Prerequisite: None.
Registration Information: Graduate standing.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.
ANTH 547  Mind, Medicine, and Culture  Credits: 4 (3-2-0)
Course Description: Cultural-psychological influences on health and healing; mind-body medicine; complementary and alternative medicine; indigenous and spiritual healing.
Prerequisite: None.
Registration Information: Graduate standing.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.

ANTH 548  Theoretical Topics in Cultural Anthropology  Credits: 3 (3-0-0)
Course Description: Major theoretical currents in cultural anthropology from the 19th-century to the present. Classical theory alongside contemporary texts that revise or revisit early works. Focus on some major theories and themes that are important in cultural anthropology since the 1960s.
Prerequisite: None.
Restriction: Must be a: Graduate.
Registration Information: Graduate standing.
Term Offered: Fall (even years).
Grade Mode: Traditional.
Special Course Fee: No.

ANTH 550A  Regional Prehistory: Great Plains  Credits: 3 (0-0-3)
Course Description: Prerequisite: ANTH 350.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ANTH 550B  Regional Prehistory: Great Basin  Credits: 3 (0-0-3)
Course Description: Prerequisite: ANTH 350.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

ANTH 550C  Regional Prehistory: Southwestern  Credits: 3 (0-0-3)
Course Description: Prerequisite: ANTH - at least 9 credits.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.

ANTH 551  Historical Archaeology  Credits: 3 (3-0-0)
Course Description: Theory, methods, and issues in historical archaeology.
Prerequisite: None.
Restriction: Must not be a: Undergraduate.
Registration Information: Graduate standing.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

ANTH 552  Geoarchaeology  Credits: 3 (3-0-0)
Course Description: Application of analytical techniques, concepts, and field methods drawn from the earth sciences to help solve archaeological problems. Issues explored include human and environmental processes involved in archaeological site formation, the sedimentary context of archaeological remains, soils and sediments relevant to archaeology, the relationship between past settlement and landscape evolution, paleoclimatic reconstruction, and human effects on the environment.
Prerequisite: None.
Restriction: Must be a: Graduate.
Registration Information: Graduate standing. Required field trips.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ANTH 553  Archaeology of Complex Societies  Credits: 3 (0-0-3)
Course Description: Issues in development and organization of complex societies with emphasis on the Americas.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Graduate standing.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.

ANTH 554  Ecological and Social Agent-based Modeling  Credits: 3 (2-2-0)
Also Offered As: NR 554.
Course Description: Exploring the use and making of agent-based models featuring interacting individuals in ecological and social simulation, with examples and projects.
Prerequisite: None.
Restriction: 
Registration Information: Junior or senior standing. Credit not allowed for both ANTH 554 and NR 554.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

ANTH 555  Paleoindian Archaeology  Credits: 3 (0-0-3)
Course Description: Archaeology of the Americas during late Pleistocene/early Holocene; background and development of contemporary models.
Prerequisite: ANTH 140.
Term Offered: Fall (even years).
Grade Mode: Traditional.
Special Course Fee: No.

ANTH 556  Field Methods Training in Online Environments  Credits: 3 (2-2-0)
Course Description: Collaborative analysis of ethnographic field data collected in online virtual worlds; mixed methods applicable to other built and natural places.
Prerequisite: None.
Registration Information: Graduate standing.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.
ANTH 570 Contemporary Issues—Biological Anthropology Credits: 3 (0-0-3)
Course Description: Theory and applications in biological anthropology focusing on syntheses and interpretations of human biology, variation, adaptability, and evolution.
Prerequisite: None.
Registration Information: Six credits in biological anthropology.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ANTH 571 Anthropology and Global Health Credits: 3 (3-0-0)
Course Description: Global health concerns and problems including poverty, urbanization, malnutrition, diet, war and refugees, climate, and environment.
Prerequisite: None.
Restriction: Must not be a: Undergraduate.
Registration Information: Graduate standing.
Term Offered: Fall (even years).
Grade Mode: Traditional.
Special Course Fee: No.

ANTH 572 Human Origins Credits: 3 (0-0-3)
Course Description: Major trends in human evolution through use of detailed case studies and regionally focused primary research.
Prerequisite: None.
Restriction: Must not be a: Undergraduate.
Registration Information: Graduate standing.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

ANTH 573 Paleoclimate and Human Evolution Credits: 3 (3-0-0)
Course Description: Methods used to reconstruct past environments and understand the effects of past climate on the major trends of human evolution.
Prerequisite: None.
Registration Information: Graduate standing.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.

ANTH 617 Place, Space and Adaptation Credits: 3 (3-0-0)
Course Description: Critical evaluation of the nexus between space, society and environment. An interdisciplinary approach to studying the ways biological, material, historical, political-economic and cultural processes combine to shape human-environment relationships in place-based contexts.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ANTH 650 Edge Effects--Place, Embodiment, Environment Credits: 3 (3-0-0)
Also Offered As: ESS 650.
Course Description: Interdisciplinary thinking on questions of place, power, embodiment, and environmental adaptation. Drawing on human geography, ethnography, political ecology, and social-ecological theory, develop an understanding of boundaries and transitional zones as places of complex social and species exchange by looking at some key philosophical texts, but also applying theoretical understanding to specific case studies.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Credit not allowed for both ANTH 650 and ESS 650.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.

ANTH 660 Field Archaeology Credits: Var[2-10] (0-0-0)
Course Description: Field applications of nondestructive survey methods, advanced cartographic and excavation methods, project supervision skills.
Prerequisite: ANTH 460.
Restriction: Must be a: Graduate, Professional.
Registration Information: Two seasons of field experience may substitute for ANTH 460. Required field trips.
Terms Offered: Fall, Summer.
Grade Mode: Instructor Option.
Special Course Fee: Yes.

ANTH 674 Research Design and Analysis in Anthropology Credits: 3 (3-0-0)
Course Description: Learn how to formulate anthropological research questions, design a research project, organize and analyze data, and visualize and interpret results.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Term Offered: Fall (even years).
Grade Mode: Traditional.
Special Course Fee: No.

ANTH 679 Applications of International Development Credits: 3 (3-0-0)
Also Offered As: IE 679.
Course Description: In-depth interdisciplinary analysis of theoretical and practical issues in implementing economic and community-based international development programs.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Graduate standing. Credit not allowed for both ANTH 679 and IE 679.
Terms Offered: Fall, Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

ANTH 684 Supervised College Teaching Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.
ANTH 686  Practicum-Field Archaeology  Credits: Var[1-18] (0-0-0)
Course Description: Direction of anthropological fieldwork under professional supervision.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ANTH 692  Seminar  Credits: 3 (0-0-3)
Course Description: Current trends of research in archaeology; cultural and physical anthropology.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring.
Grade Mode: Instructor Option.
Special Course Fee: No.

ANTH 695  Independent Study  Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Graduate cooperative program, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ANTH 696  Group Study-Anthropological Theory  Credits: Var[1-3] (0-0-0)
Course Description: Intensive analysis of selected topics and theories in anthropology, both historical and contemporary.
Prerequisite: None.
Restriction: Must be a: Graduate, Graduate cooperative program, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ANTH 699  Thesis  Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ANTH 792  Special Topics in Anthropology  Credits: 3 (0-0-3)
Course Description: A seminar course offering special topics each time the course is taught. Recent readings from the literature will be used to foster discussion.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Grade Mode: Traditional.
Special Course Fee: No.

ANTH 795  Independent Study  Credits: Var[1-6] (0-0-0)
Course Description: 
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ANTH 799  Dissertation  Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

Geography (GR)

GR 100  Introduction to Geography (GT-SS2)  Credits: 3 (3-0-0)
Course Description: Major geographic themes applied to selected regions; physical environment, human-land relationships, regional analysis.
Prerequisite: None.
Registration Information: Sections may be offered: Online.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

GR 102  Geography of Europe and the Americas (GT-SS2)  Credits: 3 (3-0-0)
Course Description: Examines the physical and human geographies of Europe, including the former Soviet Union, and the Americas from the Southern Cone to Canada. Focus is on the content of these geographies, why they exist, and their current significance; supported by extensive map analysis.
Prerequisite: None.
Registration Information: Credit not allowed for both GR 102 and GR 180A1.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

GR 204  Sustainable Watersheds (GT-SC2)  Credits: 3 (3-0-0)
Also Offered As: WR 204.
Course Description: Effects of climate, land use, and water use on the sustainability of water quantity and quality.
Prerequisite: None.
Registration Information: Credit allowed for only one of the following: GR 204, GR 304, WR 204 or WR 304.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

GR 210  Physical Geography  Credits: 3 (3-0-0)
Also Offered As: ESS 210.
Course Description: Energy, mass budget, and human impacts on atmosphere, hydrosphere, and continental land surfaces.
Prerequisite: None.
Registration Information: Credit not allowed for both GR 210 and ESS 210.
Term Offered: Fall (even years).
Grade Mode: Traditional.
Special Course Fee: No.
GR 213 Climate Migrants Credits: 3 (3-0-0)
Course Description: Explore the various drivers of migration, emphasizing climate and others including biogeographic, political, economic, and social factors.
Prerequisite: None.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

GR 220 Mapping, Cartography, and Spatial Thinking Credits: 3 (2-2-0)
Course Description: Spatial thinking is the science and art of making maps that play a key role in enabling geographers to visualize space and spatial patterns, as well as, convey spatial information to others. Introduction to the science of spatial thinking, including collecting spatial information and making maps, modern geographic information sciences (GIS) that have evolved from cartography, and spatial analysis techniques that are fundamental to Geography.
Prerequisite: None.
Registration Information: Must register for lecture and laboratory.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

GR 303 Mountain Geography Credits: 3 (3-0-0)
Course Description: The physical and human dimensions of mountains. Examples from mountains around the world with case studies from Colorado.
Prerequisite: GR 100 to 499 - at least 3 credits.
Registration Information: Junior standing.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

GR 305 Geography of Global Health Credits: 3 (3-0-0)
Course Description: Study, research and practice of global health using an ecological approach that integrates health with spatial thinking. Focuses on a common set of issues which transcends boundaries, both domestic and international, and a set of actions to address the geographic burden of disease. Key principles and concepts, history of global health transitions, common and emerging health issues.
Prerequisite: ANTH 200 or GR 100 or INST 200.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.

GR 311 GIS for Social Scientists Credits: 3 (1-4-0)
Course Description: Applications of GIS techniques useful to the social sciences. Mapping techniques and GIS toolkits are practiced in lab.
Prerequisite: GR 100.
Registration Information: Sections may be offered: Online.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

GR 315 Quantitative Geographical Methods Credits: 3 (3-0-0)
Course Description: Methods to collect, analyze, display, and model geographic data.
Prerequisite: GR 100.
Term Offered: Fall (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

GR 320 Cultural Geography Credits: 3 (3-0-0)
Course Description: Geographic analysis of cultural phenomena, elements emphasizing human-land relationships and spatial patterns of agriculture, cities, language, religion.
Prerequisite: GR 100.
Registration Information: Sections may be offered: Online.
Term Offered: Fall (odd years).
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

GR 323 Remote Sensing and Image Interpretation Credits: 3 (2-2-0)
Also Offered As: NR 323.
Course Description: Remote sensing systems and applications; characteristics of photographic, scanner and radar images; imagery interpretations.
Prerequisite: None.
Registration Information: Must register for lecture and laboratory. Credit allowed for only one of the following: GR 323, GR 503, NR 323, NR 503.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

GR 330 Urban Geography Credits: 3 (3-0-0)
Course Description: Spatial distribution of urban areas and the geographic similarities and contrasts that exist between and within them.
Prerequisite: GR 100.
Registration Information: Sections may be offered: Online.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

GR 331 Geography of Farming Systems Credits: 3 (3-0-0)
Course Description: Geographic analysis of farming systems worldwide and by region; their development over time, human-land relationships, and spatial patterns.
Prerequisite: GR 100.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

GR 333 Glaciers and Climate Change Credits: 3 (3-0-0)
Course Description: Glacier mass balance, dynamics, past fluctuations, and glaciers’ relation to climate change.
Prerequisite: GR 100 or GR 210 or GEOL 120 or GEOL 122 or GEOL 124 or GEOL 150.
Registration Information: Credit allowed for only one of the following: GEOL 381A2, GR 333 and GR 381A2.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

GR 345 Geography of Hazards Credits: 3 (3-0-0)
Course Description: Causes, effects, distributional patterns, and human adjustments to environmental hazards.
Prerequisite: GR 210.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.
GR 348 Biogeography Credits: 3 (3-0-0)
Course Description: Species distribution of plants and animals in relation to earth history and environments, evolution, and ecology.
Prerequisite: GR 000 to 99999 - at least 3 credits.
Terms Offered: Traditional.
Grade Mode: Traditional.
Special Course Fee: No.

GR 400 History of Theory-Anthropology and Geography Credits: 3 (3-0-0)
Also Offered As: ANTH 400.
Course Description: Anthropological/Geographical theory from its beginnings with Aristotle through recent developments into the 20th century.
Prerequisite: (ANTH 100 or ANTH 200) and (ANTH 120 and ANTH 121 and ANTH 140 or GR 100).
Registration Information: Junior or senior standing. Sections may be offered: Online. Credit not allowed for both ANTH 400 and GR 400.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

GR 410 Climate Change: Science, Policy, Implications Credits: 3 (3-0-0)
Course Description: Implications and consequences for earth systems including the cryosphere, hydrosphere, biosphere, and human systems.
Prerequisite: GR 100 to 499 - at least 3 credits.
Registration Information: Junior standing.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

GR 415 The Geography of Commodities Credits: 3 (3-0-0)
Course Description: Social relations, international trade, and environmental impacts surrounding the production, transportation, exchange, and consumption of commodities.
Prerequisite: GR 100.
Registration Information: Junior standing.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.

GR 420 Spatial Analysis with GIS Credits: 4 (3-2-0)
Course Description: Theory, application of geographic information systems for spatial analysis; conceptual basis of GIS, nature and use of geographic data, case studies.
Prerequisite: GR 000 to 99999 - at least 3 credits.
Registration Information: Credit not allowed for both GR 420 and NR 322.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

GR 430 Land Change Science and Remote Sensing Credits: 3 (3-0-0)
Course Description: Local case studies and global cases of land-use/land-cover changes in rural, peri-urban, and urban areas.
Prerequisite: GR 100.
Registration Information: Junior standing.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.

GR 431 Land Change Science Lab Credit: 1 (0-3-0)
Course Description: Utilize advanced remote sensing techniques and satellite images, air photos, and ancillary data to investigate land-use and land-cover changes.
Prerequisite: GR 323 or NR 323 or GR 503 or NR 503.
Registration Information: Must have concurrent registration in GR 430.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.

GR 440 Political Geography Credits: 3 (3-0-0)
Also Offered As: POLS 440.
Course Description: Examines the meaning of political space; states and nations; competition for territory, including methods and justifications; the structure of political space focusing on states; geopolitics; and the state in an era of globalization. Concepts are illustrated by real-world situations.
Prerequisite: GR 100 or POLS 101.
Registration Information: Sophomore standing. Sections may be offered: Online or Mixed Face-to-Face. Credit not allowed for both GR 440 and POLS 440.
Grade Mode: Traditional.
Special Course Fee: No.

GR 448 Forest Biogeography and Climate Change Credits: 3 (3-0-0)
Course Description: Forest adaptation and conservation in relation to global change with a focus on climate change.
Prerequisite: ESS 211 or ESS 311 or F 311 or GR 100 or GR 210 or ESS 210 or GR 303 or GR 348 or GR 410.
Registration Information: Junior standing.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

GR 482A Study Abroad--Vietnam: Land Change Science and Remote Sensing Credits: 3 (0-0-3)
Course Description: Vietnam specific local case studies of land-use/land-cover changes in rural, peri-urban, and urban areas. Integrate these local cases as examples that relate to global cases looking at the drivers of land-use/land-cover changes. The broader implications of these changes are discussed, and examples of these implications are witnessed through field visits.
Prerequisite: GR 100.
Registration Information: Sophomore standing. Credit not allowed for both GR 430 and GR 482A.
Term Offered: Summer.
Grade Mode: Traditional.
Special Course Fee: No.

GR 487 Internship Credits: Var[1-9] (0-0-0)
Course Description: Academic-based work experience with selected organizations or agencies. Supervised application of principles of geography.
Prerequisite: GR 100 to 499 - at least 9 credits.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.
Major in Anthropology

The mission of the Department of Anthropology and Geography is to:

1) offer and maintain instructional programs that provide a comprehensive overview and analyses of people and their cultures, both past and present;

2) conduct research in order to advance and expand knowledge of the fields of anthropology and geography;

3) participate actively in programs of interdisciplinary research.

