisite
A course(s) and or minimum grade requirement that must be completed to be prepared for the next course or sequence of courses.

Program of Study
Content and scope of knowledge, abilities, and skills a student is expected to master in a field of study, as well as the content and topics that are studied at each level.

Restriction
Conditions that apply to courses at the section level to limit registration in a course. Restrictions include department approval, field of study, college, student level, student class, campus location and/or student attribute.

Second Baccalaureate Degree
Enrollment classification for students who have earned one or more bachelor’s degrees. An option when one is changing fields or careers.

Special Academic Unit--SAU
Multidisciplinary units (across departments) with courses and/or programs addressing complex problems and issues (e.g., sustainability, biomedical engineering). SAUs may grant degrees.

Specialization
A recognized area of specialty within a graduate program. Graduate degrees may or may not have specializations. Specializations are identified on the transcript.

Transcript - Official
Official copy of a student’s permanent academic record at CSU, which includes all CSU courses taken, grades received, honors (Dean’s List, graduation with distinction), and degrees conferred.

Undergraduate
A student at CSU pursuing a bachelor’s degree program (usually 4 years).

Undergraduate - Freshman
0-29 credits earned at CSU and accepted in transfer.

Undergraduate - Sophomore
30-59 credits earned at CSU and accepted in transfer.

Undergraduate - Junior
60-89 credits earned at CSU and accepted in transfer.

Undergraduate - Senior
90+ credits earned at CSU and accepted in transfer.

Catalog Updates
For New Courses approved for Spring 2021 after August 1, 2020 please see the Spring 2021 Class Schedule. Experimental Courses for the 2020-21 Academic Year can also be found in the Class Schedule. The Class Schedule (http://registrar.colostate.edu/registration/class-schedule/) may be accessed through RAMweb (https://ramweb.colostate.edu/registrar/Public/Login.aspx) or ARIESweb.
UNDERGRADUATE ADMISSIONS AND ENROLLMENT

Office of Admissions (https://admissions.colostate.edu/)
University Welcome Center, Ammons Hall
1062 Campus Delivery
Fort Collins CO 80523-1062
(970) 491-6909, admissions@colostate.edu

All inquiries and correspondence about undergraduate admission can be addressed to the Office of Admissions.

Prospective graduate students should consult the Graduate School website (http://graduateschool.colostate.edu/for-prospective-students/) and the key advisor(s) in the academic department(s) (http://graduateschool.colostate.edu/programs/) being considered.

CSU Board of Governors and Undergraduate Admission Standards

The following undergraduate admission information reflects minimum requirements that may be subject to change after the General Catalog has been published. The Board of Governors of the Colorado State University System (http://csusystem.edu/) reserves the right to deviate from published admission requirements. In such cases, changes in admission policy will be publicized.

CSU’s Philosophy of Undergraduate Admission

CSU is committed to a comprehensive, individual review process that can take into consideration a wide range of factors, such as past academic course work and achievement, test scores, essay, leadership qualities, school and community service, recommendations, geographic residence, first generation status, and ability to contribute to a vibrant and diverse campus community. We strive to carefully craft our student body in order to meet our enrollment goals, embody our institutional Land Grant mission, and create a compelling learning environment.

CSU actively seeks academically qualified individuals with varied backgrounds, perspectives, and goals who demonstrate the potential to attain a degree from Colorado State University. Because CSU receives more applications than it can honor and because our commitment to diversity is an important educational objective, the admission evaluation process and our admission decisions reflect and rest upon the range of factors outlined above.

General Policies for Undergraduate Admissions

Final Transcript Required
Admission is provisional until we receive a final, official transcript reflecting completion of all course work and proof of graduation or degree completion (as applicable).

High School Graduation (or Equivalent) Required
Freshman/first-year applicants can be admitted with high school graduation pending (i.e., during their final year of high school) with the expectation that proof of graduation is provided before the start of their first semester. Financial Aid cannot be not released without proof of high school graduation or equivalent. A hold is placed on course registration prior to the start of the second semester for students who have not demonstrated high school graduation or equivalent.

Transfer applicants with fewer than 60 credits in transfer must demonstrate high school graduation before an admission decision can be rendered. Financial Aid cannot be not released without proof of high school graduation or equivalent.

Affirmation Statements and Conduct Requirements

Before submitting an application to CSU, students must acknowledge that all information in the application and any other supporting materials is their own work, factually true and honestly presented. Applicants also signify their understanding that they may be subject to a range of possible disciplinary actions, including admission revocation, expulsion or revocation of course credit, grades and degree should the information they have certified be false. If applicable, sponsoring agencies are informed of this decision.

CSU is committed to providing a safe and welcoming environment that fosters student success, and our pre-admission review of non-academic conduct is one component (authorized by C.R.S. 23-5-106.5). A limited range of past non-academic conduct incidents receive confidential consideration prior to the application review process and do not automatically disqualify an applicant from full consideration for enrollment or scholarships. Applicants have the right to appeal an admission or enrollment decision made based on any information required to be disclosed at the point of application. Students may be subject to additional, broader conduct review after admission for campus housing and/or campus activities. As part of the Affirmation Statement requirement in an application, all applicants agree to update their application record in the event they experience a non-academic conduct incident after application submission.

Selective Service Registration

In compliance with C.R.S. 23-5-118, all males between the ages of 17 years and 9 months and 26 years must respond to a Selective Service Registration prompt within the application. While not all males are required to register with the Selective Service (visit https://www.sss.gov/ for a list of exceptions), those who are required to register must certify registration under oath before being allowed to register for courses.

Transfer and Test Credit

Required
High School Graduation (or Equivalent)
Transfer applicants with fewer than 60 credits in transfer must demonstrate high school graduation before an admission decision can be rendered. Financial Aid cannot be not released without proof of high school graduation or equivalent.

Statement requirement in an application, all applicants agree to update their application record in the event they experience a non-academic conduct incident after application submission.

A limited range of past non-academic conduct incidents receive confidential consideration prior to the application review process and do not automatically disqualify an applicant from full consideration for enrollment or scholarships. Applicants have the right to appeal an admission or enrollment decision made based on any information required to be disclosed at the point of application. Students may be subject to additional, broader conduct review after admission for campus housing and/or campus activities. As part of the Affirmation Statement requirement in an application, all applicants agree to update their application record in the event they experience a non-academic conduct incident after application submission.

Selective Service Registration

In compliance with C.R.S. 23-5-118, all males between the ages of 17 years and 9 months and 26 years must respond to a Selective Service Registration prompt within the application. While not all males are required to register with the Selective Service (visit https://www.sss.gov/ for a list of exceptions), those who are required to register must certify registration under oath before being allowed to register for courses.
Individuals providing false information are subject to penalty of law and disenrollment.

**Immunization Requirement**

CSU, in compliance with Colorado State laws and Health Department regulations, requires persons born January 1, 1957 or later to show proof of two vaccinations for measles and mumps, and one vaccination for rubella (MMR) or to show written evidence of laboratory tests showing immunity.

Colorado law, Colo. Rev. Stat. § 23-5-128, also requires every student residing in student housing to fulfill two requirements for Meningococcal Vaccine:

1. Access the CSU Health Network Portal (http://www.health.colostate.edu/) to sign a statement that the student has reviewed the Meningococcal Disease Information Document, which describes meningococcal disease and the vaccine that can prevent the disease.
2. Indicate whether student a) received the Meningococcal Vaccine, b) plans to have the vaccine administered, or c) is “waiving” the requirement and declining to receive the vaccine.

Submit immunization records or laboratory results to the CSU Health Network prior to arrival at school. Additional information concerning immunization should be directed to:

- Immunizations Office
- CSU Health Network
- Immunizations Clinic
- 8031 Campus Delivery
- Colorado State University
- Fort Collins, CO 80523-8031 CSUHN_immunize@mail.colostate.edu
- Phone: (970) 491-6548, Fax: (970) 491-0268

**Undergraduate Applicant Definitions**

The following definitions apply to all undergraduate applicant types, regardless of citizenship. The International Admissions section includes additional details specific to international applicants and U.S. citizens/permanent residents educated outside the U.S.

- Freshman/First-Year Students
- Transfer Students
- Second Bachelor's/Post-Bachelor Candidates
- Returning Students

**Freshman/First-Year**

You are a freshman/first-year applicant if you've never attended college OR all of your college credits were earned prior to high school graduation (or equivalent).

- Refer to instructions for dual/concurrent enrollment if you've taken college course work during high school or as your high school curriculum, including offerings such as early college or ASCENT.
- Details for students who did not graduate from high school, homeschooled, graduated early, or completed an online high school diploma are below.

- Freshman decision factors also apply to transfer applicants with fewer than 30 post-high school credits at the point of application.

Refer to the freshman/first-year application guide (https://admissions.colostate.edu/apply/freshmen/) on the Admissions website for details.

**Specialized Freshman/First-Year Populations**

This information applies to freshman/first-year applicants and transfer applicants with fewer than 30 post-high school credits at the point of application.

**Dual/Concurrent Enrollment Applicants**

See the Admissions website for dual/concurrent enrollment applicants (https://admissions.colostate.edu/dual-enrollment/).

Applicants whose only college course work has been completed prior to graduating from high school are considered freshman/first-year applicants with dual/concurrent enrollment. This includes students enrolled at an early college, through ASCENT, or through any other program that utilizes college enrollment to meet high school graduation requirements.

The admission decision will take into consideration performance in both high school and college-level courses. Completion of college-level course work before high school graduation is considered a demonstration of academic rigor comparable to completion of Advanced Placement (AP) and/or International Baccalaureate (IB) work. Courses will be evaluated for advanced-standing credit after admission is granted.

Dual/concurrent enrollment students are eligible for freshman/first-year scholarships and are required to live in the residence halls, regardless of the number of college credits earned.

**Non-High School Graduates**

See the Admissions website for Non-High School Graduates (https://admissions.colostate.edu/non-high-school-graduates/).

We're committed to making an exceptional college education accessible to students from a wide range of backgrounds. Differences in educational background are a welcome part of the mix. Students who did not graduate from high school are welcome to apply with evidence of high school equivalency earned through GED, HiSet, TASC or other state-approved high school equivalents. To be eligible for admission, non-high school graduates must present qualifying high school equivalency test results in addition to demonstrating other evidence of academic readiness through transcript(s), ACT/SAT results (if under age 23), and support documents.

Note: Transfer applicants with more than 30 but fewer than 60 college credits completed must submit proof of high school equivalency; however, scores are not considered in the admission decision.

**Homeschooled Applicants**

See the Admissions website for homeschooled applicants (https://admissions.colostate.edu/homeschool/).

Homeschooled applicants are welcome at CSU and are evaluated for admission according to general admission criteria; there are no special requirements for applicants who have homeschooled.
We recognize that homeschooling can allow for customized teaching methods, curricula, and learning environments that may differ from "traditional" education models. Our comprehensive, individual review process is designed to accommodate unique backgrounds as long as we can assess core academic factors in our review of credentials.

Your homeschool transcript can take any form as long as we can determine 1) how you completed the recommended high school course work (https://admissions.colostate.edu/18units/) and 2) how you were graded, assessed, or considered to have "mastered" content to move on in your chosen curriculum. If you did not follow a traditional academic calendar or age-based instruction, if you were not assessed using traditional letter or percentile grades, or if you have otherwise customized your homeschool experience so that something other than a traditional transcript with courses and grades is necessary to understand your college preparation, we encourage you to include with your application a description of the learning environment, a list of courses and brief statement about course content, and an explanation of how your content-mastery was assessed.

Be sure to reference information for dual/concurrent enrollment applicants if you are using college enrollment as your homeschool curriculum (i.e., completing community college work as your junior/senior year equivalent).

**Early Graduates**

See the Admissions website for early high school graduates (https://admissions.colostate.edu/early-graduates/).

Freshman/first-year applicants who complete high school in fewer than four years are evaluated for admission according to general admission criteria. Admission preference is given to students who maximize their high school experience by taking accelerated and/or academically rigorous course work such as Advanced Placement (AP), International Baccalaureate (IB) and/or dual enrollment college courses in order to satisfy the recommended high school course work (https://admissions.colostate.edu/18units/).

Whether you are graduating high school one semester or one year early, fall entrance is strongly recommended. Students who leave high school one semester early are not eligible for spring semester entry if the date of graduation that will appear on the final high school transcript is May/June (end of spring semester).

**Online High School Students**

See the Admissions website for online high school students (https://admissions.colostate.edu/online-high-school/).

Applicants who complete all or part of their high school curriculum online are evaluated for admission according to general admission criteria. Admission preference is given to students who maximize their high school experience by taking accelerated and/or academically rigorous course work such as Advanced Placement (AP), International Baccalaureate (IB) and/or dual enrollment college courses in order to satisfy the recommended high school course work (https://admissions.colostate.edu/18units/), so online high school completion programs that include strong college-prep rigor are encouraged.

While we are flexible in our recognition of online high school completion programs and do not require a specific type of accreditation, regional accreditation typically is a good indication of alignment with our admission criteria.

**Transfer Students**

You are a transfer applicant if you have enrolled in any amount of college-level course work at a regionally-accredited college/university after high school graduation or equivalent. If you will have completed 30 or fewer post-high school college credits at the point of application, the admission decision also will include consideration of your high school credentials. Learn more about Transfer and Test Credit here.

Refer to the transfer application guide (https://admissions.colostate.edu/apply/transfer/) for details.

**Second Bachelor's/Post-Bachelor Candidates**

You are a second bachelor's/post-bachelor applicant if you have completed an undergraduate degree, you wish to begin a new undergraduate degree and/or complete additional undergraduate course work, and you have never attended CSU as a degree-seeking undergraduate student.

Refer to the second bachelor's application guide (https://admissions.colostate.edu/apply/second-bachelor/) on the Admissions website for details.

Follow the returning student application guide (https://admissions.colostate.edu/apply/returning/) if you've ever attended CSU as a degree-seeking undergraduate student.

**Returning Students**

You are a returning student if you were previously enrolled at CSU as an admitted, degree-seeking undergraduate student, you left for at least one fall or spring semester while your degree was in progress or you completed your CSU degree, and you wish to return as an admitted, degree-seeking undergraduate student to finish a degree in progress or to begin a new CSU degree program.

Refer to the returning student application guide (https://admissions.colostate.edu/apply/returning/) on the Admissions website for details.

**Undergraduate Profiles and Decision Factors**

Freshman/First-Year Profile and Decision Factors
Transfer Profile and Decision Factors
Second Bachelor/Post-Bachelor Decision Factors
Returning (Former) CSU Student Decision Factors
English Proficiency Requirement
Students with Disabilities

How we review each application and render an admission decision is informed by CSU's undergraduate admission philosophy. Every incoming
class looks different as we emphasize high academic standards and access to higher education, part of our land-grant mission.

**Freshman/First-Year Profile and Decision Factors**

**Fall 2019 freshman/first-year class profile**
The class profile reflects the middle 50 percent of freshmen/first-year students admitted for Fall 2019. This means 75% of the students we admitted presented credentials at or above the ranges displayed here, and 25% were admitted with credentials slightly below these ranges. While this will help you understand where the center of a class lies, it does not reflect minimum requirements to be admitted; we do not require a specific minimum GPA or test score to be considered for admission.

- Middle 50% GPA: 3.4-4.0 (4.0 scale)
- Middle 50% ACT Composite: 23-30
- Middle 50% SAT Combined: 1110-1300

**Middle 50% Transfer Credits: 28-67**

To be considered for admission, transfer applicants should present a minimum cumulative GPA of 2.00 (4.00 scale) from all institutions attended and must have completed the admission requirement in mathematics (https://admissions.colostate.edu/requirementinmathematics/). Completion of college composition is preferred but not required. Until a transfer applicant has more than 30 post-high school college credits complete, the admission decision also includes review of high school credentials according to our freshman/first-year admission guidelines.

According to federal financial aid requirements, ALL transfer applicants with fewer than 60 credits in transfer must demonstrate high school graduation (or equivalent). Because the transfer evaluation is not completed until after an applicant has been admitted, all transfer applicants are required to submit proof of graduation (or equivalent).

**Competitive Majors**
A few undergraduate majors have more competitive entrance requirements (https://admissions.colostate.edu/competitive-majors/) and/or enrollment caps; entrance to these programs is limited to students presenting the strongest academic credentials, and early application is highly recommended.

**Transfer Admission Guarantee**
Students who have completed an Associate of Arts or an Associate of Science degree from an accredited Colorado community or junior college after high school graduation (or equivalent) will be guaranteed admission to the University providing that it is the last institution attended and that a cumulative 2.00 GPA (on a 4.00 scale) has been achieved from ALL institutions attended. Entry into a specific major may depend on completion of appropriate prerequisite courses and enrollment limitations of the major.

Details about factors considered in the admission decision are in the transfer application guide (https://admissions.colostate.edu/apply/transfer/).

**Second Bachelor/Post-Bachelor Decision Factors**

To be considered for admission, second bachelor/post-bachelor candidates must present a minimum cumulative GPA of 2.00 (4.00 scale) from all institutions attended and must be seeking a degree program that does not duplicate their first degree. Details about factors considered in the admission decision are in the second bachelor’s application guide (https://admissions.colostate.edu/apply/second-bachelor/).

**Competitive Majors**
A few undergraduate majors have more competitive entrance requirements (https://admissions.colostate.edu/competitive-majors/) and/or enrollment caps; entrance to these programs is limited to students presenting the strongest academic credentials, and early application is highly recommended.
Returning (Former) CSU Students

Comprehensive details for returning students are available in the returning student application guide (https://admissions.colostate.edu/apply/returning/).

The admission decision for students returning to complete a degree in progress is based primarily on their previous CSU performance and their academic standing upon leaving CSU. Students who left the University in good academic standing generally are cleared to return without restrictions. Students who left the University in a probationary or dismissed status should refer to the Scholastic Standards Policy for additional information about qualifying to return to CSU.

Students who previously attended CSU as an admitted, degree-seeking undergraduate and wish to enroll in a second/additional undergraduate degree must select a degree program that does not duplicate their first degree.

Competitive Majors

A few undergraduate majors have more competitive entrance requirements and/or enrollment caps; entrance to these programs is limited to students presenting the strongest academic credentials, and early application is highly recommended. Returning students must have satisfied particular CSU course work and earned specific grades/GPA to be admitted to a major with competitive entrance requirements (http://www.undeclared.casa.colostate.edu/majors-with-entrance-requirements.aspx).

English Proficiency Requirement

Strong English language skills are important to academic success at CSU. To support student success, we require all students whose first language is not English to demonstrate a high level of English proficiency regardless of their citizenship. Applicants from Australia, Canada, Ireland, New Zealand, and the United Kingdom whose first language is English are exempt from this requirement.

TOEFL, PTE Academic or IELTS Academic results are the preferred indicators of English proficiency. For applicants seeking direct admission to CSU, the requirements are as follows:

<table>
<thead>
<tr>
<th>English Proficiency Exam</th>
<th>Clear Admission</th>
</tr>
</thead>
<tbody>
<tr>
<td>TOEFL IBT (Test of English as a Foreign Language Internet Based Test)</td>
<td>79</td>
</tr>
<tr>
<td>IELTS Academic (International English Language Testing Services)</td>
<td>6.5</td>
</tr>
<tr>
<td>PTE Academic (Pearson Test of English)</td>
<td>53</td>
</tr>
</tbody>
</table>

Consideration of paper-based TOEFL (PBT) results requires an interview with a member of the international admissions team (https://admissions.colostate.edu/connect-with-csu/find-your-counselor/international-team/).

Conditional admission will be offered to students who are academically competitive but have not achieved the necessary score for direct admission or have not submitted a TOEFL, PTE, or IELTS score. Conditionally admitted students are enrolled in the INTO CSU Academic English Program (http://www.intostudy.com/en-gb/universities/colorado-state-university/programs/academic-english/). Until the Academic English Program is completed or the required TOEFL, PTE Academic or IELTS score is achieved, enrollment in regular University academic courses is at the discretion of INTO CSU.

Alternative measures of English Proficiency:

- Successful completion of the INTO CSU Academic English Program (conditional admission may be offered to AEP students studying at the advanced level)
- SAT Evidence-Based Reading and Writing score of 550 or higher
- ACT English/Reading score of 21 or higher
- International Baccalaureate (IB) HL English course grade of 5 or higher
- An IGCSE or A-level result of C or better on the English/First Language exam. Test results must be official and not predicted to be considered for direct admission.
- Completion of a U.S. diploma and/or two or more years of secondary transcripts reflecting progress towards a U.S. diploma from a regionally-accredited organization as defined by the U.S. Department of Education
- Completion of at least two semesters of U.S. post-secondary/university course work in English, including college composition and speech with grades of C or better. Courses must have been taken at a regionally-accredited college/university to be considered for direct admission.
- Gaokao/NCEE English score of 105 or higher AND an online interview with an international admissions counselor.
- WAEC/WASSCE English language grade of B3 or better
- Advanced Placement (AP) Language and Composition or Literature and Composition exam result of 4 or higher

Alternative measures of proficiency not listed above may be considered on a case-by-case basis.

Refer to the English proficiency (https://admissions.colostate.edu/internationalstudentshome/englishproficiency/) information on the Admissions website for more information.

Students with Disabilities

All applicants are evaluated according to the same University admission standards. We recognize, however, that not every student’s personal or educational background is the same.

Disclosure of the presence of a disability is voluntary. Applicants may use components of the application such as the academic explanation, personal statement, or recommendation(s) to identify their disability and to discuss the impact of the disability on their academic record (if any). While this information can be considered if disclosed, it will not be the sole basis for the admission decision.

CSU’s Student Disability Center (https://disabilitycenter.colostate.edu/) offers admitted students the full range of support services to help students achieve academic success.

How to Apply

Undergraduate Applicants: How to Apply

The information below applies both to domestic and international undergraduate applicants.
Application Materials

All applicants for admission must submit an online application, $50 application fee or fee waiver request, and academic transcripts. Freshman/first-year applicants also are required to submit a personal statement, and one recommendation. ACT/SAT scores are optional for all 2021 admission terms. Additional information may be requested for the full review of an applicant's application file.

Refer to the appropriate application guides (https://admissions.colostate.edu/applying-to-csu/) for details.

Application Fee or Fee Waiver

An application fee is required as part of a complete application; a decision cannot be rendered without it. If payment of the application fee presents a financial hardship (https://admissions.colostate.edu/2017/02/27/qualify-fee-waiver-enrollment-deposit-deferral/), applicants can request a fee waiver.

Refer to the Office of Admissions website for the application fee refund policy (https://admissions.colostate.edu/refund-waiver-policies/).

High School Transcript and proof of graduation (or equivalent)

High school performance, as reflected on a student's transcript(s), is an essential component of the admission decision for all freshman/first-year applicants and for transfer applicants with fewer than 30 post-high school credits.

High school transcripts for transfer applicants with more than 30 post-high school credits are considered only when needed to satisfy the admission requirement in mathematics (https://admissions.colostate.edu/requirementinmathematics/).

All freshman/first-year applicants and all transfers with fewer than 60 post-high school college credits must submit proof of high school graduation or equivalent prior to the start of their first semester of enrollment.

ACT/SAT results

CSU does not require ACT or SAT test scores (consistent with state legislation passed to provide COVID-19 relief for 2021 high school graduates). Our individualized review process includes a broad range of academic and personal factors and is designed so that test scores, if submitted, can be used to support consideration for admission and scholarships while ensuring that students with no scores or low scores have the same access to admission and scholarship review.

ACT or SAT results can be used for composition placement purposes and thus can be helpful to submit even after admission and before registration.

College Transcript(s)

Freshman/first-year applicants typically are required to submit an official college transcript at the point of application only if college enrollment is being used as their full-time high school curriculum (such as early college, ASCENT and fifth-year programs, and some homeschool curricula). Refer to College-Level Courses Completed by High School Students for additional information.

Transfer applicants must submit an official college transcript from each college attended, regardless of the type of institution, amount or type of credit earned, and age of the credential, even if the work will be reflected in transfer on another transcript. No part of the previous collegiate record may be disregarded. Failure to include all institutions previously attended may result in the rescinding of admission, loss of credit, or disenrollment. Transcripts reflecting courses taken at vocational-technical institutes or colleges that are not regionally accredited can be helpful documentation and may be required, though they do not qualify an applicant for transfer applicant status or advanced-standing credit.

Second Bachelor applicants are only required to submit an official transcript from the college/university from which they earned their first (or most recent) bachelor's degree. Official transcripts from other colleges/universities attended (if applicable) are encouraged if an applicant is seeking a competitive major (https://admissions.colostate.edu/competitive-majors/) or to demonstrate explicit pre-requisites for their new degree program.

Advanced standing credit (transfer credit) is only awarded from an official transcript.

International Applicants: Additional Requirements

In addition to the documents outlined above, applicants who have completed part or all of their education outside of the US also may be prompted to submit the following:

- A certified English translation of any academic credentials not in English
- Evidence of English Proficiency to be considered for direct admission
- An Immigration Information Form, financial support documentation and a copy of the passport identification page for immigration documentation

Application Timelines

Students can begin their enrollment during fall semester (August start), spring semester (January start) or summer term (May/June start; not recommended for freshman/first-year students).

Applicants are encouraged to apply 6-12 months prior to the start of the term. Freshman/first-year applicants must have completed at least 75% of their high school curriculum (through junior year equivalent) before a decision can be rendered; transfer applicants must have no more than one academic term in progress when a decision is rendered. Second bachelor's/post-bachelor candidates must be finished with their first degree or in their final term of enrollment with degree pending for a decision to be rendered.

Refer to the appropriate application guides (https://admissions.colostate.edu/applying-to-csu/) for more detail about application dates and timelines.

International Undergraduate Admissions

Non-U.S. citizens educated outside of the U.S. who require a student visa
Non-U.S. citizens educated outside of the U.S. who will NOT require a student visa
Non-U.S. citizens/Non-permanent residents educated inside the U.S. U.S. citizens/permanent residents educated outside of the U.S.
English Proficiency

U.S. citizens/permanent residents educated outside of the U.S.

CSU recognizes that the pool of U.S. citizens/permanent residents educated abroad covers a wide spectrum, including students with dual citizenship who have never been to the U.S., U.S.-born students who have lived in multiple countries or who have only recently moved overseas as the result of family military or employment assignments, and U.S. permanent residents with varied amounts of U.S.-based education.

Our comprehensive, individual review process is designed to recognize and incorporate these kinds of unique experiences into our evaluation. Refer to the application guide (https://admissions.colostate.edu/applying-to-csu/) appropriate to your applicant type (e.g., freshman/first-year, transfer), and we will adapt our review process to your circumstances.

As we review your credentials, we'll notify you if any additional support information is required to assess your potential for academic success at CSU. For example, we may ask you to provide English proficiency documentation and a translation of academic records if your primary language and/or language of instruction is not English.

U.S. citizens or U.S. permanent residents who have been educated abroad may be eligible for financial aid. Refer to Financial Assistance in the Financial Information section for more information.

English Proficiency

We offer a variety of options to demonstrate English proficiency.

Enrollment Deposit

Enrollment Deposit and Admission Confirmation

Newly-admitted on-campus freshmen and transfers must submit an enrollment deposit (https://admissions.colostate.edu/2016/11/29/what-you-need-to-know-about-the-enrollment-deposit/) to secure their place in the entering class. The enrollment deposit covers new student charges and a portion of tuition. Paying the deposit opens access to other critical steps in the enrollment process, including on-campus housing, Ram Orientation and course registration.

If payment of the enrollment deposit presents a financial hardship (https://admissions.colostate.edu/2017/02/27/qualify-fee-waiver-enrollment-deposit-deferral/) or the full cost of attendance will be covered by a third party (e.g. international sponsor, 100% GI Bill entitlement, athletic scholarship), students can request an enrollment deposit deferral. Students who received a need-based application fee waiver are granted an enrollment deposit deferral when they confirm their intent to enroll. When a deferral is granted, the student secures a place in the entering class and opens access to other steps to enroll, and the deferred amount appears as a charge on the student's first billing statement.

Refer to the appropriate admitted student guide (https://admissions.colostate.edu/admitted/) for deadlines and instructions.

Non-U.S. citizens educated outside of the U.S. who require a student visa

- Refer to the International Undergraduate application guide (https://admissions.colostate.edu/international/) appropriate to your applicant type (e.g., freshman/first-year, transfer).
- You may be required to demonstrate English proficiency to be considered for direct admission.
- Applicants are required to submit an immigration information form, financial support documentation and a copy of their passport as part of the application for admission in order to expedite the issuance of immigration documents upon admission. Immigration information is not considered in the admission decision, and receiving CSU immigration documents upon admission does not bind a student to enroll at CSU.
- Contact International Student and Scholar Services (ISSS) (http://issss.colostate.edu/) for information about immigration documents, international student orientation and check-in.

Non-U.S. citizens educated outside of the U.S. who will NOT require a student visa

- Refer to the International Undergraduate application guide (https://admissions.colostate.edu/international/) appropriate to your applicant type (e.g., freshman/first-year, transfer).
- You may be required to demonstrate English proficiency to be considered for direct admission.
- Contact International Student and Scholar Services (ISSS) (http://issss.colostate.edu/) for information about international student orientation and check-in.

Non-U.S. citizens/Non-permanent residents educated inside the U.S.

- Refer to the domestic application guide (https://admissions.colostate.edu/applying-to-csu/) appropriate to your applicant type (e.g., freshman/first-year, transfer).
- Include a copy of your visa or status documentation with your application for admission (if applicable).
- You may be required to demonstrate English proficiency depending upon your academic credentials and length of time in the U.S.
- Students who are undocumented and educated in Colorado (https://admissions.colostate.edu/2017/01/05/im-undocumented-live-colorado-can-apply-csu/) may be eligible for in-state tuition under Colorado ASSET legislation (https://financialaid.colostate.edu/asset-1/).
- No extra or unique requirements are in place for students without documentation since admission is an academic decision.
Transfer and Test Credit

College-Level Courses Completed by High School Students

Advanced Placement (AP)
College-Level Examination Program (CLEP)
International Baccalaureate (IB)
Cambridge Pre-U Examination
Evaluation of Transfer Credit

College-Level Courses Completed by High School Students

CSU credit may be allowed for college-level courses completed at a college or university while a student is still in high school if the following conditions are met:

1. The college or university must be fully accredited by one of the seven regional associations of schools and colleges.
2. Credit will be granted only for academic courses with grades of C- or better.
3. An official transcript must be provided by the college or university listing the courses completed.
4. The course is not remedial or vocational/technical in content.

The College Board Advanced Placement Program (AP)

The Advanced Placement tests administered by The College Board are used by CSU to award credit and advanced placement in any of several fields in which a student may have participated in high school. Lower division credit (100-200) awarded is treated as transfer credit without a grade but is counted toward graduation and may be used in fulfilling specific lower division curriculum requirements.

The academic department responsible for the course in which test credit is granted will have determined what lower division equivalency will be awarded. Department decisions are considered the final determination of equivalency for the specific examination. Therefore, a request for re-evaluation or an appeal of the decision will not be considered or accepted.

The exception to the re-evaluation process is limited to the Capstone Seminar and the Capstone Research components of the Advanced Placement offerings. The re-evaluation must be approved by the teaching department in which the Capstone most closely aligns for consideration of a direct equivalency of lower division credit. The department’s evaluation will be the final determination.

Please see the Office of the Registrar (https://registrar.colostate.edu/transferring-your-examination-test-credit/) and select “Advanced Placement (AP)” for a complete table indicating the courses for which credit is awarded.

College-Level Examination Program (CLEP)

The College-Level Examination Program (CLEP) was designed by The College Board to enable both traditional and nontraditional students to receive college-level credit by examination. There are two types of examinations offered—the General Examinations and the Subject Examinations.

For general examinations, a minimum of three credits will be awarded for a score of 50 or higher. For subject examinations, credit will be awarded in the amount equivalent to the CSU course(s), for scores of 50 or higher. Go to the Office of the Registrar (https://registrar.colostate.edu/transferring-your-examination-test-credit/) and select the tab “College-Level Examinations Program (CLEP)” for a complete table indicating those courses for which credit is awarded.

To obtain information or to make arrangements for taking the tests, contact the University Testing Center (http://testing.colostate.edu/), General Services Building, Room 203, at (970) 491-6498, or visit the CollegeBoard website (https://clep.collegeboard.org/test-takers/feedback/). Credit awarded for these examinations cannot be used in meeting the CSU residency requirement for the baccalaureate degree.

The academic department responsible for the course in which test credit is granted determines what equivalency will be awarded. Department decisions are considered the final determination of equivalency for the specific examination. Therefore, a request for re-evaluation or an appeal of the decision will not be considered.

International Baccalaureate (IB)

Students who graduate from high school with an International Baccalaureate diploma or have completed International Baccalaureate examinations may receive CSU credit for scores of four or higher.

The number of credits awarded for successful completion of an International Baccalaureate diploma program will be a minimum of 24 semester credits. If a score of less than four is received on an exam, the number of credits granted will be reduced accordingly if the student meets the necessary requirements.

The academic department responsible for the course in which test credit is granted determines what equivalency will be awarded. Department decisions are considered the final determination of equivalency for the specific examination. Therefore, a request for re-evaluation or an appeal of the decision will not be considered.

See the Office of the Registrar (https://registrar.colostate.edu/transferring-your-examination-test-credit/) and select the
International institutions must be recognized by the country's governmental agency for possible transfer of credits (i.e., Ministry of Education).

**International Credit toward a Baccalaureate Degree**

Transfer credit is generally only considered from international tertiary institutions that are recognized by the ministry of education, or a similar accrediting body, in the home country. In order to qualify for transfer credit, courses completed at recognized international tertiary institutions must be applicable to the student's degree and comparable to the nature and quality of CSU courses.

International courses with the same or similar course titles as CSU courses may satisfy course requirements. An official or certified copy of the transcript must be presented to the Office of the Registrar for work to be officially evaluated for transfer credit. A certified translation must accompany transcripts not issued in English. The translation should be literal and not interpretive. If course content is not evident from course titles on the transcript, students should be prepared to provide official catalog course descriptions or syllabi (in English) from their schools or faculties.

Rarely is international secondary level work considered for transfer credit. The completion of rigorous secondary school subjects is expected of all admission candidates-international and domestic alike. Transfer credit is not awarded for secondary school subjects, unless an additional 13th year of secondary school was completed and/or a standardized examination was administered. Examples might include the British Advanced Level (A-Level) examinations, German Abitur examinations, or Italian Maturita examinations.

In many cases, international credits will have to be converted into the U.S. semester system unless there is an official CSU Memorandum of Understanding (MOU) that allows for an alternate credit evaluation option. In those cases where there is not an official MOU indicating an alternate, a conversion factor will be used to determine the U.S. Credit equivalency for each course. No more than 15-18 semester hours per term or 30-36 semester hours may transfer in any academic year. All courses considered for transfer must be completed with a "C-" or better grade. The Office of the Registrar will determine the international grade equivalencies.

**Transferology™**

Students who have completed courses in higher education want to know which colleges and universities will accept those courses and apply them to a degree. Transferology (https://www.transferology.com/login.htm)™ will provide quick answers from hundreds of institutions in a streamlined and dynamic interface.

Transferology™ enables students, advisors, faculty, and administrators from colleges and universities to obtain consistent and accurate information about how courses will transfer from one institution to another, and how courses will apply to meet academic program requirements at the other institutions. A potential student can have direct access to course acceptability, equivalency, and applicability among all participating institutions by using each institution's existing course equivalency tables. Course descriptions, details about academic programs, and course equivalencies can all be obtained from this one website.

For CSU, Transferology™ is a database of selected accredited institutions in the U.S. and some recognized international institutions, their courses, and how those courses will transfer to CSU. All public institutions in
Colorado and Wyoming are part of this database and, in addition, many frequently transferred courses from selected institutions in other states are also listed. Access this database by going to the Transferology (https://www.transferology.com/login.html) website. If a particular institution is not listed, contact the Degree and Transfer Evaluation unit of the Office of the Registrar (https://registrar.colostate.edu/) for evaluation of specific courses.

**Statewide Guaranteed Transfer Program (gtPathways)**
The state of Colorado has developed a statewide guaranteed transfer program, which applies to all Colorado public institutions of higher education, including CSU. Statewide there are approximately 1,000 lower-division general education courses in 20 subject areas approved for guaranteed transfer from one public institution of higher education in Colorado to another.

After starting on a higher education pathway at any public college or university in Colorado, and upon acceptance to another, a student may transfer up to 31 credits of successfully (C- or better) completed guaranteed transfer general education coursework in a set of defined categories. These courses will apply toward the general education (All-University Core Curriculum) graduation requirements at CSU. Extended detail may be found on the Colorado Department of Higher Education (CDHE) website (http://highered.colorado.gov/Academics/Transfers/Students.html). The Office of the Registrar (https://registrar.colostate.edu/your-transfer-coursecoursework/) may also be referenced using the "GTPathways" tab.

**Transfer Appeals Process**
Students may appeal a decision regarding the transferability of a specific course and/or the decision regarding how it is used to fulfill degree requirements. Any request for re-evaluation of credit should first be directed to the Degree and Transfer Evaluation unit of the Office of the Registrar.

The student is responsible for supplying any supporting documentation from the student’s transferring college, such as a syllabus or more detailed course description. The Degree and Transfer Evaluation unit will either satisfy the student’s request or refer the student to an academic department for additional consideration. If the academic department cannot fulfill the request for any item related to an AUCC requirement or an overall university graduation requirement, a formal written appeal may be presented to the Degree and Transfer Evaluation unit for presentation to the Vice Provost for Undergraduate Affairs for a final decision. For information on the appeal process refer to the Office of the Registrar (https://registrar.colostate.edu/forms/) in the "Appeals" section at the bottom of the home page.

**Credit from Two-Year Colleges**
If a student attends one or more regionally accredited two-year institutions, a total of 64 transfer credits may be accepted.

Credit earned at a two-year college may not be used to meet the upper-division (300- to 400-level) graduation requirement. Academic departments may allow substitution of course work from two-year colleges towards specific major upper-division requirements.

Transfer guides for specific majors are available for students who want to complete a four-year degree at CSU by first completing an AA or AS degree at a Colorado community college, and then completing the 60 designated CSU credits listed on the guide. Students in programs requiring more than 120 credits should expect to take more than 60 additional credits at CSU to meet degree requirements. Please see the Office of the Registrar’s website (https://registrar.colostate.edu/transfer-agreements-guarantees/) and then select the "Agreements & Guarantees" under the Transfer Credit section.

**Service Schools and Courses of the Armed Services**
Credit may be allowed for transfer from those service schools carrying a baccalaureate credit recommendation in the latest Guide to the Evaluation of Educational Experiences in the Armed Services prepared by the American Council on Education (ACE). Students must submit SMARTS (Sailor/Army/American Council on Education Registry Transcript), AARTS (Army/American Council on Education Registry Transcript), JST—Joint Service Transcript, or Coast Guard Institute Registered Transcript to the Office of the Registrar to have the information evaluated for eligibility and to receive credit. Individual academic departments determine whether those courses clear specific major curriculum requirements or may be used as elective credit within the program of study. Visit the Office of the Registrar (https://registrar.colostate.edu/contact-us/) for further information.

**Transfer Credit from Non-Collegiate Institutions**
CSU will award transfer credit for academic work done under the sponsorship of non-collegiate institutions, if the courses proposed for transfer:

1. Have been approved by the American Council on Education,
2. Are listed in The National Guide to Educational Credit for Training Programs, and
3. Are approved by the academic department and college in which the subject matter is taught at CSU.

Please visit the Office of the Registrar (https://registrar.colostate.edu/transfer-credit/) and select the "Non-Collegiate Transfer Coursework" tab for more information.

Financial Assistance

Tuition and Fees

Authority to set tuition rates is vested in the governing boards of Colorado's state institutions of higher education. The tuition rates which apply to any succeeding fiscal year will not be known until June of each year. The Board of Governors of the CSU System, therefore, reserves the right to change tuition and fee schedules and related policies, including the time, date, and method for payment, at any time.

By registering for a course, a student acknowledges legal and financial responsibility for any and all tuition and fees assessed as a result of registration. Students must follow, and are financially responsible for, formal add/drop and withdrawal procedures at CSU. Non-attendance does not relieve a student of financial responsibility. A student whose account becomes delinquent will be held responsible for paying any late payment charges, collection agency fees up to 40% of the debt, and all costs and expenses including reasonable attorney fees that CSU incurs in its collection efforts. CSU will not register a student, release a diploma or proof of degree, or provide official transcripts to any current or former student who has past due financial obligations to CSU.

Undergraduate Tuition
Graduate Tuition
International
Special Fees
Fees

Undergraduate Tuition

Schedule of Tuition and Fees

The most current listing of tuition and fees, as well as a tuition calculator, can be found at the Office of Financial Aid's website.

In addition to the charges listed under each category, students may be required to pay differential tuition, program charges, charges for technology, and/or special course fees. Tuition and fees for a student registering for a combination of regular on-campus courses and Division of Continuing Education (CSU Online) courses will be assessed individually according to the schedule established for each.

Students who are off campus for full time internships, practica, and professional affiliations, and are not concurrently enrolled in other on-campus experiences or courses, may be assessed a reduced general fee amount.

College Opportunity Fund (COF)

Undergraduate Colorado resident students are eligible to receive a College Opportunity Fund (COF) stipend from the State of Colorado to apply toward tuition costs. To receive the COF stipend, students must apply for the stipend AND authorize CSU to receive the funds EACH semester via RAMweb.

Differential Tuition

To ensure students have an opportunity to fully explore their academic options and the range of programs offered at CSU, the University does not charge the full cost of tuition until students have acquired 60 credit hours (30 credits if in the College of Business). After that point, at which most students have settled on a major, students begin to pay differential tuition in addition to the base tuition paid up to that point. Differential tuition is assessed to undergraduate resident, non-resident, and WUE students. Credits that students bring upon entering the University may cause them to reach the 60 credit hours earlier than their peers. Almost all of the differential tuition students pay returns directly to the academic colleges and departments to enhance the quality of a CSU education. Each CSU college's rates are based on three factors:

• High cost—i.e., how expensive the program is to provide
• High demand—i.e., whether the program is in high demand by large numbers of students
• High return—i.e., how much students generally earn when they graduate from that specific program

Differential tuition is assessed by the course subject code at a rate of $55/$72/$95 per credit hour, depending on the course. Differential tuition is not assessed by a student's major. For more detail on differential tuition cost per credit, go to the Office of Financial Aid's website and select Undergraduate Differential Tuition.

Students are assessed differential tuition upon reaching 30 transcripted credits (sophomore level) for College of Business courses. Students are assessed differential tuition upon reaching 60 transcripted credits (junior level) for all other courses offered at CSU.

Differential tuition is also assessed for specific academic programs that cost more to offer.

Graduate Tuition

Graduate tuition and fees are updated annually. Information about financial support for graduate students is available in the Graduate and Professional Bulletin.
**International**

The International Student and Scholar Services (http://iss.colostate.edu/) administrative charge is $125 per semester. Fees are subject to change. Sponsors of international students, such as foreign governments, are assessed a charge of $375 per term, but it could be as much as $386 if the sponsor requests an official transcript to be sent by the university.

**Personal and Living Expenses**

International students should anticipate expenses considerably higher than those quoted for domestic students. Additional considerations include costs of deposits for off-campus housing, transportation, international travel, clothing (particularly winter clothing for those coming from warmer climates), living expenses during vacation periods and during the summer months for those who choose to remain on campus, the cost of keeping an automobile and insuring it, child care, shipping books and other belongings home, taxes owed on U.S. source income, and items of personal use which cannot be brought in a suitcase and which must be purchased in the United States after arrival. An annual inflation rate of 3% should be anticipated in all calculations. Refer to the Office of International Programs (http://iss.colostate.edu/) for an up-to-date list of estimated expenses.

**Health Insurance**

Colorado State University requires all full-time domestic students and all international students to carry health insurance as a way of protecting the student’s educational investment. Students must meet this requirement their first semester at CSU and every fall semester thereafter. Students can meet the health insurance requirement by electing coverage through an individual health insurance plan through a family member, employer, or by enrolling in the University-sponsored Student Health Insurance Plan (SHIP). Visit Health Insurance Requirement (https://health.colostate.edu/health-insurance-requirement/) for deadlines and additional information on how to meet the requirement. Note that all CSU students have full access to the wide range of medical, counseling, and health education and prevention services provided by CSU Health Network, regardless of their insurance plan.

**Housing**

CSU requires that all newly admitted first-year students (Admissions Type “New”) and transfer students with fewer than 15 post-high school credits, who are single, under 21 years of age, and not living with their parents in the Fort Collins area, live in the University residence halls for the first two consecutive terms of their attendance. Credits taken concurrent with high school and/or credits attained through Advanced Placement (AP) or International Baccalaureate (IB) do not apply toward living experience. First year students are guaranteed a room in a residence hall on campus (http://www.housing.colostate.edu/residence-halls/). The residence halls house approximately 20% non-first year students including transfer students and upper-division students. Graduate students, upper-division undergraduate students and students with families can find information on university apartments (http://www.housing.colostate.edu/university-apartments/). Off-campus housing information can be found at Off-Campus Life (http://ocl.colostate.edu/).

**Third-Party Billing**

CSU’s Sponsor Billing office provides a service allowing third party sponsors to pay the university for authorized student charges. A sponsor is any government agency, business, embassy, foreign government, third-party trust fund or other entity that agrees to pay for all or part of a student’s expenses while at CSU. A sponsor billing service charge of $50 is assessed each term to all sponsors that have requested direct billing through the Sponsor Billing office. If the sponsor does not authorize the sponsor billing charge, the $50 charge will be billed to the student account. All agencies and other entities sponsoring international students, which utilize third party billing privileges, will be assessed a $375 base service fee per student per academic term by the Office of International Programs. This fee applies to all international students who receive services regardless of whether the student is registered for credit-bearing classes. For a copy of the Service Schedule and/or a detailed list of estimated expenses, send a request to: ISSS Assistant Director for Student Services, Sponsored Degree Programs, Office of International Programs, 1024 Campus Delivery, Colorado State University, Fort Collins, CO 80523-1024.

**Special Fees**

In addition to the regular charges which all students are assessed, other fees may be applicable at certain times or for certain groups of students pursuing particular activities.

Transcript fee per copy (Refer to https://registrar.colostate.edu/transcripts (https://registrar.colostate.edu/transcripts/))

University Alternative Transportation Fee³ $33.65

University Facility Fee (per credit hour) $20.75

University Technology Fee $32.00

* Fees are subject to change.

¹ Undergraduate students enrolled in twelve (12) or more credits and graduate students enrolled in nine (9) or more credits are considered full time and required to pay the full amount according to their college affiliation. Part-time undergraduate and graduate students pay a prorated amount. Graduate students in the College of Natural Sciences, College of Veterinary Medicine and Biomedical Sciences, and the Intra-University option are not assessed a charge.

² The Colleges of Business, Health and Human Sciences, and Liberal Arts are the only colleges that apply their charge during the summer session.

³ Undergraduate and graduate students enrolled in fewer than six (6) credits are assessed $14.13.

Special Course Fees

Certain courses require enrolled students to pay fees for special services and/or materials. Courses with fees are indicated by a Yes in the Special Course Fees line in Courses A-Z. Special course fees are updated in June for the upcoming academic year. For the most current listing of special course fees, visit the Provost and Executive Vice President’s web page (http://provost.colostate.edu/students/) and select Complete List of Special Course Fees.

There are four types of special course fees:

1. For some courses, enrolled students are assessed a uniform fee during registration to cover costs such as the rental of external facilities, the expenses of field placements, the provision of special equipment and materials that the University would not otherwise maintain, and/or the costs of off-campus travel of students with supervising faculty members.

2. For some courses, enrolled students are assessed a fixed or variable fee by the department based upon actual use of expended materials supplied by the department and used by the student in the creation, construction, and/or fabrication of an object of value, such as a class project that becomes the student’s property. These fees are designed for situations in which it is more efficient for the departments to supply the expendable materials because of the ability to make individual purchases economically.

3. For some courses, enrolled students are assessed variable fees by the department based upon actual damage or non-return of equipment used in the courses.

4. For some courses, enrolled students are assessed a fixed fee to provide funds for replacement or upgrade of equipment that was purchased originally through department funds and cannot be maintained appropriately without this type of student fee support.

All special course fees will be assessed and collected through normal student accounts receivable procedures. No fees should be paid directly to academic departments or individuals.

Tuition and Fee Adjustments

Registration Cancellation

Registration Changes

Course Withdrawal

University Withdrawal

Student General Fee Appeal Process

Registration Cancellation

Before classes begin for a particular term, all courses can be canceled via RAMweb (https://ramweb.colostate.edu/) with no assessment charges. Students not planning to attend must cancel their registration before the fall or spring semester begins or they will be assessed a portion of tuition and fees.

Registration Changes

Tuition and fees will be adjusted (not cancelled) for undergraduate students if credits are added or dropped during the schedule change period at the beginning of the semester. Specific dates are listed in the online class schedule. After this deadline, there is no adjustment in tuition and fees if a student drops part of their schedule.

Course Withdrawal

Students may withdraw from a course through the end of the Withdraw period for the individual class. The specific date is listed on the online Class Schedule (https://bannerxe.is.colostate.edu/StudentRegistrationSsb/ssb/term/termSelection/?mode=search&mepCode=CSU) or in the My Weekly Class Schedule on RAMweb (http://ramweb.colostate.edu/). When a student withdraws from a course, a W will appear in place of the grade. This does not affect the GPA. There is no refund of charges associated with the course in the case of a withdrawal for an on-campus course. For charges associated with withdrawing from a Continuing Education online course, please go to CSU Online (http://www.online.colostate.edu/).

University Withdrawal

Once the semester begins in fall or spring, students dropping all courses and leaving CSU (completing a University Withdrawal) must do so through RAMweb (https://ramweb.colostate.edu/registrar/Public/Login.aspx).
Residents $45,625
Non-Residents $13,586

Changes is available in the University. Refer to the Active military duty, registration cancellation, and other registration through CSU Online is in addition to any other tuition assessed by the University. Tuition assessed residency status is a factor in determining tuition rates for some on-campus credit courses offered through CSU Online. Tuition assessed by program, level of instruction, and delivery method. Colorado residency status is not a factor in determining online, distance, or off-campus tuition rates; however, residency status is a factor in determining tuition rates for some on-campus credit courses offered through CSU Online. Tuition assessed through CSU Online is in addition to any other tuition assessed by the University. Refer to the CSU Online website for specific tuition rates and more information.

CSU Online courses and programs qualify for financial aid (http://www.online.colostate.edu/faqs/financial-aid.dot), including federal financial aid, scholarships, military discounts, and veterans' benefits.

Additional Expenses

Personal and Living Expenses
Student Health Insurance
Housing Deposit

The amount of money spent by a student in an academic year (two semesters—August to May) for personal and living expenses varies with current prices and the habits and needs of the student; therefore, it is important that each student estimate the amount of money needed for such items as laundry, clothing, transportation, health care, etc. Expenses not directly related to educational costs are not included in the estimates.

Example of Estimated Direct Expenses for 2020-2021 (based on 15 credits per semester for 2020-2021)

1. A significant percentage of non-residents with competitive academic records are offered scholarships to help offset the cost of tuition.
2. If you are a Colorado resident, be sure to apply for the College Opportunity Fund (COF) (https://cof.college-assist.org).
3. CSU adjustment to COF to match last year's COF stipend amount.
4. There may be additional costs for undergraduate students enrolled in courses with differential tuition. For more information about tuition and fee charges, visit the Office of Financial Aid (https://financialaid.colostate.edu/base-tuition/) website.
5. For students residing in CSU housing, an average amount, assuming double-occupancy suite-style room with an "Any 14" meal plan; Actual expenses may vary. For details visit the Housing & Dining Services website (http://housing.colostate.edu/).
6. This figure does not include personal expenses for such items as, laundry, clothing, transportation, health care, etc., which vary from student to student.

Office of Financial Aid (https://financialaid.colostate.edu/cost-of-attendance/) provides additional information about annual costs, including estimates of personal expenses.
Student Health Insurance

To protect students' good health and financial stability, students are required to carry adequate health insurance coverage (http://health.colostate.edu/student-health-insurance/).

Housing Deposit

Residence Halls

The $350 housing deposit for residence hall students serves as both a reservation fee and a contractual guarantee. A refund of this deposit is available if the applicant cancels their request prior to the published deadline for each semester. For specific information about the refund policy, refer to the "Housing Deposit & Refund Information" outlined in the Housing Guide or on the Housing & Dining Services website (http://housing.colostate.edu/).

University Apartments

A $350 application deposit is required for students applying for university apartments. This deposit will convert to a damage/cleaning deposit at the time of assignment. The deposit will be refunded any time prior to confirming an apartment assignment, upon request. The refund procedure for current apartment residents is outlined in the University Apartment lease. For further information, refer to the Housing Guide or the Housing & Dining Services website (http://housing.colostate.edu/).

Enrollment Status

Enrollment status (full-time, three-quarter time, half-time, less than half-time) is determined by the number of credits which the student has completed or is pursuing for the term in which the verification is requested. Courses the student has withdrawn from and courses the student is auditing are not included. (The following schedule for enrollment status differs from the full-time/part-time schedule for tuition and fees. (https://financialaid.colostate.edu/base-tuition/))

Credit requirements are as follows:

**Fall/Spring/Summer Semesters:**

**Undergraduate Students**

<table>

For verification of enrollment status, go to RAMweb (https://ramweb.colostate.edu/) and click on Records and then on Enrollment Verification. For more information, visit the Office of the Registrar (http://registrar.colostate.edu/student-resources/enrollment-degree-verification/) website.

Groups such as co-op programs may have a different definition of enrollment status and should be verified with the program.

Residency for Tuition Classification

Office of Financial Aid (http://financialaid.colostate.edu/), Centennial Hall
(970) 491-6321
FAX: (970) 491-5010

Refer to the residency section (http://financialaid.colostate.edu/residency/) of our website for more information.

Classification of students for tuition purposes is governed by state statute ("tuition law") which sets forth conditions for a student being considered as "in-state" for purposes of tuition classification. The tuition law is contained in sections 23-7-101 to 23-7.4-204 of the Colorado Revised Statutes and in published policies of the Colorado Commission on Higher Education (CCHE). Although individuals may be considered state residents for voting or other legal purposes after being in the state for a short period of time, the tuition law specifies additional requirements for classification as "in-state" for tuition purposes. The tuition law, which applies to all public institutions of higher education in Colorado, is subject to judicial interpretation and can be changed from year to year by the Colorado Legislature. CSU must apply the rules set forth in the Colorado Revised Statutes, and is not free to make exceptions except as specifically permitted under the statutes and CCHE policies.

**Note:** This information is considered to be general guidance and is not legal advice. Refer to state statute to review the current law.

Definition of "In-State Residency"

Under the Colorado tuition law, the term "in-state" student means: "A student who has been domiciled in Colorado for one year or more immediately preceding the first day of classes for the term for which such status is claimed." Further the tuition law states: "Attendance at an institution of higher education, public or private, within the state of Colorado shall not alone be sufficient to qualify for domicile in Colorado."

In-state classification requires domicile in Colorado for 12 months or prior to the first day of classes of each semester. "Domicile" is the term used to describe the place where a person has chosen to make a permanent and fixed home. Domicile is made up of two components: physical presence and evidence of intent. Both physical presence and evidence of intent must be established to begin the domicile year. A student can only establish domicile in Colorado for tuition purposes if he or she intends to reside permanently in the state, and meets the definition of a "Qualified Person." A qualified person is one who is (a) 22 years of age or older, (b) a post-baccalaureate graduate student, or (c) an emancipated minor. (A minor who is married for 12 months is presumed to be emancipated.) A person must be qualified under one of these categories in order to begin the 12-month period of domicile for purposes of in-state tuition. Unemancipated minors qualify for in-state tuition if the parents have been domiciled in Colorado for one year. Exceptions to One Year Domicile (https://financialaid.colostate.edu/exceptions-to-1-year-domicile-requirements/) are in this section and also online.

Initial residency determination for tuition purposes of any student enrolling at CSU is determined by the Office of Admissions (http://admissions.colostate.edu/). To be initially considered for in-state classification you must answer all residency questions completely and accurately on the application and submit requested evidence substantiating their claim. Failure to do so will result in classification...
as out-of-state for tuition purposes. The initial determination may be changed if additional evidence regarding the student’s eligibility for in-state classification is received.

Petition for Reclassification
A petition may be filed if a student wishes to contest out-of-state classification or if he or she has subsequently become eligible for in-state status. Petition materials may be obtained from the Office of Financial Aid (http://financialaid.colostate.edu/). Petitions will be processed only for students who have been admitted to CSU and are currently enrolled for the semester for which they are requesting a change in classification.

A student's current tuition classification will remain until they have received notification from the Office of Financial Aid (http://sfs.colostate.edu/) Tuition Classification Officer indicating a residency change has been approved. Students who are petitioning for in-state classification remain responsible for paying their tuition based upon current tuition classification. Students are strongly urged to petition by the “Priority Deadline to Submit Petition” provided on the Office of Financial Aid website (https://financialaid.colostate.edu/petition-process-and-deadlines/) in order to receive a response of their tuition classification prior to the beginning of the semester and tuition and fee deadlines.

Petition Process/Deadline
The Office of Financial Aid (http://financialaid.colostate.edu/) must receive completed petitions no later than the published deadline date for the semester for which the student is petitioning. Deadlines (https://financialaid.colostate.edu/petition-process-and-deadlines/) are provided on the Office of Financial Aid (http://financialaid.colostate.edu/) website. Petitions will not be accepted after the published deadline date and incomplete petitions will not be accepted and/or reviewed for that semester, and the tuition classification and tuition assessment will remain nonresident for that term.

Students will be notified of the results of their petition by mail or CSU email. Please allow up to six weeks for notification. If additional information is required, the additional information must be submitted within the requested time frame unless special arrangements are made with the Tuition Classification Officer.

Decisions made by the Tuition Classification Officer may be appealed to the University’s Residency Appeals Committee. A student wanting to appeal the decision to the Residency Appeals Committee must contact the Office of Financial Aid (http://financialaid.colostate.edu/) no later than the appeal date listed in the letter in which the decision was conveyed to the student. The decision of the Residency Appeals Committee is the final CSU determination for that specific semester. In addition, there are no provisions in the Tuition Classification Statutes for retroactive petitioning.

The fact that a student does not qualify for in-state status in any other state does not guarantee in-state status in Colorado; in-state classification is governed solely by Colorado statute. The tuition classification statute places the burden of proof on the petitioner to provide clear and convincing evidence of a change in eligibility for in-state tuition once the student has registered.

Any student who provides false information to avoid paying out-of-state tuition may be subject to legal and/or disciplinary actions.

In-State Status: Other Circumstance
Exceptions to the one-year residence requirement exist for the following:

- Colorado National Guard members
- Active-duty military stationed in Colorado on permanent orders in the last 12 years
- Honorably-discharged members of the U.S. armed forces
- Active-duty military members domiciled in Colorado prior to enlistment
- Canadian military stationed in Colorado
- Employees of companies moving to Colorado receiving government economic incentives
- Children of new faculty members at Colorado state colleges and universities
- Western Regional Graduate program enrollees
- 4 year rule and complete junior year of high school in Colorado
- A student, other than a nonimmigrant alien who attended a Colorado high school for three years who is admitted into a Colorado Institution of Higher Education within twelve months after graduation or completing a GED in Colorado.

For detailed explanation of the requirements for these exceptions, including spouse and child eligibility, go to the Office of Financial Aid (http://financialaid.colostate.edu/residency/) website or review the Colorado Higher Education Residency Guide (https://highered.colorado.gov/residency-requirements/).

Paying Your Bill
Cashier’s Office (http://bursar.colostate.edu/Depts/Cash_Office.aspx)
Howes Street Business Center, First Floor
555 South Howes Street
(970) 491-2767
b (http://bursar.colostate.edu/Depts/Cash_Office.aspx)usfin.colostate.edu/Depts/Cash_Office (http://busfin.colostate.edu/Depts/Cash_Office.aspx)

A student may make a payment on their student account by using CSU’s preferred online payment options. Online payments are the fastest, most secure way to make a payment. Payment by electronic check is a free, easy to use service for students and other authorized individuals.

Online payments may be accessed through RAMweb (https://ramweb.colostate.edu/) and/or FAMweb (https://famweb-prod.is.colostate.edu/auth/login/). The routing number and bank account number (from the bottom of a personal check or a bank statement) are required.

For details on other payment options, please visit the Cashier (http://bursar.colostate.edu/Depts/Cash_Office.aspx)’s website (http://bursar.colostate.edu/Depts/Cash_Office.aspx).

Student Billing
Office of Financial Aid
Office in Centennial Hall, First Floor
(970) 491-6321
financialaid.colostate.edu (https://financialaid.colostate.edu/)

In support of CSU’s Green Initiatives, CSU implemented eBilling effective in Fall 2010. Billing notifications are emailed to the student’s official CSU email address. Students can then log into RAMweb to view their
University Billing Statement(s). Additional eBilling notifications may be sent to alternate email addresses maintained by the student on RAMweb.

Due Dates:

<p>| | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Fall</td>
<td>September 10</td>
</tr>
<tr>
<td>Spring</td>

</tr>
<tr>
<td>Summer</td>
<td>June 10</td>
</tr>
</tbody>
</table>

**University charges are due by the date specified on the bill.** Due dates are the 10th of each month unless the 10th falls on a weekend or holiday, then the due date is the following business day. All payments should be in U.S. currency. Mailed payments must reach the University Cashier’s Office, 6015 Campus Delivery, by 4:00 p.m. (MT) on the due date. Payments by check are processed when received – postmarks do not apply, and future dates are not honored. Online payments must be made by 4:00 p.m. (MT) on the due date for the payment to be considered timely. Penalties for late payment include holds on University services and a monthly 1.5% payment deferral charge of the past due balance. Penalties are initiated for the purpose of encouraging prompt payment.

CSU offers a current term payment plan! Students and trusted individuals can elect to make monthly payments by signing up for a Nelnet payment plan. Payments can be made via credit card or withdrawals from a designated domestic checking or savings account on a monthly basis. For more information, go to RAMweb and from the main menu click on Billing and Tax Information and follow the payment plan links and instructions.

**Student Account Notes**

Students are responsible for all charges on their account and arrangement of payments due. Payments should only be made when a balance due exists on an account. In general, overpayments will not be applied to the student’s account and will be returned within two weeks if no additional charges are posted to the account.

Students who are sponsored by a third party may request direct billing to the sponsor for tuition, fees, and other related educational expenses. Detailed information on sponsor billing is available upon request from the Accounts Receivable/Sponsor Billing Office (http://www.bursar.colostate.edu/Depts/ALR_Sponsor_Billing.aspx). Arrangements for sponsor billing, and acceptance of the Sponsored Student Billing Agreement and FERPA, must be made prior to the student account due dates to prevent payment deferral charges from being assessed.

The “Billing and Tax Information” section in RAMweb (https://ramweb.colostate.edu) provides more information on billing statements, paying your bill, accepted payment methods, CSU Prepayment Plan, direct deposit refund sign up and Tuition Statement tax information (Form 1098-T).

Once a student is no longer considered to be enrolled, billing will switch from eBilling to paper statements unless otherwise requested by the student with the Accounts Receivable Office (http://busfin.colostate.edu/Depts/ALR_Student_accts.aspx). While the past due account is still being held at the university, monthly billing statements regarding any past due balances owed to the university will be mailed to the primary mailing address on file for the student. It is always the student’s responsibility to maintain correct addresses (mailing and email) with CSU (refer to Address Updates).

Unpaid past due balances may cause a hold on registration, transcripts, and diplomas. CSU will not register a student, release a diploma, or provide official transcripts or proof of degree conferral to any student or former student who has past due financial obligations to CSU, until the hold is removed. The release of the hold may be expedited by paying the past due balance in full.

Failure to pay amounts due may result in the referral of the outstanding balance to a third-party collection agency, at which time a collection fee will be assessed and due in full at the time of the referral. The collection fee will be calculated at the maximum amount permitted by applicable law, but not to exceed 40% of the amount outstanding. The student is responsible for all late payment charges, collection agency fees, and all costs and expenses including reasonable attorney fees that CSU incurs in its collection efforts. The account will also be reported to one or more of the national credit bureaus as well as the State of Colorado Department of Revenue for possible interception of state income tax refunds, lottery winnings and wage garnishment. Further, CSU reserves the right to impose a penalty fee and financial hold for all returned payments (refer to Returned Payments policy).

**Returned Payments**

As provided by state law, a penalty will be assessed to the account for each payment not accepted by the bank because of insufficient funds, stopped payment, non-existent account, closed account, invalid account information or any other reason for which the person is responsible.

CSU will attempt to contact the originator of the payment by mail and/ or by telephone or email. In the case of students, a notice will be mailed to the primary mailing address on file for the student. (All students are required to maintain a current address, telephone number and email address with CSU always.) These reparative payments are considered due in full immediately. The payment must be equal to the full amount of the original payment plus penalty and fee. Failure to follow through will result in further collection actions (as described above). If CSU receives a returned payment, all payments from that time forward will require guaranteed funds. Please note: If the presentation of the original payment permits a student to register for an academic term and if full payment of the returned payment plus penalty and fee is not made by the specified deadline, CSU reserves the right to cancel a student’s class enrollment.

**Address Updates**

It is the student's responsibility to maintain correct addresses (mailing and email) with CSU. To create or update an existing address, go to RAMweb (https://ramweb.colostate.edu/). To communicate quickly and effectively with students, CSU requires that each enrolled student provide an email address. CSU has designated email as an official form of communication to students. Information about University email accounts can be found on the ACNS Website (https://www.acns.colostate.edu/email-accounts/).

Being able to communicate electronically with the student population provides several benefits:

- It allows CSU to communicate promptly with students regarding their billing statements, financial aid and amounts due.
- Students can be quickly notified by professors and CSU offices of events that affect them personally or may be of interest to them generally (e.g., classroom changes, class meeting time changes, department activities, billing, etc.).
- It is faster and less costly than printing and mailing letters.
Financial Assistance

Office of Financial Aid
Applying for and Retaining Financial Aid
Student Employment Services
Veteran’s Benefits
Financial Support for Graduate Students

Office of Financial Aid

Centennial Hall
(970) 491-6321

The Office of Financial Aid (http://www.financialaid.colostate.edu) administers a variety of institutional, state, federal, and private financial assistance programs for qualified students. Financial assistance programs include scholarships, grants, loans, and employment. Employment opportunities available include the Work Study Program, on-campus departmental positions, and community part-time employment.

Financial Aid Programs

CSU offers a variety of financial assistance programs for students based on merit and income. Awards recognize scholastic achievement, assist low income students, and provide funding so students can reach their goal of graduation.

Detailed information on all financial aid programs is available on request from the Office of Financial Aid (http://www.financialaid.colostate.edu). Financial aid policies and procedures may change without notice.

Scholarships

CSU administers state, federal, institutional, private agency, foundation, service club, and individual scholarships. The CSU Scholarship Application (CSUSA) is available on RAMweb (https://ramweb.colostate.edu) October 1 to March 1 of each year. Students use the CSUSA to apply for most CSU scholarships. Scholarship information, including specific criteria, application requirements, and deadline dates is available on the website.

Nationally Competitive Scholarship Opportunities

Assistance is available to qualified undergraduate students who wish to apply for nationally competitive scholarships and fellowships sponsored by federal and private organizations. These include but are not limited to the Truman, Marshall, Udall, Rhodes, Gates-Cambridge, Goldwater, and Fulbright scholarships. These scholarships and fellowships are highly competitive and require high grade point averages (GPAs), a commitment to service both on and off campus, and specific career and professional goals. In many instances, these organizations support undergraduate and/or graduate work within the United States as well as abroad. The Office (http://tilt.colostate.edu/osfa/) for Scholarship and Fellowship Advising (http://tilt.colostate.edu/osfa/) provides students with information on eligibility, campus deadlines, and assistance in applying for these nationally competitive scholarships and fellowships.

Grants

CSU administers a number of grant programs available to undergraduate students. Several are restricted to Colorado residents.

- Colorado Student Grant (Colorado’s College Responsibility Program)
- CSU Tuition Assistance Grant
- CSU Ram Grant
- Federal Pell Grant
- Federal Supplemental Educational Opportunity Grant

CSU administers the Federal Pell Grant program for qualified undergraduates. The federal government establishes the dollar limit for the Federal Pell Grant program each year. All grants may be re-awarded in subsequent years, providing the student reappplies for financial aid, continues to document financial need, and maintains satisfactory academic progress.

Loans

CSU participates in the following loan programs:

- Federal Perkins Loan Program (new loan disbursements discontinued as of September 30, 2017)
- Federal Direct Loan Programs, both subsidized and unsubsidized
- Federal Direct Parent PLUS Loan Program
- Federal Direct Graduate PLUS Loan Program
- Health Professions Loan Program – veterinary medicine degree program only

Loan amounts vary depending on degree program, need, eligibility, availability of funds, and maximum limits established by federal regulations.

Work-Study

Work-study programs are administered by Student Employment Services and provide part-time employment opportunities to qualified, degree-seeking students. Types of work-study awarded include federal and state need-based work-study, as well as state and institutional no-need work-study. Work-study awards are based on the evaluation of a student’s financial need (or no-need) and availability of funds.

If not initially awarded work-study, students can apply via the Request Work-Study Application on RAMweb (https://ramweb.colostate.edu/registrar/Public/Login.aspx). Students who have work-study earnings in the current year should have it renewed for the next year, and would not need to complete the application. All work-study is limited in funding and is awarded on a first-come, first-serve basis. The Request Work-Study Application is available May 1 (on RAMweb (https://ramweb.colostate.edu/registrar/Public/Login.aspx)) for the following academic year. Undergraduate and graduate, new and continuing, resident and non-resident students are eligible to apply.
Applying for and Retaining Financial Aid

Application Procedures for Need-Based Financial Aid
Students use the Free Application for Federal Student Aid (https://fafsa.ed.gov/) (FAFSA) to apply for financial aid. Application and procedures for any of the above programs may be obtained from the Office of Financial Aid (http://sfs.colostate.edu/applying-for-aid/) and is available on the website.

Satisfactory Academic Progress Standards
Students applying for and/or receiving financial aid are expected to maintain satisfactory academic progress. Failure to perform at established levels may result in students becoming ineligible for financial aid. Copies of the complete policy are available at the Office of Financial Aid (http://www.financialaid.colostate.edu), in “Your Financial Aid Guide,” or on the website.

Unofficial Withdrawals
Students who leave CSU and do not formally withdraw will be assigned grades of "U" (unsatisfactory) or "F" (failure). Additionally, recipients of federal aid who never began attendance or who unofficially withdrew from CSU will have federal aid adjusted based on the date of the latest academic event in which the student participated.

If no academic event can be documented, 100% of federal, state, and institutional aid will be cancelled because the student never began attendance. An academically-related activity includes, but is not limited to, verifiable class attendance, an exam, a tutorial, computer-assisted instruction, turning in a class assignment, or attending an assigned study group session.

Fraudulent Receipt of Funds
Students who receive student aid funds through a misrepresentation, falsification, or omission of information may have their names referred to appropriate law enforcement authorities for possible prosecution under the law. Any person who purposely gives false or misleading information may be fined $20,000, sent to prison, or both.

Reporting Changes
All students must immediately notify the Office of Financial Aid (http://www.financialaid.colostate.edu) of any additional resources, such as scholarships, veteran’s non-educational benefits, etc., any changes in their financial situation, residency, class standing, or any other factors which can reasonably be construed to impact their eligibility for financial aid.

Student Employment Services

Office in Centennial Hall
(970) 491-5714

Student Employment Services (https://career.colostate.edu/) is responsible for CSU’s Student Employment Program. This office lists work-study positions, on-campus student hourly positions, and is a central listing source for outside employers to post community jobs. Students may view job notices on RAMweb (https://ramweb.colostate.edu).

All individuals who are currently degree-seeking, and enrolled in a minimum of one credit, may use this service.

Student employees, both work-study and student hourly, are compensated on an hourly basis and are paid every other week (based on the payroll schedule) through direct deposit to their personal checking or savings account. All student employees enrolled at least half-time as degree-seeking students are exempt from retirement withholding. Enrollment is verified every pay period.

Several thousand students work on campus each year through the work-study and student hourly programs, and a large number of students find employment off-campus.

CSU is an Equal Opportunity Employer, and adheres to the state’s fiscal rules and the regulations set forth by the Department of Education and the Colorado Department of Higher Education, which govern the work-study and student employment programs.

Student Employment Services staff encourages any student seeking a job, or with employment concerns, to contact them.

Veterans’ Benefits

The Office of the Registrar assists the Department of Veterans’ Affairs (VA) in providing certification for the following education benefits:

Under Title 38, U.S. Code
• Chapter 30 (Montgomery G.I. Bill)
• Chapter 31 (Vocational Rehabilitation)
• Chapter 32 (Post-Viet Nam Era)
• Chapter 33 (Post-9/11 G.I. Bill)
• Chapter 35 (Dependents Educational Assistance)

Under Title 10, U.S. Code
• Chapter 1606 (Selected Reserve/National Guard Members)

In addition, the Veteran’s Education Benefits Office will advise and assist students in:
• Meeting residency requirements under the Veterans Choice Act of 2014, Colorado's GI Promise or the Yellow Ribbon Program
• Requesting and obtaining Joint Service Transcripts
• Obtaining additional campus services

Students eligible for any of these benefits must contact the Veteran’s Education Benefits Office (http://registrar.colostate.edu/military-veterans-benefits/benefits-contact-information/) in the Office of the Registrar prior to the expected date of enrollment. Applicants should apply to CSU in a degree-seeking major or for teacher licensure before applying for veterans’ education benefits.

A description of the services (https://registrar.colostate.edu/military-veterans/) CSU provides may be found online. Regulations governing receipt of veterans’ education benefits, Standards of Progress, and other policies (https://registrar.colostate.edu/military-veterans/) are also available online.
Financial Support for Graduate Students

Graduate Assistants

Full-time graduate assistants receive a minimum monthly stipend during the academic year, as set by CSU. Such assistants must register for and complete at least one on-campus credit during each fall and spring semester during which the assistantship is in effect; and such credits as the appointing department may require each summer term during which the appointment is in effect. Assistants may have tuition payments made in their behalf.

Additional information about financial assistance for graduate students is available in the Graduate and Professional Bulletin.

Graduate Students

Academic Advising

Undergraduate Students

Vision
Academic advising at CSU inspires students to pursue their academic and professional goals.

Mission
Guided by CSU’s Principles of Community and the Land-Grant mission of access and equity, we achieve our vision through an integrated community of advisors who engage in intentional, holistic, and relationship-centered interactions to empower all students to navigate their unique paths and foster learning, development and academic success.

Where Do I Find My Academic Success Coordinator/Academic Advisor?

• Each undergraduate student has an Academic Success Coordinator/Academic Advisor in their academic major(s). Undergraduate students can locate their Academic Success Coordinator/Academic Advisor in RAMweb (https://ramweb.colostate.edu/). If there are questions, the student can contact the appropriate academic department. Students will have more than one Academic Success Coordinator/Academic Advisor if completing a double major, or minor. For minor advising please use the search function in the General Catalog (http://catalog.colostate.edu/general-catalog/). Undeclared students (students exploring majors and/or working toward entry into a competitive major) can contact the Collaborative for Student Achievement (http://www.casa.colostate.edu/).
• In addition to the Academic Success Coordinator/Academic Advisor, students may work with an additional staff member if pursuing a professional program such as medicine, law, veterinary medicine, or teacher licensure; or are involved in education abroad, athletics, the Honors Program, or the Community for Excellence. To locate contact information please use the A-Z or the search function on the CSU homepage.

Advising and Career Resources
In order to get the best from the academic advising experience, students are encouraged to utilize the many advising tools that are available.

• The All-University Core Curriculum (http://catalog.colostate.edu/general-catalog/all-university-core-curriculum/) (AUCC) outlines the general education requirements for graduation.
• Major Completion Maps are available for undergraduate majors, concentrations, and options. These Maps show a sample semester-by-semester coursework plan, and identify critical courses and requirements that are essential for timely graduation. Major Completion Maps can be found under each academic major in the General Catalog (http://catalog.colostate.edu/general-catalog/).
• The Degree Progress Audit (DARS) is an undergraduate degree audit that shows what graduation requirements a student has completed and what requirements still need to be completed. This audit can be found on RAMweb (https://ramweb.colostate.edu/) under Academic Planning and Progress and viewed at any time.
• The CSU Career Center (https://career.colostate.edu/) empowers students to pursue satisfying careers through the development of individualized careers plans.

Undeclared Advising
“Undeclared” is a special designation for students who have a rich and diverse set of interests that span the CSU curriculum and want to explore all their options. Through the Undeclared advising process students are able to learn about various academic opportunities while keeping their options open as they begin their college experience. Professional academic success coordinators in the Collaborative for Student Achievement (http://www.casa.colostate.edu/) are knowledgeable about the full breadth of academic requirements so as to better assist students in the process of selecting a major. These advisors help students explore their values, interests, and skills, plan their class schedules strategically, provide information on academic and career options, and refer students to other resources. The vast majority of Undeclared students declare an academic major by 45 credits. Timely major declaration promotes graduation within four years and allows students to remain eligible for financial funding without reaching the maximum allowed credits.

Graduate Students
Advising information for graduate students is available in the Graduate and Professional Bulletin (http://catalog.colostate.edu/general-catalog/graduate-bulletin/graduate-study/procedures-requirements-all-degrees/#advisory-system).
Grading
Faculty and instructors submit grades once coursework has been completed. The approved grade mode(s) are included in the information with each course in this General Catalog (in the course bubble). Grade modes are Traditional (A through F letter grades), Student Option Satisfactory/Unsatisfactory, Instructor Option, Satisfactory/Unsatisfactory, and Audit. See below for more information.

Grading Scale
Grade Mode Descriptions
Discontinuing a Class (Student Non-Attendance)
Semester Grades
Transcripts
Grade Appeals
Repeat/Delete Policy

Grade Mode Descriptions

Traditional
Term grades are reported using the Grading Scale above.
Faculty use of +/- grading is optional. Instructors should indicate on the course syllabus and/or policy statement the grading system used in the course.

Student Option Satisfactory/Unsatisfactory
Undergraduate students may elect satisfactory/unsatisfactory grading in one course per term for courses offering the Student Option Satisfactory/Unsatisfactory grading under the following conditions:
Undergraduate students, except first-term freshmen and transfers, with a cumulative CSU grade point average of 2.000 or better and with their advisor’s consent may register for approved courses on a Satisfactory/Unsatisfactory basis. This option may not be used in areas of study required in the student’s major, minor, teacher licensure, or for All-University Core Curriculum requirements (i.e., it must consist of free electives not specified as to the general area of study). For example, a three-credit social science requirement would not be considered a free elective. Students must register for the course first and then complete the Satisfactory/Unsatisfactory (S/U) Grading form to elect this option. The form can be found on the Office of the Registrar’s website (https://registrar.colostate.edu/wp-content/uploads/sites/23/2020/05/SU-Grading-Form-05-2020.pdf). Changes to Satisfactory/Unsatisfactory grading can only be made during the add/drop period.

A grade for a course taken as Satisfactory/Unsatisfactory may not be converted to a traditional grade for purposes of improving the GPA to meet graduation or scholastic requirements. In situations where students change their major or minor to include required courses taken previously for Satisfactory/Unsatisfactory grades, the major department will determine if such courses may be considered as fulfilling degree requirements. When it is determined that an ineligible student is or has been registered for a Satisfactory/Unsatisfactory course, a traditional grade will be assigned. A correct Satisfactory/Unsatisfactory registration, including advisor approval, is the express responsibility of each student.

Satisfactory/Unsatisfactory registration policies for graduate students are described in the Graduate and Professional Bulletin.

Instructor Option
Instructor option grading allows the instructor to determine whether Traditional or Satisfactory/Unsatisfactory grading is to be used for a course. In courses approved for instructor option grading, the type of grading (Traditional or Satisfactory/Unsatisfactory) to be used for all courses grading points

</tbody>
</table>

1 Credits not used to compute grade point average (GPA) and not counted toward graduation.
2 Not used to compute GPA. Non-graded components are attached to a graded component carrying credits.

Credits for courses graded F are used to compute GPA, but they do not count toward graduation.

Effective Fall 2008, C-, D+, and D- grades are not assigned at CSU.

When an X is placed before a grade, e.g., XA, XB, etc., the student has been granted an Academic Fresh Start. These grades are not calculated into the grade point average.

When an R is placed before the grade, the student has elected to repeat the course under the terms of CSU’s Repeat/Delete policy. The original course grade is not calculated into the grade point average.

When an AM is placed before the grade, it indicates a finding of academic misconduct by the student in the particular course. For more information, see Procedures for Dealing with Academic Misconduct in the Students’ Responsibilities section of University Policies.

Students may contest whether or not an assigned grade was recorded accurately in the educational record by following the procedures described under the Grade Appeal section.
students in the course during the term is to be indicated on the course syllabus.

**Satisfactory/Unsatisfactory Grades**

Performance equivalent to a grade of C or better is recorded as Satisfactory. Performance equivalent to D or F is recorded as Unsatisfactory. Neither S nor U grades are used in calculating the CSU grade point average; however, courses graded S may apply to graduation requirements.

**Audit**

A student wanting to attend a class without earning credits may register as an auditor. Auditing a course requires prior approval of the instructor of the course. If an instructor determines an auditor’s attendance or participation is unsatisfactory, the course will not be recorded on the student’s academic record. Changes to or from audit status must be made during the registration and/or the add/drop period. Tuition and fees are assessed for audited credits. Audits do not count toward full-time status for loan deferments, financial aid, etc., and are not eligible for the College Opportunity Fund (COF). Students must register for the course first and then complete the Audit Grading form. The form can be found at the Office of the Registrar’s website (https://registrar.colostate.edu/wp-content/uploads/sites/23/2020/05/Audit-Grading-Form-04-2020.pdf).

**Incomplete Grades**

At the discretion of the instructor, a temporary grade of “I” may be given to a student who demonstrates it is not possible to complete the requirements of a course due to circumstances beyond the student’s control and not reasonably foreseeable. A student must be passing a course at the time an incomplete is requested unless the instructor determines there are extenuating circumstances to assign an incomplete to a student who is not passing the course. When an instructor assigns an “I”, the instructor shall specify in writing the requirements the student shall fulfill to complete the course as well as the reasons for granting an “I” when the student is not passing the course. The instructor shall retain a copy of this statement in the grade records and provide copies to the student and the department head or designee. Students will be notified to take action on Incomplete grades at the beginning of their anticipated graduation term. The student should not register for the course again to complete the coursework. After successful completion of the makeup requirements, incomplete grades will be changed by the instructor of record or the department head, in absence of the instructor of record. After one year, or at the end of the semester in which the student graduates (whichever comes first), an Incomplete will be automatically changed to an “F” (failure) or a “U” (unsatisfactory) unless the course has been previously completed and a grade change submitted by the instructor or the head of the department. If the class for which the student has been given an Incomplete is S/U only, the grade shall revert to a “U”; if it is a traditionally graded class, it shall revert to an “F”. If a course is instructor option and S/U grades exist, the Incomplete will roll to a “U”. If only traditional grades (“A” thru “F”) exist, the Incomplete will roll to an “F”. The temporary grade of “I” must be changed to a grade (e.g., A, B, C, D, F, S, U) prior to the student being awarded a diploma from CSU. (Faculty Council approved minutes March 6, 2018)

**Discontinuing a Class (Student Non-Attendance)**

If a student discontinues attending a class and has not officially dropped or withdrawn through RAMweb (https://ramweb.colostate.edu/) or the Office of the Registrar, the grade of F (failure) is recorded.

**Semester Grades**

Students may access their semester grades through RAMweb (https://ramweb.colostate.edu/) three business days after the week of final exams for each term.

**Transcripts**

Transcripts of students’ official academic records are maintained by the Office of the Registrar. Official and unofficial copies of a student’s transcript may be obtained by the student through RAMweb (https://ramweb.colostate.edu).

**Grade Appeals**

Instructors are responsible for clearly stating the instructional objectives of the course at the beginning of each term and for evaluating student achievement in a manner consistent with these objectives. Students are responsible for maintaining standards of academic performance established for each course in which they are enrolled. Instructors are responsible for determining and assigning final course grades. Graded examinations, papers, and other materials used as a basis for evaluating a student’s achievement will be available to the student for inspection and discussion.

Students may appeal instructors’ grading decisions. The burden of proof, however, rests with the student to demonstrate the grading decision was made on the basis of any of the following conditions. (Faculty Council approved minutes May 4, 2010)

1. The grading decision was made on some basis other than performance and other than as a penalty for academic misconduct.
2. The grading decision was based upon standards unreasonably different from those which were applied to other students in the same course and section.
3. The grading decision was based on a substantial, unreasonable, or unannounced departure from previously articulated standards.

Before making an appeal, the student should discuss the situation with the instructor(s) involved in the decision. To appeal a grading decision, the student shall submit a written request to the department head. The request must set forth the basis for the appeal, identifying one or more of the three criteria set forth above.

The request must be submitted (or postmarked, if mailed) no later than thirty (30) calendar days after the first day of classes of the following spring semester for appeal of grades recorded for the fall and no later than thirty (30) calendar days after the first day of classes of the following fall semester for grades received in the spring or summer semester. If no appeal is filed within this time period, the grade shall be considered final.
Within 30 days of receipt of an appeal, the department head shall forward the appeal to the course instructor(s) who assigned the grade and an appeal committee shall be formed. If the request is received during or shortly before the summer session, when the course instructor(s) who assigned the grade or member(s) of the appeal committee may not be available, the appeal committee will be formed no later than 30 calendar days after the beginning of the following fall semester. The appeal committee shall be composed of two (2) faculty members and two (2) students from within the department and one (1) faculty member from outside the department who shall serve as a the chair. All five (5) members of the committee shall be voting members. The procedure for the selection of the members of the appeal committee shall be specified in the department code.

The appeal committee will review the written appeal and response of the instructor(s). They may elect to separately interview both the student and the instructor(s) before rendering a decision. The decision of the appeal committee will be based upon whether one of the conditions for an appeal set forth above has been met. At the conclusion of the deliberations, the committee shall render one of the following decisions:

1. the original grading decision is upheld, or
2. the department chair or designee(s) will reevaluate the student's achievement of the instructional objectives of the course and assign a grade accordingly.

Written notice of the committee's decision and the reasons for the decision normally will be sent to the student and the instructor(s) within 30 calendar days of the appointment of the committee. The appeal committee's decision is the final decision of the University. Written summaries of the hearing and decision, together with a rationale for that decision, shall be provided to the student and the instructor who assigned the grade and shall be retained in the department office for a period of one year.

Repeat/Delete Policy

Repeat/Delete is a one-time per course grading option that may be used by undergraduate students who repeat a course. Once a student has graduated from CSU, a student may not repeat/delete any CSU course by undergraduate students who repeat a course. Once a student has

1. The grade received in the repeated course will be used in calculating the student's GPA, regardless of whether the repeated grade is higher, the same as, or lower than the initial grade received. The initial grade will remain on the transcript but will not be used in calculating the GPA when the Repeat/Delete option is applied.
2. It is the student's responsibility to request the Repeat/Delete option through RAMweb before the expiration of the course withdrawal period for the semester in which the course is first repeated.
3. The Repeat/Delete option may be used for a maximum of twelve (12) credit hours and no more than three courses. The Repeat/Delete option may not be applied to a course for which the final grade was given as a penalty for academic dishonesty in accordance with the academic integrity policy under section I.5.1 of the Academic Faculty and Administrative Professional Manual.
4. If the course is repeated at any time subsequent to the use of the Repeat/Delete option, all grades for that course, except the initial grade, will be used in computing the student's GPA.
5. Although a course may be repeated as often as a student chooses, the Repeat/Delete option can be used only the first time a course is repeated.
6. The Repeat/Delete option will not retroactively affect academic standing for previous terms. For example, use of the Repeat/Delete option may change a student's cumulative grade point average, but it will not change the notation of probation previously recorded on the student's record.