The Department of Anthropology and Geography houses a faculty of cultural anthropologists, archaeologists, biological anthropologists, and geographers whose scholarship spans the breadth of the human experience. The program prepares undergraduate students to describe, analyze, and interpret the human condition. An examination of the social, environmental, and evolutionary contexts in which the human species is embedded defines most course work in the discipline. The program is integrative, drawing from geography, biology, the humanities, and other social and natural sciences. Geography figures prominently in our program and provides an important spatial lens through which human groups are examined over time. Four programmatic areas define faculty research and scholarship with which students can engage: humans and the environment, international development and globalization, health and well-being, and professional methods and techniques. In the education of undergraduates, the department values and promotes experiential training, primary research as well as public engagement and education.

The research endeavors of the anthropology faculty are trans-disciplinary and international. They are interested in diverse topics including but not limited to contemporary culture, ethnicity, linguistics, comparative religion, virtual worlds, subsistence patterns, archaeology, human ecology, human anatomy, human evolution, biogeography, land cover/land use patterns, and the behavior of non-human primates.

Anthropology majors follow a liberal arts curriculum that provides a broad education with an emphasis on learning how to learn. The department has ten research and teaching laboratories and three summer field schools; the Ethnographic Field School, the Archaeology Field School, and the Paleontology Field School.

Undergraduate students can pursue a general anthropology degree focused on an appreciation human diversity, past and present, from a broad and holistic perspective. Students can also declare a concentration within the program. Declaring a concentration allows for a focused course of study, specializing in the particular subfield of interest. Within each concentration (Archaeology, Biological Anthropology, and Cultural Anthropology), specific categories of classes guide students in learning the major theories, methods, and applications related to the modern practice of our discipline. Along with our offerings of world class field schools, course work in archaeological, biological, and ethnographic methods and geographical techniques are encouraged in order to further gain experience and perspective. Upon graduation, students are prepared for a diverse array of jobs or advanced training in graduate school. Students come away with a respect and appreciation for the diversity of human existence.

Learning Outcomes

Students will:

- Employ anthropological theory and qualitative/quantitative research methods to describe and analyze human biological and cultural variation over time and across space.
- Describe and evaluate the inter-relationships between environments, health and well-being, and human cultural and biological evolution.
- Synthesize anthropological theory, methods, and data to formulate arguments both orally and in written format.
- Articulate anthropology to non-specialists and explain anthropological concepts across subfields and/or with other social sciences and humanities disciplines.
- Transfer knowledge gained in anthropology program to a career trajectory after graduation.
### Potential Occupations

Anthropology, like many majors in the liberal arts, provides students with a broad academic background suitable for a variety of jobs in the public and private sectors. Anthropology majors are trained to think independently and critically, communicate effectively, and function in a multicultural world. Employers appreciate liberal arts majors for their multiple skills and their ability to adapt to a variety of tasks and work environments. Participating in internships and cooperative education opportunities is highly recommended to enhance students' practical training and development. Careers for graduates are available in international development, health care, education, business, natural resource management, and government. Graduates who go on for advanced studies can pursue careers in anthropology or attain advanced positions with the possibility of rising to top professional levels.

Some career opportunities for Anthropology graduates include, but are not limited to: museum curator/researcher, genealogist, international relief representative, salvage archaeologist, collections assistant, resource specialist, classical or historical anthropologist, cultural affairs officer, diplomatic service representative, immigration or foreign service officer, linguist, educational television researcher, forensic osteologist, biographical writer, scientific/technical writer, reporter, ethnographic photographer, anthropological linguist, rural development worker, ethnic groups' special concerns advocate, intercultural educator, medical anthropologist, grant writer, psychological anthropologist, international development administrator, public relations representative, public opinion pollster, sales/marketing representative, consultant for cross-cultural relations, personnel worker, geographic information systems specialist.

1 ANTH 493 must be taken concurrently with one of the AUCC 4A anthropology courses listed with ANTH 493 in the senior year. Using Competencies (AUCC 4A) must be taken concurrently with ANTH 493. Courses approved for AUCC category 4A taken in the sophomore, junior, or senior year and not concurrently with ANTH 493 and not included in the approved list in the program will not count toward completion of the 4A requirement for this major. Students taking Senior Honors Thesis (HONR 499, 3 credits) are also required to register for ANTH 493 (1 credit).

2 Select enough elective credits to bring the program total to a minimum of 120 credits, of which at least 42 must be upper-division (300- to 400-level).

**Major in Anthropology, Archaeology Concentration**

The Archaeology concentration focuses on the Americas, and includes prehistoric and historic archaeology. The faculty members of this sub-discipline have expertise in:

- Rocky Mountain and Plains archaeology
- Paleo-Indian studies
- Hunter-gatherer ecology
- Taphonomy
- Zooarchaeology
- Public archaeology
- Andean archaeology
- Inca and Spanish empires
- Mining communities
- Mesoamerican archaeology
- Landscape archaeology
- Geoarchaeology
- Legacies of Resilience Project (LORE-LPG)

Special resources include the Center for Mountain and Plains Archaeology, the MesoAmerican lab, the Center for Archaeogeophysics and Geoarchaeology, and the Cultural Resources section of the Center for the Ecological Study of Military Lands. The archaeology program sponsors an annual field school each summer and houses the CSU Archaeological Repository.

1 ANTH 493 must be taken concurrently with one of the AUCC 4A cultural anthropology courses listed with ANTH 493 in the senior year. Using Competencies (AUCC 4A) must be taken concurrently with ANTH 493. Courses approved for AUCC category 4A taken in the sophomore, junior, or senior year and not concurrently with ANTH 493 and not included in the approved list in the program will not count toward completion of the 4A requirement for this major. Students taking Senior Honors Thesis (HONR 499, 3 credits) also are required to register for ANTH 493 (1 credit).

2 Select enough elective credits to bring the program total to a minimum of 120 credits, of which at least 42 must be upper-division (300 to 400-level).

Major in Anthropology, Biological Anthropology Concentration

Over the past half century, Biological Anthropology has undergone tremendous change from a discipline that was defined by a descriptive, typological approach to human morphology (the study of shape) to one that includes both experimental and comparative analyses in a population-based framework.

Biological anthropologists continue to cross traditional disciplinary boundaries and interact with both the physical and natural sciences including biology, anatomy, genetics, chemistry, biometry, and endocrinology as well as the social sciences.

The expertise of existing faculty in Biological Anthropology at CSU includes:

- Human skeletal biology
- Forensic anthropology
- Evolutionary theory
- Neanderthal paleobiology and paleobiogeography
- Dental anthropology

Early hominin feeding ecology
Taphonomy
Plio-Pleistocene Africa
Pleistocene Asia
Primate origins, biology, and locomotion

Two broad themes exist within biological anthropology. The first emphasizes evolutionary theory and morphological transformations, and the second is concerned with adaptations that are the product of the interaction between human biology and culture. Current faculty research addresses both of these themes.

Special resources include the Bone Lab, the Zooarchaeology Lab, the Human Osteology Lab, the 3-D Imaging and Analysis lab, and the Primate Origins lab. The biological anthropology program sponsors an annual paleontology field school each summer in Wyoming. Existing faculty also have geographic foci significant to their research. Research areas include Uzbekistan, Kazakhstan, Croatia, Kenya, and Tanzania.

### Major in Anthropology, Cultural Anthropology Concentration

The Cultural Anthropology concentration focuses on contemporary experiences of culturally distinct communities encountering a rapidly globalizing political economy. Students are provided with robust training in mixed methods, community-based approaches, and applied anthropology. Topically, faculty investigate issues related to the transformation of individual experience and community relations within the context of economic development, governmental and nongovernmental policy, and environmental change. Increasingly, faculty seek to understand the way subjective and material well-being are impacted by the rapidly changing contexts of modernity. Topics of research interest include:

- Human-environment interactions
- Community and economic development
- Health and well-being
- Cultural psychiatry
- Disasters and resilience
- Gender
- Culture continuity and change

The faculty are passionate about teaching, and they strive to bring excitement and relevance to the classroom by infusing it with their practical field experiences. Cultural faculty conduct their research in India, Southeast Asia, Central Asia, Africa, the Caribbean, New Orleans, Native North America, and in virtual reality. Students concentrating in Cultural Anthropology explore issues of place and space, cultural theory, cultural content and methods.

Program Total Credits: 120

1 Content for courses should be discussed with advisor for credit to count towards category.
2 ANTH 493 must be taken concurrently with one of the AUCC 4A cultural anthropology courses listed with ANTH 493 in the senior year. Using Competencies (AUCC 4A) must be taken concurrently with ANTH 493 Capstone Seminar. Courses approved for AUCC category 4A taken in the sophomore, junior, or senior year and not concurrently with ANTH 493 and not included in the approved list in the program will not count toward completion of the 4A requirement for this major. Students taking Senior Honors Thesis (HONR 499) (3 credits) also are required to register for ANTH 493 (1 credit).
3 Select enough elective credits to bring program total to a minimum of 120 credits, of which at least 42 must be upper division (300- to 400-level).

Minor in Anthropology

Anthropology focuses on the evolution of the human condition and provides a cross-cultural view of humanity. The description and explanation of human activities in other societies and during different periods of time provides a sense of perspective for individuals operating within their own culture. A minor may be focused on one or more of the sub-disciplinary divisions such as biology, archaeology, cultural anthropology, or applied anthropology. The minor may also be distributed across the fields, similar to the requirements of the major.

To declare this minor, please visit Clark B 218.

Requirements

Effective Fall 2001

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

Major in Geography

The Geography major is housed in the Department of Anthropology and Geography. Through coursework and internship opportunities, majors are provided with a broad background in geographic thinking. The major emphasizes interactions between humans and the environment in an era of rapid global change. Critical study of diverse relationships between space, place, humans, built and natural environments allows students to interpret geographic features, patterns and processes.

The Geography curriculum also concentrates specifically on mountain ecosystems and human-environment interactions. Coursework takes advantage of faculty expertise in these areas of study, some of which are specific to the state of Colorado. Geography faculty use a wide range of research methods, including geographic information systems (GIS), remote sensing, spatial modeling, spatial statistics, participatory methods and ethnography to address applied research questions in Colorado, the Rocky Mountains, Patagonia, Southeast Asia, Latin America, Melanesia, and Africa. Undergraduate majors can expect to gain knowledge of and/or participate in faculty research related to:

1. Climate change implications for society and ecosystems
2. Land-use and land-cover change
3. Critical human geography
4. Critical Health geographies
5. Biogeography
6. Livelihood systems
7. Conservation
8. Cultural geography
9. Urban geography
10. Economic geography
11. Political/electoral geography
12. Geography of virtual worlds

The Geography major is built on the core values the Department of Anthropology and Geography promotes. These values emphasize experiential training, primary research, public engagement, and education.

Learning Outcomes:

Students will demonstrate:

1. Mastery of the unifying themes of human and physical geography, as well as knowledge of the diverse conceptual and methodological approaches present in the discipline of geography.
2. The ability to identify, describe, and interpret spatial patterns and structures.
3. A critical understanding of relationships between humans and the environment, with a specific focus on mountain systems and local cultures.
4. An ability to present geographic concepts, approaches, methodologies, and applications in written, oral, cartographic, and other visual forms.
5. An understanding of the discipline's relevance to everyday life.
6. An ability to communicate effectively and respectfully, including critical thinking and discussion skills.

Potential Occupations:

Like many other majors in Liberal Arts, the Geography major provides students with a broad academic background suitable for a variety of jobs in the public and private sectors. Geography majors are trained to think independently and critically, communicate effectively, and function in a multicultural world. Careers for graduates vary depending upon your focus in Geography. Geographers often work in international development, Foreign Service, education, conservation/natural resource management, urban and regional planning, data analysis, data management, GIS analyst, marketing, and business. Graduates who go on to advanced studies can pursue academic careers in geography.

Minor in Geography

The minor in Geography examines the critical interactions among space, place, people and the built and natural environment. These perspectives are used to interpret the spatial and temporal distribution of features and processes by applying spatial techniques and information technologies such as Geographic Information Systems (GIS) and remote sensing.

Requirements
Effective Fall 2019

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

Earning a Certificate in Museum and Cultural Heritage Studies prepares students for entry-level careers in museums, cultural heritage sites, and similar venues that promote public outreach and education, and provides a solid foundation for students who wish to pursue advanced studies in the field of museum studies. Core courses introduce students to the history of museum and cultural heritage management, administration, curation, artifact handling, collections management, interpretive planning, exhibitions, education, ethics, and working with indigenous communities.

Requirements
Effective Fall 2020

Courses used to satisfy requirements outside this certificate cannot count toward completing this certificate. If using a course toward major/concentration/minor/honors requirements, the student must take a different course for this certificate.

Additional coursework may be required due to prerequisites.

1 Must be museum or cultural heritage related.

Master of Arts in Anthropology

The Master of Arts in Anthropology at CSU prepares our students for entrance into a Ph.D program and for non-academic careers. The program builds on the diverse research interests of our faculty who specialize in cultural anthropology, archaeology, and biological anthropology as well as human and physical geography. The program options include writing a thesis or developing a portfolio as the principle demonstration of their preparedness for further study or professional work.

Students who are conferred an M.A. from the CSU Anthropology Department will:
1. Demonstrate an understanding of anthropological theory and method and how to apply them appropriately.
2. Be able to engage in independent research that addresses academic questions or societal challenges.
3. Demonstrate awareness of and respect for human diversity across space and time.
4. Possess the academic background and skills to enter a Ph.D program in anthropology or a job related to the discipline.

Requirements

Effective Fall 2020

Plan A

The thesis option must consist of a minimum of 30 semester credits of course work concentrated in anthropological areas relevant to the participant's professional goals. The thesis is the culmination of a research project carried out by the student under the guidance of his or her advisor. A final examination consists of a defense of the thesis, as well as other parts of the program of study.

Plan B

The non-thesis option is intended for students seeking development of an understanding of Anthropology which will allow them to move on to a PhD program in Anthropology, or be incorporated in their work. Plan B students are expected to take a more broadly distributed series of courses and to show less specialization than that which characterizes Plan A programs of study.

Requirements for Plan B are a minimum of 35 credits of study. Students must complete a portfolio of work demonstrating both the breadth of their understanding of Anthropology and their own area of specialization, selected in consultation with the student’s advisor. A final examination consists of a defense of the portfolio, as well as other parts of the program of study.

Methods Course

Select one methods course integrated with the student’s program of study in consultation with advisor. 3-4

Electives

Select at least three credits in a 500 - 700 level anthropology course outside the student’s subfield of specialization (archaeology, socio-cultural or biological anthropology) in consultation with advisor. 3

Select at least six credits from departments outside of Anthropology in consultation with advisor. The courses should be integrated with the student’s program of study. 6

Elective Courses - Select from 9 to 17 credits in courses integrated with the student’s program of study in consultation with advisor. 9-17

Additional Credits for Independent Study or Thesis Work 1-6

Program Total Credits: 30-35

- A minimum of 18 hours of regular course work in Anthropology is required. This excludes independent study.
- A maximum of six credits of ANTH 695 allowed towards graduation under the Plan A option. A minimum of 3 credits of ANTH 695 is required toward graduation under the Plan B option.
- A maximum of six credits of ANTH 699 will be allowed towards graduation under Plan A. No credits of ANTH 699 allowed toward graduation under the Plan B option.

Master of Arts in Anthropology, The Anthropology of Health and Well-Being Specialization

The Master of Arts in Anthropology, the Anthropology of Health and Well-Being Specialization studies the ways human health and wellness are influenced by past and present sociocultural, environmental, biological, and biocultural forces by drawing from broad and holistic perspectives on human well-being.

Master of Arts in Anthropology, International Development Specialization

The Master of Arts in Anthropology, International Development Specialization examines how local societies respond to global influences and the extent to which cultural meanings, beliefs, institutions, structures of inequality, and social relations between genders and among kin are changing as a result. This specialization also explores how economic and community development processes can improve basic aspects of human welfare.

A minimum of 35 credits are required to complete this program.

1. Two credits of independent study are intended to prepare for formal professional presentation of the student's development portfolio at a culmination event in the student's last semester.
2. Select from departmental list.
3. This course is taught by correspondence only.
4. At least two courses within Social Sciences and/or Area Studies must be ANTH.
5. Courses listed here constitute a partial list. Other courses may be used with approval of advisor and committee. See department list for most up-to-date course list.
6. Select any upper division (300-level or above) or graduate level language course in consultation with advisor and committee.

Students must complete the minimum number of credits specified in the official program of study as approved by the University Curriculum Committee, and all credit requirements specified in the Graduate and Professional Bulletin for their degree.