Note: Although CSU does not use the original course grade for GPA calculation once the Repeat/Delete option has been used, other educational institutions and potential employers may use this grade in their GPA calculation. Medical schools, many law schools, and other graduate programs, for example, may recalculate cumulative GPA using ALL grades on a transcript.

Scholastic Standards

Scholastic standards are mandated by the faculty through the Faculty Council Committee on Scholastic Standards.

Policies regarding probation, dismissal, and appeal are determined by the faculty and CSU in their absolute discretion subject to acceptance by the governing board of CSU.

Undergraduate

Graduate

Undergraduate

Procedures relative to undergraduate scholastic standards are administered through the Collaborative for Student Achievement. Those students whose scholastic achievement is less than that required for graduation are placed on probation or dismissed from CSU.

Good Standing - Minimum Cumulative GPA

In order to graduate, a minimum cumulative grade point average (CUM GPA) of 2.000 on a 4.000 scale must be earned at CSU. A student is expected to maintain a CUM GPA of 2.000 or higher at all times. All grades earned in regular credit courses, including those taken through the Division of Continuing Education or the CSU Summer Session, will count toward the CUM GPA. For students who have been granted a Fresh Start, all grades earned prior to the Fresh Start will not count toward the student's CUM GPA.

Academic Probation

Students with a CUM GPA lower than a 2.000 will be on academic probation for a period of one or two regular semesters (fall and spring). Grades earned in regular credit courses through the Division of Continuing Education or the CSU summer session will count toward the CUM GPA regardless of when those classes are taken. At any time that the CUM GPA is raised to a 2.000 or higher, the student will return to good academic standing.

Students who withdraw from CSU while on probation will remain on probation when they return to the University. Students on academic probation who return to CSU after attending another institution will
continue their probation, since transfer credits are not computed within the CUM GPA earned at CSU.

**Academic Dismissal**

Students on academic probation who do not raise their CUM GPA to a 2.000 or higher after two regular semesters (fall and spring) will be dismissed from CSU. Exceptions to this policy for first-term, undergraduate, non-transfer students are outlined below, under Update to the Scholastic Standards Policy June, 2016. Students who have been academically dismissed from CSU have three options to seek readmission. First, they may take classes through the GUEST program, through the CSU Summer Session, or through the Division of Continuing Education. They can apply for readmission when their CUM GPA is 2.000 or higher.

The second option available to students who have been academically dismissed is to enroll at another regionally accredited institution and meet the requirements to be admitted as a transfer student to CSU. Upon transferring back to CSU, students will have two semesters following re-enrollment to raise their CUM GPA earned at CSU to 2.000 or higher. Transfer credits are not computed within the CUM GPA earned at CSU.

Students who have raised the CUM GPA to 2.000 or higher or who apply as students transferring from another institution may apply for readmission to the University subject to any enrollment limitation as set by the Colorado Department of Higher Education or the governing board.

**Appeal of Academic Dismissal**

As a third option, students may appeal academic dismissal (http://advising.colostate.edu/dismissal-appeal-guidelines/). An online appeal may be submitted to the Collaborative for Student Achievement (http://www.casa.colostate.edu/) for consideration by the Faculty Council Committee on Scholastic Standards. All appeals must be submitted in accordance with written instructions.

All appeals of academic dismissal will be acted upon by the Faculty Council Committee on Scholastic Standards no later than seven business days prior to the first day of classes for the next regular academic semester (either fall or spring).

A dismissal appeal that is granted allows the student to return immediately for the next regular semester (fall or spring). Dismissal appeals granted cannot carry forward to a future semester unless the student was approved (prior to dismissal) for a planned leave for the next regular semester. If a student withdraws during the dismissal appeal granted semester due to extenuating circumstances, the student must submit another appeal to dismissal that includes documentation of the extenuating circumstances or the student will be dismissed at the end of the dismissal appeal granted semester.

**Update to the Scholastic Standards Policy, June 2016**

**Undergraduate (non-transfer) students who earn a GPA of less than 1.000 in their first semester at CSU will not have 3 semesters in which to earn a cumulative 2.000 GPA, and must make a choice:**

- Take 1 – 3 semesters off, reapply and return with a Freshman Accelerated Fresh Start (see below)
- Continue attending the following semester and earn at least a term 2.000 GPA on 12 or more credits, and receive a third semester on probation; or earn less than a 2.0 term GPA and be academically dismissed.

**Freshman Accelerated Fresh Start** (Faculty Council approved minutes April 5, 2016)

The Freshman Accelerated Fresh Start opportunity is available for first-time first-year students who finish their first semester at CSU with a GPA below 1.000.

1. Students who meet these criteria will have the following option:
   - Leave the University for 1 – 3 semesters (the summer session is not included in this count)
   - Reapply/return to CSU and begin earning a new cumulative GPA (first semester grades remain on the student’s transcript but will not be calculated in their cumulative GPA)
   - To return, a student must complete a returning student application accompanied by supplemental documentation that addresses a combination of factors, including evidence of maturity and/or academic success at another institution as well as their strengthened preparation for academic success at CSU. (Details online at Office of Admissions (http://admissions.colostate.edu/apply/returning/)).

2. Students are eligible for only one Fresh Start opportunity (regardless of whether it is a Freshman Accelerated Fresh Start or a standard academic Fresh Start)

**Academic Fresh Start**

Former CSU undergraduate students may apply for an academic Fresh Start, a policy which allows students to establish a new academic record. A student may be granted a Fresh Start only once.

An academic Fresh Start may be granted after at least two years have elapsed since the student’s last term of enrollment as an admitted, degree-seeking student, regardless of the number of credits taken. Courses taken through the Division of Continuing Education, as a guest student, or the CSU Summer Session after being dismissed or ceasing enrollment as an admitted degree-seeking student will not count against the two-year interval required for a Fresh Start.

Eligibility for a Fresh Start can be achieved in one or both of the following ways:

1. Be successful in a job or volunteer experience and be able to supply strong letters of recommendation from your employer/supervisor (recommendations must not be from a family member or relative).
2. Take at least 15 credits of academic courses either at another institution or as a guest student at CSU and earn a 2.500 or higher cumulative GPA

Students applying for a Fresh Start will also need to:

1. Submit a Returning Student Application by the deadline for the appropriate semester.
2. Write a statement of motivation on why you would like to return to CSU and why you think you are now ready to succeed. Analyze your past behavior and provide evidence of change and success since you left CSU.
3. In your statement, include an action plan for academic success that you have researched and considered carefully. Describe specifically how you will utilize campus advising and resources. Review the Collaborative for Student Achievement website (http://studentachievement.colostate.edu/) for suggested resources.

</tbody>
</table>

These minimum cumulative grade point averages will be reviewed every four years and may be changed if needed to maintain appropriate academic standards. Such changes will become effective the semester following approval by Faculty Council and publication in the General Catalog. Each of the minimum grade point averages needed to graduate with distinction will be adjusted at the end of each four year period only if the percentage of students graduating with distinction in a distinction category and college have shown a statistically verifiable deviation from the target percentages of:

<table>

</tbody>
</table>

Candidates for graduation with distinction are recognized at the time of commencement. Candidacy is determined by a student’s cumulative grade point average through the semester preceding graduation. “Candidacy” for graduation with distinction does not guarantee graduation with distinction. Graduation with distinction is based on the student’s cumulative grade point average at the time of graduation. The CSU GPA calculation is carried to the third decimal place and is not rounded.

Students seeking a second bachelor’s degree are eligible for distinction designation. To qualify for graduation with distinction, a minimum of 60 credits completed at CSU is required after the first degree. In determining the grade point average of the student, only grades earned after the first degree are considered.

Graduation as a University Honors Scholar

Students who complete the University Honors Program (http://www.honors.colostate.edu/) academic requirements and achieve at least a cumulative 3.500 grade point average earn the designation of University Honors Scholar. Scholars are recognized at graduation by the Honors Program and during the colleges’ commencement ceremonies. The University Honors Scholar designation appears on diplomas and transcripts.

Graduate

Graduate students must maintain a 3.000 GPA to be in good standing with the University. Learn more in the Graduate and Professional Bulletin.

Academic Policies

CSU Academic Integrity Policy and Student Conduct Code

Class Attendance Regulations

Final Examinations

Undergraduate Planned Leave

Undergraduate Change of Major, Concentration, Minor, or Certificate

CSU Academic Integrity Policy and Student Conduct Code

The CSU Academic Integrity Policy and Student Conduct Code (https://resolutioncenter.colostate.edu/wp-content/uploads/sites/32/2018/08/Student-Conduct-Code-v2018.pdf) exist to notify students, faculty, and staff of the specific expectations Colorado State University holds related to student behavior and the rights and responsibilities that accompany being a student and participating in student clubs or organizations.
Class Attendance Regulations

Students should attend all classes for which they are registered to obtain maximum educational benefits. Absence or lateness does not excuse students from required course work.

Instructors and departments are responsible for establishing class attendance policies. These policies must accommodate student participation in University-sanctioned, extracurricular/co-curricular activities. Students must inform their instructors prior to anticipated absences and take the initiative to make up missed work in a timely fashion. Instructors must make reasonable efforts to enable students to make up work which must be accomplished under the instructor’s supervision (e.g., examinations, laboratories). In the event of a conflict in regard to this policy, individuals may appeal using established CSU procedures.

For purposes of this regulation, University-sanctioned activities include competitions, events, and professional meetings in which students are officially representing the institution. Appropriate sanctioned activities include:

- Intercollegiate athletics;
- Collegiate club sports and competitions;
- Conferences and workshops recognized by CSU not related to academics;
- Commitments on behalf of CSU (ASCSU, band, etc.); and
- Professional activities recognized by CSU related to academics.

Department heads or their designated representatives must approve sanctioned professional and departmental activities. Other sanctioned activities must be approved by the appropriate program director on record with the Division of Student Affairs offices or the Department of Athletics. Refer to this list for the appropriate approving authority (http://studentaffairs.colostate.edu/class-absence-info/).

CSU policy permits only enrolled students, persons attending with the permission of the instructor, and administrative personnel of CSU to be present in a classroom during scheduled classroom periods.

At the discretion of the instructor in charge, any full-time student, faculty member, or lifelong learner may attend any class without formal registration provided adequate class-room space is available.

Academic departments may replace any students in a course who fail to attend both of the first two regularly scheduled meetings of the class (one meeting for laboratory courses or for classes which meet once each week), unless the students have notified the department in advance. Since this procedure is a department option, students remain responsible for dropping courses they do not intend to complete within the required time period for drops.

Religious Holidays and Observances

CSU has a legal obligation to accommodate students’ absences due to religious observances. For such an accommodation, it is the student’s responsibility to complete the Religious Accommodation Request Form (http://www.studentaffairs.colostate.edu/religious-holidays/) at the beginning of each semester and submit the request via the Office of the Vice President for Student Affairs website. The Dean of Students will communicate with the instructor regarding the student’s absence and the student is instructed to discuss how best to ensure an accommodation related to class conflicts. For religious observances that cannot reasonably be anticipated at the beginning of the semester, students must follow the procedure above as soon as possible after the course conflict is identified. If a student knows that a particular course or section of the course will have multiple conflicts with his or her religious obligations, the student is advised to locate another course section or defer taking the course to a different semester. In the event of a conflict in regards to this policy, individuals may appeal using established CSU procedures. Instructors are advised to provide reasonable accommodations to ensure compliance with CSU’s obligations.

Final Examinations

Final examinations, as appropriate, are given during the final week of each semester. During this week, classes are rescheduled to meet for two-hour periods.

The following procedures apply to all courses during the final week of the semester:

1. Final examination week is part of the regular semester. Student attendance shall be consistent with CSU policy.
2. The final in-class examination period is intended for the end-of-semester examination. No in-class examination constituting more than 10% of the final course grade may be given in undergraduate courses during the week preceding the final examination period of the semester; laboratory, performance, and other alternative classes (e.g., courses in PACe - the individualized mathematics program) excluded. It is the responsibility of the department head, or, where appropriate, the school head, to ensure compliance with this policy.
3. Courses for less than four credits shall meet for one period. Courses for four or more credits may meet for two periods.
4. Classes that begin at times other than on the hour (i.e., 9:30, 2:10, 3:35, etc.) will use the time period assigned for the hour (i.e., 9:00, 2:00, 3:00, etc.). For example, a 4:30 TR class would use the 4:00 TR assigned final examination period.
5. Classes shall meet only at the times indicated on the final examination schedule.
6. Any exception of regulations 3 or 5 above, e.g., special types of examinations which need more time or special locations to conduct, must be approved by the Associate Registrar in Curriculum, Catalog, and Scheduling prior to the second week of class and announced in classes by the second week.
7. If a student has three or more final examinations (not classes) scheduled for the same day or if conflicts of examination times occur, the student may negotiate a time change with the instructors involved. If the parties involved cannot find a mutually agreeable time, the Office of the Registrar indicates which courses must be changed. Note: The Associate Registrar in Curriculum, Catalog, and Scheduling, must be notified at least one week prior to final examination week to allow instructors time to make appropriate accommodations.

Any student who has a conflict with the examination schedule must inform the instructor as soon as possible before the examination. If an agreement cannot be reached between the instructor and student as to the appropriateness of a make-up examination, the student should appeal to the department head.
Undergraduate Planned Leave

Undergraduate Planned Leave is a status intended to help students more easily and effectively take up to two semesters away from their CSU studies and successfully return again. Students who obtain Undergraduate Planned Leave status and comply with its requirements do not have to re-apply for admission to CSU upon return. In addition, Planned Leave students will be tracked in an attempt to help facilitate their successful and timely return.

All undergraduate students seeking their first bachelor’s degree are requested to communicate their plans when leaving CSU in order to determine eligibility for an approved Planned Leave. Students who meet the established eligibility requirements will be granted a Planned Leave for up to two semesters. (A semester is defined as a fall or spring semester and excludes summer sessions; for example, Planned Leave is granted for fall and the student returns the following spring, or is granted for spring and returns the following fall.) Semesters may, but are not required to, be taken consecutively. A total of two semesters of Planned Leave are available to all first bachelor’s degree seeking students. Any student leaving for more than two semesters should utilize CSU’s Returning Student (http://admissions.colostate.edu/returning/) process via the Office of Admissions when they return.

Any student leaving longer than two semesters due to military service should work with the Adult Learner and Veteran’s Services Office (http://www.adultstudents.colostate.edu/) or the Veteran’s Education Benefits Office (https://registrar.colostate.edu/military-veterans/) to discuss available options.

Some examples of situations where Planned Leave might be appropriate include students on domestic internships, official assignment for CSU, military service, mission service, leave due to medical reasons, family crisis, financial crisis, work, etc.

Per CSU transfer evaluation guidelines, students on Planned Leave may enroll at another domestic post-secondary institution during their Planned Leave. Any student planning on going to an international post-secondary institution must have a conversation with, and follow the processes of, the Education Abroad Office (http://educationabroad.colostate.edu/students/) to evaluate what, if any, of the credits taken might transfer back to CSU.

International study while on Planned Leave is not the same as regular Education Abroad. Many different issues arise and processes must be followed by students in the Education Abroad program (http://educationabroad.colostate.edu/students/). Students participating in Education Abroad (for-credit study, intern, volunteer, work, or research abroad programs) have a separate CSU process for managing planned leave and therefore are not eligible to participate in this policy.

In order to be eligible for planned leave, a student must meet all of the following criteria:

a. Undergraduate Degree Seeking Student (CSU on-campus and CSU Online) seeking first bachelor’s degree (2nd Bachelor students are not eligible)

b. Academic Standing: good standing or academic probation one or two.

Undergraduate Planned Leave

Students interested in obtaining Planned Leave status must apply and be approved before leaving. For additional information, see the Office of the Registrar’s website (http://registrar.colostate.edu/planned-leave/).

Student Financial Assistance

Most Financial Aid is handled under Federal Title IV requirements. Students who are receiving financial aid should request information about current and future term eligibility when considering Planned Leave. Students who are receiving scholarships should request information regarding renewability. Students are not eligible for any financial aid disbursements during the semester(s) on Planned Leave. Students on Planned Leave will be reported to lenders and loan service agencies as “non-attending” and will need to contact lenders for information regarding possible repayment requirements.

International Students

Because there are federal visa requirements, International students must discuss their options for Planned Leave with the Office of International Programs (OIP) (https://international.colostate.edu/) to determine the impact of the Planned Leave to their immigration status. All international students must be enrolled in a full course of study while in the United States.

Returning from Planned Leave

A full set of steps for students returning from a Planned Leave are available on the Planned Leave website (http://registrar.colostate.edu/planned-leave/). (Faculty Council approved minutes March 6, 2018)

Undergraduate Change of Major, Concentration, Minor, or Certificate

Change of Undergraduate Major

Newly admitted students who have not begun classes must contact the Office of Admissions (http://admissions.colostate.edu/) to change their major.

In many, but not all cases, an undergraduate student regularly enrolled in CSU may change from one major to another. Students complete this process by working with the advisor/academic success coordinator in the department when they would like to change. Students should schedule an appointment by contacting the department offering the major, minor, or certificate to which they would like to change (or add). Some departments create advising appointments by phone, others via signing up online; some advising appointments are individual, others are group change of major sessions.

Some majors—considered competitive or controlled-entry majors—require specific entrance requirements (portfolio, audition, cumulative GPA, grades in specified courses, etc.). Students wishing to change from one major to another can obtain information about any restrictions or requirements that may be in place, as well as the actual process involved, from their advisor, the academic department offering the major, or from the Collaborative for Student Achievement (http://studentachievement.colostate.edu/).

Dropping a Major, Minor, Concentration, or Certificate

Students wishing to drop a minor or second major should make an appointment with their academic advisor/academic success coordinator to be sure all options are fully understood. Students then
submit a change of major form to the Office of the Registrar (http://registrar.colostate.edu/), First Floor in Centennial Hall.

Changes of major, minor, or certificate are generally processed within one business week. Students may check their status in RAMweb (https://ramweb.colostate.edu).

**Academic Credit**

Credit Hour and Credit Load

Undergraduate Classification

Enrollment Status

**Credit Hour and Credit Load**

A credit hour is defined as 50 minutes of lecture or discussion/recitation per week for 16 weeks (800 minutes in a semester), 100 minutes of laboratory per week for 16 weeks (1600 minutes in a semester) when outside preparation is required, or 150 minutes of laboratory per week for 16 weeks (2400 minutes in a semester) when no outside preparation is required. For workload planning purposes (and to graduate with 120 credits in eight semesters), students should plan on completing an average of 15 credits per semester and should expect each credit hour to require approximately two to three hours (for some students, in some classes, more time and in a few classes, less time) of effort per week to attend classes and to accomplish readings and out-of-class assignments in preparation for successful completion of the course requirements.

**Undergraduate Classification**

Student level (class) is determined by the number of credits at CSU and credits accepted in transfer. Transfer credits may or may not be acceptable in meeting degree requirements.

**Student Level Semester Credits**

<table>
<thead>
<tr>
<th>Student Level</th>
<th>Semester Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>Freshman</td>
<td>0-29</td>
</tr>
<tr>
<td>Sophomore</td>
<td>30-59</td>
</tr>
<tr>
<td>Junior</td>
<td>60-89</td>
</tr>
<tr>
<td>Senior</td>
<td>90 and over</td>
</tr>
</tbody>
</table>

**Enrollment Status**

Enrollment status (full-time, three-quarter time, half-time, less than half-time) is determined by the number of credits which the student has completed or is pursuing for the term in which the verification is requested. Courses the student has withdrawn from and courses the student is auditing are not included. (The following schedule for enrollment status differs from the full-time/part-time schedule for tuition and fees. (https://financialaid.colostate.edu/base-tuition/))

Credit requirements are as follows:

**Fall/Spring/Summer Semesters:**

<table>
<thead>
<tr>
<th>Undergraduate Students</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Full-time</td>
<td>12 or more credits</td>
</tr>
<tr>
<td>Three-quarter time</td>
<td>9-11 credits</td>
</tr>
<tr>
<td>Graduate Students</td>
<td></td>
</tr>
<tr>
<td>Full-time</td>
<td>9 or more credits</td>
</tr>
<tr>
<td>Three-quarter time</td>
<td>7-8 credits</td>
</tr>
<tr>
<td>Half-time</td>
<td>5-6 credits</td>
</tr>
<tr>
<td>Less than half-time</td>
<td>4 credits or less</td>
</tr>
</tbody>
</table>

For verification of enrollment status, go to RAMweb (https://ramweb.colostate.edu/) and click on Records and then on Enrollment Verification. For more information, visit the Office of the Registrar (http://registrar.colostate.edu/student-resources/enrollment-degree-verification/) website.

Groups such as co-op programs may have a different definition of enrollment status and should be verified with the program.

**Registration**

Class Schedule

Registration Process

Schedule Changes

University Withdrawal

Undergraduate Planned Leave

Graduate Continuous Registration

Registration Alternatives

**Class Schedule**

The Class schedule is available in RAMweb (https://ramweb.colostate.edu) or to the public via the CSU website (https://ramweb.colostate.edu/Registrar/Public/ClassSchedule.aspx) prior to the beginning of registration for a given term. To find the schedule via the CSU website (https://www.colostate.edu/), click on "Resources," then "C," and then "Class Schedule."

**Registration Process**

Students register for classes, including adding or dropping courses, online through RAMweb (https://ramweb.colostate.edu). The class schedule is available through RAMweb (https://ramweb.colostate.edu) approximately one month prior to the start of registration, allowing students to plan their schedules (Plan Ahead, a schedule planning tool, is also available in RAMweb (https://ramweb.colostate.edu) through the Registration link).

Before registering for classes, students must complete the Registration Ready portion of the process. In order to communicate quickly and effectively with students, CSU sends many official campus communications via email. Students affirm their email address via Registration Ready. Students are also required to maintain a current mailing address. Once Registration Ready is complete and the student’s Registration Access Date/Time has arrived (available in RAMweb (https://ramweb.colostate.edu)), a student may register for classes.

Military veterans will receive a priority Registration Access Date/Time to register for their classes.
Registration and payment deadlines must be met in order for registration to proceed. Students should respond to correspondence from CSU, including email correspondence, in a timely manner to avoid missing crucial deadlines.

Registration Waitlist
Registration Waitlists are available for students attempting to register for class sections that are already full. When a class has reached capacity and shows a waitlist is available, students may sign up on the waitlist. Students are e-mailed and texted (if they set their text messaging options to allow Academic and Financial Alerts via RAMweb (https://ramweb.colostate.edu)) when a seat opens in the class. Students then have a 24-hour window to register for the class. If the student does not register, they are taken off the waitlist and a notification goes to the next student on the waitlist.

Please go to RAMweb (https://ramweb.colostate.edu) or the Office of the Registrar’s webpage (https://registrar.colostate.edu/waitlist-faqs/) for frequently asked questions and answers about the Registration Waitlist.

Course Overrides
Even when a class has reached its published enrollment limit, the instructor may give special permission for a student to register in the course. Students should inquire about overrides with the instructor assigned to teach the class or the department offering the class. Overrides are processed electronically via ARIESweb by the instructor or department offering the course. Once granted an override, the student must still register for the course through RAMweb (https://ramweb.colostate.edu).

Credit Overload
Undergraduate students who wish to register for more than 18 credits per term must have an overload approved and submitted through ARIESweb by their Academic Success Coordinator/Academic Advisor. Requests for undergraduate students to register for 21 or more credits in a given term must be approved by the department chair/department head.

Graduate students who wish to register for more than 15 credits per term must also have an overload approved and submitted through ARIESweb by their advisor. Requests for graduate students to register for 19 or more credits requires approval from the Graduate School.

Variable Credit Course Registration
Some courses, such as research or field placements, are available for variable credits. Learn more about adjusting variable credits on the Office of the Registrar’s website (http://registrar.colostate.edu/registration/registration-changes/).

Auditing a Class
Students interested in learning content of a course but who don’t need it to count toward graduation may choose to audit the course, if the option is available. Learn more about auditing a course (https://registrar.colostate.edu/audit-satisfactory-unsatisfactory-grading/).

Late Registration
A Late Registration Charge of $50 (subject to change) is assessed for adding the first course on or after the first day of classes or for late adds after the registration period.

Graduate students who register for Continuous Registration or their first course for the term on or after the first day of the term will be charged a $50 Late Registration Charge.

Repeating a Course
Students may register for and complete a course more than once, but it can only be used one time to fulfill graduation requirements. The original grade and grades earned in repeated courses are used in calculating grade point averages, unless a student exercises the Repeat/Delete policy.

Repeat/Delete
Undergraduate students who retake courses have the opportunity to exercise the Repeat/Delete option. Students need to take steps to make this happen. Learn more about Repeat/Delete.

Enrollment and Degree Verification
For verification of enrollment status, term(s) of attendance, or degree awarded, go to RAMweb (https://ramweb.colostate.edu/) and select Enrollment Verification from the Records option in the main menu. Learn more at the Office of the Registrar (http://registrar.colostate.edu/student-resources/enrollment-degree-verification/).

Schedule Changes

Schedule Changes and the Add/Drop and Withdrawal Periods
Periods for changing schedules (adds, drops, withdrawals, changes of sections, grading options, or credits) are listed in the Academic Calendar and in the online class schedule. Add, drop, and withdrawal dates for specific sections may be located by clicking on the section’s title in the class schedule. The Class Details section in the pop-up window will list those dates. Once registered, those dates are also available on RAMweb (https://ramweb.colostate.edu/) by clicking “Registered Course Details” in their weekly class schedule. Courses taught in terms of less than 16 weeks are subject to shorter add/drop and withdrawal periods.

Adding a class
During the regular 16-week Fall and Spring semesters, courses may be added without an override through 11:59 PM Sunday at the end of the first week of classes. Beginning Monday of the second week of classes, courses may be added with an electronic Department Approval - Restricted Add override from the instructor through the census date, which is the 12th day of classes of the semester. Course instructors may authorize their department offices to perform these overrides.

Dropping a class
Regular courses may be dropped through the census date, which is the 12th day of classes of the semester. Restricted-drop courses must be dropped before 11:59 PM Friday at the end of the first week of classes. Courses dropped during this period are not reflected on the student’s academic record, and tuition and fees may be adjusted as a result. Consult the appropriate online class schedule for course drop deadlines. No drops may be made after the end of the add/drop period.

Withdrawing from a class
The course withdrawal period begins after the add/drop period and closes at the end of the eighth week of the semester. A “W” (withdrawal) grade notation will be recorded on the academic record. See also
Class Attendance Regulations. Tuition and fees will not be adjusted for withdrawals during the course withdrawal period. See also Tuition and Fee Adjustments in the Financial Information section.

Courses taught in terms of less than 16 weeks are subject to shorter add/drop and withdrawal periods. Click on the class section's title in the class schedule and then on the Class Details section in the pop-up window to view a class's specific add, drop, and withdrawal dates.

Students withdrawing from CSU may not use the drop procedure to drop all classes, but must instead complete the University Withdrawal process.

Registration Cancellation (Prior to Start of Term)
Prior to the beginning of the semester, all courses can be canceled via the web registration system on RAMweb (https://ramweb.colostate.edu/registrar/Public/Login.aspx) with no charge.

University Withdrawal

University Withdrawal refers to a student withdrawing from all classes for a given term, starting the first day of the term and on or before the last day of classes (before Final Exams week).

Any student interested in completing a University Withdrawal will do so, online, through RAMweb (https://ramweb.colostate.edu/registrar/Public/Login.aspx). Students are encouraged to discuss their plans to complete a University Withdrawal with the following, as applicable: Academic Success Coordinator/Academic Advisor, Financial Aid (https://financialaid.colostate.edu/), Veterans Education Benefits Office (https://registrar.colostate.edu/military-veterans/), Student Athletic Support Services (http://www.sass.colostate.edu/), International Student and Scholar Services (http://isss.colostate.edu/), CSU Online (http://www.online.colostate.edu/), and the Graduate School (http://graduateschool.colostate.edu/).

University Withdrawal for Call to Active Duty
Called to Active Military Duty
CSU will assist any student called to active military service with reasonable accommodations and in making the best possible transition. As a primary point of contact, students are encouraged to work with Adult Learner and Veterans Services (ALVS) (http://alvs.colostate.edu/). Depending on when in the semester the student is called to duty, different options may be available including University Withdrawal, late withdrawals, or Incomplete grades.

Students anticipating being gone for a limited amount of time are encouraged to work with ALVS (http://alvs.colostate.edu/) in order to explore reasonable accommodations in their courses or selected withdrawals from individual courses.

University Withdrawal for Call to Active Duty:
1. To complete a University Withdrawal, a student should do so through RAMweb (https://ramweb.colostate.edu/registrar/Public/Login.aspx).
2. Ideally, you will have your deployment orders in hand when you visit ALVS. If you do not have your orders with you, or can only complete the withdrawal over the phone, then you can submit the orders to ALVS (http://alvs.colostate.edu/) at 970-491-3906. When ALVS (http://alvs.colostate.edu/) receives the orders, your tuition assessment will be adjusted to 0%.
3. If you are deployed between academic terms (for example, at the end of the semester or over the summer), you do not need to withdraw online or contact ALVS (http://alvs.colostate.edu/) to withdraw; however, you do need to be sure you have cancelled your registration for the upcoming term. You may cancel courses on RAMweb (https://ramweb.colostate.edu/registrar/Public/Login.aspx).
4. Graduate students: Please be sure to review your options for Continuous Registration versus Graduate Application for Readmission as you make arrangements for your deployment.
5. Short-term deployments may not require a University Withdrawal, depending upon the length of the deployment and when in the semester it occurs. Students given orders for a short-term deployment should work directly with their instructors, who are strongly encouraged to accommodate deployed students with a reasonable plan for making up work. Students who are advised they may be assessed a penalty for the absence should contact Adult Learner and Veteran Services (ALVS) (http://alvs.colostate.edu/) to discuss their options. If you have any questions about the withdrawal process, be sure to consult ALVS (http://alvs.colostate.edu/).

To return to CSU (whether you were deployed during the academic term or between terms):
1. Returning undergraduate students should go to the Admissions (http://admissions.colostate.edu/returningstudents/) website for information on the Undergraduate Intent to Return process.
2. The Intent to Return form asks you which semester you plan to return to CSU. As soon as you know when you will return, you should submit the form so you can register for classes in a timely manner. Please note the relevant application deadline (http://admissions.colostate.edu/returningstudents/). Keep your academic advisor apprised of your plans—by phone or email if necessary—so that your advisor can make sure you have a schedule figured out for your returning semester.
3. Returning graduate students who have not utilized Continuous Registration must complete and submit a Graduate Application for Readmission and a copy of the deployment orders in order to have the $150 readmission fee waived.
4. Graduate students who choose to utilize Continuous Registration (http://registrar.colostate.edu/registration/registration-changes/) during their deployment are not required to reapply when they return, but they will be charged $150 and the University Technology Fee per academic term that they are away. The continuous registration fee is NOT waived for deployment.

Important note: If you were admitted to CSU and were not able to enroll due to deployment, you may be required to submit a new application for admission and new supporting documents depending upon your original term of admission. Enrollment deferrals of up to one year beyond the original term of admission are allowed in such cases but must be arranged in advance; deadlines apply.

If you have questions about the return process (for enrolled students) or about obtaining an enrollment deferral (for newly admitted students), please contact the Office of Admissions at admissions@colostate.edu.

Retroactive Withdrawal
A student may request that all grades in an academic period (one or more semesters of continuous enrollment) be retroactively removed and replaced by entries of “W” on their transcript. A retroactive withdrawal may be granted only when a student could neither function normally during the academic period nor be reasonably expected to complete
a University Withdrawal due to extenuating circumstances such as an incident leading to major physical or mental trauma.

Failure to academically perform due to factors such as the following would not generally qualify a student for retroactive withdrawal:

- Bad habits or poor judgment
- Time management issues/working too many hours
- Failed relationships/roommate problems
- Failure to use University resources
- Ignorance of University policies

A retroactive withdrawal is not allowed if a student has earned a degree from CSU and the semester in question was used to meet University, college, or departmental requirements for the degree.

Students are allowed two requests for the same period, the second request requiring additional supportive documentation. If granted, assessment of tuition and fees remains unchanged. The student’s academic record will remain unchanged if a request is denied.

An undergraduate or graduate student applying for a retroactive withdrawal must submit an online request accompanied by a personal statement from the student and supportive, third-party documentation from a relevant professional. If the justification for the request is based on death or serious illness of someone with whom the student has a very close relationship, the student must document the relationship to this person as well as the death or serious illness of that person. The request will be forwarded to the Faculty Council Committee on Scholastic Standards. In order to start the process, students must meet with their academic success coordinator/advisor or Collaborative for Student Achievement staff. To make an appointment at the Collaborative for Student Achievement, call (970) 491-7095 or visit their offices on the main floor of the stadium on campus during walk-in hours (10:00 am and 2:00 pm).

**Undergraduate Planned Leave**

Undergraduate Planned Leave is a status intended to help students more easily and effectively take a semester or two away from their CSU studies and successfully return again. Students who obtain Planned Leave status and comply with its requirements do not have to re-apply for admission to CSU upon return. In addition, Planned Leave students will be tracked in an attempt to help facilitate their successful and timely return. For more information, see Undergraduate Planned Leave in Academic Standards and Policies.

**Graduate Continuous Registration**

All students admitted to a graduate degree program are required to be continuously enrolled in their degree programs in the fall and spring semesters. This policy applies from the time of first enrollment through the graduation term. Students should contact their advisor if they do not plan to register for at least one credit of course work or research. Learn more about Continuous Registration.

---

**Registration Alternatives**

**Auditing a Class**

See Auditing a Class in Grading.

**Non-Degree GUEST Program**

GUEST is a non-degree enrollment option for community members who wish to take one or two CSU classes during a fall or spring semester without applying for admission as a degree-seeking student. Learn more about applying for admission (http://admissions.colostate.edu/guest/) to the GUEST program.

**CSU Online/Continuing Education**

Taking online courses is an appealing option for many students. CSU Online (Continuing Education) offers access to individual courses, full degree programs, and graduate certificates. Learn more at CSU Online (http://www.online.colostate.edu/).

**Lifelong Learners**

CSU is supportive of lifelong learners. Community members age 55 or older may attend academic classes, free of charge, on a space-available basis with permission of the instructor. As visitors, lifelong learners are not registered for the classes, have no academic record of attending, and earn no academic credit. Learn more at the Office of the Registrar’s website (https://registrar.colostate.edu/lifelong-learners/).

**Taking Courses at Another Institution**

Enrolled students who wish to take undergraduate courses at another regionally accredited institution to transfer to CSU should first determine how the courses will be accepted in transfer. To do so, the student will need to access the Transferology (https://www.transferology.com/login.htm) website. For more information about Transferology™, please see the Office of the Registrar’s website (https://registrar.colostate.edu/transferology/).

If Transferology™ does not list the desired course or its institution, or it shows an equivalent course different from what the student is seeking, the student should contact the Degree and Transfer Evaluation unit of the Office of the Registrar, phone (970) 491-4860, email TransferOffice@colostate.edu to confirm the equivalent. If the course does not have an established equivalent, the student may petition the academic department of the class being transferred in to approve a course equivalent using the Transfer Course Equivalency Pre-Approval Form, available on the Office of the Registrar’s website (https://registrar.colostate.edu/wp-content/uploads/sites/23/2020/05/Transfer-Course-Equivalency-Pre-Approval-Form-05-2020.pdf). The appropriate academic department must determine if a course can be accepted as the desired equivalent. Upon approval, the student returns the signed form to the Office of the Registrar prior to transferring the course.

Students wishing to take courses at an international institution will need to have the Office of the Registrar evaluate the courses to determine how they will be accepted in transfer. To do so, the student must supply the Office of the Registrar with a copy of the course description and/or syllabus, in English, of each course they wish to take by email at international_evaluation@colostate.edu, by fax at (970) 491-2283, or in person in Centennial Hall.

Students are responsible for ensuring an official transcript is sent to the Office of the Registrar after the completion of the off-campus course
work. No credit will be evaluated until an official transcript has been received. Courses with less than a C- grade are not accepted as transfer credit toward a degree at any time, in any major.

The student must file an Intent to Return form with the Office of Admissions (http://admissions.colostate.edu/apply/returning/) prior to leaving campus if the course work is taken in any term other than summer session.

See also Education Abroad, in Interdisciplinary Opportunities.

Credit for Education Abroad

Students are encouraged to participate in accredited education abroad programs. Credit is granted for courses taken in programs approved in advance by CSU, subject to certain conditions. To apply for credit, a student must complete an "Education Abroad Transfer Credit Policy & Approval Form" available in the Education Abroad Office, Laurel Hall.

Aims Community College Cooperative Registration Agreement

Under a cooperative program with Aims Community College (Greeley), CSU students may register for one course (maximum of five credits) per term without additional tuition assessment.

Eligibility – Students must be enrolled at CSU in resident instruction courses, i.e., not Continuing Education or Placement.

Credit Load – For the above corresponding terms, CSU students must be registered for at least 12 credits (9 credits in the summer) to attend Aims Community College.

Course Restriction – Registration for a maximum of one undergraduate, resident instruction course (maximum of five credits) is authorized. Registration will be subject to the availability of the course and the student meeting the prerequisites.

Tuition – Tuition and student fees for the course taken under this agreement will not be charged to the eligible student but applicable course fees will be paid by the student. If the student is determined to be ineligible for this cooperative registration privilege, applicable tuition and student fees will be assessed, and the student will be responsible for payment of these charges.

Registration – Applicable forms are available on the Office of the Registrar’s website (http://registrar.colostate.edu/academic-resources/exchange-programs/) or at the Office of the Registrar in Centennial Hall.

CSU does not have a registration agreement with Front Range Community College.

Colorado Exchange Program

CSU, in cooperation with the Colorado School of Mines, University of Northern Colorado, and the University of Colorado, provides tuition-free instruction for graduate students through a reciprocal agreement. The following conditions must be met to qualify for the program:

1. The graduate student is registered and paying full tuition and fees at the home institution.
2. The course requested is part of a regular load—not an overload.
3. The student is pursuing a program leading to an advanced degree.
   All courses requested must be required for the degree program or a prerequisite for one of the required courses.

4. The course is not offered on the student’s own campus when the student can take advantage of it.
5. The request is presented prior to registration for the semester the course is to be taken.
6. The request is presented any term except the graduation semester.
7. A separate request form is completed for each course taken.
8. Space is available.

Challenging Colorado State Courses for Credit

The opportunity to challenge the content of a course on the basis of an examination may be permitted. This option is at the discretion of the individual department and may exclude courses where a laboratory or practicum is an integral part of the course being challenged.

A fee of $20 (subject to change) per credit attempted is assessed and is not refundable. Upon successful completion of an exam, a grade of S (satisfactory) is recorded on the student’s academic record. No record of unsuccessful attempts is recorded.

A course may not be challenged under the following conditions:

- To satisfy the residence requirement for graduation.
- When the person seeking credit is not currently registered at Colorado State University at the time the examination is administered.
- When a student has previously failed a placement or challenge exam for the course.

Students wishing to establish credit by challenge may obtain information from the University Testing Center (http://testing.colostate.edu/) at (970) 491-6498, General Services Building, Room 203.

Degree Requirements

Undergraduate

Graduate

Undergraduate Credit Requirements

Graduation credit requirements, outlined in detail below, include the following: a minimum of 120 credits, 42 of which need to be upper-division. Thirty of the 42 upper-division need to be taken "in residence" at CSU. And, 15 of the last 30 credits need to be taken "in residence".

Major Requirements

Students wishing to graduate must complete the requirements for a major and the All-University Core Curriculum. A major is a sequence of courses in a subject-matter area or discipline which, when accompanied by appropriate supporting courses, leads to a degree. A minimum of 27 semester credits constitutes a major. Completion of a major is shown on both the student’s diploma and academic record (transcript). Students may elect to complete the requirements for two or more majors. To graduate with more than one major, students must complete all the requirements for each major (some majors will accept, as fulfilling their own category 4A-C requirements, the fulfillment of the category 4A-C requirements in another declared major the student completes). Common requirements may count in meeting the curriculum requirements for each major, but each major must have a minimum of 27 unique credits. Also see requirements for multiple degrees.
Concentration Requirements
Some majors have concentrations (or specialization areas). A concentration is a sequence of at least 12 unique semester credits of designated courses within a major designed to accommodate specific interests of students. Completion of a concentration is shown on a student’s academic record (transcript) if completed in conjunction with a degree program, but is not noted on the diploma.

Options
Some majors have options which are a sequence of courses within a major or concentration of either guided electives or electives selected from areas of interest as approved by the student’s advisor. Options do not appear on diplomas or a student’s academic record. (Courses taken to complete an option do appear on the student’s transcript.)

Minor Requirements (Including Interdisciplinary Minors)
Minor programs of study are optional and are offered by certain departments. A minor consists of a minimum of 21 specified credits of course work outside the major. A minimum of 12 of the 21 credits must be course work at the upper-division level (300- to 400-level) and a minimum of 12 credits must be from course work within the department offering the minor. Minors are noted on the student’s academic record (transcript) if completed in conjunction with a degree program, but not on the diploma. If a student does not intend to complete the requirements of the minor then that minor must be dropped before the degree can be conferred for the primary major. Minors must be awarded in conjunction with the major, they cannot be awarded post graduation.

Certificate
Undergraduate Certificates are optional and are offered by certain departments. An undergraduate certificate consists of a minimum of 9 specified credits, and not more than 15 credits. A minimum of 9 credits must be course work at the upper-division level (300- to 400-level). A student must earn a cumulative GPA of 2.000 or better in the courses required in the Undergraduate Certificate.

An Undergraduate Certificate may include courses from one or more departments. For certificates involving courses from two or more departments, the coordinating department is indicated in Programs A-Z.

Students must apply for and complete the certificate requirements while enrolled in their baccalaureate degree. Undergraduate certificates by title are noted on the student’s academic record (transcript) at the time of degree conferral. The undergraduate certificate title is not noted on the diploma. Certificates must be awarded in conjunction with the major, they cannot be awarded post graduation.

Multiple Majors
Undergraduate Students With A Second Major

If both of the completed majors are of the same degree type (e.g., B.A., B.S., B.M., B.F.A.) and the student has fewer than 150 credits, the student will be awarded a single degree which displays all majors earned on one diploma.

If the completed majors are of a different degree type and the student has fewer than 150 credits, the student will be given the following choices at the time they file their graduation contract:

1. One diploma listing only the primary major’s degree type (e.g. B.A., B.S., B.M., B.F.A., B.S.W.) and listing all majors conferred.
2. One diploma listing The Bachelor of Arts and Sciences (B.A.S.) if one major is a B.A. degree type and another is a B.S. degree type (if this option is chosen the degree type of B.A.S. shows on the diploma and the official transcript along with both majors).

Students must complete degree requirements for the first (primary) major before they can graduate. Students who have declared two majors must complete all degree requirements for the second (secondary) major, with exception to the AUCC Category 4A-C, in order to graduate. If a student does not intend to complete the requirements of the second major then that major must be dropped before the degree can be conferred for the primary major.

Degrees Earned Concurrently
Students pursuing more than one major, who have successfully completed a minimum of 150 credits, completed a minimum of 27 unique credits for each major, completed major and AUCC category 1-3 requirements, and completed AUCC category 4A-C requirements for each major, will be conferred separate baccalaureate degrees resulting in separate diplomas.

Second Baccalaureate Degree Requirements
A student enrolling at CSU after previously graduating with one or more baccalaureate degree(s) or a student who has already earned one baccalaureate degree at CSU may earn an additional undergraduate degree in a different major if the following requirements are met:

1. Minimum of 30 semester credits in residence (after admission as a Second Baccalaureate student (http://admissions.colostate.edu/secondbachelorsapplicants/)) beyond the credits earned at the time the student graduated with a previous baccalaureate degree.
2. All curriculum requirements for the new major, including All-University Core Curriculum Category 4 requirements and AUCC Categories 1-3E if applicable.
3. Minimum of 27 unique credits for the major not used toward completion of the previous baccalaureate degree.

The first or subsequent baccalaureate degree(s) may be from CSU or from another institution accredited by a regional institution accreditor recognized by the U.S. Department of Education, the Council for Higher Education Accreditation, or equivalent. Regionally accredited accepted coursework will fulfill the All-University Core Curriculum (AUCC) requirements with the exception of AUCC courses in category 4 that are required in the major. Baccalaureate degrees earned at an International Institution may lack components of the AUCC which could result in additional coursework beyond the major requirements to complete the degree.

Undergraduate Degrees
Student Bill of Rights
The Student Bill of Rights (also known as Colorado Revised Statute § 23-1-125) notes that a student may formalize a plan to obtain a degree in four years. Colorado State University supports this timeline for
Requests for waivers or substitutions of the All-University Core
A request for waivers or substitutions for major program requirements
their diploma.
earned at CSU prior to Fall 2008 apply to graduation requirements.) Some
of their official graduation for that semester as well as delays in printing
may count toward the graduation total. (Note: Grades of C-, D+, and D-
timeframe students will experience a delay regarding the formal posting
Only credits completed with grades of A+, A, A-, B+, B, B-, C+, C, C, D,
Minimum Grade Requirement
semester has ended. If grades/transcripts are not received within this
however, individual programs in some colleges and departments may
A bachelor's degree requires a minimum of 120 semester credits;
Minimum Credit Requirement
To meet requirements for the bachelor's degree, a student must fulfill:
graduation by publishing Major Completion Maps defining a common
four-year course progression for most majors. (There are some majors
a student may not be able to complete in eight semesters because of
additional degree requirements recognized by the Colorado Department
Higher Education.)
Review CSU Major Completion Maps on the "Major Completion Map" tab
for each Undergraduate program of study listed in this General Catalog.

General Requirements
Students are required to complete all curricular requirements in place in
the current catalog at the time of graduation, including the All-University
Core Curriculum (AUCC) requirements.
The list of general requirements below is a sufficient guide for academic
planning, but does not represent all rules which might apply to a
particular student or program of study.

Graduation Procedures and Information
Checking undergraduate graduation requirements is the responsibility of
the Office of the Registrar. Curriculum requirements are checked by the
department head of the first major, second major, minor and/or certificate
if applicable.
Students planning on transferring coursework from another post-
secondary institution in order to meet the requirements for degree
completion should contact the Degree and Transfer Evaluation unit
within the Office of the Registrar for assistance. It is very important that
all grades/transcripts are received by the end of the 4th week after the
semester has ended. If grades/transcripts are not received within this
timeframe students will experience a delay regarding the formal posting
of their official graduation for that semester as well as delays in printing
their diploma.
A request for waivers or substitutions for major program requirements
may be made if completing a curricular requirement:
1. Will extend the time normally required to complete the degree; or
2. Will force students classified as juniors or seniors to take additional
lower-division courses, exclusive of AUCC requirements.
Requests for waivers or substitutions of the All-University Core
Curriculum must be submitted on an appeal form (https://
registrar.colostate.edu/forms/), signed by the advisor and department
head and turned in to the Degree and Transfer Evaluation unit of the
Office of the Registrar. Ultimate responsibility for ensuring that AUCC
curriculum requirements are observed and that substitution of equivalent
courses or waivers are for good and sufficient academic reasons rests
with the Provost/Executive Vice President.

Graduation Credit Requirements
To meet requirements for the bachelor's degree, a student must fulfill:

Minimum Credit Requirement
A bachelor's degree requires a minimum of 120 semester credits;
however, individual programs in some colleges and departments may
exceed the minimum.

Minimum Grade Requirement
may count toward the graduation total. (Note: Grades of C-, D+, and D-
earned at CSU prior to Fall 2008 apply to graduation requirements.) Some
majors require a minimum grade of C or higher in required courses. For

Cumulative GPA
The minimum cumulative grade point average acceptable for graduation
is 2.000 computed only for courses attempted at CSU. The CSU GPA
calculation is carried to the third decimal place and is not rounded.
Total credits earned and counted toward graduation may differ from total
credits used in computing a scholastic average, since the scholastic
average is computed by dividing the total grade points at CSU by the
total GPA credit including credits for grades of A+, A, A-, B+, B, B-, C+, C, D,
and F. Note: Grades of C, D+, and D- earned at CSU prior to Fall 2008 are
applied to CSU GPA calculations.

Upper-Division Credit Requirement
A minimum of 42 semester credits in upper-division courses (300-400
level) is required of all students completing a bachelor's degree program.
Although 500-level courses cannot be required in undergraduate
programs of study, elective credits taken at the 500-level may be used to
fulfill the upper-division requirement.

Use of 500-level Courses Within an Undergraduate Program
With written approval of an advisor, junior and senior undergraduate
students may use 500-level courses to fulfill major requirements, either
by selecting from an approved department list of courses, or by exception
signed by the advisor. However, students are never required to take 500-
level courses to complete an undergraduate program of study, whether
a major or a minor. Courses at the 600-level are automatically excluded
from use for an undergraduate degree. Undergraduate students may not
enroll in courses numbered 700-799.

Use of 500-level Courses Taken as an Undergraduate in Graduate Studies
Undergraduates may apply a maximum of nine credits of graduate-level
course work toward a graduate degree at CSU provided that such course
work:
1. Is not used to meet bachelor's degree requirements; and
2. Has been approved by the department head of the graduate degree
program being sought.

Students who enroll in 500-level courses not applied toward a bachelor's
degree may request that an exclusion statement be placed on their
academic records for those courses, making them potentially applicable
to a CSU graduate degree. Students cannot exclude any courses below
the 500-level under this policy. (See the Key to Courses for additional
information.) A written request must be filed in the Degree and Transfer
Evaluation unit of the Office of the Registrar no later than the end of the
term in which the excluded course is taken. Exclusion of these
courses from the bachelor's degree does not ensure acceptance of this
credit toward a graduate degree program. These excluded courses are
computed in the undergraduate grade point average. Undergraduate
students may not enroll in courses numbered 600-699 to satisfy
undergraduate degree requirements. Undergraduate students may not
enroll in courses numbered 700-799.

In Residence Requirement
A minimum of 30 upper-division semester credits must be completed
in residence at CSU. "In residence" courses include any authorized
Colorado State University course recorded as CSU credit on the CSU
transcript. As an approved exception, "in residence" may also be
satisfied by pre-approved upper-division credits earned in authorized
study abroad programs and designated domestic exchange programs, if simultaneously enrolled in designated CSU courses. Pre-approval procedures are required.

**Senior Year Requirement**

Of the last 30 semester credits earned immediately preceding graduation, at least 15 must be completed at CSU.

**Academic Fresh Start Requirement**

Upon receipt of a Fresh Start, a student must successfully complete at least 30 upper-division credits of coursework in residence at CSU after the Fresh Start is granted in order to graduate.

**Degree Progress Audit (DARS)**

The Degree Progress Audit (DARS) is the degree audit tool used for verification of university, program, minor, options, certificate and interdisciplinary requirements. The audit provides a dynamic and concise report, viewed over the web that is used for advising as well as for final graduation certification. The Degree Progress Audit provides students with current and accurate transfer and course information to enhance their degree and program planning. Students are able to view a “What-If” degree audit for display of how their credits would be used to fulfill another major’s requirements.

**Time Limitation on Credits**

Courses completed within the preceding ten years may apply toward a bachelor’s degree. After ten years, course work is reviewed by the department head and college dean or a designee to determine its appropriateness to the major requirements.

**Admission to Degree Program**

Students are required to be admitted into a degree-seeking program in the term for which they plan to graduate. Contact the Office of Admissions (http://admissions.colostate.edu/) for application procedures.

**Intent to Graduate**

Students will file their Intent to Graduate during registration via the Registration Ready Tool in RAMweb upon completion of 85 credits. Students are prompted to verify their curriculum, their correct graduation term, and to give their desired name (within reason) for the commencement program as well as their diploma.

**Contract for Completion of a Major or Minor**

Graduation contracts reflect the most updated version of the Degree Progress Audit (DARS), which will be used for final graduation certification. Graduation Contracts will be completed electronically within the student’s Degree Progress Audit in consultation with their advisor(s) at each department where the student is enrolled in a major, minor, or certificate program of study. Students seeking to graduate will be notified via RAMweb to review their Degree Progress Audit (DARS) to ensure all requirements are in progress or complete and they must acknowledge they are aware of their graduation requirements. Students who do not complete the degree requirements in their graduation term will be contacted by the Office of the Registrar (https://registrar.colostate.edu/contact-us/) requesting they update their anticipated graduation term.

**Good Standing Status**

A student must be in good standing to receive a CSU degree. Accordingly, any student who is subject to suspension or probation for scholastic or disciplinary reasons will not graduate until the conditions of suspension or probation have been satisfied.

**Off-Campus Completion of Degree Requirements**

Seniors who are registered for final course work at another institution, either in residency or by correspondence or extension, must have their Contracts for Completion of Major/Minor on file in the Office of the Registrar by the end of the add/drop period of the graduation term. Official transcripts showing completion of work from another institution must be on file in this office no later than the fourth week after the graduation term.

**Degree Conferral**

Degree conferral only occurs three times each year, after the conclusion of the Fall, Spring, and Summer terms. The conferral date is the date which will be posted on the official transcript and the diploma. This is the date when the degree is considered officially awarded. A degree is a credential. There are three documents that provide evidence of that credential: an official transcript, a diploma, and a formal letter of completion from the Office of the Registrar.

CSU degrees will not be posted on the student’s record until the official degree conferral date has been reached for the semester in which the degree is being awarded. Completion of all requirements prior to the official degree conferral date will not result in an early conferral of the degree. A student in this situation may request an official “Upon Completion Letter” from the Office of the Registrar showing pending conferral of the degree. The degree will be conferred for the term in which the requirements are completed.

**Degree Verification Process**

To confirm that a degree has been awarded, the most common options are through use of the official transcript or, for students, receipt of the diploma. In addition, many employers access the Degree Verification process (http://registrar.colostate.edu/student-resources/enrollment-degree-verification/) through the National Student Clearinghouse.

**Degrees Awarded Posthumously**

In exceptional circumstances, the Board of Governors of Colorado State University may award degrees posthumously. Recommendations for such an award will only be considered when the student had completed nearly all of the requirements for his or her degree before dying, and when the student’s academic record clearly indicates that the degree would have been successfully completed had death not intervened. Nominations for posthumous awards of degree will be initiated by the student’s department and approved internally by the relevant college dean and the Provost/Senior Vice President. The posthumous nature of the recommended degree award shall be made explicit when the recommendation is forwarded to the Board of Governors. The Provost/Executive Vice President’s Office shall be responsible for presenting the degree to appropriate survivors.

**Commencement (Graduation Ceremonies)**

Students may graduate in Fall, Spring, or Summer terms. CSU celebrates at Commencement ceremonies (http://commencement.colostate.edu/) twice a year, at the end of each Fall and Spring semester. Students completing degree requirements during any term receive their diplomas by mail within 6-8 weeks after the degree conferral date, if there is no outstanding financial obligation to the University. Candidates must appear in appropriate academic attire at commencement exercises.
Graduate Degrees
The graduation procedures and information for Graduate Students is available in the Graduate and Professional Bulletin.
CO-CURRICULAR ENGAGEMENT

Student Leadership
Research and Creative Opportunities
Athletics
Fraternity and Sorority Life
Student Leadership, Involvement and Community Engagement (SLiCE)
Student Clubs and Organizations
Student Media

Student Leadership
A member of Campus Compact, CSU promotes programs that develop citizenship skills and values, including service learning and partnerships between the campus and community. CSU has been named a “Top Character-Building Institution” by the Templeton Foundation. CSU encourages students to explore the many opportunities to enhance learning by getting involved on campus and in local communities.

Associated Students of CSU (ASCSU)
Graduate Student Council
College Councils
President's Leadership Program (PLP)
Honorary Societies
Campus Connections

Associated Students of CSU (ASCSU)
All fee-paying CSU students are members of Associated Students of Colorado State University (http://ascsu.colostate.edu/) (ASCSU), the student governing body that advocates for student interests and welfare across the campus, city, state, and federal level. ASCSU serves as the direct student representation on multiple areas of campus such as the Board of Governors, Student Fee Review Board, and the Board of Student Organization Funding. ASCSU comprises three main branches: Legislative, Executive, and Judicial. Through these branches, different levels of representation exists to ensure that the student's voice is heard. ASCSU offers programs and services to all CSU students such as Ram Leadership Team, Grill the Buffs, and the For-Ever-Green shirt program.

Graduate Student Council
The Graduate Student Council (http://graduateschool.colostate.edu/campus-life/get-involved/) represents and advocates for graduate and professional students to improve the experience of graduate education. The Graduate Student Council consists of student representatives from each department which enrolls graduate or profession students, with two representative seats allocated to each department. The Council elects its own officers and nominates representatives for committees such as Faculty Council, boards overseeing student fee areas, etc.

College Councils
Students who have declared a major can contact their Dean's Office in order to find out more about the College's Student Council and the leadership opportunities it may afford. Students who have not declared a major should contact the Collaborative for Student Achievement (http://studentachievement.colostate.edu/) for information about the Undeclared Leadership Council.

President's Leadership Program (PLP)
The President's Leadership Program (http://lsc.colostate.edu/slice/slice-leadership/) is a fourteen credit leadership development experience consisting of three independent year-long (two semester) academic and experiential courses designed to explore the personal, organizational, and social dimensions of leadership through course-work, retreats, and service learning. Students must apply and be selected to participate in each year of the program. Successful completion of PLP can contribute to an interdisciplinary minor in leadership studies.

Honorary Societies
By promoting, advancing, and recognizing the top scholars of our campus community, honorary societies (http://provost.colostate.edu/honorscsu/) assist students in their pursuit of academic excellence. Students are advised to exercise caution when accepting invitations from honor societies. Not all such organizations provide honors that will be recognized and valued by the academic community and potential employers.

Campus Connections
Campus Connections (http://www.hdfs.chhs.colostate.edu/students/undergraduate/campusconnections/) is a high-impact service learning course where undergraduate students serve as mentors to at-risk youth. Students from any major work one on one with at-risk youth ranging in age from 10-18 who are referred to Campus Connections from community partners within the juvenile justice system, local schools, community agencies, and directly from families. Youth participate in Campus Connections with their mentor on the CSU campus once a week in a structured and engaging mentoring community.

Research and Creative Opportunities
Qualified undergraduate and graduate students have many opportunities to engage in research and creative activity while enrolled at CSU. These opportunities allow students to enhance their education by working closely with a faculty mentor. Settings for these activities include laboratory, office, concert hall, and studio environments on campus. Some opportunities exist off campus, as well, at state and national laboratories located in and near Fort Collins. Students can identify faculty research and creative activity by contacting the Office of Undergraduate Research and Artistry (http://lilt.colostate.edu/oura/) at The Institute for Learning and Teaching, by searching departmental websites, the Graduate School (http://graduateschool.colostate.edu/for-prospective-students/) or by contacting advisors or college and departmental
offices. Students can then contact faculty who are willing to enlist undergraduates and graduates in their research and creative work. The amount of time spent in such activities varies but generally ranges from six to ten hours per week on average. Placement, time commitments, and qualifications are dependent upon an agreement between the student and faculty mentor.

More than 300 performances, exhibits, and arts events are staged each year, from an internationally-recognized poster show to student-produced theater and opera. Facilities include the Hatton and Curfman Galleries, the Music Recital Hall, and the Lory Student Center Theatre. The University Center for the Arts houses the Edna Rizley Griffin Concert Hall (listed by the Denver Post as one of the top five places for live chamber music), the University Theatre, the Studio Theatre, the Runyan Music Hall, production support facilities, recital and rehearsal halls, dance performance space and studios, classrooms, and faculty offices. The campus culture at CSU is steeped in the performing arts.

Celebrate Undergraduate Research and Creativity Showcase
MURALS
Graduate Student Showcase

Celebrate Undergraduate Research and Creativity Showcase (CURC) (https://tilt.colostate.edu/CURC/)

The achievements of students in the areas of research and creativity are recognized each spring semester during CURC (http://curc.colostate.edu/). Students are invited to participate in a variety of events focused on original research, creative arts, and design, culminating in a showcase that features outstanding performers and award winners from all disciplines. Award winning projects from recent years ranged from genetic and neural studies to improvements in the apparel design process to poetry.

MURALS (http://www.murals.colostate.edu/home/)

The Multicultural Undergraduate Research Art and Leadership Symposium (MURALS) intentionally engages students of color in a variety of disciplines in preparation for CURC (see above).

Mentoring, presenting their work (creative writing, visual art, performing art, science, social science, humanities), networking, and learning about multicultural leadership are four main aspects of the symposium.

Slated for Spring, MURALS also provides opportunities for graduate students to work with undergraduate students and for faculty to serve as mentors.

Graduate Student Showcase (http://gradshow.colostate.edu/)

The Graduate Student Showcase (GradShow) is a one-day conference organized by the Graduate School (http://graduateschool.colostate.edu/for-prospective-students/) to celebrate research, creativity and entrepreneurship. The showcase aims to encourage connection and collaboration among all graduate students at CSU.

Approximately 300 graduate students present their scholarship alongside fellow students from all eight of the colleges to more than 100 judges from across the campus. In the spirit of interdisciplinary collaboration, judging assignments are made on a random basis to give students the opportunity to hone their ability to communicate with audiences outside their own disciplines. The mingling of minds from different disciplines in this environment is specifically designed to further spark innovation and encourage collaboration.

In addition to providing an arena for interdisciplinary collaboration, the GradShow provides both presenters and non-presenters with professional development opportunities. Participants are encouraged to engage in the showcase as an opportunity to build a variety of presentation skills and to use the experience to excel at future national conferences. A variety of professional development workshops are offered to all grad students in the afternoon.

Winners receive cash prizes or scholarships from generous award sponsors in a variety of categories during the formal awards reception.

Athletics

Intercollegiate Athletics
Sport Clubs
Intramural Sports

Intercollegiate Athletics

McGraw Athletic Center
(970) 491-7217 / CSURams.com (http://csurams.com/) / @CSURams (https://twitter.com/CSURams/

CSU sponsors 16 NCAA Division I varsity programs (6 men’s teams and 10 women’s teams) participating in the Mountain West Conference. The department serves nearly 400 student-athletes and awards a full allotment of scholarships as allowed by the NCAA each academic year. Our mission statement, TO EDUCATE, ENGAGE AND EXCEL, embraces the philosophy of the entire CSU campus, whereby our priority is to provide access to education for student-athletes; engage the broader community by drawing thousands of stakeholders to the University and excel in all pursuits. Complete information about our intercollegiate athletic program can be found at CSURams.com (http://csurams.com/).
Sport Clubs

Sport Clubs are student-managed teams that train together, travel, and compete on a national level. As student-managed organizations, team members are involved in fundraising, coaching selection, budgets, and more. Sport Clubs students are serious athletes and games.matches are held throughout the state and country. To find out more information about Campus Recreation’s 29 teams visit csurec.colostate.edu (https://csurec.colostate.edu/).

Intramural Sports

Intramural Sports are a great way to engage in the CSU community throughout the entire year. The Intramural Sports Program offers tons of leagues and tournaments each semester from flag football to soccer, kickball, tube water polo, and more. Different divisions (women’s, men’s, coed, or open) are offered depending on the sport and some sports offer both recreational and competitive leagues. The best prize of all are the great memories and the chance to have fun! To find out more information about the variety of sports and how to sign up visit csurec.colostate.edu (https://csurec.colostate.edu/).

Fraternity and Sorority Life

Office in Lory Student Center
(970) 491-0966

The Office of Fraternity and Sorority Life (http://fsl.colostate.edu/) (OFSL) provides resources and support to social fraternities and sororities at CSU as well as advising to fraternity and sorority governing councils and auxiliary organizations. The OFSL conducts leadership training, provides accountability, and supports individual chapters and members as they enhance their curricular experience with fraternity or sorority involvement.

Student Leadership, Involvement and Community Engagement (SLiCE)

With a variety of leadership and community engagement programs, the Student Leadership, Involvement, and Community Engagement (http://lsc.colostate.edu/slice/) (SLiCE) office at CSU provides an important link between students and their surrounding communities.

SLiCE brings together student organizations, student leaders and student volunteers under one umbrella, making the campus a better community and a more involved place. Being involved in SLiCE programs allows students to enrich their academic and social experience at CSU. The office also assists recognized student organizations in obtaining official university recognition, program planning, public relations, financial/budgetary matters, and leadership development for organizational officers, members, and advisors. More than 450 campus organizations reflect interests such as academic, political, religious, sport clubs, programming/service, governance, social, Greek, and special interests.

Student Clubs and Organizations

When students look back at their college experience, they often think beyond the books, papers, and exams. They remember what they did, who they met, and how they felt. With over 450 student clubs and organizations, getting involved can be fun, easy, and a transformational way to make the most of your Ram experience. Whether it’s competing in a sport club, joining a fraternity or sorority, focusing on cultural awareness, volunteering through service teams, or taking up a new hobby – there is something for every Ram to enjoy! Check out CSU’s registered student organizations via RamLink (http://www.ramlink.colostate.edu). If you do not find the perfect fit, the office of Student Leadership, Involvement and Community Engagement (http://lsc.colostate.edu/slice/) will help you start your own student organization. So get involved, stay connected, and make the most of your time.

Student Media

Office in Lory Student Center, Room 118
(970) 491-1683

Rocky Mountain Student Media Corp. (https://collegian.com/corporate/) is a non-profit organization housed within the Lory Student Center on CSU Campus. RMSMC is the student media of CSU, encompassing our newspaper, magazine, radio, TV station, video, advertising, marketing, and creative services, among other units. RMSMC employs over 300 students a year across all of our media properties. Every medium is student-run, meaning the students determine each medium’s content. RMSMC’s student newspaper is published in print and online at Collegian.com (https://collegian.com/), where users can also find campus TV broadcasts (https://www.youtube.com/channel/UCzd9XlkqB9_3tSZd0pe96yw/). The genre-inclusive radio station
broadcasts music, news, and sports coverage 24/7 at 90.5 FM in the Northern Colorado Front Range area, and at kcsufm.com (http://kcsufm.com/).

RMSMC was created in 2008 by the Board of Governors of the Colorado State University System. RMSMC operates with an independent Board of Directors consisting of eleven CSU students, two community members, and a representative from both the Vice President for Student Affairs and the Chair of the Department of Journalism and Media Communication.

Mission Statement

The RMSMC is dedicated to community service and enhancing the educational mission of Colorado State University by empowering, training, and equipping students to excel in journalistic and other media methods, ethics, critical thinking, and management.

The primary goals of the RMSMC are to:

- Commit to uphold truth, fairness, integrity, independence, accountability, accuracy, professionalism, and minimizing harm as stated in the RMSMC's codes of ethics;
- Create and maintain a welcoming environment and diversity in staffing, media content, and access through responsiveness and outreach;
- Empower students through training and practical experience to become thoughtful, ethical, and skilled media producers;
- Operate in a socially and financially responsible manner;
- Protect student control over media content, free from prior restraint or censorship;
- Recognize both the unique characteristics of each medium and the value of working together to maximize benefits for listeners, viewers, and readers;
- Remain abreast of media technology, equipment, and training to provide students with the necessary tools to succeed; and,
- Serve the community by delivering relevant and timely news, information, and entertainment, and maintaining the public trust by ensuring the public's business is conducted in an open and transparent manner.
ACADEMIC SERVICES AND STUDENT SUPPORT

The Access Center
Office in Student Services Building, Room 304
(970) 491-6473

The Access Center (http://accesscenter.colostate.edu/) programs provide outreach services and support to first-generation, low-income students in their pursuit of postsecondary education. Students receive academic advising; tutoring and support; academic, career planning and exploration; college and financial aid counseling; financial literacy; weekend study skills workshops; engagement in summer programs and institutes; and opportunities to visit colleges and universities. Students are engaged in educational, cultural, and social experiences that will help prepare them to enter and succeed in college. The Access Center provides services to students in grades 6th–12th, and to adults that have an interest in preparing for college, completing high school equivalency programs, transferring between universities, or continuing their postsecondary education programs. The programs provide information on vocational, two and four-year colleges/universities and seek to make systematic changes in select communities by increasing the number of individuals with postsecondary degrees. The Access Center programs accomplish this by demystifying the importance, access, and attainability of higher education.

Adult Learner and Veterans Services
Office in Lory Student Center, Room 288
(970) 491-3977; FAX: (970) 491-3906

Adult Learner and Veteran Services (http://alvs.colostate.edu) (ALVS) supports the transition, education, leadership, and engagement of Adult Learners and Student Veterans to strengthen their academic achievement and holistic development. Adult Learners are students who do not fit the characteristics of a traditional college student, including but not limited to students with dependents and veterans. ALVS facilitates the success of students through individual meetings, resource referrals, and engagement programs. The ALVS office includes a student lounge that promotes networking, community building, and access to resources.

Asian Pacific American Cultural Center
Office in Lory Student Center, Room 333
(970) 491-6154

The Asian Pacific American Cultural Center (http://apacc.colostate.edu/) (APACC) provides programs and services to support the retention, graduation and success of students. APACC runs educational and volunteer programs to help spread awareness of Asian American culture and build community among Asian Americans, Pacific Islanders, and their allies. The Center welcomes all students and seeks to create a safe place for students of all backgrounds. The Center contributes to an inclusive campus environment by providing resources for Asian Pacific American awareness, education, and identity development.

Assistive Technology Resource Center
Office in Occupational Therapy Building, Room 302

The Academic Advancement Center (http://www.aac.colostate.edu/home/) provides academic support for eligible participants including: Academic coaching, tutoring, facilitated group study, study and life skills strategies instruction, peer mentoring, career planning, study abroad information, and student involvement and leadership opportunities. Program eligibility criteria include: Neither parent has a bachelor’s degree, and/or meets low-income criteria, and/or student has a disability, and is a U.S. citizen or legal resident. Applications are available at the AAC, L.L. Gibbons Building, Room 117 or online.

Program eligibility criteria include: Neither parent has a bachelor’s degree, and/or meets low-income criteria, and/or student has a disability, and is a U.S. citizen or legal resident. Applications are available at the AAC, L.L. Gibbons Building, Room 117 or online.
The Black/African American Cultural Center promotes a diverse, inclusive campus environment and serves as a resource to the campus community as well as surrounding communities, through academic, professional, cultural, and personal development programs that embrace Black and African American experiences. The primary goal is to enhance the overall college experience so that students achieve academically and are able to compete in a global society.

The office has as one of its foremost goals to enhance students’ knowledge of the culture, history, heritage, and traditions that are unique to the African American experience.

We are committed to improving the cultural and social awareness of the University, alumni, and surrounding communities by promoting programs that offer cross-cultural perspectives and by creating mutual opportunities for exchange through cooperative planning and support for all University services. Drop by our offices in the Lory Student Center to learn more about our work towards Student Development & Support, Diversity & Social Justice Education, and Cultural Education & Celebration.

Graduate Center for Inclusive Mentoring (GCIM)

Office in Student Services, Room 108
(970) 491-6817

Graduate Center for Inclusive Mentoring (GCIM) (http://graduateschool.colostate.edu/diversity/) is a formalized program that highlights resources on campus, offers professional development activities and provides access to faculty mentors, while also supporting additional socialization activities to encourage professional networks.

El Centro

Office in Lory Student Center, Room 225
(970) 491-5722

El Centro (http://elcentro.colostate.edu) provides an energetic, welcoming, and inclusive environment. We have resources to support personal, professional, social, cultural, and academic needs of all students who want to become involved with El Centro. We offer a place for discovering and appreciating diverse heritages, traditions, and cultures. Student can visit El Centro to relax, socialize, laugh, engage in dialogue, and build life-long memories. El Centro is a family, a “home away from home,” a place that provides a sense of belonging.

First Generation College Students

First generation college students are defined as students whose parents have not earned a bachelor’s degree. CSU is proud of the success of our first generation college students. Learn about the history of first generation college students at CSU (http://www.colostate.edu/features/first-generation.aspx). The Collaborative for Student Achievement (http://osp.casa.colostate.edu/first-generation-award-program.aspx) coordinates the first generation award. The Academic Advancement Center (http://www.aac.colostate.edu) (AAC) provides tutoring and support resources for first generation college students.

Native American Cultural Center

Office in Lory Student Center, Room 327
(970) 491-1332

The office of Native American Cultural Center (http://nacc.colostate.edu) (NACC) was established in 1979. The four primary advocacy and service areas include recruitment, retention, graduation, and community outreach. The office embraces and encourages a supportive environment based on the traditions and cultures of Native American peoples. We embrace diversity and commit to improving the campus climate of inclusion. All students are welcome in our office.

Office of Equal Opportunity

Office in Student Services, Room 101
The Office of Equal Opportunity (http://oeo.colostate.edu) (OEO) is charged with implementing, monitoring and evaluating programs, activities and procedures that support the CSU’s commitment to excellence.

The following are key programs and activities of OEO:

- Monitor and support CSU compliance with federal and state laws and CSU policies prohibiting discrimination and harassment.
- Develop and implement CSU’s affirmative action program.
- Oversee CSU’s search and selection process for all Academic Faculty and Administrative Professionals.
- Conduct investigations and resolve complaints of discrimination and harassment in accordance with CSU procedures.
- Serve as a resource and provide assistance to units, departments, and CSU constituencies regarding matters related to equal opportunity, affirmative action, access, and nondiscrimination.
- Provide education and training to faculty, staff, and students on matters related to equal opportunity, discrimination, and harassment.
- Coordinate CSU compliance with the Americans with Disabilities Act, Section 504 of the Rehabilitation Act of 1973, and Title IX of the Education Amendments of 1972.
- Collaborate with the Vice President for Diversity to cultivate awareness, appreciation, and engagement with diversity and inclusion and their relevance in a CSU environment.

Office of the Vice President for Diversity

Office in 645 South Shields Street
diversity@colostate.edu | (970) 491-3030

The Office of the Vice President for Diversity fosters an inclusive environment that promotes and nurtures diversity, broadly defined, at Colorado State University. Our goal is to further develop an environment where all members of the university community are welcomed, valued, and affirmed. The office achieves this by focusing on recruitment and retention of faculty, staff, and students from historically marginalized and excluded populations, building university cultural competency, improving the climate of inclusion through assessment and support of diversity strategic plans, enhancing effectiveness of curriculum, educational programs, and research with regards to diversity and inclusion, and increasing outreach and engagement with external communities.

Our efforts focus on addressing diversity and inclusion policies and practices that are essential to stay competitive and competent in the global market place and are necessary in the recruitment and retention of a diverse workforce. We recognize that all members of the university community (administrators, faculty, staff, students, and alumni) must assume responsibility for the climate of CSU. A unit or person can drive the process, but every individual at CSU assumes responsibility for positive change.

Pride Resource Center

Office in Lory Student Center, Room 232
(970) 491-4342

The Pride Resource Center (http://glbtrc.colostate.edu) supports and affirms the diverse identities and lives of lesbian, gay, bisexual, transgender, queer, questioning (LGBTQ), Two-Spirit, and same-gender loving people as individuals and as groups, especially as students, staff, and faculty of CSU and their families, friends, and allies, through the cultivation of safe space, educational outreach, advocacy, increased visibility of LGBTQ issues, information and referral resources, and academic and leadership opportunities.

Student Disability Center

TILT Building, Room 121
Office in Lory Student Center, Room 223
(970) 491-6385

Student Disability Center provides support to students who have physical or learning disabilities as well as chronic physical or mental illnesses/conditions that may impact their ability and/or access to effectively participate as a student. Support includes advocacy as well as accommodation services to minimize the effects of a disability or condition.

Accommodation services include:

- Alternative testing conditions
- Alternative text conversion
- Note taking support
- Accessible transportation
- Sign language/oral interpreting.

Women and Gender Advocacy Center

Office in Student Services Building, Room 112, and
Office in Lory Student Center, Room 234
(970) 491-6384

The Women and Gender Advocacy Center (http://wgac.colostate.edu) provides programs and resources focusing on all genders, social justice, and interpersonal violence prevention. Staff and volunteers also provide confidential advocacy and support for victims of sexual violence, stalking, sexual harassment, and relationship violence. Programs concentrate on examining the intersections of oppression and creating conditions that allow all people to equally access opportunities in a safe campus environment.

Campus Activities

Office in Lory Student Center, Room 130
(970) 491-6626

Campus Activities (http://lsc.colostate.edu/campus-activities/), one of many LSC offices, offers students a multitude of opportunities to become involved and active on the CSU campus through our four entities: RamEvents (Programming Board), LSC Arts, Flea Market, and Campus Information & Box Office. Learn about the many exciting co-curricular possibilities and services available to you through Campus Activities.

Have a question? We can help! Find one of the Campus Information desks in the LSC – there is no question we can’t answer.

Love art? We have 3 art galleries and many art pieces hanging throughout the building for you to browse through.

Enjoy events? RamEvents has you covered with events like TEDxCSU, RamFest, keynote lectures, comedy, and more!

Our Vision: Have a transformational impact on the lives of every student.

Our Mission: Create incredible experiences that reach all students through programming and services.

Our Values:

• Community: We believe in the intentional creation of an interdependent and inclusive environment based on shared experiences, awareness of differences, individual development and a commitment to the CSU spirit.

• Diversity: We acknowledge that social justice is both a process and a goal; we continually challenge oppression and seek to embrace difference.

• Education: We enrich the educational mission of CSU by creating and sustaining opportunities for active and ongoing learning.

• Collaboration: We leverage our strengths and resources by partnering to create exceptional results. We are accountable and responsive.

• Innovation: We actively seek creative ways to serve our community while honoring traditions and pursuing best practices.

Career Center

Office in Lory Student Center, Room 120
(970) 491-5707

The Career Center (http://career.colostate.edu) provides career exploration, planning, and job/internship search services for both graduate and undergraduate students in all majors and colleges.

Services include:

• Career counseling and career workshops
• Resume and job/internship correspondence writing skills
• On-campus recruiting program that includes two annual all-campus career fairs and several specialized fairs
• Career interviewing opportunities with over 100 employers via Handshake

• Available career and internship positions with area, regional, and national employers—information through Handshake

Child Care Options

See Adult Learner and Veterans Services (http://www.alvs.colostate.edu/).

CSU Health Network

CSU Health Network is every student’s home for health and well-being. All CSU students have full access to the wide range of medical, counseling, and health education and prevention services provided by CSU Health Network, regardless of their insurance plan.

All services are located under one roof in the state-of-the-art CSU Health and Medical Center, conveniently located on-campus at 151 West Lake St. (corner of College Ave. and Prospect Rd.)

Contact CSU Health Network:
(970) 491-7121
health.colostate.edu (http://health.colostate.edu)

Medical Services

The CSU Health Network Medical Services (http://health.colostate.edu/services/primary-care/) offers care and consultation for students’ medical concerns. In addition to scheduling appointments by telephone, students may schedule through the online health portal for some of the most common symptoms, conditions, and needs.

CSU Health Network is an in-network medical provider with most insurance carriers, which means they can file claims with your private health insurance plan for medical services received.

General Medical Services

• Primary Care
• Behavioral Health
• Immunizations
• Laboratory
• Pharmacy
• Radiology

Specialty Services

• Allergy and Asthma
• Dental
• Men’s Care
• Massage Therapy
• Nutrition Consultation for Disordered Eating
• Optometry
• Physical Therapy
• Psychiatry
• Sports Medicine/Orthopedics
• Transgender Care
• Travel Medicine
• Women’s Care
Counseling Services

Whether students are experiencing a situational problem, an immediate crisis, or have a longstanding mental health concern, CSU Health Network Counseling Services (https://health.colostate.edu/about-counseling-services/) are available to help. The professional staff includes licensed psychologists, licensed clinical social workers, and licensed professional counselors, as well as graduate student staff from each of these disciplines.

By paying student fees, all CSU students can access a wide range of mental health support services. If you are in need of support, call (970) 491-6053 or visit Counseling Services on the 3rd floor of the CSU Health and Medical Center, and we will work together with you to find out which services are best for you.

All counseling is confidential. No information is released to anyone without a student’s written consent except in the case of a life-threatening emergency or when it is otherwise required by law.

Services Offered:
- Individual and Couples
- Groups and Workshops
- Drugs, Alcohol and You (DAY) Programs
- Crisis Intervention
- Post-Hospitalization Support (iTEAM)
- Consultations with Colleagues/Parents/Friends

Health Education and Prevention Services (HEPS)

Health Education and Prevention Services (https://health.colostate.edu/about-health-education-prevention-services/) supports the health and well-being of students through the identification of campus health priorities and delivery of relevant programs, services and multidisciplinary initiatives that enable students to accomplish their academic goals and enhance personal development. Using evidence-based best practices, in collaboration with campus and community constituents, a holistic approach to health education and prevention is used for a diverse campus population. These practices involve opportunities to foster awareness and skills, as well as address the environmental context in which health behavior decisions are made.

Focus areas include:
- Substance Abuse Prevention
- Mental Health Initiatives
- Peer Education (CREWS)
- Well-Being Initiatives
- Sexual Health Initiatives
- Tobacco Cessation
- Spiritual Care

Student Insurance Services

Colorado State University requires all domestic students taking six or more resident instruction credits, and international students enrolled at any level, to carry health insurance as a way of protecting your educational investment. You must meet the health insurance requirement your first semester at CSU and every fall semester thereafter.

CSU Health Network is an in-network provider with most major insurance carriers and can file claims with them. Students’ out-of-pocket costs are dependent on their health insurance plan benefits. Learn more about Private Health Insurance Billing here (https://health.colostate.edu/private-insurance-billing/).

The CSU Student Health Insurance Plan (http://health.colostate.edu/student-health-insurance/) provides benefits both within the CSU Health Network and off-campus. The RamCare Supplement Program (http://health.colostate.edu/student-health-insurance/ramcare-supplement-program/) is designed for students who have another health insurance plan. It covers certain services at the CSU Health Network that would otherwise be billed at the time of services.

Services Offered:
- Student Health Insurance
- RamCare Supplemental Program
- Private Health Insurance Billing

Housing & Dining Services

Offices in the Palmer Center, 1005 W. Laurel
(970) 491-6511

Housing & Dining Services (http://housing.colostate.edu) provides all services and resources related to Residence Halls, Residential Dining Services, University Apartments, Conference & Event Services, and the CSU Mountain Campus.

Residence Halls

Office in the Palmer Center
(970) 491-6511

University Housing provides educational opportunities, services, programs, and facilities that are designed to enhance each student’s total campus experience. Students who live in the residence halls (http://www.housing.colostate.edu/residence-halls/) have a choice of several different room and floor types. Students in the halls also have the option to join one of more than 20 Residential Learning Communities (RLCs) that are centered on students’ academic and personal interests. Students who live on campus have access to resources such as professional staff and 24/7 security. Residence hall living allows students to actively participate in a variety of academic and social activities. These activities provide experiences in leadership development and co-curricular education that supplement classroom instruction and greatly enhance the quality of on-campus University life.

Housing Assignments

A Housing Guide is mailed to all newly admitted students as part of the admissions packet. Inquiries from continuing students should be directed to University Housing at (970) 491-6511 or housing@colostate.edu.

Residential Learning Communities

Residential Learning Communities (RLCs) - academic and themed floors in the residence halls - provide students with an opportunity to quickly develop a sense of community at CSU. Developed around academic majors and personal interests, these communities assist students in
succeeding both academically and socially. Through a wide variety of programs, tutoring, and involvement opportunities, students in an RLC have the chance to get the most from their college experience. For more information on these communities, see Housing Options (http://housing.colostate.edu/housing-options/).

First Year Residence Hall Requirement - First-Year Students

Experience and research have demonstrated that students who live on campus adjust to college life more successfully, have higher GPAs, and are more likely to graduate than students who live off campus. For this reason, all newly admitted first-year students and transfer students with fewer than 15 post-high school credits, who are single, under 21 years of age, and not living with their parents in the Fort Collins area, are required to live their first two consecutive semesters in a residence hall. Credits taken concurrent with high school and/or credits attained through Advanced Placement (AP) or International Baccalaureate (IB) do not apply toward previous college experience.

All residents are required to sign a contractual agreement (https://police.colostate.edu/bicycle-services-safety/), which includes meals, and is binding for the entire academic year. Inquiries regarding this requirement, including guidelines for requesting an exemption, should be directed to University Housing at (970) 491-6511.

Residential Dining Services

Office in the Palmer Center
(970) 491-4754

Residential Dining Services (http://housing.colostate.edu/dining/) operates five dining centers, two Express locations, and RAMwIch - an online sandwich ordering system. "Late Night" dining options are available at two of our full-service locations until 11 p.m., as well as both express locations until 1 a.m. Each dining center features a unique combination of food concepts, offering choices such as pizza, pasta, stir-fry, vegan/vegetarian options, Tex-Mex, an array of international options, and made-to-order entrees. Extensive salad bars feature fresh fruits and vegetables, and a variety of toppings and dressings. The Bakery At CSU provides a wide range of made-from-scratch artisan breads, desserts, gluten-free, and specialty items. Students have a choice of meal plans that allow access to any of our dining centers. Menus include vegetarian, vegan, gluten-free friendly, allergen friendly, and a host of healthy and nutritional options at each meal. Residential Dining Services has a registered dietitian nutritionist on staff, who can assist students with special dietary needs.

University Apartment Housing

Office in the Palmer Center
(970) 491-6511

The University Apartments (http://housing.colostate.edu/apartments/) offer more than 1,100 apartments in four communities. University Housing has options for couples and family housing, graduate student housing, upper division undergraduate and transfer student housing, as well as post-doctoral and visiting scholar housing. Academic year leases are available. Individual leases in shared apartments are also offered. All apartment communities are available to domestic and international students in multicultural communities founded on the CSU Principles of Community (https://diversity.colostate.edu/principles-of-community/). The Housing & Dining Services website offers rental rates, 3D floor plans, and a video of each apartment village.

A Housing Guide is mailed to all newly admitted students as part of the CSU admissions packet. Inquiries from continuing students should be directed to University Housing at (970) 491-6511.

International Student and Scholar Services (ISSS)

Office in Laurel Hall
(970) 491-5917

International Student and Scholar Services (http://isss.colostate.edu/), within the Office of International Programs, assists international students and scholars with cultural adjustment, academic integration, professional growth and personal support, and oversees orientation and arrival, regulatory compliance, immigration services, and sponsor services and programming.

Off-Campus Life

Office in Lory Student Center, Room 274
(970) 491-2248/491-6196

Off-Campus Life (http://offcampuslife.colostate.edu) provides services and programs to meet the diverse needs of off-campus and commuter students and to assist students in successfully transitioning, integrating, and engaging in the local community.

Services include:
- Information on housing options in the community, including online rental listing service
- Help in finding roommates
- Transportation information
- Tenant rights and responsibilities, including ordinance information
- Connection with community members through volunteer opportunities
- Tools and resources for students to have a successful off-campus living experience.

Orientation and Transition Programs

Office in east side of stadium (part of Collaborative for Student Achievement)
1415 Meridian Ave
(970) 491- 6011

Orientation and Transition Programs (http://otp.colostate.edu/) provides programming and services designed to assist first-year, second-year, and transfer students with a successful transition at CSU. OTP offers a continuum of services beginning with Ram Orientation to Ram Welcome (prior to classes beginning) to transition programming throughout the first two years of students’ experiences at CSU. OTP believes in assisting students in creating a sense of belonging at CSU and understanding what it means to be a CSU Ram.