**Master of Arts in Anthropology, Professional Methods and Techniques Specialization**

The Master of Arts in Anthropology, Professional Methods and Techniques Specialization develops skills in a wide range of methods and techniques used by professionals in applied anthropology, federal, and state natural resource agencies, and other arenas of social, historical, biological, and spatial research about humans. These include qualitative research and interview protocols, quantitative analysis, GIS and remote sensing, archaeological field survey, historic archaeological methods, culture and heritage resource management, and paleoanthropological methods.

### Ph.D. in Anthropology

The Ph.D. in Anthropology at CSU supports advanced coursework and research with a focus on place, space, and adaptation. Students achieve this perspective on the discipline by engaging with a curriculum infused with geographic methods and approaches. This program provides students with the skills and expertise to address research questions that 1) sit at the intersection of anthropology and geography, 2) apply geographic methods to anthropological questions, and 3) critically evaluate the impact of place and space on human/ecosystem adaptation.

Master's Degree Credit (a maximum of 30 credits may be accepted from a master's degree)  30

Program Total Credits:  72

A minimum of 72 credits are required to complete this program.

Most students entering the Ph.D. program in anthropology will bring in 30 credits from a Master's program in a related field. The above curriculum represents a total of 42 credits beyond the Master's level. If a prospective student has less than 30 credits toward the program, an individualized curriculum plan will be developed by working with primary advisor that will cover possible anthropology deficiencies.

CSU features a well-rounded curriculum integrating breadth of experience with depth of knowledge. Students develop both creative and critical thinking skills as they experiment with contemporary and traditional art making processes in a very active studio environment. In addition to essential liberal arts coursework, Art majors will be enrolled in studio, art history, or art education classes as they progress through their specific program of study. On-site advisors are available to help students navigate the many options offered by the Department of Art and Art History

Course Description: Photographic imagery as an art medium; exploration of silver-based (film) materials.
Prerequisite: ART 111 and ART 136 and ART 160 and ART 170.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ART 235  Intermediate Drawing I  Credits: 3 (0-6-0)
Course Description: Drawing using models and various still life material.
Prerequisite: ART 136.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.
ART 240 Pottery I Credits: 3 (0-6-0)
Course Description: Basic techniques of studio ceramics and wheel throwing; exploration of expressive potential in pottery.
Prerequisite: ART 111 and ART 136 and ART 160 and ART 170.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: Yes.

ART 245 Metallurgy and Jewelry I Credits: 3 (0-6-0)
Course Description: Basic metal techniques; forming and construction; surface treatment and finishing processes; behavior and mechanical properties of metals.
Prerequisite: ART 111 and ART 136 and ART 160 and ART 170.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: Yes.

ART 250 Fibers I Credits: 3 (0-6-0)
Course Description: Fibers and fabric as expressive media; weaving and basic fiber structures; fabric painting and surface techniques.
Prerequisite: ART 110 and ART 135 and (ART 160 or ART 170).
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: Yes.

ART 253 Digital Fabrication Credits: 3 (0-6-0)
Course Description: Practical and technical skills within a historical and theoretical context for using computers, in combination with traditional and analog fabrication processes, to shape physical materials and make creative works. Introduces 3D Computer Aided Design (CAD), Computer Aided Machining (CAM), and Computer Numeric Controlled (CNC) Machining including 3D printing, Laser Cutting, and CNC Routing/Milling.
Prerequisite: ART 110 or ART 135 or ART 136 or ART 160 or ART 170.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: Yes.

ART 255 Introduction to Graphic Design Credits: 3 (0-6-0)
Course Description: Problems emphasizing typography, layout, symbols, illustration, and package design.

Major in Art, B.F.A.

Throughout history, art has been a fundamental language of the human spirit. Visual arts express human experience through an ever-widening range of media and materials, some of which include: oils, acrylics, pastels, charcoal, clay, plaster, steel, bronze, wood, copper, litho stones, and digital media. Visual artists create abstract works and images of objects, people, nature, topography, and events. The Department of Art and Art History offers several options of study: The B.F.A. (Bachelor of Fine Arts) degree with studio concentrations in Drawing, Electronic Arts, Fibers, Graphic Design, Metalsmithing, Painting, Photo Image Making, Pottery, Printmaking, and Sculpture; and the B.F.A. degree with a concentration in Art Education. The B.A. (Bachelor of Arts) degree with concentrations in Integrated Visual Studies and Art History are all professional degrees, leading to related art careers.

Learning Outcomes

Students will demonstrate:

- Fundamental knowledge and mastery of media and processes necessary to communicate meaning in a work of art.
- Ability to communicate clearly about their own art and the art of others.
- Knowledge about contemporary art and motivation to view and discuss current local, regional, and national exhibitions. Students well versed on contemporary art would:
  a. regularly read reviews of exhibitions in local and national newspapers;
  b. regularly read art periodicals;
  c. attend multiple exhibitions; and
  d. be knowledgeable about contemporary artists in their discipline (i.e., nationally known painters, sculptors, etc.).

Potential Occupations

Art graduates possess a number of transferable communication, analytical, and critical thinking skills appropriate for work in traditional business as well as positions in academia and roles as freelance artists, graphic designers, art educators, art historians, studio fine artists and as “creatives” in government and industry. Many employers appreciate art majors for their multiple skills and their ability to adapt to a variety of tasks and work environments. Participation in internships, cooperative education, and service learning opportunities is highly recommended to enhance practical training and development. Graduates who go on for advanced studies can attain more responsible positions with the possibility of rising to top professional levels.

Depending on student interests, the electives taken, or the concentration selected, available career choices include, but are not limited to: art appraiser, art director, art therapist, exhibit designer, art critic, jeweler, gallery director, graphic design artist, free lance artist, sculptor, woodworker, welder, foundry worker, studio photographer, technical illustrator, painter, textile designer, weaver, art educator, art historian, art curator, art librarian, art museum educator, web page designer, photo lab technician, art restorer, and master printer.

The Department of Art and Art History offers the B.F.A. (Bachelor of Fine Arts) two options of study: The B.F.A. degree with studio concentrations in Drawing, Electronic Arts, Fibers, Graphic Design, Metalsmithing, Painting, Photo Image Making, Pottery, Printmaking, and Sculpture; and the B.F.A. degree with a concentration in Art Education. Both are considered professional degrees.

The curriculum progression in the department for the B.F.A. is similar within the concentrations and some concentrations may have restrictions. Freshmen study foundation courses in form and observation, color and composition, materials and space, and global art history.
Sophomores explore various concentration courses and become familiar with the studio practices for the concentration studios housed in separate wings that feature large, well-equipped studio spaces designed for exploration of work in a specific media. Juniors and seniors focus on advanced topics in their chosen concentration by taking one upper-division course in their chosen field each semester. Additionally, at this level art education students are engaged in pedagogical course work.

**Learning Outcomes**

Students will demonstrate:

- Fundamental knowledge and mastery of media and processes necessary to communicate meaning in a work of art.
- Ability to communicate clearly about their own art and the art of others.
- Knowledge about and be well versed in contemporary art and demonstrate the motivation to view and discuss current local, regional, and national exhibitions.

In addition to the outcomes above, students with an art education concentration will demonstrate:

- Integrate literacy, numeracy, and other disciplines while providing appropriate accommodation and differentiation strategies in the art experiences they develop for their students.
- Effectively document, analyze, and reflect on student learning and make appropriate changes for more effective instruction.
- Proficiency in all areas of the Colorado Teacher Quality Standards.

**Concentrations**

- Drawing Concentration
- Electronic Art Concentration
- Fibers Concentration
- Graphic Design Concentration
- Metallurgy Concentration
- Painting Concentration
- Photo Image Making Concentration
- Pottery Concentration
- Printmaking Concentration
- Sculpture Concentration
- Art Education Concentration

**Major in Art (B.F.A.), Art Education Concentration**

The Art Education concentration embraces the artist-teacher concept, allowing students to develop a strong studio concentration while preparing to teach art at the K-12 level. The program is comprehensive, meaning students take course work to prepare them to teach at the elementary and secondary school levels. One full semester of student teaching at both the elementary and secondary levels is preceded by in-depth field work with elementary, secondary, and exceptional populations. Students can expect practicum or service-learning experiences each semester in the program. As a result, the Art Education program enjoys good working relationships with school districts in the state of Colorado and the Gregory Allicar Museum of Art on the CSU campus—all of which host our students.

Throughout the program students engage in philosophical and theoretical studies, contemporary pedagogical practices, and arts-based research to prepare for the complexities of the K-12 art studio. Additionally, community-based and museum experiences give art education students the ability to situate their role in the context of contemporary visual and material culture.

Students interested in pursuing a teaching license through CSU may refer to the Center for Educator Preparation (CEP) (https://www.chhs.colostate.edu/soe/center-for-educator-preparation/) for general information. Art Education students must maintain a 2.750 cumulative GPA for admission to the Art Education program, eligibility for student teaching placement, and licensure.

**Requirements**

**Effective Spring 2019**

A Portfolio Review is required to be submitted for review upon completion of three ART studio courses for continuing students and upon completion of two ART studio courses for transfer students and students who have changed majors.

The Art Education concentration requires a 2.75 cumulative CSU GPA, and that students pass the PLACE exam. Admission to the Center for Educator Preparation (CEP) (http://www.cep.chhs.colostate.edu/students/teacher/admissions.aspx) is also required. Fingerprint and background check.

A minimum grade of C (2.000) or better is required in all Art and Education coursework.

### Distinctive Requirements for Degree Program
The Art Education concentration requires a 2.75 cumulative CSU GPA, and that students pass the PLACE exam. Admission to the Center for Educator Preparation (CEP) ([http://www.cep.chhs.colostate.edu/students/teacher/admissions.aspx](http://www.cep.chhs.colostate.edu/students/teacher/admissions.aspx)) is also required. Fingerprint and background check.

A minimum grade of C (2.000) or better is required in all Art and Education coursework.

### Major Completion Map

#### To declare this Concentration: A Portfolio Review is required to be submitted for review upon completion of three ART studio courses for continuing students and upon completion of two ART studio courses for transfer students and students who have changed majors.

**Major in Art (B.F.A.), Drawing Concentration**

The Drawing concentration includes a solid foundation in the basics of drawing, plus a strong emphasis on the advanced development of drawing as an art form in its own right. Initially, courses expose students to working from observation and to thinking critically about observation as an attention-orienting skill. A variety of fundamental skills, research habits, techniques, and materials are explored through basic exercises and open projects. Perception skills and visual vocabulary are introduced to students through assignments, group critiques, and discussions. Throughout the program, students are expected to acquire, develop, and refine skills and to engage in an exploration of personal expression and ideas. Drawing concentration students are expected to be highly motivated individuals dedicated to the practice of drawing as a sophisticated art, and dedicated to thinking critically about their practice.

Our program will assist them in developing their making and thinking aptitudes towards a body of work which displays an advanced level of visual challenge and aesthetics, as well as conveying a sense of content and meaning.

**Requirements**

**Effective Fall 2018**

A Portfolio Review is required to be submitted for review upon completion of three ART studio courses for continuing students and upon completion of two ART studio courses for transfer students and students who have changed majors.

A **minimum grade of C (2.000) or better is required** in ART 335, ART 336, ART 435, ART 436.

Major in Art (B.F.A.), Electronic Art Concentration

The Electronic Art concentration offers students the chance to create and critique within the context of digital methods and materials. Integrating digital media theories into their creative practice, students work with software and hardware to explore humanity's relationship with the digital realm. These explorations can include game theory, experimental video techniques, net.art, user interface, software creation, the creation of social tools, installation work, physical computing, and code within the context of visual arts. Electronic art students are also encouraged to incorporate interdisciplinary, interactive, and collaborative practices in their work.

Requirements
Effective Fall 2018

A Portfolio Review is required to be submitted for review upon completion of three ART studio courses for continuing students and upon completion of two ART studio courses for transfer students and students who have changed majors.

A minimum grade of C (2.000) or better is required in ART 357, ART 358, ART 457, ART 458.

Major in Art (B.F.A.), Fibers Concentration

The Fibers concentration fosters creativity and artistic expression in a wide variety of textile media. Students develop skills in visual communication as they investigate the language of textiles and its role in contemporary art and design. Undergraduate courses provide foundations in weaving and surface-design methods—including fabric printing, painting, dyeing, and embellishment. Classes also promote creative investigation of off-loom constructions, feltmaking, mixed media, and installation.

Studio work is enriched with research in the collections of the Gregory Allicar Museum of Art and the Avenir Museum of Design and Merchandising. Students receive guidance in professional practices as they direct their talents toward careers in art, design, and education. CSU alumni exhibit their work regionally, nationally, and internationally; teach at public and private schools, colleges, and universities; and lead workshop programs throughout the U.S. Our alumni also jury and curate exhibitions, work as designers, and write for national publications. Study abroad and internship opportunities are available. Suggested non-art electives that would enhance the major are: DM 120, AM 363, and AM 460.

Major in Art (B.F.A.), Graphic Design Concentration

The Graphic Design concentration is closely aligned with the artistry, practices, and standards of excellence in the contemporary design professions. With an emphasis on rich processes, conceptual problem-solving, and technical proficiency, students are able to create effective expressions of visual communication in a variety of print and digital media. Experimental explorations of typography, illustration, and design systems are expected from participants of the program, as well as applications of design that address social impact and awareness. Design theory, history, and professional practices are discussed regularly with faculty. Projects and activities are designed to prepare students for the varied challenges and opportunities for professionals in visual communications.

1. Select 6 credits of Upper-Division Art History Courses total, at least 3 of which must satisfy AUCC categories 4A and 4B.
2. ART 455 and ART 456 may be repeated for up to 8 credits each; 4 credits of each course are required in the Senior year for AUCC category 4C. If ART 455 or ART 456 are repeated for credit, the second 4 credits taken in each course may count toward the Art Elective or the Upper-Division Art Elective requirements.
3. Select enough elective credits to bring the program total to a minimum of 120 credits, of which at least 42 must be upper-division (300- to 400-level).

Major Completion Map

To declare this Concentration: A Portfolio Review is required to be submitted for review upon completion of three ART studio courses for continuing students and upon completion of two ART studio courses for transfer students and students who have changed majors.

Distinctive Requirements for Degree Program: A minimum grade of C (2.000) or better is required in ART 355, ART 356, ART 455, ART 456.

Major in Art (B.F.A.), Metalsmithing Concentration

The Metalsmithing concentration offers students the opportunity to explore a range of traditional techniques and processes, while emphasizing formal and conceptual development within their own artistic practice. Class projects introduce and strengthen technical skills, and provide awareness of both historical and contemporary practice within the field.

Students are encouraged to enter regional and national juried exhibitions, to participate in workshops and conferences, and ultimately to locate and establish a place for themselves within the field of contemporary jewelry and metalsmithing, either professionally, academically, or both.

Requirements
Effective Fall 2018

A Portfolio Review is required to be submitted for review upon completion of three ART studio courses for continuing students and upon completion of two ART studio courses for transfer students and students who have changed majors.

A minimum grade of C (2.000) or better is required in ART 345, ART 346, ART 445, ART 446.

Major in Art (B.F.A.), Painting Concentration

The Painting concentration gives students the ability to explore, develop, and gain personal understanding of the visual language and technical aspects of the painting medium. Additionally, it encourages the development of material experimentation and conceptual thinking in the upper-level courses. Students begin by working from observation, developing skills and proficiency in oils. As students gain skills and abilities with oil paints, they are encouraged to challenge the very notion of what painting is by exploring alternative tools, methods, and surfaces. Discipline and perseverance are strengthened as students develop a unique voice, conceptually and formally. In their senior year, students work closely with the Painting faculty to develop a distinctive body of work that is sophisticated in its content and scope.

**Major in Art (B.F.A.), Photo Image Making Concentration**

Courses in the Photo Image Making concentration enable students to explore artistic, personally-driven aspects of the photographic medium. Projects and assignments encourage each student to explore individual directions, with equal emphasis given to intuitive and intellectual concerns. Student work is evaluated for aesthetic qualities, technical excellence, and conceptual development. The curriculum is designed to help students build a strong foundation in the fundamentals of contemporary photographic practice, while emphasizing the medium's expressive potential and underscoring its connections to the contemporary art world. Interdisciplinary and experimental work is encouraged, as are more traditional approaches and conventional processes. Facilities are available to enable offerings in a wide range of processes and techniques, from silver-based image production and digital capture/output methods to alternative processes such as cyanotype and palladium printing. In short, information and instruction are provided for whichever image making strategies a student wishes to pursue.

**Requirements**

**Effective Fall 2018**

A Portfolio Review is required to be submitted for review upon completion of three ART studio courses for continuing students and upon completion of two ART studio courses for transfer students and students who have changed majors.

A minimum grade of C (2.000) or better is required in ART 330, ART 331, ART 430, ART 431.