CSU Police Department

Office in Green Hall
The CSU Police Department (http://police.colostate.edu/) (CSUPD) operates 24 hours a day, every day of the year. “911” access is TDD compatible and a TDD service line is available at (970) 491-2323.

The CSU Police Department is a full-service, accredited law enforcement agency whose officers are armed and have full law enforcement authority on all property owned or controlled by CSU. Officers are committed to a philosophy of community based policing and work in partnership with others to augment campus safety. CSU officers also possess peace officer commissions from the State of Colorado, the City of Fort Collins, and are commissioned deputy sheriffs in Larimer County.

CSU police enforce criminal and traffic laws, investigate all crimes that occur on campus, make arrests, and maintain full integration with the criminal justice system, including close working relationships with the District Attorney’s Office, Fort Collins Police, Larimer County Sheriff’s Department, and other state and federal law enforcement agencies and investigation bureaus. The programs and services of the department are designed to meet the demands and needs of a growing and thriving CSU community.

The Jeanne Clery Disclosure of Campus Security and Campus Crime Statistics Act is the landmark federal law that requires colleges and universities to disclose information on security policies and timely, annual information about crime on and around campus. The CSU Safety Report (https://safetyreport.colostate.edu/) is published annually.

The Bicycle Education and Enforcement Program (https://police.colostate.edu/bicycle-services-safety/) (BEEP) is a unit of the police department designed to address bicycling issues on campus. Bicyclists are expected to comply with CSU bicycle regulations, obey all traffic laws, and register their bicycles with the CSUPD.

The Safe Walk Program (http://police.colostate.edu/safe-walk/) is a service designed to assist those who walk during the hours of darkness. Trained Campus Service Officers are available to walk people to and from their destination within a defined service area. Call (970) 491-1155 or use any police service call box on campus.

**Campus Safety and the Clery Act**

The Jeanne Clery Disclosure of Campus Security and Campus Crime Statistics Act ("Clery Act") is the landmark federal law that requires colleges and universities to disclose information on security policies and timely, annual information about crime on and around campus. Additional information about the Clery Act, and campus safety is available in University Policies, and online (http://police.colostate.edu/).

**Concerned about someone? Tell Someone**

If you are concerned about the health, well being, or safety of a CSU student or employee, you are encouraged to Tell Someone (http://supportandsafety.colostate.edu/tell-someone/). Examples of when to Tell Someone include but are not limited to:

- Threats, gestures, writings, or attempts related to suicide or violence
- Harmful to themselves or others
- Self-injurious behavior (e.g. cutting self)
- Alcohol or other substance abuse problems
- Pattern of bizarre behaviors or actions
- Hospitalization for mental health issues or drug or alcohol use
- Sudden, rapid weight loss or gain
- Poor health due to restrictive eating or possible eating disorder
- Disruption to the living, learning, or working environment.

Tell Someone by calling (970) 491-1350 or filling out the online form (https://supportandsafety.colostate.edu/tell-someone/).

The Tell Someone system is designed to help the individual you are concerned about, not to punish them. All reports are treated with discretion and with a reasonable expectation of confidentiality. You may access additional information regarding CSU's policy on Student Sexual Harassment and Sexual Violence (https://titleix.colostate.edu/).

**Parking and Transportation Services**

Office in Lake Street Garage, 1508 Center Avenue
(970) 491-7041

Parking at CSU is available for faculty, staff, students, and visitors and does require a parking permit. Parking and Transportation Services (http://parking.colostate.edu/) can assist with more information regarding purchasing an annual permit, information on visitor or short term permits, or pay by plate locations. In addition to commuting via automobile, many members of the campus community choose alternative transportation options. Visit the Parking and Transportation Services website for information on biking or walking to CSU, carpooling, and using the Transfort system.

**Alternative Transportation**

Brought to campus by ASCSU, Parking and Transportation Services, and Transfort (https://pts.colostate.edu/transportation-options/transit-general/), leave cars at home and use MAX, other Transfort (https://pts.colostate.edu/transportation-options/transit-general/) routes and Around the Horn (https://pts.colostate.edu/transportation-options/transit-general/horn/) to get around campus. Thirteen stops are serviced every 10 minutes Monday through Saturday. In addition to mass transit, CSU encourages alternative transportation (http://pts.colostate.edu/) (biking, walking, and carpooling).

**Student Legal Services**

Office in Lory Student Center, Room 284
(970) 491-1482

Student Legal Services (http://sls.colostate.edu) provides free legal advice to fee-paying students on a variety of legal matters. Common cases involve housing issues (e.g., review of leases), criminal law, consumer complaints, and debt problems, but all questions are welcome. Some services such as preparation of wills and powers of attorney carry an additional nominal charge. The staff also educates clients about their legal rights and responsibilities and, where helpful, guides students in the use of negotiation, mediation, and small claims court to resolve their disputes. Students who don’t pay the student fee package may, in appropriate cases, pay SLS’s semester fee (less than $10) and receive services. Educational presentations by the SLS attorneys are always available.

**Student Resolution Center**

Office in Aggie Village Walnut, 501 W. Lake, Suite A
The Student Resolution Center (SRC) (https://resolutioncenter.colostate.edu/) supports the developmental, behavioral, and educational needs of students. Through a myriad of approaches SRC strives to maximize individual student success while upholding community standards and helping students navigate challenging times. The SRC aims to assist, educate and support CSU students through two processes:

• **Conflict Resolution Services** – voluntary, neutral, confidential process to assist students when conflicts, disputes or issues arise.
• **Student Conduct Services** – one-on-one meetings to discuss alleged violations of the Student Conduct Code, hear perspectives, explore personal responsibility, hold students accountable and provide educational and restorative outcomes when appropriate.

SRC offers the following:

• Conflict coaching/consultation
• Assistance with grade appeals, roommate disagreements, student/faculty conflicts, academic matters/appeals
• Mediation/facilitation between individuals or organizations
• Restorative justice
• Student conduct hearings
• Pre-admission hearings
• Training/outreach related to conflict prevention and management, academic integrity, and civility
• Outcomes/education, including referrals to the Drugs, Alcohol and You (DAY) Programs, educational workshops, and skill-building workshops.

**Academic Services and Programs**

Collaborative for Student Achievement
Learning Communities
Office of International Programs
The Institute for Learning and Teaching (TILT)

**Collaborative for Student Achievement**

Located in the Canvas Stadium
1415 Meridian Avenue
(970) 491-7095

The Collaborative for Student Achievement (http://www.casa.colostate.edu/) is a dynamic organization that empowers students to create and achieve their personal and educational goals. Student Achievement services include Orientation and Transition Programs, Key Communities, Undeclared Advising, Health Professions Advising, Community for Excellence Scholar Programs, and Outreach and Support Programs.

**Learning Communities at CSU**

Colorado State University offers students a variety of residential and non-residential Learning Communities and Residential Theme Programs (http://www.lc.colostate.edu/) that bring cohorts of students together in shared learning experiences. Learning Communities integrate curricular (co-enrollment in classes) and co-curricular learning in order to provide a supportive, academically-focused environment that cultivates a sense of community and empowers students to become engaged citizens on campus and in the community.

In partnership with University Housing (https://housing.colostate.edu/halls/communities/), Residential Learning Communities and Theme Communities are in many of the residence halls, offering a unique residential experience consisting of special interest areas that help build positive communities with students who share similar academic or personal interests and/or lifestyles. These communities connect students with faculty and staff who engage students in their learning and provide information about opportunities available at CSU.

**Residential Learning Communities include:**

**Arts and Creative Expression Residential Learning Community:** (ACE) The ACE (http://www.ace.colostate.edu/) program in Parmelee Hall provides students in the visual and performing arts a collaborative environment in which to grow creatively. Students will learn to become strong advocates of the arts and will have opportunities to participate in service learning programs and outings such as gallery walks, museum visits, and live performances both on and off campus. The ACE Program is open to first year students majoring in Art, Music, Dance, and Theatre. Pre-music majors do not qualify.

**College of Natural Sciences Learning Community:** (CNSLC) Our mission is to create a space where transformation is possible by showing how our differences are powerful, and amplified when connected in community. We believe that science is shaped by the people who do it, highlighting the importance of having diverse perspectives in science and at CSU. Students in the CNSLC all live together in Laurel Village, CSU’s newest residence hall, which was specifically designed for science students. The hall offers classrooms, faculty and advising offices, whiteboard walls, and ample study and hang-out spaces. Students in the CNSLC can participate in different events, excursions, and study groups all aiming at connecting science to their lives and the world.

In addition to participating in the CNSLC, there are four programs that offer additional experiences for select students:

• Science Outreach Scholars: Students who are interested in how they can use science to change the world will all live together on one floor. They will take a one-credit seminar class where they’ll explore the importance of diverse perspectives in STEM, and uncover more about who they are and how they can contribute to science. Students will work with culturally-diverse K-12 students in the local area, and get to show younger kids that it is possible to enjoy science. This program will provide opportunities to live with other students from diverse backgrounds and connect with faculty and staff at CSU including: CSU diversity programs and offices, the Education and Outreach Center, the Little Shop of Physics, the Boys & Girls Club of America, and other campus partners. Students in this program also participate in academic study groups with their peers.

• Diversity Through Technology: Students who are interested in learning about how computing and technology can be used to change the world will live in Piñon Hall. Increasingly, all disciplines require students who can invent, innovate, and lead in a data driven world. For example, biology students can learn about bioinformatics and psychology majors can learn about human-centered design. They will all take a seminar course exploring the crucial role that diverse perspectives play in computing and will also take a Computer Science course. Outside of the classroom, they will get to live on the same floor with other students from diverse backgrounds (and many different majors). Additionally, students in this...
program have opportunities to develop a research question and work closely with faculty mentors.

- Undergraduate Women in Natural Science: Students who identify as women in the College of Natural Sciences will all live on one floor together. If interested, they can have the opportunity to participate in student-led community events with the UWINS floor such as dinners with professors and female leaders in the sciences. Members of this cluster also have the opportunity to connect with College of Natural Sciences faculty through weekly knitting with professors who participate in the Women in Natural Sciences organization at CSU.

- Sustainability Cluster: Students who are interested in sustainability will live together on one floor in Piñon Hall, a LEED-certified building, with opportunities to collaborate with Laurel Village’s EcoLeader and University Housing. Students will have the opportunity to take a 1-credit seminar “Sustainable Energy in Natural Sciences”, collaborating with the Chemistry and Physics department to explore real-world (and hands-on) applications to sustainable energy. Students have the opportunity to lead a sustainability committee that spearheads new initiatives each year. Some of the student-driven projects have included designing and managing the CNSLC community garden beds and composting in the halls. Members of this cluster will have the opportunity to get involved in research and to propose and conduct other sustainability-related projects.

Engineering Residential Learning Community: The Engineering Learning Community in Academic Village, Aspen Hall and Edwards Hall offers Engineering students an academically supportive and fun environment. Residents can take advantage of design studios, collaborative work rooms, an electronic classroom, as well as in-house tutoring and academic advising. In addition, students who choose to live in the Engineering Learning Community also have the opportunity to engage with a live-in faculty-in-residence, live-in graduate students, and Walter Scott, Jr. College of Engineering Peer Mentors on a daily basis to help them with their transition to CSU and their major. Currently, this community is limited to Engineering majors and a small population of Undeclared Engineering Interest majors only.

Global Village: Global Village (GV) is an inclusive, intercultural learning community that brings together international and domestic students in order to support a successful transition into university life academically, socially, and culturally, and to foster exploration and appreciation of each other's cultures. It is a community that will give students the unique opportunity to live with and get to know students from around the world. It is a place where who students are is important—wherever they may be from—and where we value learning about each other, our cultures, and our stories. Students will be supported in their first year by their GV Peer Mentor and will have the chance to participate in numerous activities designed to develop academic success, create cultural connection and understanding, and build leadership skills in a diverse world. Global Village students enroll in 6 credits of courses shared with other Global Village students including MU 132: Exploring World Music and KEY 192C: Understanding Our Global Village, both focused on studying culture in the US and around the world. Global Village is the place to form long-lasting friendships, discover new cultures, and understand what it means to be part of a global community, now and in the future. This community is open to first year and transfer students.

Health and Exercise Science Residential Learning Community: (HES) In the Health & Exercise Science (HES) Residential Learning Community, students live with other students who are taking the same courses, have similar career goals, and who are often vested in living active and healthy lifestyles. Living in the HES community will allow for residents to connect with each other not only academically but socially as well through engaging University Housing programming. The HES community is conveniently located in Corbett Hall, across the street from Moby B Complex where students have access to a computer lab, where major courses are offered, and where the Department of Health & Exercise Science is located. In the fall, students in the community will take HES 145 – Health & Wellness together as a cluster. In the spring students will take HES 207 – Analytical Kinesiology as a cluster. The HES Community is open to first-year students who are declared as Health & Exercise Science majors at CSU.

Honors Residential Learning Community: (HRLC) The HRLC, housed in the Academic Village and Edwards Residence Hall, serves first year students admitted to the University Honors Program. First year students develop a sense of community by residing with other high achieving students who share similar academic interests and goals. Honors staff are located at the Academic Village and are available for advising and assistance.

Key Communities: The Key Communities are learning communities for first year, second year, and continuing students designed to honor the identities and strengths of each student to foster students transition to and through the University. The Key Communities are one of the most diverse communities on campus, with many of the students identifying as a student of color and/or first generation to college, who are committed to creating and nurturing inclusive environments that welcome, value and affirm the diverse identities of our students. Through Key, students have the opportunity to: achieve academic excellence, establish meaningful relationships, enhance leadership skills, connect with a diverse community, and engage in personal exploration. The Key Communities offer six first-year community options. These community options include Key Academic, Key Civic/Service, Key Culture Communication and Sport, Key Explore, and Key Health Professions. In addition to the five first-year Communities, Key offers two options for second year and continuing students. These community options include Key Plus Course Track and Key Plus Leaders Engaging in Academic, Diversity and Service.

Learning Through Dialogue (LTD): LTD is a Residential Learning Community that brings together students of diverse identities and backgrounds to engage in dialogue and learn across differences. LTD is open to undergraduate students in any major. Participating students live in Durward Hall and enroll together in a year-long course (2 credits in the fall, 2 credits in the spring). The course and other community activities support students as they learn more about their similarities and differences, systems of inequality, use dialogue to authentically engage important, personal, and complex topics. Together, students in LTD will build relationships, skills, awareness, and knowledge that prepare them to take action on campus and beyond and co-create more inclusive and equitable communities.

Natural Resources Residential Learning Communities: Natural Resources Residential Learning Communities Warner College offers two Residential Learning Communities (RLCs) to support student leadership development in natural resources, sustainability, and outdoors leadership. Students participate in professional development experiences to expand their knowledge and skills and take part in career exploration in their chosen fields of study. The program offers linked enrollment in special sections of NR 192: First Year Seminar in Environmental Studies and CO 150: College Composition. Warner RLC experiences also include a common reading, early move-in privileges in Summit Hall, and programming at the CSU Environmental Learning Center. In fall, students take part in a
Weekend Leadership Retreat, and in spring, they participate in the Banff Mountain Film Festival at CSU.

Residential Theme Communities include:

Living Substance Free: This themed community (http://lc.colostate.edu/), located in Corbett and Westfall Halls, is a community for students who are committed to a lifestyle free from alcohol, tobacco, or drugs. A wide variety of social events and programs are offered to first year and returning students. This program is co-sponsored by University Housing and the CSU Health Network.

Second-Year Experience Community: The Year 2@CSU: Residential Experience (http://www.otp.colostate.edu/sy-year2.aspx) is a co-sponsored community between Univerist Housing (http://www.housing.colostate.edu/residence-halls/) and Orientation and Transition Programs (http://www.otp.colostate.edu/) (OTP) housed in Laurel Village. Forty suite-style rooms have been designated for students to live in a community that is focused on the second year experience. Specifically, the community focuses on outreach and learning connected to the following areas: career and major exploration, global citizenship and service, academic engagement and outdoor adventure. Students living on the floor connect with each other through academic workshops, a fall outdoor mountain retreat, service projects, and a variety of other floor outings. This themed community will ask residents to sign a learning agreement and no class is required to participate in this community. Any current first year student is welcome to apply to live in this community.

Transfer Residential Community: The Transfer Residential Community (http://www.otp.colostate.edu/csu-transfer-networks.aspx) in Braiden, Allison, and Summit Halls is a partnership between Orientation and Transition Programs and University Housing. The Community consists of transfer students with an interest in learning more about the resources at CSU and making connections with other transfer students. The Transfer Residential Community is about supporting student success at CSU and encouraging active engagement while introducing students to the many opportunities available to them through CSU. In addition, the Transfer Residential Community provides resources and direct contact with Transfer Transition Leaders, connecting students to CSU and the community, while fostering meaningful friendships. Finally, by living and participating in the Transfer Residential Community, students get the help and guidance they need to thrive in their transition and excel in their academic and social experience at CSU. This community is open to new transfer students.

Learning Communities without a residential requirement include:

Campus Connections Learning Community: The Campus Connections Learning Community (https://www.chhs.colostate.edu/cc/csu-student-involvement/) (CCLC) provides ongoing co-curricular opportunities for CSU students to enrich their involvement with Campus Connections through leadership and service.

Catalyst Learning Community: The Catalyst Learning Community is a non-residential learning community for second year students who are passionate about learning and teaching. This experience provides the chance for students to be leaders within an academic setting, while exploring their own career paths. The three semester experience includes a Learning Assistant (https://ttl.colostate.edu/Catalyst/Earn/RADesc/) internship, an Undergraduate Research Assistant (https://

Office of International Programs

Offices in Laurel Hall
(970) 491-5917

The Office of International Programs (http://international.colostate.edu/) (OIP) fosters intercultural understanding through high-impact learning and community engagement in support of CSU’s land grant mission. OIP’s broad array of programs and services provide international experiences for CSU students, scholars, faculty and staff. Services include Education Abroad (https://educationabroad.colostate.edu/), International Student and Scholar Services (https://issss.colostate.edu/), Global Institutional Partnerships (https://international-initiatives.colostate.edu/international-partnerships/), International Development Studies (https://international-initiatives.colostate.edu/international-development-studies/), Curricular (https://international-initiatives.colostate.edu/internationalizing-the-curriculum/) and Co-curricular programs (https://international-initiatives.colostate.edu/distinguished-speakers/), China Programs, (https://china.colostate.edu/) the Confucius Institute (https://ciscu.colostate.edu/) and CSU’s Todos Santos Center (https://todossantos.colostate.edu/) in Mexico.

The Institute for Learning and Teaching (TILT)

Offices in the TILT Building
(970) 491-3132

The Institute for Learning and Teaching (http://tilt.colostate.edu) (TILT) supports students’ academic success and pursuit of long-term goals through several curricular and co-curricular learning programs. Tutoring, study groups, and Learning Assistants help students succeed in challenging courses. Serving as a TILT tutor, study group leader, or learning assistant allows students to take up academic leadership roles, learn course material very deeply, and gain experience relevant to prospective employers, graduate programs, and internships. Academic success workshops, such as time management, exam preparation, and learning strategies, help students improve study skills and learn about topics of interest. Through TILT, students can participate in service-learning opportunities or in undergraduate research and artistry projects with faculty mentoring. National research has shown that taking part in these opportunities improves learning, increases academic achievement, and promotes connections with faculty and other mentors who often help students achieve professional and personal goals.
INTO-CU

Colorado State University's partnership with INTO builds a support system for international students like you coming to study in the US. Our Academic English, International Year One and Graduate Pathway programs offer a safe transition to a US degree program by providing you with the tools and resources you need to succeed.

Through INTO CSU (https://www.intostudy.com/en/universities/colorado-state-university/about-the-university/more-about-into-csu/), international students can study Academic English or choose to attend one of the many International Year One or Graduate Pathway programs to strengthen academic credentials and English proficiency before applying to a CSU degree program. All programs are in a highly supportive learning environment, designed to accelerate students' success. Students, regardless of INTO CSU program of study, have all the benefits and experiences of campus life at CSU (https://admissions.colostate.edu/rankings/), including access to all of the academic, social, and cultural resources and activities that CSU has to offer.

English Language Programs

Academic English (AE) at INTO CSU helps international students improve their English proficiency when their English levels are lower than required for entry to Pathway programs by introducing them to generic academic skills in English. AE serves students who may or may not wish to pursue a degree at CSU (https://admissions.colostate.edu/media/sites/19/2019/12/international-recruitment-brochure.pdf) after successful AE program completion.

Academic English Program

The Academic English (https://www.intostudy.com/en/universities/colorado-state-university/programs/academic-english/) program at INTO CSU is accredited by the Commission on English Language Program Accreditation (CEA) and prepares international students for university study in the U.S. This academically rigorous program provides international students with high-quality English language instruction and the academic skills to succeed at CSU through development of:

- Listening
- Speaking
- Reading
- Writing
- Grammar
- Academic study skills

English Foundations

INTO CU offers an English Foundations program for students who require more support before entering the full Academic English program. Our professional instructors help improve a student’s English proficiency and prepare students to retake the English placement test to determine their Academic English level or entry to a Pathway in the following semester.

Pathway Programs

INTO CU offers Pathway programs (https://www.intostudy.com/en/universities/colorado-state-university/programs/) for undergraduate and graduate level international students designed to improve both their English and academic performance (GPA) to successfully complete their first year or semester in their targeted degree programs at CSU. Pathway students are integrated with direct-entry students from the start to enhance their adjustment to the new academic context.

International Year One

International Year One (https://www.intostudy.com/en/universities/colorado-state-university/programs/) allows undergraduate students to begin earning credits toward their CSU degree even if they don’t meet the academic and English requirements for direct entry. They receive additional support to move successfully through their first year and graduate in the same amount of time as domestic students. Depending on the student’s English language scores, students enter International Year One through a 1-Semester, 2-Semester or 3-Semester Pathway program.

Transfer Program

The Undergraduate Transfer Program (https://www.intostudy.com/en/universities/colorado-state-university/programs/undergraduate-transfer-program/) is specifically designed to support international students who have already completed college or university-level courses (at a 2-year U.S. college offering Technical certifications or Associates’ degrees or outside of the U.S.) who may need to improve both their English and academic performance (GPA) to gain admission as a CSU transfer student (https://admissions.colostate.edu/transfer/). They receive an estimate of transferable credits toward their desired degree program before they start the program.

Graduate Pathways

The Graduate Pathway (https://www.intostudy.com/en/universities/colorado-state-university/) program gives graduate students the academic foundation, essential language skills and GMAT/GRE test preparation to successfully move on to a CSU master’s degree. They receive the highest level of support throughout their program, including personalized academic advising.

Administrative Resources

Academic Computing and Network Services (ACNS)
Office of the Registrar
Academic Computing and Network Services (ACNS)

Office in University Services Center, Sixth Floor
(970) 491-5133

Academic Computing and Network Services (http://www.acns.colostate.edu/) (ACNS) provides networking services and central and distributed computing support to the academic and administrative units of CSU.

Account information, documentation, and assistance with personal computers and CSU's central computing systems are available from the Central IT Help Desk, located in Morgan Library (970) 491-7276. Computers, software, and technology supplies may be purchased at RAMtech, located in the Lory Student Center (970) 491-7625. A current CSU identification card is required for purchases.

Office of the Registrar

Office in Centennial Hall
(970) 491-4860

The Office of the Registrar supports students throughout their academic careers and beyond by providing innovative services to the CSU community. The Office of the Registrar serves as a central administrative office for students, families, faculty, staff, and alumni by providing the following services:

- Maintain and provide official academic transcripts
- Maintain student academic and biographical records (such as preferred first name, legal name, address, phone number, date of birth, etc.). Changes to biographical data can be student initiated via RAMweb (https://ramweb.colostate.edu) and become part of the student's CSU record.
- Collect and serve as resource for academic appeals
- Oversee and support all academic registration functions
- Report, certify, and maintain academic, degree, and enrollment verifications
- Support transfer students and manage the transfer credit process
- Certify military and veterans educational benefits
- Coordinate academic and classroom scheduling
- Act as a central academic information resource
- Comply with, and educate campus on, Federal and State legislation and institutional policy
- Publish final examination schedules
- Lead and participate in cross-divisional and institution-wide projects
- Manage on-line course grading and reporting
- Support curriculum approval process
- Publish annual General Catalog
- Maintain RAMweb (https://ramweb.colostate.edu), ARIES, and ARIESweb access and security
- Serve on and support numerous university committees as well as national level organizations.

Facilities

CSU spans five primary campuses on 4773 acres, plus numerous Agricultural Experiment Stations, Cooperative Extension offices, and Colorado State Forest Service sites across the state that cover an additional 4038 acres. Altogether, CSU has 701 buildings including 332 classrooms and 1206 laboratories totaling 12,409,794 gross square feet. In addition to acres owned, CSU manages an additional 9,978,478 acres throughout the state, most of which is the Colorado State Forest.

Bookstore
Coffee Shops
CSU Transit Center
Lory Student Center
CSU Mountain Campus
CSU Sports and Athletic Facilities
Student Recreation Center
Study Spaces
Bookstore

The CSU Bookstore (http://www.bookstore.colostate.edu/home.aspx) is located in the Lory Student Center. Proceeds from the CSU Bookstore go back to students and the CSU community. CSU insignia items, school supplies, and art supplies are available as well as textbooks for every class at CSU.

Coffee Shops

Coffee shops are great places to grab a refresher and dive into studying or group meetings. Here are the locations (https://myatlascms.com/map/?id=748&mrkIid=1268) of some coffee shops on CSU’s campus.

Sweet Sinsations (http://lsc.colostate.edu/dining-at-the-lory-student-center/food-brands/#sweetsinsations) - Lory Student Center
Intermissions (http://lsc.colostate.edu/dining-at-the-lory-student-center/food-brands/) - Lory Student Center
Sweet Temptations (http://lsc.colostate.edu/dining-at-the-lory-student-center/food-brands/) - Lory Student Center
Morgan’s Grind Café (http://lsc.colostate.edu/dining-at-the-lory-student-center/food-brands/) - Morgan Library
The Bean Counter (http://lsc.colostate.edu/dining-at-the-lory-student-center/food-brands/) - Rockwell Hall
Ram’s Horn Express (http://lsc.colostate.edu/dining-at-the-lory-student-center/food-brands/) - Academic Village

CSU Transit Center

The CSU Transit Center (http://lsc.colostate.edu/lory-student-center-transportation-information/) is located on the first floor of the north end of the Lory Student Center. It includes a Transfort (http://www.ridetransfort.com/) customer counter, flat screen monitors displaying departure times and news stories, and an indoor passenger waiting area to make public transportation more comfortable and convenient for CSU students and visitors.

Transfort, Around the Horn

Transfort (http://www.ridetransfort.com/) is the local Fort Collins bus service that offers a multitude of stops close to student living areas and runs schedules that complement CSU class schedules. This mass transportation system cuts down on pollution and brings students right to the center of campus. CSU students account for nearly thirty-five percent of Transfort’s ridership!

Public transportation options are available to get you to campus and around Fort Collins. All students and employees receive a Transfort (http://www.ridetransfort.com/) transit pass (on their Ramcard (https://housing.colostate.edu/ramcard/)) thanks to the investment by the Associated Students of Colorado State University (ASCSU (https://ascsu.colostate.edu/)) and Parking and Transportation Services. You can ride any Transfort (http://www.ridetransfort.com/) route in the city along with MAX. Your transit pass can also get you to Loveland, Longmont, and Boulder via the FLEX (http://www.ridetransfort.com/flex/).

Lory Student Center

The Lory Student Center (http://www.sc.colostate.edu/) is the dynamic hub of campus, serving more than 20,000 people each day. It encourages the lifelong learning development of students, faculty, staff, and community members. Lory Student Center services and programs create a stimulating and supportive atmosphere to complement academic learning and social enrichment. You may reach Campus Information and Box Office at (970) 491-6444.

CSU Mountain Campus

Nestled in a beautiful, secluded mountain valley at an elevation of 9,000 feet, CSU’s Mountain Campus (http://www.mountaincampus.colostate.edu/) provides field research and education, conference facilities, a challenge course, and world-class hiking. The Mountain Campus is located 50 miles west of Fort Collins and is adjacent to Rocky Mountain National Park, the Comanche Peak Wilderness Area, and Roosevelt National Forest. The campus is open from mid-May to mid-October and is available for field studies and research, conferences, workshops, meetings, and retreats.

CSU Sports and Athletic Facilities

Sonny Lubick Field at Canvas Stadium

Canvas Stadium, Colorado State’s on-campus college football stadium, opened in 2017. With a seating capacity of 36,500, the field is named in honor of legendary former head coach Sonny Lubick. The facility, includes nearly 800,000 square feet of space, features a club area and meeting space available for use by the community. Included in the facility is the Iris and Michael Smith Alumni Center, the Collaborative for Student Achievement (http://www.casa.colostate.edu/), as well as classroom and study space. CSU’s on-campus stadium provides the latest in fan amenities and technology to guarantee an amazing fan experience.

Glenn Morris Field House

The Rams’ indoor track and field training facility is the venerable Glenn Morris Field House (https://csurams.com/facilities/glenn-morris-fieldhouse/5/), near the Jack Christiansen Track. This historic venue, built in 1924, underwent a renovation in 1998.

The venue contains three main wings: the south area, which includes the indoor track; the middle area, which houses offices and locker rooms; and the north area, which is where the basketball team formerly played and now is used for indoor court sports.

Indoor Practice Facility

The Indoor Practice Facility (https://csurams.com/facilities/indoor-practice-facility/13/) is designed for use by multiple sports programs at the University.

Features:

• Gymnasium easily encloses a regulation basketball court and two half courts
• Volleyball configuration can accommodate two full-length courts
• Contains a synthetic-turf football field (including one end zone)
• Features a four-lane, 70-meter track and a unique shoe-changing room adjacent to the football field
• Has flexibility to allow the softball team to set up batting cages on the football field
• Will provide shelter for any student-athlete in each of the Rams’ 16 varsity sports
• Includes training room, equipment storage, lobby and trophy display case, and restrooms
• Uses an innovative air circulation system.

Jack Christiansen Track
One of the finest track and field facilities in the region in a picturesque setting lends itself comfortably to annually hosting marquee events, including the 2011 and 2005 Mountain West Track & Field Championships. Such is the history surrounding the Jack Christiansen Memorial Track (https://csurams.com/facilities/jack-christiansen-track/4/) on the east side of CSU’s main campus.

Regarded as one of the region’s finest facilities since it opened in 1989, the venue has provided a backdrop for success for the Rams. As a result, the program has the ability to attract some of the region’s finest athletes. The facility enjoyed a complete renovation in 2017.

Moby Arena
Moby Arena (https://csurams.com/facilities/moby-arena/1/) is a cozy and intimate playing facility nestled in the heart of the university’s central campus area.

With a capacity of 8,745, the whale-shaped venue features the pride and tradition of the Rams’ program that dates back 100 years, and a newness associated with a recent renovation to the arena’s concourses, athletic training facilities and locker rooms. The FNOB Moby Loft is an additional space along the south baseline where fans can enjoy beer and other refreshments alongside their fellow Ram fans.

Ram Field
CSU’s softball facility, Ram Field (https://csurams.com/facilities/ram-field/3/), has been the home of the school’s varsity softball program since its opening in 1995. The diamond is a state-of-the-art, NCAA-regulation field, just south of Moby Arena, complete with a high-quality sound system. The foul lines are 200 feet from home plate, and the center-field fence is 225 feet away.

University Tennis Courts
The University Tennis Courts are one of the finest tennis facilities in the nation. The $2 million dollar facility that opened in 2010-2011 features 12 post-tensioned concrete courts, eight of which are lighted for night play. For information about use of the Tennis Complex, visit Campus Recreation (https://csurec.colostate.edu/).

Study Spaces
In addition to spaces in residence halls, among the shelves in Morgan Library (http://lib.colostate.edu/) and throughout the floors of the Lory Student Center, CSU offers a variety of other study spaces. Some study spaces are reservable through the library reservation system (https://lib.colostate.edu/).

Some popular options include:
• Behavioral Sciences Building
• TILT Building - Russell George Great Hall
• Morgan Library - Group Study Rooms and The Cube
• The Durrell Center
• Clark Building - A-wing study lounge
• Scott Bioengineering Building
• The Microbiology Study Lounge
• Rockwell Hall West.

University Center for the Arts
Located at 1400 Remington Street, the University Center for the Arts (http://uca.colostate.edu/) (UCA) is an exquisite venue for music, theatre, dance, and art where future generations of arts professionals – be it in performance, creative production and design, education, music therapy, or research – are becoming contributors to the essential vitality of our culture and society, and advance knowledge in the arts through discovery, dissemination, teaching, and preservation. The building was originally constructed in 1925 and received extensive renovation in the 2000s in order to house music, theatre, and dance performance venues, museums and galleries, rehearsal spaces, classrooms, and more.

Fort Collins, Colorado offers an exceptional environment for performing and visual art students through close connections to the surrounding community and its thriving arts culture. The city is consistently ranked as one of the best places to live in the country; the inviting Old Town architecture is complemented by a prime location at the foot of the Rocky Mountains with breathtaking scenery and almost infinite opportunities for first-rate outdoor activities.

Student Recreation Center
Campus Recreation (https://csurec.colostate.edu/) (http://csurec.colostate.edu/) actively promotes the pursuit of a balanced, healthy lifestyle to a diverse university community by providing quality programs, facilities, and services that encourage personal growth, leadership development, and employment opportunities. Students paying full student fees for the current term are automatically eligible for Campus Recreation programs and services including use of the Student Recreation Center. Memberships are available to part-time students, employees, and spouses/partners. Inquire at the Service Center in the Student Recreation Center lobby for more information. To learn more about Campus Recreation at CSU, pick up a copy of the Campus Recreation Guide or check out Campus Recreation’s (https://csurec.colostate.edu/) (http://csurec.colostate.edu/) website.
University Libraries

The University Libraries (https://lib.colostate.edu/) is the heart of learning, research and artistry on campus, connecting curious minds to vital information and knowledge. The Libraries provides students and faculty with the resources, tools, guidance and space they need to critically engage with the global information landscape.

With millions of physical and digital materials at users’ fingertips, friendly librarians guide users in how to find, evaluate and use library resources in their research and artistry. The Libraries’ physical collection features diverse types materials such as books, maps, magazines, technical reports, archives and manuscripts. Popular digital resources include databases, e-books, scholarly journals, streaming media, and newspapers. Some course materials are also provided through the Libraries.

The Morgan Library, located on main campus, is the go-to space for studying and collaborating on campus. With four floors of space, students can choose from a range of options for quiet study areas and more than 20 group study rooms available for reservation. Students can browse more than a million books at the library and check out technology to support their academic work, including laptops, chargers, video cameras and study accessories.

Veterinary Teaching Hospital

CSU’s south campus contains the Veterinary Teaching Hospital (http://csu vets.colostate.edu/) including the research and teaching programs and the federal Natural Resources Research Center.

Preface
The AUCC Experience
Note Regarding the All-University Core Curriculum
Categories 1A, 1B and 2: Fundamental Competencies
Category 3A-3E: Foundations and Perspectives
Note Regarding Guaranteed Transfer (GT) Pathways courses

For more in-depth descriptions of each AUCC category (including Content Criteria and Core Student Learning Outcomes), please visit the Curriculum & Catalog website (https://curriculum.colostate.edu/aucc/).

Preface

The All-University Core Curriculum (AUCC) at CSU helps students refine their academic skills and introduces them to areas of knowledge, methodologies, and ways of knowing in various fields of study. The AUCC is integral to the entire undergraduate educational experience.

The AUCC promotes the acquisition and effective practice of essential competencies within areas of learning stipulated by the state of Colorado. These include math, writing, arts and humanities, social sciences, and history. Courses approved for inclusion in the AUCC at CSU collectively satisfy all of the requirements of the state with regard to subject area and guaranteed transfer agreement (GT Pathways) content, competencies, and student learning outcomes. Essential competencies include the ability to write clearly, speak effectively, recognize diverse perspectives, understand and apply quantitative reasoning, make sense of abstract ideas, reason analytically, and read critically.

The AUCC Experience

Each course approved to satisfy requirements of the AUCC calls upon the instructor to introduce and reinforce academic success skills, provide students with ample and prompt feedback to encourage their academic progress and development, encourage reflection and development of metacognition, and foster an academic mindset.

AUCC courses should provide high impact practices such as writing, collaborative learning, community/civic engagement, or research as relevant to the field. Students learn and retain knowledge when they write, reflect upon what they are learning, and engage in revision processes that utilize feedback. Courses in categories 3B, 3C, 3D, and 3E must base at least 25% of the final grade on writing, a portion of which must be written outside of class. Writing activities may range from brief in-class reflective writing to multi-draft revised papers.

Teaching that encourages this mindset involves setting high and realistic goals for students; making clear the course objectives and academic competencies they help to develop; and demonstrating connections among content, competencies, and life applications. It encourages ongoing effort and offers frequent constructive feedback. Such teaching makes explicit that productive studying, active engagement in learning experiences, practicing, questioning, participating, reflecting, and learning from mistakes contribute to student success.

Students in AUCC Courses may anticipate:

1. Graded feedback early in a course.
2. Early and consistent access to information about their progress in a course.
3. Prompt evaluation of their work, as well as frequent and ongoing feedback that assesses strengths and weaknesses and encourages continuing effort.
4. When relevant, referral to campus resources to support their success.
5. When appropriate, collaboration, peer interaction, and peer feedback.
6. Consultation outside of class.

Research at CSU has shown that there is a relationship between student engagement and academic success. Engagement includes, but is not limited to, the following:

1. Regularly attending class and coming prepared to learn.
2. Practicing effective study habits.
3. Completing required assignments.
4. Asking questions and seeking help when needed.
5. Learning about campus resources that support students.
6. Embracing intellectual challenges, opportunities for growth, and breadth of perspectives and opinions.
Note Regarding the All-University Core Curriculum

Credits earned in the College Board Advanced Placement Program (AP), the College-Level Examination Program (CLEP), and International Baccalaureate (IB) can be used to satisfy particular All-University Core Curriculum requirements.

All CSU undergraduate students share a common learning experience. Faculty members from across the University contribute to that experience.

The Intermediate Writing and Quantitative Reasoning requirements must be completed within the first 60 credits (CSU and transfer) taken.

Each baccalaureate Program of Study must incorporate the following elements:

<table>
<thead>
<tr>
<th>Fundamental Competencies</th>
</tr>
</thead>
<tbody>
<tr>
<td>Code</td>
</tr>
<tr>
<td>1A.</td>

</table>

<table>
<thead>
<tr>
<th>Depth, Application, and Integration</th>
</tr>
</thead>
<tbody>
<tr>
<td>Minimum 5 credits, 2 courses</td>
</tr>
<tr>
<td>4A. Applying Fundamental Competencies: designated courses must apply and integrate knowledge from courses in the Fundamental Competencies of AUCC Categories 1A, 1B, and 2. At least 50% of the course grade must be based on activities that involve writing, speaking, and/or problem solving. Early guidance and feedback will support students’ growth as writers, speakers, and problem solvers.</td>
</tr>
<tr>
<td>4B. Integrating Foundations and Perspectives: designated courses must build upon the Foundations and Perspectives of AUCC Categories 3A, 3B, 3C, 3D, and 3E in an integrative and complementary way. Each course designated to fulfill this requirement shall emphasize the connections between its course content and the concepts and intellectual approaches that exemplify Foundations and Perspectives categories.</td>
</tr>
</tbody>
</table>

4C. Capstone Experience: every major must require a capstone experience that offers the opportunity for integration and reflection on students’ nearly completed undergraduate education.

Students are advised to see if their program of study has particular recommendations for satisfying All-University Core Curriculum requirements.

A student must earn a cumulative grade point average of 2.000 or better in the courses used to satisfy categories 1 through 3 of the All-University Core Curriculum requirements.

What follows is a brief description of each category in the All-University Core Curriculum and a list of the courses currently approved to meet that category. **Note:** No courses are listed in more than one category; courses listed in one category cannot be used to fulfill any other category in the AUCC.

### Fundamental Competencies

Fundamental Competencies are central to success in all courses. These include written and oral communication and quantitative reasoning. Therefore, the learning outcomes and instructional aims of these courses seek to develop and reinforce such competencies.

#### Category 1A. Intermediate Writing (3 credits)

The ability to communicate in written form is an essential component of success in any academic program and enhances the possibility of one’s success in personal and professional life. Courses in this category provide instruction in the skills essential to effective written communication, extensive practice in the use of those skills, and evaluation of students’ writing to guide them in improving their skills.

<td>Honors Seminar</td>
<td>3</td>
</tr>
</tbody>
</table>

### Category 1B. Quantitative Reasoning (3 credits)

Quantitative reasoning and problem solving are essential skills for success in academics and in life. Quantitative reasoning, which includes Mathematics and Statistics, develops ways of knowing that involve abstraction, generalization, and analysis. Such thinking involves problem solving, interpretation, representation, application, and communication.

Foundations and Perspectives

Foundations and Perspectives courses emphasize subject area methodologies, perspectives, modes of expression and creativity, concepts, and knowledge. Courses in this category help students effectively use fundamental competencies to bring diverse viewpoints, knowledge, application, creativity, and skills to life. Courses explore distinctive characteristics as well as critical linkages among fields of study, promoting synthesis of learning.

Category 3A. Biological and Physical Sciences (7 credits)

Biological and Physical Science courses examine scientific perspectives, build familiarity with scientific knowledge and the scientific method, develop competencies in reasoning, inquiry, and analysis and evaluate the impacts of science and technology on society to facilitate communication in an increasingly complex and technological world. At least one course used to satisfy this requirement must have a laboratory component.

**Category 3B. Arts and Humanities (6 credits)**

The Arts and Humanities explore uniquely human expressions. The Arts and Humanities investigate the cultural character and literatures of human experiences, fundamental questions of values and meaning, and, both in word and beyond words, the symbols and creative expressions of human life. Courses in Arts and Humanities may be in Arts and Expression; Literature and Humanities; Ways of Thinking; or World Languages. No more than three credits of intermediate world language (L*** 200, L*** 201) may be used toward this category.

**Category 3C. Social and Behavioral Sciences (3 credits)**

The Social and Behavioral Sciences are designed to help students acquire broad foundations of social science knowledge and the ability to apply this understanding to contemporary problems and issues. The Social and Behavioral Sciences use methods of the field to study the complex behaviors of individuals and their relationships with others in families, public institutions, and cultures. The Social and Behavioral Sciences requirements help students explore the forms and implications of individual and collective behaviors, and their ties to formal institutions.

#### Historical Perspectives (3 credits)

The goal of the Historical Perspectives requirement is to engage students in an analytical, chronological or thematic study of significant events, to investigate different perspectives and interpretations of them, and to understand historical methods, sources, and concepts as they relate to multi-dimensional human experiences. It should provide students with a foundation for relating perspectives of the past to aspirations for the future.

#### Diversity and Global Awareness (3 credits)

Courses that address Diversity and Global Awareness engage students in the study of cultural identities, explore the interactions among these identities, and reflect upon patterns of interaction related to the larger contexts in which they take place. These courses provide opportunities to expand self-awareness, examine perspectives, and engage in dialogue in order to analyze personal and social responsibility, domestic or global systems, and contemporary contexts.

Note Regarding Guaranteed Transfer (GT) Pathways Courses

Courses that the Colorado Commission on Higher Education (CCHE) (http://highered.colorado.gov/Academics/Transfers/gtPathways/curriculum.html) has approved for inclusion in the Guaranteed Transfer (GT) Pathways program are guaranteed to transfer among all public higher education institutions in Colorado. For transferring students, successful completion with a minimum C- grade guarantees transfer and application of credit in this GT Pathways category.

Courses that the CCHE has approved for inclusion in the Guaranteed Transfer (GT) Pathways program are designated with a GT code after the course title (e.g., "MATH 101: Math in the Social Sciences (GT-MA1)"). The subcode listed after "GT" refers to the specific statewide general education category the course fulfills. For more information on the GT Pathways program, please visit the Colorado Department of Higher Education (http://highered.colorado.gov/academics/transfers/gtPathways/curriculum.html) website.

Early Completion of Quantitative Reasoning/Composition Requirement

Analysis of campus data reflects national research indicating that students who successfully complete 30 credits in the first academic year, which include a college level quantitative reasoning (math, statistics, financial literacy) course and a college level composition course, demonstrate higher retention and graduation rates when compared to students who do not complete these momentum year milestones. While we recommend most students complete these momentum year milestones in the first academic year, for some students there may be extenuating circumstances to suggest a different approach. Students are encouraged to discuss their specific situation with their Academic Success Coordinator/Academic Advisor.

English Composition Requirement

CSU's English Composition Requirement

All CSU students are required to fulfill the All-University Core Curriculum (AUCC) Intermediate Writing Requirement (AUCC Category 1A) prior to completion of 60 credits. Students can complete the AUCC Intermediate Writing requirement in one of five ways:

1. Satisfactory completion of CO 150: College Composition.
2. Achieving a score of 5 on the Advanced Placement English Composition and Literature Test; or a score of 4 or 5 on the Advanced Placement English Language and Composition Test; or placing in CO 150 -section 550 (credit by exam for CO 150) on the Composition Placement Challenge and Re-evaluation Essay.
3. Transferring equivalent credits from another college. (Students who transfer with less than 2.6 semester credits in composition will have the option of writing the Composition Placement Challenge and Re-evaluation Essay. With a score of 5, we can request the additional credit be waived).
4. Satisfactory completion of HONR 193 (Honors students only).
5. Submission of International Baccalaureate scores that document an English at the Higher Level score of 5, 6, or 7.

Credit for CO 150 will not be given for high scores on the College-Level Examination Program (CLEP). Students (except first-semester transfer and readmitted students) who have earned 60 or more CSU and transfer semester credits and who have not met this requirement will have a Composition HOLD placed on their record. Transfer and readmitted students will be allowed the initial term of enrollment before this restriction is imposed.

What if I Have a Composition HOLD Placed on My Registration?

Before the start of every semester, undergraduate students are informed, via email from the Office of the Registrar, if they have not completed the AUCC composition requirement. After a student has earned 60 or more CSU and transfer semester credits without fulfilling the AUCC composition requirement, the email will also give notice that a Composition HOLD has been placed and provide information on how to remove the HOLD.

The procedure to remove a Composition HOLD is as follows:

1. You can contact the Office of the Registrar as soon as you receive the email letting you know that a Composition HOLD has been placed on your registration — you do not have to wait for your registration access time.
   - You can contact the Registrar’s Office immediately, if you are currently registered for CO 130 or have transfer credit for CO 130.
   - If you need to take the Directed Self-Placement Survey, once the Survey is completed, you can contact the Office of the Registrar.
   - If you are in the Honors Track I program, you will need to register for HONR 193.
   - If you were automatically placed into CO 130 or selected CO 130 on the Directed Self-Placement Survey, you will need to select a section of that course for which to register. After successful completion of CO 130, you will need to register for CO 150 the following term. CO 150 satisfies the All-University Core Curriculum Intermediate Writing requirement (AUCC Category 1A).
   - If you were automatically placed into CO 150 or selected CO 150 on the Directed Self-Placement Survey, you will need to select a section of that course that works with your course schedule.
   - If you were automatically placed into CO 130 or CO 150 and wish to challenge that placement, you will need to write the Composition Placement Challenge and Re-evaluation Essay as soon as possible.

Others:

- If you need to reference the AUCC core curriculum categories, you can visit the website http://highered.colorado.gov/Academics/Transfers/gtPathways/curriculum.html.
- If you are interested in the Guaranteed Transfer (GT) Pathways program, you can visit the website http://highered.colorado.gov/Academics/Transfers/gtPathways/program.html.
• If you chose to write the Composition Placement Challenge and Re-evaluation Essay, once your score has been entered, you can contact the Office of the Registrar (http://registrar.colostate.edu/).

2. Once you have chosen a section of composition that works with your schedule, contact the Office of the Registrar in Centennial Hall by calling (970) 491-4860, or emailing registrarsoffice@colostate.edu. If sending an email, please do so from your Colorado State University provided email account and include your full name, CSUID number, and the CRN for the CO course for which you want to be registered. Please make sure to have the CRN of the section you have chosen available in order to expedite your request.

3. The Office of the Registrar will then remove the Composition HOLD from your academic record and register you for the composition section you selected, which will allow you to proceed with registration starting on your designated registration date/time.

CSU’s Composition Placement Program

Critical reading and writing skills are significant components of every program and degree at CSU. Moreover, research at CSU, as well as nationwide, demonstrates a clear connection between academic success and the ability to write effectively for various audiences. The CSU Composition Placement Program is designed to ensure that you register for the composition course most suited to your needs, CO 130: Academic Writing or CO 150: College Composition.

To learn more about CSU’s Composition Placement Procedures, go to http://composition.colostate.edu/students/placement (http://composition.colostate.edu/students/placement/) or contact the Office of the Registrar (http://registrar.colostate.edu/transfer-credit/) for details on Advanced Placement and International Baccalaureate equivalencies.

Appeals Process

Students wishing to appeal (https://registrar.colostate.edu/forms/) this registration restriction must complete the Intermediate Writing/Quantitative Reasoning (MATH/COMP) Appeal (https://registrar.colostate.edu/wp-content/uploads/sites/23/2020/05/Math-or-Comp-Appeal-05-2020.pdf) form, including a detailed rationale as to why they were unable to complete the course within the first 60 credits. Students must also outline their plan for completion of the requirement. If registered for an equivalent course at another institution, students should include proof of registration. Appeals must be received by the student’s academic advisor and department head for their signatures and indication of support/lack of support of the appeal. The signed appeal must then be submitted through the Office of the Registrar, First Floor, Centennial Hall, to the Vice Provost for Undergraduate Affairs who holds authority for final approval or disapproval.

Quantitative Reasoning Requirement

To satisfy the requirements of category 1B of the All-University Core Curriculum (AUCC), students must earn three credits in Quantitative Reasoning. These credits may be earned by:

1. Presenting AP calculus scores of 3, 4, or 5 on the Calculus AB, Calculus BC, or Statistics exam –or- IB mathematics scores of a 4 or higher on either the standard or higher level exam (see Office of the Registrar (https://registrar.colostate.edu/transfer-credit/) for details on Advanced Placement and International Baccalaureate equivalencies);

2. Taking an approved CSU All-University Core Curriculum (AUCC) 1B Course (MATH or STAT);

3. Presenting suitable transfer credits from another accredited institution;

4. Successfully challenging Pre-Calculus courses (Challenge Exams are available for MATH 117, MATH 118, MATH 124, MATH 125, and MATH 126).

Any student admitted to CSU may take MATH 101 or STAT 100. Students who wish to take a Quantitative Reasoning course other than MATH 101 or STAT 100 must satisfy one of the following requirements in addition to any course prerequisites:

• Score sufficiently well on the Math Placement Tool (https://placement.math.colostate.edu/welcome/directory.html);

• Present an AP calculus score of 3, 4, or 5 on the Calculus AB, Calculus BC, or Statistics exam –or- IB mathematics scores of a 4 or higher on either the standard or higher level exam;

• Present suitable transfer credits from another accredited institution.

Math Placement

Students can become eligible to register for Quantitative Reasoning beyond MATH 101 and STAT 100 by completing the Math Placement Process (https://placement.math.colostate.edu/welcome/directory.html). This process begins with the Math Placement Tool, which covers pre-college algebra and college algebra, logarithmic and exponential functions, and trigonometry.

A student who displays proficiency on the Math Placement Tool may place out of one or more of the pre-calculus courses—MATH 117, MATH 118, MATH 124, MATH 125, and MATH 126 without earning credit. Placement out of a course on the Math Placement Tool will satisfy prerequisites for other classes. Completing the Math Placement Tool does not earn course credit. Only earned credits count toward the three-credit AUCC Quantitative Reasoning requirement, i.e. placement out of a course will not satisfy the CSU Quantitative Reasoning requirement.

A student (except a first semester transfer or a first semester readmitted student) who has earned 60 or more CSU and transfer credits and who has not completed the Quantitative Reasoning requirements of category 18 of the All-University Core Curriculum must enroll in a course that will fulfill this requirement in order to have a hold lifted from their registration. A transfer or readmitted student will be allowed the initial term of full-time enrollment before this restriction is imposed. (Faculty Council approved minutes May 1, 2018)

Appeals Process

Students wishing to appeal (https://registrar.colostate.edu/forms/) this registration restriction must complete the Intermediate Writing/Quantitative Reasoning (MATH/COMP) Appeal (https://registrar.colostate.edu/wp-content/uploads/sites/23/2020/05/Math-or-Comp-Appeal-05-2020.pdf) form, including a detailed rationale as to why they were unable to complete the course within the first 60 credits. Students must also outline their plan for completion of the requirement. If registered for an equivalent course at another institution, students should include proof of registration. Appeals must be received by the student’s academic advisor and department head for their signatures and indication of support/lack of support of the appeal. The signed appeal must then be submitted through the Office of the Registrar, First Floor, Centennial Hall, to the Vice Provost for Undergraduate Affairs who holds authority for final approval or disapproval.

Health Professions
Teacher Licensure/Education

Health Professions

Collaborative for Student Achievement (http://www.casa.colostate.edu/)
Offices in the Stadium Complex, 1415 Meridian

Health Professions Advising - Human & Animal Healthcare Professions

CSU does not offer specific “pre-health” or “pre-vet” majors as health professions programs neither prefer nor recommend any particular undergraduate major(s). Students interested in a career in any health profession may select a major from among the many choices offered by CSU. After declaring an academic major, a student is assigned an academic advisor from that department to ensure they fulfill the requirements for that major. Placement into health professions programs is extremely competitive and a successful applicant needs to be well informed regarding course requirements and other factors considered by admissions committees.

Health professions advisors work with students in conjunction with their departmental advisor to determine courses required to satisfy professional school prerequisites. They also help students identify and gain the experiences needed to make them competitive candidates.

All Health Professions advisors assist students from any major in planning for entrance into any accredited program of medicine, veterinary medicine, physician’s assistant, occupational therapy, physical therapy, dentistry, nursing, pharmacy, optometry, podiatry, chiropractic and others. They also assist students in preparing their applications to those programs.

Student Clubs

Offices for several student clubs related to the health professions are located in Collaborative for Student Achievement Offices in the Stadium complex. Staff members serve as advisors for the Pre-Vet Club and the Health Professions Student Association and the associated clubs of Premedica, Pre-Dental, Pre-Pharmacy, Pre-Optometry, Pre-Occupational Therapy, Pre-Physical Therapy and provide assistance and support for club activities.

More information about Health Professions Advising (http://hp.casa.colostate.edu/) may be found on the Collaborative for Student Achievement website.
Teacher Licensure/Education

Teacher and principal licensure are available through the School of Education’s Center for Educator Preparation (CEP).

Students who successfully complete an approved teacher preparation program will be prepared to pursue licensure in Colorado. Licensure requirements in other states and U.S. territories may differ. Students are encouraged to work with the department and the professional licensure board in the state in which they intend to pursue licensing to ensure all requirements are satisfactorily met.

One of the most important ways to help people and to impact our society is through involvement in schools. Teachers make lasting contributions to our nation and its many generations of learners. Teacher education programs at CSU serve the needs of individuals preparing to teach in:

- Early Childhood Education (PreK-3rd grade)
- Grades K-12: Art, Foreign Languages, Instructional Technology, Music
- Secondary (Grades 7-12): Agricultural Education, Business/Marketing Education, English, Family and Consumer Sciences, Mathematics, Science, Social Studies, Speech, Technology Education

CSU is one of the public institutions in Colorado designated to offer programs leading towards a career and technical (vocational) credential. Candidates for teacher licensure are skilled in a teaching concentration and educational methodology. These students take their professional education coursework concurrently while completing their content area coursework. Candidates may complete licensure while enrolled in an undergraduate program or after completing a bachelor’s degree at an accredited university.

Education Abroad

Office of International Programs – Laurel Hall
(970) 491-5917 or (970) 491-6342

Education Abroad (https://international.colostate.edu/educationabroad/) opportunities engage students in an international arena, providing new academic perspectives, broadening knowledge of international affairs, and allowing for a deeper understanding of other cultures. In addition to enhancing a student's degree program, education abroad provides students with direct experience developing intercultural skills necessary for success in an increasingly diverse and global workforce.

The Office of International Programs offers more than 1,000 international opportunities, including for-credit and not-for-credit programs for study, research, internships and service learning. Students can maintain full-time enrollment at CSU while abroad, and credit from approved programs may be applied towards an overall degree program at CSU. Students who successfully complete an 3+ credit course (with a grade of C- or better) are eligible for a waiver of the All-University Core Curriculum requirement.

Education Abroad oversees programs in over 80 countries around the world and provides support services to students, including advising, orientations, outreach, program coordination and risk management oversight. Students considering any type of international experience are required to work with the Office of International Programs in preparation for their time abroad. Advance planning helps assure that international endeavors will not unnecessarily prolong degree completion and that health and safety preparations have been addressed. Advance planning also assures that students meet application deadlines, which can range anywhere from two to twelve months before a program begins.

The Office of International Programs also works closely with CSU’s academic partners Semester at Sea (https://www.semesteratsea.org/) and the CSU Todos Santos Center to foster international opportunities for CSU students, faculty and staff.

Financial Aid for Education Abroad

In most cases, CSU financial aid in the forms of loans, grants and scholarships can be applied to cover the costs of an education abroad program. In addition, through CSU’s partnerships, the Office of International Programs facilitates over $600,000 in annual scholarship funds to support education abroad. Students can apply for many of these through the Education Abroad Common Application (https://international.colostate.edu/educationabroad/students/getting-started/scholarships/) and/or their CSU sponsored programs. Scholarship opportunities include nationally competitive scholarships, such as the NSEP Boren and IIE Gilman awards.

Further information on eligibility requirements, courses, deadlines, policies, procedures, financial aid, and costs related to study abroad may be found on the Education Abroad (https://international.colostate.edu/educationabroad/) website.

Semester at Sea

SEMESTER AT SEA
Ready to embark on the educational travel experience of a lifetime?

SEMESTER AT SEA OFFERS A WORLD CLASS CURRICULUM

Semester at Sea offers an unparalleled educational program in partnership with CSU. The distinctive feature of Semester at Sea is the opportunity it affords students to engage in global comparative education. All Semester at Sea academic credits are earned through fully-accredited CSU courses. The University appoints the academic dean from among its most accomplished faculty, oversees curriculum, and approves course syllabi for the Semester at Sea academic program. The MV World Odyssey serves as a traveling home and campus that brings approximately 550 students to the farthest reaches of the globe every semester, giving deeper meaning to education, experiential learning, and community.

The Semester at Sea (http://www.semesteratsea.org/) program itineraries are built around international challenges, trends, and issues. Since 1963, more than 60,000 students from 1,700 colleges and universities around the world have studied with Semester at Sea. Notable alumni and contributors include Nobel Laureates Archbishop Desmond Tutu, Nelson Mandela, Mother Teresa, and many other world leaders and global thinkers.
EXPERIENCE NON-TRADITIONAL LOCATIONS
Semester at Sea itineraries are carefully selected to maximize the value of a comparative, global education. The focus is on destinations both in the developing world and in the developed world, allowing for rich observations, insights, and learning. The countries and regions visited offer examples of varying stages of economic development, contrasting political systems, and great diversity of religious and cultural values.

NEW CULTURES, NEW PERSPECTIVES
The program exposes students to cultures that most students have only read about in books. Exposure to new cultures and people of the world will give new perspectives. That is why we travel.

FINANCING, AID AND SCHOLARSHIPS
The Institute for Shipboard Education, the parent organization of Semester at Sea, annually awards approximately $4.0 million in financial aid. Semester at Sea recognizes that a study abroad experience is a significant investment, and also knows that it is one of the best possible investments in a student’s future. The Institute for Shipboard Education is committed to helping as many students as possible realize the benefits of that goal. For further information on eligibility requirements, deadlines, policies, procedures, financial aid, and costs related to the program, go to Semester at Sea (http://www.semesteratsea.org/).

WHY ARE STUDENTS CHOOSING SEMESTER AT SEA?

• Improved understanding of the world
• Greater awareness of cultural difference
• Improved self-confidence and autonomy
• Improved flexibility and understanding of multiple perspectives
• Better understanding of one’s own culture
• Greater recognition of other perspectives and world views
• Ability to live in close community
SEMESTER AT SEA ATTRACTS OUTSTANDING, AWARD-WINNING FACULTY

At the core of the Semester at Sea academic experience is a team of 25-28 innovative, stimulating, and flexible educators who are passionate about global education. The unparalleled environment of Semester at Sea provides engaging shipboard courses in unique combination with field classes.

Past voyages have included internationally recognized experts on social movements and media, environmental systems, international business, intercultural communication, and world cinema, as well as a Pulitzer Prize-winning poet and a Carnegie Foundation Professor of the Year.

With the world as their classroom, Semester at Sea professors teach in a global context and excel in the field of experiential learning. All faculty hold doctorates, or other advanced degrees with extraordinary professional career experience, and have international or intercultural expertise relevant to the voyage itinerary.

Todos Santos

todossantos.colostate.edu (http://todossantos.colostate.edu/) / csutodossantos@colostate.edu

Mission
To cultivate generations of global citizens and thriving communities through collaboration, experience, and exchange of knowledge.

The Colorado State University Todos Santos Center
The Colorado State University Todos Santos Center is located in Baja California Sur, Mexico. As the only international extension location of the university, the Center answers the call of a 21st-century land-grant institution on a global scale by utilizing education to build bridges between the United States and Mexico, between students and faculty, and between research and action.

The Center combines education, outreach, research, and access for CSU students, students in the regional community, and area residents. CSU’s educational resources and expertise combine with natural, cultural and historical aspects offered by the community to create expansive possibilities in research, learning and experiences.

Unique, once-in-a-lifetime programs at the Colorado State University Todos Santos Center
The Center provides a variety of unique research opportunities and hands-on educational experiences to complement the existing CSU curriculum, allowing students to have an international experience without delaying graduation.

Students who study in Todos Santos grow as responsible ambassadors of CSU and the United States, learn through immersion in Mexican culture and ecosystems, and work alongside Mexican students, faculty, and citizens.

Students can:
• Explore the challenges, successes, and community priorities of Baja California Sur
• Collaborate and co-create activities to address global challenges
• Support and further regional initiatives and priorities as identified through a community needs assessment process

• Engage individually and collectively in actions promoting desired changes

Programs are currently available in the following areas of study:
• Veterinary medicine
• Fish, Wildlife, and Conservation Biology
• Liberal Arts and Community Engagement
• Oceanography
• Sustainable and Alternative Tourism
• Student Leadership Exchange
• Theatre
• Various outreach, service learning, and leadership programs
• Custom research projects and internships
• And more

Please contact Education Abroad or csutodossantos@colostate.edu for additional information.

Why are students choosing to study at CSU Todos Santos?
• Hands-on, immersive, experiential education
• Explore global challenges within a community setting
• Learn about the language, culture, people, animals, and ecosystems of Baja California Sur, Mexico
• Interact and work alongside Mexican youth, college students, and organizations in Baja California Sur
• Explore what it means to be a global citizen

COLLEGES AND PROGRAMS

Many academic programs at Colorado State University have an all-university focus and are not found in one particular college. This catalog section summarizes:

University Interdisciplinary Studies Programs
Division of Armed Forces Services
Environmental Studies Programs
Mentored Research and Artistry Program
University Honors Program

Undergraduate

Interdisciplinary Minors are composed of a sequence of related courses, which provide a student with unique opportunities to complement the major and are only offered at the undergraduate level. A minimum of 21 credits is required for an interdisciplinary minor. A minimum of 12 of the 21 credits must be course work at the upper-division level (300-400).

Interdisciplinary Minors

- American Sign Language
- Arabic Studies Interdisciplinary Minor
- Biomedical Engineering Interdisciplinary Minor
- Conservation Biology Interdisciplinary Minor
- Energy Engineering Interdisciplinary Minor
- Environmental Affairs Interdisciplinary Minor
- Film Studies Interdisciplinary Minor
- Food Industry Management Interdisciplinary Minor
- Food Science/Safety Interdisciplinary Minor
- Gerontology Interdisciplinary Minor
- Global Environmental Sustainability Interdisciplinary Minor
- Global Studies Interdisciplinary Minor
- Information Science and Technology Interdisciplinary Minor
- Integrated Resource Management Interdisciplinary Minor
- International Development Interdisciplinary Minor
- Italian Studies Interdisciplinary Minor
- Latin American and Caribbean Studies Interdisciplinary Minor
- Leadership Studies Interdisciplinary Minor
- Legal Studies Interdisciplinary Minor
- Linguistics and Culture Interdisciplinary Minor
- Molecular Biology Interdisciplinary Minor
- Music, Stage, and Sports Production Interdisciplinary Minor
- Organic Agriculture Interdisciplinary Minor
- Political Communication Interdisciplinary Minor
- Religious Studies Interdisciplinary Minor
- Role of Sustainability in Peace and Reconciliation Interdisciplinary Minor
- Russian Studies Interdisciplinary Minor
- Sports Management Interdisciplinary Minor
- Sustainable Energy Interdisciplinary Minor
- Sustainable Water Interdisciplinary Minor
- Women's Study Interdisciplinary Minor

Graduate

A Graduate Certificate is used to identify the successful completion of a focused area of study deemed important to a student’s career objectives. A Graduate Certificate consists of a minimum of 9 specified credits, and not more than 15 credits at the 500 level or above.

CSU offers interdisciplinary degree programs at the graduate level (listed below). Interdisciplinary degree programs include a series of courses from a variety of academic disciplines. The result of completing an
The Arabic Studies Interdisciplinary Minor is designed to give students a comprehensive knowledge of different aspects of Arabic language, culture, history, and artistic expressions, according to the students’ interests. The program requires a minimum of 21 credits. Credits from study abroad programs will be properly evaluated as part of the overall program.

Contact the Department of Languages, Literatures and Cultures for details.

Requirements

Effective Fall 2016

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

A grade of C or better is required in each course that will count toward the interdisciplinary minor.

Program Total Credits: 21
LARA 200 and LARA 201 are required. Students placed out of or directly into LARA 201 need to replace 5-9 lower division credits from the list of lower-division electives. A maximum of 9 lower-division credits may be counted for the minor.

### Biomedical Engineering Interdisciplinary Minor

Scott Bioengineering Building, Suite 225  
(970) 491-2557  
engr.colostate.edu/sbme/undergraduate-programs/bme-minor/ (http://www.engr.colostate.edu/sbme/undergraduate-programs/bme-minor/)

The Biomedical Engineering Interdisciplinary Minor offers students an interdisciplinary approach to biomedical engineering education and research. This unique program combines courses in biomedical engineering and life sciences to improve human and animal health and well-being. This 21-credit minimum minor is open to all majors, thus complementing students’ major area of study, and BME minor courses may count as electives in a student's major. The program provides a solid foundation in biomedical engineering and strengthens skills in engineering and life sciences.

### Effective Fall 2019

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

Courses may only be used to fulfill requirements in one core or elective area; courses may not be double-counted in multiple sections.

## Conservation Biology Interdisciplinary Minor

**Office in Forestry Building, Room 123**  
(970) 491-6911  
http://warnercnr.colostate.edu/frs-undergraduate-study/majors-minors

To declare the interdisciplinary minor in Conservation Biology, visit the Forest and Rangeland Stewardship office in the Forestry Building, Room 123.

Conservation Biology is a scientific discipline and management context that deals with the diversity of life in ecosystems. Humans have tremendous effects on other species and ecosystems on Earth, and Conservation Biology considers these effects, and how our impacts can be altered to sustain diverse and healthy ecosystems.

Conservation Biology encompasses a wide range of biological sciences such as genetics, evolution, and physiology, as well as a wide range of ecological sciences such as biodiversity, competition, predator/prey relations, and long-term dynamics.

This university-wide undergraduate minor addresses contemporary environmental issues that deal with biological diversity and prepares students to play an active role in the maintenance of biological diversity.

The interdisciplinary minor in Conservation Biology in the Warner College of Natural Resources at CSU is a minor that can be included with a wide range of majors to form a strong bachelor's degree program.

### Effective Spring 2013

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

Energy Engineering Interdisciplinary Minor

Scott Bioengineering Building, Suite 102 (970) 491-6220

The Energy Engineering Interdisciplinary Minor is designed to provide students in engineering and the sciences with an understanding of renewable and non-renewable energy systems; clean energy technologies; basic principles of operation of energy extraction, conversion, storage, and transmission systems; and depth in current and new energy methods and applications (e.g., PV, batteries, biofuels, etc.).

The goal of the program is to empower engineers and scientists to be technological catalysts for sustainable solutions to the grand challenges of energy.

The interdisciplinary minor requires completion of 23-24 credits, with at least 12 credits greater than or equal to 300-level courses. All undergraduates are required to complete 6 credits of core courses and a 3-credit science elective. The remaining 14-15 credits of technical electives are chosen from a select set of engineering courses according to the student’s major and interests.

Effective Fall 2012
Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

Program Total Credits: 23-24

1 Select enough credits in consultation with engineering academic advisor to bring program total to a minimum of 23 credits.

Effective Spring 2021
Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

Students must earn a minimum grade of C (2.000) in all courses taken for the interdisciplinary minor.

**Environmental Science**

A. Select one course from the following: 3

- ERHS 220 Environmental Health
- ESS 210/GR 210 Physical Geography
- ESS 311 Ecosystem Ecology
- F 310/RS 310 Forest and Rangeland Ecogeography
- GEOL 122 The Blue Planet - Geology of Our Environment (GT-SC2)
- GEOL 124 Geology of Natural Resources (GT-SC2)
- LIFE 320 Ecology
- NR 120A Environmental Conservation (GT-SC2)
- NR 120B Environmental Conservation
- NR 130 Global Environmental Systems (GT-SC2)
- SOCR 240 Introductory Soil Science

B. Select a second course from the A list OR select one course from the B list below OR select another science course in consultation with advisor. Courses in B must have a strong environmental focus. 3

- ATS 350 Introduction to Weather and Climate and Introduction to Weather and Climate Lab

**Liberal Arts Electives**

Select one course from the list below OR select a different course with a strong environmental focus with approval of advisor. Course(s) selected here may not also be used to fulfill the Core requirement above. 3

- ANTH 330 Human Ecology
- ANTH 417 Indigenous Environmental Stewardship
- ANTH 450 Hunter-Gatherer Ecology
- ANTH 453 Impacts on Ancient Environments
- E 339 Literature of the Earth
- E 403 Writing the Environment
- ECON 240/AREC 240 Issues in Environmental Economics (GT-SS1)
- ECON 340/AREC 340 Introduction-Economics of Natural Resources

Extreme Ultraviolet and Optical Science and Technology Graduate Interdisciplinary Studies Program

Coordinated by a Faculty Advisory Board and the Department of Electrical and Computer Engineering (https://www.engr.colostate.edu/ece/) in the Walter Scott, Jr. College of Engineering (https://www.engr.colostate.edu/).

The Extreme Ultraviolet and Optical Science and Technology Graduate Interdisciplinary Studies program is designed to serve individuals who are seeking to gain knowledge and experience in the generation and applications of coherent extreme ultraviolet or soft x-ray light. This type of light holds great potential in applications in nanotechnology, nanoelectronics, photochemistry, material science, and biology. While, in the past, the use of coherent EUV light required a trip to a national facility, new developments in compact sources make it widely available. The objective of the program is to provide scientists or engineers many of the fundamentals required to generate or proficiently make use of this portion of the electromagnetic spectrum.

This interdisciplinary studies program is inherently interdisciplinary, including lasers, optical, plasma, material, chemical and biological sciences, and engineering. With its NSF Center for Extreme Ultraviolet Science and Technology (https://euverc.colostate.edu/#:~:text=Welcome%20to%20the%20Center%20for,challenging%20scientific%20and%20technical%20problems), a partnership with the University of Colorado and the University of California, Berkeley, CSU has unique expertise in this area.

The program is open to graduate students and professionals who hold a B.S. degree in engineering, physics, chemistry, biology, mathematics, or other scientific discipline.

The program requires a total of fifteen credits comprising six core credits and nine electives. The six core credits are two very fundamental courses any graduate student with a background in hard sciences and engineering could master. This, coupled with the fact that graduate students in any discipline are not held to undergraduate prerequisite courses, make this interdisciplinary studies program widely accessible. Elective credits are tailored to the candidate’s interests from the major the student pursues. Within these, a course in another discipline outside the major of the candidate must be included.

### Requirements

**Effective Fall 2008**

Additional coursework may be required due to prerequisites.

### Film Studies Interdisciplinary Minor

Program details are available from the Communications Studies Department.

Contact:

Hye Seung Chung  Hye.Chung@colostate.edu
Scott Diffrient  Scott.Diffrient@colostate.edu

Film Studies is an interdisciplinary academic discipline that deals with historical, theoretical, and critical approaches to analyzing film. It is concerned with exploring the narrative, artistic, cultural, economic, and political implications of the cinema. The United States’ film industry is second worldwide only to India and continues to grow, as does the study of film. A minor in Film Studies will enable students to develop media fluency in film: the ability to analyze, contextualize, and use the medium within the broad context of humanistic studies. This minor will provide
students with a solid background in critical thinking and writing, and skills that will serve students well in any career.

Requirements
Effective Spring 2019
Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

Food Science/Safety Interdisciplinary Minor
Gifford Building, Room 200B
(970) 491-7180

www.chhs.colostate.edu/fshn (https://www.chhs.colostate.edu/fshn/)

Professor Marisa Bunning, Ph.D. Department of Food Science and Human Nutrition, Extension Specialist, Interdisciplinary Studies Program Chair

Coordinated by a Faculty Advisory Board

Are you interested in the safety and quality of food from “farm to fork”? The Food Science/Safety interdisciplinary studies programs (https://www.chhs.colostate.edu/fshn/programs-and-degrees/food-science-safety-interdisciplinary-minor/) provide students with the interdisciplinary background necessary for understanding the roles and responsibilities of growers, producers, processors, retailers, consumers, and others working within the food system to ensure that food is safe and healthful. These programs are a cooperative effort by faculty from several departments and colleges within CSU who share a common interest in food quality and safety, and integrated production and processing. Students enrolling in a program will receive their degree from their home department. Completion of requirements for the interdisciplinary minor will be noted on the transcript.

The programs are available at both the undergraduate and graduate levels. Program details are available from the Office of the Dean in the Colleges of Agricultural Sciences (http://agsci.colostate.edu/), Health and Human Sciences (http://www.chhs.colostate.edu/), or Veterinary Medicine and Biomedical Sciences (http://csu-cvmbs.colostate.edu/Pages/default.aspx), or from one of the collaborating departments.

The interdisciplinary minor in Food Science/Safety is designed to complement the student's major. It consists of a core of required courses (6 credits), foundation courses in the sciences (6 credits), and a selection of advanced courses (12 credits minimum) taken from at least three of the six collaborating departments: Animal Sciences; Environmental and Radiological Health Sciences; Food Science and Human Nutrition; Horticulture and Landscape Architecture; Microbiology, Immunology, and Pathology; and Soil and Crop Sciences.

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

Food Science/Safety Interdisciplinary Studies Program

Food Science/Safety Graduate Interdisciplinary Studies Program (https://www.chhs.colostate.edu/fshn/programs-and-degrees/food-science-safety-interdisciplinary-minor/)
Gifford Building, Room 200B
(970) 491-7180

Professor Marisa Bunning, Ph.D. Department of Food Science and Human Nutrition, Extension Specialist, Interdisciplinary Studies Program Chair

Coordinated by a Faculty Advisory Board

Are you interested in the safety and quality of food from “farm to fork”? The Food Science/Safety Interdisciplinary Studies Program provide students with the interdisciplinary background necessary for understanding the roles and responsibilities of growers, producers, processors, retailers, consumers, and others working within the food system to ensure food is safe and healthful. These programs are a cooperative effort by faculty from several departments and colleges within CSU who share a common interest in food quality and safety and integrated production and processing. Students enrolling in a program will receive their degree from their home department. Completion of requirements for the interdisciplinary studies program will be noted on the transcript.

The programs are available at both the undergraduate and graduate levels. Program details are available from the Office of the Dean in the Colleges of Agricultural Sciences, Health and Human Sciences, or Veterinary Medicine and Biomedical Sciences, or from one of the collaborating departments.

The interdisciplinary minor in Food Science/Safety is designed to complement the student's major. It consists of a core of required courses (6 credits), foundation courses in the sciences (6 credits), and a selection of advanced courses (12 credits minimum) taken from at least three of the six collaborating departments: Animal Sciences; Environmental and Radiological Health Sciences; Food Science and Human Nutrition; Horticulture and Landscape Architecture; Microbiology, Immunology, and Pathology; and Soil and Crop Sciences.

Advanced Courses
Select a minimum of 12 credits, which must include at least three subject codes from the collaborating departments (ANEQ, ERHS, FSHN/FTEC, HORT, MIP, SOCR), from the following:

- ANEQ 300L: Topics in Animal Sciences: Quality Assurance
- ANEQ 360: Principles of Meat Science
- ANEQ 361: Introduction to Meat Product Evaluation
- ANEQ 460: Meat Safety
- ANEQ 470: Meat Processing Systems
- BTEC 306/BIOM 306: Bioprocess Engineering

ERHS 220: Environmental Health
ERHS 332: Principles of Epidemiology
ERHS 430: Human Disease and the Environment
FSHN 300: Food Principles and Applications
FSHN 350: Human Nutrition
FSHN 496E: Group Study in Dietetics and Nutrition: Food Safety
FTEC 350: Fermentation Microbiology
FTEC 400: Food Safety
FTEC 430: Sensory Evaluation of Fermented Products
FTEC 460: Brewing Science II
HORT 401: Medicinal and Value-Added Uses of Plants
HORT 424/SOCR 424: Topics in Organic Agriculture
HORT 451: Vegetable Crop Management
HORT 453: Principles of Fruit Crop Management
HORT 454: Horticulture Crop Production and Management
MIP 302: General Microbiology Laboratory
MIP 315: Pathology of Human and Animal Disease
MIP 334: Food Microbiology
MIP 335: Food Microbiology Laboratory
SOCR 330: Principles of Genetics
SOCR 430: Applications of Plant Biotechnology
SOCR 460/HORT 460: Plant Breeding

Independent Study/Group Study/Internship

500-level courses that may be selected as Advanced Courses by high-achieving undergraduates:

- ANEQ 522: Animal Metabolism
- ANEQ 565: Interpreting Animal Science Research
- ANEQ 567: HACCP Meat Safety
- FTEC 570: Food Product Development
- FTEC 572: Food Biotechnology
- FTEC 574: Current Issues in Food Safety
- FTEC 576: Cereal Science
- FTEC 578/HORT 578: Phytochemicals and Probiotics for Health
- MIP 540: Biosafety in Research Laboratories
- VS 570/AGRI 570: Issues in Animal Agriculture

Program Total Credits: 24

1 If both FTEC 400 and MIP 334 are taken, credit for one class may be used for Advanced Courses credit.
2 Or higher level organic chemistry course.
3 Cannot double count as a Foundation course.
4 Maximum of three upper-division (300- or 400-level) credits allowed for Independent Study/Group Study/Internship (must be food related). Select from subject codes ANEQ, ERHS, FSHN, FTEC, HORT, MIP, SOCR.
5 With approval of advisor.

Food Science/Safety Interdisciplinary Studies Program
The international reputation of the faculty members and their ability to attract strong extramural support for research in the areas of food science and food safety resulted in the creation of the Food Science/Safety Graduate Interdisciplinary Studies Program. Focusing on interdisciplinary research and education, this program is a cooperative effort by faculty in seven departments: Animal Sciences; Clinical Sciences; Environmental and Radiological Health Sciences; Food Science and Human Nutrition; Horticulture and Landscape Architecture; Microbiology, Immunology, and Pathology; and Soil and Crop Sciences. Faculty research interests include food microbiology, food safety education, food processing, and integrated production-processing. Students interested in the safety and processing of foods and commodities are encouraged to apply.

Students wishing to pursue the Food Science/Safety Graduate Interdisciplinary Studies Program must declare their intent with the chair of the Faculty Advisory Board. The program is customized to fit the student's interests and long-term objectives. Students are strongly encouraged to interact with faculty from more than one department. Basic training in food science comes from an integrated curriculum featuring core courses in food science, microbiology, nutrition, and commodity production. Opportunities exist for students to rotate through various laboratories. Students also participate in a weekly interdisciplinary group study course that includes papers given by students, participating faculty, and distinguished visiting scientists, and visits to member laboratories. The group study course is designed to enhance interaction and facilitate research opportunities among the food science/safety community, including students, faculty, postdoctoral fellows, and staff. It may be offered by the participating departments on a rotational basis.

Students receive a degree from their home department and an endorsement on their transcript indicating successful completion of the program requirements.

Requirements

Additional coursework may be required due to prerequisites.

Gerontology Interdisciplinary Minor

Office in Behavioral Sciences Building, Room A116
(970) 491-5558

Department of Human Development and Family Studies

The Gerontology Interdisciplinary Minor is a cooperative effort among faculty from different departments and colleges of CSU who share a common interest in gerontology, the study of human aging. The primary purpose of the interdisciplinary minor is to provide students with background academic knowledge and practicum/internship experience to work effectively with and for older adults in a variety of settings, and to enter professions in which there is a need to combine insight and skills derived from their major with knowledge about older individuals and the aging process.

For further information about the program, please consult with your academic advisor about the Gerontology Interdisciplinary Minor or contact Dr. Christine Fruhauf, Gerontology Interdisciplinary Minor Coordinator, at christine.fruhauf@colostate.edu or 970-491-1118.

Effective Fall 2019

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

A grade of C or better is required in each course that is a core requirement for the interdisciplinary minor.
Global Environmental Sustainability Interdisciplinary Minor

The School of Global Environmental Sustainability (https://sustainability.colostate.edu/) (SoGES) seeks to prepare students to meet today’s pressing environmental challenges. Using an interdisciplinary approach within a framework of sustainability, students will be led in innovative research leading to the knowledge and understanding needed to approach and solve problems of the human-environment interaction. SoGES’ vision encompasses laying the foundation and defining the principles and practices that will ensure long-term environmental sustainability, while continuing to meet the needs of people around the earth.

Effective Fall 2020

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

Program Total Credits: 21

Global Studies Interdisciplinary Minor

(970) 491-5818  
inst.colostate.edu (http://inst.colostate.edu)

Andrea Duffy, Director

The Global Studies Interdisciplinary Minor is designed to promote awareness, understanding, and appreciation for peoples and cultures around the world. It includes a choice of courses in various disciplines that emphasize international and global history, politics, languages and cultures, economics, and environmental issues. Three required interdisciplinary core courses integrate and expand on these themes. This program provides critical cultural context for students pursuing any major, and it is available to both resident and distance learners. Students enrolled in the International Studies major are not eligible for this minor.

Effective Fall 2020

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.
### Global Studies Interdisciplinary Minor

**Required Courses**

<table>

Information Science and Technology Interdisciplinary Minor

The Information Science and Technology Center (http://istec.colostate.edu/)

Dakota Cotner, Coordinator

This Interdisciplinary Minor is sponsored by five departments in different colleges across CSU: Computer Information Systems, Computer Science, Electrical and Computer Engineering, Journalism and Media Communication, and English. The program is designed for students seeking a broad foundation in information technology, but not seeking to major in a specific information technology-related field. The program requires 21 credits and is open to students majoring in any field other than Computer Science, Computer Information Systems, and Electrical and Computer Engineering.

Effective Fall 2018

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

Computer Application Requirement - Before a student is admitted to this program the student must demonstrate mastery of the following skill:

- Computer applications software - demonstrated by completion of BUS 150 or CS 110.

Integrated Resource Management Interdisciplinary Minor

Office in University Square, Room 202

The Integrated Resource Management Interdisciplinary Minor offers students from all majors an opportunity for additional specialized coursework for training in integrated resource management. The core curriculum consists of courses in the departments of Agricultural and Resource Economics, Animal Sciences, Rangeland Ecology, and Soil and Crop Sciences. The core curriculum is supplemented with several courses focused on integration of the information provided in the disciplinary courses and developing skills in systems analysis. This interdisciplinary program is aimed at providing training for students interested in careers involving the businesses associated with land and animal management.

Effective Spring 2012

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

International Development Interdisciplinary Minor

Office in Laurel Hall
(970) 491-5917
https://international.colostate.edu/global-engagement/international-development-studies/

Coordinated by the International Development Studies Board and the Office of International Programs

Learn how to think and act as an agent for positive social change.

The International Development Interdisciplinary Minor encourages students to think critically and act responsibly in an interconnected world. The 21-credit program specifically examines the methods and challenges of poverty alleviation and economic development. Coursework is flexible and individualized to meet students’ educational needs. Students work through diverse ideas of development, poverty, sustainability, and related topics. A required common course critically examines theories and processes of development. The program prepares students for a variety of employment opportunities related to international development, including volunteer work or employment in international and advocacy organizations, or business, policy, and research groups. The minor provides an international perspective that complements any CSU major.

Effective Fall 2020

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

Internship

Supporting Courses Group B 1
Select at least 3 credits from the following courses, OR from Core Courses or Supporting Courses Group A not previously taken, OR from additional courses approved by the International Development Board and advisor:

IE 116/AGRI 116  Plants and Civilizations (GT-SS3)
L*** Foreign Languages 4
POLS 131  Current World Problems (GT-SS1)
POLS 241  Comparative Government and Politics (GT-SS1)

Program Total Credits: 21

1 No more than 6 credits may be taken in any subject code from among all the supporting courses, both Group A and Group B.

2 Select from upper-division (300- to 400-level) language courses.

3 Accepted only when designated “Des Questions de development a travers le cinema africain.”

4 Select from any level language courses. A maximum of 6 credits are allowed for foreign language courses.

International Development Interdisciplinary Studies Program

Office in Laurel Hall
(970) 491-5917
https://international.colostate.edu/global-engagement/international-development-studies/

Coordinated by the International Development Studies Board and the Office of International Programs.

The International Development Graduate Interdisciplinary Studies Program focuses on the interconnected process of social, political, economic, cultural, and environmental change. Students will learn theories, approaches, and practices of international development followed by multi-lateral, bi-lateral, and non-governmental organizations. Students take 12 credits, including a common course, to learn the history, theories, applications, and impacts of development. Electives challenge students to examine development practices from multiple disciplinary viewpoints and encourage critical thinking. The program prepares students for a variety of employment opportunities related to international development including volunteer work or employment in international and advocacy organizations or business, policy, and research groups. The program encourages critical thinking and responsible action in an interconnected world. The International Development Graduate Interdisciplinary Studies Program is open to graduate students from all colleges and departments.

Requirements

Additional coursework may be required due to prerequisites.

Program Total Credits: 12

A minimum of 12 credits are required to complete this program. A minimum of 9 credits must be at 500-level or above.

¹ Accepted only when designated “Des Questions de development a travers le cinema africain.”

**Italian Studies Interdisciplinary Minor**

Office in Andrew G. Clark Building, Room C104 languages.colostate.edu/minors (https://languages.colostate.edu/minors/)

Coordinated by the Department of Languages, Literatures and Cultures

The Italian Studies Interdisciplinary Minor is designed to give students a comprehensive knowledge of different aspects of Italian language, culture, history, and artistic expressions, according to the students’ interests. Credits from study abroad programs will be properly evaluated as part of the overall program.

**Effective Spring 2015**

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

A grade of C or better is required in each course that will count toward the interdisciplinary minor.

The Latin American and Caribbean Studies Interdisciplinary Minor seeks to broaden understanding of the languages, cultures, institutions, political and economic systems, and the processes of change in Latin America. The program offers courses in a wide variety of disciplines, enabling students to gain a broader and deeper appreciation of the diverse regions of Latin America and the Caribbean. This background prepares students for specialized graduate study focusing on the region and for careers in a variety of areas.

Effective Fall 2020

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

Program Total Credits: 21-25

1 At least two courses (6-10 credits) are required in Spanish or French. Because language proficiency is required for effective research or work in this region, students are STRONGLY URGED to complete language coursework through the 300-level or above. Language courses, including Portuguese, may be taken at CSU or transferred from an accredited institution. Independent study courses may not count toward the language requirement.

2 Additional courses having a focus on Latin America or the Caribbean may be used to fulfill program requirements with approval of advisor.
pressing social issues and challenge them to become part of the solution as civically-minded leaders within their communities and professions. As a result, both experiences in, and commitments to, civic engagement, and multicultural competence are required. The interdisciplinary minor refines and expands studies done in the President’s Leadership Program to create a shared understanding of leadership which then expands to academic disciplines through upper-division capstone coursework and integration with the student’s discipline.

Effective Fall 2013

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

The Leadership Studies Interdisciplinary Minor requires admission to the President's Leadership Program.

AUCC category 4C Requirement 2

Program Total Credits: 21

1 Students may substitute courses from their major department that meets the course objectives (e.g., XXX 486, XXX 487, or XXX 498) with PLP advisor’s approval. Students may take up to two consecutive semesters to complete the credits.

2 Students must complete a minimum of 3 credits of AUCC category 4C in order to achieve the 21 credit requirement of the interdisciplinary minor. If the major does not have a 4C course that is 3 credits (either as a stand-alone 4C course or as a 4C course in combination with a 4A and/or 4B course), students should take a 4A or 4B course in their major with PLP advisor approval.

Legal Studies Interdisciplinary Minor

Interdisciplinary Liberal Arts
Clark Building, Room A-73
(970) 491-5421
libartsmajor.colostate.edu (http://libartsmajor.colostate.edu)

Kevin Foskin, Director

The Legal Studies Interdisciplinary Minor provides a broad-based academic foundation for students interested in legal or law-related fields. This minor is intended for students who plan to attend law school, as well as to those who are interested in a wide range of careers in which some grounding in legal studies is helpful, such as media, business, human resources, communications, government service, and others.

Effective Spring 2020

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

Selected Courses:

Select a minimum of 12 credits from at least two of the following categories:

1. Constitution:
   - JTC 415 Communications Law
   - LB 360 Mock Trial
   - POLS 410 American Constitutional Law
   - POLS 413 U.S. Civil Rights and Liberties
   - SPCM 349 Freedom of Speech

2. Economics/Business:
   - BUS 205 Legal and Ethical Issues in Business
   - ECON 327 Law and Economics
   - MGT 350 Employment Relations: The Legal Environment

3. Environment/Natural Resources:
   - AGRI 330 Agricultural and Food System Ethics
   - PHIL 330 or PHIL 345 Environmental Ethics
   - AREC 342 Water Law, Policy, and Institutions
   - AREC 375 Agricultural Law

4. Social/Political/International:
   - ANTH 422 Comparative Legal Systems
   - ETST 342 Asian-Pacific Americans and the Law
   - ETST 444 Federal Indian Law and Policy
   - SOC 444
   - HDFS 403 Families in the Legal Environment
   - PHIL 312 Philosophy of Law

1 Students may substitute courses from their major department that meets the course objectives (e.g., XXX 486, XXX 487, or XXX 498) with PLP advisor’s approval. Students may take up to two consecutive semesters to complete the credits.

2 Students must complete a minimum of 3 credits of AUCC category 4C in order to achieve the 21 credit requirement of the interdisciplinary minor. If the major does not have a 4C course that is 3 credits (either as a stand-alone 4C course or as a 4C course in combination with a 4A and/or 4B course), students should take a 4A or 4B course in their major with PLP advisor approval.
The Linguistics and Culture Interdisciplinary Minor is designed for students with a particular interest in language and its cultural interfaces. Its core is a pair of linguistics and anthropological linguistics courses, which are supported by courses in specific languages, and supplemented by elective courses in English; Anthropology; Languages, Literatures, and Cultures; Philosophy; and Communication Studies. Courses address current and historical descriptive, theoretical, and pedagogical issues in linguistics, cultural anthropology, philosophy of language, non-verbal communication, and the relation between communication, language and thought, providing students with a well-rounded program of study. The program is open to all students and designed to be an addition to the student's major. CSU has linguistic and cultural expertise and this program provides undergraduate students with an opportunity to broaden their education as they prepare themselves for graduate study or careers requiring an analytic understanding of the nature of language and its relations with thought and culture.

Effective Fall 2012

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

Monod defined molecular biology as “the recognition that the essential properties of living beings could be interpreted in terms of the structures of their macromolecules.”

Molecular biology is becoming increasingly recognized as a significant area of study, particularly for students interested in the rapidly emerging field of biotechnology. The course requirements for this program complement extant life science degree programs on campus. The Molecular Biology Interdisciplinary Minor—noted on the transcript—will provide recognition that the student has completed a body of course work that provides both breadth and depth in this area. This program provides students with a strong, well-balanced background in the biological, physical, and mathematical sciences. It is ideally suited for undergraduates who wish to pursue advanced degrees in biochemistry, microbiology, molecular biology, or related life sciences; for pre-professional students in health-related fields; and for students interested in employment in the biotechnology industry. The program includes study of macromolecular structure and function; cellular biochemistry; metabolism; gene expression, DNA structure, replication, and repair; cell organization, communication, growth, aging, and death. Courses in physics, organic chemistry, statistical measurements, and research methods are required. Independent study, internships, or advanced research-oriented laboratory classes are taken during the junior and senior years to provide opportunities for experiential learning and working closely with an interdisciplinary group of faculty.

Students interested in participating in this program should contact the Department of Biochemistry and Molecular Biology (http://www.bmb.colostate.edu/) (in the Molecular and Radiological Biosciences Building, Room 111, (970) 491-5602).

Effective Spring 2013

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

**Molecular, Cellular and Integrative Neurosciences Graduate Interdisciplinary Studies Program**

Molecular, Cellular and Integrative Neurosciences Special Academic Unit

Noreen Reist, Director

The Molecular, Cellular and Integrative Neurosciences (MCIN) program is a 1 year graduate Ph.D. student admission and rotation program. During their year in the program, students take a set of core courses and complete three laboratory rotations. At the end of the program, they select a faculty mentor and transfer into a participating degree granting department to complete their Ph.D. requirements. The degree- granting departments are Biochemistry and Molecular Biology; Biology; Biomedical Sciences; Chemical and Biological Engineering; Computer Science; Environmental and Radiological Health Sciences; Health and Exercise Science; Human Development and Family Studies; Microbiology; Immunology and Pathology; Occupational Therapy; and Psychology. The program has been named as one of CSU’s Programs of Research and Scholarly Excellence.

More information about the program and the MCIN faculty rotation may be found on the Molecular, Cellular and Integrative Neurosciences (MCIN) (http://mcin.colostate.edu/) website.

Music, Stage, and Sports Production Interdisciplinary Minor

Office in Clark Building, Room C244
(970) 491-6310
journalism.colostate.edu (http://journalism.colostate.edu)

Professor Steve Weiss, Coordinator

The Music, Stage, and Sports Production Interdisciplinary Minor serves students who seek a broad foundation in creating television and audio recordings of events. Students learn theory and get hands-on experience in all aspects of the production process, both in studio and on location. This includes operating television cameras and audio equipment; designing appropriate lighting and audio environments; directing live recordings; and finishing projects through the editing of audio and video. Students can select courses from six departments in the College of Liberal Arts: Dance, Communication Studies, Journalism and Media Communication, Music, and Theatre. The wide range of courses available allows students to focus on specific aspects of the production process or explore the entire spectrum of live and recorded performances. Upon completion of the minor, students will have an electronic production portfolio, which is considered a key requirement for getting a job and succeeding in this growing entertainment arena.

Effective Fall 2018

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

Students must complete 24 credits, with a minimum of 3 credits in each of at least four subject codes, with no more than 9 credits from any one subject code.

Program Total Credits: 24

1 Prerequisites for this course may be waived for students enrolled in this minor.
Organic Agriculture Interdisciplinary Minor

Contact information:
organic.agsci.colostate.edu (http://organic.colostate.edu)

Department of Soil and Crop Sciences
Adriane Elliott (Adriane.Elliott@ColoState.EDU), (970) 491-6984, Plant
Sciences C110

Department of Horticulture and Landscape Architecture
Dr. Mark Uchanski (Mark.Uchanski@colostate.edu), (970) 491-4885,
University Services Center 419

Coordinated by a Faculty Advisory Board

The Organic Agriculture Interdisciplinary Minor is designed for students
with an interest in alternative agricultural production approaches, in
particular, organic agriculture. The focus of this program is on the science
of organic agriculture with additional courses specifically focused on
organic agriculture production techniques, business management,
marketing, and decision making. Experiential learning is a critical part of
this field of study and found in many levels in discussions, laboratories,
and, most importantly, internship experiences.

The program is a cooperative effort of four departments: Agricultural and
Resource Economics, Bioagricultural Sciences and Pest Management,
Horticulture and Landscape Architecture, and Soil and Crop Sciences.
Although participating students will take courses from all four
departments, they will receive their degree from their home department,
and completion of requirements for the interdisciplinary minor will be
noted on their transcript.

Program details are available from Adriane Elliott
(Adriane.Elliott@ColoState.EDU) and Mark Uchanski
(Mark.Uchanski@colostate.edu). For more information, visit our website
at organic.agsci.colostate.edu (http://organic.colostate.edu).

Requirements

Effective Fall 2019

Students must satisfactorily complete the total credits required for the
minor. Minors and interdisciplinary minors require 12 or more upper-
division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

Find us online at the SAMD (https://www.research.colostate.edu/
SAMD/) website.

Director, Dr. Travis Bailey

The overall objective of the School of Advanced Materials Discovery
(SAMD) program is to develop students to be science and engineering
professionals who use their multidisciplinary problem solving skills
to address global challenges in the field of materials science and
engineering (MSE).

The development of advanced materials, including their synthesis,
characterization, and application in novel devices, occupies a central role
in 21st century science, technology, and business. Materials research
is, by its very nature, an extraordinarily inter- and multi-disciplinary
endeavor, involving expertise in chemistry, physics, and engineering
at the core, but also utilizing concepts from various other scientific
disciplines as well as business and sociology, as materials research
is often very focused on creating a product for the marketplace more
efficiently and effectively. Indeed, work in this area is concerned with
the structure, property, and function of materials. Thus, we will educate
future materials scientists and engineers to understand how different
combinations of molecules can result in different thermal, mechanical, electrical, optical, and magnetic properties; to measure those properties at the atomic, electronic, surface, and bulk level; and to manufacture usable devices from the resulting materials. It is imperative that the next generation of materials scientists and engineers be explicitly educated in an interdisciplinary manner. The degree program will contain elements that will address materials technology transfer, materials manufacturing, responsible conduct of research, and other professional development skills necessary for success in the materials community.

Graduate

Master's Programs

- Master of Science in Materials Science and Engineering, Plan A and Plan B

Ph.D.

- Ph.D. in Materials Science and Engineering

Courses

MSE 465 Sustainable Strategies for E-Waste Management Credits: 3 (3-0-0)
Also Offered As: GES 465.
Course Description: Trans-disciplinary overview of the electronics industry, with an emphasis on sources and impacts of e-waste on human & natural systems. Systems approaches to mitigating environmental and social impacts of electronics–from product design, materials and manufacture to use, re-use, recycle and disposal. Apply learnings in trans-disciplinary project teams to evaluate opportunities for improving the sustainability of the industry and its products.
Prerequisite: None.
Registration Information: Junior standing. Sections may be offered: Online. Credit allowed for only one of the following: GES 465, GES 481A1, MSE 465, or MSE 481A1.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

MSE 501 Materials Technology Transfer Credit: 1 (1-0-0)
Course Description: The pathways toward commercialization of materials from research. Case studies, technology readiness levels, proposal writing, entrepreneurship, and intellectual property practices.
Prerequisite: MECH 331.
Registration Information: Senior standing.
Term Offered: Fall.
Grade Mode: S/U Sat/Unsat Only.
Special Course Fee: No.

MSE 502A Materials Science & Engineering Methods: Materials Structure and Scattering Credit: 1 (1-0-0)
Course Description: Introduction to the atomic level arrangements of materials, defects related to these structures, and X-ray Diffraction, X-ray scattering, and electron diffraction methods.
Prerequisite: MATH 345 and MECH 331.
Registration Information: Senior standing.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

MSE 502B Materials Science & Engineering Methods: Computational Materials Methods Credit: 1 (1-0-0)
Course Description: Introduction to mathematical and computational methods that are used to model materials: Simulation/Modeling, Monte-Carlo, Monte-Carlo Potts, Density Functional Theory, and other approaches.
Prerequisite: (MATH 340 or MATH 345) and (MECH 331).
Registration Information: Senior standing.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

MSE 502C Materials Science & Engineering Methods: Materials Microscopy Credit: 1 (1-0-0)
Course Description: Introduction to modern microscopy techniques for materials research using optical microscopy. Interferometry and confocal techniques, scanning electron microscopy transmission electron microscopy, and scanning probe microscopy.
Prerequisite: (CHEM 431 or MECH 331) and (MATH 340 or MATH 345).
Registration Information: Senior standing.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

MSE 502D Materials Science & Engineering Methods: Materials Spectroscopy Credit: 1 (1-0-0)
Course Description: The investigation and measurement of spectra produced when matter interacts with or emits electromagnetic radiation, including an introduction to X-ray photoelectron spectroscopy, electron energy loss spectroscopy, Raman and infrared, and energy dispersive spectroscopy for materials research.
Prerequisite: (MATH 340 or MATH 345) and (MECH 331).
Registration Information: Senior standing.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MSE 502E Materials Science & Engineering Methods: Bulk Properties and Performance Credit: 1 (1-0-0)
Course Description: Physical properties of materials and how they relate to the functionalization of materials, including their use in electronic, magnetic, optical, and other functional devices.
Prerequisite: (MATH 340 or MATH 345) and (MECH 331).
Registration Information: Senior standing.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MSE 502F Materials Science & Engineering Methods: Experimental Methods for Materials Research Credit: 1 (1-0-0)
Course Description: Modern experimental design methods and techniques for materials research. Topics include vacuum systems, cryogenic experimentation, temperature characterization, data acquisition and digitization, device and circuitry design in the context of materials research.
Prerequisite: (MATH 340 or MATH 345) and (MECH 331).
Registration Information: Senior standing.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.
MSE 503 Mechanical Behaviors of Materials Credits: 3 (3-0-0)
Course Description: The mechanical behavior of metals, polymeric, ceramic, and composite materials in mechanical designs from a structure to processing to properties perspective. Practical and specific performance analyses of structural materials are examined.
Prerequisite: (MSE 501 or MSE 502A or MECH 331) and (MATH 340 or MATH 345).
Registration Information: Senior standing.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MSE 504 Thermodynamics of Materials Credits: 3 (3-0-0)
Course Description: The determination of whether and the means by which a given reaction can occur. Macroscopic and microscopic solid-state thermodynamics with experimental methodologies for characterizing them, with a focus on thermodynamic and statistical mechanical aspects of material structure-property relationships.
Prerequisite: (CBE 210 or CHEM 476 or MECH 331 or PH 361) and (MATH 340 or MATH 345).
Registration Information: Senior standing.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

MSE 505 Kinetics of Materials Credits: 3 (3-0-0)
Course Description: The determination of whether and the means by which a given reaction can occur. Macroscopic and microscopic solid-state kinetics with experimental methodologies for characterizing them, with a focus on the kinetic aspects of material structure-property relationships.
Prerequisite: MSE 504.
Registration Information: Senior standing.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MSE 631 Defects in Crystals Credits: 3 (3-0-0)
Also Offered As: MECH 631.
Course Description: Mechanics, thermodynamics and kinetics of defects in crystalline solids including point defects, dislocations, and grain boundaries.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Sections may be offered: Online. Credit allowed for only one of the following: MECH 631, MSE 631, or MECH 681A2.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MSE 651 Special Topics in Materials Science Credits: 3 (0-0-3)
Course Description: New or emerging topics in materials science and engineering.
Prerequisite: MECH 331.
Restriction: Must be a: Graduate, Professional.
Grade Mode: Traditional.
Special Course Fee: No.

MSE 695 Independent Study Credits: Var[1-5] (0-0-0)
Course Description: Independent study of special topics in materials science and engineering.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Written consent of advisor.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

MSE 699 Thesis Credits: Var[1-6] (0-0-0)
Course Description: Thesis in materials science and engineering.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Written consent of advisor.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

MSE 784 Supervised College Teaching Credits: Var[1-5] (0-0-0)
Course Description: Supervised college teaching in materials science and engineering.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Written consent of advisor.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

MSE 793 Professional Development Seminar Credit: 1 (0-0-1)
Course Description: Professional skills for careers in materials science and opportunities for students to see materials innovation and discovery up-close.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Required field trips. Restricted to students in MSE graduate programs or by consent of instructor.
Terms Offered: Fall, Spring.
Grade Mode: Instructor Option.
Special Course Fee: No.

MSE 795 Independent Study Credits: Var[1-5] (0-0-0)
Course Description: Advanced independent study of special topics in materials science and engineering.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Written consent of advisor.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

MSE 799 Dissertation Credits: Var[1-12] (0-0-0)
Course Description: Dissertation in materials science and engineering.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Written consent of advisor.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.
Master of Science in Materials Science and Engineering

Materials Science and Engineering (MSE) research is aimed at educating and training the next generation of out-of-the-box thinkers to solve the biggest global challenges.

By fostering a multidisciplinary approach, MSE degree programs strive to endow students with the tools to strategically question current design paradigms and drive innovative materials and manufacturing solutions across a diverse range of sectors. Motivated by modern materials challenges in energy, computing, transportation, impact protection, robotics, and global health care, MSE programs’ comprehensive, experiential training is designed to arm graduates with a modernized skill set tailored to confront those challenges head-on.

MSE degree programs are designed to engage students with:

- Active hands-on training in the latest materials characterization and computational methods, materials-focused intellectual property protection and technology transfer, and professional soft skill development.
- Enhanced educational opportunities promoted through industry partnerships, facilitating internships, and class time spent in active commercial manufacturing labs.
- A diverse core of faculty mentors driving advances in controlling structure at the nanoscale, predictive property modeling, high performance metal, polymer and ceramic composites, photovoltaics, and additive manufacturing.

The overall objective of the M.S. in Materials Science and Engineering, Plan A (thesis option) is to develop students to be science and engineering professionals who use their multidisciplinary problem solving skills to address global challenges in the field of materials science and engineering.

The overall objective of the M.S. in Materials Science and Engineering, Plan B, is to develop students to be science and engineering professionals who use their multidisciplinary problem solving skills to address global challenges in the field of materials science and engineering.

</tr>
</tbody>
</table>

Program Total Credits 30

A minimum of 30 credits are required to complete this program.

1. Complete a minimum of 3 credits of MSE 699.
2. Students must register for 1 credit of MSE 793 each of their first 2 semesters in the program.
3. CHEM 511, CHEM 517, ECE 574, and PH 531 can be used as specialty courses, if not used to fulfill core requirements.

PH 731 | Condensed Matter Theory |

Research and Teaching
The M.S. Plan B requires a minimum of 30 credit hours, some of which may be fulfilled with the following:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>MSE 651</td>
<td>Special Topics in Materials Science</td>
</tr>
<tr>
<td>MSE 784</td>
<td>Supervised College Teaching</td>
</tr>
</tbody>
</table>

Program Total Credits 30

A minimum of 30 credits are required to complete this program.

1. A project/report will be required for satisfactory completion of MSE 695; complete a minimum of 3 credits.
2. Students must register for 1 credit of MSE 793 each of their first 2 semesters in the program.
3. CHEM 511, CHEM 517, ECE 574, and PH 531 can be used as specialty courses, if not used to fulfill core requirements.
Ph.D. in Materials Science and Engineering

Materials Science and Engineering (MSE) research is aimed at educating and training the next generation of thinkers to solve the biggest global challenges.

By fostering a multidisciplinary approach, MSE degree programs strive to endow students with the tools to strategically question current design paradigms and drive innovative materials and manufacturing solutions across a diverse range of sectors. Motivated by modern materials challenges in energy, computing, transportation, impact protection, robotics, and global health care, MSE programs' comprehensive, experiential training is designed to equip graduates with a modernized skill set tailored to confront those challenges head-on.

The MSE Ph.D. degree program is designed to engage students with:

- Active hands-on training in the latest materials characterization and computational methods, materials-focused intellectual property protection and technology transfer, and professional soft skill development.
- Enhanced educational opportunities promoted through industry partnerships, facilitating internships and class time spent in active commercial manufacturing labs.
- A diverse core of faculty mentors driving advances in controlling structure at the nanoscale, predictive property modeling, high performance metal, polymer and ceramic composites, photovoltaics, and additive manufacturing.

The overall objective of the Ph.D. in Materials Science and Engineering is developing science and engineering professionals with multidisciplinary problem solving skills to address global challenges in the field of materials science and engineering.

School of Global Environmental Sustainability (SoGES)

School of Global Environmental Sustainability (SoGES)

Office in Johnson Hall, Room 108
(970) 491-4070

The School of Global Environmental Sustainability (http://sustainability.colostate.edu/) (SoGES) seeks to prepare students to meet today's pressing environmental challenges. Using an interdisciplinary approach within a framework of sustainability, students will be led in innovative research leading to the knowledge and understanding needed to approach and solve problems of the human-environment interaction. SoGES' vision encompasses laying the foundation and defining the principles and practices that will ensure long-term environmental sustainability, while continuing to meet the needs of people around the earth.

Undergraduate Interdisciplinary Minors

- Global Environmental Sustainability Interdisciplinary Minor
- Role of Sustainability in Peace and Reconciliation Interdisciplinary Minor
- Sustainable Energy Interdisciplinary Minor
- Sustainable Water Interdisciplinary Minor

Graduate Certificates

- Graduate Certificate in Applied Global Stability Agriculture
- Graduate Certificate in Applied Global Stability Natural Resources
- Graduate Certificate in Applied Global Stability Water Resources

Interdisciplinary Studies Program

- Sustainable Peace and Reconciliation Studies Graduate Interdisciplinary Studies Program

Courses

GES 101 Foundations of Environmental Sustainability Credits: 3 (3-0-0)
Course Description: Concepts, foundations, and metrics of global environmental sustainability applied to global challenges.
Prerequisite: None.
Registration Information: Sections may be offered: Online.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

GES 120 Water Sustainability in the Western US Credits: 3 (3-0-0)
Course Description: Water and the sustainability of its use in the West. Historical perspectives on the development of water resources in the West. Exploration of the issues involved in meeting the needs for water by people, agriculture and wildlife. Impacts of important human and natural influences on the use and sustainability of water supplies in the West.
Prerequisite: None.
Registration Information: Credit not allowed for both GES 120 and GES 180A4.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

GES 130 Introduction to Sustainability Engagement Credit: 1 (1-0-0)
Course Description: Introduction to sustainability engagement via experiential learning.
Prerequisite: None.
Restriction: Must be a: Undergraduate.
Registration Information: Written consent of instructor. Enrolled in Eco-leaders Peer Education Program.
Term Offered: Fall.
Grade Mode: S/U Sat/Unsat Only.
Special Course Fee: No.
GES 135  Applied Community Sustainability  Credits: 3 (3-0-0)
Course Description: Engaging with communities on real projects, teams of students develop workable solutions to problems related to food security, green infrastructure, urban wildlife conservation, and other sustainability topics. This course will be fully integrated with a writing course providing a complementary emphasis on values, ethics, meaning, critical thinking, writing, and speaking.
Prerequisite: None.
Registration Information: Written consent of instructor. Must register for special section of CO 150 or CO 300. Credit not allowed for both GES 135 and GES 180A3.
Term Offered: Summer.
Grade Mode: Traditional.
Special Course Fee: No.

GES 141  Introduction to Sustainable Energy  Credits: 3 (3-0-0)
Prerequisite: None.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

GES 192  Global Environmental Sustainability Seminar  Credit: 1 (0-0-0)
Course Description: This seminar introduces students to methods, practices, and ways of knowing in the disciplines represented in this multi-disciplinary field of study.
Prerequisite: None.
Registration Information: Sections may be offered: Online.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

GES 330A  Sustainability in Practice: Project  Credits: 2 (1-0-1)
Course Description: Engages students in real-world sustainability applications and empowers them to design and execute their own program or research project. A) Project. B) Service Learning.
Prerequisite: GES 101 or GES 130.
Registration Information: Credit not allowed for both GES 330A and GES 330B.
Term Offered: Spring.
Grade Mode: S/U Sat/Unsat Only.
Special Course Fee: No.

GES 330B  Sustainability in Practice: Service Learning  Credits: 3 (1-0-2)
Course Description: Engages students in real-world sustainability applications and empowers them to design and execute their own program or research project. A) Project. B) Service Learning.
Prerequisite: GES 101 or GES 130.
Registration Information: Credit not allowed for both GES 330A and GES 330B.
Term Offered: Spring.
Grade Mode: S/U Sat/Unsat Only.
Special Course Fee: No.

GES 441  Analysis of Sustainable Energy Solutions  Credits: 3 (3-0-0)
Course Description: Methods of evaluating sustainable energy technologies, including life cycle assessment, energy return on investment, technoeconomic analysis, and political ecology.
Prerequisite: GES 141.
Registration Information: Sophomore standing.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

GES 450  Global Sustainability and Health  Credits: 3 (3-0-0)
Course Description: Impact of anthropogenic environmental change on human, animal and environmental health.
Prerequisite: GES 101.
Registration Information: Junior standing.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

GES 460  Law and Sustainability  Credits: 3 (3-0-0)
Course Description: Introduction to the domestic and international laws that influence and interact with the implementation of sustainability in the U.S. and abroad.
Prerequisite: GES 101.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

GES 465  Sustainable Strategies for E-Waste Management  Credits: 3 (3-0-0)
Also Offered As: MSE 465.
Course Description: Trans-disciplinary overview of the electronics industry, with an emphasis on sources and impacts of e-waste on human & natural systems. Systems approaches to mitigating environmental and social impacts of electronics—from product design, materials and manufacture to use, re-use, recycle and disposal. Apply learnings in trans-disciplinary project teams to evaluate opportunities for improving the sustainability of the industry and its products.
Prerequisite: None.
Registration Information: Junior standing. Sections may be offered: Online. Credit allowed for only one of the following: GES 465, GES 481A1, MSE 465, or MSE 481A1.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

GES 470  Applications of Environmental Sustainability  Credits: 3 (3-0-0)
Course Description: Integration of the dimensions of global environmental sustainability—environment, society, and economy—through case studies and team project.
Prerequisite: GES 101.
Registration Information: Must have completed 12 credits of GES interdisciplinary minor; junior or senior standing. Sections may be offered: Online. Required field trips.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

GES 494  Independent Study in Global Sustainability  Credits: Var[1-3] (0-0-0)
Course Description:
Prerequisite: GES 101.
Registration Information: Written consent of instructor.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.
### GES 520 Issues in Global Environmental Sustainability  Credits: 3 (3-0-0)

**Course Description:** Analysis of the different major dimensions/definitions of sustainability in current issues involving environmental, social and economic systems.

**Prerequisite:** None.

**Restriction:** Must be a: Graduate, Professional.

**Registration Information:** Graduate standing. Sections may be offered: Online.

**Terms Offered:** Fall, Spring.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

### GES 542 Biobased Fuels, Energy, and Chemicals  Credits: 3 (3-0-0)

**Course Description:** Science and engineering aspects of biobased fuel, energy, and chemical production, including plant biology, thermochemical conversion, biomass deconstruction, fermentation, and biofuel properties. Aspects of sustainable production and economics will be discussed.

**Prerequisite:** None.

**Registration Information:** Junior standing. Required field trips. Sections may be offered: Online. Credit allowed for only one of the following: AGRI 601, ENGR 601, or GES 542.

**Terms Offered:** Fall, Spring.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

---

## Sustainable Peace and Reconciliation Studies Graduate Interdisciplinary Studies Program

108 Johnson Hall  
(970) 492-4215

Coordinated by the School of Global Environmental Sustainability (http://sustainability.colostate.edu/).

The Sustainable Peace and Reconciliation Studies Graduate Interdisciplinary Studies Program will be open to all students who want to understand more about the philosophical and educational roots of peace and reconciliation; its expression and potential within various academic disciplines, research, and service; and how these can help address issues of sustainability, i.e., the interrelated health of the environment, society, and the economy. Knowing more about the ideas that underlie nonviolent conflict resolution, effective communication, cooperation, and mediation within cross-cultural contexts will help students evaluate how sustainable peace and reconciliation can impact their beliefs, choices, and actions. Program details are available from the School of Global Environmental Sustainability (http://sustainability.colostate.edu/).

### Requirements

Additional coursework may be required due to prerequisites.

### Effective Fall 2016

**Program Total Credits:** 12

1. Choice of topic and project requires approval of faculty advisor.
2. To be done in PHIL 240.

### Graduate Certificate in Applied Global Stability: Agriculture

The Graduate Certificate in Applied Global Stability: Agriculture is geared toward non-commissioned officers and company and field-grade officers in the Special Operations and Civil Affairs communities, as well as Department of Defense, USAID, Peace Corps, and other professionals working to address the United Nations Sustainable Development Goals. The certificate courses focus on global environmental sustainability and agriculture. The certificate may be completed online or on campus and requires the completion of 12 credits. The certificate program is administered by CSU's Office of Defense Engagement (https://www.research.colostate.edu/ode/) through the School of Global Environmental Sustainability (https://sustainability.colostate.edu/).

### Requirements

Additional coursework may be required due to prerequisites.

### Effective Spring 2017

Effective coursework may be required due to prerequisites.
Graduate Certificate in Applied Global Stability: Natural Resources

The Graduate Certificate in Applied Global Stability: Natural Resources is geared toward non-commissioned officers and company and field-grade officers in the Special Operations and Civil Affairs communities, as well as Department of Defense, USAID, Peace Corps, and other professionals working to address the United Nations Sustainable Development Goals. The certificate courses focus on global environmental sustainability and natural resources. The certificate may be completed online or on campus and requires the completion of 12 credits. The certificate program is administered by CSU's Office of Defense Engagement (https://www.research.colostate.edu/ode/) through the School of Global Environmental Sustainability (https://sustainability.colostate.edu/).

Requirements

Effective Fall 2020

Additional coursework may be required due to prerequisites.

Role of Sustainability in Peace and Reconciliation Interdisciplinary Minor

108 Johnson Hall
(970) 492-4215

Coordinated by the School of Global Environmental Sustainability (http://sustainability.colostate.edu/).

The Role of Sustainability in Peace and Reconciliation Interdisciplinary Minor is open to all students who want to understand more about the philosophical roots of peace and reconciliation and its expression within various academic disciplines, research, and service. Knowing more about the ideas that underlie nonviolent conflict resolution, effective communication, cooperation, and mediation within cross-cultural contexts will help students evaluate how peace and reconciliation can impact their beliefs, choices, and actions. A 21-credit undergraduate minor and 12-credit graduate interdisciplinary studies program are available.

Effective Fall 2020

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

The graduate program in Cell and Molecular Biology is an interdisciplinary degree-granting program, involving over 100 faculty members from 16 departments and 5 colleges who share common interests in cell and molecular biology. The program offers training leading to the M.S. and Ph.D. degrees in Cell and Molecular Biology; in addition, there is a Cancer Biology Specialization. The program includes a core of lecture courses in advanced molecular genetics and cell biology, laboratory research techniques, and ethical conduct of science. Elective courses cover specialized areas, including grant writing. The program also has a graduate seminar series in which students present their research and a weekly seminar series for presentations by CSU faculty and nationally prominent scientists each year. Core courses are typically completed during the first year. On average, the M.S. degree is completed within two years, and the Ph.D. degree within five years. Current focus areas of research include, but are not limited to Cancer Biology; Gene Expression; Genome Structure, Evolution & Repair; Infectious Disease; Metabolism & Physiology; Microbiomes; Plant Molecular Biology; Prions & Neurobiology; Stem Cells & Development; Synthetic Biology. Students are encouraged to complete coursework in computational/quantitative approaches.

Students interested in this graduate program should refer to the Cell and Molecular Biology (http://www.cmb.colostate.edu/) website for further details.

**Graduate Master's Programs**
- Master of Science in Cell and Molecular Biology, Plan A
- Master of Science in Cell and Molecular Biology, Plan B

**Ph.D.**
- Ph.D. in Cell and Molecular Biology
- Ph.D. in Cell and Molecular Biology, Cancer Biology Specialization

**Master of Science in Cell and Molecular Biology**

The graduate program in Cell and Molecular Biology is an interdisciplinary, degree-granting program that comprises over 100 faculty members from 16 departments and 5 colleges who share common interests in cell and molecular biology. The M.S. program includes a core of lecture courses in advanced molecular genetics, cell biology, laboratory research techniques, science communication, and...
ethical conduct of science. Students may also select additional courses in areas related to their interests. Each year, students also participate in a student seminar series in which they present on a topic connected to cell or molecular biology and a weekly seminar series with presentations by CSU faculty and nationally prominent scientists.

Core courses can typically be completed during the first year. The Plan A M.S. degree can be completed within two years. The Plan B M.S. degree can be completed within 3 semesters.

Current focus areas of research include, but are not limited to the following: Cancer Biology; Gene Expression; Genome Structure, Evolution, & Repair; Infectious Disease; Metabolism & Physiology; Microbiomes; Plant Molecular Biology, Prions & Neurobiology; Stem Cells & Development; and Synthetic Biology. Students are encouraged to complete coursework in computational / quantitative approaches.

Students interested in this graduate program should refer to the Cell and Molecular Biology website for further details.

A minimum of 30 credits are required to complete this program.

¹ Minimum 1 credit for CM 595, with additional credits as needed to bring degree total to 30 credits, with approval of the graduate advisory committee.

² Students must take this course each year in spring or fall semester.

³ At least 4 credits in regular graduate-level courses, with approval of their graduate advisory committee.

### Ph.D. in Cell and Molecular Biology

The graduate program in Cell and Molecular Biology is an interdisciplinary degree-granting program that involves over 100 faculty members from 16 departments and 5 colleges who share common interests in cell and molecular biology. The program offers training leading to the M.S. and Ph.D. degrees in Cell and Molecular Biology; there also is a Cancer Biology specialization. The program includes a core of lecture courses in advanced molecular genetics and cell biology, laboratory research techniques, and ethical conduct of science. The program also includes elective courses in specialized areas and in grant writing, a graduate seminar series in which students present their research, and a weekly seminar series for presentations by CSU faculty and nationally prominent scientists each year. Core courses typically are completed during the first year. On average, the M.S. degree is completed within two years, and the Ph.D. degree within five years.

Current focus areas of research include, but are not limited to the following: Cancer Biology; Gene Expression; Genome Structure, Evolution, & Repair; Infectious Disease; Metabolism & Physiology; Microbiomes; Plant Molecular Biology; Prions & Neurobiology; Stem Cells.
& Development; and Synthetic Biology. Students are encouraged to complete coursework in computational / quantitative approaches.

Students interested in this graduate program should refer to the Cell and Molecular Biology website for further details.

**Independent Study and Dissertation (select a minimum of 6 credits from the following):**

- CM 795 Independent Study 2
- CM 799 Dissertation 2

**Electives must contain at least one course from each section list:**

**Ethics Electives**

- Select at least one course from the following:
  - BC 601 Responsible Conduct in Biochemistry 1
  - CM 601 Responsible Conduct of Research in CMB 1
  - CM 666/PHIL 666 Science and Ethics 3
  - GRAD 544 Ethical Conduct of Research 1
  - MIP 654 Research Policies and Regulations 1
  - NSCI 575/GRAD 575 Ethical Issues in Big Data Research 1

**Statistics Electives**

- Select at least one course from the following:
  - STAT 511A Design and Data Analysis for Researchers I: R Software 4
  - STAT 511B Design and Data Analysis for Researchers I: SAS Software 4
  - STAT 512 Design and Data Analysis for Researchers II 4
  - STAT 540 Data Analysis and Regression 3
  - VS 562 Applied Data Analysis 3
  - VS 733 Advanced Veterinary Epidemiology 4

**Topics Electives**

Topics Electives provide guided practice in reading, interpreting, and critiquing scientific literature relevant to the field of Cell & Molecular Biology.

**Preferred course, to be taken two semesters, 2 credits total:**

- CM 700 Critical Analysis of Scientific Literature 2

**Courses that could substitute for CM 700 in consultation with advisor:**

- BSPM 502B Topics in Plant Pathology: Plant Bacteriology 1
- BMS 796A/NB 796C Group Study: Topics in Neuroscience 1-4
- BMS 796B Group Study: Cardiopulmonary Physiology 1-18
- BMS 796C Group Study: Reproductive Physiology 1-18
- CHEM 651B Special Topics in Chemistry: Inorganic Chemistry 1-4
- FSHN 650A Recent Developments in Human Nutrition: Protein, Vitamins, and Minerals 2
- FSHN 650B Recent Developments in Human Nutrition: Carbohydrates, Lipids, and Energy 2
- FSHN 650C Recent Developments in Human Nutrition: Genomic, Proteomics, and Metabolomics 2
- MIP 700 Topics in Microbiology 1
- SOCR 730 Topics in Plant Breeding and Genetics 1

**Writing Electives**

- Select at least one course from the following:
  - BC 701 Grant Proposal Writing and Reviewing 1
  - BSPM 530/SOCR 530 Scientific Writing 1
  - BZ 544 Presenting Research in Biology 2
  - CM 640 Creative Science Writing 3
  - HES 700 Professional Skills in Bioenergetics 3
  - MIP 643 Grant Writing for Microbiology/Pathology 1
  - MIP 666 Writing Scientific Manuscripts 3
  - NB 771 Writing, Submitting, and Reviewing Grants 1

A minimum of 72 credits are required to complete this program.

1. CM 792 and CM 793 must be taken each year in spring or fall semester.
2. Students must complete at least one credit from each CM 795 and CM 799, and select enough independent study, dissertation, seminar, and other elective course credits to bring the program total to a minimum of 72 credits, with approval of graduate advisory committee.

---

**Ph.D. in Cell and Molecular Biology, Cancer Biology Specialization**

The Cancer Biology specialization is a focus area within the Cell and Molecular Biology Graduate Program that includes over two dozen faculty members from six departments in three colleges who share a strong interest and a broad expertise in molecular and clinical aspects of the development and treatment of cancer. The basic science and translational research activities of the focus area are
closely linked with the clinical research and clinical trials programs of the Robert H. and Mary G. Flint Animal Cancer Center. (https://www.csuanimalcancercenter.org/)

Clinical cancer treatment of pet animals is a major strength of the Cancer Biology curriculum. The Cancer Biology specialization combines nationally recognized research training, focused on cutting edge approaches to cancer diagnosis and treatment, with innovative clinical trials. Students who choose the Cancer Biology specialization complete all of the requirements of the Cell and Molecular Biology Graduate Program, including the three laboratory rotations during their first year.

Students interested in this graduate program should refer to the Cell and Molecular Biology website for further details.

**Requirements**

**Effective Fall 2019**

A maximum of 30 credits at the master's degree level may be accepted toward the Ph.D. A professional post baccalaureate degree in Medicine, Veterinary Medicine, Dentistry, or Pharmacy may be accepted for a maximum of 30 credits.

Email: Ecology@colostate.edu
ecology.colostate.edu (https://ecology.colostate.edu/)

The Graduate Degree Program in Ecology (GDPE) offers outstanding opportunities for graduate studies in basic and applied aspects of ecology. Any graduate student enrolled in a master’s or doctoral degree program with a major advisor who is a member of the GDPE faculty may participate in this university-wide, interdisciplinary Ecology program, which offers M.S. and Ph.D. degrees in Ecology. The program is a cooperative effort among over 155 faculty members from 17 departments and 6 colleges of the University who share a common interest in ecology.

The primary goal of the program is to provide basic training in current ecological methods, theories, concepts, controversies, and applications by drawing together individuals and synthesizing knowledge from a wider variety of traditional disciplinary areas of science.

Through the cooperation of the many academic departments and government agencies, the program offers a wide array of facilities, field research sites, equipment, and support services. Because of its location, one of the University’s greatest resources is its accessibility to a wide variety of field study sites. Nearby major habitats include: shortgrass steppe and mixed grass prairies; sagebrush steppe; montane and subalpine meadows, forests; southwestern deserts; alpine peaks; river and lake systems; and numerous agroecosystems.

Graduate

Master’s Programs
- Master of Science in Ecology, Plan A and Plan B

Ph.D.
- Ph.D in Ecology
- Ph.D in Ecology, Human-Environment Interactions Specialization

Courses

ECOL 505 Foundations of Ecology Credits: 3 (2-0-1)
Course Description: Overview of the science of ecology; what questions are asked, how they are answered.
Prerequisite: LAND 220 or LIFE 320 or NR 220 or LIFE 220.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ECOL 571 Advanced Topics in Ecology Credits: Var[1-3] (0-0-0)
Course Description: Current research topics presented and analyzed by visiting scientists.
Prerequisite: None.
Registration Information: One course in ecological principles.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ECOL 600 Community Ecology Credits: 3 (2-0-1)
Course Description: Current theories and tests of the dynamics and regulation of plant and animal communities.
Prerequisite: (STAT 100 to 499 - at least 1 course) and (MATH 141 or MATH 155 to 161 - at least 1 course or MATH 255 to 261 - at least 1 course) and (LAND 220 or LIFE 320 or NR 220 or LIFE 220).
Restriction: Must be a: Graduate, Professional.
Registration Information: Must register for lecture and recitation.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ECOL 610 Ecosystem Ecology Credits: 3 (3-0-0)
Course Description: Concepts, methods, issues in ecosystem science: energy and matter cycling; systems perspectives, simulation modeling, sustainability, global change.
Prerequisite: LIFE 320 or ECOL 000 to 9999 - at least 1 course.
Restriction: Must be a: Graduate, Professional.
Term Offered: Fall (even years).
Grade Mode: Traditional.
Special Course Fee: No.

ECOL 620 Applications in Landscape Ecology Credits: 4 (2-2-1)
Course Description: Spatial patterning of landscape elements and dynamics of ecological systems; spatial heterogeneity. Influence on biotic and abiotic processes.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Must register for lecture, laboratory, and recitation. Previous coursework in geographic information systems, ecology, statistics, and mathematics.
Term Offered: Fall (even years).
Grade Mode: Traditional.
Special Course Fee: No.

ECOL 693 Research Seminar Credit: 1 (0-0-1)
Course Description: Critique of research programs, plans, and ecological theory.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Written consent of instructor.
Term Offered: Fall, Spring, Summer.
Grade Mode: S/U Sat/Unsat Only.
Special Course Fee: No.

ECOL 695 Independent Study Credits: Var[1-18] (0-0-0)
Course Description: 
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Term Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.
ECOL 698  Research Credits: Var[1-18] (0-0-0)
Course Description: Non-thesis research in ecology.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ECOL 699  Thesis Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ECOL 799  Dissertation Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

1 This is a recommended subset. Refer to the regular GDPE Curriculum for a complete list.

Political Communication Interdisciplinary Minor

Effective Fall 2019

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.
**Requirements**

**Program Requirements**

1. A minimum of fifteen (15) credits from among the approved courses.
2. A minimum of nine (9) credits from the list of core courses. These must be from three (3) different departments.
3. A maximum of six (6) credits from the list of elective courses.
4. A maximum of three (3) upper-division undergraduate credits.
5. A GPA of at least 3.0 in the program courses.

**Effective Fall 2004**

Additional coursework may be required due to prerequisites.

### Program Total Credits:

**21**

---

**Political Economy Graduate Interdisciplinary Studies Program**

Office in Clark, Room C346

T (http://www.colostate.edu/Depts/PoliSci/pec)he Department of Political Science (https://polisci.colostate.edu/)

Coordinated by a Faculty Advisory Board.

Political economy is central to all the social sciences. The objective of the Political Economy Graduate Interdisciplinary Studies Program is to offer graduate students the opportunity to study political economy across disciplines. This will enrich their disciplinary training and is necessary for more holistic research. Finally, the completion of the program can be useful in seeking employment, as a specialization in political economy is frequently a central or important component of positions across the social sciences.
A minimum of 15 credits are required to complete this program.

Public Health

Sage Hall
(970) 491-5800
publichealth.colostate.edu (http://publichealth.colostate.edu)

Dr. Tracy Nelson, Director
Kendra Bigsby (kendra.bigsby@colostate.edu), Assistant Director

The Master of Public Health (MPH) degree is the primary professional degree in the field of public health. The MPH degree is intended for students who plan careers as practitioners and leaders in the field of public health. Core academic public health areas include biostatistics, epidemiology, environmental health, health services administration, and community and behavioral health.

The program is operated as one component of the Colorado School of Public Health (http://www.ucdenver.edu/academics/colleges/PublicHealth/Pages/default.aspx) (ColoradoSPH) which is a cooperative program between the University of Colorado (CU) Anschutz Medical Campus, CSU, and the University of Northern Colorado (UNC). The ColoradoSPH is accredited by the Council on Education in Public Health.

The program encompasses the major religious traditions of humankind. It enables students to integrate a field of special interest from offerings in religious studies and related areas. Students can study religion as viewed by different disciplines, e.g., philosophy, history, psychology, sociology, and anthropology. In addition, the program encourages students to view religious phenomena in their cultural context through the media of music and the arts.

Effective Fall 2019

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

- 21 credits in at least three disciplines are required: PHIL 171, PHIL 172, and at least two subject codes besides PHIL from the Additional Course list.
- A minimum grade point average of 2.000 is required in courses selected for the program.

More information on the Colorado School of Public Health, admissions requirements, and the degree options available at all three campuses can be found here. (http://www.ucdenver.edu/academics/colleges/PublicHealth/Academics/degreesandprograms/Pages/mph.aspx)

Detailed information about all of the academic options in the ColoradoSPH at the CU Anschutz Medical Campus, CSU, and the University of Northern Colorado (UNC) can be found here (https://publichealth.colostate.edu/academics/).

Religious Studies Interdisciplinary Minor

Office in Clark, Room B-356
(970) 491-6335

Coordinated by a Faculty Advisory Board and the Department of History.

The Religious Studies Interdisciplinary Minor permits students to use electives to complete 15 credits from a list of approved courses from at least three different subject codes.

The program encompasses the major religious traditions of humankind. It enables students to integrate a field of special interest from offerings in religious studies and related areas. Students can study religion as viewed by different disciplines, e.g., philosophy, history, psychology, sociology, and anthropology. In addition, the program encourages students to view religious phenomena in their cultural context through the media of music and the arts.

Areas of study at CSU include: animals, people, and the environment; epidemiology; global health and health disparities; health communication; physical activity and healthy lifestyles; and public health nutrition. Dual degree programs are available in veterinary medicine (DVM/MPH (https://vetmedbiosci.colostate.edu/dvm/special-degree-programs/)) and social work (MSW/MPH (http://publichealth.colostate.edu/dual-degree/mpw/)). The Certificate in Public Health Science (https://publichealth.colostate.edu/certificate/certificate-in-public-health-sciences/) is also offered at the CSU campus of the ColoradoSPH.

Please note that individuals wishing to apply (http://www.ucdenver.edu/academics/colleges/PublicHealth/admissionsandaid/howtoapply/Pages/MPHReqs.aspx) to the Colorado School of Public Health at CSU do not apply to the CSU Graduate School. Applications are submitted through SOPHAS (https://sophas.org/), an online application portal for accredited programs and schools of public health.

### Resilience of Social Ecological Systems Graduate Interdisciplinary Studies Program

Coordinated by the Department of Anthropology (https://anthgr.colostate.edu/).

#### Requirements

In addition to the required course, students must select one course from each of the four Groups below, A, B, C, and D, for a minimum total of 15 credits. A minimum of 9 credits must be taken at the 500-level or above. At least two courses must be from outside the student’s discipline or sub-discipline. A minimum total of 15 credits is required.

Program Total Credits: 21
A minimum of 15 credits are required to complete this program.

**Russian Studies Interdisciplinary Minor**

Office in Andrew G. Clark Building, Room C104  
(970) 491-6141

Coordinated by the Department of Languages, Literatures and Cultures

The Russian Studies Interdisciplinary Minor is designed to give students in-depth knowledge of various aspects of Russian language, literature, culture, history and artistic expression, definable by the students’ own interests. Credits from study abroad programs will be appropriately evaluated and may be included as a valuable part of the overall program.

Contact the Department of Languages, Literatures and Cultures (http://languages.colostate.edu/) for details.

**Effective Spring 2014**

Of the 21 minimum credits required for the interdisciplinary minor, at least 15 must be upper-division (300- to 400-level). At least 12 credits must be from the subject code LRUS.

Additional coursework may be required due to prerequisites.

A minimum grade of C is required for each course counted toward the interdisciplinary minor.

---

**Code** | **Title** | **Credits**
--- | --- | ---
LRUS 101 | First-Year Russian II | 12
LRUS 100 | First-Year Russian I | 6
LRUS 200 | Second-Year Russian I (GT-AH4) | 6
LRUS 201 | Second-Year Russian II (GT-AH4) | 6
LRUS 250 | Russian Language, Literature, Culture in Translation (GT-AH2) | 6
LRUS 296 | Group Study—Russian | 1
LRUS 304 | Third-Year Russian I | 6
LRUS 305 | Third-Year Russian II | 6
LRUS 350 | Russian Culture | 6
LRUS 365 | Introduction to Russian Cinema Studies | 6
LRUS 495 | Independent Study-Russian | 6
LRUS 496 | Group Study-Russian | 6

**Upper-Division Selected Courses**

Select a minimum of 9 credits from the following:

E 452 | Masterpieces of European Literature | 3
E 455 | European Literature after 1900 | 3
ECON 376 | Marxist Economic Thought | 3
HIST 324 | Imperial Russia | 3
HIST 329 | Europe in Crisis, 1914-1941 | 3
LGEN 465C | Studies in Foreign Film: Europe | 3
POLS 345 | Russian, Central, and East European Politics | 3

Program Total Credits: 21

*Course may count toward the interdisciplinary minor with approval of minor advisor.*

Students may petition to include up to 12 credits of coursework from outside the courses listed here. Courses must be from at least three different subject codes. To count toward the interdisciplinary minor, 30 percent or more of the course content should focus on Russia. Students must submit a syllabus for each course being petitioned to the Department of Languages, Literatures and Cultures and a brief description of individual work completed by the student for each proposed course. Courses from study abroad programs will be evaluated as part of the overall program.

**Sports Management Interdisciplinary Minor**

**The Sports Management Institute**

Interdisciplinary Minor Coordinator/Instruction  
Albert Bimper  
217 Eddy Hall  
Office: 970-491-1179  
albert.bimper@colostate.edu

The Sports Management Interdisciplinary Minor will provide undergraduate students with an overview of the sports industry from an interdisciplinary perspective. Students in this minor will acquire skills
in various aspects of the sports industry, including public relations, turf management, facilities and event planning, management and marketing, hospitality services, diversity and leadership. Students selected for the competitive minor track will have hands-on experiences through internships and practicum opportunities with regional professional sports franchises.

**Effective Fall 2016**

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

**Sustainable Energy Interdisciplinary Minor**

108 Johnson Hall
(970) 492-4215
Coordinated by the School of Global Environmental Sustainability (http://sustainability.colostate.edu/).

The Sustainable Energy Interdisciplinary Minor offers undergraduate students, regardless of their major, an opportunity to gain a deeper knowledge of the many dimensions of sustainable energy. Students will complete 21 credits (at least 12 upper-division credits) in core and elective courses that are relevant to the technical, environmental, and social science issues as we transition to a sustainable energy future.

**Effective Fall 2017**

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

1. At least 9 of the 12 credits required between the two Course Lists must be upper-division (300- to 400-level) credits.

### Sustainable Water Interdisciplinary Minor

Office in Engineering Building, Room E102
watercenter.colostate.edu (http://watercenter.colostate.edu)

Coordinated by the Colorado Water Center in partnership with the School of Global Environmental Sustainability.

Water is a complex, interdisciplinary topic that is critical to our economic, societal, and environmental well-being. Issues surrounding water supply, water quality, and ecological relationships have become increasingly important in Colorado, the American West, and internationally as water demands increase. The complexity of these issues and competition among various water users demands that students interested in pursuing careers in water gain a broad introduction to the issues while specializing in a particular discipline.

CSU has developed considerable water resources expertise in many academic fields over the past century. The Sustainable Water Interdisciplinary Minor (SWIM) requires 21 credits and a minimum of 12 upper-division (300- to 400-level) courses which allow undergraduates to take advantage of this expertise and broaden their background in water resources to prepare for employment or graduate-level work.

### Effective Spring 2021

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

womensstudies.colostate.edu

Coordinated by Dr. Caridad Souza, Director, Center for Women’s Studies and Gender Research

The world is complex, interconnected, and interdependent, which complicates how we understand and relate to one another. That’s why a Women’s Study Interdisciplinary Minor is important. By exploring the way gender intersects with sexuality, race, ethnicity, class, ability, religion, and nationality, our students come to better understand personal and political identities, a critical component to understanding how power and privilege play out in work, politics, and culture. Through classes in anthropology, art, economics, English, ethnic studies, psychology, sociology, and other related fields that specifically focus on women and gender dynamics, students will:

1) explore academic disciplines from a feminist and gender studies perspective;

2) develop an appreciation of the historic and contemporary contributions of women and gender in culture;
3) understand the ideological assumptions regarding women and gender implicit in social institutions;

4) recognize how multiple systems of power and privilege intersect in our everyday lives; and

5) acquire knowledge and skills necessary for physical, social, and emotional well-being.

The Women's Study Interdisciplinary Minor prepares individuals for the needs and opportunities of a changing world by building awareness of the range of human experience, potential, and accomplishment that place women and gender at the center of inquiry. Women's Studies transform disciplinary assumptions and theories, create innovative models for teaching and research, and develop practices for challenging systems of power and privilege. Students interested in pursuing the Women's Study Interdisciplinary Minor should contact the Center for Women's Studies and Gender Research (http://womensstudies.colostate.edu/). Completion of requirements will be noted on the student's permanent record.

Effective Spring 2015

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

Students enrolled in the undergraduate Women's Study Interdisciplinary Minor are required to earn a grade of C (2.000) or better in each course completed for undergraduate minor credit.

Program Total Credits: 21

1 Courses may not be used to satisfy both the “Intersectionality of Race, Sexuality, and Gender” and the “Elective Courses” categories. At least 6 of the 12 credits required for these course selections must be upper-division (300- to 400-level).

Division of Armed Forces Services

Department of Aerospace Studies
Department of Military Science

Reserve Officers’ Training Corps (ROTC) History

An Act of Congress dated July 2, 1862, provided for military science and tactics instruction in federal land-grant colleges. Such instruction has been given at Colorado State University since its establishment.

In 1919, the Department of Military Science and Tactics of the institution was included in the Reserve Officers’ Training Corps under the provisions of the First National Defense Act, July 3, 1916. The ROTC Vitalization Act of 1964 provides for a two-year ROTC program in addition to the traditional four-year program and authorizes ROTC scholarships.

General Information

The Army and Air Force four-year programs complement the four college years and include one summer encampment. Students satisfactorily completing Army or Air Force departmental requirements will be commissioned as second lieutenants in the Army, Air Force, or Space Force.

Additionally, the Army offers a two-year program whereby a student may earn a commission after completing two years of ROTC training during the junior and senior undergraduate years or during a two-year graduate degree program. This program is designed for transfer students or students unable to take ROTC training during their freshman and sophomore years. The minimum time needed in Air Force ROTC is three years.

Each student entering the junior year (freshman or sophomore year if a scholarship recipient) of ROTC enlists in the Army or Air Force Reserve and signs a contract. This contract includes a military service commitment and obligates the student to complete the junior and senior year ROTC courses, and to accept a commission as a second lieutenant.
Army contracted cadets receive a tax-free stipend of $420 per month. Air Force contracted cadets receive a monthly stipend amount based on the AS class level: Freshman $300, Sophomore $350, Junior $450, and Senior $500. The Aerospace Studies Air force ROTC book stipend is now $900.

Some graduates defer active duty until the attainment of graduate degrees. Opportunities also exist for graduate study while on active duty. Active duty officers may be selected for enrollment at civilian universities in graduate degree programs. When selected, such study is accomplished with full pay and allowances for an officer.

**Purpose**

The purpose of the Army and Air Force ROTC courses is to develop leadership capabilities, to provide expertise in organizational skills, and to qualify students for duty as officers with the Armed Forces of the United States. The courses are designed to develop self-confidence, initiative, leadership skills, critical thinking skills, and a sense of duty and honor as a citizen and potential future officer.

**College Scholarship Program**

Scholarships are available to qualifying students entering or enrolled in the University Air Force or Army ROTC programs. Scholarship consideration is predicated on student ability, performance, and potential. In order to accept the scholarship, if offered, the student must enroll in ROTC, be medically qualified for military service, pass a physical fitness test, and take an oath to defend the constitution of the United States. These ROTC scholarships may provide payment of up to full tuition (resident and non-resident), laboratory expenses, mandatory fees, a textbook allowance of $900 (Air Force) and $1,200 (Army) per year, and the tax free stipend described above.

Details of the scholarship program may be obtained online through the Air Force (http://afrotc.com/) and Army (http://www.goarmy.com/rotc/ways-to-attend.html), and from the ROTC department concerned. Refer to the department listings for names of persons who can supply additional information.

airforce.colostate.edu (http://airforce.colostate.edu)
afrotc.com (http://afrotc.com)

Colonel Timothy W. Childress, USAF, Professor of Aerospace Studies

Minor in Aerospace Studies

**Air Force ROTC**

The mission of the Air Force ROTC program is to develop and produce leaders of character for the Air and Space Forces. Enrollment is open to any student attending the University on a full-time basis. The curriculum provides the individual with a firm understanding of the concepts of aerospace power and the Air Force mission, organization, and operation.

Enrollment in AFROTC is voluntary and accomplished through the fall and spring registration periods. Scholarships are available in many academic disciplines on a competitive basis. Approximately one-half of the students hold scholarships. Depending on the semester, approximately 40% of the cadet corps consists of women. Almost all Air Force career fields are open to women, including pilot positions.

**General Program**

The four-year program consists of the General Military Course (GMC) during the freshman and sophomore years and the Professional Officer Course (POC) for the remaining two years of college. Enrolled students are referred to as cadets. Compressed options may be available for students starting after their freshman year. Four-year cadets participate in a two-week field training period during the summer between their sophomore and junior years. Students may enroll in the Aerospace Studies courses for credit or to earn a minor; however, they are not considered members of Air Force ROTC.

**Scholarships**

Air Force ROTC offers college students scholarships to pay for up to $18,000 tuition, most fees, and $900 per year for books. In addition, all cadets on scholarship receive a nontaxable monthly allowance during the academic year. Currently, the monthly amount is $300 for freshmen increasing each year up to $500 for seniors. The program is open to college freshmen and sophomores in any major.

**Summer Programs**

Air Force ROTC offers many summer programs for professional development. Before completing the ROTC program all cadets must complete field training, which is a rigorous two-week program involving physical conditioning, weapons training, and survival training. But more than that field training is an opportunity to develop your skills as both a leader and team member. In addition to field training, cadets may choose to participate in other experiences and you will be able to tell your friends that you did something truly amazing. These summer programs include: freefall parachuting, advanced engineering, NASA research, nurse orientation, cultural and language immersion programs, and several others. In addition to the experience of a lifetime, you will receive travel to and from the location, room and board, and daily training pay.

**Active Duty Obligation**

There is no active duty obligation for enrolling in either the freshman or sophomore AFROTC courses. Cadets who complete the Air Force ROTC program and receive a commission incur a minimum four-year, active duty commitment. Pilots, Combat System Operators, and Air Battle Managers serve additional commitments from the time they complete their training.

**Minor in Aerospace Studies**

**Minor in Aerospace Studies**

The minor in Aerospace Studies is offered to any student completing the course of study listed below. In addition to studying Air Force organizations, missions, and operations, the student will gain a broad perspective of the military in general by studying the history of all Department of Defense Services and completing at least one Army ROTC course, thus emphasizing our country’s focus on “joint” military operations.
Department of Military Science

Requirements
Effective Spring 2011

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

Department of Military Science

Military Science Building, Room 101
(970) 491-1640
armyrotc.colostate.edu (http://armyrotc.colostate.edu)

Mr. Peter Bleich, Recruiting Operations Officer

Minor in Military Science

Army ROTC

The Army ROTC program provides professional education and leadership training to those students who desire to serve our country as officers in the U.S. Army upon graduation. Successful completion of the program qualifies ROTC cadets for both a commission as a second lieutenant in the Army and an opportunity to serve at least four years on active duty or at least six years in the reserve component (Army Reserve or Army National Guard).

The successful ROTC cadet may choose one of the 17 diverse and exciting career fields in which to serve as an Army officer. A list of these career fields may be obtained from the Department of Military Science.

General Program

The Military Science program is subdivided into two levels. The Basic Course is aligned with the freshman and sophomore years and consists of the fundamentals of leadership and management, critical thinking, land navigation, small unit operations, and rappelling. The Advanced Course is aligned with the junior and senior years and covers leadership assessment, military history, ethics, and the Army as a profession. It also includes leadership skills that prepare the cadet for entry into active or reserve duty as a commissioned officer. Participation in leadership laboratories is open to all students who are enrolled in a military science class.

Two-Year and Graduate Degree Programs

A two-year program is available for students who have not taken the first two years of ROTC, or for those who have completed an undergraduate degree and are seeking a two-year graduate program. This program requires the student to attend a summer course at Fort Knox, Kentucky. The four-week summer course, taken between the sophomore and junior years or prior to starting a graduate degree program, consists of basic military training and allows the student to enter the Advanced Course upon return to campus. The completion of basic training during prior enlisted service will also serve as qualification to enter the two year Advanced Course.

Another option to attain an officer's commission is through the Simultaneous Membership Program (SMP). This program allows a cadet who is a member of an Army Reserve or Army National Guard unit to be in the Advanced Course of ROTC, be paid at the cadet drill pay rate (equivalent to E-5 pay), work as an officer trainee in their unit, and compete for an Army Reserve component or active duty commission. Students can also receive the GI Bill and tuition assistance benefits while in Army ROTC.

The Military Science curriculum is intended to enrich and supplement baccalaureate or postgraduate studies in all fields. The Army recognizes the need for officers with varied academic credentials and will award a commission to students who successfully complete ROTC.

Flight Training

After commissioning, flight training is available, although competitive, to those officers who have taken and passed the flight physical and flight aptitude test and have been selected for service within the Aviation Branch. The flight aptitude test is normally administered during the MS III or junior year of ROTC. Training will be rotary wing (helicopter) training.

Scholarships

CSU Army ROTC cadets may be awarded scholarships that pay full tuition (in-state or out-of-state), mandatory fees, $1,200 per year for books and a stipend (living allowance) of $420 per month. Applications for the four-year scholarship can be requested by applying online (http://www.goarmy.com/rotc/scholarships.html). Two- and three-year scholarships, for sophomores and freshmen respectively, may be applied for throughout the school year directly through the on-campus Army ROTC Program.

Financial Assistance Opportunities

In addition to two-, three-, and four-year scholarships, Army ROTC has the Simultaneous Membership Program (SMP), which provides additional experience and financial assistance from two sources: a National Guard or Reserve unit and Army ROTC. SMP students may also qualify for GI Bill.

Financial Assistance Opportunities
Environmental Studies

The broad spectrum of environmental studies at CSU is uniquely dispersed in 100 majors and concentrations housed in departments throughout CSU. As a land-grant institution, a key component of CSU's mission is to provide education in environmental management, science, and policy. It is difficult to find a degree or department that does not directly address environmental issues at local, national, and international scales. Campus-wide participation in environmental science and management is a result of fundamental linkages between basic science and management of critical environmental issues. Consequently, a unique strength of CSU is a tradition of interdisciplinary research, teaching, and service, which is essential in understanding the environmental issues of today's world.

Programs engaged in environmental studies at CSU have goals that include:

- Understanding that scientific knowledge, policy considerations, and ethical issues are necessarily joined;
- Comprehending the interrelationships among the environment, natural resources, and human society.
- Perceiving the need to integrate diverse social, political, legal, institutional, and scientific considerations inherent in attaining environmental goals;
- Educating students to be articulate, sensitive, and knowledgeable about the complexity of environmental issues facing society;
- Providing a balanced understanding of the natural and social processes as they relate to the environment.

Some examples of the many areas in environmental studies at CSU are: agricultural business; air pollution assessment and management; air quality; biological control and pest management; global climate change; biodiversity and conservation biology; biomedical engineering; ecology and ecosystem management; ecotourism; ecotoxicology; environmental communication; environmental engineering; environmental ethics; environmental history and policy analysis; environmental horticulture; environmental soil science; environmental geology, land ethics, and protected areas management; pesticide management; pollution control; reproductive and environmental risk factors; risk assessment and management; solid and hazardous waste management; sustainable building design and construction; and water chemistry, quality, and management.

The programs at CSU that engage in environmental studies are incorporated within existing majors in the following colleges (departments): College of Agricultural Sciences (Agricultural and Resource Economics; Agricultural Biology) (graduate only); Horticulture and Landscape Architecture; Soil and Crop Sciences; College of Health and Human Sciences (Construction Management); College of Engineering (Atmospheric Science) (graduate only); Chemical and Biological Engineering; Civil and Environmental Engineering; Mechanical Engineering; College of Liberal Arts (Anthropology; English; History; Philosophy; Political Science; Sociology); Warner College of Natural Resources (Fish, Wildlife, and Conservation Biology; Ecosystem Science and Sustainability; Forest and Rangeland Stewardship; Geosciences; Human Dimension of Natural Resources; Natural Resource Ecology Laboratory); College of Natural Sciences (Biology; Biochemistry and Molecular Biology; Chemistry; Physics; Psychology); College of Veterinary...
**School of Global Environmental Sustainability (SoGES)**

The School of Global Environmental Sustainability (http://sustainability.colostate.edu/) (SoGES) seeks to prepare students to meet today's pressing environmental challenges. Using an interdisciplinary approach within a framework of sustainability, students will be led in innovative research leading to the knowledge and understanding needed to approach and solve problems of the human-environment interaction. SoGES' vision encompasses laying the foundation and defining the principles and practices that will ensure long-term environmental sustainability, while continuing to meet the needs of people around the earth.

**Mentored Research and Artistry Program**

Office in the TILT Office for Undergraduate Research and Artistry
(970) 491-1566
tilt.colostate.edu/oura (http://tilt.colostate.edu/oura/)

Mark A. Brown, Director

**Program Background**

The faculty, staff, and students at CSU are actively engaged in a wide range of scholarly activities that both anticipate and respond to the interests and needs of the people of Colorado, the nation, and the world. In these endeavors, we are recognized as one of the most highly rated public research universities in the United States. Faculty, staff, and students at CSU are pioneers in a variety of disciplines that help shape our global environment. The Mentored Research and Artistry Program provides a structure for undergraduate students to engage in these activities. Whether investigating infectious disease or the benefits of music therapy, international economics, or regional climate change, every undergraduate is encouraged to contribute to the scholarly output of CSU.

**Program Philosophy**

Aristotle noted, “For the things we have to learn before we can do them, we learn by doing them.” The development and application of new knowledge plays an essential role at research-intensive universities, enhancing both learning and teaching. The Mentored Research and Artistry Program allows students to initiate a learning experience under the close guidance of a faculty mentor. Research and artistry, as an extension of the learning experience beyond the classroom, leads to the acquisition of skills and unique mindsets necessary to create new ideas and expand human knowledge. Through inquiry, students become their own teachers pursuing answers to unresolved questions and enriching their educational experience. For example, a student may use techniques learned in a chemical engineering laboratory to explore alternatives for clean energy. Another student might expand the technical repertoire of acrylic painting in the context of experimenting on canvas. In all cases, each student's path to new knowledge is enhanced with the guidance and experience of a mentor. The role of faculty mentors in undergraduate inquiry is to provide input, feedback, and support while guiding students in the responsible and ethical pursuit of new knowledge and experiences.

**Main Features**

The Mentored Research and Artistry Program is designed to enhance and recognize the learning experiences of undergraduates who are engaged in research, artistry, or other forms of creative work. The experience allows students to distinguish themselves as undergraduate scholars in their disciplines. This opportunity is open to all undergraduate students in good academic standing who have at least two full semesters remaining before graduation. The criteria for completion of the program are rigorous, ensuring that only the most dedicated students receive the distinction of Mentored Research and Artistry Program on their transcript. Students earn the right to wear the Mentored Research and Artistry Program's Silver Ribbon with their graduation regalia and of listing this distinction among their academic achievements.

**Requirements**

To complete the program, the following requirements must be satisfied.

1. Inquiry projects must be conducted under the guidance of a faculty, staff, or industry mentor for a minimum duration of two semesters. Approval of projects by the Office for Undergraduate Research and Artistry is required. Forms and guidelines for program registration are available at TILT (http://tilt.colostate.edu/oura/).
2. Participating students must complete a workshop on the Responsible Conduct of Research (https://www.research.colostate.edu/ricro/rcr/) (RCR), provided regularly by the Office for Undergraduate Research and Artistry. Upon completion of the RCR workshop, participants are required to complete the online RCR training and examination module available at RCR (https://www.research.colostate.edu/ricro/rcr/online-training-and-certification/). Students must register and actively participate in a student organization related to their discipline and approved by the Office for Undergraduate Research and Artistry. Students will be required to submit a letter from the organization's Faculty/Graduate advisor verifying the student's active involvement for at least two semesters.
3. Students must complete a research methods course with a grade of C or higher. The course must be approved by the Office for Undergraduate Research and Artistry.
4. Inquiry projects must be presented at CSU's annual Celebrate Undergraduate Research and Creativity (CURC) Showcase (https://tilt.colostate.edu/CURC/) or another venue approved by the Office for Undergraduate Research and Artistry, such as a regional or national conference. A program highlighting the participant's project or a letter of verification from the faculty mentor must be included with the final report.
5. Projects must be submitted for publication in the CSU's Journal of Undergraduate Research and Scholarly Excellence or in another peer-reviewed journal approved by the Office for Undergraduate Research and Artistry. A copy of the published manuscript or correspondence from an editor of the journal to which a manuscript
has been submitted indicating the manuscript is under review should be included with the participant’s final report.

Upon completion of a project, participants must submit a final report including a summary of the project, its outcomes, and a detailed reflection of the experience along with a letter from the mentor (report forms and guidelines are available at TILT (http://tilt.colostate.edu/oura/)). The Office for Undergraduate Research and Artistry will generate an electronic file for each participant. Upon submission of the final report, the Office for Undergraduate Research and Artistry will review the file and confirm the student’s successful completion of the program notifying CSU’s Office of the Registrar (https://registrar.colostate.edu/) for transcription of the Mentored Research and Artistry Program.

University Honors Program

Office in Academic Village, B 102
(970) 491-5679
honors.colostate.edu (http://honors.colostate.edu)

Program Philosophy

The University Honors Program, established in 1957, is a special learning community that offers extraordinary students a wide range of enriching educational experiences. Hallmarks of the program include small classes and interdisciplinary seminars taught by some of the University's finest teachers, individualized academic advising, faculty-mentored research and other creative activities, an optional residential learning community in the Academic Village, early registration for classes, core-curricular activities, a scholarship for students who enter the program in the freshman year, and assistance with applications for prestigious post-graduate awards. Approximately 1,800 students participate in the program where they receive a world class education, enjoy the personalized attention typically found at a small college, and benefit from the resources and diversity of a nationally acclaimed research university.

Main Features

**University Honors Core Curriculum.** Two curricular options provide enriched educational experiences for high achieving students in all majors. The Track 1 curriculum, designed for entering first-year students, is composed of five Honors seminars, two Honors courses in the major, and a faculty-mentored senior year creative activity (thesis). Completing Track 1 fulfills five of the categories in Colorado State University's All University Core Curriculum, as well as the oral communications requirement in most majors that require a speech class. Participating in the Honors program provides for a more enriched and rewarding education without extending the time to graduation.

The Track 2 curriculum, designed for continuing or transfer students, is composed of one to two honors seminars, five or six Honors courses (15-18 credits) and a faculty-mentored senior year creative activity (thesis). Students who have completed 15+ credits at college level and have a 3.5 cumulative grade point average are eligible to apply. Entering first-year honors freshmen who transfer 30+ credits that already satisfy many AUCC categories through AP, IB, or college courses are also eligible for Track 2 after their first semester.

**Graduating as a University Honors Scholar.** Students who complete the Honors requirements and achieve at least a 3.500 cumulative grade point average earn the prestigious designation of University Honors Scholar. Scholars are recognized at graduation, and the University Honors Scholar designation appears on their diplomas and transcripts. For more information on graduation as a University Honors Scholar, see the section on Scholastic Standards.

**Admission to the Program.** The application and selection process, which targets high school seniors and transfer students, is designed to attract an Honors class that represents high academic achievement, diversity of life experiences, and great promise for contributing to the Honors and University communities. Typically, about 500 first-year students enroll in the Honors Program each year. Currently enrolled CSU students may also apply to the University Honors Program after their first semester of college, and transfer students with a 3.5 college GPA or higher are invited to apply.

The Honors Residential Learning Community. The optional Honors Residential Learning Community (HRLC) is located in the Academic Village and in Edwards Residence Hall. It links in-class and out-of-class student learning through residence life experiences and special programs. Students, especially first-year students, are encouraged to take advantage of this special opportunity. The HRLC is home to the Honors Office and classrooms that are used for seminars, special lectures, study sessions, and a variety of co-curricular activities. The 24/7 Fireside Lounge is located near the Program Office in the Academic Village.

**The Honors Merit Scholarship.** All new first-year students who have been admitted to, confirm to the program, and participate in the University Honors program receive a renewable scholarship. Students who remain in good standing with the University Honors Program and meet the minimum GPA requirement for continuation of the honors merit scholarship will receive the scholarship for four years. Transfer students are also eligible to receive the Honors scholarship for a maximum of two years. Students entering their senior year are also invited to apply for additional donor-funded scholarships, and all honors students are encouraged to apply for Honors Enrichment Awards and Thesis Improvement Grants to supplement their educational activities.

**Requirements**

- Honors Entering Student Pathway (Option 1)
- Honors Entering Student Pathway (Option 2)
- Honors Continuing/Transfer Student Pathway

**University Honors Core Curricula**

The Honors program of study provides exceptional academic studies that include breadth and perspectives, in-depth studies, a senior year creative activity, and Honors elective courses. Two curricular pathways provide enriched educational experiences for high ability students in all majors. The Entering Student Pathway curriculum fulfills nearly half of the All-University Core Curriculum (AUCC) requirements, allowing Honors students to graduate on schedule and without additional cost. The Continuing/Transfer Student Pathway curriculum satisfies Honors requirements by taking Honors courses in their majors and departments. Students who complete either curriculum and graduate with a cumulative 3.5 GPA or greater receive “University Honors Scholar” designation on their diploma and transcripts.

The Honors courses enroll between 18 and 22 students and are taught by some of the University’s finest teachers.

**Program Total Credits:** 25

Students may take an Honors course in the major and/or enroll in elective Honors courses in their first year on campus.

\(^1\) Eighteen honors credits (sophomore [200-level], upper-division [300- to 400-level], graduate [500-level], etc.) in the major or discipline; not more than 3 credits at the sophomore level; not more than 3 credits may be outside of major or discipline.

### College of Agricultural Sciences

Office in Animal Sciences Building, Room 13
(970) 491-6274
agsci.colostate.edu (http://agsci.colostate.edu)
Professor James Pritchett, Dean
Professor Jan Leach, Associate Dean of Research
Professor Eugene Kelly, Deputy Director Ag Experiment Station, Associate Dean for Extension
Matt Camper, Assistant Dean of Teaching Practice and Academic Programs
Addy Elliott, Assistant Dean of Academic Advising and Student Success

Undergraduate Majors

Agricultural Biology
Agricultural Business
Agricultural Education
Animal Science
Environmental and Natural Resource Economics
Environmental Horticulture
Equine Science
Horticulture
Landscape Architecture
Soil and Crop Sciences

Undergraduate Minors

Agricultural Business
Agricultural Literacy
Entomology
Environmental and Natural Resource Economics
Environmental Horticulture
Horticulture
Plant Health
Soil Resources and Conservation
Soil Science

Interdepartmental Minor

Interdisciplinary Minor in Organic Agriculture

For a complete list of departmental program offerings (including certificates), see individual department catalog pages.

College-Wide Graduate Programs

Master of Agriculture in Agricultural Sciences, Plan A
Master of Agriculture in Agricultural Sciences, Plan B
Master of Agriculture in Agricultural Sciences, Integrated Resource Management Specialization
Master of Agriculture in Agricultural Sciences, Plan A, Teacher Development Specialization
Master of Agriculture in Agricultural Sciences, Plan B, Teacher Development Specialization
Master of Extension Education, Plan C (M.Ext.Ed.) previously titled Master of Agricultural Extension Education (M.A.E.E.)

Agriculture was the first science . . . the progenitor of sciences . . . and it remains the science that supports human life. It is a science concerned with improving quality of life and maintaining a productive, safe, and sustainable environment. Agricultural programs integrate biological, physical, and social sciences with agricultural sciences. Students may look forward to careers in basic and applied research; production and utilization of food and related products; resource use and conservation; industry and business; education and public service; technical and professional services; professional, scientific, and technical communication; and governmental policy and regulations of our agricultural systems.

College Programs

Undergraduate Majors

Undergraduate programs lead to a Bachelor of Science degree which requires a minimum of 120 credits, with a minimum of 42 credits in upper-division courses. Most departments have a 12-credit limit for independent study and/or internship courses in fulfillment of the 120 credits (specific limits may be obtained from the individual department). Information on interdepartmental and departmental majors, the various concentrations available, and career opportunities are described on individual program pages. Students may consider simultaneously completing the requirements for a second major. Find information about Second Major Requirements in the section on Undergraduate Degrees.

Internships

Students are encouraged to select an internship with an approved cooperator. The student’s department determines the number of allowable credits. Internships are available each term, including the summer term. Internships normally require 45 hours of contact per academic credit and do allow a stipend to be provided, though many are unpaid. Application should be made to the department at least 30 days before the term of the internship.

Education Abroad

Education Abroad programs are available to students in the College of Agricultural Sciences to become global citizens; the knowledge of other cultures is valuable in understanding our own. Students are encouraged to study outside the United States as part of their overall program at CSU. There are active programs in Australia, New Zealand, France, Costa Rica, Spain, and Mexico, in addition to other countries. Students interested in Education Abroad should plan in advance by visiting the College of Agricultural Sciences (http://agsci.colostate.edu/) and discussing opportunities with their academic advisor, the Associate Dean of Academic Programs, and/or by visiting the Office of International Programs (http://international.colostate.edu) in Laurel Hall.

Transfer of Credits from Other Institutions

Students who expect to transfer to the College of Agricultural Sciences are advised to plan carefully and in advance of their planned transfer to ensure transfer credits meet required courses in their chosen major. Transfer evaluations are generally determined by the Office of the Registrar, although departments determine transfer of courses required by the department. Students planning to transfer to CSU are encouraged to utilize Transferology (https://www.transferology.com/login.htm) to determine if courses they are taking at another institution will transfer to CSU. If a course is not listed, they should contact the (https://registrar.colostate.edu/contact-us/) Office of the Registrar (https://registrar.colostate.edu/contact-us/) on campus. (Note: Credits from two-year colleges are not accepted for 300 and above level courses at CSU.) The College of Agricultural Sciences welcomes transfer students from both two- and four-year colleges and encourages potential transfer students to work closely with the University to minimize transfer issues.

Currently, the College of Agricultural Sciences is the only institution that has the ability to grant a four-year baccalaureate in agriculture. For that reason, the College works hard to collaborate with community and four-year colleges across Colorado, collaboratively with the statewide organization entitled CACTA (Colorado Association of Colleges and
Teachers of Agriculture), to develop state-wide articulation agreements as well as transfer arrangements. This information can be found on the Office of the Registrar's website. (https://registrar.colostate.edu/transfer-agreements-guarantees/) Because of a mutual general education core, students that take courses for a major listed on a state-wide agreement are guaranteed to graduate in an additional 60 credits if they follow course recommendations.

Program Total Credits: 30

A minimum of 30 credits are required to complete this program.

1. Maximum of 3 credits allowed.
3. A maximum of 6 credit hours are permitted at the 400-level. The remainder must be at the 500-level or above.

Master of Extension Education, Plan C (M.Ext.Ed)

The Master of Extension Education (M.Ext.Ed.) is designed to train specialists to work in the broad field of Extension or a related outreach field. The program will include course work on the principles and programming of Extension as well as training on evaluation and teaching strategies in Extension settings. Students in the program will also be expected to complete an internship experience in Extension. The goal of the program is to develop the skill sets necessary to become a qualified Extension specialist.

Prior to Fall 2017, the title of this program was the Master of Agricultural Extension Education (M.A.E.E.).

Education Course Electives

Select a minimum of 9 credits from AGED, AGRI, EDAE, HDFS, JTC, and SOWK courses at the 500-level or above with approval of the student’s graduate advisor.

Select a minimum of 9 credits disciplinary course work at the 500-level or above with approval of the student’s graduate advisor.

Program Total Credits: 36

A minimum of 36 credits are required to complete this program. Of the 36 minimum credits required for this program, at least 24 credits must be earned at CSU. No independent study, research, supervised college teaching, or practicum credits may apply toward the degree.

1. A minimum of 21 credits must be earned at the 500-level or above in the student’s area of study approved by the student’s graduate advisor.
Master of Agriculture in Agricultural Sciences, Integrated Resource Management Specialization

Through the Master of Agriculture in Agricultural Sciences, Integrated Resource Management specialization, students receive interdisciplinary training in animal science, business, range science, ecology, wildlife, policy, and human resources. This fusion of topics allows students to understand how agricultural resource systems work together in a comprehensive way and how to apply them in an agricultural management setting.

The purpose of the program is to provide students with an understanding of the land resource system and how to manage land-based enterprises. The program is designed to empower students to effectively utilize and care for land resources while addressing a broad range of private and social objectives.

Graduate Programs in Agricultural and Resource Economics

The department offers graduate programs leading to Master of Science and Doctor of Philosophy degrees. A description of these programs may be found in the Graduate and Professional Bulletin or on the department's website (http://dare.agsci.colostate.edu).

Certificate

• Teaching in Extension

Master's Programs

• Master of Science in Agricultural and Resource Economics, Plan A
• Master of Science in Agricultural and Resource Economics, Plan B
• Master of Agribusiness and Food Innovation Management, Plan C

Ph.D.

• Ph.D. in Agricultural and Resource Economics

Courses

Subjects in this department include: Agricultural and Resource Economics (AREC) and Agricultural Education (AGED).

Agricultural and Resource Economics (AREC)

AREC 202 Agricultural and Resource Economics (GT-SS1) Credits: 3 (3-0-0)

Course Description: Introduction to decision-making by consumers, firms, and government and the resulting allocation of resources through markets.

Prerequisite: MATH 117, may be taken concurrently or MATH 118 or MATH 124 or MATH 125 or MATH 126 or MATH 141 or MATH 155 or MATH 159 or MATH 160.

Registration Information: Sections may be offered: Online. Credit not allowed for both AREC 202 and ECON 202.

Terms Offered: Fall, Spring.

Grade Mode: Traditional.

Special Course Fee: No.

Additional Information: Social & Behavioral Sciences 3C, Economic or Political Systems (GT-SS1).

AREC 224 Introduction to Agribusiness Entrepreneurship Credit: 1 (0-0-1)

Course Description: Introductory exposure to entrepreneurship for agribusinesses through presentations by industry professionals.

Prerequisite: AREC 202, may be taken concurrently or ECON 202, may be taken concurrently.

Registration Information: Required field trips. Sections may be offered: Online.

Term Offered: Fall.

Grade Mode: Traditional.

Special Course Fee: No.
AERC 240  Issues in Environmental Economics (GT-SS1)  Credits: 3 (3-0-0)
Also Offered As: ECON 240.
Course Description: Discussion and economic analysis of current environmental issues with special emphasis on the impact of economic growth.
Prerequisite: None.
Registration Information: Sections may be offered: Online. Credit not allowed for both AERC 240 and ECON 240.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.
Additional Information: Social & Behavioral Sciences 3C, Economic or Political Systems (GT-SS1).