### Major in Art (B.F.A.), Pottery Concentration

The Pottery concentration is committed to providing a comprehensive curriculum in the range of processes and concepts present in contemporary ceramic art. The philosophy of the area encourages the concurrent development of critical, technical, and manual skills. Issues and debates in contemporary crafts, sculpture, architecture, design, and studio pottery are presented alongside a rigorous exploration of forming and decorating processes and technology.

#### Requirements

**Effective Fall 2018**

A Portfolio Review is required to be submitted for review upon completion of three ART studio courses for continuing students and upon...
completion of two ART studio courses for transfer students and students who have changed majors.

A minimum grade of C (2.000) or better is required in ART 340, ART 341, ART 440, and ART 441.

Major in Art (B.F.A.), Printmaking Concentration

Printmaking courses at the undergraduate level are structured to develop a strong personal artistic vision and instill the self-confidence necessary to allow ongoing creative growth through a variety of media. A sound technical background in Lithography, Screen-Printing, Intaglio, Relief Woodcut, Post-Digital methods and encouragement of experimental hybrid techniques will provide students with the professional skills needed to cultivate a robust studio practice and explore new innovative research based on that foundation. The community workshop atmosphere of the printmaking area immerses students in group collaboration as well as personal exploration, thus preparing each student for real-world occupational applications of their research. Through sharing visual concepts and technical investigations on a regular basis, students learn how to apply newly acquired knowledge productively and intuitively, while simultaneously developing desired skills for prospective employers. Interactive artistic dialog between highly motivated printmakers is a cornerstone to all printmaking curriculum, leading to a wide array of unique and diverse avenues of creative inquiry.

1. Select 6 credits of Upper-Division Art History Courses total, at least 3 of which must satisfy AUCC categories 4A and 4B.
2. ART 466 may be repeated for up to 8 credits; 4 credits are required in the Senior year for AUCC category 4C. If ART 466 is repeated for credit, the second 4 credits taken may count toward the Art Elective or the Upper-Division Art Elective requirements.
3. Select enough elective credits to bring the program total to a minimum of 120 credits, of which at least 42 must be upper-division (300- to 400-level).

### Major Completion Map

**To declare this Concentration:** A Portfolio Review is required to be submitted for review upon completion of three ART studio courses for continuing students and upon completion of two ART studio courses for transfer students and students who have changed majors.

**Distinctive Requirements for Degree Program:** A minimum grade of C (2.000) or better is required in ART 365, ART 366, ART 465, ART 466.

Major in Art (B.F.A.), Sculpture Concentration

The Sculpture concentration challenges students to create a vibrant fusion between technical process, conceptual expression, and professionalism. Students are encouraged to experiment and innovate while exploring content in the areas of object-making, installation, site-based work, performance, time-based art, and digital processes. Through the integration of readings, classroom discussion, presentations, and individual research, the sculpture curriculum is designed to enable students to explore concepts and content relevant both in today's contemporary society and in the art world. The synthesis of this broad spectrum of information is intended to aid students as they develop a unique personal vision for their artwork and studio practice. Refined technical skill will be developed and is a requirement for students as they progress through the Sculpture concentration.

Requirements
Effective Fall 2018

A Portfolio Review is required to be submitted for review upon completion of three ART studio courses for continuing students and upon completion of two ART studio courses for transfer students and students who have changed majors.

A minimum grade of C (2.000) or better is required in ART 370, ART 371, ART 470, ART 471.

**Major in Art, B.A.**

Throughout history, art has been a fundamental language of the human spirit. Visual arts express human experience through an ever-widening range of media and materials, some of which include: oils, acrylics, pastels, charcoal, clay, plaster, steel, bronze, wood, copper, litho stones, and digital media. Visual artists create abstract works and images of objects, people, nature, topography, and events. The Department of Art and Art History offers several options of study. The B.F.A. (Bachelor of Fine Arts) degree with studio concentrations in Drawing, Electronic Arts, Fibers, Graphic Design, Metalsmithing, Painting, Photo Image Making, Pottery, Printmaking, and Sculpture; and the B.F.A. degree with a concentration in Art Education. The B.A. (Bachelor of Arts) degree with concentrations in Integrated Visual Studies and Art History are all professional degrees, leading to related art careers.

**Learning Outcomes**

Students will demonstrate:

- Fundamental knowledge and mastery of media and processes necessary to communicate meaning in a work of art.
- Ability to communicate clearly about their own art and the art of others.
- Knowledge about contemporary art and motivation to view and discuss current local, regional, and national exhibitions. Students well versed in contemporary art would:
  a. regularly read reviews of exhibitions in local and national newspapers;
  b. regularly read art periodicals;
  c. attend multiple exhibitions; and
d. be knowledgeable about contemporary artists in their discipline (i.e., nationally known painters, sculptors, etc.).

Potential Occupations

Art graduates possess a number of transferable communication, analytical, and critical thinking skills appropriate for work in traditional business as well as positions in academia and roles as freelance artists, graphic designers, art educators, art historians, studio fine artists and as “creatives” in government and industry. Many employers appreciate art majors for their multiple skills and their ability to adapt to a variety of tasks and work environments. Participation in internships, cooperative education, and service learning opportunities is highly recommended to enhance practical training and development. Graduates who go on for advanced studies can attain more responsible positions with the possibility of rising to top professional levels.

Depending on student interests, the electives taken, or the concentration selected, available career choices include, but are not limited to: art appraiser, art director, art therapist, exhibit designer, art critic, jeweler, gallery director, graphic design artist, free lance artist, sculptor, woodworker, welder, foundry worker, studio photographer, technical illustrator, painter, textile designer, weaver, art educator, art historian, art curator, art librarian, art museum educator, web page designer, photo lab technician, art restorer, and master printer.

The B.A. (Bachelor of Arts) in Art is a liberal arts degree with two concentrations: Art History and Integrated Visual Studies. The Art History concentration seeks to develop students’ critical and analytical skills and ability to comprehend global visual arts within social, historical, cultural, and aesthetic frameworks. Students learn about the visual and material culture of societies from around the world, reflecting the global turn in the discipline. Traditional courses in Western art history are balanced against courses in the Arts of Africa, Native American Art, the Arts of the Ancient and Colonial Americas, and Pacific Art. Because of the comparative nature of Art History, students in the concentration are required to complete courses in a second field, a foreign language, and the philosophy of aesthetics. A capstone seminar introduces students to the fundamental toolbox of methodological approaches taken by professional art historians.

The Integrated Visual Studies concentration is an ideal program for students to develop skills as makers and thinkers. By making work and interpreting images from visual art, photography, film, television, and commercial imagery, students learn to analyze visual communication from a variety of aesthetic, theoretical, scientific, economic, sociological and historical viewpoints. Students take a relatively equal ratio of studio and academic classes that foster critical awareness of how society is reflected and produced through visual means in the twenty-first century. Visual Studies students have the curricular flexibility to pursue other academic interests and extracurricular activities with greater intensity, as well as to pursue explorations in the theoretical and technical aspects of art making within a studio practice.

Both concentrations begin their study with the foundation program. Freshmen study foundation courses in form and observation, color and composition, materials and space, and global art history.

Student Learning Outcomes

Art History students will demonstrate:

• Knowledge of the tools and techniques of art historical research and scholarship.
• Communication skills, original thinking, art historical interpretation, and research skills in written form, resulting in a lengthy work of original scholarship.
• Communication skills, original thinking, art historical interpretation, and research skills in oral form.
• Demonstrate general knowledge of the monuments and principal artists of all major art periods of the past, including a broad understanding of the art of the twentieth century and acquaintance with the art history of non-Western cultures.
• Adequate mastery of a foreign language to support research through the reading of primary source materials.
• Functional knowledge of the creative process.

Integrated Visual Studies students will demonstrate:

• Communication skills in written and oral form with precision, cogency, and rhetorical force.
• The ability to explain and defend creative/research effectively and rationally; advocating for their world view.
• Skills of invention and innovation—developing things and ideas that never existed before.

Major in Art (BA), Art History Concentration

The Art History concentration provides a basic preparation in art history for graduate studies, careers in research and teaching at the college level, positions in museums, libraries, or private collections, or for writing and criticism in the arts. In addition to a high degree of research experience, students will complete a second field or minor and one year of foreign language. In-depth study in a second field allows students to refine their focus.

Requirements

Effective Fall 2018

A Portfolio Review is required to be submitted for review upon completion of three ART studio courses for continuing students and upon completion of two ART studio courses for transfer students and students who have changed majors.

A minimum grade of C (2.000) or better is required in all upper-division Art History coursework.

Major in Art (BA), Integrated Visual Studies Concentration

The Integrated Visual Studies concentration is an ideal program for students to develop skills as makers and thinkers. Students take a relatively equal ratio of studio and academic classes that foster critical awareness of how society is reflected and produced through visual means in the twenty-first century.

By making work and interpreting images from art, photography, film, television and commercial imagery, students learn to analyze visual communication from a variety of aesthetic, theoretical, scientific, economic, sociological, and historical viewpoints. A combination of studio and academic classes are required.

The Integrated Visual Studies concentration enables students to organize multiple approaches to visual thinking that cut across various disciplines into a logical whole. Integrated visual studies students will have the curricular flexibility to pursue other academic interests and extracurricular activities with greater intensity, as well as to pursue explorations in the theoretical and technical aspects of art-making within a studio practice.

**Elective Options Outside the Department of Art and Art History:**

PHIL 318 Aesthetics-Visual Arts

Out-of-Department Course(s) 11

1 Select a minimum total of 9 credits to be taken in the first year over two semesters, e.g., 4 and 5 credits.
Select a minimum total of 9 credits to be taken in the second year over two semesters, e.g., 4 and 5 credits.

Select a minimum of 9 credits in student's area of study. To be completed within student's first four semesters.

Select a minimum of 9 credits to be taken during the student's fifth and sixth semesters, e.g., 4 and 5 credits. Course may be repeated for credit.

Students take ART 696I twice: once during the first year and once during the second year.

Students may provide their advisors with justification for an alternative course to substitute for one 3-credit art history elective. Students may request advisor approval for an alternative course that would be chosen from among suitable University course offerings.

Maximum of 10 credits. Some subtopics may have a prerequisite.

Select ART 510 subtopics not taken elsewhere in the program.

To be taken in the third year.

Select course(s) at 300-level or higher from any department other than Art and Art History within the University for a minimum of 3 credits, with approval of advisor.

The Departments of Communication Studies and Journalism and Media Communication offer a minor in Media Studies. See the full listing for the minor in the College of Liberal Arts section.

Graduate Programs in Communication Studies

The graduate program leads to a Master of Arts in Communication Studies. Graduate coursework, as well as a required thesis for the Plan A master's, enables students to develop expertise in one or a combination of three areas of emphasis:

1. Media and visual culture;
2. Relational and organizational communication; and/or

In each of these areas, students select course work from among the following topics:

1. Contemporary issues in media, media theories, media audiences, media texts, and media industries;
2. Communication theories, communication and diversity, interpersonal theories, and discourse and organization; or
3. Public address, rhetoric and public affairs, rhetorical theory, rhetorical criticism, rhetoric of everyday life, and feminist theory.

The Plan B master's provides a Deliberative Practices specialization with coursework in deliberative theory and practice, a practicum, and an independent study serving as the culminating report in lieu of a thesis.

Students interested in graduate work should refer to the Graduate and Professional Bulletin and the Department of Communication Studies (http://communicationstudies.colostate.edu).

Learning Outcomes
Students will demonstrate:

Knowledge about the history and practice of our discipline in three specific areas: rhetoric and civic engagement, film and media studies, and relational and organizational communication. Students will be able to explain the utility of theories from these areas and be able to utilize research methods to explore questions from each area of inquiry.

Skills that allow them apply their knowledge of the major as they address contemporary issues salient to their personal, professional, and civic lives. They will be skilled in both oral and written communication, being able to develop and deliver coherent, well-organized claims to specific audiences. Students will also develop critical thinking skills that allow them to analyze texts, situations, or issues using credible evidence and following a logical, systematic, and/or precise structure.

Potential Occupations
The Communication Studies major, like many liberal arts majors, provides students with a broad academic background suitable for a variety of jobs in the public and private sectors. Majors are trained to think independently and critically, communicate effectively, and function in a multicultural world. Employers appreciate communication studies majors for their multiple skills and their ability to adapt to a variety of tasks and work environments.

Many majors find employment in public relations/marketing, politics, sales, human relations, government, business management, convention and meeting planning, education, and computer-mediated communication. Some students move on to graduate work in communication studies and to post-graduate study in law and theology.

Career opportunities include, but are not limited to employee relations specialist, employment counselor, human resource consultant, industrial relations representative, public relations specialist, labor relations consultant, training director, vocational rehabilitation counselor, advance agent, business communicator, equal opportunity representative, foreign service officer, cooperative extension service worker, politician, lobbyist, speechwriter, press agent, literary agent, interviewer, sales representative, scriptwriter, lawyer, teacher.

Internships are available to Communication Studies majors and are highly recommended to enhance practical training and development. Graduates who seek advanced studies can attain positions with higher responsibilities and can rise to top professional levels.

**Program Total Credits:** 39

A minimum of 39 credits are required to complete this program.

---

1. **Interpersonal, Intercultural, and Organizational Communication:** For many individuals, engagement with the public world grows out of their relational lives and is expressed in the organizations to which they belong and in which they work. Professors and students in this area will explore communication in relational or interpersonal systems, organizing and work contexts, and within national and global arenas. Here, the focus is on exploring how individuals respond to and participate as active members in various forms of community, paying special attention to the ways in which communicative actions can create, sustain, and disable engaged citizenship.

2. **Film and Media Studies:** In the contemporary, globalized world, engaged citizenship often flows through media and is represented and enacted within popular culture. Professors and students in the area explore the mediation of public culture with particular attention to film, television, digital discourse, and the globalization of media institutions. Here, the focus is on the construction of critical media literacies and understandings of how our mediated forms of communication engage or disengage individuals as community members, empowering or disempowering them as political agents.

3. **Rhetoric and Civic Engagement:** In popular conversation, “rhetoric” is often understood to mean empty speech. Communication scholars, however, trace the meaning of “rhetoric” to antiquity when thinkers such as Aristotle and Cicero placed rhetorical studies at the center of democratic engagement. Since then, rhetorical studies have explored public engagement and community building, examining the role of communication in civic life. The resurgence of rhetorical studies in the humanities is founded on a renewed sense of the importance of rhetoric to engaged citizenship in the 21st century. Professors and students in this area explore the role of public communication in creating, maintaining, and undermining civic culture.

Although these three areas of departmental emphasis are distinct, the strength of the program is the collaborative overlapping of these three areas. As a community, we have developed a cutting-edge doctoral program that takes advantage of the shared commitment to study and engage in transformative communication.

**Ph.D. in Communication**

The Ph.D. in Communication trains scholars, teachers, and professionals to engage social, political, and professional challenges using advanced expertise in the field of communication.

The program is shaped by the three areas of expertise present in our department. These three areas examine communication and engagement from three perspectives:

1. **Interpersonal, Intercultural, and Organizational Communication:** For many individuals, engagement with the public world grows out of their relational lives and is expressed in the organizations to which they belong and in which they work. Professors and students in this area will explore communication in relational or interpersonal systems, organizing and work contexts, and within national and global arenas. Here, the focus is on exploring how individuals respond to and participate as active members in various forms of community, paying special attention to the ways in which communicative actions can create, sustain, and disable engaged citizenship.

2. **Film and Media Studies:** In the contemporary, globalized world, engaged citizenship often flows through media and is represented and enacted within popular culture. Professors and students in the area explore the mediation of public culture with particular attention to film, television, digital discourse, and the globalization of media institutions. Here, the focus is on the construction of critical media literacies and understandings of how our mediated forms of communication engage or disengage individuals as community members, empowering or disempowering them as political agents.

3. **Rhetoric and Civic Engagement:** In popular conversation, “rhetoric” is often understood to mean empty speech. Communication scholars, however, trace the meaning of “rhetoric” to antiquity when thinkers such as Aristotle and Cicero placed rhetorical studies at the center of democratic engagement. Since then, rhetorical studies have explored public engagement and community building, examining the role of communication in civic life. The resurgence of rhetorical studies in the humanities is founded on a renewed sense of the importance of rhetoric to engaged citizenship in the 21st century. Professors and students in this area explore the role of public communication in creating, maintaining, and undermining civic culture.

Although these three areas of departmental emphasis are distinct, the strength of the program is the collaborative overlapping of these three areas. As a community, we have developed a cutting-edge doctoral program that takes advantage of the shared commitment to study and engage in transformative communication.

**Requirements**

**Effective Fall 2017**

Students must have earned an M.A. in Communication Studies or a related discipline. A maximum of 27 credits at the master’s degree level may be accepted toward the Ph.D.

---

2 All credits must be taken at the graduate level (500- or 600-level). A minimum of 6 credits must be SPCM subject code courses.

ECON 379  Economic History of the United States  Credits: 3 (3-0-0)
Also Offered As: HIST 379.
Course Description: Economic analysis of growth and welfare from beginning of industrialization to present.
Prerequisite: ECON 101 or ECON 202 or AREC 202.
Registration Information: ECON 101 or ECON 202 or AREC 202 or any 2 courses in American history. Credit not allowed for both ECON 379 and HIST 379.
Term Offered: Fall.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

ECON 404  Macroeconomic Policy  Credits: 3 (3-0-0)
Course Description: Alternative macroeconomic policies, policy coordination; application to current macroeconomic problems, policies, proposals.
Prerequisite: ECON 304.
Term Offered: Spring.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

ECON 410  Labor Economics  Credits: 3 (3-0-0)
Course Description: Capital/labor relationship; supply, demand of labor; wage determination; role of unions; unemployment and instability; structure of modern working class.
Prerequisite: ECON 306.
Term Offered: Spring (even years).
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

ECON 435  Intermediate Econometrics  Credits: 3 (3-0-0)
Course Description: Econometric theory, model identification, testing, and estimation.
Prerequisite: (ECON 204) and (AREC 335 or ECON 335 or STAT 341).
Term Offered: Spring (even years).
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.
ECON 440  Economics of International Trade and Policy  Credits: 3 (3-0-0)
Course Description: Theory of international trade; payments, commercial policies, and economic integration.
Prerequisite: ECON 304.
Registration Information: Sections may be offered: Online.
Term Offered: Fall.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

ECON 442  Economics of International Finance and Policy  Credits: 3 (3-0-0)
Course Description: Balance of payments, adjustment mechanisms, and international monetary systems.
Prerequisite: ECON 304.
Registration Information: Sections may be offered: Online.
Term Offered: Spring.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

ECON 444  Economics of Energy Resources  Credits: 3 (3-0-0)
Also Offered As: AREC 444.
Course Description: Supply, consumption trends, and projected demand for alternative energy resources in domestic and world perspective; economics of public energy policies.
Prerequisite: ECON 306.
Registration Information: Junior standing. Sections may be offered: Online. Credit allowed for only one of the following: AREC 444, ECON 344, or ECON 444.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ECON 460  Economic Development  Credits: 3 (3-0-0)

Special Course Fee: No.

ECON 484  Supervised College Teaching  Credits: Var[1-3] (0-0-0)
Course Description: Assistance in teaching introductory economics courses.
Prerequisite: ECON 304 and ECON 306.
Registration Information: Written consent of instructor. A maximum of 10 combined credits for all 384 and 484 courses are counted towards graduation requirements.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ECON 487  Internship  Credits: Var[1-3] (0-0-0)
Course Description: Supervised work experience integrating disciplinary learning and career exploration.
Prerequisite: ECON 202 with a minimum grade of C and ECON 204 with a minimum grade of C.
Registration Information: Written consent of instructor. Economics majors and minors only. Sections may be offered: Online.
Terms Offered: Fall, Spring, Summer.
Grade Mode: S/U Sat/Unsat Only.
Special Course Fee: No.

ECON 492  Seminar  Credits: 3 (0-0-3)
Course Description: Summarizes, discusses, and applies issues and policies chosen by the instructor. Emphasis on student participation, discussion, and research.
Prerequisite: (AREC 335, may be taken concurrently or ECON 335, may be taken concurrently) and (ECON 304, may be taken concurrently and ECON 306, may be taken concurrently).
Restriction: .
Registration Information: Senior standing. Sections may be offered: Online.
Terms Offered: Fall, Spring.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

ECON 495  Independent Study  Credits: Var[1-3] (0-0-0)
Course Description: Individual investigation of a special topic in economics under direction of faculty.
Prerequisite: None.
Registration Information: Written consent of instructor. Sections may be offered: Online.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ECON 501  Quantitative Methods for Economists  Credits: 3 (3-0-0)
Course Description: Quantitative methods essential for graduate study in economics; functional forms, optimization, matrix methods, topological modeling.
Prerequisite: MATH 141 or MATH 155 or MATH 160.
Term Offered: Fall.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

ECON 504  Applied Macroeconomics  Credits: 3 (3-0-0)
Course Description: Application of macroeconomic models to economic growth, economic fluctuations, and policy analysis.
Prerequisite: ECON 304 and ECON 306.
Term Offered: Spring.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.
ECON 505 History of Economic Thought  Credits: 3 (3-0-0)
Course Description: History of economic thought as a foundation for studying economic theory.
Prerequisite: None.
Registration Information: Graduate standing.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ECON 506 Applied Microeconomic Theory  Credits: 3 (3-0-0)
Also Offered As: AREC 506.
Course Description: Introduction to mathematical models in modern microeconomics, including choices and demand, production and supply, and market structures and failures.
Prerequisite: ECON 306.
Registration Information: Credit not allowed for both ECON 506 and AREC 506.
Term Offered: Fall.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

ECON 510 Labor Market Analysis  Credits: 3 (3-0-0)
Course Description: Determination of wages and employment. Focus on theoretical and applied controversies.
Prerequisite: ECON 304 and ECON 306.
Term Offered: Fall (even years).
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

ECON 515 Financial Institutions-Structure/Regulation  Credits: 3 (3-0-0)

Course Description: Analysis and evaluation of tax policy in terms of efficiency and equity.
Prerequisite: ECON 506 or AREC 506 or ECON 606 or AREC 606.
Term Offered: Spring.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

ECON 530 Methodology of Economic Research  Credits: 3 (3-0-0)
Also Offered As: AREC 570.
Course Description: Philosophical foundations of science and research. Concepts and skills for planning, performing, reporting, and evaluating economic research.
Prerequisite: ECON 304 and ECON 306.
Registration Information: Credit not allowed for both ECON 530 and AREC 570.
Term Offered: Fall (even years).
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

ECON 535 Applied Econometrics  Credits: 3 (3-0-0)
Also Offered As: AREC 535.
Course Description: Econometric techniques applied to testing and quantification of theoretical economic relationships drawn from both microeconomics, macroeconomics.
Prerequisite: (ECON 335 or AREC 335) and (ECON 304 or ECON 306).
Registration Information: Credit not allowed for both ECON 535 and AREC 535.
Term Offered: Fall.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

ECON 540 Environmental and Natural Resource Economics  Credits: 3 (3-0-0)
Also Offered As: AREC 540.
Course Description: Economics of environmental policy; partial equilibrium and general equilibrium model; pollution; natural environments; population and economic growth.
Prerequisite: ECON 306.
Registration Information: Credit not allowed for both ECON 540 and AREC 540.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ECON 541 Environmental Economics  Credits: 3 (3-0-0)
Also Offered As: AREC 541.
Course Description: Theory, methods, and policy in environmental and natural resource economics.
Prerequisite: AREC 506 or ECON 506.
Registration Information: Credit not allowed for both ECON 541 and AREC 541.
Term Offered: Spring.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

ECON 563 Regional Economics-Theory, Methods, and Issues  Credits: 3 (3-0-0)
Also Offered As: AREC 563.
Course Description: Tools and methods of regional economics, including supply, demand, and externality analysis. Applications to current urban and regional policy issues.
Prerequisite: ECON 306 and ECON 501, may be taken concurrently.
Registration Information: Credit not allowed for both ECON 563 and AREC 563.
Term Offered: Fall.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

ECON 570 Evolution of Economic Thought  Credits: 3 (3-0-0)
Course Description: From Plato and Aristotle to the modern period.
Prerequisite: ECON 304 and ECON 306.
Term Offered: Fall (even years).
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

ECON 604 Macroeconomic Analysis I  Credits: 3 (3-0-0)
Course Description: Theoretical and empirical analysis of short-run and long-run macroeconomic performance across countries using dynamic models.
Prerequisite: ECON 304 and ECON 501.
Restriction: Must be a: Graduate, Professional.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.
ECON 606  Microeconomic Analysis I  Credits: 3 (3-0-0)
Also Offered As: AREC 606.
Course Description: Advanced price/allocation theory: consumer/producer decisions; uncertainty; market structure; partial/general equilibrium; efficiency/welfare.
Prerequisite: ECON 306 and ECON 501.
Restriction: Must be a: Graduate, Professional.
Registration Information: Credit not allowed for both ECON 606 and AREC 606.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ECON 635  Econometric Theory I  Credits: 3 (3-0-0)
Also Offered As: AREC 635.
Course Description: Theory of mathematical statistics and classical linear regression model in context of economic application.
Prerequisite: (AREC 535 or ECON 535) and (ECON 501, may be taken concurrently).
Restriction: Must be a: Graduate, Professional.
Registration Information: Credit not allowed for both ECON 635 and AREC 635.
Term Offered: Fall.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

ECON 640  International Trade Theory  Credits: 3 (3-0-0)
Course Description: Theory of international trade including comparative advantage, factor growth, market distortions, and commercial policy.
Prerequisite: ECON 306 or ECON 506.
Restriction: Must be a: Graduate, Professional.
Term Offered: Fall.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

ECON 663  Urban and Regional Modeling  Credits: 3 (3-0-0)
Course Description: Methodological approaches in regional economics: general equilibrium, input-output, computable general equilibrium models; social accounting matrices.
Prerequisite: ECON 506.
Restriction: Must be a: Graduate, Professional.
Term Offered: Spring.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

ECON 695  Independent Study  Credits: Var[1-18] (0-0-0)
Course Description: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ECON 698  Research--Technical Paper  Credits: 3 (0-0-3)
Course Description: (ECON 504 and ECON 506 and ECON 705) and (AREC 735 or ECON 735).
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.

Special Course Fee: No.

ECON 699  Thesis  Credits: Var[1-18] (0-0-0)
Course Description: None.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ECON 704  Macroeconomic Analysis II  Credits: 3 (3-0-0)
Course Description: Theoretical and empirical frameworks for analyzing macroeconomic policies and their impact on economic growth, employment, and income distribution.
Prerequisite: ECON 604.
Restriction: Must be a: Graduate, Professional.
Term Offered: Fall.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

ECON 705  Heterodox Approaches to Economics  Credits: 3 (3-0-0)
Course Description: Contemporary heterodox approaches to economic research.
Prerequisite: ECON 505.
Restriction: Must be a: Graduate, Professional.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ECON 706  Microeconomic Analysis II  Credits: 3 (3-0-0)
Also Offered As: AREC 706.
Course Description: Advanced topics in microtheory: game theory; market imperfections; adverse selection; principal-agent problems; social choice theory; incentives, etc.
Prerequisite: ECON 606.
Restriction: Must be a: Graduate, Professional.
Term Offered: Fall.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

ECON 715  Monetary Economics  Credits: 3 (3-0-0)
Course Description: Principle issues of monetary theory: money supply and demand, interest rates, and current problems of monetary policy.
Prerequisite: ECON 504.
Restriction: Must be a: Graduate, Professional.
Term Offered: Fall.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

ECON 720  Public Economics II  Credits: 3 (3-0-0)
Course Description: Analysis of welfare foundations of public expenditure, including cost-benefit analysis.
Prerequisite: ECON 506.
Restriction: Must be a: Graduate, Professional.
Term Offered: Fall.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.
ECON 735  Econometric Theory II  Credits: 2 (2-0-0)
Also Offered As: AREC 735.
Course Description: Econometrics models and estimators in econometrics, from fully parametric to semiparametric and nonparametric approaches.
Prerequisite: AREC 635 or ECON 635.
Restriction: Must be a: Graduate, Professional.
Registration Information: Credit not allowed for both AREC 735 and ECON 735. This is a partial semester course.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ECON 736A  Advanced Econometric Methods: Discrete Choice Models  Credit: 1 (1-0-0)
Also Offered As: AREC 736A.
Course Description: Econometrics analysis of: Discrete Choice Models.
Prerequisite: AREC 735, may be taken concurrently or ECON 735, may be taken concurrently.
Restriction: Must be a: Graduate, Professional.
Registration Information: Credit not allowed for both ECON 736A-C and AREC 736A-C. This is a partial semester course.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ECON 736B  Advanced Econometric Methods: Panel Data Models  Credit: 1 (1-0-0)
Also Offered As: AREC 736B.
Course Description: Econometrics analysis of: Panel Data Models.
Prerequisite: AREC 735, may be taken concurrently or ECON 735, may be taken concurrently.
Restriction: Must be a: Graduate, Professional.
Registration Information: Credit not allowed for both ECON 736A-C and AREC 736A-C. This is a partial semester course.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ECON 736C  Advanced Econometric Methods: Time Series Models  Credit: 1 (1-0-0)
Also Offered As: AREC 736C.
Course Description: Econometrics analysis of: Time Series Models.
Prerequisite: AREC 735, may be taken concurrently or ECON 735, may be taken concurrently.
Restriction: Must be a: Graduate, Professional.
Registration Information: Credit not allowed for both ECON 736A-C and AREC 736A-C. This is a partial semester course.

Major in Economics

Economics is the study of how people and societies use scarce resources to produce the things they want. Economic theory provides a framework for understanding economic issues, analyzing and predicting the likely effects of economic behavior and government policies, and formulating efficient and equitable solutions to pressing economic problems.

A strong liberal arts curriculum including arts and humanities, social and natural sciences, advanced composition, mathematics, and statistics provides the depth and breadth of knowledge needed to systematically and logically analyze problems, generate and test ideas, and develop effective communication and quantitative skills. Economics majors develop an appreciation of economic issues, and learn to analyze and critically evaluate economic phenomena and policies. The major core includes four semesters of economic theory, a semester of econometrics, a senior capstone seminar, and several seminars of economics electives covering a wide variety of economic topics from environmental and natural resource economics to the history of economic institutions and political economy.

Learning Outcomes

Students will:

- Display command of basic microeconomic concepts such as rationality, cost/benefit, supply and demand theory, decision making at the margin, monopoly and competition, and efficiency and equity.
- Display command of basic macroeconomic concepts such as aggregate demand and supply, fiscal and monetary policy, and the use of these policies in the macro-economy.
- Understand and analyze a broad array of economic issues found in the news and understand how the economic aspects of society work.

Potential Occupations

Economists are employed in a wide variety of fields from education and research to business and government. Nonprofit and international organizations use economists in overseas development, environmental conservation, and international relations. Economics, like many liberal arts majors, provides students with a broad academic background suitable for a variety of jobs. Economics majors are trained to think independently and critically, communicate effectively, and function in a multicultural world. Many employers appreciate liberal arts majors for their multiple skills and their ability to adapt to a variety of tasks and work environments. Careers for graduates are available in education, business, and government. Participation in internships or cooperative education opportunities is highly recommended to enhance practical training and development. Graduates who go on for advanced studies can pursue careers in economics or attain advanced positions with the possibility of rising to top professional levels.

Depending on interests, the electives taken, or the minor selected, available career choices include, but are not limited to: commodities/stock broker, financial analyst, economic forecaster, trust administrator, loan counselor, pension funds administrator, foreign trade analyst, public policy analyst, regional/urban planner, foreign service officer, tax auditor, natural resource analyst, educator, program administrator, researcher, community organizer, environmental activist, international aid organization analyst or administrator, marketing analyst, purchasing agent, public relations/media planner, program consultant, contract
administrator, systems evaluator, personnel planner, portfolio administrator, finance manager, secondary school teacher.

**Requirements**

**Effective Fall 2019**

Economics majors must achieve a minimum grade of 1.670 (C-) in each of the economics courses counted toward the major.

Minor in Economics

The minor in Economics is designed to prepare students for understanding current socioeconomic problems in the areas of resource allocation, inflation, unemployment, income distribution, environmental degradation, international trade, and monopoly power. The program can be of help to students interested in careers in business management, teaching, government, banking, public policy, and related areas.

Learning Outcomes

Students will:

- Display command of basic microeconomic concepts such as rationality, cost/benefit, supply and demand theory, decision making at the margin, monopoly and competition, and efficiency and equity.
- Display command of basic macroeconomic concepts such as aggregate demand and supply, fiscal and monetary policy, and the use of these policies in the macro-economy.
- Understand and analyze basic economic issues found in the news and understand how the economic aspects of society work.

To declare the minor in Economics, please visit the Economics Department office in Clark C306.

Requirements

Effective Fall 2019

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

Economics minors must achieve a 2.000 grade point average in all courses taken for the minor.

Major in English

The English department at CSU is a vibrant and diverse community. We are home to poets and linguists, literacy researchers and teacher educators, novelists and literary scholars, composition specialists and writers of creative nonfiction. We share a passion for exploring the multiple and dynamic ways that the English language is used to meet the demands of life in the twenty-first century. Students, staff, and faculty are committed to inclusive excellence, intellectual growth, and the creation of a more just and sustainable world.