AERC 305 Agricultural and Resource Enterprise Analysis  Credits: 3 (2-2-0)
Course Description: Use of records in agricultural and resource enterprise management; analytical methods, budgets, and planning techniques for improved decision making.
Prerequisite: (CIS 120 or BUS 150 or CS 110) and (AREC 202 or ECON 202).
Registration Information: Sections may be offered: Online. Must register for lecture and laboratory.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

AERC 310 Agricultural Marketing  Credits: 3 (3-0-0)
Course Description: Market structure, behavior, and performance including futures market and market games theory.
Prerequisite: AREC 202 or ECON 202.
Registration Information: Sections may be offered: Online.
Terms Offered: Fall, Spring, Summer.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

AERC 311 Agricultural and Resource Product Marketing  Credits: 3 (3-0-0)
Course Description: Theory and practice of marketing-differentiated agricultural products and natural resource amenities with focus on strategies and market trends.
Prerequisite: AREC 202 or ECON 202.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

AERC 325 Personnel Management in Agriculture  Credits: 3 (3-0-0)
Course Description: Human resource issues for agribusiness firms. Managing employees, legal issues, negotiation methods, and benefits packages. Workplace professionalism.
Prerequisite: AREC 202 or ECON 202.
Restriction: None.
Registration Information: Sections may be offered: Online.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

AERC 328 Small Agribusiness Management  Credits: 3 (3-0-0)
Course Description: Apply business principles to small food enterprises, agribusinesses and cooperatives.
Prerequisite: AREC 202 or ECON 202.
Registration Information: Sections may be offered: Online.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

AERC 335 Introduction to Econometrics  Credits: 3 (3-0-0)
Also Offered As: ECON 335.
Course Description: Estimating statistical regression models of economic relationships; treatment of special problems that may arise in analysis of economic data.
Prerequisite: (ECON 204) and (STAT 201 or STAT 204 or STAT 301 or STAT 307 or STAT 311 or STAT 315) and (MATH 141 or MATH 155 or MATH 160).
Registration Information: Credit not allowed for both ECON 335 and AREC 335. Sections may be offered: Online.
Terms Offered: Fall, Spring.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

AERC 340 Introduction-Economics of Natural Resources  Credits: 3 (3-0-0)
Also Offered As: ECON 340.
Course Description: Concepts, theories, institutions; analytical methods for economic evaluation of alternative resource use patterns and land use plans.
Prerequisite: AREC 202 or ECON 202.
Registration Information: Sections may be offered: Online. Credit not allowed for both AREC 340 and ECON 340.
Term Offered: Spring.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

AERC 341 Environmental Economics  Credits: 3 (3-0-0)
Course Description: Economic theories and analytic frameworks are developed and applied to contemporary problems of the use and protection of the natural environment.
Prerequisite: AREC 202 or ECON 202.
Registration Information: Sections may be offered: Online.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

AERC 342 Water Law, Policy, and Institutions  Credits: 3 (3-0-0)
Course Description: Legal water issues within the context of historical, social and economic development with emphasis on the southwestern United States.
Prerequisite: None.
Registration Information: Sections may be offered: Online.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.
AREC 346 Economics of Outdoor Recreation Credits: 3 (3-0-0)
Also Offered As: ECON 346.
Course Description: Application of benefit-cost framework to public planning for outdoor recreation. Topics include non-market valuation, projecting demand, cost of supplying recreation, and regional economic development.
Prerequisite: AREC 202 or ECON 202.
Registration Information: Sections may be offered: Online. Credit not allowed for both AREC 346 and ECON 346.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.
AREC 375 Agricultural Law Credits: 3 (3-0-0)
Course Description: Laws, regulations, case decisions affecting ranching and farming in the Rocky Mountain area.
Prerequisite: None.
Restriction: Must be a: Junior.
Registration Information: Junior standing. Sections may be offered: Online.
Term Offered: Fall.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.
AREC 405 Agricultural Production Management Credits: 3 (2-2-0)
Course Description: Economic principles of agricultural production decisions with linear programming analysis of production choices and farm planning.
Prerequisite: AREC 305.
Registration Information: Must register for lecture and laboratory.
Term Offered: Spring.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.
AREC 408 Agricultural Finance Credits: 3 (3-0-0)
Course Description: Monetary affairs of agribusiness and agricultural production emphasizing credit institutions and procurement, investment, and management.
Prerequisite: AREC 305.
Registration Information: Sections may be offered: Online.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.
AREC 412 Agricultural Commodities Marketing Credits: 3 (3-0-0)
Course Description: Agricultural marketing and agribusiness principles applied to current marketing problems relating to livestock and field and horticultural crops.
Prerequisite: AREC 310.
Registration Information: Sections may be offered: Online.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: Yes.
AREC 415 International Agricultural Trade Credits: 3 (3-0-0)
Course Description: Agricultural trade patterns and institutions; trade theory with applications to agriculture. Current issues in agricultural trade.
Prerequisite: AREC 310 and ECON 204.
Registration Information: Sections may be offered: Online.
Term Offered: Fall.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.
AREC 428 Agricultural Business Management Credits: 3 (3-0-0)
Course Description: Economic analysis, organization, and management practices of agriculture and food industries studied through simulation, case study, computer labs.
Prerequisite: (AREC 305) and (AREC 310 or AREC 311).
Registration Information: Senior standing. Sections may be offered: Online.
Terms Offered: Fall, Spring.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.
AREC 440 Advanced Environmental and Resource Economics Credits: 3 (3-0-0)
Course Description: Microeconomic techniques to rigorously explore economic decision-making and policy as they apply to environmental and natural resource problems.
Prerequisite: (AREC 340 or ECON 340) and (AREC 341 and ECON 306).
Registration Information: Sections may be offered: Online.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.
AREC 442 Water Resource Economics Credits: 3 (3-0-0)
Course Description: An in-depth exploration of the role of economics in water resource planning.
Prerequisite: AREC 342 and ECON 306, may be taken concurrently.
Registration Information: Credit not allowed for both AREC 442 and AREC 542.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.
AREC 444 Economics of Energy Resources Credits: 3 (3-0-0)
Also Offered As: ECON 444.
Course Description: Supply, consumption trends, and projected demand for alternative energy resources in domestic and world perspective; economics of public energy policies.
Prerequisite: ECON 306.
Registration Information: Junior standing. Sections may be offered: Online. Credit allowed for only one of the following: AREC 444, ECON 344, or ECON 444.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.
AREC 454 Real Estate Appraisal Credits: 3 (3-0-0)
Also Offered As: REL 454.
Course Description: Theoretical principles that underlie real estate appraisal methods. Procedures and practices used in real estate appraisal.
Prerequisite: (AREC 202 or ECON 202) and (AREC 305 or REL 360).
Registration Information: Sections may be offered: Online. Credit allowed for only one of the following: AREC 453, AREC 454, REL 453, or REL 454.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

<td>The historical and current economics of agriculture and natural resources in Florence, Tuscany and Italy. Focus on (1) The role of culture, creativity and place in economic development; (2) Italian culture in general; (3) the economic and political history of Florence; and (4) the production, markets and economic importance of culture and natural resource-based industries in central Italy. Prerequisite: AREC 202 or ECON 202. Registration Information: Sophomore standing. This is a partial semester course. Required field trips. Credit not allowed for both AREC 461 A and AREC 482B. Term Offered: Fall (even years). Grade Mode: Traditional. Special Course Fee: No.</td>
</tr>
<tr>
<td>AREC 461 B</td>
<td>Study Abroad--Italy: Food and Resource Economics</td>
<td>3 (0-0-3)</td>
<td>In-depth investigation of the food and natural resource-based economy of Italy through an applied economics lens. Economics and policy are used to provide insight into the integration of Italian culture and its principal food and natural resource industries. A theoretical basis for different resource management systems are presented including various methods of cost–benefit analysis, utility theory, property rights structures, government institutions, and cultural and ethical considerations. Prerequisite: AREC 202 or ECON 202. Registration Information: Sophomore standing. This is a partial semester course. Credit not allowed for both AREC 461 B and AREC 482A. Term Offered: Fall (even years). Grade Mode: Traditional. Special Course Fee: No.</td>
</tr>
<tr>
<td>AREC 478</td>
<td>Agricultural Policy</td>
<td>3 (3-0-0)</td>
<td>Formulation and administration of public policies affecting agricultural industries and rural areas in the United States. Prerequisite: AREC 202 or ECON 202 or AREC 240 or ECON 240. Registration Information: Sections may be offered: Online. Terms Offered: Fall, Spring. Grade Modes: S/U within Student Option, Trad within Student Option. Special Course Fee: No.</td>
</tr>
<tr>
<td>AREC 484</td>
<td>Supervised College Teaching</td>
<td>Var[1-5] (0-0-0)</td>
<td>Special Course Fee: No.</td>
</tr>
<tr>
<td>AREC 487</td>
<td>Internship</td>
<td>Var[1-6] (0-0-0)</td>
<td>Systematic approach to understanding and applying financial management in farm businesses. Prerequisite: (AREC 408 or FIN 305) and (ECON 306). Term Offered: Fall (odd years). Grade Mode: Traditional. Special Course Fee: No.</td>
</tr>
</tbody>
</table>
**AREC 510 Agricultural Product Marketing**  
Credits: 3 (3-0-0)  
**Course Description:** Marketing techniques, industrial organization/competition for agricultural products in US domestic, international trade, and developing country markets.  
**Prerequisite:** (AREC 310) and (AREC 335 or ECON 335).  
**Term Offered:** Fall.  
**Grade Mode:** Traditional.  
**Restriction:** None.  
**Special Course Fee:** No.  
**AREC 511 Opportunities in the Agricultural Value Chain**  
Credits: 2 (2-0-0)  
**Course Description:** Explores the economics and business structure of operations within the food and agribusiness system, using readings, field trips and guest speakers.  
**Prerequisite:** None.  
**Restriction:** Must be a: Graduate.  
**Registration Information:** Graduate standing. Required field trips. Sections may be offered: Online.  
**Term Offered:** Fall.  
**Grade Mode:** Traditional.  
**Special Course Fee:** No.  
**AREC 512 Innovation in Agribusinesses**  
Credits: 2 (2-0-0)  
**Course Description:** Core concepts of entrepreneurship within both private and social enterprises. General applications of innovation and entrepreneurship with particular emphasis on the industries that make up the agricultural and food system.  
**Prerequisite:** None.  
**Restriction:** Must be a: Graduate.  
**Registration Information:** Graduate standing. Sections may be offered: Online.  
**Term Offered:** Fall.  
**Grade Mode:** Traditional.  
**Special Course Fee:** No.  
**AREC 513 Idea Evaluation in Agricultural Value Chains**  
Credits: 2 (2-0-0)  
**Course Description:** Processes of identifying and evaluating a new idea, applying strategic and design-thinking principles and tools to explore pathways by which it could grow into a viable agribusiness.  
**Prerequisite:** None.  
**Restriction:** Must be a: Graduate.  
**Registration Information:** Graduate standing. Sections may be offered: Online.  
**Term Offered:** Fall.  
**Grade Mode:** Traditional.  
**Special Course Fee:** No.  
**AREC 514 Entrepreneurial Accounting and Finance**  
Credits: 2 (2-0-0)  
**Course Description:** Foundational background in accounting and financial concepts and mastery of financial tools needed to start a new agribusiness.  
**Prerequisite:** None.  
**Restriction:** Must be a: Graduate.  
**Registration Information:** Graduate standing. Sections may be offered: Online.  
**Term Offered:** Fall.  
**Grade Mode:** Traditional.  
**Special Course Fee:** No.  
**AREC 515 Assessing Agricultural and Food Markets**  
Credits: 2 (2-0-0)  
**Course Description:** Foundational background regarding marketing concepts needed to evaluate the potential market for an agricultural or food product or service, using an economics framework.  
**Prerequisite:** None.  
**Restriction:** Must be a: Graduate.  
**Registration Information:** Graduate standing. Sections may be offered: Online.  
**Term Offered:** Fall.  
**Grade Mode:** Traditional.  
**Special Course Fee:** No.  
**AREC 516 Business Economics for the Entrepreneur**  
Credits: 2 (2-0-0)  
**Course Description:** Microeconomic framework that a potential entrepreneur can use to analyze business opportunities. Topics include components of cost and revenue and their relevance for new business ventures, determinants and measurement of consumer demand, and alternate forms of business organization and interaction.  
**Prerequisite:** AREC 202 or ECON 202.  
**Restriction:** Must be a: Graduate.  
**Registration Information:** Graduate standing. Sections may be offered: Online.  
**Term Offered:** Fall.  
**Grade Mode:** Traditional.  
**Special Course Fee:** No.  
**AREC 517 Entrepreneurial Identity and Team Formation**  
Credits: 2 (1-2-0)  
**Course Description:** Students explore their emergent identity as "entrepreneur", including their necessary interdependence on other members of a team when engaged in creative endeavors such as innovation or new business development in the agricultural space.  
**Prerequisite:** AREC 513.  
**Restriction:** Must be a: Graduate.  
**Registration Information:** Graduate standing. Must register for lecture and laboratory. Sections may be offered: Online.  
**Term Offered:** Spring.  
**Grade Mode:** Traditional.  
**Special Course Fee:** No.  
**AREC 518 Raising Capital in the Agricultural Sector**  
Credits: 2 (2-0-0)  
**Course Description:** Methods to value a startup business and approaches to identifying sources of capital needed to launch and sustain the startup. Emphasis on unique challenges in and sources of raising capital in the agricultural sector.  
**Prerequisite:** AREC 512 and AREC 514.  
**Restriction:** Must be a: Graduate.  
**Registration Information:** Graduate standing. Sections may be offered: Online.  
**Term Offered:** Spring.  
**Grade Mode:** Traditional.  
**Special Course Fee:** No.  
**AREC 519A New Venture Communication: Interpersonal Interactions**  
Credit: 1 (0-2-0)  
**Course Description:** Communicating in the workplace, both orally and in written form. Development of a succinct business proposal.  
**Prerequisite:** AREC 517, may be taken concurrently.  
**Restriction:** Must be a: Graduate.  
**Registration Information:** Graduate standing. This is a partial semester course. Sections may be offered: Online.  
**Term Offered:** Spring.  
**Grade Mode:** Traditional.  
**Special Course Fee:** No.
AREC 519B  New Venture Communication: Making the Pitch  Credit: 1 (0-2-0)
Course Description: Emphasis on oral communication when trying to sell a business idea to potential investors. Development of tailored presentations to target audience within moments of opportunity.
Prerequisite: AREC 519A.
Restriction: Must be a: Graduate.
Registration Information: Graduate standing. Sections may be offered: Online.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

AREC 520  Intellectual Property in Food and Agriculture  Credits: 2 (2-0-0)
Course Description: Explores the critical role that intellectual property plays in commercial activities within the knowledge economy. Emphasis on strategic management of technology through patents and other control mechanisms, thereby allowing startups to survive and thrive in the knowledge economy with special attention to property developed in the agricultural and food systems.
Prerequisite: AREC 518 and BUS 660.
Restriction: Must be a: Graduate.
Registration Information: Graduate standing. Sections may be offered: Online.
Term Offered: Summer.
Grade Mode: Traditional.
Special Course Fee: No.

AREC 521  New Food Product Development  Credits: 2 (2-0-0)
Course Description: An overview of the food product development process. Topics include strategies, marketing perspectives, quality controls and supply chains in the food system.
Prerequisite: AREC 515.
Restriction: Must be a: Graduate.
Registration Information: Graduate standing. Sections may be offered: Online.
Term Offered: Summer.
Grade Mode: Traditional.
Special Course Fee: No.

AREC 528  Applied Agribusiness Decision Tools  Credits: 2 (2-0-0)
Course Description: Applications of quantitative tools for managerial decision-making in the context of an agribusiness.
Prerequisite: (AREC 305 or AREC 408 or FIN 305) and (ECON 306).
Term Offered: Fall (even years).
Grade Mode: Traditional.
Special Course Fee: No.

AREC 530  Agricultural Price Analysis  Credits: 3 (3-0-0)
Course Description: Agricultural commodity prices related to neoclassical economics; current literature emphasizing management problems.
Prerequisite: None.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

AREC 535  Applied Econometrics  Credits: 3 (3-0-0)
Also Offered As: ECON 535.
Course Description: Econometric techniques applied to testing and quantification of theoretical economic relationships drawn from both microeconomics, macroeconomics.
Prerequisite: (AREC 335 or ECON 335) and (ECON 304 or ECON 306).
Registration Information: Credit not allowed for both AREC 535 and ECON 535.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

AREC 540  Environmental and Natural Resource Economics  Credits: 3 (3-0-0)
Also Offered As: ECON 540.
Course Description: Theory, methods, and policy in environmental and natural resource economics.
Prerequisite: AREC 506 or ECON 506.
Registration Information: Credit not allowed for both AREC 540 and ECON 540.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

AREC 541  Environmental Economics  Credits: 3 (3-0-0)
Also Offered As: ECON 541.
Course Description: Economics of environmental policy; partial equilibrium and general equilibrium model; pollution; natural environments; population and economic growth.
Prerequisite: ECON 306.
Registration Information: Credit not allowed for both AREC 541 and ECON 541.
Term Offered: Spring.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

AREC 542  Applied Advanced Water Resource Economics  Credits: 3 (3-0-0)
Course Description: Theory and application of economics in water resource planning.
Prerequisite: (ECON 306 and AREC 342 and STAT 301) and (MATH 141 or MATH 155 or MATH 160).
Registration Information: Credit not allowed for both AREC 542 and AREC 442.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

AREC 547  Public Lands Planning and Management  Credits: 3 (3-0-0)
Course Description: Principles and techniques used by federal land management agencies including Forest Service, Park Service, Fish and Wildlife Service, and BLM.
Prerequisite: AREC 202 or ECON 202.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.
ARZM 563 Regional Economics-Theory, Methods, and Issues Credits: 3 (3-0-0)
Also Offered As: ECON 563.
Course Description: Tools and methods of regional economics, including supply, demand, and externality analysis. Applications to current urban and regional policy issues.
Prerequisite: ECON 306 and ECON 501, may be taken concurrently.
Registration Information: Credit not allowed for both AREC 563 and ECON 563.
Term Offered: Fall.
S/U Sat/Unsat Only.
Special Course Fee: No.

AREC 566 Contemporary Issues in Developing Countries Credits: 3 (3-0-0)
Also Offered As: SOC 566.
Course Description: Social, economic, and technological factors in developing countries.
Prerequisite: None.
Registration Information: Two or more courses in AREC or ECON or SOC.
Credit not allowed for both AREC 566 and SOC 566.
Term Offered: Spring (odd years).
Grade Mode: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

AREC 570 Methodology of Economic Research Credits: 3 (3-0-0)
Also Offered As: ECON 530.
Course Description: Philosophical foundations of science and research. Concepts and skills for planning, performing, reporting, and evaluating economic research.
Prerequisite: ECON 304 and ECON 306.
Registration Information: Credit not allowed for both AREC 570 and ECON 530.
Term Offered: Fall (even years).
Grade Mode: Traditional.
Special Course Fee: No.

AREC 572 Social Benefit Cost Analysis Credits: 3 (3-0-0)
Course Description: Theory, application of concepts relating to social benefit cost analysis of public projects, policies intended to promote social welfare, and economic growth.
Prerequisite: AREC 202 or ECON 202.
Registration Information: Sections may be offered: Online.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

AREC 586A New Venture Launch Practicum: Explore and Validate Value Proposition Credits: 2 (0-0-4)
Course Description: Team-based development of a new venture or innovation focusing on co-creation of value. Four main areas of competency—(1) entrepreneurial mindset and teamwork; (2) technology and product development; (3) communication and substantiation of value; and (4) business strategy and execution—are developed and demonstrated in the process of preparing to launch a new venture or innovation in the agricultural, food, or related industries.
Prerequisite: AREC 517, may be taken concurrently.
Restriction: Must be a Graduate.
Registration Information: Graduate standing.
Term Offered: Spring.
Grade Mode: S/U Sat/Unsat Only.
Special Course Fee: No.

AREC 586B New Venture Launch Practicum: Communicate, Design, and Iterate Credits: 2 (0-0-4)
Course Description: Team-based development of a new venture or innovation focusing on co-creation of value. Four main areas of competency—(1) entrepreneurial mindset and teamwork; (2) technology and product development; (3) communication and substantiation of value; and (4) business strategy and execution—are developed and demonstrated in the process of preparing to launch a new venture or innovation in the agricultural, food, or related industries.
Prerequisite: AREC 586A, may be taken concurrently.
Restriction: Must be a Graduate.
Registration Information: Graduate standing.
Term Offered: Summer.
Grade Mode: S/U Sat/Unsat Only.
Special Course Fee: No.

AREC 586C New Venture Launch Practicum: Final Evaluation, Presentation, and Launch Credits: Var[1-6] (0-0-0)
Course Description: Team-based development of a new venture or innovation focusing on co-creation of value. Four main areas of competency—(1) entrepreneurial mindset and teamwork; (2) technology and product development; (3) communication and substantiation of value; and (4) business strategy and execution—are developed and demonstrated in the process of preparing to launch a new venture or innovation in the agricultural, food, or related industries.
Prerequisite: AREC 586B, may be taken concurrently.
Restriction: Must be a Graduate.
Registration Information: Graduate standing. Course may be taken multiple times for maximum of 12 credits total.
Term Offered: Fall.
Grade Mode: S/U Sat/Unsat Only.
Special Course Fee: No.

AREC 605 Agricultural Production and Cost Analysis Credits: 3 (3-0-0)
Course Description: Empirical application and analysis of production and cost issues in the agricultural and natural resource sectors.
Prerequisite: (AREC 506) and (AREC 535 or ECON 535).
Restriction: Must be a Graduate, Professional.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

AREC 606 Microeconomic Analysis I Credits: 3 (3-0-0)
Also Offered As: ECON 606.
Course Description: Advanced price/allocation theory: consumer/producer decisions; uncertainty; market structure; partial/general equilibrium; efficiency/welfare.
Prerequisite: ECON 306 and ECON 501.
Restriction: Must be a Graduate, Professional.
Registration Information: Credit not allowed for both AREC 606 and ECON 606.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.
AEC 610 Agricultural Marketing and Demand Analysis Credits: 3 (3-0-0)
Course Description: Empirical application and analysis of agricultural marketing and demand issues in the agricultural and natural resource sectors.
Prerequisite: (AREC 506) and (AREC 535 or AEC 635 or ECON 535 or ECON 635).
Restriction: Must be a: Graduate, Professional.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

AEC 615 Optimization Methods for Applied Economics Credits: 3 (3-0-0)
Course Description: Theory and practice of optimization techniques used in economic applications with emphasis on linear and nonlinear programming.
Prerequisite: AEC 506.
Restriction: Must be a: Graduate, Professional.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

AEC 635 Econometric Theory I Credits: 3 (3-0-0)
Also Offered As: ECON 635.
Course Description: Theory of mathematical statistics and classical linear regression model in context of economic application.
Prerequisite: (AREC 535 or ECON 535) and (ECON 501, may be taken concurrently).
Restriction: Must be a: Graduate, Professional.
Registration Information: Credit not allowed for both AEC 635 and ECON 635.
Term Offered: Fall.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

AEC 647 Land Use Economics and Spatial Modeling Credits: 3 (3-0-0)
Course Description: Use of spatial data in economic analysis of land use focusing on development patterns, land conservation, spatial externalities and agricultural land.
Prerequisite: (AREC 506 or ECON 506) and (AREC 535 or ECON 535).
Restriction: Must be a: Graduate, Professional.
Term Offered: Fall (even years).
Grade Mode: Traditional.
Special Course Fee: No.

AEC 660 Development of Rural Resource-Based Economies Credits: 3 (3-0-0)
Course Description: Economic literature-based exploration of human welfare measures and implications of approaches to agriculture and resource-based economic development.
Prerequisite: AEC 506.
Restriction: Must be a: Graduate, Professional.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

AEC 678 Agricultural and Resource Policy Credits: 3 (3-0-0)
Course Description: Evaluate and analyze economic theory, applications and public incentives related to government policies for agriculture and natural resources.
Prerequisite: ECON 306 and MATH 141.
Restriction: Must be a: Graduate, Professional.
Term Offered: Fall.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

AEC 695 Independent Study Credits: Var[1-6] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

AEC 706 Microeconomic Analysis II Credits: 3 (3-0-0)
Course Description: Modern theoretical and empirical approaches are applied to understand producer decision-making under uncertainty, technology adoption and effects of innovation, measurements of technical efficiency and productivity, and advanced models of agricultural markets.
Prerequisite: (AREC 605) and (AREC 706, may be taken concurrently or ECON 706, may be taken concurrently) and (AREC 735 or ECON 735).
Restriction: Must be a: Graduate, Professional.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.

AEC 706 Microeconomic Analysis II Credits: 3 (3-0-0)
Course Description: Modern theoretical and empirical approaches are applied to understand producer decision-making under uncertainty, technology adoption and effects of innovation, measurements of technical efficiency and productivity, and advanced models of agricultural markets.
Prerequisite: (AREC 605) and (AREC 706, may be taken concurrently or ECON 706, may be taken concurrently) and (AREC 735 or ECON 735).
Restriction: Must be a: Graduate, Professional.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.

AEC 710 Advanced Agricultural Marketing Issues Credits: 3 (3-0-0)
Course Description: Theoretical and modeling issues of consumer demand, market structure, product differentiation and market behavior.
Prerequisite: (AREC 610) and (AREC 706, may be taken concurrently or ECON 706, may be taken concurrently) and (AREC 735 or ECON 735).
Restriction: Must be a: Graduate, Professional.
Term Offered: Fall (even years).
Grade Mode: Traditional.
Special Course Fee: No.
AREC 735 Econometric Theory II Credits: 2 (2-0-0)
Also Offered As: ECON 735.
Course Description: Econometrics models and estimators in econometrics, from fully parametric to semiparametric and nonparametric approaches.
Prerequisite: AREC 635 or ECON 635.
Restriction: Must be a: Graduate, Professional.
Registration Information: Credit not allowed for both AREC 735 and ECON 735. This is a partial-semester course.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

AREC 736A Advanced Econometric Methods: Discrete Choice Models Credit: 1 (1-0-0)
Also Offered As: ECON 736A.
Course Description: Econometrics analysis of: Discrete Choice Models.
Prerequisite: AREC 735, may be taken concurrently or ECON 735, may be taken concurrently.
Restriction: Must be a: Graduate, Professional.
Registration Information: Credit not allowed for both AREC 736A-C and ECON 736A-C. This is a partial-semester course.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

AREC 736B Advanced Econometric Methods: Panel Data Models Credit: 1 (1-0-0)
Also Offered As: ECON 736B.
Course Description: Econometrics analysis of: Panel Data Models.
Prerequisite: AREC 735, may be taken concurrently or ECON 735, may be taken concurrently.
Restriction: Must be a: Graduate, Professional.
Registration Information: Credit not allowed for both AREC 736A-C and ECON 736A-C. This is a partial-semester course.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

AREC 736C Advanced Econometric Methods: Time Series Models Credit: 1 (1-0-0)
Also Offered As: ECON 736C.
Course Description: Econometrics analysis of: Time Series Models.
Prerequisite: AREC 735, may be taken concurrently or ECON 735, may be taken concurrently.
Restriction: Must be a: Graduate, Professional.
Registration Information: Credit not allowed for both AREC 736A-C and ECON 736A-C. This is a partial-semester course.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

AREC 740 Advanced Natural Resource Economics Credits: 3 (3-0-0)
Also Offered As: ECON 740.
Course Description: Advanced theory, methods, and literature in natural resource economics, including dynamic programming and optimal control.
Prerequisite: AREC 706 or ECON 706.
Restriction: Must be a: Graduate, Professional.
Registration Information: Credit not allowed for both AREC 740 and ECON 740.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

AREC 741 Advanced Environmental Economics Credits: 3 (3-0-0)
Also Offered As: ECON 741.
Course Description: Advanced theory, methods, and literature in environmental economics.
Prerequisite: AREC 706 or ECON 706.
Restriction: Must be a: Graduate, Professional.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

AREC 770 Advanced Methods in Applied Economics Credits: 3 (3-0-0)
Course Description: Advanced research methods in applied economics: lab and field experiments, non-market valuation and discrete choice experiments.
Prerequisite: (AREC 706, may be taken concurrently or ECON 706, may be taken concurrently) and (AREC 735 or ECON 735).
Restriction: Must be a: Graduate, Professional.
Term Offered: Fall (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

AREC 784 Supervised College Teaching Credits: Var[1-3] (0-0-0)
Course Description: Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

AREC 792A Seminar: Agricultural Credits: Var[1-18] (0-0-0)
Course Description: Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

AREC 792B Seminar: International Credits: Var[1-18] (0-0-0)
Course Description: Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

AREC 792C Seminar: Resources Credits: Var[1-18] (0-0-0)
Course Description: Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

AREC 795 Independent Study Credits: Var[1-18] (0-0-0)
Course Description: Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.
AGED 799 Dissertation Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

Agricultural Education (AGED)

AGED 110 Agriculture Production Systems Credits: 3 (2-3-0)
Course Description: Broad survey of the diverse aspects of Colorado agriculture.
Prerequisite: None.
Registration Information: Required field trips.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: Yes.
Additional Information: Historical Perspectives 3D.

AGED 210 History of Agriculture in the United States Credits: 3 (3-0-0)
Course Description: Relationships in agriculture. Historical/Native American/early practices, industrial agriculture, technologies, philosophy, green revolution.
Prerequisite: CO 150.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

AGED 220 Understanding Agricultural Education Credit: 1 (1-0-0)
Course Description: Understanding different agricultural education systems. Understanding delivery models of agricultural education programs.
Prerequisite: None.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: Yes.

AGED 240 Technical Tool Applications in Ag Education Credits: 2 (1-3-0)
Course Description: Development of safe competencies and applications related to power and technical tools utilized in school-based agricultural education programs.
Prerequisite: None.
Registration Information: Must register for lecture and lab.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: Yes.

AGED 244 Power, Structure, and Tech. Systems in Ag Ed Credits: 3 (2-3-0)
Course Description: Development of competencies and theory related to agricultural power, structure, and technical systems utilized in school-based agricultural education programs.
Prerequisite: None.
Registration Information: Must register for lecture and laboratory.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: Yes.

AGED 320 Technology Lab for Ag Education Credit: 1 (0-3-0)
Course Description: Laboratory applications related to the power, structure, and technical systems pathway utilized in school-based agricultural education programs.
Prerequisite: AGED 240, may be taken concurrently or AGED 244, may be taken concurrently.
Registration Information: May be taken twice for credit.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: Yes.

AGED 330 Program Design and Evaluation in Ag. Literacy Credits: 3 (3-0-0)
Course Description: Design and evaluate programs in agricultural literacy using experiential methods.
Prerequisite: AGED 220.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

AGED 420 Developing School-Based Ag Education Programs Credits: 3 (3-0-0)
Course Description: Developing knowledge in the approach and delivery of school-based agricultural education programs.
Prerequisite: AGED 220.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: Yes.

AGED 430 Methods of Agricultural Literacy Credits: 3 (3-0-0)
Course Description: Prepare and conduct agricultural literacy instructional units to work with a variety of audiences and instructional topics.
Prerequisite: AGED 330.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: Yes.

AGED 440 Managing Experiences in Ag Ed Laboratories Credit: 1 (0-3-0)
Course Description: Theory, management and pedagogy of delivering safety instruction and experiential curriculum in secondary agricultural education laboratory settings.
Prerequisite: AGED 420.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: Yes.

AGED 486A Practicum: Agricultural Literacy Credits: Var[1-3] (0-0-0)
Course Description: Experience in the agricultural literacy field.
Prerequisite: (AGED 220) and (AGED 330 or AGED 430).
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

AGED 486B Practicum: On-site Experience in Agricultural Outreach Credits: Var[1-2] (0-0-0)
Course Description: Formalized training on conducting non-formal agricultural education at the National Western Stock Show.
Prerequisite: None.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.
AGED 486C Practicum: FFA Credits: Var[1-2] (0-0-0)
Course Description: Formalized training on managing FFA experiences, including Career Development Events and Leadership Development Events.
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

AGED 487 Internship Credits: Var[1-6] (0-0-0)
Course Description:
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

AGED 495 Independent Study Credits: Var[1-6] (0-0-0)
Course Description:
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

AGED 496 Group Study Credits: Var[1-12] (0-0-0)
Course Description:
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

AGED 510 American Agricultural Values and Ideology Credits: 3 (3-0-0)
Course Description: Explore how people have conceptualized agriculture in the United States, how agricultural ideologies have shaped our agricultural values, and how differing agricultural ideologies impact the work in agriculture today and in the future.
Prerequisite: None.
Registration Information: Senior standing. Written consent of instructor. Sections may be offered: Online.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.

AGED 525 Agricultural and Extension Teaching Credits: 3 (3-0-0)
Course Description: Use research on effective teaching methods to define and deliver educational programs, courses and presentations in formal and non-formal educational settings in agriculture. Apply organization and instructional methods to evaluate, plan, deliver and assess effective educational programs.
Prerequisite: None.
Registration Information: Graduate standing. Sections may be offered: Online.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

AGED 540 Ag Ed Laboratory Management and Safety Credits: 2 (2-0-0)
Course Description: Theory, management, and pedagogy of delivering safety instruction and experiential curriculum in secondary agricultural education laboratory settings.
Prerequisite: EDCT 420.
Restriction:
Terms Offered: Fall, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

AGED 557 Internship in Extension Credits: Var[1-2] (0-0-0)
Course Description: First-hand experiences in extension programming.
Prerequisite: AGRI 547.
Restriction:
Registration Information: Graduate standing. Sections may be offered: Online.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

AGED 600 Evaluation and Applied Research in Extension Credits: 3 (3-0-0)
Course Description: Train extension and other outreach specialists in the basics of program evaluation and research methods. Work with real world scenarios and/or their own field experiences to learn how to strategically design evaluation plans and effectively analyze the data collected. Emphasizing how to improve programming with the collected data.
Prerequisite: None.
Restriction: Must be a Graduate, Professional.
Registration Information: Sections may be offered: Online. Credit not allowed for both AGED 600 and EDRM 600.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

AGED 692 Agricultural Education Seminar Credit: 1 (0-0-1)
Course Description: Agricultural education focusing on current trends in Extension.
Prerequisite: AGED 587, may be taken concurrently.
Restriction: Must be a Graduate, Professional.
Registration Information: Enrolled in the Master of Agriculture Extension Education or the Graduate Certificate of Teaching in Extension. Sections may be offered: Online.
Terms Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

AGED 698 Agricultural Education Research Credits: Var[1-6] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a Graduate, Professional.
Registration Information: Admission to the Master of Agriculture in Agricultural Sciences, Teacher Development Specialization. Written consent of instructor.
Terms Offered: Fall, Spring, Summer.
Grade Mode: S/U Sat/Unsat Only.
Special Course Fee: No.

Major in Agricultural Business

The Agricultural Business major teaches students the operating techniques and business skills used in the modern food and fiber industry. This program builds student knowledge and skills needed to manage small- and medium-sized businesses in agriculture and allied industries. This is true whether the business is directly involved in production, value-adds to raw agricultural products, or provides support services including the distribution, processing, packaging, and marketing of agricultural products.

Two things tend to distinguish the major in Agricultural Business from a typical business degree: first, our focus tends to be on small- and medium-sized businesses where the decision maker must be more attuned to all dimensions of their operating environment, whereas more traditional business degrees often focus on a larger business...
organization where functions are more specialized. Second, the major emphasizes the importance of understanding the underlying technical processes that drive business decisions through formal course requirements in the agricultural sciences. The interface between technical training in agricultural sciences, economics, and management sets this degree apart.

Completing this program enhances students’ professional development, technical competence, problem-solving skills, and communication skills. The program operates in the nexus of business management, public policy, and agriculture. Strong interdisciplinary coordination in the department allows majors in agricultural business to strengthen their technical training by simultaneously completing a second major in allied fields including animal science, equine science, soil and crop science, agricultural education, technical journalism, and other fields of interest.

**Learning Outcomes**
Successful students will demonstrate:

- Technical competency including appropriate use of economic theory in formulating analytical problems, identifying and gathering appropriate data, and employing appropriate economic methods to analyze those problems, utilizing appropriate available computer technology
- Ability to solve real-world problems beyond the pedagogical context. Students will be able to identify a problem and its scope, evaluate resources to address the problem, formulate alternative solutions, and select the solution(s) most consistent with a stated objective
- Proficiency in oral and written communication including the ability to communicate critically and analytically at a professional level

**Potential Occupations**
Although students from farms and ranches choose this major each year, business-oriented students with a wide variety of backgrounds have launched successful careers with this versatile degree. Graduates establish careers in management, marketing, sales, and finance to name a few areas. Participating in internships and experiential opportunities is strongly encouraged to enhance practical training and development. Graduates who seek further specialization are prepared to pursue advanced studies.

Examples of career paths of recent graduates include, but are not limited to: commodity broker, agricultural statistician, loan officer, farm manager, supply chain analyst, farm machinery sales representative, grain merchandiser, operations manager, landscape contractor, human resources specialist, ranch manager, credit analyst, crop insurance agent, precision ag technologist, feedlot manager, agricultural chemical sales representative, real estate appraiser, and elevator manager.

**Concentrations**
- Agricultural Economics Concentration
- Farm and Ranch Management Concentration

**Requirements**

Effective Spring 2018

**Freshman**

The benchmark courses for the 8th semester are the remaining courses in the entire program of study.

## Major in Agricultural Business, Agricultural Economics Concentration

The Agricultural Economics concentration focuses on the theoretical and analytic tools of applied economics and provides students with the skills necessary to apply these principles in applied settings such as water, recreation, environmental economics, in industry and business, marketing, production, or government. This program is more quantitative in nature and best prepares students interested in graduate study.

### Senior

**AREC 405 Agricultural Production Management** 4A,4C 3

**AREC 415 International Agricultural Trade** 3

**AREC 478 Agricultural Policy** 4A,4B,4C 3

**ECON 304 Intermediate Macroeconomics** 3

**ECON 306 Intermediate Microeconomics** 3

**Agricultural Sciences Electives** 3

**AREC, ECON Electives** 4

**Electives** 6

**Total Credits** 29-30

**Program Total Credits:** 120

---

1. Students planning to take SOCR 240 should take CHEM 107 and CHEM 108 and reduce the number of free electives in the program.

2. Select three courses to meet the AUCC core requirements in Arts and Humanities (3B), Historical Perspectives (3D), and Diversity and Global Awareness (3E).

3. Select a total of 12 credits from courses in AGED, AGRI, ASEQ, AREC, BSPM, FSHN, FTEC, HORT, LAND, NR, RS, SOCR, or WR. A maximum of six AREC credits may be used as Agricultural Sciences electives.

4. Select credits from AREC and/or ECON courses.

5. Select enough elective credits to bring the program total to a minimum of 120 credits, of which at least 42 must be upper-division (300- to 400-level).

| Program Total Credits: |  |  |  |  | 120 |

Major in Agricultural Business, Farm and Ranch Management Concentration

The Farm and Ranch Management concentration builds skills in applied decision making required in production agriculture. The program of study allows students to apply a solid understanding of economics and the underlying physical and biological sciences that drive agricultural technology to problems facing modern farmers and ranchers.

Requirements

Major in Agricultural Education

Agricultural Education is defined as a systematic program of instruction for students desiring to learn and educate around the science, business, and technology of agriculture, food and environmental/natural resource systems. Agricultural Education prepares students for successful careers and informed choices regarding agriculture. Agricultural Education is a major in the Department of Agricultural and Resource Economics and the School of Education – Center for Educator Preparation. CSU focuses on two delivery concentrations in Agricultural Education: Teacher Development for school-based agricultural education, and Agricultural Literacy for application in non-formal and informal learning spaces. The department also offers a minor in Agricultural Literacy.

Learning Outcomes

The successful student will demonstrate:

- Significant knowledge, skills and dispositions in agriculture
- Ability to create instruction opportunities that are adapted to diverse learners
- Employment of innovative instructional methods and assessment techniques to promote learning in agriculture
• Effective program management and techniques in program evaluation

Potential Occupations

Graduates in Agricultural Education are in demand to fill a continuous shortage of agricultural teachers in Colorado and nationwide. Two-thirds of the CSU graduates have become teachers or administrators in public schools or with commodity and other agriculture-related entities that hire education/marketing specialists. Other graduates take agribusiness positions with livestock, seed, fertilizer, feed, machinery, or finance firms. Students are also prepared to teach in community or junior colleges, area career and technical schools, and technical institutes. Participation in internships is required to enhance practical training and development.

A Bachelor of Science degree in Agricultural Education with an Agricultural Literacy concentration will enable students to guide, direct, plan, deliver and assess agriculture programs for non-formal or informal programs such as museums, business or industry programs, county or state fair displays or integrated after-school programs. A Bachelor of Science in Agricultural Education with a Teacher Development concentration leads to teacher licensure by the state of Colorado. Teachers combine classroom, laboratory, and hands-on experiences, and leadership education to teach high school students about the myriad agricultural topics. The curriculum requires students to demonstrate a competent knowledge of educational theory and a broad-based understanding in agricultural content.

Advanced studies after graduation include graduate studies in agricultural education, extension education and administration, or more in-depth studies in other areas of agriculture, food and natural resources. Upon completion of these advanced degrees, additional opportunities exist for program completers including leadership positions in agricultural education, post-secondary agriculture teacher, agribusiness or agriservice representative, cooperative extension agent, education specialist, 4-H Agent, youth development specialist, science teacher.

Concentrations

• Agricultural Literacy Concentration
• Teacher Development Concentration

Major in Agricultural Education, Agricultural Literacy Concentration

An integral part of a complete agricultural education system is agricultural literacy. Agricultural literacy is the synthesis, instruction, and communication of basic information about agriculture to the public. Potential occupations may include assisting educators, producers, industry groups, and others to effectively incorporate information about agriculture into subjects being taught or examined in public and private forums. Agricultural literacy is education about agriculture. The agricultural literacy programming and training in this degree area will focus on a wide range of ages (from early childhood to adult), audiences (rural, urban, ethnically diverse, etc.) and a variety of agriculture topics. Coursework includes technical agriculture and natural resources content knowledge, communications, philosophy, and human development. Students are required to complete an internship in agricultural literacy. Students graduating with a degree in Agricultural Education with a concentration in Agricultural Literacy would have to complete additional educational coursework in order to teach in public schools in Colorado.

Potential Occupations

Potential occupations for graduates of this concentration include working for industry, trade, or community organizations that promote and advocate for an agriculturally literate society.

Program Total Credits: 120

1 Select 9 upper-division credits (300- to 400-level) from each of two pathways listed below, for a total of 18 credits. Select from the subject codes associated with each pathway, with approval of advisor.

- Animal Systems: ANEQ
- Plant Systems: BSPM, HORT, LAND, SOCR
- Agricultural Business: AREC

- Natural Resources and Environmental Systems: AREC 342, F, FW, NR, RS
- Food Products and Processing Systems: FSHN, FTEC
- Human Development: HDFS
Select enough elective credits to bring the program total to a minimum of 120 credits. At least 42 credits must be upper-division (300- to 400-level).

Major in Agricultural Education, Teacher Development Concentration

Teacher development in school-based agricultural education is delivered in a three-part model: classroom, experiential learning, and leadership development. Teacher development in school-based agriculture education is education in agriculture. In Colorado, agricultural education is delivered through approximately 120 secondary programs located throughout the state. Over 6,000 young people are enrolled in agricultural education programs in Colorado. Students in the Teacher Development concentration take classes in agriculture and in the Center for Educator Preparation (http://www.cep.chhs.colostate.edu/) (CEP). A Bachelor of Science degree in Agricultural Education with a concentration in Teacher Development leads to teacher licensure by the state of Colorado. The curriculum requires students to demonstrate a competent knowledge of educational theory and a broad-based understanding in agricultural content. Students combine practical experience and technical coursework including animal science, plant science, agricultural mechanics, natural resources, food products and processing, and agriculture.
Students must have a 2.75 GPA, pass the Praxis II assessment for Agriculture and Renewable Natural Resources licensure and complete a student teaching semester internship.

# Potential occupations

Graduates in the Teacher Development concentration are in demand to fill a shortage in agricultural education teachers. Two-thirds of program graduates take teaching and administrative positions in public schools. Other graduates fill positions in agribusiness, feed, seed, fertilizer, machinery and finance companies, and human resource positions in agribusiness companies. Additionally, graduates often pursue advanced degrees in teaching agriculture and work at community colleges, in extension, or as curriculum specialists in organizations.

# Requirements

Program Total Credits: 120

---

### Major in Environmental and Natural Resource Economics

The Major in Environmental and Natural Resource Economics prepares students to apply economic tools to evaluate the allocation and utilization of natural resources and the management of the natural environment. Economic analysis provides a strong basis to guide societal choices that directly and indirectly affect our environment. Economic theory provides a framework for understanding both environmental and natural resource issues, predicting the likely effects of government policies and regulations, and devising solutions to pressing economic and environmental problems.

This major differentiates from other programs of study that address natural resource management in that it focuses on weighing the private and public implications of choices that we make ranging from a local through a global scale. To broaden their technical training, students majoring in Environmental and Natural Resource Economics can simultaneously complete a second major in Natural Resource Management, or other more specialized majors offered through the Warner College of N (https://warnercnr.colostate.edu)atural Resources.

### Learning Outcomes

Successful students will demonstrate:

- Technical competency including appropriate use of economic theory in formulating analytical problems, identifying and gathering appropriate data, and employing appropriate economic methods to analyze those problems, utilizing appropriate available computer technology.
- Ability to solve real-world problems beyond the pedagogical context. Students will be able to identify a problem and its scope, evaluate resources available to address the problem, formulate alternative solutions, and select the solution(s) most consistent with a stated objective.
- Proficiency in oral and written communication including the ability to communicate critically and analytically at a professional level.
Potential Occupations

Environmental and resource economists are employed in a wide range of fields from education and research to business and government. Profit and non-profit organizations employ economists in international and community development, international relations, and environmental and conservation analyses. Some examples include, but are not limited to, energy resource analyst, environmental researcher/analyst, resource policy analyst, natural resource analyst, environmental pollution analyst, environmental policy analyst, economic analyst/forecaster, land use planner, international development specialist, rural community organizer, community development specialist, financial analyst, foreign trade analyst, market forecaster, and extension agent. Participation in internships, volunteer activities, and cooperative education opportunities is highly recommended to enhance practical training and development. Graduates who seek further specialization are prepared to pursue advanced studies.

Minor in Agricultural Literacy

The minor in Agricultural Literacy offers students an integrated set of courses in agricultural education, including an agricultural literacy internship. Students pursuing this minor should be passionate about content in animal sciences, plant sciences, food products and processing, or natural resources. Students should have a desire to educate others in these disciplines. These experiences help round out a student’s education for those interested in working in a broad range of fields where a background in agricultural literacy would be beneficial. Students in this minor gain valuable experiences for careers in industry, non-profit organizations, and a variety of other agricultural careers with an outreach component.

Requirements

Effective Fall 2018

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

Select 9 credits, including a minimum of 4 upper-division (300- to 400-level) credits, from the following subject codes:

AGED, AGRI, ANEQ, AREC, F, FSHN, FTEC, FW, HDFS, HORT, NR, RS, SOCR

Food Industry Management Interdisciplinary Minor

This minor provides a platform for students to integrate business principles with applied food management courses. Areas of study in the minor include food products marketing, food supply chain and cost management, food safety management, food law and policy.

Program Total Credits: 21

Minor in Agricultural Business

The minor in Agricultural Business is open to all students who desire to complete an integrated set of courses where they learn how to apply economic principles and business management tools to a broad range
of agricultural and small business management applications. Students will develop skills in agricultural production management, financial management, marketing, and international development and trade. These skills will be valuable to students seeking careers at agricultural companies, or as owner-operators in their own businesses.

The minor is highly complementary to the major fields of study that focus on the agricultural sciences (e.g., most majors within the College of Agricultural Sciences) and those that focus on other technical fields where applied business management skills are relevant. Applicable courses that contribute to the minor include core cores in agricultural economics, financial management, product and commodity marketing, law and policy, and agribusiness management.

Requirements
Effective Fall 2017

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

Elective Courses

Select 15 credits from the following:

- AREC 310 Agricultural Marketing
- AREC 325 Personnel Management in Agriculture
- AREC 328 Small Agribusiness Management or AREC 428 Agricultural Business Management
- AREC 375 Agricultural Law
- AREC 405 Agricultural Production Management
- AREC 412 Agricultural Commodities Marketing
- AREC 478 Agricultural Policy

Program Total Credits: 21

Minor in Environmental and Natural Resource Economics

The minor in Environmental and Natural Resource Economics is open to all students who desire to complete an integrated set of courses where they learn how to apply economics to a broad range of natural resources and environmental issues. Interested in how economists view climate change, parks and protected areas, renewable energy, deforestation, carbon accounting, corporate social (and environmental) responsibility and/or biodiversity and ecosystem services? Students have the opportunity to develop skills to evaluate private and societal choices that are made regarding human interactions with the natural world. Economic theory and analytical methods are central to most public policy discussions and investment projects. Students who build these skills will be positioned to guide social dialogue and private investment around some of the most important issues of the modern era.

The minor is highly complementary to the major fields of study that focus on the management of natural resources (e.g., most majors within the Warner College of Natural Resources) and those that focus on public policy and social choice. Applicable courses that contribute to the minor include core cores in environmental and natural resource economics as well as courses applied to specialty topics in water, outdoor recreation and tourism, energy, development, and agriculture.

Requirements
Effective Fall 2020

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

Master of Agribusiness and Food Innovation Management, Plan C

The professional Master of Agribusiness and Food Innovation Management (Plan C) is a program of study consisting of 35 credit hours of coursework, including 9 credit hours of practicum, that prepares students to start their own businesses in the agribusiness food system or to join the team of an existing startup in the agricultural value chain. Completion of the degree program implies mastery of what it means to be an entrepreneur, ability to describe the agriculture value chain and potential business opportunities, practical understanding of the role that economics plays in successful business startups, financial and marketing skills needed to put together a business plan, ability to evaluate the viability of a new product or service, ability to work together in a team
to put together a business plan, communication skills to sell that plan to others (particularly potential investors), and working knowledge of intellectual property and how to protect it from unauthorized exploitation. The practicum provides experience in the development of a business plan for an actual business.

**Graduate Certificate in Teaching in Extension**

This Graduate Certificate in Teaching in Extension will provide training to non-extension personnel on the purposes, history, structure, function, and development of extension education programs. Students pursuing this certificate will get fundamental training on how to deliver effective instruction in a variety of settings across multiple age groups. The coursework for this certificate includes principles of extension, delivery of extension, and advanced teaching methods for extension, plus an elective course. This certificate could be applied in a variety of different graduate programs that will provide breadth and expertise in the latest programmatic offerings and opportunities in extension. This program can be completed online (https://www.online.colostate.edu/certificates/teaching-extension/) or face-to-face on campus.

**Requirements**

**Effective Spring 2018**

Additional coursework may be required due to prerequisites.

Program Total Credits: **13**

*This certificate may have courses in common with other graduate certificates. A student may earn more than one certificate, but a given course may be counted only in one certificate.*

**Master of Science in Agricultural and Resource Economics, Plan A**

The Master of Science in Agricultural and Resource Economics, Plan A, offered by the Department of Agricultural and Resource Economics, is a program of study consisting of 30 credit hours, including the
preparation and defense of an original M.S. research thesis (up to 6 credits of research work). Completion of this degree implies a mastery of fundamental microeconomic theory and econometrics, with an ability to conduct applied economic research under supervision. Graduates are competitive for employment in the public and private sectors as analysts, consultants, researchers, and other occupations involving analytical skills. Our students have gone on to rewarding careers in federal agencies, NGOs, and the private sector. The program provides a solid foundation in microeconomics and quantitative methods, coupled with direct experience in applied economic research. This course of study represents an excellent basis for those inclined to pursue doctoral degrees, and many of our students have entered our own Ph.D. program or other top-level institutions across the country.

Master of Science in Agricultural and Resource Economics, Plan B

The Master of Science in Agricultural and Resource Economics, Plan B, offered by the Department of Agricultural and Resource Economics, is a program of study consisting of 30 credit hours in coursework, plus the preparation of a technical paper. Completion of this degree implies a mastery of fundamental microeconomic theory and econometrics, with an ability to conduct applied economic research under supervision.

Graduates are competitive for employment in the public and private sectors as analysts, consultants, researchers, and other occupations involving analytical skills. Our students have gone on to rewarding careers in federal agencies such as the National Park Service, U.S. Department of Agriculture, State Departments of Agriculture, NGOs, and the private sector. The program provides a solid foundation for the students wishing to pursue higher level graduate studies (Ph.D.), but it is particularly well suited for students seeking to directly enter the workforce or international students planning to return to their own country after obtaining the degree.

2 Students in Plan B must write a technical paper.

Ph.D. in Agricultural and Resource Economics

The Ph.D. offered by the Department of Agricultural and Resource Economics consists of 72 credits plus a substantial work of original research in the form of a dissertation. Completion of the Ph.D. in Agricultural and Resource Economics generally signifies a mastery of advanced microeconomic theory and quantitative methods, with a particular expertise in either agricultural economics or natural resource and environmental economics. Ph.D. graduates are experts in applied economics and are trained to develop and execute innovative research.
programs, teach undergraduate and graduate level economics courses, and present theoretical and applied economic concepts and results to a wide variety of audiences. Graduates of this program have gone on to succeed in a variety of positions at universities, in the public institution sector (e.g. USDA, ERS), and private enterprises including consulting firms.

A minimum of 72 credits are required to complete this program.

1. Select courses with approval of advisor and committee.
2. Student may apply an earned Master’s degree for up to 30 credits toward the PhD requirements. Specific course requirements will be substituted where evidence of equivalent learning outcomes is demonstrated.

3. Students must pass the written Ph.D. Qualifying Examinations in Quantitative Methods and in Microeconomics, the field Examination, the preliminary Oral Examination, and the final Oral Examination.

**Department of Agricultural Biology**

Office in Plant Sciences Building, Room C129
(970) 491-5261
agbio.agsci.colostate.edu (https://agbio.agsci.colostate.edu/)

Professor Amy Charkowski, Head
Janet Dill, Graduate Coordinator

**Undergraduate Majors**

- Agricultural Biology
  - Entomology Concentration
  - Plant Pathology Concentration
  - Weed Science Concentration

**Minors**

Minors are offered in Entomology and Plant Health. Students are provided with maximum breadth and depth with a limited number of required courses. The minors also serve to broaden the academic background of students seeking employment in the interdisciplinary job markets associated with most plant science majors. The minors provide adequate credits to meet most federal and state certification requirements for employment. Please contact Dr. Kondratieff for information on the entomology minor and Janet Dill for the plant health minor.

- Entomology
- Plant Health

**Graduate**

**Graduate Programs in Bioagricultural Sciences**

The department offers graduate programs leading to Master of Science and Doctor of Philosophy degrees in Bioagricultural Sciences, with specializations available in Entomology, Pest Management, Plant Pathology, and Weed Science.
Research in the department is focused in four areas of emphasis that cut across disciplinary specializations:

1. genomics and molecular biology;
2. ecology and biodiversity;
3. biology and management of invasive species; and
4. integrated pest management.

In addition, a number of faculty in the department are members of CSU’s Graduate Degree Program in Ecology or the Cell and Molecular Biology Program and advise M.S. and Ph.D. students through these programs. Students interested in graduate work should refer to the Graduate and Professional Bulletin or visit the Department of Agricultural Biology. (https://agbio.agsci.colostate.edu/)

**Master’s Programs**

- Master of Science in Bioagicultural Sciences
- Master of Science in Bioagicultural Sciences, Plan A, Entomology Specialization
- Master of Science in Bioagicultural Sciences, Plan B, Pest Management Specialization
- Master of Science in Bioagicultural Sciences, Plan A, Plant Pathology Specialization
- Master of Science in Bioagicultural Sciences, Plan A, Weed Science Specialization

**Ph.D.**

- Ph.D. in Bioagicultural Sciences
- Ph.D. in Bioagicultural Sciences, Entomology Specialization
- Ph.D. in Bioagicultural Sciences, Plant Pathology Specialization
- Ph.D. in Bioagicultural Sciences, Weed Science Specialization

**Courses**

Subjects in this department include: Agricultural Biology (AB) and Bioagicultural Sciences and Pest Management (BSPM)

### Agricultural Biology (AB)

**AB 120 Agricultural Biology --Freshman Orientation Credit: 1 (1-0-0)**

*Course Description:* Introduction to information and skills necessary to succeed in the agricultural biology major.
*Prerequisite:* None.
*Restriction:* Must be a: Undergraduate.
*Registration Information:* This is a partial semester course.
*Term Offered:* Fall.
*Grade Mode:* Traditional.
*Special Course Fee:* No.

**AB 130 Working with Agricultural Biology Data Credit: 1 (1-0-0)**

*Course Description:* Introduction to the scientific method and systems thinking in terms of agricultural biology. Develop a hypothesis based on field observations, collect and analyze data to determine if findings align with the hypothesis. Results are communicated in a written report, and oral presentation.
*Prerequisite:* AB 120, may be taken concurrently.
*Restriction:* Must be a: Undergraduate.
*Registration Information:* This is a partial semester course.
*Term Offered:* Spring.
*Grade Mode:* Traditional.
*Special Course Fee:* No.

**AB 230 Becoming an Agricultural Biology Professional Credit: 1 (1-0-0)**

*Course Description:* Design professional resumes, and develop interpersonal skills to succeed in a professional environment. Develop criteria to write a report from internships, and develop skills in interpretation of qualitative and quantitative agricultural biology data.
*Prerequisite:* AB 130.
*Registration Information:* Agricultural biology majors only. This is a partial semester course. Credit not allowed for both AB 230 and AB 270.
*Term Offered:* Spring.
*Grade Mode:* Traditional.
*Special Course Fee:* No.

**AB 270 Agri. Biology Orientation for Transfers Credits: 2 (2-0-0)**

*Course Description:* Introduction to the scientific method and systems thinking in terms of agricultural biology. Develop a hypothesis based on field observations, collect and analyze data. Prepare to become agricultural biology professionals by designing resumes and practicing skills to succeed in a professional environment.
*Prerequisite:* None.
*Registration Information:* Agricultural biology majors only. Written consent of instructor. Credit not allowed for both AB 230 and AB 270.
*Term Offered:* Fall.
*Grade Mode:* Traditional.
*Special Course Fee:* No.

**AB 310 Understanding Pesticides Credits: 3 (3-0-0)**

*Course Description:* Identification, properties, use, labeling, environmental interactions, and application of major classes of pesticides.
*Prerequisite:* BZ 100 to 199 - at least 3 credits or CHEM 100 to 199 - at least 3 credits.
*Registration Information:* Junior standing. Sections may be offered: Online. Credit not allowed for both AB 310 and BSPM 310.
*Term Offered:* Spring.
*Grade Mode:* Traditional.
*Special Course Fee:* No.

**AB 330 Applications in Agricultural Biology I Credits: 2 (2-0-0)**

*Course Description:* Knowledge, skills, and abilities to propose sustainable solutions to biological problems in natural or managed ecosystems. Collectively discuss a diverse set of case studies that incorporate systems approach in solving agricultural biology issues. Hone career plans and professional skills.
*Prerequisite:* (AB 230 or AB 270) and (BSPM 302).
*Restriction:* Must be a: Undergraduate.
*Registration Information:* Agricultural biology majors only.
*Term Offered:* Fall.
*Grade Mode:* Traditional.
*Special Course Fee:* No.

**AB 340 Applications in Agricultural Biology II Credits: 3 (3-0-0)**

*Course Description:* Apply systems thinking and dynamic systems modeling to case studies and a capstone project that poses sustainable solutions to biological problems in natural or managed ecosystems. Hone career plans and professional skills.
*Prerequisite:* AB 330.
*Restriction:* Must be a: Undergraduate.
*Registration Information:* Agricultural biology majors only.
*Term Offered:* Fall.
*Grade Mode:* Traditional.
*Special Course Fee:* No.
AB 509 Herbicide Selectivity and Action

**Course Description:** Explores the physicochemical properties of herbicides, their selectivity (through placement and metabolism), their mechanism of action, uses in weed management, visual symptoms of herbicide treatment, how plants can evolve resistance to these compounds, and controversial topics related to the use of herbicides.

**Prerequisite:** None.

**Registration Information:** Sections may be offered: Online.

**Term Offered:** Fall (even years).

**Grade Mode:** Traditional.

**Special Course Fee:** No.

AB 511 Microbiome of Plant Systems

**Course Description:** Emphasizes interdisciplinary and cross curricular education with training in disciplines that support an increased understanding of plant associated microbiome and their optimization.

**Prerequisite:** None.

**Restriction:** Must be a Graduate.

**Registration Information:** Graduate standing.

**Term Offered:** Fall.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

### Bioagricultural Sciences and Pest Management (BSPM)

**BSPM 102 Insects, Science, and Society (GT-SC2)**

**Credits:** 3 (3-0-0)

**Course Description:** How insects develop, behave, and affect human activity. What every student should know about the most diverse life form on Earth.

**Prerequisite:** None.

**Registration Information:** Credit not allowed for both BSPM 102 and BSPM 356A.

**Terms Offered:** Fall, Spring, Summer.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**Additional Information:** Biological & Physical Sciences 3A, Natural & Physical Sciences w/o lab (GT-SC2).

**BSPM 201 Weed Management and Control**

**Credits:** 3 (3-0-0)

**Course Description:** Basic overview of weeds and weed control.

**Prerequisite:** None.

**Registration Information:** Offered as an online course only.

**Terms Offered:** Fall, Spring.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**BSPM 300 Topics in Livestock Entomology**

**Credit:** 1 (1-0-0)

**Also Offered As:** ANEQ 300B.

**Course Description:** Identification, biology, and management of insect, tick, and mite pests.

**Prerequisite:** BZ 100 to 199 between 3 and 5 credits - at least 3 credits or LIFE 100 to 199 between 3 and 5 credits - at least 3 credits.

**Registration Information:** Credit not allowed for both BSPM 300 and ANEQ 300B.

**Term Offered:** Spring.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**BSPM 302 Applied and General Entomology**

**Credits:** 2 (2-0-0)

**Course Description:** Biology and management of insects.

**Prerequisite:** None.

**Registration Information:** Credit not allowed for both BSPM 302 and BSPM 356A.

**Term Offered:** Fall.

**Grade Modes:** S/U within Student Option, Trad within Student Option.

**Special Course Fee:** No.

**BSPM 303A Entomology Laboratory: General**

**Credits:** 2 (0-4-0)

**Course Description:** Biology and recognition of insects.

**Prerequisite:** BSPM 302, may be taken concurrently.

**Term Offered:** Fall.

**Grade Mode:** Traditional.

**Special Course Fee:** Yes.

**BSPM 303B Entomology Laboratory: Horticultural**

**Credit:** 1 (0-2-0)

**Course Description:** Biology and recognition of insects.

**Prerequisite:** BSPM 302, may be taken concurrently.

**Term Offered:** Fall (even years).

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**BSPM 303C Entomology Laboratory: Agricultural**

**Credit:** 1 (0-2-0)

**Course Description:** Biology and recognition of insects.

**Prerequisite:** BSPM 302, may be taken concurrently.

**Term Offered:** Fall (even years).

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**BSPM 308 Ecology and Management of Weeds**

**Credits:** 3 (2-3-0)

**Course Description:** Classification, characteristics; weed biology and ecology; control by cultural, mechanical, chemical, and biological means; successional management.

**Prerequisite:** (BZ 120 or LIFE 103) and (CHEM 107 or CHEM 111).

**Registration Information:** Must register for lecture and laboratory. Required field trips.

**Term Offered:** Fall.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**BSPM 355A Horticulture Pathology: General Pathology**

**Credit:** 1 (1-0-0)

**Course Description:** A 5-week course consisting of General Plant Pathology; identification of the organisms that can cause plant diseases.

**Prerequisite:** HORT 100 to 199 or LIFE 100 to 199.

**Registration Information:** Written consent of instructor. This is a partial semester course. Offered as an online course only. Credit not allowed for both BSPM 355A and BSPM 381A2.

**Term Offered:** Fall.

**Grade Mode:** Traditional.

**Special Course Fee:** No.

**BSPM 355B Hort Pathology: Turf and Ornamental Disease**

**Credit:** 1 (1-0-0)

**Course Description:** Turf and ornamental plant diseases, their management and control.

**Prerequisite:** BSPM 355A.

**Registration Information:** Written consent of instructor. This is a partial semester course. Offered as an online course only. Credit not allowed for both BSPM 355B and BSPM 361.

**Term Offered:** Fall.

**Grade Mode:** Traditional.

**Special Course Fee:** No.
BSPM 355C Horticulture Pathology: Vegetable and Greenhouse Disease  Credit: 1 (1-0-0)
Course Description: Diseases in the Greenhouse and Vegetable crops, management and control.
Prerequisite: BSPM 355A.
Registration Information: Offered as an online course only. This is a partial semester course. Written consent of instructor.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

BSPM 356A Horticultural Entomology Introduction  Credit: 1 (1-0-0)
Course Description: Basic biology, identification and management of insects and mites affecting horticultural crops.
Prerequisite: HORT 100 to 199 or LIFE 100 to 199.
Registration Information: Written consent of instructor. This is a partial semester course. Offered as an online course only. Credit not allowed for both BSPM 102 and BSPM 356A. Credit not allowed for both BSPM 302 and BSPM 356A. Credit not allowed for both BSPM 303B and BSPM 356A.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

BSPM 356B Horticultural Entomology: Food Crops  Credit: 1 (1-0-0)
Course Description: Insect and mite pests of fruits, vegetables and other garden grown food crops.
Prerequisite: BSPM 102 or BSPM 302 or BSPM 356A.
Registration Information: This is a partial semester course. Offered as an online course only.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

BSPM 356C Horticultural Entomology: Landscape Plants  Credit: 1 (1-0-0)
Course Description: Insect and mite pests of ornamentals (woody plants, flowers) and turfgrass and their management.
Prerequisite: BSPM 102 or BSPM 302 or BSPM 356A.
Registration Information: Written consent of instructor. This is a partial semester course. Offered as an online course only.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

BSPM 361 Elements of Plant Pathology  Credits: 3 (2-2-0)
Course Description: Diseases of economic plants.
Prerequisite: BZ 104 or BZ 120 or HORT 100 or LIFE 102.
Registration Information: Must register for lecture and laboratory.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: Yes.

BSPM 365 Integrated Tree Health Management  Credits: 4 (3-3-0)
Course Description: Insects and diseases in forest and urban ecosystems. Effects, diagnosis, prevention, and interactions.
Prerequisite: BZ 120 or LIFE 102.
Registration Information: Must register for lecture and laboratory. Required field trips.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: Yes.

BSPM 384 Supervised College Teaching  Credits: Var[1-3] (0-0-0)
Course Description:
Prerequisite: None.
Registration Information: A maximum of 10 combined credits for all 384 and 484 courses are counted towards graduation requirements.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

BSPM 415 Pollinator Management in Agroecosystems  Credits: 2 (2-0-0)
Also Offered As: SOCR 415.
Course Description: Fundamental concepts of pollinator biology and management, sustainable crop-pollinator interactions, regional and global issues on pollinator management and conservation, best management practices for commercially managed pollinators.
Prerequisite: HORT 100 or SOCR 100.
Registration Information: Junior standing. Credit not allowed for both SOCR 415 and BSPM 415. Required field trips.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

BSPM 423 Evolution and Classification of Insects  Credits: 3 (1-4-0)
Course Description: Major groups of insects, living and fossil, major evolutionary trends in structure and behavior.
Prerequisite: None.
Registration Information: Must register for lecture and laboratory. Credit not allowed for both BSPM 423 and BSPM 523.
Term Offered: Fall (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

BSPM 424 Principles of Systematic Zoology  Credits: 3 (3-0-0)
Also Offered As: BZ 424.
Course Description: Principles and methods of classification, zoological nomenclature, taxonomic decisions regarding species and higher categories.
Prerequisite: BZ 111 and BZ 110 or LIFE 103.
Registration Information: Credit not allowed for both BSPM 424 and BZ 424.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.

BSPM 445 Aquatic Insects  Credits: 4 (2-4-0)
Course Description: Biology and recognition of major orders and families of aquatic insects; a collection is required.
Prerequisite: BZ 111 or LIFE 103.
Registration Information: Must register for lecture and laboratory.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: Yes.

BSPM 450 Molecular Plant-Microbe Interaction  Credits: 3 (3-0-0)
Course Description: Principles of plant-microbe/insect interactions, physiological and molecular aspects of plant defense, genomics approaches to study plant defense.
Prerequisite: (BZ 100 to 499 - at least 3 credits) and (BZ 346 or SOCR 330).
Registration Information: Credit not allowed for both BSPM 450 and BSPM 550.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.
BSPM 451  Integrated Pest Management  Credits: 3 (3-0-0)
Course Description: Concepts of integrated pest management and the strategies and tactics employed in the application of these concepts.
Prerequisite: BSPM 302 or BSPM 308 or BSPM 361.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

BSPM 462  Parasitology and Vector Biology  Credits: 5 (3-4-0)
Also Offered As: BZ 462 and MIP 462.
Course Description: Protozoa, helminths, and insects and related arthropods of medical importance; systematics, epidemiology, host damage and control.
Prerequisite: (BZ 110 or LIFE 103) and (BZ 212 or LIFE 206 or MIP 302).
Registration Information: Must register for lecture and laboratory. Credit allowed for only one of the following: BSPM 462, BZ 462, MIP 462.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

BSPM 487  Internship  Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

BSPM 492  Seminar  Credits: Var[1-3] (0-0-0)
Course Description:
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

BSPM 495  Independent Study  Credits: Var[1-3] (0-0-0)
Course Description:
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

BSPM 496  Group Study  Credits: Var[1-3] (0-0-0)
Course Description:
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

BSPM 500  Foundations of Bioagricultural Sciences  Credits: 2 (2-0-0)
Course Description: Introduction to graduate school covering managing time, advisor and research, plus a survey of topics encompassed by the department of BSPM.
Prerequisite: None.
Restriction: Must be a: Graduate.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

BSPM 502A  Topics in Plant Pathology: Plant Viruses  Credit: 1 (1-0-0)
Course Description:
Prerequisite: BIO 300 to 499 - at least 3 credits or BSPM 300 to 499 - at least 3 credits or BZ 300 to 499 - at least 3 credits or LIFE 300 to 499 - at least 3 credits.
Term Offered: Fall (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

BSPM 520  Advanced Systematics  Credits: 3 (3-0-0)
Also Offered As: BZ 520.
Course Description: Theory and practice of modern systematics.
Prerequisite: BSPM 424 or BZ 424 or BZ 325.
Registration Information: Credit not allowed for both BSPM 520 and BZ 520.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.
BSPM 521 Forest Health Issues  Credits: 3 (3-0-0)  
Course Description: Current topics related to forest and shade tree health from ecosystems to tree defense physiology.
Prerequisite: None.
Term Offered: Fall (even years).
Grade Mode: Traditional.
Special Course Fee: No.

BSPM 523 Advanced Evolution/Classification of Insects  Credits: 4 (1-4-1)  
Course Description: Major groups of insects, living and fossil; major evolutionary trends in structure and behavior.
Prerequisite: None.
Registration Information: Must register for lecture, laboratory, and recitation. Credit not allowed for both BSPM 523 and BSPM 423.
Term Offered: Fall (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

BSPM 525 Insect Physiology  Credits: 3 (3-0-0)  
Course Description: Principles of insect function.
Prerequisite: BSPM 302.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.

BSPM 526 Evolutionary Ecology  Credits: 3 (3-0-0)  
Also Offered As: BZ 526.
Course Description: Adaptation to abiotic and biotic environments; how current ecological processes interact with evolutionary history.
Prerequisite: LIFE 320 or LIFE 220 or LAND 220.
Registration Information: Credit not allowed for both BSPM 526 and BZ 526.
Term Offered: Fall (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

BSPM 528 Invasive Plants/Weeds—Ecosystems to Molecules  Credits: 3 (3-0-0)  
Course Description: Contributions of disciplines of weed science and invasion ecology to understanding the biology, ecology and management of "problem plants."
Prerequisite: (LIFE 320 or LAND 220 or LIFE 220) and (BZ 120) and (LIFE 102 or LIFE 103).
Term Offered: Spring (even years).
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

BSPM 530 Scientific Writing  Credit: 1 (1-0-0)  
Also Offered As: SOCR 530.
Course Description: Skills necessary to prepare complete scientific journal articles including writing, editing, and literature searching and assessment.
Prerequisite: None.
Registration Information: Credit not allowed for both BSPM 530 and SOCR 530.
Term Offered: Spring.
Grade Mode: Instructor Option.
Special Course Fee: No.

BSPM 540 Understanding Genomes  Credits: 3 (3-0-0)  
Course Description: Harnessing genome information and related -omics level technologies for use in answering biological questions.
Prerequisite: None.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

BSPM 550 Molecular Plant-Microbe Interactions  Credits: 3 (3-0-0)  
Course Description: Principles of plant-microbe interactions, physiological and molecular aspects of plant defense, genomic approaches to study plant defense.
Prerequisite: (BZ 100 to 499 - at least 3 credits) and (BZ 346 or SOCR 330).
Registration Information: Credit not allowed for both BSPM 550 and BSPM 450.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.

BSPM 551 Advanced Integrated Pest Management  Credits: 4 (3-0-1)  
Course Description: Concepts of integrated pest management and the strategies and tactics employed in the practical application of these concepts.
Prerequisite: BSPM 302 or BSPM 308 or BSPM 361.
Registration Information: Must register for lecture and recitation.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

BSPM 555 Immature Insects  Credits: 3 (1-4-0)  
Course Description: Characteristics of immature forms of orders and families of insects emphasizing those important to man.
Prerequisite: BSPM 303A or BSPM 303B or BSPM 303C.
Registration Information: Must register for lecture and laboratory.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

BSPM 556 Biological Control of Plant Pests  Credits: 3 (3-0-0)  
Course Description: Management of insect pests of plants and weeds using biological control agents such as insects, bacteria, viruses, and fungi.
Prerequisite: (BZ 120 or LIFE 103) and (LIFE 320 or LAND 220 or LIFE 220).
Term Offered: Fall (even years).
Grade Mode: Traditional.
Special Course Fee: No.

BSPM 570 Chemical Ecology  Credits: 3 (3-0-0)  
Course Description: Chemical interactions among animals, plants, fungi, and microorganisms.
Prerequisite: None.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.

BSPM 571 Techniques in Chemical Ecology  Credit: 1 (0-2-0)  
Course Description: Practical experience with chemical techniques for separation, analysis, and synthesis of natural products together with biological assays for activity.
Prerequisite: None.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.
BSPM 575 Molecular and Genomic Evolution Credits: 3 (3-0-0)
Also Offered As: BZ 575.
Course Description: Molecular, biological mechanisms of evolutionary change: mutation; selection; gene expression/regulation; changes in whole-genome architecture.
Prerequisite: BZ 220 and BZ 350.
Registration Information: Credit not allowed for both BSPM 575 and BZ 575.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.

BSPM 576 Bioinformatics Credits: 3 (3-0-0)
Also Offered As: MIP 576.
Course Description: Technical computing across platforms using bioinformatics tools in molecular analysis.
Prerequisite: BC 463 or BZ 310 or BZ 350 or CM 501 or CS 155 or ERHS 332 or MIP 275 or MIP 300 or MIP 450 or STAT 307 or ERHS 307.
Registration Information: Credit not allowed for both BSPM 576 and MIP 576.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

BSPM 584 Supervised College Teaching Credits: Var[1-3] (0-0-0)
Course Description: Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

BSPM 587 Internship Credits: Var[1-18] (0-0-0)
Course Description: Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

BSPM 592 Seminar Credits: Var[1-3] (0-0-0)
Course Description: Major questions and theory pertinent to understanding current and relevant science topics.
Prerequisite: None.
Terms Offered: Fall, Spring.
Grade Mode: Instructor Option.
Special Course Fee: No.

BSPM 594 Independent Study Credits: Var[1-3] (0-0-0)
Course Description: Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

BSPM 596 Group Study Credits: Var[1-3] (0-0-0)
Course Description: Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

BSPM 598 Research Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

BSPM 699 Thesis Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

BSPM 710 Techniques in Molecular Biology and Genetics Credits: 3 (0-4-1)
Also Offered As: CM 710.
Course Description: Genetic manipulation of bacteria, bacteriophage, and yeast including experiments in molecular cloning and gene expression.
Prerequisite: BC 463 or BZ 346 or BZ 350 or MIP 450 or SOCR 330.
Restriction: Must be a: Graduate, Professional.
Registration Information: Must register for laboratory and recitation. Credit not allowed for both BSPM 710 and CM 710.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

BSPM 740 Plant Molecular Genetics Credits: 3 (3-0-0)
Also Offered As: SOCR 740.
Course Description: Advances in study of organization and function of nuclear and organellar genomes, gene expression in higher plants, and plant-microbe interactions.
Prerequisite: BC 351 and SOCR 330.
Restriction: Must be a: Graduate, Professional.
Registration Information: Credit not allowed for both BSPM 740 and SOCR 740.
Term Offered: Fall (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

BSPM 784 Supervised College Teaching Credits: Var[1-3] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

BSPM 787 Internship Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

BSPM 792 Seminar Credits: Var[1-2] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.
BSPM 794 Independent Study Credits: Var[1-3] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

BSPM 798 Research Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

BSPM 799 Dissertation Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

Major in Agricultural Biology

The Agricultural Biology major provides a strong scientific foundation in entomology, plant pathology and weed science to address challenges in natural and managed systems. Students will gain tools to foster sustainability and address pressing issues involving biophysical and sociocultural components of these systems. The concentration features courses in agriculture, biology, and ecology as well as practical training through internships and/or research experiences. Students will learn the complex interactions that occur among microbes, insects, and plant species in natural and managed ecosystems and develop skills to use systems thinking to solve real-world problems. Knowledge and skills gained from the major will enable students to identify and solve complex problems in natural and managed systems, especially implementing effective and sustainable pest management.

Learning Outcomes

- Integrate skills and knowledge to solve problems related to plants, insects, and microbes in natural and managed ecosystems
- Demonstrate understanding of social, economic, and biophysical aspects of the management of biological problems in natural and managed ecosystems
- Describe, assess, analyze, and synthesize knowledge from across the curriculum to create solutions for pests and beneficial species in natural and managed ecosystems
- Promote and practice inclusion to form effective teams that solve complex problems in natural and managed ecosystems
- Communicate effectively with diverse audiences regarding sustainable pest and pathogen management in natural and managed ecosystems

Potential Occupations

This major will be an excellent choice for students interested in careers as researchers, crop advisors, extension educators, growers, agriculture consultants, production managers, inspectors, diagnosticians, regulatory professionals and for those who wish to pursue careers in academia.

Concentrations

- Entomology Concentration
- Plant Pathology Concentration
- Weed Science Concentration

</table>
### Major Completion Map

**Distinctive Requirements for Degree Program:** A minimum grade of 'C' (2.000) is required for each course designated by footnote 1 on the Program Requirements tab.

To prepare for first semester: The curriculum for the Agricultural Biology major assumes students enter college prepared to take calculus. Entering students who are not prepared to take calculus will need to fulfill pre-calculus requirements in the first semester. Those pre-calculus requirements are listed as benchmark courses in Freshman Semester 1 below.

1. A minimum grade of 'C' (2.000) must be obtained in this course in order to complete the program.
2. Transfer students are required to take AB 270 in lieu of AB 120, AB 130, and AB 230.
3. Select enough elective credits to bring the program total to 120, of which at least 42 must be Upper-Division (300- to 400-level).
Select one course from the following:
- **BSPM 303A**: Entomology Laboratory: General
- **BSPM 303B**: Entomology Laboratory: Horticultural
- **BSPM 303C**: Entomology Laboratory: Agricultural

Select one course from the following:
- **CO 301B**: Writing in the Disciplines: Sciences (GT-CO3)
- **JTC 300**: Professional and Technical Communication (GT-CO3)
- **LB 300**: Specialized Professional Writing

Select **LAND 220/LIFE 220 Semester 3** if **LIFE 320** will not be taken Semester 4:
- **LAND 220/LIFE 220**: Fundamentals of Ecology (GT-SC2)

**Total Credits**: 13-14

Major in Agricultural Biology, Entomology Concentration

The Agricultural Biology major with a concentration in Entomology provides a strong scientific foundation in entomology to address challenges in natural and managed systems. Students will gain tools to foster sustainability and address pressing issues involving biophysical and sociocultural components of these systems. The major features courses in agriculture, biology, and ecology as well as practical training through internships and/or research experiences. Students will learn the complex interactions that occur among microbes, insects, and plant species in natural and managed ecosystems and develop skills to use systems thinking to solve real-world problems. Knowledge and skills gained from the major will enable students to identify and solve complex problems in natural and managed systems, especially implementing effective and sustainable pest management.

Learning Outcomes

• Integrate skills and knowledge to solve problems related to plants, insects, and microbes in natural and managed ecosystems

Potential Occupations

This major will be an excellent choice for students interested in careers as researchers, crop advisors, extension educators, growers, agriculture consultants, production managers, inspectors, diagnosticians, regulatory professionals and for those who wish to pursue careers in academia.

1 A minimum grade of 'C' (2.000) must be obtained in this course in order to complete the program.

2 Transfer students are required to take AB 270 in lieu of AB 120, AB 130, and AB 230.

3 Select enough elective credits to bring the program total to 120, of which at least 42 must be Upper-Division (300- to 400-level).

Major Completion Map

Distinctive Requirements for Degree Program: Each course used to satisfy requirements of the major requires a minimum grade of 'C' (2.000).

To prepare for first semester: The curriculum for the Agricultural Biology major assumes students enter college prepared to take calculus. Entering students who are not prepared to take calculus will need to fulfill pre-calculus requirements in the first semester. Those pre-calculus
requirements are listed as benchmark courses in Freshman Semester 1 below.

Major in Agricultural Biology, Plant Pathology Concentration

The Agricultural Biology major with a concentration in Plant Pathology provides a strong scientific foundation in plant pathology to address challenges in natural and managed systems. Students will gain tools to foster sustainability and address pressing issues involving biophysical and sociocultural components of these systems. The major features courses in agriculture, biology, and ecology as well as practical training through internships and/or research experiences. Students will learn the complex interactions that occur among microbes, insects, and plant species in natural and managed ecosystems and develop skills to use systems thinking to solve real-world problems. Knowledge and skills gained from the major will enable students to identify and solve complex problems in natural and managed systems, especially implementing effective and sustainable pest management.

Learning Outcomes

- Integrate skills and knowledge to solve problems related to plants, insects, and microbes in natural and managed ecosystems
- Demonstrate understanding of social, economic, and biophysical aspects of the management of biological problems in natural and managed ecosystems
- Describe, assess, analyze, and synthesize knowledge from across the curriculum to create solutions for pests and beneficial species in natural and managed ecosystems
- Promote and practice inclusion to form effective teams that solve complex problems in natural and managed ecosystems
- Communicate effectively with diverse audiences regarding sustainable pest and pathogen management in natural and managed ecosystems
**Potential Occupations**

This major will be an excellent choice for students interested in careers as researchers, crop advisors, extension educators, growers, agriculture consultants, production managers, inspectors, diagnosticians, regulatory professionals and for those who wish to pursue careers in academia.

1. A minimum grade of 'C' (2.000) must be obtained in this course in order to complete the program.
2. Transfer students are required to take AB 270 in lieu of AB 120, AB 130, and AB 230.
3. Select enough elective credits to bring the program total to 120, of which at least 42 must be Upper-Division (300- to 400-level).

**Major Completion Map**

**Distinctive Requirements for Degree Program**: Each course used to satisfy requirements of the major requires a minimum grade of 'C' (2.000).

**To prepare for first semester**: The curriculum for the Agricultural Biology major assumes students enter college prepared to take calculus. Entering students who are not prepared to take calculus will need to fulfill pre-calculus requirements in the first semester. Those pre-calculus requirements are listed as benchmark courses in Freshman Semester 1 below.

Major in Agricultural Biology, Weed Science Concentration

The Agricultural Biology major with a concentration in Weed Science provides a strong scientific foundation in weed science to address challenges in natural and managed systems. Students will gain tools to foster sustainability and address pressing issues involving biophysical and sociocultural components of these systems. The major features courses in agriculture, biology, and ecology as well as practical training through internships and/or research experiences. Students will also learn the complex interactions that occur among microbes, insects, and plant species in natural and managed ecosystems and develop skills to use systems thinking to solve real-world problems. Knowledge and skills gained from the major will enable students to identify and solve complex problems in natural and managed systems, especially implementing effective and sustainable pest management.

Learning Outcomes
- Integrate skills and knowledge to solve problems related to plants, insects, and microbes in natural and managed ecosystems
- Demonstrate understanding of social, economic, and biophysical aspects of the management of biological problems in natural and managed ecosystems
- Describe, assess, analyze, and synthesize knowledge from across the curriculum to create solutions for pests and beneficial species in natural and managed ecosystems
- Promote and practice inclusion to form effective teams that solve complex problems in natural and managed ecosystems
- Communicate effectively with diverse audiences regarding sustainable pest and pathogen management in natural and managed ecosystems

Potential Occupations
This major will be an excellent choice for students interested in careers as researchers, crop advisors, extension educators, growers, agriculture consultants, production managers, inspectors, diagnosticians, regulatory professionals and for those who wish to pursue careers in academia.

Program Total Credits: 21-23

May be taken as electives by students in majors that are not in the biological or agricultural sciences.

Master of Science in Bioagricultural Sciences
Effective Fall 2007

The M.S. degree requires 30-32 credits beyond the undergraduate degree. Course selection depends on each student's focus within Bioagricultural Sciences and must be approved by the student's graduate committee.

Master of Science in Bioagricultural Sciences, Plan A, Entomology Specialization
Effective Fall 2007

The M.S. degree requires 30-32 credits beyond the undergraduate degree. Course selection depends on each student's focus within Bioagricultural Sciences and must be approved by the student's graduate committee.
# Master of Science in Bioagricultural Sciences, Plan B, Pest Management Specialization

**Effective Fall 2009**

Program Total Credits: **34**

A minimum of 34 credits are required to complete this program.

1. Choose from various courses such as teaching, internships, independent study, communication classes, second language, etc., with approval by advisor and committee.

2. Includes a scholarly paper on topic related to specialization and approved by the student’s graduate committee.

---

# Master of Science in Bioagricultural Sciences, Plan A, Weed Science Specialization

**Effective Fall 2007**

The M.S. degree requires 30-32 credits beyond the undergraduate degree. Course selection depends on each student’s focus within Bioagricultural Sciences and must be approved by the student’s graduate committee.

---

# Master of Science in Bioagricultural Sciences, Plan A, Plant Pathology Specialization

**Effective Fall 2007**

The Ph.D. degree requires 72 credits beyond the undergraduate degree. Course selection depends on each student’s focus within Bioagricultural Sciences and must be approved by the student’s graduate committee.

---

# Master of Science in Bioagricultural Sciences, Plan A, Weed Science Specialization

**Effective Fall 2007**

The Ph.D. degree requires 72 credits beyond the undergraduate degree. Course selection depends on each student’s focus within Bioagricultural Sciences and must be approved by the student’s graduate committee.
Department of Animal Sciences

Office in Animal Sciences Building
(970) 491-5177
ansci.agsci.colostate.edu (http://ansci.agsci.colostate.edu/)

Dr. Keith Belk, Department Head

Undergraduate

Majors
• Major in Animal Science
• Major in Equine Science

Certificates
• Certificate in Animal Nutrition
• Certificate in Beef Feedlot Management
• Certificate in Beef Production Systems
• Certificate in Meat Science

Pre-professional Veterinary Medicine Requirements

Pre-veterinary medical students with specific interest in animal science or equine science may follow either the Animal Science or Equine Science major. Maximum flexibility in career direction may be obtained by meeting the requirements for a degree in animal or equine science while simultaneously completing the admission requirements for the professional veterinary medical program. The Food Animal Veterinary Career Incentive Program (FAVCIP) is available for Animal Science majors.

Graduate

Graduate Programs in Animal Sciences
The department offers graduate programs leading to the Master of Science and the Doctor of Philosophy degrees. Students interested in graduate work should refer to the Graduate and Professional Bulletin, and the department’s website (http://ansci.agsci.colostate.edu/).

Master's Programs
• Master of Science in Animal Sciences, Plan A

Ph.D.
• Ph.D. in Animal Sciences*

* Please see department for program of study.

Courses

Animal Sciences (ANEQ)

ANEQ 101 Food Animal Science Credits: 4 (3-3-0)
Course Description: Development, organization, trends and management of the livestock industry; emphasis on applying science to the production of food and fiber.
Prerequisite: None.
Registration Information: Required field trips.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 102 Introduction to Equine Science Credits: 4 (3-2-0)
Course Description: Equine physiology, production systems and management systems as it pertains to the equine industry and management.
Prerequisite: None.
Registration Information: Must register for lecture and laboratory. Required field trips.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: Yes.

ANEQ 103 Introduction to Animal Science Credits: 3 (3-0-0)
Course Description: Introduction to the livestock industries with emphasis on food and fiber animals. Overviews of the industry structures, and historical and future trends. Product quality evaluation and factors influencing animal performance such as management, nutrition, genetics, and reproduction are presented.
Prerequisite: None.
Registration Information: Non-Animal Sciences majors only. Offered as an online course only.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 104 Values, Culture, and Food Animal Agriculture Credits: 3 (3-0-0)
Also Offered As: PHIL 104.
Course Description: Evolution of the social values and cultural understandings shaping modern animal agriculture; current problems in animal agriculture.
Prerequisite: None.
Registration Information: Non-Animal Science majors with a freshman or sophomore standing. Credit not allowed for both ANEQ 104 and PHIL 104.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 105 Introduction to Large Animal Anatomy Credit: 1 (0-2-0)
Course Description: Basic gross animal anatomy.
Prerequisite: None.
Registration Information: Animal Science or Equine Science majors only.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: Yes.
ANEQ 115  Applied Equine Behavior  Credits: 2 (1-2-0)  
Course Description: Understanding ethology, the science of animal behavior, will be a key component to evaluating horse behavior. Topics are instinctive, learned, social and reproductive behaviors as well as sensory perception and behavioral neuroanatomy important to equine health and welfare.  
Prerequisite: ANEQ 102.  
Registration Information: Must register for lecture and laboratory.  
Terms Offered: Fall, Spring.  
Grade Mode: Traditional.  
Special Course Fee: Yes.  

ANEQ 200  Applied Horsemanship and Equitation  Credits: 2 (0-4-0)  
Course Description: Foundation and advancement of horsemanship, on the ground and on horseback.  
Prerequisite: ANEQ 115.  
Registration Information: Sophomore standing. Written consent of instructor.  
Terms Offered: Fall, Spring, Summer.  
Grade Mode: Traditional.  
Special Course Fee: Yes.  

ANEQ 201A  Preparation of Horses for Competition: Western  Credits: 2 (0-4-0)  
Course Description: Development of skills to prepare and present horses in competitions aimed at enhancing their value.  
Prerequisite: None.  
Registration Information: Written consent of instructor.  
Terms Offered: Fall, Spring.  
Grade Mode: Traditional.  
Special Course Fee: Yes.  

ANEQ 201B  Preparation of Horses for Competition: English  Credits: 2 (0-4-0)  
Course Description: Development of skills to prepare and present horses in competitions aimed at enhancing their value.  
Prerequisite: None.  
Registration Information: Written consent of instructor.  
Terms Offered: Fall, Spring.  
Grade Mode: Traditional.  
Special Course Fee: Yes.  

ANEQ 203  Equine Management  Credits: 2 (1-2-0)  
Course Description: Equine management and care techniques with hands-on experience.  
Prerequisite: ANEQ 102.  
Term Offered: Spring.  
Grade Mode: Traditional.  
Special Course Fee: Yes.  

ANEQ 204  Equine Facilities Management  Credits: 3 (2-2-0)  
Course Description: Understanding of all aspects required to manage an equine facility coupled with hands-on experience.  
Prerequisite: ANEQ 102.  
Registration Information: Must register for lecture and laboratory. Required field trips.  
Term Offered: Spring.  
Grade Mode: Traditional.  
Special Course Fee: Yes.  

ANEQ 205  Equine Assessment, Evaluation and Retraining  Credits: 2 (0-4-0)  
Course Description: Skills in assessing, evaluating, and training horses in transitional phases of their lives, including, but not limited to horses with a history of non-use, previous trauma, compliance issues, and other problematic concerns.  
Prerequisite: ANEQ 115.  
Registration Information: Written consent of instructor. Credit not allowed for both ANEQ 205 and ANEQ 280A2.  
Terms Offered: Fall, Spring, Summer.  
Grade Mode: Traditional.  
Special Course Fee: Yes.  

ANEQ 220  Feeds and Feeding  Credits: 2 (2-0-0)  
Course Description: Advantages and limitations of feedstuffs; nutrients and their functions; and feed practices for all physiological stages of livestock.  
Prerequisite: ANEQ 101 or ANEQ 102.  
Terms Offered: Fall, Spring.  
Grade Mode: Traditional.  
Special Course Fee: No.  

ANEQ 230  Farm Animal Anatomy and Physiology  Credits: 3 (3-0-0)  
Course Description: Basic concepts of farm animal anatomy and physiology; emphasis on growth, digestion, and reproduction.  
Prerequisite: LIFE 100 to 199 - at least 3 credits.  
Registration Information: Credit not allowed for both ANEQ 230 and ANEQ 305.  
Terms Offered: Fall, Spring.  
Grade Mode: Traditional.  
Special Course Fee: No.  

ANEQ 249  Introduction to the Trail Riding Industry  Credit: 1 (0-2-0)  
Course Description: Emphasis on horse care, regulations, first aid, health, training, and hosting a trail ride.  
Prerequisite: None.  
Registration Information: Written consent of instructor.  
Terms Offered: Fall, Spring.  
Grade Mode: Traditional.  
Special Course Fee: Yes.  

ANEQ 250  Live Animal and Carcass Evaluation  Credits: 3 (1-4-0)  
Course Description: Growth, development, and value-determining characteristics of market animals.  
Prerequisite: ANEQ 101 or ANEQ 102.  
Registration Information: Must register for lecture and laboratory.  
Terms Offered: Fall, Spring.  
Grade Mode: Traditional.  
Special Course Fee: Yes.  

ANEQ 286  Livestock Practicum  Credits: 2 (0-0-0)  
Course Description: Livestock breeds and terminology; classification of feedstuffs; livestock handling and care; basic animal management techniques, hands-on experience.  
Prerequisite: ANEQ 101 or ANEQ 102.  
Terms Offered: Fall, Spring.  
Grade Mode: Traditional.  
Special Course Fee: Yes.
ANEQ 292 Equine Industry Seminar Credit: 1 (1-0-0)
Course Description: Overview of the equine industry and industry careers.
Prerequisite: ANEQ 102.
Registration Information: Sections may be offered: Online.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 293 Animal Science Career Exploration Seminar Credit: 1 (0-0-1)
Course Description: Better understanding of individual abilities, strengths and passions is imperative to be successful in a career search as well as to succeeding in life. Designed to help students explore who they are individually, how they might fit into a career or graduate programs in animal agriculture; how to prepare marketing materials to be competitive in selection processes.
Prerequisite: ANEQ 101.
Registration Information: This is a partial semester course. Sophomore standing.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 300A Topics in Animal Sciences: Livestock Handling Credit: 1 (1-0-0)
Course Description:
Prerequisite: None.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 300B Topics in Animal Sciences: Livestock Entomology Credit: 1 (1-0-0)
Also Offered As: BSPM 300.
Course Description: Identification, biology and management of insect, tick, and mite pests.
Prerequisite: BZ 100 to 199 between 3 and 5 credits - at least 3 credits or LIFE 100 to 199 between 3 and 5 credits - at least 3 credits.
Registration Information: Credit not allowed for both ANEQ 300B and BSPM 300.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 300E Topics in Animal Sciences: Family Ranching Credit: 1 (1-0-0)
Course Description:
Prerequisite: ANEQ 101 or ANEQ 102.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 300L Topics in Animal Sciences: Quality Assurance Credits: 2 (2-0-0)
Course Description:
Prerequisite: ANEQ 101 or ANEQ 102.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 300N Topics in Animal Sciences: Seedstock Merchandising Credits: 2 (2-0-0)
Course Description: Overview of beef seedstock industry, including hands-on selection, management, and marketing of cattle.
Prerequisite: None.
Restriction: Must be a: Junior, Senior - 5yr Bachelor, Senior - Post Bachelor, Senior - Second Bachelor.
Registration Information: Junior or senior standing. Course required to apply for seedstock team.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: Yes.

ANEQ 300R Topics in Animal Sciences: Calving and Calf Care Credits: 2 (1-2-0)
Course Description:
Prerequisite: (ANEQ 310) and (ANEQ 478 or ANEQ 510).
Registration Information: Senior standing. Required field trips.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: Yes.

ANEQ 300T Topics in Animal Sciences: Event, Fair, and Show Management Credit: 1 (1-0-0)
Course Description:
Prerequisite: ANEQ 101 or ANEQ 102.
Registration Information: Credit not allowed for both ANEQ 300T and ANEQ 358.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 300U Topics in Animal Sciences: Seedstock Sale Management Credits: 2 (2-0-0)
Course Description: Develop, plan, and implement an effective seedstock cattle sale based on genetic information, customer service principles, and client relationships.
Prerequisite: ANEQ 300N.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 300W Topics in Animal Sciences: Equine Manure Management Credit: 1 (1-0-0)
Course Description: Practices which maximize the benefits of manure to soils and crops while minimizing hazards to air and water quality; complying with regulations.
Prerequisite: ANEQ 101 or ANEQ 102.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 303 Equine Digital Photography Credits: 3 (2-2-0)
Course Description: Basics of photographic principles and DSLR cameras with a focus on equine subjects.
Prerequisite: ANEQ 102.
Registration Information: Sophomore standing. Must register for lecture and laboratory. Credit not allowed for both ANEQ 303 and ANEQ 380A4.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.
ANEQ 305 Functional Large Animal Physiology  Credits: 3 (3-0-0)
Course Description: Concepts of large animal physiology; emphasis on growth, digestion, and reproduction.
Prerequisite: (LIFE 100 to 199 - at least 3 credits) and (CHEM 107 or CHEM 111).
Restriction: .
Registration Information: Credit not allowed for both ANEQ 305 and ANEQ 230.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 310 Animal Reproduction  Credits: 3 (3-0-0)
Course Description: Anatomy and physiology of the reproductive system; causes of reproductive failure in farm animals; methods of improving reproductive performance.
Prerequisite: ANEQ 230 or BMS 300 or ANEQ 305.
Registration Information: Sections may be offered: Online.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 312 Animal Ultrasonography  Credits: 2 (1-2-0)
Course Description: Fundamentals and application of using ultrasound in farm animals; basic reproductive technologies; utilizing ultrasound as a management tool.
Prerequisite: (ANEQ 230 or ANEQ 305) and (ANEQ 310).
Registration Information: Must register for lecture and laboratory.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: Yes.

ANEQ 313 Prevention and Control of Livestock Diseases  Credits: 3 (3-0-0)
Also Offered As: VS 313.
Course Description: Common ailments of livestock; sanitation and disease prevention and control.
Prerequisite: (ANEQ 230 or BMS 300 or ANEQ 305) and (ANEQ 310, may be taken concurrently and ANEQ 320, may be taken concurrently).
Registration Information: Junior or senior standing. Credit not allowed for both ANEQ 313 and VS 313.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 315 Equine Behavior  Credits: 2 (1-2-0)
Course Description: Equine behaviors related to training and learning.
Prerequisite: ANEQ 102.
Registration Information: Sophomore or higher standing. Must register for lecture and laboratory.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: Yes.

ANEQ 320 Principles of Animal Nutrition  Credits: 4 (3-3-0)
Course Description: Understanding of nutrients and nutrient function required to support animal life through all physiological states.
Prerequisite: (ANEQ 230 or BMS 300 or BMS 360 or ANEQ 305) and (CHEM 100 to 199 - at least 3 credits).
Registration Information: Must register for lecture and laboratory. Required field trips.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: Yes.
ANEQ 334 Principles of Equine Genetics Credits: 3 (3-0-0)
Course Description: Application of genetic principles for understanding important quantitative and qualitative traits in horses. Topics include variation, mechanisms of gene action, selection and genetic improvement.
Prerequisite: (ANEQ 102 with a minimum grade of C) and (ANEQ 328 with a minimum grade of C or BZ 350 with a minimum grade of C or SOCR 330 with a minimum grade of C) and (ANEQ 305 with a minimum grade of C or BMS 300 with a minimum grade of C or BMS 360 with a minimum grade of C).
Registration Information: Sophomore standing. Sections may be offered: Online.
Terms Offered: Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 340 Horse Training and Sale Preparation I Credits: 3 (0-6-0)
Course Description: Practical training skills using a yearling or two year old: in-hand, restraint, ground driving, lungeing, first rides, stable management.
Prerequisite: None.
Registration Information: Written consent of instructor.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: Yes.

ANEQ 341 Horse Training and Sale Preparation II Credits: 3 (0-6-0)
Course Description: Skills in training for specific riding maneuvers, conditioning, and fitting for sale.
Prerequisite: ANEQ 340.
Registration Information: Additional time outside of class required on weekends.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: Yes.

ANEQ 344 Principles of Equine Reproduction Credits: 3 (3-0-0)
Course Description: Principles of reproduction and reproductive management of the mare and stallion.
Prerequisite: (ANEQ 102 with a minimum grade of C) and (ANEQ 230 with a minimum grade of C or ANEQ 305 with a minimum grade of C or BMS 300 with a minimum grade of C).
Registration Information: Sophomore standing. Sections may be offered: Online.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 345 Principles of Nutrition: Equine Applications Credits: 3 (3-0-0)
Course Description: Principles of nutrition; application in feeding horses in different physiological states to promote health and wellness.
Prerequisite: (ANEQ 102 with a minimum grade of C) and (ANEQ 230 with a minimum grade of C or ANEQ 305 with a minimum grade of C or BMS 300 with a minimum grade of C and (CHEM 100 to 199 - at least 3 credits and MATH 100 to 499 - at least 3 credits).
Registration Information: Sections may be offered: Online.
Terms Offered: Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 346 Equine Disease Management Credits: 4 (3-2-0)
Course Description: Normal and abnormal body structures and functions of major systems of the horse. Recognition of main diseases, causes, prevention and treatments.
Prerequisite: (ANEQ 102 with a minimum grade of C) and (ANEQ 230 with a minimum grade of C or ANEQ 305 with a minimum grade of C or BMS 300 with a minimum grade of C).
Registration Information: Must register for lecture and laboratory.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: Yes.

ANEQ 349 Packing and Outfitting Credits: 2 (1-2-0)
Course Description: Business aspects of outfitting/packing the horse; hitches, knots, horse care; planning pack trips, setting up camp.
Prerequisite: ANEQ 102.
Registration Information: Written consent of instructor. Must register for lecture and laboratory. Required field trips (Overnight pack trip).
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: Yes.

ANEQ 351 Techniques in Therapeutic Riding Credits: 2 (1-2-0)
Course Description: Equine assisted activities; therapeutic horseback riding, hippotherapy, driving/vaulting, mental health treatments, programs for youth at risk.
Prerequisite: ANEQ 102.
Registration Information: Must register for lecture and laboratory.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: Yes.

ANEQ 352 Introduction to Horse Evaluation Credits: 2 (0-4-0)
Course Description: Criteria and techniques for evaluation of horses; development of logical decision processes for establishing comparative value.
Prerequisite: ANEQ 102.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 353 Advanced Horse Evaluation Credits: 3 (0-6-0)
Course Description: Advanced criteria/techniques for horse evaluation; logical decision process development to establish comparative value; intercollegiate competition.
Prerequisite: ANEQ 352.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 354 Introduction to Livestock Evaluation Credits: 3 (0-6-0)
Course Description: Criteria and techniques for evaluation of livestock; development of logical decision processes for establishing comparative value.
Prerequisite: ANEQ 101.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.
ANEQ 355  Advanced Livestock Evaluation  Credit: 1 (0-9-0)
Course Description: Advanced criteria and techniques for evaluation of livestock; establishing comparative value; participating in intercollegiate competition.
Prerequisite: ANEQ 354.
Registration Information: Course may be taken twice for a maximum of 2 credits.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 356  Introduction to Dairy Evaluation  Credits: 3 (0-6-0)
Course Description: Criteria and techniques for evaluation of dairy cattle; development of logical decision processes for establishing comparative value.
Prerequisite: None.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 357  Advanced Dairy Evaluation  Credits: 2 (0-4-0)
Course Description: Advanced criteria and techniques for evaluation of dairy cattle; establishing comparative value; participating in intercollegiate competition.
Prerequisite: ANEQ 356.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 358  Equine Event and Sales Management  Credits: 2 (2-0-0)
Course Description: Skills necessary to produce, organize, and promote equine related events.
Prerequisite: ANEQ 102.
Registration Information: Credit not allowed for both ANEQ 358 and ANEQ 300T.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 359  Equine Sales Production  Credits: 2 (0-4-0)
Course Description: Emphasizes skills necessary to host and evaluate an equine sale.
Prerequisite: ANEQ 358.
Registration Information: Written consent of instructor.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 360  Principles of Meat Science  Credits: 3 (3-0-0)
Course Description: Structure, composition, and biology of muscle and associated tissues; wholesomeness, nutritive value, and palatability of beef, pork, and lamb.
Prerequisite: CHEM 100 to 199 - at least 3 credits.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 361  Introduction to Meat Product Evaluation  Credits: 3 (0-6-0)
Course Description: Criteria and techniques for evaluation of meat products; development of logical decision processes for establishing comparative value.
Prerequisite: None.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 362  Advanced Meat Product Evaluation  Credit: 1 (0-4-0)
Course Description: Criteria and techniques for evaluation of meat products; establishing comparative value; participating in intercollegiate competition.
Prerequisite: ANEQ 361.
Registration Information: Course may be taken twice for a maximum of 2 credits.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 363  Introduction to Wool and Fiber Evaluation  Credit: 1 (0-2-0)
Course Description: Criteria and techniques for evaluation of wool; development of logical decision processes for establishing comparative value.
Prerequisite: None.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 364  Advanced Wool and Fiber Evaluation  Credit: 1 (0-2-0)
Course Description: Criteria and techniques for evaluation of wool; establishing comparative value; participating in intercollegiate competition.
Prerequisite: ANEQ 363.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 365  Principles of Teaching Therapeutic Riding  Credits: 3 (2-2-0)
Course Description: Practical experiences and knowledge of the techniques to be a professional certified therapeutic riding instructor.
Prerequisite: ANEQ 351.
Registration Information: Written consent of instructor. Must register for lecture and laboratory. Required field trips.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: Yes.

ANEQ 366  Animal Welfare Evaluation  Credits: 2 (1-2-0)
Course Description: Criteria and techniques for evaluating animal welfare generally and for specific species based on the selected focus (specific species differ by year but include farm, companion, lab, working, and exotic animal species). Development of logical decision processes for establishing comparative value between cases.
Prerequisite: ANEQ 101 or ANEQ 102.
Registration Information: Must register for lecture and laboratory. Required field trips. Credit not allowed for both ANEQ 366 and ANEQ 380A3.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 384  Supervised College Teaching  Credits: Var[1-5] (0-0-0)
Course Description: None.
Registration Information: Written consent of instructor.
Terms Offered: Fall, Spring, Summer.
Grade Mode: S/U Sat/Unsat Only.
Special Course Fee: No.
ANEQ 386A Equine Practicum: Equine Training and Management Credits: 2 (1-2-0)
Course Description: Description of animal behavior applied to food animal species; the importance of understanding, observing, and assessing animal behavior in relation to food animal production; farm animal species specific behavior patterns.
Prerequisite: ANEQ 305.
Term Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: Yes.

ANEQ 386B Equine Practicum: Equine Reproductive Management Credits: 2 (1-2-0)
Course Description: Prerequisites and requirements for foaling and newborn foal management; monitoring techniques, preventative and emergency care procedures.
Prerequisite: ANEQ 334 or ANEQ 344 or PVM sophomore standing. Must register for lecture and laboratory.
Term Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: Yes.

ANEQ 386C Equine Practicum: Equine Farrier Management Credit: 1 (0-2-0)
Course Description: Principles of animal behavior applied to food animal species; the importance of understanding, observing, and assessing animal behavior in relation to food animal production; farm animal species specific behavior patterns.
Prerequisite: ANEQ 305.
Term Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: Yes.

ANEQ 410 Applied Food Animal Behavior Credits: 3 (3-0-0)
Course Description: Principles of animal behavior applied to food animal species; the importance of understanding, observing, and assessing animal behavior in relation to food animal production; farm animal species specific behavior patterns.
Prerequisite: ANEQ 320 or ANEQ 345.
Registration Information: Junior standing.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 420 Applied Nutrition--Computer Diet Formulation Credits: 3 (3-0-0)
Course Description: Comparative diet formulation strategies for cattle (beef and dairy), equine, swine, and poultry. Utilizing advanced computer software to formulate diets, predict performance, and manage ingredient inventory.
Prerequisite: ANEQ 300 or ANEQ 345.
Registration Information: Junior standing.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 440 Equine Industry and Issues Credits: 3 (3-0-0)
Course Description: For students planning a career in the horse industry; management of facilities, production systems, personnel, marketing, and biological systems.
Prerequisite: ANEQ 344 and ANEQ 345 or ANEQ 334 and ANEQ 344 or ANEQ 345 and ANEQ 346 or ANEQ 334 and ANEQ 345 or ANEQ 334 and ANEQ 346 or ANEQ 344 and ANEQ 346.
Registration Information: Any two of the following: ANEQ 334, ANEQ 344, ANEQ 345, ANEQ 346.
Term Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 441 Integrated Equine Science Credits: 2 (2-0-0)
Course Description: Describe, understand and integrate the newest scientific principles in equine sciences with equine management.
Prerequisite: ANEQ 334 with a minimum grade of C and ANEQ 345 with a minimum grade of C and ANEQ 344 with a minimum grade of C or ANEQ 334 with a minimum grade of C and ANEQ 344 with a minimum grade of C and ANEQ 346 with a minimum grade of C or ANEQ 346 with a minimum grade of C and ANEQ 344 with a minimum grade of C and ANEQ 345 with a minimum grade of C or ANEQ 334 with a minimum grade of C and ANEQ 345 with a minimum grade of C.
Registration Information: Junior standing.
Term Offered: Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 442 Riding Instructor Training Credits: 2 (0-4-0)
Course Description: Teaching techniques; theory; handling of large mounted groups, beginner through advanced levels.
Prerequisite: ANEQ 102.
Registration Information: Written consent of instructor.
Term Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: Yes.

ANEQ 443 Applied Equine Nutrition Credits: 2 (1-2-0)
Course Description: Applying principles of nutrition to feeding horses in different physiological states in an effort to promote their health and well-being.
Prerequisite: ANEQ 345.
Registration Information: Required field trips.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 444 Equine Business Management Credits: 2 (2-0-0)
Course Description: Real life “equine industry experience and the ins and outs of managing an equine facility/business.
Prerequisite: ANEQ 440.
Registration Information: Required field trips.
Term Offered: Fall, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 445 Foaling Management Credits: 2 (1-3-0)
Course Description: Management of the foaling mare and newborn foal; monitoring techniques, preventative and emergency care procedures.
Prerequisite: ANEQ 344.
Registration Information: ANEQ 344 or PVM sophomore standing. Must register for lecture and laboratory.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: Yes.

ANEQ 447 Food Chemistry Credits: 2 (2-0-0)
Also Offered As: FTEC 447.
Course Description: Chemistry of food constituents as related to food quality and stability.
Prerequisite: CHEM 241 or CHEM 245 or CHEM 345.
Registration Information: Credit not allowed for both ANEQ 447 and FTEC 447.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.
ANEQ 448 Livestock Manure Management and Environment  Credits: 3 (2-2-0)
Course Description: Manure management; maximizing benefits to soils and crops; minimizing air and water quality hazards; complying with regulations.
Prerequisite: CHEM 100 to 199 - at least 3 credits.
Registration Information: Credit allowed for only one of the following:
ANEQ 448, ANEQ 548, SOCR 448, SOCR 548. Must register for lecture and laboratory. Required field trips.
Term Offered: Fall (even years).
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 450 Processed Meats  Credits: 3 (2-3-0)
Course Description: Physical, chemical and functional characteristics of meat raw materials. Science and technology of value-added processing including curing, sausage manufacture, low moisture products, and restructuring. Quality assurance and related current industry topics.
Prerequisite: ANEQ 360.
Registration Information: Must register for lecture and laboratory.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 460 Meat Safety  Credits: 2 (2-0-0)
Course Description: Meat safety; food borne pathogens; hazard analysis critical control points (HACCP) and total quality management (TQM) practices.
Prerequisite: CHEM 100 to 199 - at least 3 credits.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 470 Meat Processing Systems  Credits: 4 (3-2-0)
Course Description: Advanced understanding of the manufacturing, packaging, distribution, storage, and cooking of meat products.
Prerequisite: ANEQ 360.
Restriction: Must be a: Senior, Senior - Post Bachelor, Senior - Second Bachelor.
Registration Information: Senior standing. Must register for lecture and lab.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: Yes.

ANEQ 472 Sheep Systems  Credits: 3 (2-2-0)
Course Description: Sheep production under farm and ranch conditions; products, breeds, breeding, nutrition, reproduction, and management systems.
Prerequisite: None.
Restriction: Must be a: Senior, Senior - 5yr Bachelor, Senior - Post Bachelor, Senior - Second Bachelor.
Registration Information: Senior standing. Must register for lecture and laboratory.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: Yes.

ANEQ 473 Dairy Systems  Credits: 3 (2-3-0)
Course Description: Integration of nutrition, genetics, physiology, and economics for management decisions of dairy farm operations and production and marketing of milk.
Prerequisite: (ANEQ 230 or BMS 300 or ANEQ 305) and (ANEQ 310 and ANEQ 320).
Restriction: .
Registration Information: Senior standing. Must register for lecture and laboratory.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 474 Swine Systems  Credits: 3 (2-2-0)
Course Description: Production of purebred and commercial swine; breeds, breeding, feeding, marketing, and management.
Prerequisite: None.
Restriction: Must be a: Senior, Senior - 5yr Bachelor, Senior - Post Bachelor, Senior - Second Bachelor.
Registration Information: Senior standing. Must register for lecture and laboratory.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: Yes.

ANEQ 475 Travel Abroad-Animal Agriculture  Credits: 2 (2-0-0)
Course Description: Onsite evaluation of international animal agriculture systems with emphasis on production, marketing, and management.
Prerequisite: None.
Registration Information: Written consent of instructor.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 476 Feedlot Systems  Credits: 3 (3-0-0)
Course Description: Feedlot facilities; nutrition; procurement; merchandising; handling; processing cattle; health care; custom feeding; managerial duties.
Prerequisite: ANEQ 320.
Restriction: Must be a: Senior, Senior - 5yr Bachelor, Senior - Post Bachelor, Senior - Second Bachelor.
Registration Information: Senior standing.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 478 Beef Systems  Credits: 3 (2-2-0)
Course Description: Beef production as related to consumer through seedstock segments. Major emphasis on cow-calf management.
Prerequisite: None.
Restriction: Must be a: Senior, Senior - 5yr Bachelor, Senior - Post Bachelor, Senior - Second Bachelor.
Registration Information: Senior standing. Must register for lecture and laboratory. Required field trips.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: Yes.

ANEQ 486 Therapeutic Riding Instructor Practicum  Credit: 1 (0-3-0)
Course Description: Mentor-guided teaching hours to students preparing for the PATH International Instructor examination.
Prerequisite: ANEQ 365.
Term Offered: Fall.
Grade Mode: S/U Sat/Unsat Only.
Special Course Fee: Yes.
ANEQ 487A Internship: Animal Credits: Var[1-6] (0-0-0)
Course Description:
Prerequisite: None.
Registration Information: Written consent of instructor. Maximum of 6 credits allowed in course.
Terms Offered: Fall, Spring, Summer.
Grade Mode: S/U Sat/Unsat Only.
Special Course Fee: No.

ANEQ 487B Internship: Equine Credits: Var[1-6] (0-0-0)
Course Description:
Prerequisite: None.
Registration Information: Written consent of instructor. Maximum of 6 credits allowed in course.
Terms Offered: Fall, Spring, Summer.
Grade Mode: S/U Sat/Unsat Only.
Special Course Fee: No.

ANEQ 495 Independent Study Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Registration Information: Written consent of instructor. Maximum of 6 credits allowed in course.
Terms Offered: Fall, Spring, Summer.
Grade Mode: S/U Sat/Unsat Only, Traditional.
Special Course Fee: No.

ANEQ 496 Group Study Credits: Var[1-5] (0-0-0)
Course Description:
Prerequisite: None.
Registration Information: Written consent of instructor. Maximum of 6 credits allowed in course.
Terms Offered: Fall, Spring, Summer.
Grade Mode: S/U Sat/Unsat Only.
Special Course Fee: No.

ANEQ 500 Recent Developments Credits: Var[1-6] (0-0-0)
Course Description: Recent developments in animal science, avian science, and food technology.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Graduate standing.
Term Offered: Summer.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

ANEQ 505 Microbiome of Animal Systems Credits: 3 (2-2-0)
Course Description: Provides background knowledge, and practical skills required for analyzing microbiome data sets. Technical issues such as primer choice, sequence variant vs OTU picking, rarefaction vs CSS, and study effects are discussed.
Prerequisite: None.
Registration Information: Junior standing. Must register for lecture and laboratory. Written consent of instructor. Credit not allowed for both ANEQ 505 and ANEQ 580A5.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 510 Bovine Reproduction Management Credits: 4 (3-2-0)
Course Description: Role of reproduction in economic efficiency of cattle production systems. Causes of delayed breeding and nonpregnancy, abortion and perinatal mortality.
Prerequisite: ANEQ 310.
Registration Information: Must register for lecture and laboratory.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: Yes.

ANEQ 522 Animal Metabolism Credits: 3 (3-0-0)
Course Description: Nutrient digestion, absorption, transport and metabolism in monogastric and ruminant domestic species as affected by physiological changes.
Prerequisite: CHEM 346 or CHEM 245 and CHEM 246.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 525 Advanced Meat Science Credits: 3 (3-0-0)
Course Description: Advanced study of fundamental and biochemical basis of meat quality.
Prerequisite: ANEQ 360 or ANEQ 470.
Registration Information: Junior standing. Credit not allowed for both ANEQ 525 and ANEQ 581A5.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 531 Applied Bovine Respiratory Disease Management Credit: 1 (1-0-0)
Course Description: Economic significance, management and measurement of bovine respiratory disease; introduction to genetic influence on susceptibility.
Prerequisite: ANEQ 313 or ANEQ 346.
Registration Information: Written consent of instructor. Offered as an online course only. This is a partial semester course. Senior standing. Credit not allowed for both ANEQ 531 and ANEQ 580A1.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 532 Genetics of Bovine Respiratory Disease Credit: 1 (1-0-0)
Course Description: Quantitative and molecular perspectives on the genetics of susceptibility to bovine respiratory disease (BRD); genetic improvement in BRD susceptibility.
Prerequisite: ANEQ 330 and ANEQ 531.
Registration Information: Senior standing. Written consent of instructor. Offered as an online course only. This is a partial semester course. Credit not allowed for both ANEQ 532 and ANEQ 580A2.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 533 Marker and Gene Assisted Selection Credit: 1 (1-0-0)
Course Description: Approaches to including DNA marker and gene information into livestock selection decisions to improve accuracy and rate of genetic improvement.
Prerequisite: ANEQ 535 or ANEQ 575.
Registration Information: Graduate standing. Written consent of instructor. Offered as an online course only. This is a partial semester course. Credit not allowed for both ANEQ 533 and ANEQ 580A3.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.
ANEQ 534  Markers to Gene Function - Functional Change  Credit: 1 (1-0-0)
Course Description: Results of marker association analyses are expanded
to how sequence polymorphisms translate into functional changes in
the animal genome and variation in animal performance. Topics include
an introduction to the tools used to generate multi-omics data and how
these data are used in genetic evaluation and animal improvement
programs.
Prerequisite: ANEQ 328.
Registration Information: Senior standing. Written consent of instructor.
Offered as an online course only. This is a partial semester course. Credit
not allowed for both ANEQ 534 and ANEQ 580A4.
Term Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 535  Genetic Prediction in Livestock  Credit: 1 (1-0-0)
Course Description: Emphasizes approaches to genetic prediction in
livestock focusing on the use of mixed models and best linear unbiased
prediction.
Prerequisite: ANEQ 575.
Registration Information: Graduate standing. Written consent of
instructor. Offered as an online course only. This is a partial semester
course. Credit not allowed for both ANEQ 535 and ANEQ 581A1.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 536  Livestock Variance Component Estimation  Credit: 1 (1-0-0)
Course Description: Emphasizes approaches to estimation of
(co)variance components and genetic parameters required to solve mixed
models in livestock genetics.
Prerequisite: ANEQ 535 or ANEQ 575.
Registration Information: Senior standing. Written consent of instructor.
Offered as an online course only. This is a partial semester course. Credit
not allowed for both ANEQ 536 or ANEQ 581A2.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 545  Molecular Methods in Animal Genetics  Credits: 3 (0-6-0)
Course Description: Hands-on learning exercises to help develop
technical skills and conceptual understanding for critical evaluation of
animal genetics at the molecular level. Practical experience in classical
and modern genetics laboratory techniques as well as an appreciation
for when these techniques should be applied and how to interpret the
results.
Prerequisite: ANEQ 330 or ANEQ 334.
Registration Information: Senior standing. Credit not allowed for both
ANEQ 545 and ANEQ 581A3.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 548  Issues in Manure Management  Credits: 4 (2-2-1)
Course Description: Manure management practices maximizing benefits
to soils and crops while minimizing hazards to air and water quality and
complying with regulations.
Prerequisite: CHEM 100 to 199 - at least 3 credits.
Registration Information: Credit allowed for only one of the following
courses: ANEQ 448, ANEQ 548, SOCR 448, SOCR 548. Must register for
lecture, laboratory, and recitation. Required field trips.
Term Offered: Fall (even years).
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 550A  Basic Research Surgery: Farm Animal  Credits: 2 (1-2-0)
Course Description: Basic principles and techniques of animal surgery to
meet ACUC requirements for experimental procedures.
Prerequisite: ANEQ 230 or ANEQ 305 or BMS 300 or BMS 305.
Registration Information: Junior, senior, or graduate standing. Must
register for lecture and laboratory.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 550B  Basic Research Surgery: Rodent  Credits: 2 (1-2-0)
Course Description: Basic principles and techniques of animal surgery to
meet ACUC requirements for experimental procedures.
Prerequisite: ANEQ 230 or ANEQ 305 or BMS 300 or BMS 305 or VS 333.
Registration Information: Junior, senior, or graduate standing. Must
register for lecture and laboratory.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 551  Field Necropsy  Credits: 2 (1-2-0)
Course Description: Field necropsy techniques for collection of animal
tissues for submission to a diagnostic laboratory.
Prerequisite: (ANEQ 230 or BMS 300 or ANEQ 305) and (VS 313 or
ANEQ 346 or MIP 315 or ANEQ 313).
Restriction: Must be a: Graduate, Professional.
Registration Information: Junior or senior standing. Must register for
lecture and laboratory.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: Yes.

ANEQ 555  Interpreting Animal Science Research  Credits: 3 (3-0-0)
Course Description: Designing, conducting, analyzing, and reporting of
animal science research.
Prerequisite: (ANEQ 101 or ANEQ 102) and (STAT 100 to 499 - at least 3
credits).
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 567  HACCP Meat Safety  Credits: 2 (2-0-0)
Course Description: Control of health problems in meat products
through hazard analysis critical control point (HACCP) and total quality
management (TQM) practices.
Prerequisite: ANEQ 460.
Registration Information: This is a partial-semester course.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.
ANEQ 575 Computational Biology in Animal Breeding  Credits: 3 (2-2-0)
Course Description: Numerical analysis and use of computers to solve problems in animal improvement.
Prerequisite: None.
Restriction: Must be a: Graduate.
Registration Information: Graduate standing or written consent of instructor. Must register for lecture and laboratory.
Term Offered: Fall (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 587 Internship  Credits: Var[1-9] (0-0-0)
Course Description: None.
Registration Information: Written consent of instructor.
Terms Offered: Fall, Spring, Summer.
Grade Mode: S/U Sat/Unsat Only.
Special Course Fee: No.

ANEQ 610 Hormonal Regulation of Growth  Credits: 2 (2-0-0)
Course Description: Cellular and molecular regulation of animal growth by hormones and growth factors.
Prerequisite: BMS 501.
Restriction: Must be a: Graduate, Professional.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 621 Vitamin and Mineral Metabolism  Credits: 3 (3-0-0)
Course Description: Vitamin and mineral metabolism in domestic animals.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Graduate standing.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 626 Animal Nutrition, Emissions, and Management  Credits: 4 (3-3-0)
Course Description: Nutrients and nutrient function required to support animal life through all physiological states and assessment of the impacts on gaseous emissions from these animals.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Must register for lecture and laboratory. Required field trips.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: Yes.

ANEQ 631 Selection Index Theory  Credits: 3 (2-0-1)
Course Description: Quantitative methods for genetic evaluation: selection index theory and introduction to best linear unbiased prediction.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Graduate standing. Must register for lecture and recitation.
Term Offered: Spring (even years).
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

ANEQ 660 Topics in Meat Safety  Credit: 1 (1-0-0)
Course Description: Topics of current concern in meat safety.
Prerequisite: ANEQ 567.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 676 Molecular Approaches to Food Safety  Credits: 3 (1-4-0)
Course Description: Molecular subtyping, tracking, and control; molecular ecology and evolution of food-borne pathogens; molecular pathogenesis of food-borne diseases.
Prerequisite: MIP 300 or MIP 334.
Restriction: Must be a: Graduate, Graduate cooperative program, Professional.
Registration Information: Must register for lecture and laboratory.
Term Offered: Fall (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 575 Computational Biology in Animal Breeding  Credits: 3 (2-2-0)
Course Description: Numerical analysis and use of computers to solve problems in animal improvement.
Prerequisite: None.
Restriction: Must be a: Graduate.
Registration Information: Graduate standing or written consent of instructor. Must register for lecture and laboratory.
Term Offered: Fall (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 587 Internship  Credits: Var[1-9] (0-0-0)
Course Description: None.
Registration Information: Written consent of instructor.
Terms Offered: Fall, Spring, Summer.
Grade Mode: S/U Sat/Unsat Only.
Special Course Fee: No.

ANEQ 610 Hormonal Regulation of Growth  Credits: 2 (2-0-0)
Course Description: Cellular and molecular regulation of animal growth by hormones and growth factors.
Prerequisite: BMS 501.
Restriction: Must be a: Graduate, Professional.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 621 Vitamin and Mineral Metabolism  Credits: 3 (3-0-0)
Course Description: Vitamin and mineral metabolism in domestic animals.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Graduate standing.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 626 Animal Nutrition, Emissions, and Management  Credits: 4 (3-3-0)
Course Description: Nutrients and nutrient function required to support animal life through all physiological states and assessment of the impacts on gaseous emissions from these animals.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Must register for lecture and laboratory. Required field trips.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: Yes.

ANEQ 631 Selection Index Theory  Credits: 3 (2-0-1)
Course Description: Quantitative methods for genetic evaluation: selection index theory and introduction to best linear unbiased prediction.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Graduate standing. Must register for lecture and recitation.
Term Offered: Spring (even years).
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.
ANEQ 731  Advanced Genetic Prediction  Credits: 3 (3-0-0)
Course Description: Models and methods for prediction of genetic merit in livestock populations.
Prerequisite: ANEQ 575.
Restriction: Must be a: Graduate, Professional.
Registration Information: Graduate standing.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

ANEQ 784  Supervised College Teaching  Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Graduate standing. Written consent of instructor.
Terms Offered: Fall, Spring, Summer.
Grade Mode: S/U Sat/Unsat Only.
Special Course Fee: No.

ANEQ 792A  Seminar: General  Credit: 1 (0-0-1)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Graduate standing.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ANEQ 792B  Seminar: Breeding/Genetics  Credit: 1 (0-0-1)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Graduate standing.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ANEQ 792C  Seminar: Physiology  Credit: 1 (0-0-1)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Graduate standing.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ANEQ 792D  Seminar: Meat Sciences  Credit: 1 (0-0-1)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Graduate standing.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ANEQ 792E  Seminar: Nutrition  Credit: 1 (0-0-1)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Graduate standing.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ANEQ 792F  Seminar: Livestock Management Systems  Credit: 1 (0-0-1)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Graduate standing.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ANEQ 792H  Seminar: Livestock Behavior and Welfare  Credit: 1 (0-0-1)
Course Description: Issues in the field of livestock behavior and welfare.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ANEQ 795  Independent Study  Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Graduate standing. Written consent of instructor.
Terms Offered: Fall, Spring, Summer.
Grade Mode: S/U Sat/Unsat Only.
Special Course Fee: No.

ANEQ 799  Dissertation  Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Graduate standing. Written consent of instructor.
Terms Offered: Fall, Spring, Summer.
Grade Mode: S/U Sat/Unsat Only.
Special Course Fee: No.

Major in Animal Science
Students majoring in Animal Science (food animals) are provided with an industry-oriented, science-based education that prepares them for careers in animal agriculture or one of many industries associated with livestock production. The curriculum focuses on the study of food-producing animals and includes foundation courses in the sciences. Students also choose from specialized courses to enhance their technical, practical, and business skills in topics related to various aspects of production, marketing, and processing of livestock and their products.

Learning Outcomes
Successful students will demonstrate:

- Broad-based understanding of biological principles and develop the ability to incorporate the use of these principles into animal management systems
- An understanding of business/economic principles and their application to food animal production systems
- Ability to critically evaluate industry and management issues
- Problem-solving and leadership skills that enhance professional success
Potential Occupations

Potential occupations include: managers of production units such as ranches, feedlots, and dairy farms; sales representatives for feed companies, pharmaceutical firms, and livestock service organizations; employment with organizational groups/associations such as breed organizations, clientele groups, and branded beef companies; cooperative extension and other educational positions; or enrollment in graduate and professional schools.

Requirements

Effective Fall 2020

A maximum of five credits is allowed for the following:
ANEQ 352, ANEQ 353, ANEQ 354, ANEQ 355, ANEQ 356, ANEQ 357, ANEQ 361, ANEQ 362, ANEQ 363, ANEQ 364.

A maximum of 12 credits is allowed for any combination of the following:
ANEQ 352, ANEQ 353, ANEQ 354, ANEQ 355, ANEQ 356, ANEQ 357, ANEQ 361, ANEQ 362, ANEQ 363, ANEQ 364, ANEQ 384, ANEQ 487A, ANEQ 495, and ANEQ 496.

A minimum grade of ‘C’ (2.000) is required for ANEQ 313/VS 313, BMS 300, MIP 315 and each of the ANEQ courses used to meet requirements for the major.

ANEQ 486  Therapeutic Riding Instructor Practicum

1. Select credits from any AREC or ECON course or any business course, of which 3 credits may be a computer course. Access granted for the following business courses: ACT 205, BUS 205, FIN 305, MGT 305, MKT 305.

2. Select a total of 12 credits from the Specialization Animal Science List, or students may satisfy the requirement by completing a second major (Equine Science, Agricultural Business, Agricultural Education, or Journalism and Media Communication) or a minor (Food Science and Safety, Agricultural Business, or Business Administration).

3. Select enough elective credits to bring the program total to a minimum of 120 credits, of which at least 42 must be upper-division (300- to 400-level).

**Major Completion Map**

**Distinctive Requirements for Degree Program:** A maximum of five credits is allowed for ANEQ 352, ANEQ 353, ANEQ 354, ANEQ 355, ANEQ 356, ANEQ 357, ANEQ 361, ANEQ 362, ANEQ 363, and ANEQ 364. A maximum of 12 credits is allowed for any combination of the following: ANEQ 352, ANEQ 353, ANEQ 354, ANEQ 355, ANEQ 356, ANEQ 357, ANEQ 361, ANEQ 362, ANEQ 363, ANEQ 364, ANEQ 384, ANEQ 487A, ANEQ 495, and ANEQ 496.

A minimum grade of ‘C’ (2.000) is required for ANEQ 313/VS 313, BMS 300, MIP 315 and each of the ANEQ courses used to meet requirements for the major.

Major in Equine Science

The Equine Science major prepares students to serve the many needs of a growing industry and focuses on providing students with an in-depth scientific knowledge of the varied functions of the horse and how to relate those scientific principles to the industry. Equine Science majors have the opportunity to develop a broad understanding of the horse as it relates to business, recreational, and production aspects of the industry. Currently, CSU has the most comprehensive equine program in the United States with major efforts in research, teaching, and public service.

Learning Outcomes

Successful students will demonstrate:

- Broad-based understanding of biological principles and develop the ability to incorporate the use of these principles into the horse industry
- An understanding of business/economic principles and their application to equine enterprises
- Ability to critically evaluate equine industry issues
- Problem-solving and leadership skills that enhance professional success

Potential Occupations

- The opportunity to attend professional and/or graduate school
- Positions that provide services to the horse industry
- Management of equine production systems such as breeding farms
- Positions with horse organizations and horse shows
- Education positions with cooperative extension and colleges and universities

Requirements

Effective Fall 2018

A minimum grade of “C” (2.00) is required for each of the ANEQ courses which are required to complete the major.

A maximum of five credits is allowed for ANEQ 352, ANEQ 353, ANEQ 354, ANEQ 355, ANEQ 356, ANEQ 357, ANEQ 361, ANEQ 362, ANEQ 363, and ANEQ 364. A maximum of twelve credits is allowed for any combination of the following: ANEQ 352, ANEQ 353, ANEQ 354, ANEQ 355, ANEQ 356, ANEQ 357, ANEQ 361, ANEQ 362, ANEQ 363, ANEQ 364, ANEQ 384, ANEQ 487B, ANEQ 495, and ANEQ 496.

1 If students opt to take BMS 300, a minimum grade of C is required.
2 Select credits from any 200-level or above AREC or ECON course or any business course of which 3 credits may be a computer course. Access granted for the following business courses: ACT 205, BUS 205, FIN 305, MGT 305, MKT 305.
3 Select enough elective credits to bring the program to a minimum of 120 credits, of which at least 42 must be upper-division (300- to 400-level).

Major Completion Map

Distinctive Requirements for Degree Program: A minimum grade of "C" (2.00) is required for each of the ANEQ courses which are required to complete the major.

A maximum of five credits is allowed for ANEQ 352, ANEQ 353, ANEQ 354, ANEQ 355, ANEQ 356, ANEQ 357, ANEQ 358, ANEQ 361, ANEQ 362, ANEQ 363, and ANEQ 364.

A maximum of twelve credits is allowed for any combination of the following: ANEQ 352, ANEQ 353, ANEQ 354, ANEQ 355, ANEQ 356, ANEQ 357, ANEQ 358, ANEQ 361, ANEQ 362, ANEQ 363, ANEQ 364, ANEQ 384, ANEQ 487B, ANEQ 495, and ANEQ 496.

Certificate in Animal Nutrition

The Department of Animal Sciences offers a certificate in Animal Nutrition to undergraduate students majoring in Animal Science. This certificate prepares students for careers that require specialized training in feeding and nutritional management of animals or for advanced studies in the field of animal nutrition.

Effective Fall 2017

A minimum grade of C (2.000) is required in each course with the traditional grade mode and a Satisfactory for each course with the S/U grade mode.

Additional coursework may be required due to prerequisites.

Program Total Credits: 14

Certificate in Beef Feedlot Management

The Department of Animal Sciences offers a Certificate in Beef Feedlot Management. This certificate prepares graduates for careers in the cattle feeding industry and associated allied industries.

Effective Spring 2017

A minimum grade of C (2.000) is required in each course with the traditional grade mode and a Satisfactory for each course with the S/U grade mode.

Additional coursework may be required due to prerequisites.

Program Total Credits: 13

Certificate in Beef Production Systems

The Department of Animal Sciences offers a Certificate in Beef Production Systems to students majoring in Animal Science. This certificate prepares students for careers that require specialized training in all facets of beef production including genetic selection, seedstock merchandising, cow-calf production and management, feedlot management, beef processing, and marketing of beef products (retail and food service).

Effective Spring 2017

A minimum grade of C (2.000) is required in each course with the traditional grade mode and a Satisfactory for each course with the S/U grade mode.

Additional coursework may be required due to prerequisites.

Certificate in Meat Science

The Department of Animal Sciences offers a Certificate in Meat Science to undergraduate students majoring in Animal Science. This certificate prepares students for careers that require specialized training in meat processing technology, product quality, microbiology and meat safety or for advanced studies in the field of Meat Science or Food Safety.

Effective Fall 2018

A minimum grade of C (2.000) is required in each course with the traditional grade mode and a Satisfactory for each course with the S/U grade mode.

Additional coursework may be required due to prerequisites.

Master of Science in Animal Sciences, Plan A

The Master of Science in Animal Sciences, Plan A consists of 30 credit hours, including the preparation and defense of an original research
thesis. At least one peer review publication is expected for this effort. Students will study within one of the discipline groups of the department (i.e., beef and dairy systems management; breeding and genetics; livestock behavior and welfare; meat science and food safety; nutrition; reproduction; equine sciences) to prepare for future employment in the animal agricultural industries and/or the pursuit of a doctoral degree.

Program Total Credits: 30

A minimum of 30 credits are required to complete this program.

1 At least 12 credits must be at the 500-level or above.
2 Select courses with approval of advisor and graduate committee

Department of Horticulture and Landscape Architecture

University Services Center
601 South Howes St, Room 410
(970) 491-7019
cas_hla@mail.colostate.edu
hortla.agsci.colostate.edu (http://hortla.agsci.colostate.edu)

Professor Jessica Davis, Department Head

Undergraduate
Majors

- Environmental Horticulture
- Landscape Business Concentration (No new students are being accepted to this concentration.)
- Landscape Design and Contracting Concentration
- Nursery and Landscape Management Concentration
- Turf Management Concentration
- Horticulture
- Floriculture Concentration
- Horticultural Business Management Concentration

- Horticultural Food Crops Concentration
- Production Option
- Seed Science Option
- Horticultural Science Concentration
- Horticultural Therapy Concentration
- Landscape Architecture

Minors

A Horticulture or Environmental Horticulture minor will serve to broaden the academic background of students seeking employment in interdisciplinary job markets associated with plant sciences or the art and science of environmental horticulture. A minor will allow students a maximum breadth and depth in the field while utilizing a limited number of requirements.

- Environmental Horticulture
- Horticulture

Graduate
Graduate Programs in Horticulture

The department offers graduate programs leading to Master of Science and Doctor of Philosophy degrees. Students interested in graduate work should refer to the Graduate and Professional Bulletin and the Department of Horticulture (http://hortla.agsci.colostate.edu).

Master's Programs

Master of Science in Horticulture, Plan A*
Master of Science in Horticulture, Plan B*

Ph.D.

Ph.D. in Horticulture*
* Please see department for program of study.

Courses

Subjects in this department include: Horticulture (HORT) and Landscape Architecture (LAND).

Horticulture (HORT)

HORT 100 Horticultural Science Credits: 4 (3-2-0)
Course Description: Principles of plant science and related disciplines as the base and context for the introduction of horticultural practices.
Prerequisite: None.
Registration Information: Must register for lecture and laboratory. Required field trips. Sections may be offered: Online.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: Yes.
Additional Information: Biological & Physical Sciences 3A.
HORT 171  Environmental Issues in Agriculture (GT-SS3)  Credits: 3 (2-0-1)
Also Offered As: SOCR 171.
Course Description: Historical development of agriculture, environmental consequences of modern food production and other cultural approaches to agriculture.
Prerequisite: None.
Registration Information: Must register for lecture and recitation. Credit not allowed for both HORT 171 and SOCR 171.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.
Additional Information: Diversity & Global Awareness 3E, Human Behavior, Culture, or Social Frameworks (GT-SS3).

HORT 192  Orientation to Horticulture/Landscape Arch  Credit: 1 (0-0-1)
Also Offered As: LAND 192.
Course Description: First year course in horticulture and landscape architecture. Information and skills necessary to succeed in majors in the Department of Horticulture and Landscape Architecture.
Prerequisite: None.
Restriction: Must be a: Undergraduate.
Registration Information: This is a partial semester course. Credit not allowed for both HORT 192 and LAND 192.
Term Offered: Fall.
Grade Mode: S/U Sat/Unsat Only.
Special Course Fee: No.

HORT 221  Landscape Plants  Credits: 4 (2-4-0)
Course Description: Identification, landscape features, cultural requirements, and landscape use of coniferous and deciduous trees and shrubs, vines, and evergreens.
Prerequisite: None.
Registration Information: Must register for lecture and laboratory. Required field trips.
Terms Offered: Fall, Spring.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: Yes.

HORT 231  Landscape Graphics Studio  Credits: 4 (2-4-0)
Course Description: Mechanical and freehand graphic techniques for landscape design. Use of pencil, ink, and colored markers. Plan, sectional, and perspective views.
Prerequisite: None.
Registration Information: Must register for lecture and laboratory.
Term Offered: Fall.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

HORT 232  Principles of Landscape Design  Credits: 4 (2-4-0)
Course Description: Basic concepts in the art and process of landscape design.
Prerequisite: HORT 231.
Registration Information: Must register for lecture and laboratory.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: Yes.

HORT 260  Plant Propagation  Credits: 4 (3-2-0)
Course Description: Theories, principles, and techniques of sexual and asexual propagation.
Prerequisite: BZ 120, may be taken concurrently or HORT 100, may be taken concurrently or LIFE 103, may be taken concurrently.
Registration Information: Must register for lecture and laboratory. Sections may be offered: Online.
Terms Offered: Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: Yes.

HORT 270  Fundamentals of Horticultural Therapy  Credits: 2 (2-0-0)
Course Description: Theory and practice of horticultural therapy in health care and human services; applications, settings, and professional career topics.
Prerequisite: None.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

HORT 310  Greenhouse Management  Credits: 4 (3-2-0)
Course Description: Design and use of enclosed structures to manipulate controlled environments, effects on growth as applied to crops, production, and marketing costs.
Prerequisite: None.
Registration Information: Must register for lecture and laboratory. Sections may be offered: Online.
Terms Offered: Fall, Spring, Summer.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

HORT 321  Nursery Production and Management  Credits: 4 (3-2-0)
Course Description: Nursery industry organization, management, equipment, field and container production, storage, shipping, marketing, and business management practices.
Prerequisite: BZ 120 or HORT 100 or LIFE 103.
Registration Information: Must register for lecture and laboratory. Required field trips.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: Yes.

HORT 322  Herbaceous Plants  Credits: 3 (2-2-0)
Course Description: Identification, landscape features, cultural requirements, and uses of ornamental annual, perennial, and bulb plants.
Prerequisite: None.
Registration Information: Must register for lecture and laboratory. Sections may be offered: Online. Required field trips.
Term Offered: Fall.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: Yes.

HORT 330  Computers for Landscape Design  Credits: 2 (1-2-0)
Course Description: Applications and techniques of computer software utilized in small-scale landscape design-build.
Prerequisite: None.
Registration Information: Must register for lecture and laboratory.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.
HORT 331  Landscape Design  Credits: 2 (2-0-0)
Course Description: Fundamentals of landscape design theory and plant composition as presented in simple problems.
Prerequisite: None.
Registration Information: For non-design majors only.
Term Offered: Spring.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

HORT 333  Landscape Structures  Credits: 4 (2-4-0)
Course Description: Design and construction methods for structures commonly used in residential landscaping. Preparation of construction documents.
Prerequisite: CON 131 and HORT 232.
Registration Information: Must register for lecture and laboratory. Required field trips.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

HORT 336  Landscape Grading and Drainage Studio  Credits: 4 (2-4-0)
Course Description: Basic design principles for grading, drainage, and earth forms for small-scale projects.
Prerequisite: (HORT 221 and HORT 322 and HORT 335) and (MATH 118).
Registration Information: Must register for lecture and laboratory.
Term Offered: Spring.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

HORT 335  Landscape Structures  Credits: 4 (2-4-0)
Course Description: Design and construction methods for structures commonly used in residential landscaping. Preparation of construction documents.
Prerequisite: CON 131 and HORT 232.
Registration Information: Must register for lecture and laboratory. Required field trips.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

HORT 331  Landscape Design  Credits: 2 (2-0-0)
Course Description: Fundamentals of landscape design theory and plant composition as presented in simple problems.
Prerequisite: None.
Registration Information: For non-design majors only.
Term Offered: Spring.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

HORT 344  Organic Greenhouse Production  Credit: 1 (1-0-0)
Course Description: Fundamentals of greenhouse production using organic production methods.
Prerequisite: HORT 310.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.

HORT 345  Diagnosis and Treatment in Organic Fields  Credits: 2 (0-4-0)
Also Offered As: SOCR 345.
Course Description: Field experience in diagnosis of pest and nutrient problems on organic farms and development of treatment recommendations.
Prerequisite: (BSPM 302 or BSPM 308 or BSPM 361) and (HORT 100 or SOCR 100) and (SOCR 240).
Registration Information: Credit not allowed for both HORT 345 and SOCR 345. Required field trips.
Term Offered: Summer (even years).
Grade Mode: Traditional.
Special Course Fee: Yes.

HORT 347  Hydroponics  Credits: 3 (3-0-0)
Course Description: Hydroponics, hydroponic systems, and hydroponic process from concept to application.
Prerequisite: HORT 100.
Registration Information: Offered as an online course only.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.

HORT 367  Landscape Irrigation  Credits: 3 (2-2-0)
Course Description: Practical design of sprinkler and trickle irrigation systems for commercial and residential landscapes.
Prerequisite: None.
Registration Information: Must register for lecture and laboratory. Credit allowed for only one of the following: HORT 367, HORT 368, LAND 368.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

HORT 368  Landscape Irrigation and Water Conservation  Credits: 3 (2-2-0)
Also Offered As: LAND 368.
Course Description: Practical approaches and methods of irrigation, water conservation, and water management in the designed landscape.
Prerequisite: HORT 100 or LAND 110.
Registration Information: Must register for lecture and laboratory. Credit allowed for only one of the following: HORT 367, HORT 368, LAND 368.
Term Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

HORT 370  Landscape Irrigation  Credit: 1 (1-0-0)
Course Description: Necessary skills to design and manage irrigation systems used in the landscape industry.
Prerequisite: HORT 100, may be taken concurrently.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

HORT 384  Supervised College Teaching  Credits: Var[1-5] (0-0-0)
Course Description: 
Prerequisite: None.
Registration Information: A maximum of 10 combined credits for all 384 and 484 courses are counted towards graduation requirements.
Terms Offered: Fall, Spring.
Grade Mode: Instructor Option.
Special Course Fee: No.

HORT 401  Medicinal and Value-Added Uses of Plants  Credits: 3 (3-0-0)
Course Description: Chemical, biochemical and ethnobotanical perspective on the medicinal and value-added uses of plants.
Prerequisite: BZ 120 or HORT 100 or LIFE 103.
Registration Information: Sections may be offered: Online.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.
HORT 410  Postharvest Biology and Technology  Credits: 3 (3-0-0)
Course Description: Storage and quality maintenance of harvested fruits and vegetables.
Prerequisite: (BZ 120 or HORT 100 or LIFE 103) and (BZ 440).
Registration Information: Offered as an online course only. Credit not allowed for both HORT 410 and HORT 481A1.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

HORT 412 Floriculture Crops  Credits: 4 (3-0-1)
Course Description: Commercial production and marketing of bedding plants, potted container crops, and cut flowers.
Prerequisite: None.
Registration Information: Must register for lecture and recitation. Required field trips. Sections may be offered: Online.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

HORT 417 Indoor Crop Production and Physiology  Credits: 3 (2-2-0)
Course Description: Advanced principles and practices specific to the production of horticultural crops in controlled environments. Explore strategies for the management of environmental factors (e.g., light intensity, spectrum, temperature, relative humidity, carbon dioxide) and the resulting impact on plant growth and development. Review recent advancements in research and technology specific to production in controlled environments.
Prerequisite: HORT 310.
Registration Information: Must register for lecture and laboratory. Sections may be offered: Online.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

HORT 421 Horticultural Therapy Techniques  Credits: 2 (2-0-0)
Course Description: Clinical skills in horticultural therapy; communication, safety, leadership, therapeutic relationships, adaptation of tools and activities.
Prerequisite: HORT 270.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

HORT 423 Horticultural Therapy Programming  Credits: 2 (2-0-0)
Course Description: Methods for individual treatment planning, intervention, documentation, and reporting within therapy, social, and vocational HT programs.
Prerequisite: HORT 421.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

HORT 424 Topics in Organic Agriculture  Credits: 3 (3-0-0)
Also Offered As: SOCR 424.
Course Description: Examination of issues specific to organic food production systems and marketing.
Prerequisite: (AREC 202 or ECON 202) and (SOCR 240 and AREC 328) and (HORT 100 or SOCR 100) and (HORT 171 or SOCR 171).
Registration Information: Credit not allowed for both HORT 424 and SOCR 424.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.

HORT 425 Horticultural Therapy Management  Credits: 3 (2-0-1)
Course Description: Horticulture therapy program and site design, proposals, funding, marketing, management, and evaluation.
Prerequisite: HORT 423.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

HORT 431 Planting Design Studio  Credits: 4 (2-4-0)
Course Description: Functional and aesthetic values of plant materials; their creative use in landscape design.
Prerequisite: HORT 221 and HORT 336 and HORT 322.
Registration Information: Must register for lecture and laboratory.
Term Offered: Fall.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

HORT 432 Intensive Landscape Design Studio  Credits: 5 (2-6-0)
Course Description: Site planning and design for landscape projects of a limited scale. Problems of increasing complexity. Emphasis on real sites and clients.
Prerequisite: HORT 487 and HORT 431.
Registration Information: Must register for lecture and laboratory. Required field trips.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

HORT 441 Turfgrass Science  Credits: 3 (3-0-0)
Course Description: Examination of turfgrass management practices from a scientific perspective; discussion of advanced turfgrass management technologies.
Prerequisite: BZ 120 or HORT 100 or SOCR 240.
Registration Information: Required field trips. Sections may be offered: Online.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

HORT 451 Vegetable Crop Management  Credits: 3 (2-0-1)
Course Description: Physiological, environmental, and cultural aspects of vegetable crop production, including conventional and certified organic approaches.
Prerequisite: BZ 120 or BZ 440 or HORT 100 or LIFE 103 or SOCR 100.
Registration Information: Must register for lecture and recitation. Sections may be offered: Online. Credit allowed for only one of the following: HORT 450A1, HORT 451, or HORT 480A2. Credit allowed for only one of the following: HORT 450B, HORT 451, or HORT 480A2.
Term Offered: Fall (even years).
Grade Mode: Traditional.
Special Course Fee: Yes.

HORT 452 Viticulture-Grape Production  Credit: 1 (1-0-0)
Course Description: Grape production in temperate zone climates.
Prerequisite: BZ 120 or HORT 100 or LIFE 103 or SOCR 100.
Term Offered: Fall (even years).
Grade Mode: Traditional.
Special Course Fee: No.
HORT 453  Principles of Fruit Crop Management  Credits: 3 (2-0-1)
Course Description: Understanding the fundamentals of fruit tree biology is essential to making sound orchard management and business decisions in the tree fruit industry. Explore the basics of tree and small fruit production, including site, cultivar and rootstock selection, cropping trends and cultural practices such as planting, pruning, training, irrigation, nutrition, harvesting, and postharvest handling and technology of specific temperate fruit crops.
Prerequisite: BZ 120 or BZ 440 or HORT 100 or LIFE 103 or SOCR 100.
Registration Information: Sections may be offered: Online. Credit not allowed for both HORT 450C and HORT 453. Credit not allowed for both HORT 450D and HORT 453.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

HORT 454  Horticulture Crop Production and Management  Credits: 2 (2-0-0)
Course Description: Production and management of horticulture crops.
Prerequisite: HORT 310 or HORT 451 or HORT 453.
Registration Information: Sections may be offered: Online.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

HORT 460  Plant Breeding  Credits: 3 (2-0-1)
Also Offered As: SOCR 460.
Course Description: Theory and practice of plant breeding using principles of genetics and related sciences.
Prerequisite: BZ 350, may be taken concurrently or LIFE 201A, may be taken concurrently or SOCR 330, may be taken concurrently.
Registration Information: Must register for lecture and recitation. Credit not allowed for both HORT 460 and SOCR 460.
Term Offered: Fall (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

HORT 461  Plant Breeding Laboratory  Credit: 1 (0-2-0)
Also Offered As: SOCR 461.
Course Description: Techniques and procedures used in public and commercial plant breeding programs.
Prerequisite: HORT 460, may be taken concurrently or SOCR 460, may be taken concurrently.
Registration Information: Credit not allowed for both HORT 461 and SOCR 461.
Term Offered: Fall (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

HORT 462  Viticulture Practices in Grape Production  Credits: 3 (3-0-0)
Course Description: Biology of grape vines and cultural practices including planning, training, pest control, pruning, and harvesting; special emphasis on Colorado.
Prerequisite: None.
Term Offered: Fall (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

HORT 464A  Arboriculture  Credits: 3 (2-2-0)
Course Description: Practices used by arborists and landscape managers to plant, appraise and maintain landscape trees.
Prerequisite: HORT 100 and SOCR 240.
Registration Information: Sections may be offered: Online. Credit not allowed for both HORT 464A and HORT 464B. Required field trips.
Term Offered: Fall.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

HORT 465  Landscape Estimating  Credits: 3 (2-2-0)
Course Description: Landscape construction estimating and bidding, contract documentation and other business practices relevant to landscape design-build and contracting.
Prerequisite: (MATH 117) and (MATH 118) and (MATH 124) and (MATH 124 or MATH 125 or MATH 141 or MATH 155) and (HORT 221).
Registration Information: Must register for lecture and laboratory.
Term Offered: Fall.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

HORT 466  Urban and Community Forestry  Credits: 3 (3-0-0)
Also Offered As: F 466.
Course Description: Policies and management of publicly and privately owned community forests in urbanized areas.
Prerequisite: F 310 or RS 310 or HORT 221.
Registration Information: Credit not allowed for both HORT 466 and F 466.
Term Offered: Fall (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

HORT 476  Environmental Plant Stress Physiology  Credits: 3 (3-0-0)
Course Description: Plant growth, development and physiology, major sources of stress in plants, global issues in environment and plant stress.
Prerequisite: BZ 440.
Registration Information: Credit not allowed for both HORT 476 and HORT 576. Sections may be offered: Online.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

HORT 479  Professional Landscape Practices  Credits: 2 (2-0-0)
Course Description: Business skills involved in a successful career in the green industry.
Prerequisite: HORT 100 and HORT 465.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

HORT 486A  Practicum: Floriculture  Credits: 2 (0-4-0)
Course Description: Directed experience in applications of floriculture technique. Fall: pest, energy, and production. Spring: production and experimentation.
Prerequisite: HORT 310.
Terms Offered: Fall, Spring.
Grade Mode: Instructor Option.
Special Course Fee: No.
HORT 486B Practicum: General Credits: Var[1-6] (0-0-0)
Course Description: Directed experiences in applications of horticulture techniques and procedures.
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

HORT 487 Internship Credits: Var[1-18] (0-0-0)
Course Description: Must be a: Graduate.
Prerequisite: None.
Registration Information: Sections may be offered: Online.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

HORT 495 Independent Study Credits: Var[1-18] (0-0-0)
Course Description: Must register for lecture and recitation. Credit not allowed for both AGRI 515 and HORT 515. Offered as an online course only.
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

HORT 496 Group Study Credits: Var[1-18] (0-0-0)
Course Description: Must register for lecture and recitation. Credit not allowed for both HORT 576 and HORT 476. Offered as an online course only.
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

HORT 511 Green Roof Culture Credits: 3 (3-0-0)
Course Description: Investigate and evaluate the techniques of incorporating food production systems in the urban and peri-urban environment.
Prerequisite: HORT 100 to 199 - at least 3 credits.
Registration Information: Offered as an online course only.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

HORT 515 Urban Horticulture Credits: 3 (3-0-0)
Also Offered As: AGRI 515.
Course Description: Investigate and evaluate the techniques of incorporating food production systems in the urban and peri-urban environment.
Prerequisite: HORT 451 or HORT 453.
Registration Information: Credit not allowed for both AGRI 515 and HORT 515. Offered as an online course only.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

HORT 521 Horticulture and Human Health and Well-Being Credits: 3 (3-0-0)
Course Description: Impact of principles and practices of horticulture on human health and well-being.
Prerequisite: None.
Restriction: Must be a: Graduate.
Registration Information: Graduate standing. Bachelor’s degree required. Sections may be offered: Online.
Term Offered: Fall (even years).
Grade Mode: Traditional.
Special Course Fee: No.

HORT 522 Horticulture and Human Health Issues Credits: 3 (3-0-0)
Course Description: Horticulture is an essential instrument of public health, but often professionals in these fields view themselves as opponents. Examine issues arising in the production of foods for human consumption that human health professionals often encounter. Overcome the barriers that divide horticulture and human health professionals.
Prerequisite: None.
Restriction: Must be a: Graduate.
Registration Information: Graduate standing. Sections may be offered: Online.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

HORT 523 Screening Crops for Human Health Traits Credits: 3 (3-0-0)
Course Description: Principle and methods of screening food crops for traits related to human health.
Prerequisite: None.
Restriction: Must be a: Graduate.
Registration Information: Graduate standing. Written consent of instructor. Sections may be offered: Online.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.

HORT 524 Food Pharmacology, Horticulture, and Health Credits: 3 (3-0-0)
Course Description: Application of the principles of pharmacology to the production of food combinations that promote human health. Horticultural food crops are emphasized.
Prerequisite: None.
Restriction: Must be a: Graduate.
Registration Information: Graduate standing. Written consent of instructor. Sections may be offered: Online.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.

HORT 571 Soil-Plant-Water Relations/Water Stress Credits: 3 (3-0-0)
Course Description: Movement of water in the soil-plant-atmosphere continuum. Instrumentation for measuring plant-water relations. Plant responses to drought and salinity.
Prerequisite: BZ 440.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

HORT 576 Advanced Environmental Plant Stress Physiology Credits: 4 (3-0-1)
Course Description: Advanced aspects of plant growth, development and physiology, major sources of stress in plants, global issues in environment and plant stress.
Prerequisite: BZ 440.
Registration Information: Must register for lecture and recitation. Credit not allowed for both HORT 576 and HORT 476.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.
HORT 578 Phytochemicals and Probiotics for Health Credits: 3 (2-0-1)
Also Offered As: FTEC 578.
Course Description: Examination of phytochemicals and probiotic organisms important in human health.
Prerequisite: BC 351.
Registration Information: Senior standing. Must register for lecture and recitation. Credit not allowed for both FTEC 578 and HORT 578.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

HORT 579 Mass Spectrometry Omics-Methods and Analysis Credits: 3 (3-0-0)
Course Description: A survey of experimental designs and workflows to generate, computationally process and analyze metabolite and protein data using mass spectrometry. Course format includes lecture, computer homework assignments with real data, literature review, and student presentations.
Prerequisite: BC 351.
Registration Information: Senior standing. Credit not allowed for both HORT 579 and HORT 581A3.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

HORT 584 Research Credits: Var[1-18] (0-0-0)
Course Description: Field experiences in extension practices in horticulture.
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

HORT 598 Supervised Extension Practices Credits: Var[1-18] (0-0-0)
Course Description: Field experiences in extension practices in horticulture.
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

HORT 699 Thesis Credits: Var[1-18] (0-0-0)
Course Description: Field experiences in extension practices in horticulture.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

HORT 784 Supervised College Teaching Credits: Var[1-18] (0-0-0)
Course Description: Field experiences in extension practices in horticulture.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

HORT 791 Seminar Credit: 1 (0-0-1)
Course Description: Field experiences in extension practices in horticulture.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Sections may be offered: Online.
Terms Offered: Fall, Spring.
Grade Mode: Instructor Option.
Special Course Fee: No.

HORT 795 Independent Study Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

HORT 799 Dissertation Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

Landscape Architecture (LAND)

LAND 110 Introduction to Landscape Architecture Credits: 3 (1-2-1)
Course Description: Introductory theories, methods, and applications of landscape studies.
Prerequisite: None.
Registration Information: Must register for lecture, laboratory, and recitation.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.
Additional Information: Arts & Humanities 3B.

LAND 120 History of the Designed Landscape Credits: 3 (3-0-0)
Course Description: Major monuments and spaces from ancient Middle East through classical antiquity, the Renaissance, and Western tradition.
Prerequisite: None.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

LAND 192 Orientation to Horticulture/Landscape Arch Credit: 1 (0-0-1)
Also Offered As: HORT 192.
Course Description: First year course in horticulture and landscape architecture. Information and skills necessary to succeed in majors in the Department of Horticulture and Landscape Architecture.
Prerequisite: None.
Restriction: Must be a: Undergraduate.
Registration Information: This is a partial semester course. Credit not allowed for both HORT 192 and LAND 192.
Term Offered: Fall.
Grade Mode: S/U Sat/Unsat Only.
Special Course Fee: No.

LAND 200 Topics in Landscape Theory and Garden Design Credits: 3 (3-0-0)
Course Description: Landscape theory and design principles in garden design. Students will be engaged through online discussions and will record weekly exercises and course material with the development of a sketchbook and blog/website postings.
Prerequisite: None.
Registration Information: This is a partial semester course. Offered as an online course only.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.
LAND 220 Fundamentals of Ecology (GT-SC2) Credits: 3 (3-0-0)
Also Offered As: LIFE 220.
Course Description: Interrelationships among organisms and their environments.
Prerequisite: (BIO 100 to 199 - at least 3 credits or BZ 100 to 199 - at least 3 credits or LIFE 100 to 199 - at least 3 credits or HORT 100) and (MATH 100 to 199 - at least 3 credits).
Registration Information: Sections may be offered: Online. Credit allowed for only one of the following: F 209, LAND 220, LIFE 220 or LIFE 320.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.
Additional Information: Biological & Physical Sciences 3A, Natural & Physical Sciences w/o lab (GT-SC2).

LAND 230 Drawing the Landscape Credits: 4 (2-4-0)
Course Description: Visual communication techniques; exploration of symbology, model building, design development drawing, and construction documentation draughting.
Prerequisite: None.
Registration Information: Must register for lecture and laboratory.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

LAND 240 Fundamentals of Landscape Design Process Credits: 4 (1-4-1)
Course Description: Initiation of formal exploration of design elements, materials, and principles, and introduction of design process as a defensible methodology.
Prerequisite: LAND 230.
Registration Information: Must register for lecture, laboratory and recitation.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: Yes.

LAND 241 Environmental Analysis Credits: 3 (1-4-0)
Course Description: Exploration and understanding of natural and cultural landscapes through analytical simulation techniques.
Prerequisite: LAND 230.
Registration Information: Must have concurrent registration in LAND 240. Must register for lecture and laboratory.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

LAND 357 Omnibus Field Studies Credits: 4 (0-8-0)
Course Description: Theories and methods for the analysis, design, and planning of garden and landscape scale environments.
Prerequisite: None.
Registration Information: 3 credits in landscape drawing and analysis.
Term Offered: Summer.
Grade Mode: Traditional.
Special Course Fee: No.

LAND 360 Basic Landscape Design and Construction Credits: 3 (0-6-0)
Course Description: Site programming analysis, design, and construction, including skill development in specifying earthwork, drainage, and vegetative composition.
Prerequisite: LAND 240.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: Yes.

LAND 361 Digital Methods Credits: 3 (2-2-0)
Course Description: Landscape research, analysis, and design with ARCVIEW, AutoCAD, Microstation, and Photoshop.
Prerequisite: LAND 360, may be taken concurrently.
Registration Information: Must register for lecture and laboratory.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: Yes.

LAND 362 Form and Expression in Garden Design Credits: 3 (0-6-0)
Course Description: Formal decision making for site scale environments, including creative processes for form-giving, and generation of experimental solutions.
Prerequisite: LAND 361.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

LAND 363 Advanced Landscape Site Engineering Credits: 4 (2-4-0)
Course Description: Understanding and documenting the built environment with emphasis on construction and surveying as integral parts of design process.
Prerequisite: LAND 360.
Registration Information: Must register for lecture and laboratory.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

LAND 364 Design and Nature Credits: 4 (1-6-0)
Course Description: Computer-aided processes for siting, organizing, and evaluating cultural activities within ecologically fragile, landscape-scale environments.
Prerequisite: LAND 361.
Registration Information: Must register for lecture and laboratory.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: Yes.

LAND 365 Landscape Contract Drawing and Specifications Credits: 3 (2-2-0)
Course Description: Construction details, design development, and construction documentation emphasizing implementation of design projects.
Prerequisite: LAND 363.
Registration Information: Must register for lecture and laboratory.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

LAND 366 Landscape Design Expression Credits: 4 (0-8-0)
Course Description: Idea, values, and process landscape form applied to interactions of natural, cultural systems at the site and community scale; design competitions.
Prerequisite: LAND 365.
Registration Information: Credit not allowed for both LAND 366 and LAND 376.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.
LAND 368  Landscape Irrigation and Water Conservation  Credits: 3 (2-2-0)
Also Offered As: HORT 368.
Course Description: Practical approaches and methods of irrigation, water conservation, and water management in the designed landscape.
Prerequisite: LAND 110 or HORT 100.
Registration Information: Credit not allowed for both LAND 368 and HORT 367 or HORT 368. Must register for lecture and laboratory.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

LAND 376  Landscape Design and Visualization  Credits: 4 (0-8-0)
Course Description: Precedents, ideas, values and processes of landscape form applied to landscape systems at the site and community scale; design competitions.
Prerequisite: LAND 362.
Registration Information: Credit not allowed for both LAND 376 and LAND 366. Required field trips.
Term Offered: Summer.
Grade Mode: Traditional.
Special Course Fee: Yes.

LAND 384  Supervised College Teaching  Credits: Var[1-5] (0-0-0)
Course Description: None.
Prerequisite: None.
Registration Information: A maximum of 10 combined credits for all 384 and 484 courses are counted towards graduation requirements.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

LAND 392  Seminar-Designed Landscapes-Theory and Criticism  Credits: 2 (0-0-2)
Course Description: Readings, discussions, and writing in landscape architectural design theory; critical analysis of the designed and constructed landscape.
Prerequisite: LAND 365.
Term Offered: Fall.
Grade Mode: Instructor Option.
Special Course Fee: No.

LAND 444  Ecology of Landscapes  Credits: 3 (3-0-0)
Course Description: Theories, methods, and practices for interpreting, describing, and representing natural and human modified landscapes.
Prerequisite: LAND 220 or LIFE 220 or LIFE 320.
Registration Information: Required field trips.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

LAND 446  Urban Design  Credits: 4 (0-8-0)
Course Description: Designing the urban landscape, including precedent exploration about overall image, materials, and structure of the city and its components.
Prerequisite: LAND 366.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: Yes.

LAND 447  Comprehensive Landscape Design  Credits: 4 (0-8-0)
Course Description: Terminal studio; research, analysis, and synthesis for comprehensive project identified by student and approved in advance by faculty committee.
Prerequisite: LAND 446.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

LAND 449  Professional Practice  Credit: 1 (0-0-0)
Course Description: Theory and skills of landscape architectural professional practice including functional, human, business, legal, and political aspects.
Prerequisite: LAND 447, may be taken concurrently.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

LAND 454  Landscape Field Studies  Credits: 5 (1-6-1)
Course Description: Field observation of spatial and temporal landscape patterns resulting from natural and cultural processes and interactions.
Prerequisite: LAND 366.
Term Offered: Summer.
Grade Mode: Traditional.
Special Course Fee: Yes.

LAND 455  Travel Abroad-European Landscape Architecture  Credits: 5 (1-6-1)
Course Description: Exploration of major theoretical platforms in design through drawing, photographing, and measuring landscape architecture precedents in Europe.
Prerequisite: LAND 362.
Term Offered: Summer.
Grade Mode: Traditional.
Special Course Fee: No.

LAND 495A  Independent Study: Design Projects  Credits: Var[1-4] (0-0-0)
Course Description: None.
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

LAND 495B  Independent Study: Field Service  Credits: Var[1-4] (0-0-0)
Course Description: None.
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

LAND 496  Group Study  Credits: Var[1-8] (0-0-0)
Course Description: None.
Prerequisite: None.
Registration Information: Maximum of 8 credits allowed in course.
Terms Offered: Fall, Spring, Summer.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.
LAND 510 Virtual Design Methods Credits: 3 (2-2-0)
Course Description: Exploration and application of advanced computing technology and methods for analyzing and organizing natural and cultural landscapes.
Prerequisite: None.
Registration Information: Must register for lecture and laboratory.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

LAND 520 Geographic Information Systems Credits: 3 (1-4-0)
Course Description: Theories and applications of geographic information systems in spatial analysis and land planning.
Prerequisite: LAND 241.
Registration Information: Must register for lecture and laboratory.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

LAND 560 Structure of Landscape Patterns Credits: 3 (2-2-0)
Course Description: Mechanisms and concepts in landscape structure for planning, design, and environmental management.
Prerequisite: LIFE 320.
Registration Information: Must register for lecture and laboratory.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

LAND 695A Landscape Architectural Independent Study: Design Projects Credits: Var[1-4] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Graduate standing.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

LAND 695B Landscape Architectural Independent Study: Field Service Credits: Var[1-4] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Graduate standing.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

LAND 698 Research Credits: Var[1-5] (0-0-0)
Course Description: Guided research experience in landscape architecture.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Graduate standing.
Terms Offered: Fall, Spring, Summer.
Grade Mode: S/U Sat/Unsat Only.
Special Course Fee: No.

Major in Environmental Horticulture

Environmental horticulturists provide solutions necessary to achieve aesthetically pleasing, functional, and environmentally sound outdoor spaces. They also design and manage private and public landscapes, such as golf courses, botanical gardens, and parks. In addition, they may develop the entrepreneurial skills necessary to successfully operate a nursery, garden center, tree care, landscape design, and build or landscape management firm. Four concentrations are offered in the Environmental Horticulture major—Landscape Design and Contracting, Nursery and Landscape Management, and Turf Management.

Learning Outcomes
Successful students will demonstrate:

- Management and leadership skills necessary for a successful career in the green industry
- Technical competencies in their understanding of growth and development of horticultural plants and landscapes, including development as influenced by manipulation of horticulture technologies, such as fertility and water management, and integrated pest management for all aspects of landscape horticulture
- Skills to assess site issues, provide creative environmentally sound solutions and manage designed, and built landscapes
- Analytical and problem solving skills that allow identification of problems related to the management or production of horticultural crops and landscapes, as well as strategies to solve them

Potential Occupations
Graduates of the Environmental Horticulture major will find career opportunities in a multitude of fields in the green industry. Emerging demand for environmental solutions and green technologies will position our students for careers in a wide variety of areas including: landscape design and construction, sports turf management, retail and wholesale nursery and garden center management; golf course superintendence, arborists, plant propagation, landscape project management, landscape management, landscape estimating, green industry account management, irrigation design and water resource management, arboriculture, botanic gardens or arboreta, or landscape business management and entrepreneurship.

Concentrations
- Landscape Business Concentration
- Landscape Design and Contracting Concentration
- Nursery and Landscape Management Concentration
- Turf Management Concentration

Major in Environmental Horticulture, Landscape Business Concentration

No new students are being accepted to this concentration.

Requirements
Effective Fall 2013

Program Total Credits: 120

---

### Major in Environmental Horticulture, Landscape Design and Contracting Concentration

The Landscape Design and Contracting concentration prepares students for careers in the design-build profession for residential, commercial, and public properties. Landscape designers and contractors create, build, and manage landscape projects and work in close collaboration with other design and contracting professionals. Students will develop skills to provide environmental solutions, creating projects that minimize the impact on the environment.

They also acquire skills to manage multifaceted projects of all scales, including site design, estimating of job and labor costs, construction methods and techniques, plant selection and care, as well as business management skills. Experiential learning opportunities lead to projects allowing our
students to work with clients and realize built works prior to graduating. Additionally, students are required to complete an internship, furthering their learning opportunities. This concentration is fully accredited by the National Association of Landscape Professionals (NALP).

Major in Environmental Horticulture, Nursery and Landscape Management Concentration

Nursery and Landscape Management provides extensive training in landscape plant culture and use; and also develops skills needed to start and manage a nursery, garden center, arboriculture, or landscape management firm. Nursery specialists produce trees, shrubs, groundcovers, and herbaceous perennials for the landscape industry. Graduates become nursery and landscape managers who oversee and manage general landscape operations; choose the type and quantity of horticultural plants to be grown; select and purchase seed, fertilizers, and pest control chemicals; hire employees, direct and coordinate work activities; manage record-keeping, and implement marketing plans. Supporting courses are taught in plant and soil science, pest management, business management, horticulture and plant materials. An internship is required to ensure graduates have practical experience.

Major in Environmental Horticulture, Turf Management Concentration

The Turf Management concentration trains students for management opportunities ranging from sod production to the establishment and maintenance of private and public grounds. Turfgrass managers are supervisors for golf courses, ski resorts, sports fields, and parks departments. Turfgrass professionals manage and train personnel, draw up work contracts, and allocate labor and financial resources efficiently. Graduates develop expertise in production and maintenance of ornamental and functional turfgrass areas with supplemental courses in nursery and landscape management, plant and soil science, business management, and irrigation design. An internship is required to ensure graduates have practical experience, furthering their learning opportunities.

The benchmark courses for the 8th semester are the remaining courses in the entire program of study.

Total Credits: 16

Program Total Credits: 120

**Major in Horticulture**

Horticulture is the application of scientific principles in the growing, marketing, processing, and utilizing of fruits, vegetables, flower and foliage plants, trees, shrubs, and turf grasses. The major requires a strong grounding in botany, chemistry, and horticulture. There are five concentrations in the Horticulture major: Floriculture, Horticultural Business Management, Horticultural Food Crops, Horticultural Science, and Horticultural Therapy.

**Learning Outcomes**

Successful students will demonstrate:

- Technical competence that includes understanding plant growth and development as influenced by the manipulations of horticulture technologies such as greenhouse management, fertility management, integrated pest management, etc.
- Management and leadership skills that will allow them to become an entry-level supervisor in a specific business or research program.
- Problem solving skills such as identifying the significance of a problem, researching realistic solutions using current literature, and organizing the materials to develop appropriate recommendations and actions.

**Potential Occupations**

Horticulture is both a production and service industry. Well-educated horticulturists have the best opportunity for obtaining positions and moving up in the industry. The industry will be looking for professionals who can manage greenhouses, nurseries, and floral outlets, buy and sell supplies, plant material, and equipment, or edit journals and newsletters. Meeting the nutritional needs of the world population is an important challenge. Researchers are needed to develop improved fruit and vegetable varieties. Other professionals are needed to improve production and transportation methods and to develop and market better fertilizers. Within this field, students can exercise their talents and interests in computers, construction, engineering, chemistry, physics, social services, or business management. Participation in internships and cooperative education opportunities is highly recommended to enhance practical training and development. Graduates who go on for advanced studies can attain more responsible positions with the possibility of rising to top professional levels.

Some examples include: biotechnologist, extension specialist, floriculturist, fruit and vegetable grower, grape producer, greenhouse supplies/seed and plant material sales representative, greenhouse production manager, horticultural therapist, interior plant maintenance technician, marketing representative, plant breeder, produce buyer.

**Concentrations and Options**

- Floriculture Concentration
- Horticultural Business Management Concentration
- Horticultural Food Crops Concentration
  - Production Option
  - Seed Science Option
- Horticultural Science Concentration
- Horticultural Therapy Concentration

**Major in Horticulture, Floriculture Concentration**

Floriculture emphasizes greenhouse-grown flower crops. Students study propagation, production, utilization, and improvement of plants, and are prepared to grow quality greenhouse products. Courses include the production, use, and marketing of cut flowers, bedding, and potted plants, which give this concentration its focus. Students are also required to take a practicum and an internship in their junior and/or senior years. A number of opportunities exist in floriculture-related professions including greenhouse production, all phases of retail and wholesale floral business, greenhouse supply sales, greenhouse construction and computerized environmental control, plant breeding and plant research.

**Program Total Credits**: 120
Major in Horticulture, Horticultural Business Management Concentration

Horticultural Business Management provides the broadest horticultural background available. The curriculum consists of a core of business, computer, and economics courses. In Horticulture, students choose a special emphasis, or take an array of courses that may lead to greater job opportunities. Graduates have the knowledge to manage a horticulture business or work in market-associated positions. Opportunities exist in the sale of facilities, plant material, equipment, and supplies involved in all aspects of horticulture, or as buyers of horticulture products in the U.S. or in international markets. With careful selection of business courses, Horticulture graduates can complete a minor in Business Administration with one additional course.

- MKT 305: Fundamentals of Marketing  
- Select one course from the following:  
  - AREC 408: Agricultural Finance  
  - FIN 305: Fundamentals of Finance  
  - BSPM 3XX or 4XX  
  - HORT 3XX or 4XX  
- Total Credits: 15

**Senior**

**Semester 7**
- HORT 310: Greenhouse Management  
- Arts and Humanities  
- Diversity and Global Awareness  
- Agricultural Economics, Business or Economics Upper-Division  
- HORT 3XX or 4XX  
- Total Credits: 16

**Semester 8**
- HORT 454: Horticulture Crop Production and Management  
- HORT 476: Environmental Plant Stress Physiology  
- HORT 3XX or 4XX  
- Arts and Humanities  
- Historical Perspectives  
- Elective  
- The benchmark courses for the 8th semester are the remaining courses in the entire program of study.  
- Total Credits: 16

Program Total Credits: 120
## Major in Horticulture, Horticultural Food Crops Concentration

The Horticultural Food Crops concentration focuses on systems related to production of fruits and vegetables. Specific courses include fruit and vegetable production, irrigation practices, soil fertility, propagation, breeding, and related plant pest management courses. Students must choose either the Production or Seed Science option. Those interested in organic food crop production can major in Horticulture in the Horticultural Food Crops concentration and pursue the Organic Agriculture Interdisciplinary Minor. A number of opportunities exist in horticultural food crops-related professions including greenhouse production, all phases of the retail and wholesale business, greenhouse supply sales, greenhouse construction, seed production and sales, plant breeding and plant research.