English majors develop an understanding of diverse cultures, literary traditions, and great works of English, American, and world literature. Students expand their ability to analyze a variety of texts and view them through the lenses of diverse critical perspectives. Majors develop the ability to write for both specialized and general audiences. There are five concentrations from which students can choose:

- Creative Writing,
- English Education,
- Language,
- Literature, or
- Writing, Rhetoric and Literacy.

Learning Outcomes

Upon completion of the B.A. in English, the accomplished graduate shall be able to:

- work with, explain, or analyze English-language writings of the broadest textual range with an eye practiced in close-reading, historical context, and rigorous critical judgment;
- write with flexibility, effectiveness, and originality for diverse rhetorical purposes and audiences;
- read and write with technical awareness of language foundations, contexts of literacy, multi-modal environments, and theories of discourse and meaning; and
- integrate English literacy (disciplinary methods of reading and analysis) with interdisciplinary knowledge and action.

Potential Occupations

A major in English prepares students for business, government, or education careers that require broadly educated people who can think critically, communicate effectively, analyze texts, and write well. Many employers appreciate liberal arts majors for their multiple skills and their ability to adapt to a variety of tasks and work environments.

The department encourages experiential education by offering a variety of internship opportunities.

Students are also invited to generate their own positions in fields of interests, as well as pursue established local, regional, or national internships. Graduates who go on for advanced studies can attain more responsible positions with the possibility of rising to top professional levels.

Depending on a student’s interests, the electives taken, or the concentration selected, available career choices include, but are not limited to: copy editor; project editor; manuscript reader or story analyst; sales representative; publicity and promotion specialist; advertising coordinator; production specialist; assistant book publicist; contracts and permission specialist; agency or arts administrator; human resource manager; human services program developer; public relations; English teacher; teacher of English as a second language; curriculum developer; education administrator; grant writer; technical writer for business, industry, or science; magazine, newspaper, television, education, or government writer; biographer or writer of prose, fiction, or nonfiction; lyricist.

Concentrations

- Creative Writing Concentration
- English Education Concentration
- Language Concentration
- Literature Concentration
- Writing, Rhetoric and Literacy Concentration

Major in English, Creative Writing Concentration

The Creative Writing concentration gives students the opportunity to strengthen their creative writing skills and infuses their analytic reading skills with imagination. Students take beginning, intermediate, and advanced courses in one or more of the following genres: fiction, poetry, and creative nonfiction. Intermediate and advanced courses are primarily workshop classes in which students read and critique one another’s work. At the center of all creative writing courses is the study of craft. Students in the Creative Writing concentration also take a wide variety of English and literature courses that prepare them to be writers by schooling them in literary traditions and styles. An internship program for all English majors offers Creative Writing students positions that may lead to employment. In addition, the Creative Writing program runs a vibrant reading series that gives students the chance to meet visiting writers.

Requirements

Effective Fall 2020

For graduation, an English major must attain a minimum grade point average of 2.000 in all Composition (CO) and English (E) courses.

1. Excludes E subject code courses.
2. The department requires majors to complete a second field. This may be met by completing the second semester of the second year of a foreign language or by completing 12 credits of upper division courses in a coherent field of study outside English.
3. Selection must match sub-topic of E 311A, E 311B, or E 311C.
4. Select enough elective credits to bring the program table to 120 credits, of which at least 42 must be upper-division (300- to 400-level).

Major in English, English Education Concentration

The English Education concentration provides students with preparation for teaching in secondary schools. It is designed for students who wish to pursue a career in teaching language arts, and offers a range of courses in language, literature, and writing. Students may receive an endorsement from the state of Colorado in English/Language Arts. In addition to the common requirements for the English major, students take several extra courses in English, as well as education classes through the School of Education.

Students interested in pursuing a teaching license through CSU may refer to the Center for Educator Preparation (CEP) (http://cep.chhs.colostate.edu).

Requirements Effective Fall 2020

For graduation, an English major must attain a minimum grade point average of 2.000 in all Composition (CO) and English (E) courses.

The department requires Licensure majors to take a minimum of 12 credits of upper-division E or CO subject code courses to include the categories listed below. One course may count for two categories if necessary, but students must take a minimum of 12 credits to fulfill this requirement:

1. 3 credits must be in literatures of the British Isles before 1830, or in American or European literatures before 1900;
2. 3 credits must be in literatures of the British Isles after 1830, or in American or European literatures after 1900;
3. 3 credits must be in either breakthroughs (ideological, racial, cultural, gendered) or genre courses;
4. One course must be a world literature course;
5. One course must be a capstone course (see list in senior year, above).

For graduation, an English major must attain a minimum grade point average of 2.000 in all Composition (CO) and English (E) courses.

For licensure, students must complete all coursework in the teaching concentration and professional education with a grade of C or above, and must have a cumulative GPA of 2.750.

**Major in English, Language Concentration**

The Language concentration is for students who wish to focus on linguistics and teaching English as a second or foreign language, as well as literature, writing, and education. It is designed for students interested in all aspects of language and linguistics. It offers students the ability to study key theories in linguistics and second-language learning, functional aspects of language production and reception, and the impact of social and cultural contexts on language production and reception.

**Requirements**

**Effective Fall 2020**

For graduation, an English major must attain a minimum grade point average of 2.000 in all Composition (CO) and English (E) courses.

Major in English, Literature Concentration

The Literature concentration offers a curriculum featuring critical study of literature (from ancient to contemporary) in poetry, prose, and drama. Students will become familiar with major figures and forces, but also with non-traditional writers outside the established canon. Courses in literary theory will give students a sense of the wide variety of approaches that can be applied to the interpretation of texts. In all courses, students practice a number of different types of analytical and critical writing.

Requirements
Effective Fall 2020

For graduation, an English major must attain a minimum grade point average of 2.000 in all Composition (CO) and English (E) courses.

Major in English, Writing, Rhetoric and Literacy Concentration

The Writing, Rhetoric and Literacy concentration builds on departmental strengths in writing theory and design, rhetoric, composition, public writing, and rhetoric and writing instruction. It is designed for students who wish to pursue the study of theories and practices of writing and rhetoric. The Writing, Rhetoric and Literacy concentration offers students the ability to:

- Study writing in a department that takes a humanistic approach to learning
- Engage writing and rhetoric with a focus on genre, audience, invention, and style
- Explore and practice writing and rhetorical approaches in social, cultural, and historical contexts

Requirements

Effective Fall 2020

For graduation, an English major must attain a minimum grade point average of 2.000 in all Composition (CO) and English (E) courses.

Minor in Creative Writing

The study of creative writing emphasizes creativity, self-motivation, persistence, and openness to criticism – skills many employers look for when hiring. It gives students the opportunity to explore their artistic talents and devote time to producing creative work that complements achievements in their majors.

This seven-course sequence combines small, discussion-based writing workshops with classes in composition or literature. The minor is open to majors in all disciplines except English and offers a unique opportunity to balance work in the sciences, business, engineering, or the humanities with the imaginative freedom and cultural engagement of an education in the arts. Students will gain experience in two genres (poetry, fiction, and/or creative nonfiction) as they study with published authors, interact with visiting writers, and gain familiarity with today's literary landscape.

TO DECLARE: Visit the English Office, Eddy 359. For more information: visit the Department of English website (http://catalog.colostate.edu/general-catalog/colleges/liberal-arts/english/creative-writing-minor/www.english.colostate.edu), or email Andrew Altschul,
Requirements
Effective Fall 2018
Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

Minor in English

Minors allow students to focus on an area that complements their major, enhance their knowledge and skills, or pursue a particular interest. The Department of English offers three minors: English, Creative Writing, and an Interdisciplinary Minor in Linguistics and Culture. When visiting the department's office to officially declare an English or English-related minor (http://english.colostate.edu/undergraduate/english-related-minors/), students will be provided with a course guide for that minor. To speak with an advisor regarding a minor, contact Professor Dan Beachy-Quick by email at dan.beachy-quick@colostate.edu (%20dan.beachy-quick@colostate.edu), in-person during office hours, or by appointment in Eddy Hall, Room 343.

For information about English and Composition course offerings and registration procedures for the upcoming semester or summer session, please contact Sheila Dargon at Sheila.Dargon@colostate.edu (%20Sheila.Dargon@colostate.edu).

Minor in English

The minor in English offers opportunities for students to create a unique path through English and Composition classes. Requirements are open: 21 credits total of E and/or upper-division CO courses, 12 credits of which must be at the 300-level or higher. This freedom allows students to pursue what they love most in language, literature, composition, and writing. Students will gain a set of skills, critical and creative both, that will complement both their major and future career.

The English department also offers the Linguistics and Culture Interdisciplinary Minor and the Creative Writing Minor.

Requirements
Effective Spring 1996
Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

CO 150, E 487A, and E 487B may not count toward the minor. CO 300, CO 301A, CO 301B, CO 301C, CO 301D, CO 302, and CO 401 may count toward the minor. A minimum of 6 credits must be taken at CSU.

Graduate Certificate in TESOL Education

The Graduate Certificate in TESOL Education provides graduates with practical, theoretical, and critical knowledge of the English language and methods for teaching it in various social and academic settings. The courses required for the certificate promote reflective inquiry, provide students with the necessary tools for ongoing professional growth, serve as models of effective pedagogy, and introduce students to the various ways in which instruction can be enhanced by contemporary technologies.

Master of Fine Arts in Creative Writing

The Master of Fine Arts in Creative Writing is for students with advanced abilities in the writing of fiction, poetry, creative nonfiction, and hybrid forms. The nationally-ranked program offers a balance of intimate and intensive writing workshops with courses in literature, form and technique, and related electives. Course work culminates in a book-length collection of short stories / poems / essays or a novel or memoir, as well as the completion of a comprehensive portfolio.

A minimum of 48 credits are required to complete this program.

**Additional Program Requirements:***

- Students are required to submit a portfolio with writing, sample papers, and annotated bibliography at the end of their program.
- A minimum of 32 credits applied to an MFA degree must be earned at CSU. Of these, at least 21 must be earned after admission to the program.
- Graduate courses taken at CSU prior to admission to the Graduate School can be applied to an MFA degree if the grade earned is B or higher.
- At least 16 credits earned at CSU and applied to an MFA degree must be English courses at the 500 level or higher; of these credits, at least 12 must be in “regular” courses. English courses considered to be other than “regular” include E 607B, E 684, E 687, E 695, E 699, and any courses graded pass/fail.
- Courses transferred from an MFA program must have a grade of B or higher and must have a CSU equivalent at the 500-level or higher. Credits used to fulfill requirements for previously earned degrees are not accepted.
- Up to three credits of coursework for an MFA degree can come from CSU programs outside the English department at the 300 level or higher. Students can take two additional courses outside the department, but these courses must be 500-level or higher.
- Graduate students may register for any number of internship credits, but a total of only six credits of E 607B, E 684, and E 687 (combined) will count toward graduation.
- A maximum of two credits of E 695 can count toward an MFA degree.
- With the exception of specified courses, all courses taken in the English department and applied to an MFA degree must be taken at the 500-level or above.

1 This must include one course (3 credits) of a Pre-Twentieth-Century Literature class with approval of advisor.
2 This requirement may be waived for students whose undergraduate degree is in another major.

Master of Arts in English, English Education Specialization

The Master of Arts in English, English Education Specialization provides students with preparation for and/or enhanced knowledge of teaching English in secondary schools. It is designed for students who are:

• Seeking initial licensure;
• Currently employed, full- or part-time, as an English language arts teacher in a Colorado public school;
• Looking to revitalize their work with students and their own knowledge;
• Deepening their understanding of contemporary literacy scholarship and broadening their background to explore new or contemporary ideas; and/or
• Deeply considering their practice and considering how they can do better and be better.

Students interested in pursuing an initial teaching license through CSU may refer to the Center for Educator Preparation (CEP). (https://www.chhs.colostate.edu/soe/center-for-educator-preparation/)

### Master of Arts in English, Plan A, TESL/TEFL Specialization

The Master of Arts in English, Plan A, TESL/TEFL specialization provides graduates with practical, theoretical, and critical knowledge of methods for teaching the English language in various social and academic settings. The program features an integrated core in which a comprehensive understanding of the form and communicative functions of the English language is combined with both general and skill-specific (reading, writing, listening, speaking) pedagogical theories and applications. These courses are designed to promote reflective inquiry, to provide students with the necessary tools for ongoing professional growth, to serve as models of effective pedagogy, and to introduce students to the various ways in which instruction can be enhanced by contemporary technologies. The connection of theory and practice is enhanced through a variety of supervised teaching experiences and the completion of a portfolio, project, or thesis.

### Master of Arts in English, Writing, Rhetoric, and Social Change Specialization

Master of Arts in English, Writing, Rhetoric, and Social Change Specialization students join a vibrant community of scholars who research the transformative potential of writing and rhetoric and analyze
the social, cultural, economic and historical forces shaping writing and rhetoric in theory and practice. Through analysis of and engagement with diverse contexts for writing, students create and apply methods for addressing shared social problems in classrooms and communities. Our graduates study in top tier rhetoric and composition Ph.D. programs, teach composition and rhetoric at secondary and post-secondary levels, and work for social change through careers in government, publishing, industry, and non-profit organizations.

Graduate Program in Ethnic Studies

The Department of Ethnic Studies seeks to teach students to understand the unique and interlocking experiences of racially marginalized groups and to analyze how race intersects with other forces of social differentiation, such as gender, sexuality, and class, in national and international contexts. The program recognizes the importance not only of the history of racial exclusion and marginalization but also the creative ways in which various racial groups sustain their humanity through cultural preservation, transference, and renewal. Ethnic Studies is committed to nurturing students to become culturally aware, astute, civic-minded individuals who strive to strengthen the communities in which they reside. Because the study of ethnic groups intrinsically reveals how race structures life chances and opportunities, the scholarly orientation of the department reflects a commitment to meaningful changes in public policy and social life. The department offers graduate-
level education to prepare students as leaders in the field of ethnic studies.

Students interested in earning a Master of Arts degree in Ethnic Studies should refer to the Graduate and Professional Bulletin and the Department of Ethnic Studies (http://ethnicstudies.colostate.edu/).

Major in Ethnic Studies

The Ethnic Studies major involves critically examining the interlocking forces of race, gender, class, sexuality, and other forms of social differentiation that shape the histories and experiences of racially marginalized groups. The programs of study interrogate how these socially constructed ideas impact distribution of social goods, affect life chances, shape identities and worldviews, and reproduce social inequalities. Drawing from interdisciplinary and comparative theoretical frameworks, we bring to bear issues of power, privilege, and social justice pertinent to the experiences of diverse populations in the U.S. and abroad. We are especially committed to nurturing civic-minded and culturally informed students who strive to strengthen the communities in which they reside. In support of the land-grant mission of CSU, students and faculty in the Ethnic Studies program engage with communities on and off-campus in order to effect meaningful change in public policy and social life.

Learning Outcomes

Upon completion of the program of study, students will demonstrate:

• An understanding of the key concepts shaping the experiences of various racial and ethnic groups in the United States and abroad.
• Familiarity with social histories and experiences of racial and ethnic groups.
• Effective oral communication, writing, and research skills.
• An increase in critical thinking, intellectual, and personal growth.
• An understanding of the value of social consciousness and personal responsibility.

Potential Occupations

Both theoretical understandings and practical experience in cross-cultural and inter-ethnic relations are invaluable in today’s world. Ethnic Studies graduates work in the following fields and occupations: K-12 and adult education (e.g. refugee/immigrant education, diversity training in the private sector); human social services including counseling, health care, and civil service; federal, state, tribal, and local government, and community service; natural resources development and technology transfer; practices, economics, and law in ethnic contexts; communications media such as newspaper, radio, video, and television; archival and museum studies; non-profit agencies; and advanced studies including graduate programs in the social sciences and professional programs (e.g. law, social work).

Concentrations

Minor in Ethnic Studies

The minor in Ethnic Studies provides an opportunity for students to take a group of courses that address the impact of race, culture, class, gender, and sexuality in shaping institutions, social relations, and identities. Regardless of the main area of students’ academic focus and career aspirations, a minor in Ethnic Studies will be advantageous as employers and organizations increasingly look for individuals capable of communicating across differences of identities.

Requirements

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

Effective Fall 2020

Students in the Ethnic Studies minor must earn a minimum grade of C (2.000) for all Ethnic Studies courses required for the minor.

Minor in Indigenous Studies

The objective of the Indigenous Studies minor is to provide students with a deep understanding of the theoretical positions and practical applications central to Indigenous ways of knowing and being. The minor is dedicated to foundational knowledge and awareness of Indigenous scholarship, priorities and ways of engaging.