### Options

- **Production Option**
- **Seed Science Option**

## Major in Horticulture, Horticultural Food Crops Concentration, Production Option

### Requirements

**Effective Fall 2019**

Total Credits: 6-7
**Major in Horticulture, Horticultural Science Concentration**

Horticultural Science graduates conduct research to discover new information about plant growth, development, and environmental response. This research can lead to new plant varieties and production methods. The curriculum consists of a solid foundation in the basic natural sciences as well as in agricultural sciences and prepares students for technical and scientific careers in laboratory, greenhouse, or field research. Exceptional students participate in individual research projects coordinated by professors. Graduates in this area often continue their education.

**Requirements**

**Effective Fall 2019**

¹ The equivalent to MATH 117 and MATH 118, if needed, may be taken using elective credits.
Students must select at least 12 credits of upper division (300- to 400-level) horticulture elective and/or free elective courses to bring the program total of upper division credits to a minimum of 42. Select enough elective credits to bring the program total to 120 credits.

The benchmark courses for the 8th semester are the remaining courses in the entire program of study.

Total Credits  15

Major in Horticulture, Horticultural Therapy Concentration

The Horticultural Therapy concentration combines horticulture courses with the study of therapy/human sciences, leading to careers in health care and human services. Horticultural Therapy students gain the skills necessary to establish, manage, and work in a range of program types such as mental health, vocational, correctional, rehabilitative, wellness, educational, community-based and long term care.

**Major in Landscape Architecture**

Studying Landscape Architecture at CSU is an adventure. Taking part in a challenging course of study, students prepare themselves for careers in a field whose enormous potential has only begun to be recognized.

Landscape Architecture students study design as accomplished landscape architects see it: shaping spaces as well as planning and preserving them.
Landscape architects lead the stewardship, planning, and design of built and natural environments. Throughout the program, emphasis is on the relationship between design, nature, and society: the impact of environments on the individual as well as the impact of users on the environment. Registration laws for landscape architects in 49 states encourage graduation from programs such as that offered at CSU, which is accredited by the Landscape Architecture Accreditation Board of the American Society of Landscape Architects.

Landscape architects must analyze the natural elements of a site including the climate, soil, slope of the land, drainage, sunlight, and vegetation. Computer-aided design (CAD) has become an essential tool for landscape architects. Landscape architects often work with building architects, surveyors, engineers, and urban planners and collaborate with environmental scientists, foresters, and other professionals to find the best way to conserve or restore natural resources. Knowledge of appropriate local, state, or federal regulations such as those protecting wetlands or historic resources is essential.

Nature, culture, form, and space are the classic elements of landscape architecture with which students work in a series of design studies and related courses. Coursework focuses on a variety of landscape projects that grow more complex as the curriculum proceeds. The courses include subjects such as site design, landscape design and construction, surveying, landscape ecology, and urban and regional planning. Other courses specific to the major are history of the designed landscape, plant and soil science, geology, and professional practice. Students are also encouraged to take advantage of summer travel courses available to study highly-valued ecological/cultural sites in Colorado and designed landscapes in Europe.

CSU offers the only nationally accredited undergraduate professional landscape architecture program in Colorado, via the Landscape Architectural Accreditation Board (http://www.asla.org/accreditationlaab.aspx) (LAAB).

Learning Outcomes
Successful students will demonstrate:

- Basic problem solving skills and knowledge for comprehensive landscape design that include the following characteristics:
  - Research of natural systems, cultural systems, users, and precedents
  - Analysis of related site systems and users
  - Synthesis, the articulation of formal responses to research and analysis findings

- Technical competency in basic landscape architectural methods and communication, including organization of writing, project development, representation, and documentation
- Fundamental knowledge and skills appropriate to public and private entry-level landscape architecture including:
  - Application of digital media
  - Technology applications for analysis and design
  - Landscape design
  - Representation for analysis and design

Potential Occupations
Many types of organizations and individuals hire landscape architects – from real estate development firms starting new projects, municipalities constructing airports or parks, to home owners desiring garden designs. Many landscape architects are employed by government agencies doing site design for buildings, parks, and other public assets. Others are involved in park and recreation planning in national parks and forests, and restoration of environmentally damaged landscapes. Starting in 1998, average salaries for landscape architects exceeded average salaries of architects. Anticipated growth in construction is expected to increase demand for landscape architectural services over the long run. Participation in internships and cooperative education opportunities is highly recommended to enhance practical training and development. Graduates who go on for advanced studies can attain more responsible positions with the possibility of rising to top professional levels.

Some examples include: design consultant, private practice business, construction supervisor, land or environmental planner, urban designer, historic preservationist, golf course architect, resort planner.

---

**Minor in Environmental Horticulture**

A minor in Environmental Horticulture will serve to broaden the academic background of students seeking employment in interdisciplinary job markets associated with plant sciences or the art and science of environmental horticulture. A minor will allow students a maximum breadth and depth in the field while utilizing a limited number of requirements.

**Requirements**

**Effective Spring 2017**

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

Graduate

Graduate Programs in Soil and Crop Sciences

Programs in crop science, soil science, or plant genetics lead to Master of Science and Doctor of Philosophy degrees. Students interested in graduate work should refer to the Graduate and Professional Bulletin and the Department of Soil and Crop Sciences. (http://soilcrop.agsci.colostate.edu/)

Master's Programs

Master of Science in Soil and Crop Sciences, Plan A*
Master of Science in Soil and Crop Sciences, Plan B*

Ph.D.

Ph.D. in Soil and Crop Sciences*

* Please see department for program of study.

Courses

Soil and Crop Sciences (SOCR)

SOCR 100 General Crops Credits: 4 (3-2-0)
Course Description: Production and adaptation of cultivated crops; principles affecting growth, development, management, and utilization.
Prerequisite: None.
Registration Information: Must register for lecture and laboratory.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

SOCR 171 Environmental Issues in Agriculture (GT-SS3) Credits: 3 (2-0-1)
Also Offered As: HORT 171.
Course Description: Historical development of agriculture; environmental consequences of modern food production and other cultural approaches to agriculture.
Prerequisite: None.
Registration Information: Must register for lecture and recitation. Credit not allowed for both SOCR 171 and HORT 171.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.
Additional Information: Diversity & Global Awareness 3E, Human Behavior, Culture, or Social Frameworks (GT-SS3).

SOCR 192 Water in the West Credits: 3 (0-0-3)
Course Description: History and current status of water resources management and policy in the western United States.
Prerequisite: None.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

SOCR 200 Seed Anatomy and Identification Credit: 1 (0-2-0)
Course Description: Principles of seed anatomy including reproduction, identification, and seed characteristics of plant families.
Prerequisite: None.
Registration Information: Sections may be offered: Online.
Term Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

SOCR 240 Introductory Soil Science Credits: 4 (3-2-0)
Course Description: Formation, properties, and management of soils emphasizing soil conditions that affect plant growth.
Prerequisite: CHEM 107 or CHEM 111.
Registration Information: Must register for lecture and laboratory. Sections may be offered: Online.
Term Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

SOCR 300 Seed Purity Analysis Credits: 2 (0-4-0)
Course Description: Fundamentals for determining physical purity of a seed lot using established rules and procedures.
Prerequisite: None.
Registration Information: Written consent of instructor. Sections may be offered: Online.
Term Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

SOCR 301 Seed Germination and Viability Credits: 2 (0-4-0)
Course Description: Seed viability tests including standard germination and tetrazolium, seed viability, dormancy, parameters of viability and evaluation.
Prerequisite: None.
Registration Information: Written consent of instructor. Sections may be offered: Online.
Term Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.
SOCR 310 Agronomic Plant and Seed Identification  Credits: 2 (0-4-0)
Course Description: Evaluate characteristics needed to identify agronomic plant and seed species.
Prerequisite: BZ 104 or BZ 110 or BZ 120 or HORT 100 or LIFE 102 or SOCR 100.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

SOCR 311 Seed Quality--Seed Production and Genetics  Credit: 1 (1-0-0)
Course Description: Importance of seed production and genetics to seed quality. The value of seed quality to field crop production.
Prerequisite: None.
Registration Information: Offered as an online course only. Credit not allowed for both SOCR 311 and SOCR 380A2.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

SOCR 320 Forage and Pasture Management  Credits: 3 (3-0-0)
Course Description: Fundamentals of establishment, management, and utilization of cultivated forages including hay, silage, and pasture production.
Prerequisite: None.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: Yes.

SOCR 322 Principles of Microclimatology  Credits: 3 (3-0-0)
Course Description: Principles of microclimatology including energy balance concepts for soil and vegetation surfaces, and their application.
Prerequisite: PH 100 to 499 - at least 3 credits.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

SOCR 330 Principles of Genetics  Credits: 3 (3-0-0)
Course Description: Transmission, population, and molecular genetics; practical applications.
Prerequisite: BZ 110 or BZ 120 or LIFE 102.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

SOCR 331 Genetics Laboratory  Credit: 1 (0-3-0)
Course Description: Experimental techniques in transmission and molecular genetics.
Prerequisite: SOCR 330, may be taken concurrently.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

SOCR 341 Microbiology for Sustainable Agriculture  Credit: 1 (1-0-0)
Course Description: Functional roles and management of soil organisms in organic agriculture, emphasis on ecological interactions with plants and plant pathogens.
Prerequisite: SOCR 240.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.

SOCR 343 Composting Principles and Practices  Credit: 1 (1-0-0)
Course Description: Fundamentals of compost production, use, and regulation.
Prerequisite: SOCR 240 and SOCR 350.
Term Offered: Fall (odd years).
Grade Mode: Traditional.
Special Course Fee: Yes.

SOCR 344 Crop Development Techniques  Credits: 2 (2-0-0)
Course Description: Conventional and transgenic approaches to crop variety development.
Prerequisite: BZ 120 or LIFE 102 or LIFE 103.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.

SOCR 345 Diagnosis and Treatment in Organic Fields  Credits: 2 (0-4-0)
Also Offered As: HORT 345.
Course Description: Field experience in diagnosis of pest and nutrient problems on organic farms and development of treatment recommendations.
Prerequisite: (BSPM 302 or BSPM 308 or BSPM 361) and (HORT 100 or SOCR 100) and (HORT 100 or SOCR 240).
Registration Information: Credit not allowed for both SOCR 345 and HORT 345. Required field trips.
Term Offered: Summer (even years).
Grade Mode: Traditional.
Special Course Fee: Yes.

SOCR 350 Soil Fertility Management  Credits: 3 (3-0-0)
Course Description: Managing soil fertility and fertilizers to meet plant nutrient requirements in an environmentally sound manner with emphasis on nutrient cycling.
Prerequisite: (CHEM 107 and CHEM 108 or CHEM 111 and CHEM 112) and (SOCR 240).
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

SOCR 351 Soil Fertility Laboratory  Credit: 1 (0-2-0)
Course Description: Soil chemical analyses and development of fertilizer recommendations for crops.
Prerequisite: SOCR 350, may be taken concurrently.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: Yes.

SOCR 370 Irrigation Principles  Credits: 2 (2-0-0)
Course Description: Determination of irrigation water requirements based on the estimation of storage and movement of water in the soil-plant-atmospheric system.
Prerequisite: (HORT 100 or SOCR 100 or BZ 120) and (SOCR 240).
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

SOCR 371 Irrigation of Field Crops  Credit: 1 (1-0-0)
Course Description: Management of irrigation systems for field crops with emphasis on irrigation methods, irrigation scheduling and strategies for water conservation.
Prerequisite: SOCR 370.
Registration Information: Required field trips.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.
SOCR 377  Geographic Information Systems in Agriculture Credits: 3 (2-2-0)
Course Description: Introduction to geographic information systems and global positioning systems with applications to agriculture.
Prerequisite: SOCR 100 to 499 - at least 3 credits or CS 100 to 499 - at least 3 credits.
Registration Information: Credit not allowed for both SOCR 377 and SOCR 577. Required field trips.
Term Offered: Fall.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: Yes.

SOCR 384  Supervised College Teaching Credits: Var[1-5] (0-0-0)
Course Description: Prerequisite: None.
Registration Information: A maximum of 10 combined credits for all 384 and 484 courses are counted towards graduation requirements.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

SOCR 400  Soils and Global Change: Science and Impacts Credits: 3 (2-2-0)
Course Description: Foundations on the science of global change and its impact on soil processes and biota.
Prerequisite: (SOCR 240) and (LIFE 220 or LIFE 320).
Registration Information: Required field trips. Sections may be offered: Online.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

SOCR 401  Greenhouse Gas Mitigation, Land Use, and Mgmt Credits: 3 (2-2-0)
Course Description: Introduction to greenhouse gas estimation methods and mitigation project development in the land use sector.
Prerequisite: SOCR 240.
Registration Information: Required field trips.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

SOCR 410  Seed Processes: Storage and Deterioration Credit: 1 (0-0-1)
Course Description: Environmental conditions and management factors influencing storage and deterioration of seeds, including physiological and biochemical changes.
Prerequisite: BZ 104 or BZ 105 or BZ 120.
Registration Information: Offered as an online course only.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

SOCR 412  Seed Processes: Separation and Conditioning Credit: 1 (1-0-0)
Course Description: Understanding the physical process required to separate pure seed from contaminants and maintain viability.
Prerequisite: BZ 104 or BZ 105 or BZ 120.
Registration Information: Offered as an online course only.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

SOCR 413  Seed Vigor Concepts and Testing Credits: 2 (2-0-0)
Course Description: Provide a basic understanding of the concept of seed vigor, methods for seed vigor testing, and the relationship of crop performance.
Prerequisite: SOCR 200 or SOCR 201.
Registration Information: Offered as an online course only. Credit not allowed for both SOCR 413 and SOCR 481A1.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

SOCR 415  Pollinator Management in Agroecosystems Credits: 2 (2-0-0)
Also Offered As: BSPM 415.
Course Description: Fundamental concepts of pollinator biology and management, sustainable crop-pollinator interactions, regional and global issues on pollinator management and conservation, best management practices for commercially managed pollinators.
Prerequisite: HORT 100 or SOCR 100.
Registration Information: Credit not allowed for both SOCR 415 and BSPM 415. Required field trips.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

SOCR 416  Pollination Biology and Management Credits: 3 (3-0-0)
Also Offered As: BZ 416.
Course Description: Basic pollination processes and pollination ecology, its relation to fruit formation, crop production and yield. Learn about pollination biology of cultivated crops and plants in natural areas. The knowledge gained is critical in formulating practices for understanding plant-pollinator mutualism and coevolution, pollination management, restoring habitats and for pollinator conservation.
Prerequisite: BZ 120 or HORT 100 or LIFE 103 or SOCR 100.
Registration Information: Required field trips. Credit allowed for only one of the following: BSPM 415, BZ 416, SOCR 415, or SOCR 416.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

SOCR 420  Crop and Soil Management Systems I Credits: 3 (3-0-0)
Course Description: Principles of crop, soil management emphasizing environmental factors influencing crop growth and development, interactions with soil organic matter.
Prerequisite: (HORT 100 or SOCR 100) and (SOCR 240).
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

SOCR 421  Crop and Soil Management Systems II Credits: 4 (3-2-0)
Course Description: Principles of crop and soil management with emphasis on soil erosion control, water conservation, and plant-water relationships.
Prerequisite: (HORT 100 or SOCR 100) and (SOCR 240).
Registration Information: Must register for lecture and laboratory.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: Yes.
SOCR 424  Topics in Organic Agriculture  Credits: 3 (3-0-0)
Also Offered As: HORT 424.
Course Description: Examination of issues specific to organic food
production systems and marketing.
Prerequisite: (AREC 202 or ECON 202) and (AREC 328 and SOCR 240) and
(HORT 100 or SOCR 100) and (SOCR 171 or HORT 171).
Registration Information: Credit not allowed for both SOCR 424 and
HORT 424.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.

SOCR 430  Applications of Plant Biotechnology  Credits: 3 (3-0-0)
Course Description: Current and potential applications of DNA-based
biotechnology in crop agriculture and other plant disciplines.
Prerequisite: SOCR 330.
Term Offered: Fall (even years).
Grade Mode: Traditional.
Special Course Fee: No.

SOCR 440  Pedology  Credits: 4 (2-3-1)
Course Description: Process of soil formation, characterization,
classification of soils; soil survey methods.
Prerequisite: None.
Registration Information: Must register for lecture, laboratory and
recitation.
Term Offered: Fall.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: Yes.

SOCR 441  Soil Ecology  Credits: 3 (2-3-0)
Course Description: An integrative, hands-on experience in the theory and
application of ecology principles to the soil environment.
Prerequisite: SOCR 240.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

SOCR 442  Forest and Range Soils  Credits: 3 (3-0-0)
Course Description: Soil and water relationships in forest and rangeland
ecosystems; significant properties in their management.
Prerequisite: None.
Term Offered: Spring.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

SOCR 443  Soil Survey Field Practicum  Credit: 1 (0-0-2)
Course Description: Designed to offer the opportunity to conduct soil
survey field work with professional soil scientists in pristine natural
areas across the state of Colorado. Experience place-based learning, and
training to take a project from its initial stages of planning to completion;
this includes site determination, data collection, and post-field lab and
data analysis. Deliverables include a) soil properties database and b)
presentation summarizing finding.
Prerequisite: SOCR 440, may be taken concurrently.
Registration Information: This is a partial semester course. Required field
trips. Credit not allowed for both SOCR 443 and SOCR 481A4.
Term Offered: Fall.
Grade Mode: S/U Sat/Unsat Only.
Special Course Fee: No.

SOCR 455  Soil Microbiology  Credits: 3 (3-0-0)
Course Description: Microbial activities in agricultural, forest, and
grassland soils; in soil-plant relationships; and in maintenance of
environmental quality.
Prerequisite: MIP 300 or SOCR 240.
Term Offered: Fall.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

SOCR 456  Soil Microbiology Laboratory  Credit: 1 (0-3-0)
Course Description: Techniques used in study of ecology and activities of
soil microorganisms.
Prerequisite: SOCR 455, may be taken concurrently.
Term Offered: Fall.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

SOCR 460  Plant Breeding  Credits: 3 (2-0-1)
Also Offered As: HORT 460.
Course Description: Theory and practice of plant breeding using
principles of genetics and related sciences.
Prerequisite: BZ 350, may be taken concurrently or LIFE 201A, may be
taken concurrently or SOCR 330, may be taken concurrently.
Registration Information: Must register for lecture and recitation. Credit
not allowed for both SOCR 460 and HORT 460.
Term Offered: Fall (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

SOCR 461  Plant Breeding Laboratory  Credit: 1 (0-2-0)
Also Offered As: HORT 461.
Course Description: Techniques and procedures used in public and
commercial plant breeding programs.
Prerequisite: SOCR 460, may be taken concurrently or HORT 460, may be
taken concurrently.
Registration Information: Credit not allowed for both SOCR 461 and
HORT 461.
Term Offered: Fall (odd years).
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

SOCR 467  Soil and Environmental Chemistry  Credits: 3 (3-0-0)
Course Description: Fundamental principles of soil chemistry with
respect to environmental reactions between soils and other natural
materials and priority pollutants.
Prerequisite: CHEM 335.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

SOCR 470  Soil Physics  Credits: 3 (3-0-0)
Course Description: Physical properties of soils emphasizing mechanical
composition, moisture, aeration, temperature, and structure related to
management, plant growth.
Prerequisite: SOCR 240 or GEOL 232.
Term Offered: Fall.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.
SOCR 471  Soil Physics Laboratory  Credit: 1 (0-3-0)
Course Description: Familiarization of techniques and equipment used in evaluation of soil physical properties.
Prerequisite: SOCR 470, may be taken concurrently.
Term Offered: Fall.
Grade Mode: S/U Sat/Unsat Only.
Special Course Fee: No.

SOCR 475  Global Challenges in Plant and Soil Science  Credits: 3 (3-0-0)
Course Description: Evaluation of case studies to define problems and develop solutions to address global challenges in plant and soil science.
Prerequisite: (SOCR 240 or GEOL 122) and (LIFE 102 or BZ 120).
Term Offered: Spring (even years).
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

SOCR 486  Practicum  Credits: Var[1-4] (0-0-0)
Course Description: Directed experiences in the application of soil and crop science principles.
Prerequisite: None.
Registration Information: Written consent of instructor.
Term Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

SOCR 487  Internship  Credits: Var[1-12] (0-0-0)
Course Description: Directed experiences in the application of soil and crop science principles.
Prerequisite: None.
Term Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

SOCR 490  Hydrus-1D Workshop  Credit: 1 (0-0-1)
Course Description: Using Hydrus-1D software for flow and transport of water, heat, and chemicals in soil.
Prerequisite: SOCR 470.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

SOCR 492  Seminar  Credit: 1 (0-0-1)
Course Description: None.
Term Offered: Fall.
Grade Mode: Instructor Option.
Special Course Fee: No.

SOCR 495  Independent Study  Credits: Var[1-18] (0-0-0)
Course Description: None.
Term Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

SOCR 496  Group Study  Credits: Var[1-18] (0-0-0)
Course Description: None.
Term Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

SOCR 498  Undergraduate Research  Credits: Var[1-6] (0-0-0)
Course Description: Research in soil and crop sciences.
Prerequisite: None.
Registration Information: Written consent of instructor.
Term Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

SOCR 500  Environmental Measurement Laboratory  Credit: 1 (0-2-0)
Course Description: A hands-on instrumentation lab for making environmental, weather, and soil measurements using low-cost microcontroller boards and sensors.
Prerequisite: PH 110.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

SOCR 522  Micrometeorology  Credits: 3 (3-0-0)
Course Description: Microenvironments; physics of environmental variables; plant canopy microclimate; evapotranspiration; surface-atmosphere exchange; instrumentation.
Prerequisite: PH 100 to 499 - at least 3 credits.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

SOCR 530  Scientific Writing  Credit: 1 (1-0-0)
Also Offered As: BSPM 530.
Course Description: Skills necessary to prepare complete scientific journal articles including writing, editing, and literature searching and assessment.
Prerequisite: None.
Registration Information: Credit not allowed for both SOCR 530 and BSPM 530.
Term Offered: Spring.
Grade Mode: Instructor Option.
Special Course Fee: No.

SOCR 535  Origin and Evolution of Cultivated Plants  Credits: 3 (3-0-0)
Course Description: Origin of crops from viewpoints of archaeology, history, botany, and taxonomy, and continued evolution of plants under cultivation.
Prerequisite: SOCR 330.
Term Offered: Fall (even years).
Grade Mode: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

SOCR 540  Soil-Plant-Nutrient Relationships  Credits: 3 (3-0-0)
Course Description: Soil and plant factors affecting nutrient uptake, mechanistic models of uptake, availability and functions of essential elements, diagnostic techniques.
Prerequisite: SOCR 350.
Term Offered: Spring (even years).
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

SOCR 550  Advanced Soil Genesis  Credits: 3 (3-0-0)
Course Description: Modern concepts of specific mechanisms involved in formation of genetic soil groups and their relationship to environmental factors.
Prerequisite: SOCR 440.
Term Offered: Spring (even years).
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.
SOCR 567 Environmental Soil Chemistry  Credits: 4 (3-0-1)
Course Description: The chemistry of terrestrial environments and the interactions of soil constituents with bacteria, nutrients, and pollutants.
Prerequisite: CHEM 335.
Registration Information: Credit not allowed for SOCR 467 and SOCR 567.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

SOCR 570 Plant Breeding for Drought Tolerance  Credit: 1 (1-0-0)
Course Description: Principles and practices of evaluation, selection and cultivar development for crops in drought-stress environments with an emphasis on agronomic crops.
Prerequisite: SOCR 330 and SOCR 460.
Registration Information: Offered as an online course only.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

SOCR 571 Foundations of Soil Science  Credits: 2 (2-0-0)
Course Description: Importance of soils in ecology and earth system science with regard to the study and management of the soil resource.
Prerequisite: SOCR 240.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

SOCR 572 Internet-of-Things Environmental Sensors Lab  Credit: 1 (0-2-0)
Course Description: Hands on training with environmental sensors and electronics that have internet-of-things (IoT) connectivity.
Prerequisite: None.
Registration Information: Credit not allowed for both SOCR 572 and SOCR 581A3.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

SOCR 577 Principles/Components: Precision Agriculture  Credits: 3 (2-2-0)
Course Description: Principles and components of precision agriculture, including GPS, GIS, remote sensing, and their applications in soil and crop management.
Prerequisite: SOCR 100 to 499 - at least 3 credits or CS 100 to 499 - at least 3 credits.
Registration Information: Must register for lecture and laboratory. Credit not allowed for both SOCR 577 and SOCR 377. Required field trips.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: Yes.

SOCR 620 Modeling Ecosystem Biogeochemistry  Credits: 3 (2-3-0)
Course Description: Design and build biogeochemical process and ecosystem models with GUI-based software. Analyze and test models and interpret experimental data.
Prerequisite: (ECOL 505 or LAND 220 or LIFE 220 or SOCR 240) and (MATH 155 or MATH 160).
Restriction: Must be a: Graduate, Professional.
Term Offered: Fall (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

SOCR 640 Crop Physiology  Credit: 1 (1-0-0)
Course Description: Developmental, physiological, and biochemical determinants of crop yields as controlled by genetic and environmental effects.
Prerequisite: BZ 440.
Restriction: Must be a: Graduate, Professional.
Term Offered: Fall (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

SOCR 650 Research Proposal Development  Credit: 1 (1-0-0)
Course Description: Skills to develop and write an effective scientific research proposal.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Graduate standing.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

SOCR 670 Terrestrial Ecosystems Isotope Ecology  Credits: 3 (2-2-0)
Course Description: Isotope distribution in biogeochemical cycles, research topics in biosphere-atmosphere interactions; lab experience with isotope techniques.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Must register for lecture and laboratory. Required field trips.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.

SOCR 675 Presentations for Scientific Audiences  Credit: 1 (1-0-0)
Course Description: Organization and presentation of scientific information to audiences in oral and poster format.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

SOCR 699 Thesis  Credits: Var[1-18] (0-0-0)
Course Description: Developmental, physiological, and biochemical determinants of crop yields as controlled by genetic and environmental effects.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

SOCR 720 Advanced Plant Breeding  Credits: 4 (4-0-0)
Course Description: Systems of mating and selection in plants to maximize genetic gain. Evaluation of heterosis, germplasm diversity, strategies, and new technologies.
Prerequisite: (SOCR 460 or HORT 460) and (STAT 100 to 499 - at least 3 credits).
Restriction: Must be a: Graduate, Professional.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.
SOCR 720A  Advanced Plant Breeding: Methods  Credits: 2 (2-0-0)
Course Description: Historical perspectives in plant breeding, plant reproduction, genetic gain, breeding and selection systems in self- and cross-pollinated plants.
Prerequisite: (SOCR 460 or HORT 460) and (STAT 100 to 799 - at least 3 credits).
Restriction: Must be a: Graduate, Professional.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

SOCR 720B  Advanced Plant Breeding: Tools  Credits: 2 (2-0-0)
Course Description: Plant breeding strategies, genotype x environment interaction, field plot and genomic tools, breeding for pest resistance, stress tolerance, quality.
Prerequisite: (SOCR 460 or HORT 460) and (STAT 100 to 799 - at least 3 credits).
Restriction: Must not be a: Graduate, Professional.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.

SOCR 725  Quantitative Inheritance in Plant Breeding  Credits: 3 (2-2-0)
Course Description: Quantitative genetic structure of populations, recognition of genetic, environmental variance. Methods of dealing with quantitatively inherited traits.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Must register for lecture and laboratory.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.

SOCR 730  Topics in Plant Breeding and Genetics  Credit: 1 (1-0-0)
Course Description: Current literature regarding mechanisms used for plant improvement.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

SOCR 731  Plant Breeding Data Management  Credit: 1 (1-0-0)
Course Description: Principles and best practices for optimal data management for plant breeding and other data-intensive research programs.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Must have taken three credits in computer science.
Term Offered: Fall (even years).
Grade Mode: Traditional.
Special Course Fee: No.

SOCR 740  Plant Molecular Genetics  Credits: 3 (3-0-0)
Also Offered As: BSPM 740.
Course Description: Advances in study of organization and function of nuclear and organellar genomes, gene expression in higher plants, and plant-microbe interactions.
Prerequisite: BC 351 and SOCR 330.
Restriction: Must be a: Graduate, Professional.
Registration Information: Credit not allowed for both SOCR 740 and BSPM 740.
Term Offered: Fall (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

SOCR 755  Advanced Soil Microbiology  Credits: 3 (3-0-0)
Course Description: Ecology of soil microorganisms emphasizing population and activity relationships, nitrogen fixation, and microbe-pesticide interactions.
Prerequisite: MIP 624 or SOCR 455.
Restriction: Must be a: Graduate, Professional.
Term Offered: Spring (even years).
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

SOCR 760  Advanced Soil Chemistry  Credits: 3 (3-0-0)
Course Description: Surface chemistry of soils, electrical double layer models of surface charge and potential, colloid stability, computer modeling of adsorption.
Prerequisite: (CHEM 100 to 481 - at least 4 courses and CS 100 to 481 - at least 1 course) and (MATH 141 or MATH 155 or MATH 160).
Restriction: Must be a: Graduate, Professional.
Term Offered: Fall (odd years).
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

SOCR 770  Advanced Soil Physics  Credits: 4 (3-2-0)
Course Description: Description and analysis of principles of storage and movement of water, solutes, heat, and gases in soils.
Prerequisite: MATH 261 or SOCR 470.
Restriction: Must be a: Graduate, Professional.
Registration Information: Must register for lecture and laboratory.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.

SOCR 784  Supervised College Teaching  Credits: Var[1-18] (0-0-0)
Course Description: 
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

SOCR 792  Seminar  Credit: 1 (0-0-1)
Course Description: 
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring.
Grade Mode: Instructor Option.
Special Course Fee: No.
Major in Soil and Crop Sciences

Want to develop the science, practices, and technology of feeding the world while minimizing the environmental impact of agriculture? The Major in Soil and Crop Sciences provides hands-on training and expert instruction that will equip students to solve current global challenges in soil, plant, and environmental sciences.

The demand for students with a fundamental understanding of soil and crop sciences combined with technical and data skills has never been greater. Our graduates go on to exciting careers in industry, government, entrepreneurship, and academia, with 84% employed within 6 months of graduation.

We offer six concentrations that enable each student to align their coursework with their specific interests.

<table>
<thead>
<tr>
<th>Concentrations</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Agronomic Production Management Concentration</td>
<td></td>
</tr>
<tr>
<td>Applied Information Technology Concentration</td>
<td></td>
</tr>
<tr>
<td>International Soil and Crop Sciences Concentration</td>
<td></td>
</tr>
<tr>
<td>Plant Biotechnology, Genetics, and Breeding Concentration</td>
<td></td>
</tr>
<tr>
<td>Soil Ecology Concentration</td>
<td></td>
</tr>
<tr>
<td>Soil Restoration and Conservation Concentration</td>
<td></td>
</tr>
</tbody>
</table>

Students do not have to choose a concentration, but are given the flexibility to tailor the curriculum to their individual interests.

Minors

- Minor in Soil Resources and Conservation
- Minor in Soil Science
- Organic Agriculture Interdisciplinary Minor

Learning Outcomes

Successful students will achieve:

- Technical competencies, including knowledge and understanding of soil and crop science principles, the ability to apply these principles to specific issues, and the ability to synthesize information (both technical and non-technical) to meet identified needs.
- Problem solving skills, such as identifying a problem, collecting data, summarizing information, and drawing conclusions.
- Professional interpersonal and communication skills, such as presenting a topic with logical development, technical understanding, mechanical and technique correctness, and accurate documentation of sources.

Potential Occupations

The demand for students with training in soil and crop sciences has never been greater. The agricultural sector is undergoing rapid change as we enter the era of big data and embrace new technologies.

### Program Total Credits:

120

---

¹ Select a course in AUCC Category 3C with the AREC or ECON subject code.

² Select a course in AUCC Category 3A with the BZ subject code (or LIFE 102) after consultation with advisor. BZ 110, BZ 120, or LIFE 102 are strongly recommended to fulfill Biology Elective requirements.

³ Select from the Colleges of Agricultural Sciences, Business, Engineering, Natural Resources, Natural Sciences, and/or Veterinary Medicine and Biomedical Sciences in consultation with advisor.

⁴ Select course(s) with the SOCR subject code.

⁵ Select a course with the STAT subject code.
Select enough elective credits to bring the program total to a minimum of 120 credits, of which at least 42 must be upper-division (300- to 400-level).

---

**Major in Soil and Crop Sciences, Agronomic Production Management Concentration**

Prepare to launch a career in production agriculture or agribusiness by combining business and economics with technical soil and crop sciences. Students gain hands-on experience with cutting-edge tools such as precision agriculture and biotechnology. Graduates may go on to careers as agronomic business managers in seed, chemical, and fertilizer companies, agricultural cooperatives and agricultural consultant services.

**Requirements**

Select one course from the following:

- **BUS 300**: Business Writing and Communication (GT-CO3) (2)  
- **CO 300**: Writing Arguments (GT-CO3) (2)  
- **CO 301B**: Writing in the Disciplines: Sciences (GT-CO3) (2)  
- **JTC 300**: Professional and Technical Communication (GT-CO3) (2)  
- **SOCR 330**: Principles of Genetics (X) (3)  
- **SOCR 350**: Soil Fertility Management (3)  
- **SOCR 351**: Soil Fertility Laboratory (1)  

- **Agricultural and Resource Economics Elective (See List on Concentration Requirements Tab)** (3)  
- **Department Elective (See List on Concentration Requirements Tab)** (3)

#### Total Credits 16

#### Semester 6

Select one course from the following:

- **BZ 440**: Plant Physiology (3)  
- **BZ 441**: Plant Physiology Laboratory (2)  
- **SOCR 370**: Irrigation Principles (2)

- **STAT 201**: General Statistics (GT-MA1) (1B)  
- **STAT 301**: Introduction to Applied Statistical Methods  
- **STAT 307**: Introduction to Biostatistics  

- **Arts and Humanities**: (3B) (3)  
- **Department Elective (See List on Concentration Requirements Tab)** (3)

#### Total Credits 16

### Senior

#### Semester 7

Select one course from the following:

- **BSPM 302**: Applied and General Entomology (X) (2)  
- **BSPM 303C**: Entomology Laboratory: Agricultural (X) (1)  
- **BSPM 308**: Ecology and Management of Weeds (X) (3)  
- **SOCR 371**: Irrigation of Field Crops (X) (1)

#### Total Credits 16
Major in Soil and Crop Sciences, Applied Information Technology Concentration

Big data and precision tools are revolutionizing agriculture. Companies are eager for students that combine a strong background in soil and crop sciences with technical and professional skills. Students in this concentration utilize advanced information technology to drive decision-making in crop production, soil and environmental management, and in developing new technologies. Coursework in computer science, data analytics, and GIS/GPS prepares students for exciting and well-paid careers.

Total Credits: 26-34

Program Total Credits: 120-122

¹ Select enough elective credits to bring the program total to 120-122 credits, of which 42 must be upper division.

**Major Completion Map**

**Freshman**

**Semester 1**

Select one course from the following:

- AGRI 192 Orientation to Agricultural Systems
- AGRI 292 Transfer Seminar

BZ 120 Principles of Plant Biology (GT-SC1) X 3A 4
CO 150 College Composition (GT-CO2) 1A 3
MATH 117 College Algebra in Context I (GT-MA1) X 1B 1
MATH 118 College Algebra in Context II (GT-MA1) X 1B 1
MATH 124 Logarithmic and Exponential Functions (GT-MA1) X 1B 1
SOCR 100 General Crops 4

Total Credits: 15

**Semester 2**

Select one group from the following:

Group A:
- CHEM 107 Fundamentals of Chemistry (GT-SC2) X 3A
- CHEM 108 Fundamentals of Chemistry Laboratory (GT-SC1) 3A

Group B:
- CHEM 111 General Chemistry I (GT-SC2) X 3A
- CHEM 112 General Chemistry Lab I (GT-SC1) 3A
- CHEM 113 General Chemistry II
- CHEM 114 General Chemistry Lab II

Select one course from the following:

- FSHN 125 Food and Nutrition in Health
- FSHN 150 Survey of Human Nutrition
- PHIL 110 Logic and Critical Thinking (GT-AH3) 3B 3

CO 150 and AUCC 1B (Quantitative Reasoning) must be completed by the end of Semester 2.

Total Credits: 13

**Sophomore**

**Semester 3**

Select one course from the following:

- ANTH 100 Introductory Cultural Anthropology (GT-SS3) 3C
- SOC 100 General Sociology (GT-SS3) 3C
SOC 105 Social Problems (GT-SS3) 3C
ANEQ 101 Food Animal Science 4
LAND 220/ LIFE 220 Fundamentals of Ecology (GT-SC2) 3A 3
POLS 131 Current World Problems (GT-SS1) 3E 3
SPCM 200 Public Speaking 3

Total Credits 16

Semester 4

Critical Recommended AUCC Credits
AGRI 270/IE 270 World Interdependence-Population and Food (GT-SS3) 3E 3
PH 110 Physics of Everyday Phenomena (GT-SC2) 3A 3
POLS 232 International Relations (GT-SS1) 3E 3
SOCR 240 Introductory Soil Science X 4
Historical Perspectives 3D 3
BZ 120 must be completed by the end of Semester 4. X

Total Credits 16

Junior

Semester 5

Critical Recommended AUCC Credits
SOCR 330 Principles of Genetics 3
SOCR 350 Soil Fertility Management 3
SOCR 351 Soil Fertility Laboratory 1
Select one course from the following: 3
JTC 300 Professional and Technical Communication (GT-CO3) 2
CO 301B Writing in the Disciplines: Sciences (GT-CO3) 2
Arts and Humanities 3B 3
Elective 1-2
AREC 202 and POLS 232 must be completed by the end of Semester 5. X

Total Credits 14

Semester 6

Critical Recommended AUCC Credits
POLS 332/ECON 332 International Political Economy 3
Select two courses from the following: 6
ANTH 310 Peoples and Cultures of Africa
ANTH 312 Modern Indian Culture and Society
ANTH 314 Southeast Asian Cultures and Societies
ANTH 446 New Orleans and the Caribbean
SOC 320 Population-Natural Resources and Environment
SOC 341 Sociology of Rural Life
SOC 364 Food, Agriculture and Global Society
SOC 366
Select one course from the following: 3
STAT 201 General Statistics (GT-MA1) 1B
STAT 301 Introduction to Applied Statistical Methods
STAT 307 Introduction to Biostatistics
SOCR 370 Irrigation Principles 2

Total Credits 14

Senior

Semester 7

**Major in Soil and Crop Sciences, Plant Biotechnology, Genetics, and Breeding Concentration**

Crop improvement, whether through traditional breeding or genetic engineering, is one of the most important drivers of agricultural improvements. New technologies enable us to develop crop varieties that are more nutritious, resilient to climate change, and disease resistant. Career opportunities are available in both the public and private sectors, including basic research, plant breeding, product development, sales, and many other areas.

Soils are the most complex and diverse habitats for life on earth. Soil health is critical to human well-being. The Soil Ecology concentration emphasizes the interdisciplinary nature of soils through the study of soil organisms, their interactions with each other, and the soil's physical and chemical environment. These interactions affect the cycling of elements - including carbon and nitrogen, release (or consumption) of greenhouse gases, water quality, soil formation and structure, and plant productivity. Career opportunities exist in academia, state and federal health and environmental agencies, natural resource agencies (water and soil), state and national parks services, private industries, and in the rapidly growing environmental consulting profession.

**Requirements**

**Effective Fall 2018**

**Major in Soil and Crop Sciences, Soil Ecology Concentration**

The benchmark courses for the 8th semester are the remaining courses in the entire program of study.

Program Total Credits: 120

---

**Major in Soil and Crop Sciences, Soil Restoration and Conservation Concentration**

Globally, about half of our soils are degraded from erosion or pollution. Want to help restore our soils and prevent further degradation? This concentration focuses on the application of resource management techniques to basic soil and crop science principles. Exciting careers in industry, consulting, non-profit organizations, government, and research await.

Minor in Soil Resources and Conservation

Interested in conserving and restoring soil resources? The minor in Soil Resources and Conservation provides students the opportunity to complement their major by gaining the knowledge and tools to help conserve this most precious resource. Soil erosion and degradation are one of the most serious environmental challenges. At the same time, opportunities to reverse degradation and restore soils while sequestering carbon have never been greater.

Requirements

Effective Fall 2012

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

Program Total Credits: 32-33

Minor in Soil Science

Soils are the most amazing habitats for life on earth. In each handful of soil, there are thousands of different types of microbes and a whole soil food web. These organisms interact within the soil to decompose plant materials and cycle nutrients that are critical to life. Humans depend on soils for food production, clear water, and as the foundation for our living world. In recent years, new technologies have opened up this exciting frontier of science.

The purpose of the minor in Soil Science is to combine the fundamental sub-disciplines of soil science to provide non-majors the essential elements of soil science.
Requirements
Effective Fall 2014

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

Program Total Credits: 11

College of Business

Office in Rockwell Hall, North Lobby
(970) 491-6471
biz.colostate.edu (http://biz.colostate.edu)
Professor Beth Walker, Dean
Professor Ken Manning, Associate Dean
Professor Paul Mallette, Associate Dean
Professor Travis Maynard, Associate Dean

Undergraduate Programs

The College of Business is accredited by the AACSB, the Association to Advance Collegiate Schools of Business. The undergraduate programs of study provide functional business education in Accounting, Finance, Financial Planning, Information Systems, Marketing, Organization and Innovation Management, Human Resource Management, Supply Chain Management, and Real Estate. The skills acquired help prepare students for entry-level positions in a wide range of both private and public enterprises and provide a solid foundation for further academic study. The program follows a philosophy of linking theory with practical application.

Undergraduate Majors

Major in Business Administration

- Accounting Concentration
- Finance Concentration
- Financial Planning Concentration
- Human Resource Management Concentration
- Information Systems Concentration
- International Business Concentration (second concentration)
- Marketing Concentration
- Organization and Innovation Management Concentration
- Real Estate Concentration
- Supply Chain Management Concentration

Undergraduate Minors

- Business Administration
- Entrepreneurship and Innovation
- Real Estate

Undergraduate Certificates

- Applied Management Accounting for Decision Making
- Business Analytics
- Business App Development
- Business Cybersecurity
- Business-To-Business-Selling
• Customer Experience Management
• Entrepreneurship
• Financial Accounting and Reporting
• Information Technology for Business Professionals
• International Business
• Leadership in Organizations
• Managing Human Resources
• Market Research and Data Analytics
• Marketing Communication and Branding
• Operations, Logistics, and Supply Management
• Strategic Marketing

Education Abroad
Education abroad programs are available to students in the College of Business. Because the knowledge of other cultures is valuable in understanding our own, students are strongly encouraged to take a summer or semester to study, intern, or complete a service learning program outside the United States as part of their overall program at CSU. Students interested in education abroad should plan far in advance by discussing opportunities with their academic advisor and by visiting the Office of International Programs (http://international.colostate.edu) in Laurel Hall.

Graduate Programs
The College of Business is accredited by the AACSB, the Association to Advance Collegiate Schools of Business. Graduate Programs offer a Master of Business Administration degree and two MBA specializations: Impact and Marketing Data Analytics. Graduate Programs also offer a Master of Accountancy (M.Acc.) (http://catalog.colostate.edu/general-catalog/colleges/business/accounting/#graduatetext), Master of Computer Information Systems (M.C.I.S.), and a Master of Finance (MFIN). The college also offers three platforms (https://biz.colostate.edu/academics/graduate-programs/mba/mba-three-ways-to-learn/) for the M.B.A.: on-campus/evening M.B.A., online M.B.A., and real time/online Mosaic (https://biz.colostate.edu/academics/graduate-programs/mba/evening/mosaic/) MBA. In addition to the degree programs, several certificates are offered by Graduate Programs and allow students to delve deeper into specific content areas.

Certificates
• Graduate Certificate in Applied Finance
• Graduate Certificate in Business Analytics and Accounting Systems
• Graduate Certificate in Business Application Development
• Graduate Certificate in Business Information Systems
• Graduate Certificate in Business Intelligence
• Graduate Certificate in Business Management
• Graduate Certificate in Cybersecurity
• Graduate Certificate in IT Project Management
• Graduate Certificate in Marketing Management

College-Wide Master’s Programs
• Master of Business Administration
• Master of Business Administration, Global Social and Sustainable Enterprise Specialization (No new students are being accepted into this specialization.)
• Master of Business Administration, Impact Specialization, Plan C
• Master of Business Administration, Marketing Data Analytics Specialization

Department-Based Master’s Program
• Master of Accountancy, Plan C (M.Acc.)
• Master of Accountancy, Plan C, Data Analytics and Systems Specialization
• Master of Accountancy, Plan C, Financial Analysis, Auditing, and Reporting Specialization
• Master of Accountancy, Plan C, Taxation Specialization
• Master of Computer Information Systems (M.C.I.S)
• Master of Finance (M.Fin)

Students interested in business should refer to the College of Business (http://biz.colostate.edu).

For a complete list of departmental offerings (including certificates), see individual department catalog pages.

Courses
Accounting (ACT)
ACT 205 Fundamentals of Accounting Credits: 3 (3-0-0)
Course Description: Understanding of financial statements to support financial and managerial decision making.
Prerequisite: None.
Registration Information: For nonbusiness majors. Sections may be offered: Online.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.
ACT 210  Introduction to Financial Accounting  Credits: 3 (3-0-0)
Course Description: Use of accounting information by decision makers; development of the basic accounting model, and issues concerning income and cash flows.
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

ACT 211  Accounting Professional Skills  Credit: 1 (1-0-0)
Course Description: Survey of accounting profession career options, certifications, and professional skills.
Prerequisite: ACT 210.
Registration Information: Sections may be offered: Face-to-Face, Mixed Face-to-Face, or Online.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ACT 220  Introduction to Managerial Accounting  Credits: 3 (3-0-0)
Course Description: Use of accounting information in internal decision making.
Prerequisite: ACT 210.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ACT 310  Intermediate Accounting I  Credits: 4 (3-0-1)
Course Description: Preparation and analysis of financial statements under U.S. generally accepted accounting principles (GAAP); accounting for revenue and assets.
Prerequisite: ACT 210 with a minimum grade of B- and ACT 220 with a minimum grade of B-.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ACT 311  Intermediate Accounting II  Credits: 3 (3-0-0)
Course Description: Equity structure of corporations; analysis and interpretation of accounting data.
Prerequisite: ACT 310 with a minimum grade of C.
Registration Information: Sections may be offered: Face-to-Face, Mixed Face-to-Face, or Online.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ACT 312  Cost Management  Credits: 3 (3-0-0)
Course Description: Utilizing budgetary and cost accounting information for planning, controlling, and decision-making.
Prerequisite: ACT 220.
Registration Information: Sections may be offered: Face-to-Face, Mixed Face-to-Face, or Online.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ACT 320  Introduction to Taxation  Credits: 3 (3-0-0)
Course Description: Introduction to U.S. taxation, with emphasis on federal income tax; impact of taxation on business decisions.
Prerequisite: ACT 220.
Registration Information: Sections may be offered: Face-to-Face, Mixed Face-to-Face, or Online.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ACT 330  Accounting Information Systems  Credits: 3 (3-0-0)
Course Description: Design, administration and control of accounting information systems; use of accounting systems software.
Prerequisite: ACT 220 and ACT 321.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ACT 340  Advanced Accounting  Credits: 3 (3-0-0)
Course Description: Accounting for branches and subsidiaries, partnerships, and business combinations. Accounting for multi-national business transactions.
Prerequisite: ACT 312.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ACT 350  Auditing Practices  Credits: 3 (3-0-0)
Course Description: Environment, professional standards, and practices involved in auditing financial statements and performance of other assurance services.
Prerequisite: ACT 312 and ACT 350.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ACT 360  Internship  Credits: Var[1-6] (0-0-0)
Course Description: Supervised work experience in public, industry, not-for-profit, or governmental accounting.
Prerequisite: ACT 311 and ACT 321 or ACT 311 and ACT 321 or ACT 311 and ACT 300 or ACT 311 and ACT 350 or ACT 312 and ACT 321 or ACT 312 and ACT 330 or ACT 312 and ACT 350 or ACT 321 and ACT 330 or ACT 321 and ACT 350 or ACT 330 and ACT 350.
Terms Offered: Fall, Spring, Summer.
Grade Mode: S/U Sat/Unsat Only.
Special Course Fee: No.

ACT 485  Independent Study  Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.
ACT 496  Group Study  Credits: Var[1-18]  (0-0-0)
Course Description: 
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

ACT 498  Research  Credits: Var[1-3]  (0-0-0)
Course Description: 
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Special Course Fee: No.

ACT 540  Professional Ethics and Responsibilities  Credits: 3  (3-0-0)
Course Description: Ethical practice of professional accounting.
Prerequisite: ACT 311.
Registration Information: Sections may be offered: Online.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

ACT 541  Forensic Accounting and Fraud Auditing  Credits: 3  (3-0-0)
Course Description: Professional practices for addressing the related
areas of forensic accounting and fraud.
Prerequisite: ACT 441.
Restriction: Must be a: Graduate.
Registration Information: Graduate standing. Sections may be offered:
Online.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ACT 550  Accounting Information Technologies  Credits: 3  (3-0-0)
Course Description: Best practices for information technologies used in
accounting systems worldwide.
Prerequisite: ACT 350.
Registration Information:Sections may be offered: Online. Consent of
instructor can substitute for ACT 350 for a student with substantial and
relevant work experience.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ACT 561  Legal and Regulatory Issues in Accounting  Credits: 3  (3-0-0)
Course Description: Contracts, ownership, bankruptcy (debtor/creditor
relationship), formation of business entities, regulation of accounting
profession.
Prerequisite: BUS 205 or BUS 260.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ACT 570  Government and Nonprofit  Credits: 3  (3-0-0)
Course Description: Theory and practical application of accounting
principles and auditing standards to governmental entities and not-for-
profit organizations.
Prerequisite: ACT 441, may be taken concurrently.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ACT 575  Oil and Gas Accounting  Credits: 3  (3-0-0)
Course Description: Specialized financial accounting procedures related
to the oil and gas industry.
Prerequisite: ACT 311.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ACT 601A  Professional Practice: Taxation  Credits: 3  (3-0-0)
Course Description: Management of professional tax practice;
professional ethics and regulation; research techniques.
Prerequisite: ACT 330.
Restriction: Must be a: Graduate, Professional.
Registration Information: Sections may be offered: Online, and in 8 week
format.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ACT 601B  Professional Practice: Accounting  Credits: 3  (3-0-0)
Course Description: Management of professional accounting practice;
professional ethics and regulation; and research techniques.
Prerequisite: ACT 441.
Restriction: Must be a: Graduate, Professional.
Registration Information: Sections may be offered: Online, in 8 week
format.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ACT 605  Accounting for Sustainable Enterprises  Credits: 3  (3-0-0)
Course Description: A survey of financial, managerial, and sustainability
accounting systems and reports.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Not available to Master of Accountancy
students.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ACT 612  Issues in Financial Reporting and Auditing  Credits: 3  (3-0-0)
Course Description: Contemporary and emerging issues at the
intersection of financial reporting and auditing.
Prerequisite: ACT 312.
Restriction: Must be a: Graduate, Professional.
Registration Information: Sections may be offered: Online.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ACT 614  Financial Statement Analysis and Valuation  Credits: 3  (3-0-0)
Course Description: Tools and techniques of financial statement analysis
and application to equity valuation.
Prerequisite: ACT 312.
Restriction: Must be a: Graduate, Professional.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.
ACT 631 Corporate Taxation Credits: 3 (3-0-0)
Course Description: Federal income tax principles pertaining to formation and operation of corporate entities.
Prerequisite: ACT 330.
Restriction: Must be a: Graduate, Professional.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ACT 633 Flow-Through Entities Credits: 3 (3-0-0)
Course Description: Federal income tax principles and problems pertaining to flow-through entities.
Prerequisite: ACT 330.
Restriction: Must be a: Graduate, Professional.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ACT 635 State and Local Taxation Credits: 3 (3-0-0)
Course Description: Tax planning and compliance issues for entities doing business in multi-jurisdictional locales.
Prerequisite: ACT 330.
Restriction: Must be a: Graduate, Professional.
Registration Information: Sections may be offered: Online.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ACT 636 Taxation of Corporations and Shareholders Credits: 3 (3-0-0)
Course Description: Federal income tax principles and problems relating to reorganization, consolidation, and termination of corporations.
Prerequisite: ACT 330.
Restriction: Must be a: Graduate, Professional.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ACT 639 Special Topics in Taxation Credits: 3 (3-0-0)
Course Description: Taxation of not-for-profit entities; international tax issues; other contemporary topics.
Prerequisite: ACT 330.
Restriction: Must be a: Graduate, Professional.
Registration Information: Sections may be offered: Online.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ACT 641 Information Systems Audit and Control Credits: 3 (3-0-0)
Course Description: Exploration of organizations’ information systems, and the considerations involved in controlling and auditing these systems. Topics range from the general, such as organizational governance, to the very technical, for example, data encryption. Addresses material found on the CPA exam and the Certified Information Systems Auditor (CISA) exam.
Prerequisite: ACT 350 and ACT 441.
Restriction: Must be a: Graduate, Professional.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ACT 695 Independent Study Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: S/U Sat/Unsat Only.
Special Course Fee: No.

ACT 696 Group Study Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

**Major in Business Administration, Accounting Concentration**

This program is designed to give students an understanding of the theory and practice of the major fields of accounting: financial accounting and reporting, managerial accounting, taxation, accounting information systems, and auditing. Accounting is an ever-evolving field with growing importance in most businesses and not-for-profit organizations. Today’s accountants are important members of their organizations, using their business expertise, communication, interpersonal skills, and accounting knowledge to improve organizational decision making. Accountants play a key role in the continued growth of a prosperous society.

Accountants must be able to explain and analyze business data, excel in communications, teamwork, leadership, and possess technical and computer-based skills. The accountant in an increasingly global society is rapidly becoming both an information specialist as well as a business advisor. Accountants also act as the moral and ethical compass for business practices.

The undergraduate accounting curriculum at CSU satisfies current educational requirements to sit for the Certified Public Accountant (CPA) exam in the state of Colorado. Additional coursework is required to become a Certified Public Accountant (CPA) in the state of Colorado. (Requirements to become a CPA are unique to each state and students should be aware of requirements of the state in which they intend to practice.)

The accounting curriculum is designed to meet the needs of those who seek professional education and training to practice as public, private, not-for-profit and governmental accountants, or those who expect to work in business managerial positions requiring an understanding of fundamental accounting concepts and principles. The curriculum offers considerable flexibility in designing a program of study that will meet a variety of career interests. In addition to the All-University Core
Major in Business Administration, Accounting Concentration

Curriculum and the College of Business Core Curriculum, students are particularly encouraged to take additional course work in both finance and computer information systems.

Learning Outcomes

Students will demonstrate:

- Knowledge of the fundamental concepts of financial accounting and reporting
- Knowledge of the fundamental concepts of managerial accounting and decision making
- Knowledge of taxation (federal, state) and its application to business decisions
- Knowledge of business organization, processes, and understanding of accounting-based systems integration issues
- Knowledge of the principles of auditing and attestation
- Knowledge of business ethics and principles of social responsibility

Potential Occupations

Some examples include, but are not limited to: accountant or auditor of publicly or privately held companies, government agencies, or not-for-profit organizations; consultant in firms providing professional advisory services; public, private, or personal tax specialist; financial analyst; forensics accountant; internal auditor; information technology auditor.

Requirements

The College of Business requires a minimum grade point average of 2.000 in business and economics courses as a graduation requirement.

Major Completion Map

Distinctive Requirements for Degree Program:

To Declare this Major: Direct entry as a new freshman or transfer to the College of Business is highly selective and only those students meeting academic requirements will be accepted. For details contact the Office of Admissions.

CSU and the College of Business use holistic review when determining eligibility for admission to the College of Business as a new freshman. An example of a strong candidate for admission to the College of Business is one who is actively involved in their high school and community, has at least a 3.200 GPA with a 1200 or higher on the SAT or a 27 or higher on the ACT. For current admission criteria, contact the CSU Office of Admissions. New freshmen admitted to CSU but not directly to the College of Business will be admitted as “Undeclared Business Interest” and must meet the requirements below. To be eligible for admission to the College, CSU students (including Undeclared Business Interest) must have a 3.000 cumulative GPA on a minimum of 15 graded credits at Colorado State and a grade of B- or higher in ECON 202 and a grade of C- or higher in MATH 141.

External transfer students who have completed a minimum of 15 graded credits with a 3.000 cumulative GPA and a grade of B- or higher in ECON 202 and a grade of C- or higher in MATH 141. External transfer students who do not meet the above criteria will be admitted to Undeclared and must complete the requirements stated above.

To Prepare for First Semester: The Curriculum for the Business Administration-Accounting Concentration assumes students will be able to successfully complete calculus within the first year.

Second Concentration with International Business

A second concentration in International Business may be taken in conjunction with the Accounting concentration. Upon graduation, both concentrations will be noted on a student’s official transcript.

Effective Fall 2020

The College of Business requires a minimum grade point average of 2.000 in business and economics courses as a graduation requirement.

Students are not to utilize the satisfactory/unsatisfactory (S/U) grading option for any Business concentration course or any Business core course (Business and non-Business subject codes) except when a course only allows S/U grading.

### Second Concentration Major Completion Map

#### Distinctive Requirements for Degree Program:

**To Declare this Major:** Direct entry as a new freshman or transfer to the College of Business is highly selective and only those students meeting academic requirements will be accepted. For details contact the Office of Admissions.

CSU and the College of Business use holistic review when determining eligibility for admission to the College of Business as a new freshman. An example of a strong candidate for admission to the College of Business is one who is actively involved in their high school and community, has at least a 3.200 GPA with a 1200 or higher on the SAT or a 27 or higher on the ACT. For current admission criteria, contact the CSU Office of Admissions. New freshmen admitted to CSU but not directly to the College of Business will be admitted as "Undeclared Business Interest" and must meet the requirements below. To be eligible for admission to the College, CSU students (including Undeclared Business Interest) must have a 3.000 cumulative GPA on a minimum of 15 graded credits at
Colorado State and a grade of B- or higher in ECON 202 and a grade of C- or higher in MATH 141. External transfer students who have completed a minimum of 15 graded credits with a 3.000 cumulative GPA and a grade of B- or higher in ECON 202 and a grade of C- or higher in MATH 141. External transfer students who do not meet the above criteria will be admitted to Undeclared and must complete the requirements stated above.

**To Prepare for First Semester:** The Curriculum for the Business Administration-Accounting Concentration assumes students will be able to successfully complete calculus within the first year.

Certificate in Applied Management Accounting for Decision Making

The Certificate in Applied Management Accounting for Decision Making will provide students with accounting tools to make managerial decisions in a business setting. This certificate recognizes that such decisions require knowledge of budgetary and cost accounting information and accounting information systems, as well as discipline-specific knowledge.

Effective Fall 2018

Additional coursework may be required due to prerequisites.

Program Total Credits: 10

Master of Accountancy, Plan C (M.Acc.)

CSU's Master of Accountancy is a 30-credit program offered on campus that provides a wealth of practical, job-related knowledge and the in-depth topical coverage you need to successfully sit for the national Uniform CPA Examination.

Our curriculum reflects the breadth of services performed by CPAs. You will learn the skills you need to land accounting and management positions in a wide range of business services, including public accounting, auditing, financial and tax planning, and consulting on information systems.

Students will demonstrate the ability to:

1. Develop the necessary research skills to investigate complex accounting issues.
2. Apply analytical and conceptual problem-solving skills to the field of corporate taxation.
3. Describe the role of information systems and technology in accounting.
4. Communicate complex accounting issues orally and in writing.
5. Recognize ethical and legal issues in a variety of accounting situations.

**Program Total Credits:** 30

A minimum of 30 credits are required to complete this program.

## Business Administration

**Undergraduate Major**

- Major in Business Administration
Minor

• Minor in Business Administration

Graduate

Master’s Programs

• Master of Business Administration
• Master of Business Administration, Global Social and Sustainable Enterprise Specialization (No new students are being admitted to this specialization.)
• Master of Business Administration, Impact Specialization, Plan C
• Master of Business Administration, Marketing Data Analytics Specialization

Major in Business Administration

The College of Business prepares students with the knowledge and skills needed to become effective leaders and decision makers in today’s dynamic business environment.

The four-year curriculum leads to a Bachelor of Science degree with a major in Business Administration. The program focuses on global orientation, technology, ethics, business processes, sustainability, and corporate social responsibility.

Lower-division work provides a cultural and analytical foundation. Upper-division work provides specialized work in business disciplines to prepare students to enter their chosen fields in the business world. At the same time, the program develops the attitudes and analytical abilities required for future professional advancement.

The College of Business has a strong reputation among regional, national, and international employers. As a whole, graduates from the College of Business are well-prepared to enter challenging positions. The program centers on an approach which emphasizes: knowledge of concepts, processes, and institutions; understanding of the financial, economic, legal, ethical, social, and organizational influences; information systems; and interpersonal communications. The senior capstone course offers an opportunity for students to apply these skills in an active and engaging learning environment.

All undergraduate business majors must complete the All-University Core Curriculum (AUCC) as part of their graduation requirement. Coordinated with this general education, all business students take business core subjects plus a concentration with its specified course sequence. Fifty percent of the total credits required for the business core and concentration must be completed at CSU.

Each student selects one of the following concentrations: Accounting, Finance, Financial Planning, Human Resource Management, Information Systems, Marketing, Organization and Innovation Management, Real Estate, or Supply Chain Management.

Students have the opportunity to select a second Business Administration concentration in International Business to be taken in conjunction with their first concentration.

Admission

Direct entry as a new freshman or transfer to the College of Business is highly selective and only those students meeting academic requirements will be accepted. For details contact the Office of Admissions (http://admissions.colostate.edu/).

CSU and the College of Business use holistic review when determining eligibility for admission to the College of Business as a new freshman. An example of a strong candidate for admission to the College of Business is one who is actively involved in their high school and community, has at least a 3.200 GPA with a 1200 or higher on the SAT or a 27 or higher on the ACT. For current admission criteria, contact the CSU Office of Admissions. New freshmen admitted to CSU but not directly to the College of Business will be admitted as “Undeclared Business Interest.” To be eligible for admission to the College, CSU students (including Undeclared Business Interest) must have a 3.000 cumulative GPA on a minimum of 15 graded credits at CSU, a grade of B- or higher in ECON 202, and a grade of C- or higher in MATH 141.

External transfer students who have completed a minimum of 15 graded credits with MATH 141 with a grade of C- or higher, ECON 202 with a grade of B- or higher, and a 3.000 cumulative GPA will be admitted directly to the College. External transfer students who do not meet the above criteria will be admitted as Undeclared, and must complete the requirements stated above.

The College of Business participates in a statewide transfer articulation agreement for the bachelor’s degree in Business Administration. That agreement is available online (http://registrar.colostate.edu/classroomscheduling/csu-specific-statewide-agreements/) with the Registrar’s Office.

Learning Outcomes

Students will demonstrate:

• The ability to speak the language of business by constructing and analyzing financial and operating reports and using this information to make various business and capital allocation decisions
• An appreciation of the impact of the marketing environment on developing and sustaining a coherent marketing strategy that addresses the needs and wants of a selected target market
• An understanding of leadership principles, effective communication, and ways to collaborate within and across organizations
• An understanding of risk and the time value of money, how to use and value different types of securities, and how to make sound financial management decisions
• An understanding of the all-encompassing role information technology plays in all aspects of a business and the ability to collect, store, analyze, and professionally disseminate data using business technology tools to solve problems and make decisions
• The ability to identify and analyze various ethical dilemmas that occur in organizations, apply sound moral reasoning to address these situations, and defend recommended courses of action
• An understanding of the dynamics of the global business environment and, when appropriate, the application of elements of a global perspective in making business decisions
• An understanding of the environmental, social, and economic dimensions of sustainability and how to measure, report, and manage sustainability in organizations

Course Requirements
The first two years of study include completion of the All-University Core Curriculum (AUCC) and the lower-division business core courses. Some lower-division specialized course work is required in the Information Systems concentration. Students must have junior or senior status and be admitted into the College of Business in order to take specialized course work in the business concentrations.

Concentrations
• Accounting
• Finance
• Financial Planning
• Human Resource Management
• Information Systems
• International Business (second concentration)
• Marketing
• Organization and Innovation Management
• Real Estate
• Supply Chain Management

Requirements
Concentrations
• Accounting
• Finance

Core Curriculum
The following core curriculum sets the minimum course requirements for all business majors. With recommendations of the student’s advisor, supplementary courses are selected to meet the total minimum of 120 credits required for the Bachelor of Science degree.

All freshman and sophomore required courses must be completed prior to or concurrent with first enrollment in required junior and senior courses. By the beginning of the junior year, students must select one of the above concentrations approved for the major in Business Administration.

Additional requirements which all business majors must complete are:
1. one of the approved concentrations;
2. All-University Core Curriculum (AUCC) requirements;
3. Business majors must not utilize the satisfactory/unsatisfactory (S/U) grading option in any Business concentration course or Business core course (BUS and non-BUS subject codes) except when a course allows S/U grading.

Effective Fall 2020
The College of Business requires a minimum grade point average of 2.000 in business and economics courses as a graduation requirement.

2 Students who have taken FIN 305 and/or MKT 305 prior to admission to the College of Business may substitute those courses to satisfy the category 4A and 4B requirements. All other students are required to take FIN 300 and MKT 300 to satisfy categories 4A and 4B.

Major in Business Administration, International Business Concentration

International Business Concentration (second concentration)

Business is increasingly global in nature and the number of firms with international dimensions in their business models continues to grow. The International Business (IB) concentration is designed to provide students with both the skills and perspectives to add value to firms whose activities, in full or in part, are international in nature. The International Business concentration is only offered as a second Business concentration. Students pursuing IB must also complete one of our disciplinary concentrations.

Coursework will allow students to explore business activities that occur between people and organizations around the world. A significant component of the program is the link between multiple world cultures and the business practices that have developed both within and around them. As a second concentration, students will gain functional expertise in a traditional Business discipline with their first concentration and then develop skill sets that will help them to apply this expertise in an international context. The combination of both a disciplinary and international skill set helps ensure that students have the functional depth, as well as global mindset, for meaningful careers with firms whose activities extend beyond national borders. A unique dimension of the IB concentration is the inclusion of a 6-credit experiential learning component that can be satisfied through an education abroad experience (study abroad, international service learning, semester-at-sea), an international internship, a domestic internship with a global focus, or coursework in a foreign language.

Students will demonstrate:
1. Knowledge of business activities that occur between people and organizations around the world
2. Knowledge of leadership principles and ethical decision making skills in a global context
3. A global mindset and the skills necessary for leadership positions in companies with global dimensions in their business models
4. Knowledge of global competitive dynamics and how they influence industries and firms around the world
5. The ability to diagnose global situations that are characterized by complexity and uncertainty while being bounded by legal, ethical, and cultural norms

Minor in Business Administration

businessminors@business.colostate.edu

Everyone needs a little business in their back pocket. The College of Business offers an innovative minor in Business Administration to students from other colleges. The minor in Business Administration gives students an understanding of the functional areas of business, including marketing, management, accounting, and finance. The minor curriculum is designed so students can strategically choose courses that will combine well with knowledge in a student’s primary major, thus providing a solid foundation for career success in a variety of industries. Students can expect to develop competencies to understand the language and key concepts of business, and apply them in a wide variety of careers. In addition to earning the minor, given the diversity of course options, students could also earn a certificate in Business-to-Business Selling or Entrepreneurship while completing the 21-credit minor requirements.

Requirements

Effective Fall 2020

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

Students must achieve a minimum GPA of 2.000 in courses used to satisfy the minor.

1 Completing this Group may satisfy a certificate – contact a Business advisor.

Certificate in International Business

The College of Business offers the Certificate in International Business to students majoring in Business Administration. This certificate will give students majoring in Business Administration an integrated understanding of the principles and practices of international business. This knowledge will help them enhance their careers in the global economy by gaining a deeper understanding of international financing, cross-cultural negotiation, international management strategies/practices, and global marketing practices.

Effective Spring 2015

Additional coursework may be required due to prerequisites.

Graduate Certificate in Business Management

The Graduate Certificate in Business Management provides students from any educational background a solid grounding in core business concepts that cut across multiple disciplines. The certificate will help students acquire and apply skill sets which can be used to help transition into a new career, start or improve a business, or pursue graduate education. This program is compatible with our MBA degree requirements, enabling certificate recipients to easily transition into the MBA program.

Effective Fall 2019

Additional coursework may be required due to prerequisites.

Program Total Credits: 12

*This certificate may have courses in common with other graduate certificates. A student may earn more than one certificate, but a given course may be counted only in one certificate.

Master of Business Administration

The Master of Business Administration prepares students for careers in a dynamic and rapidly changing world. Coursework, comprised of 36 core credits and 6 elective credits, has been developed to put an emphasis on the practical application of both foundational and advanced concepts in finance, accounting, management, marketing, and professional enrichment. The curriculum covers the central tenets, processes, and practices of statistics, human resources, accounting, supply chain management, marketing, and finance, with hands-on application of course concepts. Students may also choose to pursue graduate transcripted certificates in a variety of focused content areas.

MBA Programs and Specializations:

The College currently offers the following MBA programs and formats:

- **Master of Business Administration**
  - Evening MBA/Online MBA-Mosaic (Evening MBA courses are offered on-campus, and Online MBA-Mosaic students participate in the Evening MBA courses, via teleconferencing technology in real-time, from any location)
  - Online MBA (Offering format is via streamed digital media and has the same curriculum as the Evening MBA/Online MBA-Mosaic)
  - Master of Business Administration, Marketing Data Analytics Specialization (Offering format is via streamed digital media)
  - Master of Business Administration, Global Social and Sustainable Enterprise Specialization (No new students are being accepted into this specialization. Students should refer to the Master of Business Administration, Impact Specialization.)
  - Master of Business Administration, Impact Specialization (Offering format is on-campus)

Although the programs differ from each other in terms of target market dimensions and value proposition, students across all MBA programs are expected to graduate with a common set of core competencies.

Core Competencies:

- **Business Acumen and Integration Skills** - Graduates will demonstrate competency across business functions and integrate them into strategic decisions.
- **Practical Leadership and Management Skills** - Graduates will demonstrate individual, interpersonal, and organizational leadership skills necessary for professional development and organizational effectiveness.
- **Critical and Analytical Thinking** - Graduates will be able to apply critical thinking and analytical skills for management decision-making.
- **External Environment Considerations: Ethical, Legal, and Regulatory Framework** - Graduates will consider ethical, legal, and regulatory implications inherent in business situations and apply that knowledge to make responsible decisions.
- **Global Perspective** - Graduates will acquire a global and cross-cultural perspective in formulating decisions and implementing organizational strategy.

Master of Business Administration, Global Social and Sustainable Enterprise Specialization

After Fall 2019, students will no longer be admitted to this program. The Global Social and Sustainable Enterprise specialization will be replaced by our new Master of Business Administration, Impact Specialization, which will debut with its first class in Fall 2020.

Master of Business Administration, Impact Specialization

Sustainability underlies many of the complex global challenges we face today, carrying profound implications for business practices, economic development, and environmental stewardship. Businesses increasingly recognize the need to incorporate environmental risks and social objectives into their core strategy and operational decisions. The commitment to sustainable practices can take many forms, such as developing social enterprises, creating and distributing fair-trade products, reducing carbon footprints, ensuring a sustainable value chain, guiding social impact investments, and making frugal use of natural resources. Sustainability initiatives are motivated by a desire to manage risk, drive growth, improve returns on capital, and create value.

The Master of Business Administration, Impact Specialization, is a 44-credit, 3 semester, full-time Resident Instruction program. The program aims to provide business solutions that achieve positive economic, environmental, and social impact. The program educates and prepares future business leaders to take effective roles in organizations that integrate economic, social, and environmental sustainability into core strategy and operations. There are elective options to enable students to pursue either a venture-creation process or take up to 15 credits outside the College of Business in areas such as environmental sustainability, social impact, water resources, life cycle assessment, ethics and sustainability, and climate change.

Program Learning Goals are:

**Business Acumen and Integration Skills:** Graduates will demonstrate competency across business functions and integrate them into strategic decisions.

**Practical Leadership and Management Skills:** Graduates will demonstrate individual, interpersonal, and organizational leadership skills necessary for professional development and organizational effectiveness.

**Critical and Analytical Thinking:** Graduates will be able to apply critical thinking and analytical skills for management decision-making.

**External Environment – Ethical, Legal and Regulatory Framework:** Graduates will consider ethical, legal, and regulatory implications inherent in business situations and apply that knowledge to make responsible decisions.

**Program Total Credits:** 44

A minimum of 44 credits are required to complete this program.

¹ Students will need to obtain a prerequisite override from the department to enroll in this course.

### Master of Business Administration, Marketing Data Analytics Specialization

This program provides students with comprehensive knowledge of marketing data analytics as a specialization in the MBA program. Data analytics is a rapidly growing field, part of which has occurred in the domain of marketing and marketing research. Data analytics involves defining problems surrounding marketing questions, such as customer relationship management, consumer behavior, customer service, pricing, sales force management, advertising, business-to-business and channels relationships. Once problems are defined, data analysts are responsible for gathering the right information (the data) to solve the problem and applying sophisticated data analytics tools to provide empirical answers. An important part of the process is to present and explain the data findings to a marketing audience. Marketing action is generally taken based on data definition, gathering, manipulation, and analysis.

**Program Learning Goals:**

Students will demonstrate the ability to:

- Obtain, combine, clean, transform, validate, and analyze large and small datasets from multiple sources.
- Design and implement databases and other data collection systems.
- Apply marketing research methodologies and systems, such as segmentation modeling, targeting, CRM, and ROI projections and evaluation.
- Perform statistical analysis and interpretation of data in order to uncover actionable intelligence and trends that provide value to marketing and business.
- Present and interpret data in a meaningful way to internal and external stakeholders.
- Develop high quality reports, dashboards, and visualizations with marketing data.
- Add to the ability of marketing managers to make optimal decisions on important marketing variables such as marketing segmentation, market positioning, new product design, pricing strategies, advertising choice, and others.

Program Total Credits: 44
BUS 620  Leadership and Teams  2
BUS 626  Managing Human Capital  2
BUS 630  Information Management  2
BUS 640  Financial Principles and Practice  2
BUS 655  Marketing Management  2
BUS 656  Marketing Strategy and Planning  2
Select two courses from the following:  4
BUS 615  Managerial Accounting
BUS 616  Financial Reporting and Analysis
BUS 635  Business Economics for the World Market
BUS 641  Financial Markets and Investments

Required Specialization Courses:
CIS 505  Database Concepts  1
CIS 570  Business Intelligence  3
CIS 575  Applied Data Mining and Analytics in Business  3
CIS 601/MGT 601  Enterprise Computing and Systems Integration  3
MKT 610  Qualitative Marketing Research Methods  1
MKT 621  Search Engine Marketing and Optimization  1
MKT 650  Data Analytics  2
MKT 651  Applied Data Analytics  2
MKT 670  Digital Marketing  1
MKT 686  Marketing Practicum  2
Select 1 credit elective with approval of graduate advisor.  1

Program Total Credits:  42

A minimum of 42 credits are required to complete this program.

Department of Computer Information Systems

Office in Rockwell Hall, Room 150

Professor Leo R. Vijayasarathy, Chair

Undergraduate
Major in Business Administration
  • Information Systems Concentration

Certificates
  • Business Analytics
  • Business App Development

• Business Cybersecurity
• Information Technology for Business Professionals

Graduate
Certificates
  • Business Analytics and Accounting Systems
  • Business Application Development
  • Business Information Systems
  • Business Intelligence
  • Cybersecurity
  • Information Technology Project Management

Master's Programs
  • Master of Computer Information Systems, Plan C (M.C.I.S.)

Courses

Computer Information Systems (CIS)
CIS 120  Business Programming Fundamentals  Credits: 3 (3-0-0)
Course Description: File and operating systems for business application development. Business program development using a high-level programming language.
Prerequisite: None.
Registration Information: Credit not allowed for both CIS 120 and CIS 210.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

CIS 200  Business Information Systems  Credits: 3 (3-0-0)
Course Description: Use of information technology (IT) to enable knowledge workers, support business processes, and grow the business.
Prerequisite: None.
Registration Information: Passing score on Excel competency exam. Sections may be offered: Face-to-Face, Mixed Face-to-Face, or Online.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

CIS 210  Information Technology in Business  Credits: 3 (3-0-0)
Course Description: Introduction to information systems: the IS profession; hardware, software, and programming; web and database applications; data analysis tools.
Prerequisite: CIS 200, may be taken concurrently.
Registration Information: Credit not allowed for both CIS 210 and CIS 120.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

CIS 240  Application Design and Development  Credits: 3 (3-0-0)
Course Description: Software engineering methods including design, implementation, and testing using structured and event-driven techniques, logic, and data structures.
Prerequisite: CIS 200.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.
CIS 301  End User Computing  Credits: 3 (3-0-0)
Course Description: End user applications in a Graphical User Interface environment including spreadsheet, word processing, and presentation graphics; Internet concepts.
Prerequisite: None.
Registration Information: Sections may be offered: Online.
Terms Offered: Fall, Spring, Summer.
Grade Mode: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

CIS 310  Data Preparation for Business Analytics  Credits: 3 (3-0-0)
Course Description: Focus on the knowledge and skills used for identifying, collecting, transforming, refining, integrating, and structuring data for performing analytics.
Prerequisite: CIS 200.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

CIS 320  Project Management for Information Systems  Credits: 3 (3-0-0)
Course Description: Project management concepts including work breakdown structure, estimating, scheduling, tools, and reports.
Prerequisite: CIS 200.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

CIS 330  Advanced Application Design and Development  Credits: 3 (3-0-0)
Course Description: Design and construction of business applications using object-orientation and advanced data structures.
Prerequisite: CIS 240.
Registration Information: Credit not allowed for both CIS 340 and CIS 220.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

CIS 340  Operating Systems and Networks  Credits: 3 (3-0-0)
Course Description: Multiuser and network operating systems; basic networking concepts including security, transmission, performance, and topologies.
Prerequisite: CIS 240.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

CIS 350  Business Database Systems  Credits: 3 (3-0-0)
Course Description: Physical and logical design, implementation, and administration of databases.
Prerequisite: CIS 200.
Registration Information: Sections may be offered: Online.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

CIS 360  Systems Analysis and Design  Credits: 3 (3-0-0)
Course Description: Traditional and cutting-edge systems analysis and design techniques, with emphasis on object-oriented approaches.
Prerequisite: CIS 240.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

CIS 370  Business Analytics  Credits: 3 (3-0-0)
Course Description: Concepts, processes, techniques, and tools to extract, cleanse, organize, transform, store, analyze, and visualize data to support business decision making.
Prerequisite: CIS 200 and STAT 204.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

CIS 401  Web Application Development  Credits: 3 (3-0-0)
Course Description: Web development techniques and strategies including Active Server Pages using VBScript, JavaScript, ColdFusion; security, web design.
Prerequisite: CIS 355 and CIS 240.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

CIS 411  Enterprise Resource Planning Systems  Credits: 3 (3-0-0)
Course Description: Introduction to enterprise resource planning (ERP) systems concepts, business processes impacted by ERP, systems and software integration.
Prerequisite: ACT 220 and CIS 200.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

CIS 413  Advanced Networking and Security  Credits: 3 (3-0-0)
Course Description: Modern communication standards, protocol systems; network security, security policies, attack and protection mechanisms, legal and ethical issues.
Prerequisite: CIS 350.
Registration Information: Sections may be offered: Online.
Term Offered: Fall.
Grade Mode: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

CIS 455  Advanced Database Management  Credits: 3 (3-0-0)
Course Description: Advanced data management topics including performance tuning, concurrency control, security, object-oriented databases, and data warehousing.
Prerequisite: CIS 355.
Term Offered: Spring.
Grade Mode: Instructor Option.
Special Course Fee: No.

CIS 487  Internship  Credits: 3 (0-9-0)
Course Description: Supervised and planned work experience paralleling concentration in industry.
Prerequisite: CIS 355 and CIS 360.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

CIS 492  Seminar  Credits: 3 (3-0-0)
Course Description: Current topics in computer-based information systems.
Prerequisite: None.
Term Offered: Spring.
Grade Mode: Instructor Option.
Special Course Fee: No.
CIS 495 Independent Study Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

CIS 496B Group Study: Small Business Information Systems Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

CIS 496C Group Study: Communications and Distributed Systems Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

CIS 496D Group Study: Information Systems Performance Measurement Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

CIS 496E Group Study: Current Issues in Business Computing Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

CIS 498 Research Credits: Var[1-3] (0-0-0)
Course Description:
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

CIS 505 Database Concepts Credit: 1 (1-0-0)
Course Description: An introduction to business database systems for non-CIS majors. Covers introductory database concepts, terminology, structures, relationships, and querying with SQL.
Prerequisite: None.
Restriction: Must be a: Graduate.
Registration Information: Graduate standing. This is a partial semester course. Offered as an online course only.
Term Offered: Summer.
Grade Mode: Traditional.
Special Course Fee: No.

CIS 563 Information Assurance and Security Credits: 3 (3-0-0)
Course Description: Examine information assurance and security from an enterprise risk management perspective. Enterprise risk management provides a framework for identifying, evaluating, prioritizing, and mitigating IT-related risks based on the organization's objectives, strategy, risk appetite, and culture. Information assurance is the practice of managing information-related risks to ensure that (only) authorized parties have access to the “right” information at the “right” time.
Prerequisite: None.
Registration Information: Sections may be offered: Online.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

CIS 570 Business Intelligence Credits: 3 (3-0-0)
Course Description: Harnessing vast data stores to solve problems, enhance decision-making, discover new business opportunities, and to derive additional benefits.
Prerequisite: None.
Registration Information: Admission to the M.B.A., M.C.I.S., M.S.B.A., or M.E. program. Sections may be offered: Online.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

CIS 575 Applied Data Mining and Analytics in Business Credits: 3 (3-0-0)
Course Description: Data mining is a process of selecting, exploring and modeling large amounts of data to identify patterns and relationships among key variables.
Prerequisite: STAT 204.
Registration Information: Sections may be offered: Online.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

CIS 576 Business Data Visualization Credits: 3 (3-0-0)
Course Description: Methods to solve data visualization problems; critique and evaluate current systems; develop skills in the construction of data visualization.
Prerequisite: CIS 575 or CIS 605.
Registration Information: Sections may be offered: Online.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

CIS 600A Project Management: Information Technology Credits: 3 (3-0-0)
Course Description: Strategic role in and management of information technology and software development projects.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Sections may be offered: Online. Credit not allowed for both CIS 600A and CIS 600B.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.
CIS 600B  Project Management: Impact Enterprise  Credits: 2 (2-0-0)
Course Description: Fundamentals of managing projects in impactful enterprises including coverage of common tools and techniques such as work breakdown structures, project networks, cost estimating and risk planning.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: This is a partial semester course. Sections may be offered: Online. Credit not allowed for both CIS 600A and CIS 600B.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

CIS 601  Enterprise Computing and Systems Integration  Credits: 3 (3-0-0)
Also Offered As: MGT 601.
Course Description: Integrated extended enterprise planning and execution systems concepts including ERP, CRM, SCM, MRP II, business processes, front/back office systems.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Admission to the M.B.A., M.C.I.S., M.S.B.A., or M.E. program. Credit not allowed for both CIS 601 and MGT 601. Sections may be offered: Online.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

CIS 605  Business Visual Application Development  Credits: 3 (3-0-0)
Course Description: Design, construction, and testing of business application systems including leading-edge visual, E-commerce languages, and tools.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Admission to the M.B.A., M.C.I.S., M.S.B.A., or M.E. program. Sections may be offered: Online.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

CIS 606  Application Software Infrastructure  Credits: 3 (3-0-0)
Course Description: Design, construction, and testing of business application software infrastructure including hardware, operating software, and communications network.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Admission to the M.B.A., M.C.I.S., M.S.B.A., or M.E. program. Sections may be offered: Online.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

CIS 610  Software Development Methodology  Credits: 3 (3-0-0)
Course Description: Methods for all phases of software development focusing upon the establishment of economical software that is reliable and cross platform.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Admission to the M.B.A., M.C.I.S., M.S.B.A., or M.E. program. Sections may be offered: Online.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

CIS 611  Object-Oriented Systems  Credits: 3 (3-0-0)
Course Description: Object-oriented and web-based software; object model describing classes; relationships to other objects, attributes, and operations.
Prerequisite: CIS 610.
Restriction: Must be a: Graduate, Professional.
Registration Information: Admission to the M.B.A., M.C.I.S., M.S.B.A., or M.E. program. Sections may be offered: Online.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

CIS 620  IT Communications Infrastructure  Credits: 3 (3-0-0)
Course Description: Technical aspects of information communications, business considerations; wireless technology, architecture, and applications.
Prerequisite: CIS 606.
Restriction: Must be a: Graduate, Professional.
Registration Information: Admission to the M.B.A., M.C.I.S., M.S.B.A., or M.E. program. Sections may be offered: Online.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

CIS 623  Cybersecurity  Credits: 3 (3-0-0)
Course Description: Detailed examination of modern security topics, blending coverage of many of the domains of the CISSP with those of the CEH: Access Control, Network Security, Risk Management, Software Development Security, Cryptography, Architecture, Operations, Business Continuity, Legal/Ethical issues, as well as attack, defense and countermeasure mechanisms.
Prerequisite: CIS 620.
Restriction: Must be a: Graduate, Professional.
Registration Information: Graduate standing. Sections may be offered: Online.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

CIS 655  Business Database Systems  Credits: 3 (3-0-0)
Course Description: Database analysis, design, administration; data modeling; data sublanguages, query facilities; distributed database systems.
Prerequisite: CIS 605.
Restriction: Must be a: Graduate, Professional.
Registration Information: Admission to the M.B.A., M.C.I.S., M.S.B.A., or M.E. program. Sections may be offered: Online.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

CIS 665  E-Business Application Technologies  Credits: 3 (3-0-0)
Course Description: Developing E-business (B2B and B2C) through construction and deployment.
Prerequisite: CIS 605 and CIS 606 and CIS 610.
Restriction: Must be a: Graduate, Professional.
Registration Information: Admission to the M.B.A., M.C.I.S., M.S.B.A., or M.E. program. Sections may be offered: Online.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.
CIS 670 Advanced IT Project Management Credits: 3 (3-0-0)
Course Description: Advanced tools, techniques and skills for advanced risk management, change movement, and performance/control measures in cross-functional projects.
Prerequisite: CIS 600A and CIS 600.
Restriction: Must be a: Graduate, Professional.
Registration Information: Sections may be offered: Online.
Term Offered: Spring.
Grade Mode: Instructor Option.
Special Course Fee: No.