Learning Objectives

• Describe and demonstrate knowledge of traditional and contemporary Indigenous cultural experiences and knowledge production through theories and conceptual practices of Indigeneity; distinguish from stereotypical ideas and images and/or the abundance of misrepresentations.

• Apply and explain central environmental approaches and paradigms of nature from Indigenous values, histories, norms, and contemporary engagements.

• Integrate and demonstrate skills in the application of Indigeneity as it relates to kinship, gender, sexuality that include critical, creative, concise and accessible comprehension.

• Assess and conduct research on historical and contemporary policy/law in written and oral content that include relevant application and accessible comprehension.

• Analyze research from Indigenous methodological perspectives. Describe the dissemination of knowledge from Indigenous scholarship paradigms.

Requirements

Effective Fall 2020

Additional coursework may be required due to prerequisites.

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Program Total Credits: 30

A minimum of 30 credits are required to complete this program.
1 Select enough additional credits to bring the program total to a minimum of 30 credits.

The following are specific requirements for the Ethnic Studies Master of Arts, Plan A:

- Minimum of 24 semester credits earned in residence at CSU, 21 credits must be earned after admission to the Graduate School.
- At least 21 credits must be 500-level courses or higher and at least 12 credits must be in regular courses.
- Additional elective courses include any ETST or other subject code graduate level course.

Master of Arts in Ethnic Studies, Plan B

The Master of Arts in Ethnic Studies, Plan B provides students with a comprehensive understanding of the enduring and transformative nature of race and ethnicity in the United States and around the globe. The program develops professional competencies in working with diverse communities to bring about meaningful social change. Through the development of strong research, writing, and oral skills, a master's degree in ethnic studies prepares students to become informed citizens and competitive job seekers. Our students are uniquely positioned to enter a workplace that is more diverse than ever, and where issues of race, ethnicity, gender, and sexuality, among others, are more relevant than at any time in the recent past.

Teaching Endorsement

The Teacher Preparation Program is a non-degree program; bachelor degrees in education are not awarded. Students interested in pursuing a teaching license through CSU may refer to the Center for Educator Preparation (CEP) (https://www.chhs.colostate.edu/soe/center-for-educator-preparation/) and the School of Education section for general information.

- Teaching Endorsement

Minor Programs

A minor in a foreign language offers opportunities for studying the language and culture of another country and complements many major fields. A student with a broadly based education, including a foreign language, will be better prepared to deal with changing technological, economic, and social conditions on an international scale. A student who minors in a foreign language may expect to develop sufficient competency to speak and write with reasonable accuracy and fluency while pursuing interest in language, literature, and culture. See the department for specific information on upper-division transfer work in the language of the minor.

All majors and minors in the department must earn a minimum grade of C (a grade of C- is not acceptable) in each upper-division course that carries the LARA, LCHI, LFRE, LGEN, LGER, LITA, LJPN, LLAT, LRUS, LSGN, or LSPA subject code.

Program Total Credits: 32

1. No more than six credits of these German elective courses may be taken in English.
2. If a student has credit for LGER 200 and LGER 201, they only need to take one additional elective course in their junior year.
3. Students must select either LGER 335 or LGER 336. Whichever of the two is not selected may be included among the selection of three courses in the junior year.
4. LGER 492 may be taken for up to six credits.
5. Select enough elective credits to bring the program total to a minimum of 120 credits, of which at least 42 must be upper-division (300- to 400-level). A minimum of 9 elective credits must be upper-division.

LSPA 492 Seminar-Spanish Language, Literature, and Society

Program Total Credits: 21

1 Students must complete lower-division language courses or place out of lower-division courses through the online placement test. Students who place into LSPA 201 or LSPA 300 will have to replace some or all of the lower-division credits with upper-division Spanish classes or other language-appropriate, department-approved, non-LSPA courses.

2 Designated courses count toward the culture or literature requirement.

3 Other courses, such as LSPA 495 or LGEN 290 may be petitioned to substitute for one of the courses above.

Any transferred language courses, other than gtPathways courses, will be evaluated by the Department of Languages, Literatures and Cultures for equivalency to CSU language courses or as substitutions for CSU language courses.

Interdisciplinary Minor in American Sign Language

The Interdisciplinary Minor in American Sign Language will increase students’ proficiency in sign language and provide them with key tools for the workforce of the 21st century. Students are provided a solid foundation in the way Deaf culture, Deaf history and language accessibility intersect with power, equality and human connection. A minimum of 21 credits is required for the program.

Requirements

Effective Spring 2020

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

Major in History

History analyzes the course of human affairs through evidence and reason. It sheds light on our present by showing how individuals and groups in the past made decisions, exercised power, and responded to changes through revolution, migration, war, ecological disturbance, and globalization. History also explains how people understood and sometimes exploited class, ethnicity, gender, race, and sexuality, and how they conceptualized the world through religion and ideology.

The Major in History also offers courses in public history (such as the National Parks, documentary films, and historic preservation), a Social Studies Teaching concentration, and as of Spring 2021, a new concentration in Digital and Public History, which gives students the
opportunity to apply twenty-first century tools and technologies to understand and interpret the past.

The Major in History is designed to enlarge students’ knowledge about the past, improve their ability to think logically and critically, and sharpen their powers of written and oral expression. It is an outstanding choice for students planning further professional study in law, medicine, ministry, academia, business, and many other fields.

**Learning Outcomes**

Students in History courses:

- Analyze and interpret historical materials, such as documents, material artifacts, and images;
- Engage in chronological reasoning to understand causation and change over time;
- Examine critically how people in the past understood their own history in scholarly works and in popular forms such as myths, memorials, and other public commemorations;
- Interpret, write, and speak about the past using evidence and according to the standards and expectations of the historical discipline, including honest use of evidence, openness to multiple perspectives, and historical empathy; and
- Analyze both change and continuities over time by considering how events such as revolution, migration, war, ecological disturbance, and globalization changed societies as well as how structures like class, ethnicity, gender, race, sexuality, climate and religion shaped societies over a longer time horizon.

**Potential Occupations**

- Government official in foreign service, national security, military, cultural resources management, and other areas;
- History teacher in public and private schools;
- Any professional occupation in business or public service requiring a liberal arts education and skills in research, writing, and the analysis of information;
- With additional graduate training: lawyer, physician, social worker, minister, librarian, museum curator, archivist, professor, educational administrator, or other professional.

**Concentrations**

- Digital and Public History Concentration
- General History Concentration
- Language Concentration
- Social and Behavioral Sciences Concentration
- Social Studies Teaching Concentration

**Major in History, Digital and Public History Concentration**

The Digital and Public History Concentration offers students an opportunity to focus their coursework in public history (such as the National Parks, museums, documentary films, historic preservation, and cultural resources management) and digital history which give students the opportunity to apply twenty-first century tools and technologies to understand and interpret the past.

**Requirements**

**Effective Spring 2021**

A minimum grade of C (2.00) must be earned in HIST 492 and all 100-level courses required in the history major.

### Major in History, General History Concentration

The General History concentration is an excellent choice for students planning careers in history, government service, or other professional occupations requiring broad intellectual and practical skills. This concentration is also a good choice for students who want an introduction to and training in public history to work in museums, government agencies, consulting, and historical societies. History majors who select the General History concentration must complete another major or minor offered at CSU (except the minor in History).

**Requirements**

**Effective Fall 2019**

A minimum grade of C (2.00) must be earned in HIST 492 and all 100-level courses required in the history major.

**Major in History, Social Studies Teaching Concentration**

The Social Studies Teaching concentration is for students who plan to teach in middle school, junior high, or high school. Students must also complete the requirements for the Social Studies Undergraduate Teaching Licensure through the Center for Educator Preparation (CEP) (http://cep.chhs.colostate.edu/) in the College of Health and Human Sciences.

Students interested in pursuing a teaching license through CSU may refer to the Center for Educator Preparation (CEP) (http://cep.chhs.colostate.edu/) and the School of Education, or visit the Education Building, Room 111 for general information.

**Requirements**

**Effective Fall 2020**

**Distinctive Requirements for Degree Program:**

During their sophomore year, students must apply for admission to the licensure program. This requires completion of at least 30 credits, a minimum 2.750 3.000 GPA, and passing a criminal background check. To continue in the major, students must maintain a 3.000 GPA. Grades in all History, Social Studies and Education courses must be C (2.000) or above.

Minor in History

The minor in History allows students to explore historical questions and issues while broadly exploring the past or pursuing a specific concentration. In addition to gaining knowledge in specific subjects – including the history of humans and the environment, empires, race, immigration, war and society, gender and sexuality, digital history, public history, and religion across multiple continents – the minor in History trains students to use and apply the tools and methods of historical analysis.

The customizable minor consists of 21 semester credit hours, 12 of which must be taken at the upper division level, and complements a wide variety of majors in other disciplines. Majors in international studies, political science, economics, natural resources, foreign languages, literature, and philosophy will be provided with a historical understanding of social, cultural, political, and economic issues. Majors in business, mathematics, the sciences, and communication can use the minor to apply interpretive and analytical skills to evaluate and assess evidence and sources.

To declare the minor in History, please obtain a declaration form from the History Office, B356 Clark.

Requirements

Effective Fall 2019

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.
The Master of Arts in History, Plan B, Public History Specialization, Cultural Resource Management Option emphasizes the identification and interpretation of historic and prehistoric resources held by public land agencies, such as the National Park Service and U.S. Forest Service. It requires a broad understanding of cultural heritage that includes archaeological sites and historic landscapes. CRM professionals often enter careers within federal agencies.

Major in Journalism and Media Communication

The study of journalism, mass communication, and specialized media combines high-level professional training with a broad foundation in the liberal arts. All students complete a common 21-credit core, including writing, multimedia, and conceptual courses, as well as a capstone course and an internship. Students work closely with a faculty advisor to select an additional 19 credits in a focus area crafted to match their career interests. Practical experience can be gained on the staffs of the daily Rocky Mountain Collegian, the award-winning campus television station Collegian TV, College Avenue magazine, and KCSU-FM Radio. Graduating seniors present professional portfolios for assessment by panels of faculty and communication professionals from Denver and elsewhere in Colorado. Because successful communicators require broad knowledge, this flexible program encourages development of a background in the humanities, social sciences, natural sciences, and in-depth study in an area of interest outside journalism. The addition of a minor or double major in disciplines such as political science, information technology, history, economics, business, communication studies, psychology, the arts, or natural or applied sciences is possible.

The Department of Journalism and Media Communication is one of a relatively small number of departments formally recognized by the Accrediting Council on Education in Journalism and Mass Communications. Participation in volunteer activities, cooperative education opportunities, or communication-related part time jobs is highly recommended to enhance practical training and development.

Learning Outcomes

Students will demonstrate:

- Competence in writing, editing, and producing media messages as well as in planning, designing, and evaluating effective public information programs.
- Knowledge and use of communication theory and research principles to guide the selection of communication audiences, message content and format, and media channels to enhance communication impact.
- Understanding of the ethics, laws, and values associated with professional communication activity.

Potential Occupations

The Journalism and Media Communication program emphasizes the role of mass and specialized media in society and prepares students for entry-level work in private business, government, and education. Depending upon the focus of study, students may find career opportunities in a wide variety of professional communication venues. Specific career opportunities may include: advertising copywriter, designer, or producer; agriculture writer, reporter, or editor; attorney specializing in communication law; blogger, columnist, or editorial cartoonist; college professor; communications manager or director; company spokesperson; corporate media specialist; e-mail and direct mail strategist; environmental media specialist; freelance writer, editor, or photographer; health writer, editor, or producer; marketing coordinator; media relations director or strategist; multimedia producer; non-profit communications director; novelist or non-fiction author; reporter or photojournalist for the web, magazines, newspapers, or television; owner of public relations agency or production company; professional speaker; public affairs officer for government agency; public relations agency account executive; publication designer for magazines or newspapers;
radio disc jockey, reporter, or music director; reality television producer, writer, photographer, or on-camera talent; science writer or editor; social media specialist; sports writer, photographer, or producer; technical writer or editor; teacher for any level of K-12 education upon completion of appropriate licensing (see the Center for Educator Preparation (http://cep.chhs.colostate.edu/); television news anchor or program host; television or radio news program producer or director; television documentary producer; travel writer, photographer, or program host; video editor for news, corporate, or entertainment television; website designer and manager.

Requirements
Effective Fall 2018

All majors in the department must earn a minimum grade of C (a grade of C- is not acceptable) in each course that carries the JTC subject code.

Association for Education in Journalism and Mass Communication Accreditation Requirements

Majors in Journalism and Media Communication must take a minimum of 40 credits of JTC courses and a minimum of 72 credits outside of JTC.

Of the 72 credits outside of JTC, 21 must meet one of the following Second Field criteria with approval of advisor:

1. a Minor;
2. an Interdisciplinary Minor;
3. 21 credits in one subject code;
4. 9 credits from one subject code and 12 credits from a second subject code;
5. a selection of 21 credits comprising a Second Field developed by the student and the advisor.

Courses taken outside of the department may include All-University Core Curriculum (AUCC) courses, Minor or Second Field courses, or any other out-of-department (non-JTC) courses used to complete the major as approved by advisor.

The 40 JTC required credits include 21 credits specified in the curriculum below plus 19 credits of directed electives to create an individualized focus area from the following 4 categories (Writing, Production, Internship/Practicum, Additional credits).

Directed Electives for Individualized Focus Area

Over the sophomore, junior, and senior years, students must complete a minimum of 19 credits in an individually designed focus area. Students must select those 19 credits from among the following categories and courses in consultation with advisor, as follows:

1. Of the 21 credits required for the Second Field, 12 must be upper-division (300- to 400-level) and none may be from JTC.

2. With approval of the department and advisor, students may substitute a 400-level Journalism and Media Communication study abroad course for 1 credit of the Internship/Practicum requirement and up to 3 credits of the Additional Credits requirement, for a maximum total of 4 credits for study abroad.

3. High-achieving students, with approval of advisor, may select JTC 544 to satisfy 3 credits of the Additional Credit requirement.

4. Select a minimum of 19 credits of Focus Area courses and 21 credits of Second Field courses over the sophomore, junior, and senior years, in consultation with advisor.

5. Select a three-credit statistics course offered by any department, with approval of advisor.

6. Select 3 credits other than JTC 300 from the list of courses in category 2 of the All-University Core Curriculum (AUCC).

7. Select 3 credits other than JTC 100 from the list of courses in category 3C of the AUCC. Students in this major must take 3 credits of Social and Behavioral Sciences other than JTC 100, which is required in the freshman year.

8. Of the 23 credits required for out-of-department courses in the junior and senior years, a minimum of 5 credits must be upper-division (300- to 400-level).

9. If either JTC 411 or JTC 415 was taken as a Concept Course in the junior year, students may take any different concept course here. High-achieving students, with approval of advisor, may select JTC 535 as an alternative here, providing they have completed or will complete the AUCC category 4B requirement with another course.

Program Total Credits: 120
Technical and Science Communication Minor

Dakota Cotner, Coordinator
Journalism and Media Communication
Clark Building, Room C244

The minor in Technical and Science Communication is designed to educate highly qualified communicators who have interests in specialized academic disciplines and career fields. Because science and technology often involve complicated research and processes, communicating the results of that work requires special skills. This program is designed to prepare students for a wide range of niche career opportunities in media, corporate communication, technology related industries, and scientific environments.

Students in this minor will learn to write and manage communication efforts, with a focus on turning complex ideas and processes into simple, clear messages applicable for publication and electronic delivery via broadcast, cable, or online. The accuracy and effectiveness of this communication is especially important as the internet and the ubiquity of mobile devices make the delivery and consumption of information widely available. Having the skills to interpret and communicate complicated processes provides significant career advantages in one of the highest-paying areas of professional communication.

Requirements
Effective Fall 2018

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

### Master of Communications and Media Management, Plan C (M.C.M.M.)

The Master of Communications and Media Management, Plan C (M.C.M.M.) is designed for students with a bachelor's degree seeking to transition to a communication-related career, or for those seeking to move up into a management role in their present media profession. The rapid rate of technological change in media technology has created a need for constant retraining and the acquisition of new multimedia knowledge and management skills. The program curriculum is designed to provide students with a comprehensive overview of "new media" developments. Upon completion of the program, students will be prepared to strategize and manage specific communications projects, as well as manage and direct staff members or contract workers in a communications unit within a corporate, educational, or nonprofit organization.

Dr. Daniel Goble, Director, School of Music, Theatre, and Dance

Undergraduate

The School of Music, Theatre, and Dance at CSU provides a rigorous undergraduate educational experience.