CIS 675 Agile Management and Product Development Credits: 3 (3-0-0)
Course Description: Business model process optimization; managing rapid product development; incorporating constituent feedback throughout the product life cycle.
Prerequisite: CIS 600A or CIS 600.
Restriction: Must be a: Graduate, Professional.
Registration Information: Sections may be offered: Online.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

CIS 676 Information Technology Management Credits: 3 (3-0-0)
Course Description: Strategic information technology management of business, technical, system and information services.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Admission to graduate program in business.
Sections may be offered: Online.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

CIS 695 Independent Study Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring.
Grade Mode: Instructor Option.
Special Course Fee: No.

CIS 696 Group Study Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring.
Grade Mode: Instructor Option.
Special Course Fee: No.

CIS 699 Thesis Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

Major in Business Administration, Information Systems Concentration

CIS 350  Operating Systems and Networks
CIS 410  Web Application Development
CIS 411  Enterprise Resource Planning Systems
CIS 413  Advanced Networking and Security
CIS 455  Advanced Database Management
CIS 575  Applied Data Mining and Analytics in Business
CIS 576  Business Data Visualization
MGT 301  Supply Chain Management  3
MGT 320  Contemporary Management Principles/Practices  3
MKT 300  Marketing  4B  3
Diversity and Global Awareness  3E  3
Electives  9

Total Credits  30

Program Total Credits:  120

1 Students enrolled in the Business Administration major prior to Fall semester, 2013, are not required to take BUS 201 and BUS 220.

2 Students who have taken FIN 305 and/or MKT 305 prior to admission to the College of Business may substitute those courses to satisfy the category 4A and 4B requirements. All other students are required to take FIN 300 and MKT 300 to satisfy categories 4A and 4B.

3 Select enough elective credits to bring the program total to a minimum of 120 credits, of which at least 42 must be upper-division (300- to 400-level). A minimum of 6 elective credits must be upper-division.

Students are not to utilize the satisfactory/unsatisfactory (S/U) grading option for any Business concentration course or any Business core course (Business and non-Business subject codes) except when a course only allows S/U grading.

Major Completion Map

Distinctive Requirements for Degree Program:

To Declare this Major: Direct entry as a new freshman or transfer to the College of Business is highly selective and only those students meeting academic requirements will be accepted. For details contact the Office of Admissions.

CSU and the College of Business use holistic review when determining eligibility for admission to the College of Business as a new freshman. An example of a strong candidate for admission to the College of Business is one who is actively involved in their high school and community, has at least a 3.200 GPA with a 1200 or higher on the SAT or a 27 or higher on the ACT. For current admission criteria, contact the CSU Office of Admissions. New freshmen admitted to CSU but not directly to the College of Business will be admitted as “Undeclared Business Interest” and must meet the requirements below. To be eligible for admission to the College, CSU students (including Undeclared Business Interest) must have a 3.000 cumulative GPA on a minimum of 15 graded credits at Colorado State and a grade of B- or higher in ECON 202 and a grade of C- or higher in MATH 141.

External transfer students who have completed a minimum of 15 graded credits with a 3.000 cumulative GPA and a grade of B- or higher in ECON 202 and a grade of C- or higher in MATH 141. External transfer students who do not meet the above criteria will be admitted to Undeclared and must complete the requirements stated above.

To Prepare for First Semester: The Curriculum for the Business Administration-Information Systems concentration assumes students will be able to successfully complete calculus within the first year. The College of Business requires a minimum grade point average of 2.000 in business and economics courses as a graduation requirement.

International Business Group 3 - Experiential Learning Requirement

The benchmark courses for the 8th semester are the remaining courses in the entire program of study.

Total Credits 15

Program Total Credits: 120

---

**Certificate in Business Analytics**

The Certificate in Business Analytics will provide the knowledge and skills needed to meet the demand for analytics in business. It covers the foundations of data analytics and business intelligence, collection and integration of data across multiple sources, evaluation of data quality, the application of appropriate analytics and visualization techniques to improve business decision-making, and the ethical and privacy issues associated with data usage and business analytics. Students will learn data preparation and management, analytics and visualization techniques, and gain significant "hands-on" experience in providing data-driven solutions to organizations.

**Requirements**

**Effective Fall 2020**

Additional coursework may be required due to prerequisites.

Certificate in Business App Development

The undergraduate Certificate in Business App Development will give students the knowledge and skills to create software solutions for business applications using contemporary tools and frameworks used in industry. Students will learn how to gather system requirements from key stakeholders and translate those requirements into software solutions that satisfy business needs. Students will learn different methodologies (e.g., waterfall, agile) to plan, design, develop, test, and debug business applications using various tools and technologies. They will gain practical, hands-on problem-solving skills, learn to work effectively in teams, and build applications using object-oriented programming languages and other modern tools and frameworks for cross-platform development.

Requirements

Effective Fall 2020

Additional coursework may be required due to prerequisites.

Program Total Credits: 9

Certificate in Business Cybersecurity

The undergraduate Certificate in Business Cybersecurity will provide students the knowledge and skills needed to address the challenges associated with information management and security. Cybersecurity and information assurance is a serious concern for any business. Upon completion of this certificate, students will have increased awareness and the ability to assess and secure information technology assets against cybersecurity threats. Students will demonstrate an understanding of cybersecurity terminology, concepts and issues, including the nature of threats, common vulnerabilities, consequences of security failures, and strengths and weaknesses of various cybersecurity models.

Requirements

Effective Fall 2020

Additional coursework may be required due to prerequisites.

Certificate in Information Technology for Business Professionals

The Department of Computer Information Systems (CIS) offers the Certificate in Information Technology (IT) for Business Professionals. It covers some of the knowledge and skills needed to evaluate, create, deploy, and use IT-based solutions to business problems. It is open to all business students, other than those in the CIS concentration. Students who pursue the certificate are typically interested in applying IT skills to their chosen concentration.

Effective Fall 2018

Additional coursework may be required due to prerequisites.

Graduate Certificate in Business Analytics and Accounting Systems

Completion of the Graduate Certificate in Business Analytics and Accounting Systems provides students with the ability to harness vast data stores to solve problems, enhance decision-making, and discover new opportunities. They will learn data mining concepts, methodologies, models, and tools, along with appropriate applications for optimizing business functions, forecasting, detection, prediction, classification, and discovery. Additionally, students will gain increased expertise in accounting technology systems used in organizational accounting systems worldwide, including skills in spreadsheet and database technologies.

Effective Fall 2017

Additional coursework may be required due to prerequisites.

Program Total Credits: 9

*This certificate may have courses in common with other graduate certificates. A student may earn more than one certificate, but a given course may be counted only in one certificate.

Graduate Certificate in Business Application Development

The Graduate Certificate in Business Application Development will provide students with the knowledge and skills needed to meet business and societal demands for software applications. Students will learn how
to determine the information needs of an organization and specify the systems that will support its processes and functions. Students will learn how to plan, design, develop, test, and debug business application systems, using modeling and programming languages, tools, and technologies. They will gain practical, hands-on problem-solving skills and will build applications using object-oriented programming languages and other development technologies. Students will use an Interactive Development Environment (IDE) for software development, implement modularization and documentation, and learn best practices in software development.

Graduate Certificate in Business Information Systems

The Graduate Certificate in Business Information Systems will equip students with general information technology (IT) knowledge and skills to bring to their business or workplace. Students have the opportunity to a) learn to strategically implement technology within organizations and get a managerial-level understanding of infrastructure, applications, and data analytics, b) study critical project management topics such as project selection and life cycle, stakeholder management, scope and schedule development, and risk management, c) acquire knowledge about integrated business processes, Enterprise Resource Planning (ERP), Customer Relationship Management (CRM) and related software solutions, and d) understand the field of business intelligence (BI), including impacts, capabilities, and roles in decision making, as well as get hands-on experience with popular BI and analytical tools.

Graduate Certificate in Cybersecurity

The Graduate Certificate in Cybersecurity will provide students with the knowledge and skills needed to face the ever-changing need for information management and security. Upon completion of the courses, students will be able to identify enterprise and IT-related risks for organizations and evaluate their potential impact. Students will learn how to evaluate weaknesses in an organization’s IT controls and make recommendations to improve regulatory compliance, reporting, and operational performance. Students will learn basic programming concepts, demonstrate the ability to set-up and troubleshoot hardware and software for a computer network, and gain significant "hands-on" experience in both attacking and defending virtual systems. This program is compatible with our MCIS degree requirements, enabling certificate recipients to transition into the MCIS program and apply it to their degree. It will also be compatible with some of the MBA requirements, allowing some MBA students to earn the certificate as part of their MBA degree.

*This certificate may have courses in common with other graduate certificates. A student may earn more than one certificate, but a given course may be counted only in one certificate.

Graduate Certificate in Information Technology Project Management

In the information technology areas, project management is found across the private, public, and military sectors. The Certificate includes a deep understanding of the 10 knowledge areas and the 42 grouped processes required by the Project Management Institute®, information technology management, agile project management, and other special topics. Completion of this certificate also prepares the recipient to sit for the PMP® Certification or the CAP-M® Certification exam.

Master of Computer Information Systems, Plan C (M.C.I.S.)

The M.C.I.S. program addresses market demand for Information Technology (IT) professionals. Students gain applied knowledge and skills to leverage information and technology to enable and transform organizations and society. The program offers students innovative, cutting-edge and in-demand skills in analytics, cyber security, project management, systems analysis and design, software development and implementation, enterprise systems, networking, systems administration, and IT management. Students may enroll full-time or part-time in either the on-campus (https://biz.colostate.edu/academics/graduate-programs/master-of-computer-information-systems/) or online (https://www.online.colostate.edu/degrees/cis/) program, giving working professionals flexibility in completing the curriculum. Depending on the number of courses taken per semester, the M.C.I.S. degree typically takes between 1.5 and 3 years to complete.

Courses

Subjects in this department include: Finance (FIN) and Real Estate (REL).

Finance (FIN)

FIN 200  Personal Finance and Investing (GT-MA1)  Credits: 3 (3-0-0)
Course Description: Fundamentals of personal finance including budgeting, financial math, tax planning, managing credit, avoiding identity theft, buying insurance, selecting employee benefits, saving, and investing to meet long-term financial goals. Apply a systematic process to evaluate personal financial situation, develop goals, evaluate alternatives, and create a plan to meet those goals.
Prerequisite: MATH 101 or MATH 105 or MATH 117 or MATH 118 or MATH 124 or MATH 125 or MATH 126 or MATH 141 or MATH 155 or MATH 160.
Registration Information: Sophomore standing. Sections may be offered: Online.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.
Additional Information: Quantitative Reasoning 1B, Mathematics (GT-MA1).

FIN 300  Principles of Finance  Credits: 3 (3-0-0)
Course Description: Overview of financial markets and institutions, analysis of securities and investigation of financial management techniques.
Prerequisite: (ACT 205 or ACT 210) and (AREC 202 or ECON 202) and (CIS 200) and (ECON 204) and (MATH 141 or MATH 155 or MATH 160).
Registration Information: Sections may be offered: Face-to-Face, Mixed Face-to-Face, or Online. Credit not allowed for both FIN 300 and FIN 305.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

FIN 305  Fundamentals of Finance  Credits: 3 (3-0-0)
Course Description: Role of finance in management of the firm; role, structure of financial markets and institutions, valuation of basic securities.
Prerequisite: (ACT 205 or ACT 210) and (ECON 204).
Registration Information: Credit not allowed for both FIN 305 and FIN 300. Sections may be offered: Online.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

FIN 309  Fundamentals of Entrepreneurial Finance  Credits: 3 (3-0-0)
Course Description: Accounting and finance for entrepreneurs, including forms of business organization, preparation of financial statements, developing a cash budget, managing working capital, measuring cash flow, valuing a company, measuring performance, types and sources of financing at different stages in a company’s life cycle.
Prerequisite: MGT 340.
Registration Information: Sections may be offered: Online.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

FIN 310  Financial Markets and Institutions  Credits: 3 (3-0-0)
Course Description: Analysis of the functions and operations of financial markets and the primary and secondary securities created in those markets.
Prerequisite: ECON 204.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

FIN 311  Debt Securities Analysis  Credits: 3 (3-0-0)
Course Description: Analysis of corporate, government, and mortgage-based debt securities. Emphasis on securitization of asset-backed obligations.
Prerequisite: (FIN 300) and (FIN 310 or ECON 315) and (FIN 355).
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

FIN 320  Introduction to Financial Planning  Credits: 3 (3-0-0)
Course Description: Personal financial planning including budgeting, tax planning, credit management, investing, retirement, and estate planning.
Prerequisite: ACT 210 and ECON 202.
Registration Information: Sections may be offered: Online.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

FIN 342  Risk Management and Insurance  Credits: 3 (3-0-0)
Course Description: Management of insurable risks for the individual and business firm.
Prerequisite: FIN 300 or FIN 305.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

FIN 355  Principles of Investments  Credits: 3 (3-0-0)
Course Description: Modern investment theory with applications in the debt and equity markets, with introduction to portfolio management.
Prerequisite: FIN 300 and FIN 310.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.
FIN 370  Financial Management-Theory and Application  Credits: 3 (3-0-0)
Course Description: Theory and application of financial management to business firms; case problems used for illustration.
Prerequisite: FIN 300.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

FIN 440  Estate Planning  Credits: 3 (3-0-0)
Course Description: Methods for conservation and transfer of wealth, considering aspects of tax, trusts, wills, probate, advanced directives, and charitable giving.
Prerequisite: ACT 330 and FIN 320.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

FIN 445  Financial Plan Development  Credits: 3 (3-0-0)
Course Description: Analyze client finances and economic conditions, develop and communicate comprehensive financial plan using financial planning professional standards.
Prerequisite: ACT 330 and FIN 320 and FIN 342.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

FIN 447  Derivative Securities  Credits: 3 (3-0-0)
Course Description: Futures, options and other derivatives, including their use in hedging, speculation, and arbitrage.
Prerequisite: FIN 355.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

FIN 470  Enterprise Valuation  Credits: 3 (3-0-0)
Course Description: Analytical framework for measuring, managing, and applying principles and tools to value enterprises.
Prerequisite: FIN 355 and FIN 370.
Term Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

FIN 475  International Business Finance  Credits: 3 (3-0-0)
Course Description: International financial management emphasizing markets, instruments, hedging techniques, and operating strategies.
Prerequisite: FIN 300.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

FIN 486  Summit Investment Fund Practicum  Credits: 3 (0-0-6)
Course Description: An opportunity to gain valuable experience in equity valuation, asset allocation, style analysis and portfolio management as applied to an actual investment portfolio.
Prerequisite: FIN 355.
Restriction: Must be a: Undergraduate.
Registration Information: Written consent of instructor.
Terms Offered: Fall, Spring.
Grade Mode: Instructor Option.
Special Course Fee: No.

FIN 487  Internship  Credits: Var[1-18] (0-0-0)
Course Description: 
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

FIN 495  Independent Study  Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

FIN 496  Group Study  Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

FIN 498  Research  Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

FIN 524  Financial Statistics  Credits: 3 (3-0-0)
Also Offered As: STAT 524.
Course Description: Probability and statistical concepts and quantitative tools used in financial modeling and decision-making.
Prerequisite: MATH 345 and STAT 420.
Registration Information: MATH 345; STAT 420, or Admission to MSBA program with Financial Risk Management specialization. Credit not allowed for both FIN 524 and STAT 524. Sections may be offered: Online.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

Restriction: Must be a: Graduate, Professional.
Registration Information: Sections may be offered: Online.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.
FIN 670 Risk Management Theory and Application Credits: 3 (3-0-0)  
**Course Description:** Fundamentals of financial risk management using quantitative techniques and models to identify, measure, and manage corporate risk.  
**Prerequisite:** (FIN 524 or STAT 524) and (FIN 655).  
**Restriction:** Must be a: Graduate, Professional.  
**Registration Information:** This is a partial semester course. Sections may be offered: Online.  
**Term Offered:** Spring.  
**Grade Mode:** Traditional.  
**Special Course Fee:** No.

FIN 675 International Finance Credits: 3 (3-0-0)  
**Course Description:** Analysis of the foreign exchange market and international financial markets.  
**Prerequisite:** FIN 300.  
**Restriction:** Must be a: Graduate, Professional.  
**Registration Information:** This is a partial semester course. Sections may be offered: Online.  
**Term Offered:** Spring.  
**Grade Mode:** Traditional.  
**Special Course Fee:** No.

FIN 678 Financial Decisions-Theory and Practice Credits: 3 (3-0-0)  
**Course Description:** Analysis of theory of corporate finance with emphasis on underlying assumptions and implications for financial decisions.  
**Prerequisite:** FIN 600.  
**Restriction:** Must be a: Graduate, Professional.  
**Term Offered:** Spring.  
**Grade Mode:** Traditional.  
**Special Course Fee:** No.

FIN 695 Independent Study Credits: Var[1-18] (0-0-0)  
**Course Description:**  
**Prerequisite:** None.  
**Restriction:** Must be a: Graduate, Professional.  
**Terms Offered:** Fall, Spring, Summer.  
**Grade Mode:** Instructor Option.  
**Special Course Fee:** No.

FIN 696 Group Study Credits: Var[1-18] (0-0-0)  
**Course Description:**  
**Prerequisite:** None.  
**Restriction:** Must be a: Graduate, Professional.  
**Registration Information:** Sections may be offered: Online.  
**Terms Offered:** Fall, Spring, Summer.  
**Grade Mode:** Instructor Option.  
**Special Course Fee:** No.

FIN 698 Research Credits: Var[1-6] (0-0-0)  
**Course Description:**  
**Prerequisite:** None.  
**Restriction:** Must be a: Graduate, Professional.  
**Registration Information:** Sections may be offered: Online.  
**Terms Offered:** Fall, Spring.  
**Grade Mode:** Traditional.  
**Special Course Fee:** No.

FIN 699 Thesis Credits: Var[1-18] (0-0-0)  
**Course Description:**  
**Prerequisite:** None.  
**Restriction:** Must be a: Graduate, Professional.  
**Terms Offered:** Fall, Spring, Summer.  
**Grade Mode:** Instructor Option.  
**Special Course Fee:** No.

**Real Estate (REL)**

REL 360 Real Estate Principles Credits: 3 (3-0-0)  
**Course Description:** Broad survey of real estate emphasizing land use, urban structure and growth, market analysis, real estate finance and valuation, and property rights.  
**Prerequisite:** AREC 202 or ECON 202.  
**Registration Information:** Sections may be offered: Online.  
**Term Offered:** Fall, Spring, Summer.  
**Grade Mode:** Traditional.  
**Special Course Fee:** No.

REL 367 Real Estate Law Credits: 3 (3-0-0)  
**Course Description:** Legal regulations applicable to real property ownership and transfer, to real estate agents, and to use of real property.  
**Prerequisite:** BUS 205 or BUS 260 or HDFS 403.  
**Registration Information:** Sections may be offered: Online.  
**Term Offered:** Spring.  
**Grade Mode:** Traditional.  
**Special Course Fee:** No.

REL 430 Real Estate Market Analysis Credits: 3 (3-0-0)  
**Course Description:** Analysis of real estate markets, including development feasibility and managing risk, and their relation to urban economic trends.  
**Prerequisite:** (FIN 300 or FIN 305) and (REL 360).  
**Term Offered:** Spring.  
**Grade Mode:** Traditional.  
**Special Course Fee:** No.

REL 454 Real Estate Appraisal Credits: 3 (3-0-0)  
**Also Offered As:** AREC 454.  
**Course Description:** Theoretical principles that underlie real estate appraisal methods. Procedures and practices used in real estate appraisal.  
**Prerequisite:** (AREC 202 or ECON 202) and (AREC 305 or REL 360).  
**Registration Information:** Sections may be offered: Online. Credit allowed for only one of the following: AREC 453, AREC 454, REL 453, or REL 454.  
**Term Offered:** Spring.  
**Grade Mode:** Traditional.  
**Special Course Fee:** No.

REL 455 Real Estate Finance Credits: 3 (3-0-0)  
**Course Description:** Residential mortgage origination, mortgage loan amortization, mortgage decision making, secondary mortgage markets, mortgage backed securities, REITs.  
**Prerequisite:** (FIN 300 or FIN 305) and (REL 360).  
**Registration Information:** Sections may be offered: Online.  
**Term Offered:** Fall.  
**Grade Mode:** Traditional.  
**Special Course Fee:** No.
REL 460  Real Estate Investment  Credits: 3 (3-0-0)
Course Description: Financing of real estate assets: real estate markets, policies; use of leverage and real estate investment analysis in real estate investment.
Prerequisite: (FIN 300 or FIN 305) and (REL 360).
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

REL 487  Real Estate Internship  Credits: Var[1-3] (0-0-0)
Course Description: Internship.
Prerequisite: FIN 300.
Registration Information: Junior standing. Maximum of 3 credits allowed in course.
Term Offered: Fall, Spring, Summer.
Grade Mode: S/U Sat/Unsat Only.
Special Course Fee: No.

REL 495  Real Estate Independent Study  Credits: Var[1-3] (0-0-0)
Course Description: None.
Registration Information: Maximum of 3 credits allowed in course.
Term Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

REL 496  Real Estate Group Study  Credits: Var[1-3] (0-0-0)
Course Description: None.
Registration Information: Maximum of 3 credits allowed in course.
Term Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

REL 601  Fundamentals of Real Estate Finance  Credit: 1 (1-0-0)
Course Description: Valuation-oriented study of real estate concepts and principles, including legal, regulatory, finance, market and financial analysis.
Prerequisite: BUS 601.
Restriction: Must be a: Graduate, Professional.
Registration Information: This is a partial-semester course. Sections may be offered: Online.
Term Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

REL 602  Real Estate Finance and Investments  Credits: 2 (2-0-0)
Course Description: Major aspects of real estate finance and investment from the perspective of corporate, private, and public owners and investors.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Offered as an online course only. Credit not allowed for both REL 601 and REL 602.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

Major in Business Administration, Finance Concentration

This program is designed to prepare undergraduate students to enter the finance profession with comprehensive knowledge and real world skills in their area of emphasis. The field of finance is constantly evolving. The program focuses on providing state-of-the-art tools, techniques, and computer applications.

Learning Outcomes

Students will demonstrate the ability to:

- Display broad conceptual knowledge, analytical abilities, and problem solving skill sets in finance
- Analyze and interpret financial statements, and capital markets and economic data to inform business decisions
- Explain the role of business financing and investment decisions on firm value
- Understand the structure and function of financial markets, and the pricing of securities that trade in these markets
- Characterize the relationship between expected return and various sources of risks
- Identify and implement asset allocation and portfolio diversification strategies to improve investment outcomes
- Appreciate the role of the firm in the broader economy and society including an understanding of the many stakeholders of the firm in global markets

In addition to the core areas of asset valuation, investments, and global finance, the concentration allows students to select from three options for more in-depth study.

The Corporate Finance option prepares students for positions in both financial and non-financial business enterprises in which they will need to make and defend strategic financial decisions in capital budgeting, planning, control, and policy.

The Investment Analysis option focuses on the theoretical and practical aspects of investment valuation, selection, and portfolio management, for both individual and institutional investors.

The Real Estate Finance option prepares students for careers in commercial or residential real estate and related industries, while also providing strong foundations in financial analysis.
Potential Occupations
Finance students are prepared for a number of different careers in business. Internships and volunteer experiences enhance skills and marketability.

Examples of fields in which graduates can find finance-related occupations include: commercial, mortgage, and investment banking; corporate finance; investments; portfolio management; financial analysis; securities analysis; loan analysis; risk management and insurance; stock brokerage; government banking and securities regulation; government finance; teaching and research.

Requirements
In order to complete the Finance concentration, the Business Administration core courses and the Finance concentration core courses must be completed. Students must select one of the following options as well: Corporate Finance, Investment Analysis, or Real Estate Finance.

The College of Business requires a minimum grade point average of 2.000 in business and economics courses as a graduation requirement.

Effective Fall 2020

Option courses (see requirements below)  9-12
Electives  6-9

Total Credits  30
Program Total Credits:  120

1 Students enrolled in the Business Administration major prior to Fall semester 2013, are not required to take BUS 201 and BUS 220.
2 Students who have taken FIN 305 and/or MKT 305 prior to admission to the College of Business may substitute those courses to satisfy the category 4A and 4B requirements. All other students are required to take FIN 300 and MKT 300 to satisfy categories 4A and 4B.
3 Select enough elective credits to bring the program total to a minimum of 120 credits, of which at least 42 must be upper-division (300- to 400-level).

Students are not to utilize the satisfactory/unsatisfactory (S/U) grading option for any Business concentration course or any Business core course (Business and non-Business subject codes) except when a course only allows S/U grading.

Major Completion Map

Distinctive Requirements for Degree Program:

To Declare this Major: Direct entry as a new freshman or transfer to the College of Business is highly selective and only those students meeting
academic requirements will be accepted. For details contact the Office of Admissions.

CSU and the College of Business use holistic review when determining eligibility for admission to the College of Business as a new freshman. An example of a strong candidate for admission to the College of Business is one who is actively involved in their high school and community, has at least a 3.200 GPA with a 1200 or higher on the SAT or a 27 or higher on the ACT. For current admission criteria, contact the CSU Office of Admissions. New freshmen admitted to CSU but not directly to the College of Business will be admitted as "Undeclared Business Interest" and must meet the requirements below. To be eligible for admission to the College, CSU students (including Undeclared Business Interest) must have a 3.000 cumulative GPA on a minimum of 15 graded credits at Colorado State and a grade of B- or higher in ECON 202 and a grade of C- or higher in MATH 141.

External transfer students who have completed a minimum of 15 graded credits with a 3.000 cumulative GPA and a grade of B- or higher in ECON 202 and a grade of C- or higher in MATH 141. External transfer students who do not meet the above criteria will be admitted to Undeclared and must complete the requirements stated above.

**To Prepare for First Semester**: The Curriculum for the Business Administration-Finance concentration assumes students will be able to successfully complete calculus within the first year.

The College of Business requires a minimum grade point average of 2.000 in business and economics courses as a graduation requirement.

**Second Concentration options with International Business**

A second concentration in International Business may be taken in conjunction with the Finance concentration. Students must also select an option within the Finance concentration. Upon graduation, both concentrations will be noted on a student’s official transcript.

- Corporate Finance option
- Investment Analysis option
- Real Estate Finance option

**Corporate Finance option**

**Effective Fall 2020**

The College of Business requires a minimum grade point average of 2.000 in business and economics courses as a graduation requirement.

Internship with global focus
L*** language course

Students are not to utilize the satisfactory/unsatisfactory (S/U) grading option for any Business concentration course or any Business core course (Business and non-Business subject codes) except when a course only allows S/U grading.

Second Concentration options Major Completion Maps
A second concentration in International Business may be taken in conjunction with the Finance concentration. Students must also select an option within the Finance concentration. Upon graduation, both concentrations will be noted on a student’s official transcript.

• Corporate Finance option
• Investment Analysis option
• Real Estate Finance option

Corporate Finance option

Distinctive Requirements for Degree Program:

To Declare this Major: Direct entry as a new freshman or transfer to the College of Business is highly selective and only those students meeting academic requirements will be accepted. For details contact the Office of Admissions.

CSU and the College of Business use holistic review when determining eligibility for admission to the College of Business as a new freshman. An example of a strong candidate for admission to the College of Business is one who is actively involved in their high school and community, has at least a 3.200 GPA with a 1200 or higher on the SAT or a 27 or higher on the ACT. For current admission criteria, contact the CSU Office of Admissions. New freshmen admitted to CSU but not directly to the College of Business will be admitted as “Undeclared Business Interest” and must meet the requirements below. To be eligible for admission to the College, CSU students (including Undeclared Business Interest) must have a 3.000 cumulative GPA on a minimum of 15 graded credits at Colorado State and a grade of B- or higher in ECON 202 and a grade of C- or higher in MATH 141.

External transfer students who have completed a minimum of 15 graded credits with a 3.000 cumulative GPA and a grade of B- or higher in ECON 202 and a grade of C- or higher in MATH 141. External transfer students who do not meet the above criteria will be admitted to Undeclared and must complete the requirements stated above.

To Prepare for First Semester: The Curriculum for the Business Administration-Finance concentration assumes students will be able to successfully complete calculus within the first year.

The College of Business requires a minimum grade point average of 2.000 in business and economics courses as a graduation requirement.

### Investment Analysis option

**Distinctive Requirements for Degree Program:**

#### To Declare this Major:
Direct entry as a new freshman or transfer to the College of Business is highly selective and only those students meeting academic requirements will be accepted. For details contact the Office of Admissions.

CSU and the College of Business use holistic review when determining eligibility for admission to the College of Business as a new freshman. An example of a strong candidate for admission to the College of Business is one who is actively involved in their high school and community, has at least a 3.200 GPA with a 1200 or higher on the SAT or a 27 or higher on the ACT. For current admission criteria, contact the CSU Office of Admissions. New freshmen admitted to CSU but not directly to the College of Business will be admitted as “Undeclared Business Interest” and must meet the requirements below. To be eligible for admission to the College, CSU students (including Undeclared Business Interest) must have a 3.000 cumulative GPA on a minimum of 15 graded credits at Colorado State and a grade of B- or higher in ECON 202 and a grade of C- or higher in MATH 141.

External transfer students who have completed a minimum of 15 graded credits with a 3.000 cumulative GPA and a grade of B- or higher in ECON 202 and a grade of C- or higher in MATH 141. External
transfer students who do not meet the above criteria will be admitted to Undeclared and must complete the requirements stated above.

The College of Business requires a minimum grade point average of 2.000 in business and economics courses as a graduation requirement.

**To Prepare for First Semester:** The Curriculum for the Business Administration-Finance concentration assumes students will be able to successfully complete calculus within the first year.

**Major in Business Administration, Financial Planning Concentration**

This program is designed to prepare undergraduate students to enter the financial planning profession. The program is a Certified Financial Planner Board of Standards registered program, and students are eligible to sit for the CFP® Exam upon graduation.*

**Learning Outcomes**

Students will demonstrate the ability to:

- Analyze a client's current financial position
- Review a client's risk management needs
- Estimate the current capital and future savings needed to fund goals
- Prepare and present recommendations for meeting goals
- Consider the impact of income and estate tax law on achieving goals

This curriculum covers all the major areas of financial planning, including retirement, employee benefits, income tax, estate planning, and risk management. The option is most appropriate for those who intend to enter the financial planning profession as credit counselors, financial advisors, financial planners, wealth managers, or financial product representatives.

**Potential Occupations**

Financial Planning students are prepared for a number of different careers in business. Internships and volunteer experiences enhance skills and marketability.

Examples of financial-planning-related occupations include, but are not limited to: financial planner, investment advisor, consumer credit counselor, personal banker, investment wholesaler, insurance agent, and trust advisor.

*Certified Financial Planner Board of Standards Inc. owns the certification marks CFP CERTIFIED FINANCIAL PLANNER™ in the U.S., which it awards to individuals who successfully complete CFP Board’s initial and ongoing certification requirements.

**Requirements**

The College of Business requires a minimum grade point average of 2.000 in business and economics courses as a graduation requirement.

**Effective Fall 2020**

**Freshman**

CIS 370  Business Analytics  3
FIN 300  Principles of Finance  4A,4B  3
FIN 310  Financial Markets and Institutions  3
FIN 320  Introduction to Financial Planning  3
FIN 342  Risk Management and Insurance  3
FIN 355  Principles of Investments  3
MKT 300  Marketing  4B  3
Historical Perspectives  3D  3
Electives  3  

Total Credits  30

### Senior

BUS 479  Strategic Management  4A,4C  3
FIN 440  Estate Planning  3
FIN 442  Employee Benefits and Retirement Planning  3
FIN 445  Financial Plan Development  3
MGT 301  Supply Chain Management  3
MGT 320  Contemporary Management Principles/Practices  3
Electives  10  

Total Credits  28

Program Total Credits:  120

---

1 Students enrolled in the Business Administration major prior to Fall semester 2013, are not required to take BUS 201 and BUS 220.

2 Students who have taken FIN 305 (http://catalog.colostate.edu/search/?P=FIN%20305) and/or MKT 305 (http://catalog.colostate.edu/search/?P=MKT%20305) prior to admission to the College of Business may substitute those courses to satisfy the category 4A and 4B requirements. All other students are required to take FIN 300 (http://catalog.colostate.edu/search/?P=FIN%20300) and MKT 300 (http://catalog.colostate.edu/search/?P=MKT%20300) to satisfy categories 4A and 4B.

3 Select enough elective credits to bring the program total to a minimum of 120 credits, of which at least 42 must be upper-division (300- to 400-level).

---

Students are not to utilize the satisfactory/unsatisfactory (S/U) grading option for any Business concentration course (Business and non-Business subject codes) except when a course only allows S/U grading.

### Major Completion Map

**Distinctive Requirements for Degree Program:**

**To Declare this Major:** Direct entry as a new freshman or transfer to the College of Business is highly selective and only those students meeting academic requirements will be accepted. For details contact the Office of Admissions.

CSU and the College of Business use holistic review when determining eligibility for admission to the College of Business as a new freshman. An example of a strong candidate for admission to the College of Business is one who is actively involved in their high school and community, has at least a 3.200 GPA with a 1200 or higher on the SAT or a 27 or higher on the ACT. For current admission criteria, contact the CSU Office of Admissions. New freshmen admitted to CSU but not directly to the College of Business will be admitted as “Undeclared Business Interest” and must meet the requirements below. To be eligible for admission to the College, CSU students (including Undeclared Business Interest) must have a 3.000 cumulative GPA on a minimum of 15 graded credits at Colorado State and a grade of B- or higher in ECON 202 and a grade of C- or higher in MATH 141.

External transfer students who have completed a minimum of 15 graded credits with a 3.000 cumulative GPA and a grade of B- or higher in ECON 202 and a grade of C- or higher in MATH 141. External transfer students who do not meet the above criteria will be admitted to Undeclared and must complete the requirements stated above.

**To Prepare for First Semester:** The Curriculum for the Business Administration-Financial Planning concentration assumes students will be able to successfully complete calculus within the first year.

The College of Business requires a minimum grade point average of 2.000 in business and economics courses as a graduation requirement.

Second Concentration Major Completion Map

Distinctive Requirements for Degree Program:

To Declare this Major: Direct entry as a new freshman or transfer to the College of Business is highly selective and only those students meeting...
academic requirements will be accepted. For details contact the Office of Admissions.

CSU and the College of Business use holistic review when determining eligibility for admission to the College of Business as a new freshman. An example of a strong candidate for admission to the College of Business is one who is actively involved in their high school and community, has at least a 3.200 GPA with a 1200 or higher on the SAT or a 27 or higher on the ACT. For current admission criteria, contact the CSU Office of Admissions. New freshmen admitted to CSU but not directly to the College of Business will be admitted as "Undeclared Business Interest" and must meet the requirements below. To be eligible for admission to the College, CSU students (including Undeclared Business Interest) must have a 3.000 cumulative GPA on a minimum of 15 graded credits at Colorado State and a grade of B- or higher in ECON 202 and a grade of C- or higher in MATH 141.

External transfer students who have completed a minimum of 15 graded credits with a 3.000 cumulative GPA and a grade of B- or higher in ECON 202 and a grade of C- or higher in MATH 141. External transfer students who do not meet the above criteria will be admitted to Undeclared and must complete the requirements stated above.

To Prepare for First Semester: The Curriculum for the Business Administration-Financial Planning concentration assumes students will be able to successfully complete calculus within the first year.

The College of Business requires a minimum grade point average of 2.000 in business and economics courses as a graduation requirement.

Major in Business Administration, Real Estate Concentration

This program is designed to prepare undergraduate students for careers as professionals in real estate and related industries. Real estate is the largest industry in the world representing nearly 50% of the world's wealth. The real estate profession offers one of the most diverse career selections in the business world today. It is a multi-disciplinary profession that coordinates architecture, construction, law, finance, marketing, property management, and urban dynamics. Real estate professionals help find, provide, and manage space for people to work, sleep, shop, eat, and play. Those who choose careers in real estate are typically goal-oriented, persevering, self-motivated, and possess an entrepreneurial spirit. Furthermore, they must be creative and able to research, analyze, negotiate, and pay attention to details. No two projects or investments are ever the same. Rewards of a real estate career include potential for high earnings, independence, flexibility, and an opportunity to help people.

Learning Outcomes
Students will demonstrate:

• The ability to evaluate physical real estate (land and building analysis)
• The ability to perform financial real estate analysis (including time value of money)
• The ability to assess and manage risk
• The ability to conduct market analysis and identify opportunities
• An understanding of property and portfolio management

Potential Occupations
Real estate graduates find professional employment in many fields. Students interested in commercial real estate may find employment in property and land development, property acquisition, property management, commercial mortgage lending, commercial real estate brokerage, asset management, government housing, commercial
construction, or Real Estate Investment Trust (REIT) analysis, investment, or management. Students interested in real estate finance may find employment in commercial real estate investment banking, residential real estate lending for both development and loan underwriting, financial analysis, real estate securities analysis, insurance underwriting, commercial real estate brokerage, government housing finance and investment, or construction lending and research. Students interested in residential real estate may find employment in residential brokerage, residential marketing, residential appraisal, residential finance, residential home inspection services, home construction consulting, or residential development.

**Requirements**
The College of Business requires a minimum grade point average of 2.000 in business and economics courses as a graduation requirement.

Total Credits

- 30

Program Total Credits:

- 120

1. Students enrolled in the Business Administration major prior to Fall semester 2013, are not required to take BUS 201 or BUS 220.
2. Students who have taken FIN 305 and/or MKT 305 prior to admission to the College of Business may substitute those courses to satisfy the category 4A and 4B requirements. All other students are required to take FIN 300 and MKT 300 to satisfy categories 4A and 4B.
3. Select enough elective credits to bring the program total to a minimum of 120 credits, of which at least 42 must be upper-division (300- to 400-level). A minimum of 6 elective credits must be upper-division.

Students are not to utilize the satisfactory/unsatisfactory (S/U) grading option for any Business concentration course or any Business core course (Business and non-Business subject codes) except when a course only allows S/U grading.

**Major Completion Map**

**Distinctive Requirements for Degree Program:**

**To Declare this Major:** Direct entry as a new freshman or transfer to the College of Business is highly selective and only those students meeting academic requirements will be accepted. For details contact the Office of Admissions.

CSU and the College of Business use holistic review when determining eligibility for admission to the College of Business as a new freshman. An example of a strong candidate for admission to the College of Business is one who is actively involved in their high school and community, has at least a 3.200 GPA with a 1200 or higher on the SAT or a 27 or higher on the ACT. For current admission criteria, contact the CSU Office of Admissions. New freshmen admitted to CSU but not directly to the College of Business will be admitted as “Undeclared Business Interest” and must meet the requirements below. To be eligible for admission to the College, CSU students (including Undeclared Business Interest) must have a 3.000 cumulative GPA on a minimum of 15 graded credits at Colorado State and a grade of B- or higher in ECON 202 and a grade of C- or higher in MATH 141.

External transfer students who have completed a minimum of 15 graded credits with a 3.000 cumulative GPA and a grade of B- or higher in ECON 202 and a grade of C- or higher in MATH 141. External transfer students who do not meet the above criteria will be admitted to Undeclared and must complete the requirements stated above.

**To Prepare for First Semester:** The Curriculum for the Business Administration-Real Estate concentration assumes students will be able to successfully complete calculus within the first year.

The College of Business requires a minimum grade point average of 2.000 in business and economics courses as a graduation requirement.

Program Total Credits: 120
## Second Concentration with International Business

A second concentration in International Business may be taken in conjunction with the Real Estate concentration. Upon graduation, both concentrations will be noted on a student's official transcript.

### Effective Fall 2020

The College of Business requires a minimum grade point average of 2.000 in business and economics courses as a graduation requirement.

Total Credits 15

Program Total Credits: 120

Minor in Real Estate

The College of Business offers a minor in Real Estate to majors in other colleges. The minor explores the fundamentals of real estate. Consisting of 24 credits, it covers an introduction to the field of real estate, real estate law, selling, appraisal, and principles of real estate finance.

Requirements

Effective Spring 2018

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

Program Total Credits: 24

This degree program is designated as a science, technology, engineering, and math (STEM) field. The STEM designation allows international students the opportunity to receive a visa extension after they've completed their degree.

Learning Outcomes

Students will demonstrate the ability to:

- Describe the function and structure of securities markets and financial intermediaries in a global economic environment.
- Estimate the value and equilibrium rates of return to domestic and international equity and debt claims via models of cash flow and relative value.
- Describe and analyze the use of derivative instruments in managing risks to equity, debt, and currencies in domestic and international markets.
- Describe, estimate, and interpret statistical models of financial risk, returns, volatility, and firm value.
- Explain and demonstrate the concept of arbitrage in valuing firms, financial assets, and derivative instruments.

Employment Opportunities

Finance students are prepared for a number of different careers in business.

Examples of fields in which Master of Finance graduates can find finance-related occupations include the following: commercial, mortgage, and investment banking; corporate finance; investments; portfolio management; financial analysis; securities analysis; loan analysis; risk management and insurance; stock brokerage; government banking and securities regulation; government finance; and teaching and research.

- Supply Chain Management Concentration

Minor
- Entrepreneurship and Innovation

Certificates
- Certificate in Entrepreneurship
- Certificate in Leadership in Organizations
- Certificate in Managing Human Resources
- Certificate in Operations, Logistics and Supply Management

Courses
Subjects in this department include: Management (MGT).

Management (MGT)

MGT 301 Supply Chain Management Credits: 3 (3-0-0)
Course Description: Concept of value-driven supply chains; design and management of effective supply chains; emphasis on current practice and recent trends.
Prerequisite: None.
Registration Information: Sophomore standing. Sections may be offered: Face-to-Face, Mixed Face-to-Face, or Online.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

MGT 305 Fundamentals of Management Credits: 3 (3-0-0)
Course Description: Managerial process of planning, directing, and controlling inputs of an organization. Analysis, decision making, and survey of research literature.
Prerequisite: None.
Registration Information: Sections may be offered: Online. Credit not allowed for both MGT 305 and MGT 320.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

MGT 310 Human Resource Management Credits: 3 (3-0-0)
Course Description: Principles and practices of employee management including hiring, development, compensation, and employee relations.
Prerequisite: None.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MGT 320 Contemporary Management Principles/Practices Credits: 3 (3-0-0)
Course Description: Principles of management in combination with practices of the new economy to achieve managerial goals.
Prerequisite: (BUS 300) and (AREC 202 or ECON 202) and (MATH 141 or MATH 155 or MATH 160).
Registration Information: Credit not allowed for both MGT 320 and MGT 305. Sections may be offered: Online.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

MGT 330 Creativity, Innovation, and Value Creation Credits: 3 (3-0-0)
Course Description: How creativity and innovation can be developed for application in value creation.
Prerequisite: None.
Restriction: Must not be a: Freshman, Sophomore.
Registration Information: Sophomore standing. Business Administration, Mechanical Engineering, Agriculture Business, Apparel and Merchandising, Biomedical Engineering, Computer Science majors; declared LEAP minors or LEAP graduate students only.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MGT 340 Fundamentals of Entrepreneurship Credits: 3 (3-0-0)
Course Description: Concepts of entrepreneurship and role of entrepreneurs in the economy.
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

MGT 350 Employment Relations: The Legal Environment Credits: 3 (3-0-0)
Course Description: Legal principle and policy issues arising from the employment relationship.
Prerequisite: None.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MGT 360 Social and Sustainable Venturing Credits: 3 (3-0-0)
Course Description: Entrepreneurship and economic opportunities in the transition to a socially and ecologically sustainable global economy.
Prerequisite: None.
Restriction: Must not be a: Freshman, Sophomore.
Registration Information: Junior standing or higher.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.
MGT 374  Total Rewards and Performance Management  Credits: 3 (3-0-0)
Course Description: Principles and best practices for the strategic design and implementation of compensation and performance management systems.
Prerequisite: MGT 310.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

MGT 375  Advanced Supply Management  Credits: 3 (3-0-0)
Course Description: Advanced design of purchasing and supply management within global supply chains.
Prerequisite: MGT 301.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MGT 376  Advanced Service and Manufacturing Operations  Credits: 3 (3-0-0)
Course Description: Advanced concepts for the management of operations in service and manufacturing companies.
Prerequisite: MGT 301.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MGT 377  Advanced Logistics  Credits: 3 (3-0-0)
Course Description: Advanced design and management of logistics and distribution operations within global supply chains.
Prerequisite: MGT 301.
Registration Information: Junior standing.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MGT 382  Management in an International Context  Credits: 3 (3-0-0)
Course Description: Fundamentals of management taught in an international context. Emphasis on global management topics.
Prerequisite: None.
Term Offered: Summer.
Grade Mode: Traditional.
Special Course Fee: No.

MGT 410  Leadership and Organizational Behavior  Credits: 3 (3-0-0)
Course Description: Behavior of people and groups as members of organizations.
Prerequisite: MGT 305 or MGT 320.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MGT 411  Leading High Performance Teams  Credits: 3 (3-0-0)
Course Description: Design, management, and leadership of teams in organizational settings.
Prerequisite: MGT 305 or MGT 320.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MGT 420  New Venture Creation  Credits: 3 (3-0-0)
Course Description: Entrepreneurs and the entrepreneurial process. Growth of an independent business.
Prerequisite: MGT 340.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

MGT 424  Ventures in Social Entrepreneurship  Credits: 3 (3-0-0)
Also Offered As: IDEA 424.
Course Description: Focus on value creation, and delivery of a solution to a team community project. Application of human-centered design, and the venture design processes provide solutions to real world problems facing some of society's most vulnerable populations.
Prerequisite: MGT 360.
Restriction: Must be a: Undergraduate.
Registration Information: Credit not allowed for both IDEA 424 and MGT 424.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.
MGT 450  Biomedical Entrepreneurship I  Credits: 2 (2-0-0)
Course Description: Commercialization process for biomedical inventions; market and competitor analysis, regulations, patents; preliminary feasibility study.
Prerequisite: BIOM 470 or MGT 340 or MECH 470.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MGT 455  Designing for Defense  Credits: 3 (0-6-0)
Also Offered As: IDEA 455.
Course Description: A culminating interdisciplinary experience that partners with the United States Department of Defense to propose solutions to vexing problems. Content and activities include a semester-long national security problem. Create a problem brief, develop and test prototypes, and deliver professional presentations to diverse audiences.
Prerequisite: None.
Registration Information: Junior standing. Must have taken at least 3 credits from IDEA 310 subtopics and/or IDEA 320 subtopics or MGT 340.
Credit not allowed for both IDEA 455 and MGT 455.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

MGT 468  Negotiating Globally  Credits: 3 (3-0-0)
Course Description: Characteristics and process of negotiation in a global context.
Prerequisite: MGT 305 or MGT 320.
Registration Information: MGT 305 or MGT 320 or International Studies majors.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

MGT 469A  Study Abroad--Peru: Global SCM Experience  Credits: 3 (0-0-3)
Course Description: Examination of supply chain practices and culture of Peru. Develop an understanding of the management of global aspects of a supply chain as well as the differences between managing a supply chain in a well developed country and a developing country with less infrastructure and expertise in the field.
Prerequisite: MGT 301.
Registration Information: Junior standing. Written consent of instructor.
Credit not allowed for both MGT 469A and MGT 482B.
Term Offered: Fall (even years).
Grade Mode: Traditional.
Special Course Fee: No.

MGT 470  Managerial Decisions-Issues and Analysis  Credits: 3 (3-0-0)
Course Description: Investigation and application of managerial decision-making processes and methods to solve problems in business functions.
Prerequisite: (MGT 301) and (MGT 305 or MGT 320).
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MGT 471  Micro Issues in Supply Chain Management  Credits: 3 (3-0-0)
Course Description: Managing the supply function (locally or globally) and the productive flow of materials in goods and services-producing supply chains.
Prerequisite: MGT 301.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

MGT 472  Macro Issues in Supply Chain Management  Credits: 3 (3-0-0)
Course Description: Application of analytical and computer-based tools in the analysis and improvement of supply chains with variable demand and supply.
Prerequisite: MGT 301.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MGT 473  Employment Relations: Labor and Management  Credits: 3 (3-0-0)
Course Description: Managerial decision making and action in labor-management relations as affected by labor legislation and administrative practices.
Prerequisite: None.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MGT 474  Human Resource Planning and Development  Credits: 3 (3-0-0)
Course Description: Human resource planning, recruitment, selection, training, and development.
Prerequisite: MGT 310.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MGT 475  International Business Management  Credits: 3 (3-0-0)
Course Description: Multinational corporations: their scope, activities, managerial problems and decisions.
Prerequisite: (FIN 300 or FIN 305) and (MKT 300 or MKT 305) and (MGT 305 or MGT 320).
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MGT 476  Negotiation and Conflict Management  Credits: 3 (3-0-0)
Course Description: Principles and practices of negotiation and conflict management including bargaining as a social and managerial activity.
Prerequisite: MGT 320 or MGT 305.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MGT 477  Global Supply Chain Management  Credits: 3 (3-0-0)
Course Description: Principles and best practices for the strategic design and implementation of global supply chains.
Prerequisite: MGT 375, may be taken concurrently and MGT 376, may be taken concurrently and MGT 377, may be taken concurrently.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.
MGT 479  Strategic Human Resource Management  Credits: 3 (3-0-0)
Course Description: An integration of the various functions of human resource (HR) management. Provides a strategic and data-driven perspective on HR and the development of data analysis and change management skills to improve HR processes. Topics include: strategic HR management, HR as a competitive advantage, balanced scorecard, analytical foundations of HR measurement, descriptive and predictive analytics, change strategies, and responses to organizational change.
Prerequisite: MGT 374 or MGT 474.
Registration Information: Junior standing.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MGT 486  Practicum in Supply Chain Management  Credits: 3 (1-4-0)
Course Description: Research and recommend solutions to "real world" supply chain management problems.
Prerequisite: MGT 375, may be taken concurrently and MGT 376, may be taken concurrently or MGT 375, may be taken concurrently and MGT 377, may be taken concurrently or MGT 376, may be taken concurrently and MGT 377, may be taken concurrently.
Registration Information: Select two courses from the following: MGT 375, MGT 376, MGT 377. Must register for lecture and laboratory. Written consent of instructor.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MGT 487  Internship  Credits: Var[1-18] (0-0-0)
Course Description: 
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

MGT 495  Independent Study  Credits: Var[1-18] (0-0-0)
Course Description: 
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

MGT 496  Group Study  Credits: Var[1-18] (0-0-0)
Course Description: 
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

MGT 600  Manufacturing Process and Systems Design  Credits: 3 (3-0-0)
Course Description: Strategic understanding of alternate manufacturing processes and systems design support needed to manage those processes.
Prerequisite: BUS 620 and BUS 625.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.
MGT 601 Enterprise Computing and Systems Integration Credits: 3 (3-0-0)
Also Offered As: CIS 601.
Course Description: Integrated extended enterprise planning and execution systems concepts including ERP, CRM, SCM, MRPII, business processes, front/back office systems.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Admission to M.B.A., M.C.I.S., M.S.B.A., or M.E. program. Sections may be offered: Online. Credit not allowed for both MGT 601 and CIS 601.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.
MGT 610 Strategic Human Resource Management Credits: 3 (3-0-0)
Course Description: Strategic issues associated with recruiting, staffing, evaluating, compensating, and developing employees; leadership issues associated therein.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Admission to master’s program.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.
MGT 611 Management of Organization Development Credits: 3 (3-0-0)
Course Description: Methods for managing organizational change.
Prerequisite: MGT 305 or MGT 320.
Restriction: Must be a: Graduate, Professional.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.
MGT 612 Managing in a Global Context Credits: 3 (3-0-0)
Course Description: Global management and HR development issues/practices. Cross-cultural issues in organization behavior, recruitment, selection, training, compensation.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Admission to GSSE program.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.
MGT 620 Management Credits: 3 (3-0-0)
Course Description: Practices, policies, philosophies, and behavior.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.
MGT 625 Managerial Communication Practices Credits: 3 (3-0-0)
Course Description: Internal, external, and managerial communication. Managerial speaking and writing skills enhancement.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Admission to a master's program in business.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.
MGT 640 Supply Chain Management Strategies Credits: 2 (2-0-0)
Course Description: How to create an effective supply chain management system to establish an efficient network for supplying final consumption.
Prerequisite: MGT 600.
Restriction: Must be a: Graduate, Professional.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.
MGT 663 Strategic Opportunities in Impact Enterprise Credits: 3 (3-0-0)
Course Description: Gain foundational knowledge of central sustainability challenges, concepts and tools of strategic management and entrepreneurship, and discover the economic opportunities present in the resolution of social and environmental issues. Develop an understanding of the role of corporations and entrepreneurs in resolving market imperfections, addressing sustainability challenges, and transitioning to a more sustainable economy. Introduce sustainability practices used by corporations and new ventures.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Admission to the Impact MBA.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.
MGT 665 Supply Chain Development and Management Credits: 2 (2-0-0)
Course Description: This course teaches the development and management of the global supply chain that plans, sources, makes and delivers an organization's products.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Written consent of instructor. Sections may be offered: Online.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.
MGT 667 Global Social Sustainable Entrepreneurship Credits: 3 (3-0-0)
Course Description: Global challenges—poverty, environmental degradation, public health, agriculture. Role of entrepreneurial management in private and public sector.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Written consent of instructor. Sections may be offered: Online.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.
MGT 668 New Venture Development for Social Enterprise Credits: 3 (3-0-0)

Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.
Major in Business Administration, Human Resource Management Concentration

This program is designed to develop in students a comprehensive knowledge of human resource (HR) management along with the skills necessary for implementing strategic, effective, and legally defensible HR practices in contemporary business organizations. Human resource professionals operate in a dynamic and changing world, managing the organization’s relationship with its employees. They develop and manage people, practices, and policies to ensure that they produce employee attitudes, skills, behaviors, and performance that companies need to achieve their strategic goals. They are commonly responsible for recruiting, hiring, onboarding, training and developing, evaluating performance, compensating, providing benefits, counseling, and terminating employees. HR Professionals are employed in every industry and are an essential partner in an organization’s strategic vision for the future and for ensuring the right people are in place. It is essential that an HR professional learn and master key knowledge, skills, and abilities including critical thinking, confidentiality, change management, communication, negotiation and conflict management, business acumen, interpersonal skills, organizational skills, and fairness. In addition to the All-University Core Curriculum, course work for a concentration in Human Resource Management includes the College of Business Core and various management electives that allow the student to structure a program around his or her educational and/or career interests.

Learning Outcomes
Students will demonstrate:

- Knowledge and skills necessary to assume entry-level HR positions in preparation for pursuing careers in a wide variety of organizations and industries
- Knowledge and skills to develop and implement HR practices in a strategic, legal, and ethical manner
- Understanding of HR’s role in the efficient and effective operations of organizations and their human resources
- The ability to create and manage HR practices that respect and encourage diversity and inclusion in the workplace

Potential Occupations
Some examples include, but are not limited to the following:
Compensation Analyst, Employee Benefits Manager, Employee Relations Manager, Health & Safety Manager, Human Resource Assistant, Human Resource Consultant, HR Information Systems Manager, HR Metrics Analyst, Human Resource Manager, Job Analyst, Labor Relations Specialist, Orientation Specialist, Recruiter, Training and Development
Specialist, Wellness Program Administrator, Workforce Planning Specialist.

Requirements
The College of Business requires a minimum grade point average of 2.000 in business and economics courses as a graduation requirement.

1. Students enrolled in the Business Administration major prior to Fall semester 2013, are not required to take BUS 201 and BUS 220.
2. Students who have taken FIN 305 and/or MKT 305 prior to admission to the College of Business may substitute those courses to satisfy the category 4A and 4B requirements. All other students are required to take FIN 300 and MKT 300 to satisfy categories 4A and 4B.
3. Select enough elective credits to bring the program total to a minimum of 120 credits, of which at least 42 must be upper-division (300- to 400-level). A minimum of 6 elective credits must be upper-division.

Students are not to utilize the satisfactory/unsatisfactory (S/U) grading option for any Business concentration course or any Business core course (Business and non-Business subject codes) except when a course only allows S/U grading.

Major Completion Map

Distinctive Requirements for Degree Program:

To Declare this Major: Direct entry as a new freshman or transfer to the College of Business is highly selective and only those students meeting academic requirements will be accepted. For details contact the Office of Admissions.

CSU and the College of Business use holistic review when determining eligibility for admission to the College of Business as a new freshman. An example of a strong candidate for admission to the College of Business is one who is actively involved in their high school and community, has at least a 3.200 GPA with a 1200 or higher on the SAT or a 27 or higher on the ACT. For current admission criteria, contact the CSU Office of Admissions. New freshmen admitted to CSU but not directly to the College of Business will be admitted as “Undeclared Business Interest” and must meet the requirements below. To be eligible for admission to the College, CSU students (including Undeclared Business Interest) must have a 3.000 cumulative GPA on a minimum of 15 graded credits at Colorado State and a grade of B- or higher in ECON 202 and a grade of C- or higher in MATH 141.

External transfer students who have completed a minimum of 15 graded credits with a 3.000 cumulative GPA and a grade of B- or higher in ECON 202 and a grade of C- or higher in MATH 141. External transfer students who do not meet the above criteria will be admitted to Undeclared and must complete the requirements stated above.

To Prepare for First Semester: The Curriculum for the Business Administration-Human Resource Management concentration assumes students will be able to successfully complete calculus within the first year.

The College of Business requires a minimum grade point average of 2.000 in business and economics courses as a graduation requirement.

Students are not to utilize the satisfactory/unsatisfactory (S/U) grading option for any Business concentration course or any Business core course (Business and non-Business subject codes) except when a course only allows S/U grading.

### Second Concentration Major Completion Map

#### Distinctive Requirements for Degree Program:

**To Declare this Major:** Direct entry as a new freshman or transfer to the College of Business is highly selective and only those students meeting academic requirements will be accepted. For details contact the Office of Admissions.

CSU and the College of Business use holistic review when determining eligibility for admission to the College of Business as a new freshman. An example of a strong candidate for admission to the College of Business is one who is actively involved in their high school and community, has at least a 3.200 GPA with a 1200 or higher on the SAT or a 27 or higher on the ACT. For current admission criteria, contact the CSU Office of Admissions. New freshmen admitted to CSU but not directly to the College of Business will be admitted as “Undeclared Business Interest” and must meet the requirements below. To be eligible for admission to the College, CSU students (including Undeclared Business Interest) must have a 3.000 cumulative GPA on a minimum of 15 graded credits at Colorado State and a grade of B- or higher in ECON 202 and a grade of C- or higher in MATH 141.

External transfer students who have completed a minimum of 15 graded credits with a 3.000 cumulative GPA and a grade of B- or higher in ECON 202 and a grade of C- or higher in MATH 141.
transfer students who do not meet the above criteria will be admitted to Undeclared and must complete the requirements stated above.

**To Prepare for First Semester:** The Curriculum for the Business Administration - Human Resource Management concentration assumes students will be able to successfully complete calculus within the first year. The College of Business requires a minimum grade point average of 2.000 in business and economics courses as a graduation requirement.

Major in Business Administration, Organization and Innovation Management Concentration

This program is designed to provide its students with a comprehensive knowledge of organization and innovation management along with the skills necessary for effective decision making in a business environment that is diverse, global, and highly competitive. Managers are dynamic individuals who are responsible for projects, teams, and processes. They coordinate, motivate, strategize, plan, budget, initiate action, evaluate performance, and control process and activities. They are commonly responsible for overseeing a budget and the activities of others to ensure that the organization’s goals and objectives are met. Managers are employed in every industry. It is essential that a manager learn and master key knowledge, skills, and abilities including how to handle conflict, communicate effectively, negotiate, create positive and productive work environments, and effectively manage the numerous issues associated with the human resources of an organization.

Students may choose focused course work in entrepreneurship, supply chain management, and human resource management. These are designed to help students acquire skill sets so that, upon graduation, they will be able to “hit the ground running.” In addition to the All-University Core Curriculum, course work for a concentration in organization and innovation management includes the College of Business Core and various management electives that allow the student to structure a program around his or her educational and/or career interests.

Learning Outcomes

Students will demonstrate:

- Knowledge and skills adequate to assume entry-level management positions in the broad spectrum of organizations so they can pursue careers in a wide variety of organizations and industries
- Ethical decision making skills
Major in Business Administration, Organization and Innovation Management Concentration

- An understanding of necessary change management and innovation skills
- An understanding of business principles and practices in an international context

Potential Occupations
Some examples include, but are not limited to the following: Account Manager, Analyst, Client Services, Consultant, Customer Service, Entrepreneur, Human Resources Manager, Logistics/Distribution Manager, Operations Manager, Project Manager, Recruiter, Retail Manager, Small Business Owner, Supply Manager, Trainer/Facilitator

Requirements
The College of Business requires a minimum grade point average of 2.000 in business and economics courses as a graduation requirement.

Program Total Credits:  
30

1. Students enrolled in the Business Administration major prior to Fall semester 2013, are not required to take BUS 201 and BUS 220.

2. Students who have taken FIN 305 and/or MKT 305 prior to admission to the College of Business may substitute those courses to satisfy the category 4A and 4B requirements. All other students are required to take FIN 300 and MKT 300 to satisfy categories 4A and 4B.

3. Select enough elective credits to bring the program total to a minimum of 120 credits, of which at least 42 must be upper-division (300- to 400-level). A minimum of 6 elective credits must be upper-division.

Students are not to utilize the satisfactory/unsatisfactory (S/U) grading option for any Business concentration course or any Business core course (Business and non-Business subject codes) except when a course only allows S/U grading.

Students are not to utilize the satisfactory/unsatisfactory (S/U) grading option for any Business concentration course or any Business core course (Business and non-Business subject codes) except when a course only allows S/U grading

Second Concentration Major Completion Map

Distinctive Requirements for Degree Program:

To Declare this Major: Direct entry as a new freshman or transfer to the College of Business is highly selective and only those students meeting academic requirements will be accepted. For details contact the Office of Admissions.
CSU and the College of Business use holistic review when determining eligibility for admission to the College of Business as a new freshman. An example of a strong candidate for admission to the College of Business is one who is actively involved in their high school and community, has at least a 3.200 GPA with a 1200 or higher on the SAT or a 27 or higher on the ACT. For current admission criteria, contact the CSU Office of Admissions. New freshmen admitted to CSU but not directly to the College of Business will be admitted as “Undeclared Business Interest” and must meet the requirements below. To be eligible for admission to the College, CSU students (including Undeclared Business Interest) must have a 3.000 cumulative GPA on a minimum of 15 graded credits at Colorado State and a grade of B- or higher in ECON 202 and a grade of C- or higher in MATH 141.

External transfer students who have completed a minimum of 15 graded credits with a 3.000 cumulative GPA and a grade of B- or higher in ECON 202 and a grade of C- or higher in MATH 141. External transfer students who do not meet the above criteria will be admitted to Undeclared and must complete the requirements stated above.

To Prepare for First Semester: The Curriculum for the Business Administration-Organization and Innovation Management concentration assumes students will be able to successfully complete calculus within the first year.

The College of Business requires a minimum grade point average of 2.000 in business and economics courses as a graduation requirement.

**Major in Business Administration, Supply Chain Management Concentration**

This program is designed to develop in students a comprehensive knowledge of global supply chain management (SCM) along with the skills necessary for implementing strategic, efficient and effective SCM practices in contemporary business enterprises. SCM Professionals operate in a dynamic and changing world, managing resources and relationships with suppliers and customers worldwide. They are commonly responsible for practices related to managing products, information and cash flows through the global value chain including product development, forecasting demand, managing production and service operations, purchasing materials, order fulfillment, distribution, returns management, trade compliance, and customer service. SCM Professionals are employed in every industry and are essential in ensuring a company's offerings provide value for its customers. It is essential that an SCM professional learn and master key knowledge, skills, and abilities including critical thinking, ethics, change management, communication, negotiation and conflict management, business acumen, interpersonal skills, and organizational leadership skills. In addition to the All-University Core Curriculum, course work for a concentration in Supply Chain Management includes the College of Business Core and various management electives that allow the student to structure a program around his or her educational and/or career interests.

### Learning Outcomes

Students will demonstrate:

- Knowledge and skills adequate to assume entry-level SCM positions in the broad spectrum of organizations and be prepared to pursue careers in a wide variety of organizations and industries
- Knowledge of how global supply chains operate and skills to make decisions to support strategic and tactical activities to manage efficient and effective supply chains
- An understanding of ethical decision making skills with respect to dealing with supplier and customer organizations

Program Total Credits:  120

---

1 Students enrolled in the Business Administration major prior to Fall semester 2013, are not required to take BUS 201 and BUS 220.
2 Students who have taken FIN 305 and/or MKT 305 prior to admission to the College of Business may substitute those courses to satisfy the category 4A and 4B requirements. All other students are required to take FIN 300 and MKT 300 to satisfy categories 4A and 4B.
3 Of the two-course selection of MGT 411 and MGT 476 in the senior year, the course not selected may be included among the three-course selection below it. Courses may not double-count for these requirements.
4 Select enough elective credits to bring the program total to a minimum of 120 credits, of which at least 42 must be upper-division (300- to 400-level). A minimum of 6 elective credits must be upper-division.

Students are not to utilize the satisfactory/unsatisfactory (S/U) grading option for any Business concentration course or any Business core course (Business and non-Business subject codes) except when a course only allows S/U grading.

Students are not to utilize the satisfactory/unsatisfactory (S/U) grading option for any Business concentration course or any Business core course (Business and non-Business subject codes) except when a course only allows S/U grading.

Second Concentration Major Completion Map

Distinctive Requirements for Degree Program:

To Declare this Major: Direct entry as a new freshman or transfer to the College of Business is highly selective and only those students meeting academic requirements will be accepted. For details contact the Office of Admissions.

CSU and the College of Business use holistic review when determining eligibility for admission to the College of Business as a new freshman. An example of a strong candidate for admission to the College of Business is one who is actively involved in their high school and community, has at least a 3.200 GPA with a 1200 or higher on the SAT or a 27 or higher on the ACT. For current admission criteria, contact the CSU Office of Admissions. New freshmen admitted to CSU but not directly to the College of Business will be admitted as “Undeclared Business Interest” and must meet the requirements below. To be eligible for admission to the College of Business, CSU students (including Undeclared Business Interest) must have a 3.000 cumulative GPA on a minimum of 15 graded credits at Colorado State and a grade of B- or higher in ECON 202 and a grade of C- or higher in MATH 141.

External transfer students who have completed a minimum of 15 graded credits with a 3.000 cumulative GPA and a grade of B- or higher in ECON 202 and a grade of C- or higher in MATH 141. External transfer students who do not meet the above criteria will be admitted to Undeclared and must complete the requirements stated above.

To Prepare for First Semester: The Curriculum for the Business Administration-Supply Chain Management concentration assumes students will be able to successfully complete calculus within the first year.

The College of Business requires a minimum grade point average of 2.000 in business and economics courses as a graduation requirement.

**Total Credits**: 15

**Program Total Credits**: 120

---

### Minor in Entrepreneurship and Innovation

The minor in Entrepreneurship and Innovation prepares students to play crucial roles (as founders, investors, advisors, policy makers, and executives) in the greater entrepreneurial ecosystem, including new venture start-ups, corporate entrepreneurship, social and sustainable ventures, and government entities. Consisting of 24 credits, the minor combines required entrepreneurship courses from the College of Business with selected electives across majors with an entrepreneurial nature.

### Requirements

#### Effective Fall 2019

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

Sophomore standing required for acceptance into the minor.

Students must have a minimum GPA of 2.500 for acceptance into the minor.
Students must complete each course in the minor with a grade of C or better.

Program Total Credits: 24-25

Students can only choose 2 courses from their major area to apply to a minor.

Certificate in Leadership in Organizations

The College of Business offers the Certificate in Leadership in Organizations to students majoring in Business Administration. This certificate provides students with a research-based understanding of leadership principles and experience-based skill development opportunities. These leadership competencies are valuable for job attainment, job performance, and career progression for students of all concentrations in the College of Business.

Effective Spring 2015

Additional coursework may be required due to prerequisites.

Program Total Credits: 9
Certificate in Managing Human Resources

The College of Business offers the Certificate in Managing Human Resources to students majoring in Business Administration. This certificate will give students a basic understanding of the functional areas of human resource management to add to their specific major area. Students can expect an introduction to the field of human resource management including employment law, recruitment, selection, training and development, performance management, and compensation.

Effective Spring 2015
Additional coursework may be required due to prerequisites.

Program Total Credits: 9

Certificate in Operations, Logistics and Supply Management

The College of Business offers the Certificate in Operations, Logistics and Supply Management to business students, to give students expertise in the core areas of supply chain management (SCM) and to prepare them for SCM careers. Companies seek employees able to mitigate risk in global supply chains, grasp the cost trade-offs inherent to various SCM activities, and build relationships with key trading partners. This certificate will give students the ability to add value through coordination of functions and firms.

Effective Fall 2018
Additional coursework may be required due to prerequisites.

Courses
Marketing (MKT)

MKT 300 Marketing Credits: 3 (3-0-0)
Course Description: Market and buyer analysis, product and service development, pricing, promotion, advertising, selling, and distribution.
Prerequisite: (AREC 202 or ECON 202) and (MATH 141 or MATH 155 or MATH 160).
Registration Information: Sections may be offered: Face-to-Face, Mixed Face-to-Face, or Online. Credit not allowed for both MKT 300 and MKT 305.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

MKT 305 Fundamentals of Marketing Credits: 3 (3-0-0)
Course Description: Overview of marketing activities involved in provision of products and services to customers, including target markets and managerial aspects.
Prerequisite: AREC 202 or ECON 101 or ECON 202.
Registration Information: Credit not allowed for both MKT 305 and MKT 300. Sections may be offered: Face-to-Face, Online, or Mixed Face-to-Face.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.
MKT 307  Fundamentals of Sports Marketing  Credits: 3 (3-0-0)
Course Description: General marketing and the application within
sporting related contexts. Focuses on the nature and scope of marketing
a sports franchise as well as marketing traditional products or services
with the assistance of sports figures.
Prerequisite: None.
Registration Information: This is a partial semester course. Offered as an
online course only. Sport Management Minors only.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MKT 315  Marketing Communication Design  Credits: 3 (3-0-0)
Course Description: Creating multiple kinds of marketing
communications using graphic design software.
Prerequisite: MKT 300 or MKT 305.
Registration Information: Business majors only.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MKT 320  Integrated Marketing Communications  Credits: 3 (3-0-0)
Course Description: Principles and practices of managing promotional
activities including advertising, sales promotion, and other major media.
Prerequisite: MKT 300 or MKT 305.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MKT 330  Business Customer Relationships  Credits: 3 (3-0-0)
Course Description: Managing relationships with distribution channel
intermediaries and business customers.
Prerequisite: MKT 300 or MKT 305.
Registration Information: Sections may be offered: Online.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MKT 360  Retailing  Credits: 3 (3-0-0)
Also Offered As: DM 360.
Course Description: Examination of retailing principles and practices,
including merchandise management, retailing strategy, supply chain
management, store management, and sustainable retail operations.
Prerequisite: MKT 300 or MKT 305.
Registration Information: Credit not allowed for both DM 360 and
MKT 360.
Terms Offered: Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

MKT 361  Buyer Behavior  Credits: 3 (3-0-0)
Course Description: Marketing analysis of buying behavior of individuals,
households, businesses, and not-for-profit organizations.
Prerequisite: MKT 300 or MKT 305.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MKT 362  Professional Selling  Credits: 3 (3-0-0)
Course Description: Persuasive personal communications in selling
consumer and industrial products and services.
Prerequisite: MKT 300 or MKT 305.
Registration Information: Sections may be offered: Face-to-Face, Online,
or Mixed Face-to-Face.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MKT 363  Sales Management  Credits: 3 (3-0-0)
Course Description: Recruiting, selecting, training, compensating,
motivating, supervising, and evaluating a sales force.
Prerequisite: MKT 300 or MKT 305.
Registration Information: Sections may be offered: Face-to-Face, Online,
or Mixed Face-to-Face.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MKT 364  Product Design  Credits: 3 (3-0-0)
Course Description: Designing innovative products, services, brands, and
experiences is critical for creating value within all kinds of organizations
in the marketplace and society. Creative problem solving to define
design challenges, create concepts with low-fidelity prototyping,
evaluate assumptions using co-creation, and communicate ideas with
stakeholders. Internalize and practice the frameworks, processes, and
tools for leading a product innovation process in any kind of organization.
Prerequisite: MKT 300 or MKT 305.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

MKT 365  International Marketing  Credits: 3 (3-0-0)
Course Description: Analysis of international markets and development of
strategic and tactical options for marketing across national boundaries.
Prerequisite: MKT 300 or MKT 305.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MKT 366  Services Marketing  Credits: 3 (3-0-0)
Course Description: Customer service issues and unique challenges
involved in marketing and management of services operations.
Prerequisite: MKT 300 or MKT 305.
Terms Offered: Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

MKT 367  Sports Marketing  Credits: 3 (3-0-0)
Course Description: The nature and scope of applying marketing strategy
and tactics in the sports marketing environment.
Prerequisite: MKT 300 or MKT 305.
Registration Information: Credit allowed for only one of the following:
MKT 367, MKT 367A, MKT 367B.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.
MKT 370  Digital Marketing  Credits: 3 (3-0-0)
Course Description: Introduction to digital marketing: the landscape and tactics needed to execute marketing strategy in an online, connected, world.
Prerequisite: MKT 300 or MKT 305.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MKT 375  Social Media Marketing  Credits: 3 (3-0-0)
Course Description: Provides the knowledge and skills to effectively use social media to market a business. Obtain in-depth knowledge and understanding of the various facets of social media marketing strategy, platforms and tactics, and how social media integrates into the overall marketing and communication plan.
Prerequisite: MKT 300.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MKT 410  Marketing Research  Credits: 3 (3-0-0)
Course Description: Role and methodology of research in business emphasizing selection of study’s direction, collecting data, and choosing techniques for analyzing these data.
Prerequisite: (MKT 300 or MKT 305) and (STAT 204 or STAT 301 or STAT 307 or STAT 311 or STAT 315).
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MKT 440  Pricing and Financial Analysis in Marketing  Credits: 3 (3-0-0)
Course Description: Financial analysis involved in addressing marketing problems; advanced study of pricing strategy and tactics.
Prerequisite: MKT 300 or MKT 305.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MKT 450  Marketing Analytics  Credits: 3 (3-0-0)
Course Description: Analytic techniques used by marketers to transform data into decision-making information.
Prerequisite: MKT 410.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MKT 479  Marketing Strategy and Management  Credits: 3 (3-0-0)
Course Description: Marketing decisions involving integration of elements of the marketing mix.
Prerequisite: MKT 410.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MKT 482A  Study Abroad: Cross-Cultural Marketing in China  Credits: 3 (0-0-3)
Course Description: International setting focusing on multi-country contexts. Emphasis on consumer and business customer behavior in today's global environment.
Prerequisite: MKT 300 or MKT 305.
Registration Information: Written consent of instructor.
Term Offered: Summer.
Grade Mode: Traditional.
Special Course Fee: No.

MKT 486  Marketing Practicum  Credits: 3 (0-0-3)
Course Description: To give students the experience of working on a real marketing problem with a team at a sponsoring firm.
Prerequisite: MKT 300 or MKT 305.
Registration Information: Written consent of instructor required.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MKT 487  Internship  Credits: 3 (0-0-9)
Course Description:
Prerequisite: MKT 300.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

MKT 492  Seminar  Credits: 3 (0-0-3)
Course Description:
Prerequisite: MKT 300 or MKT 305.
Terms Offered: Fall, Spring.
Grade Mode: Instructor Option.
Special Course Fee: No.

MKT 495  Independent Study  Credits: Var[1-5] (0-0-0)
Course Description:
Prerequisite: None.
Registration Information: 2.75 GPA or better.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

MKT 496  Group Study  Credits: Var[1-3] (0-0-0)
Course Description:
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

MKT 498  Research  Credits: Var[1-3] (0-0-0)
Course Description:
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

MKT 499  Marketing Strategy and Management  Credits: 3 (3-0-0)
Course Description: Marketing decisions involving integration of elements of the marketing mix.
Prerequisite: MKT 410.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MKT 568  Sport Marketing  Credits: 2 (2-0-0)
Course Description: Examines sport marketing information systems, pricing strategies, media relations, promotional methods, and endorsements as they relate to marketing theories. Practical applications and principles.
Prerequisite: SPMT 533, may be taken concurrently.
Restriction: Must be a: Graduate.
Registration Information: This is a partial semester course. Sections may be offered: Online.
Grade Mode: Traditional.
Special Course Fee: No.
MKT 600  Marketing Management and Strategy  Credits: 3 (3-0-0)
Course Description: Processes of customer value creation and value capture; marketing strategy analysis.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Admission to a master’s program in business.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MKT 601  Marketing for Social Sustainable Enterprises  Credits: 3 (3-0-0)
Course Description: Customer and stakeholder value creation and capture. Marketing strategy with emphasis on social sustainable organizations.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Admission to GSSE Program.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

MKT 610  Qualitative Marketing Research Methods  Credit: 1 (1-0-0)
Course Description: Overview of qualitative research methods including focus groups, in-depth interviews, observations, and projective techniques.
Prerequisite: BUS 655.
Restriction: Must be a: Graduate, Professional.
Registration Information: This is a partial-semester course. Sections may be offered: Online.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

MKT 611  Quantitative Marketing Research Methods  Credit: 1 (1-0-0)
Course Description: Overview of the field of business research, with a focus on quantitative research methods.
Prerequisite: BUS 601 and BUS 655.
Restriction: Must be a: Graduate, Professional.
Registration Information: This is a partial-semester course. Sections may be offered: Online.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

MKT 621  Search Engine Marketing and Optimization  Credit: 1 (1-0-0)
Course Description: Focuses on search engine optimization (SEO) and search engine marketing (SEM). Students will improve the visibility of webpage(s) in the “organic results” through a variety of SEO tactics. Use paid activities (using the Google AdWords platform) to drive traffic from the search engine results page. Emphasizes application of class frameworks and concepts.
Prerequisite: BUS 655.
Restriction: Must be a: Graduate, Professional.
Registration Information: Admission to a master’s program in business.
This is a partial-semester course. Sections may be offered: Online.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

MKT 650  Data Analytics  Credits: 2 (2-0-0)
Course Description: Examine the pivotal role of marketing research in the data analytics process. Emphasis on research design, experimental design, sampling theory and various data collection methods. Evaluate the reliability and validity of marketing research data and data analysis tools (SPSS/SAS/R) and report on research findings.
Prerequisite: BUS 601 and BUS 655.
Restriction: Must be a: Graduate, Professional.
Registration Information: This is a partial semester course. Offered as an online course only.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MKT 651  Applied Data Analytics  Credits: 2 (2-0-0)
Course Description: Introduces the scope of the secondary data environment and teaches the analytic techniques used by marketers to transform data into decision making information. Focuses on primary data collection techniques, advanced analytic techniques and their application to marketing decision making.
Prerequisite: MKT 650.
Restriction: Must be a: Graduate, Professional.
Registration Information: This is a partial semester course. Offered as an online course only.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

MKT 661  Consumer Behavior  Credit: 1 (1-0-0)
Course Description: Marketing analysis of buying behavior of individual consumers.
Prerequisite: BUS 655.
Restriction: Must be a: Graduate, Professional.
Registration Information: This is a partial-semester course. Sections may be offered: Online.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

MKT 662  Strategic Selling for Business Customers  Credit: 1 (1-0-0)
Course Description: Examination of sales strategies, sales tactics and best practices in professional selling with a primary context in business selling.
Prerequisite: BUS 655.
Restriction: Must be a: Graduate, Professional.
Registration Information: This is a partial-semester course. Sections may be offered: Online.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

MKT 664  Design Thinking for Sustainable Enterprise  Credits: 3 (3-0-0)
Course Description: Guides students in generating sustainable products, services, and business models. Topics build on a foundational understanding of markets and strategies that address triple bottom line imperatives. Emphasizes applying design thinking tools, cross-disciplinary insights, qualitative research, low-fidelity prototyping, and experimentation.
Prerequisite: MKT 601.
Restriction: Must be a: Graduate, Professional.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.
MKT 667  Services Marketing Management  Credit: 1 (1-0-0)
Course Description: Fundamental concepts and strategies that differentiate the marketing of services from the marketing of tangible goods, including customer satisfaction.
Prerequisite: BUS 655.
Restriction: Must be a: Graduate, Professional.
Registration Information: This is a partial-semester course. Sections may be offered: Online.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

MKT 670  Digital Marketing  Credit: 1 (1-0-0)
Course Description: Overview of digital marketing tactics. Focuses on the practical application of tactics in support of basic business strategies as they apply to the online world of marketing, including websites, analytics, content marketing, email marketing, and emerging technologies, among other digital based topics. Particular focus will be given to measurement in a digital world through analytics and metrics.
Prerequisite: BUS 655.
Restriction: Must be a: Graduate, Professional.
Registration Information: This is a partial semester course. Offered as an online course only.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

MKT 686  Marketing Practicum Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: CIS 505 and CIS 570 and CIS 575 and CIS 601 and MKT 651, may be taken concurrently.
Restriction: Must be a: Graduate, Professional.
Registration Information: Offered as an online course only.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

MKT 692  Seminar Credits: 3 (0-0-3)
Course Description: Critical review and discussion of relevant marketing topics.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

MKT 695  Independent Study Credits: Var[1-3] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: 3.25 GPA or better.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

Major in Business Administration, Marketing Concentration

This program will provide its students with a comprehensive knowledge of marketing along with the skills necessary for effective decision making in a business environment that is diverse, global, and highly competitive. As defined by the American Marketing Association, marketing is the activity, set of institutions, and processes for creating, communicating, delivering, and exchanging offerings that have value for customer, clients, partners, and society at large. Organizations engage in marketing activities, such as conducting market research, developing new products, establishing pricing approaches, designing marketing communications, and building customer relationships. Marketing is people-oriented and ever changing. A person's analytical and creative abilities are brought to bear on developing solutions to various marketing problems while operating within a continuously evolving marketplace. In addition to the All-University Core Curriculum, course work for a major in business administration/marketing includes calculus, economics, statistics, and business foundation classes along with courses that specifically examine marketing issues and practices.

Learning Outcomes
Students will demonstrate the ability to:

- Identify a marketing problem and key influences on that problem, to use appropriate qualitative and quantitative analysis and market research techniques to evaluate the marketing problem, and to evaluate alternative solutions
- Make a final recommendation that thoroughly addresses the problem/opportunity based on: making reasonable assumptions; considering appropriate customer, competitor, and company constraints; clearly addressing the marketing issues; and demonstrating an understanding of the interrelationships of marketing concepts
- Use marketing terminology correctly
- Develop persuasive and convincing arguments that support recommendations
- Design a marketing plan

Potential Occupations
Between one-fourth and one-third of the civilian labor force is employed in marketing-related positions. Examples of possible careers include, but are not limited to:

marketing strategy planning, brand management, product development, market research, digital marketing, pricing management, sales management, advertising, and promotion management.
# Requirements

The College of Business requires a minimum grade point average of 2.000 in business and economics courses as a graduation requirement.

Students enrolled in the Business Administration major prior to Fall semester 2013, are not required to take BUS 201 and BUS 220.

Students who have taken FIN 305 and/or MKT 305 prior to admission to the College of Business may substitute those courses to satisfy the category 4A and 4B requirements. All other students are required to take FIN 300 and MKT 300 to satisfy categories 4A and 4B.

Select enough elective credits to bring the program total to a minimum of 120 credits, of which at least 42 must be upper-division (300-400 level). A minimum of 6 elective credits must be upper-division.

Students are not to utilize the satisfactory/unsatisfactory (S/U) grading option for any Business concentration course or any Business core course (Business and non-Business subject codes) except when a course only allows S/U grading.

**Major Completion Map**

**Distinctive Requirements for Degree Program:**

**To Declare this Major:** Direct entry as a new freshman or transfer to the College of Business is highly selective and only those students meeting academic requirements will be accepted. For details contact the Office of Admissions.

CSU and the College of Business use holistic review when determining eligibility for admission to the College of Business as a new freshman. An example of a strong candidate for admission to the College of Business is one who is actively involved in their high school and community, has at least a 3.200 GPA with a 1200 or higher on the SAT or a 27 or higher on the ACT. For current admission criteria, contact the CSU Office of Admissions. New freshmen admitted to CSU but not directly to the College of Business will be admitted as “Undeclared Business Interest” and must meet the requirements below. To be eligible for admission to the College, CSU students (including Undeclared Business Interest) must have a 3.000 cumulative GPA on a minimum of 15 graded credits at Colorado State and a grade of B- or higher in ECON 202 and a grade of C- or higher in MATH 141.

External transfer students who have completed a minimum of 15 graded credits with a 3.000 cumulative GPA and a grade of B- or higher in ECON 202 and a grade of C- or higher in MATH 141. External transfer students who do not meet the above criteria will be admitted to Undeclared and must complete the requirements stated above.

**To Prepare for First Semester:** The Curriculum for the Business Administration-Marketing concentration assumes students will be able to successfully complete calculus within the first year.
The College of Business requires a minimum grade point average of 2.000 in business and economics courses as a graduation requirement.

Internship with global focus

L*** language course

Students are not to utilize the satisfactory/unsatisfactory (S/U) grading option for any Business concentration course or any Business core course (Business and non-Business subject codes) except when a course only allows S/U grading.

### Second Concentration Major Completion Map

#### Distinctive Requirements for Degree Program:

To Declare this Major: Direct entry as a new freshman or transfer to the College of Business is highly selective and only those students meeting academic requirements will be accepted. For details contact the Office of Admissions.

CSU and the College of Business use holistic review when determining eligibility for admission to the College of Business as a new freshman. An example of a strong candidate for admission to the College of Business is one who is actively involved in their high school and community, has at least a 3.200 GPA with a 1200 or higher on the SAT or a 27 or higher on the ACT. For current admission criteria, contact the CSU Office of Admissions. New freshmen admitted to CSU but not directly to the College of Business will be admitted as “Undeclared Business Interest” and must meet the requirements below. To be eligible for admission to the College, CSU students (including Undeclared Business Interest) must have a 3.000 cumulative GPA on a minimum of 15 graded credits at Colorado State and a grade of B- or higher in ECON 202 and a grade of C- or higher in MATH 141.

External transfer students who have completed a minimum of 15 graded credits with a 3.000 cumulative GPA and a grade of B- or higher in ECON 202 and a grade of C- or higher in MATH 141. External transfer students who do not meet the above criteria will be admitted to Undeclared and must complete the requirements stated above.

To Prepare for First Semester: The Curriculum for the Business Administration-Marketing concentration assumes students will be able to successfully complete calculus within the first year.

The College of Business requires a minimum grade point average of 2.000 in business and economics courses as a graduation requirement.

Certificate in Business-To-Business Selling

The Business-to-Business Selling certificate provides an opportunity to develop significant knowledge and experience in addressing business customers’ needs and building long-term mutually beneficial relationships. Learn about approaches for attracting customers, planning for and conducting meetings with business customers, managing a sales force, designing channels of distribution, and developing marketing strategies. This certificate may provide career advancement opportunities within selling, sales management, and business-to-business marketing.

Requirements
Effective Fall 2020

Additional coursework may be required due to prerequisites.

Program Total Credits: 9

Certificate in Customer Experience Management

The Customer Experience Management certificate provides management skills and strategic insights for providing consumers with satisfying experiences across a cross-section of markets, including retailing, hospitality, and entertainment. Customers’ experiences often extend into online contexts. This certificate will provide an understanding of digital tools used to attract customers and address their needs for information and online services.

Requirements
Effective Summer 2016

Additional coursework may be required due to prerequisites.