CSU Music is focused on the belief that music is both an artistic and intellectual pursuit. We offer intense training in specialized music disciplines combined with a balance of core music courses in music history and theory. Our renowned and versatile faculty are committed to helping students discover their own unique identities through music. We offer B.M. degrees in Music Therapy, Music Education, Music Composition, and Music Performance, as well as a B.A. in Music. Additionally, undergraduates can earn a performance-based music minor.

CSU Theatre emphasizes a reciprocal relationship between practice and scholarly study. Students explore every aspect of theatre, including the theory and practice of acting, singing, theatrical design, stage management, technical theatre, dramaturgy, dramatic criticism, storytelling, and playwriting. Students pursuing a B.A. in Theatre choose one of three concentrations: General Theatre, Performance, or Design and Technology. Each concentration provides fundamental skills and experiences in theatre within a liberal arts context.

CSU Dance offers programs in classical and contemporary dance education culminating in either a B.F.A. or a B.A. in Dance. Students will focus on areas such as performance and technique; choreography and improvisation; pedagogy and teaching methodologies; history and theory; and theatrical production and design. Dance majors will explore the many possibilities for movement expression, along with creativity and scholarly examination, in a challenging and supportive environment.

Graduate

The department offers graduate programs leading to the Master of Music (M.M.), offering students the skills and experience necessary to become highly skilled music educators, music therapists, performing artists, and conductors.

The vibrant learning environment fosters and supports creativity and growth while high standards of teaching, scholarship, performance and research are developed. We are pleased to offer small academic classes, applied study with highly qualified faculty, and careful attention to advising. With over 100 performance dates a year, performance opportunities are extensive and the department represents the arts on campus in a highly visible and prestigious environment.

Applicants to graduate programs in music must have a B.M., B.M.E., or equivalent bachelor’s degree. Students interested in graduate work should refer to the Graduate and Professional Bulletin and the School of Music (http://music.colostate.edu/).

Major in Dance

Office in University Center for the Arts, Room 120
(970) 491-5529
SMTD@colostate.edu
dance.colostate.edu (http://dance.colostate.edu)

Professor Emily Morgan, Director

Welcome to CSU Dance, where we offer a collaborative dance training center that prepares majors for professional careers in dance related fields. Dance students explore the many possibilities for movement expression, along with creative and scholarly examination, in a challenging and supportive environment. In addition to regular training in classical and contemporary dance techniques, the curriculum requires performance, choreography, pedagogy, production, and theoretical coursework. Numerous performance opportunities include four main stage productions each year, and regular guest artist residencies and masterclasses.
Students across the university are encouraged to audition for placement in performances and dance classes. Auditions are held each semester. Come join the dance community at CSU!

Why Dance at CSU

- Diverse faculty with expertise and qualifications on national and international levels
- Comprehensive curriculum with an emphasis on career preparation in a liberal arts setting
- Experiential coursework and leadership opportunities including supervised teaching, direction, choreography, and performance
- Individualized mentorship from faculty and fellow students
- Live musical accompaniment for technique classes
- Exceptional guest artist residencies and masterclasses with world-renowned artists from companies such as Compagnie Käfig, Complexions Contemporary Ballet, Martha Graham Dance Company, Keigwin + Company, Parsons Dance, and more
- Community partnerships with the Fort Collins Lincoln Center and Poudre School District
- Travel opportunities for majors to attend Colorado Dance Education Organization, National Dance Education Organization, and the American College Dance Association conferences
- World-class facilities and immersive arts environment in the University Center for the Arts
- Excellent general education at a premier research university ranked in the top tier of the nation’s best universities (U.S. News and World Report)
- Ability to double major or minor in a variety of other disciplines to enhance career prospects
- Alumni achievements in dance performance, teaching, choreography, arts advocacy and management, theatrical production, fashion design, exercise science, physical therapy, business, education, and somatic practices

Majors

- Major in Dance, B.F.A.
- Major in Dance, B.A.

Major in Dance, B.A.

Colorado State University offers a rigorous classical and contemporary dance program culminating in a Bachelor of Arts in Dance. The degree requires a strong physical and mental commitment and an eagerness to learn and improve, and consists of 120 total credits with the following focus areas:

- Performance and Technique
- Choreography and Improvisation
- Pedagogy and Teaching Methodologies
- History and Theory
- Theatrical Production and Design

Our B.A. degree offers intensive training in dance technique and performance, choreography, and pedagogy, designed to prepare students for a variety of dance-related careers after college. Technique classes in classical and contemporary forms are aimed at achieving a high level of performance and artistry. Students have multiple opportunities to apply theoretical knowledge in tangible ways, such as performance of repertoire, supervised teaching, supervised concert direction, and choreography for concerts. Beginning freshman year, students are eligible to perform in our four, annually produced dance concerts. The School of Music, Theatre, and Dance is comprised of esteemed faculty and administrative and production staff, all dedicated to supporting student education in the arts.

**Major in Dance, B.F.A.**

Colorado State University offers a rigorous classical and contemporary dance program culminating in a Bachelor of Fine Arts in Dance. The degree requires a strong physical and mental commitment and an eagerness to learn and improve, and consists of 120 total credits with the following focus areas:

- Performance and Technique
- Choreography and Improvisation
- Pedagogy and Teaching Methodologies
- History and Theory
- Theatrical Production and Design

Our B.F.A. degree is a professional education program designed to prepare students for careers in dance. Dance students explore the many possibilities for movement expression, along with creative and scholarly examination, in a challenging and supportive environment. Curriculum is focused on classical and contemporary dance performance, choreography, and pedagogy. This holistic approach also includes anatomy and kinesiology, music, production design, and career development. Technique classes in classical and contemporary forms are aimed at achieving an advanced level of performance and artistry. Students have multiple opportunities to apply theoretical knowledge in tangible ways, such as performance of repertoire, supervised teaching, supervised concert direction, and choreography for concerts. Beginning freshman year, students are eligible to perform in our four, annually produced dance concerts. The School of Music, Theatre, and Dance is comprised of esteemed faculty and administrative and production staff, all dedicated to supporting student education in the arts.
## Requirements

**Effective Fall 2020**

A successful audition is required prior to entrance into the B.F.A. in Dance. A minimum grade of C is required in all dance courses required for this major.

Major in Music (B.M.)

Our primary goal is to prepare students to become highly skilled music educators, music therapists, performers, and composers. Program goals encourage and develop high standards of teaching, scholarship, performance, and research in music. We are pleased to offer small academic classes, applied study with highly qualified faculty, and careful attention to advising. Courses in music appreciation, music theory fundamentals, and ensembles are open to all students regardless of major.

A successful audition is required prior to entrance into any B.M. Music degree program. Please refer to the admissions office of the School of Music, Theatre, and Dance (https://music.colostate.edu/admissions/undergrad-apply/) for information regarding auditions and specific application requirements.

Learning Outcomes

Students will demonstrate:

- Ability to perform music from a variety of historical/ style periods, and exhibit the appropriate skills for musical self-expression in juried performances. These skills include: technique, musicianship, tone, diction/articulation, style, interpretation, sight-reading, rhythm, and artistry.
- Keyboard skills.
- The capacity to create original or derivative music.
- Understanding of the common elements and organizational patterns of music, including musical forms, processes, and structures.
- Knowledge of music history and repertory, including representative composers and works according to the area of specialization, as well as study and experiences with music in addition to that of the primary culture encompassing the area of specialization.

Students are also expected to learn music literature from all periods through aural and score analysis. Performance skills are tested at the end of the sophomore year and in a graduation recital if required by the degree option. Some programs require satisfactory completion of supervised student teaching, an internship, or a senior project.

Potential Occupations

The professional undergraduate music curricula at CSU can lead to personally fulfilling careers as music educators, music therapists, performers, composers, private teachers, and entrepreneurs. Music graduates from CSU have successfully gained employment in public and private schools, hospitals and institutions, and as professional performers and composers.

1. Students with previous keyboard experience may test out of MU 150 and/or MU 151B and replace with the same number of elective credit(s).

2. First-year voice students take MU 172A and MU 172B, then MU 272Q the second year for 2 semesters. Instrumentalists take MU 272A-MU 272P or MU 272R-MU 272V on a major instrument for 2 semesters each of the first 2 years.

3. Students must participate in an ensemble during each semester in which they are enrolled in MU 172A-MU 172B or MU 272A-MU 272V. An additional four credits of ensembles are to be completed in semesters of the student’s choosing for a total of eight credits. At least one semester during the program of study, this must be achieved by taking MU 408 or another small ensemble.

4. Voice students take two credits of electives. Instrumentalists take four credits of electives.

5. Select enough elective credits to bring the program total to a minimum of 120 credits, of which at least 42 must be upper-division (300- to 400-level).

## Major in Music (B.M.), Music Education Concentration

The Music Education concentration prepares students for teaching choral, instrumental, and general music in elementary and secondary schools. This degree prepares students to apply for music teaching licensure (grades K-12) in the state of Colorado. CSU's outstanding music education faculty members are in demand as clinicians, guest lecturers, conductors, and researchers. A feature unique to the accredited music education curriculum is extensive field experience that students receive throughout their coursework, culminating in a semester of student teaching at the end of the program. Students must select one of two options: instrumental or choral.

A successful audition is required prior to entrance into the B.M. in Music.

### Options

- Students must participate in an ensemble during each semester in which they are enrolled in MU 172A-MU 172B, MU 272Q, and MU 472Q. At least once during the program of study this must be achieved by taking MU 408 or through another small ensemble experience.

### Major Completion Map

**Distinctive Requirements for Degree Program:** A minimum grade of C (2.000) is required in all music courses used to satisfy the requirements of the BM in Music, Music Education Concentration, Choral Option. Music majors concentrating in music education must also complete all required education courses with a minimum grade of C (2.000).

**To Declare this Major:** Audition with department.

**Major in Music (B.M.), Music Therapy Concentration**

The Music Therapy concentration is designed to prepare students for careers in music therapy, an allied health profession whose members generally work as part of interdisciplinary teams in hospitals, clinics, rehabilitation facilities, assisted living centers, and special education settings. Some music therapists maintain private practices or serve as consultants. Music therapists are specialists in the clinical use of music to facilitate motor skills, cognitive abilities, communication, and social outcomes for individuals with disease or disability. The Music Therapy concentration at CSU is internationally recognized for its leadership in clinical training and research. The curriculum includes a strong emphasis in music, the neurosciences, psychology, and music therapy methods.

**Requirements**

**Effective Fall 2020**

A minimum grade of C (2.000) is required in all music courses used to satisfy the requirements of the BM in Music, Music Therapy Concentration.

Students with previous keyboard experience may test out of MU 150 and use the one credit for an elective.

First-year voice students must take MU 172A and MU 172B, then MU 272Q the second year for two semesters; instrumentalists take MU 272A-MU 272P or MU 272R-MU 272V on a major instrument for 2 semesters each of the first two years.

Students must participate in an ensemble during each semester in which they are enrolled in MU 172A-MU 172B, MU 272A-MU 272V, and MU 472A-MU 472V. At least once during the program of study, this must be achieved by taking MU 408 or through another small ensemble experience.

**Major in Music (B.M.), Performance Concentration**

The Performance concentration prepares students for potential professional careers in the music and creative industries as performers, entrepreneurs, and private music teachers. It also prepares students for continued study at the graduate level. The curriculum provides a strong foundation in music history, music theory, and performance, with many opportunities for performance, including large and small ensemble participation as well as solo recitals.
In order to complete the Performance concentration, students must select from one of the following options: jazz studies, orchestral instrument, organ, piano, piano pedagogy, string pedagogy, and voice.

**Options**
- Jazz Studies Option
- Orchestral Instrument Option
- Organ Option
- Piano Option
- Piano Pedagogy Option
- String Pedagogy Option
- Voice Option

**Major in Music (B.M.), Performance Concentration, Jazz Studies Option**

The Jazz Studies option offers instrumental students a balanced course of study in both performance and academic classes to help them develop their skills as jazz artists and educators. Students in the program have the opportunity to study jazz history, theory, improvisation, pedagogy and composition and arranging, in addition to taking private lessons with both traditional applied faculty and jazz specialists.

**Requirements**

**Effective Fall 2017**

A minimum grade of C is required in all music courses used to satisfy the requirements of the BM in Music, Performance Concentration, Jazz Studies Option.

Students with previous keyboard experience may test out of MU 150 and/or MU 151B and use the credit(s) for an elective.

Students must participate in an ensemble during each semester in which they are enrolled in MU 172A-MU 172B, MU 272Q, and MU 472Q. At least once during the program of study, this must be achieved by taking MU 408 or through another small ensemble experience. MU 401 must be taken prior to or concurrently with TH 352 in the Sophomore year.

Take two semesters each during the sophomore, junior, and senior years.

Select enough elective credits to bring the program total to a minimum of 120 credits, of which at least 42 must be upper-division (300- to 400-level).

Major Completion Map

Distinctive Requirements for Degree Program: A minimum grade of C is required in all music courses used to satisfy the requirements of the BM in Music, Performance Concentration, Voice Option.

To Declare this Major: Audition with department.

**Major in Music (B.A.)**

The Bachelor of Arts (B.A.) in Music allows students to study music within a larger context of a liberal education. In comparison to the curriculum leading to the Bachelor of Music (B.M.), less emphasis is placed on studies specifically in music, with greater flexibility for studies in a field outside of music. In lieu of a larger number of credits in music as required for the B.M, the B.A. student completes a 21-credit option in an area outside of music. In addition, completion of a major paper or capstone recital (half recital) is required during the senior year.

A successful audition is required prior to entrance into the B.A. in Music.

**Requirements**

A minimum grade of C is required in all music courses used to satisfy the requirements of the major programs (B.A. and B.M.) in music.

**Effective Fall 2020**

Minor in Music

A performance-based minor in Music enables a student to broaden career opportunities in disciplines outside of music, or to continue pursuing music studies within the structure of a minor program. The minor in Music requires a successful audition prior to entrance, and includes eight semesters of ensemble participation.

Requirements

Effective Fall 2007

A successful audition is required for acceptance into this program.

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

Master of Music, Choral Conducting Specialization

The Master of Music, Choral Conducting Specialization program is committed to musical excellence with a curriculum designed to build a well-rounded conductor/teacher, using the musical and personal strengths of the graduate choral conducting student.

By the completion of the program, the student will have developed advanced conducting skills and techniques that are appropriate to a variety of musical needs. The student will learn effective rehearsal techniques, score preparation, and become a knowledgeable scholar of important choral scores representing repertoire of various music periods and secular and sacred styles.

The choral conducting specialization accepts a limited number of students who pursue a variety of professional goals, including education and directors of choral/instrumental ensembles. Students who are full-time music educators at the middle/high school levels will be considered if they have three years prior teaching experience and are presently conducting an ensemble(s). Students who are not public school educators must show a minimum of three years of full-time music/conducting employment and be presently conducting a high school, religious, or community ensemble.

To develop the musicianship and skills that will be important for the student’s future professional success, graduate courses are organized in the areas of music literature and theory, the choral/vocal instrument, conducting, and teaching.

Master of Music, Instrumental Conducting Specialization

This program is committed to musical excellence with a curriculum designed to build a well-rounded conductor/teacher, using the musical and personal strengths of the graduate conducting student. The program offers two options: the M.M., Choral Conducting Specialization, and the M.M., Instrumental Conducting Specialization; both of which require a two-year residency.

By the completion of the program, students will have developed advanced, personal conducting skills and techniques that are appropriate to a variety of musical needs. The student will learn effective rehearsal techniques, score preparation, and become a knowledgeable scholar of important instrumental and choral scores representing repertoire of various music periods and secular and sacred styles.

Master of Music, Music Education Specialization

This program is designed for elementary and secondary music teachers who already hold a K–12 state music-teaching license or the international equivalent. Specifically, this program is designed to inspire and develop the next generation of leaders in the field of music education by developing and applying scholarly research skills in the field of music education, the in-depth study of advanced pedagogical expertise, and the impact of contemporary learning theory on K–12 music education.

In this program, successful students will have the opportunity to gain content knowledge regarding the history and philosophy of music education; an understanding of how quantitative, qualitative, and historical music research is conducted; advanced skills in music analysis and interpretation; and a contemporary understanding of the pedagogy of music teaching and learning. Students will also have the opportunity to participate in CSU music ensembles to continue to develop as musical artists. Additionally, students are expected to be full-time students in residence and will likely be given the opportunity to teach or assist with undergraduate music education coursework depending upon level of expertise and program demands.

The degree coursework is designed to be completed over a time span of two years and includes both on-campus and online coursework. Students in this program are encouraged to take advantage of the diverse summer and/or online elective offerings.

Master of Music, Music Education—Composition Specialization

The Master of Music in Music Education, Composition Specialization (MMECS) is intended as a professional degree with specialized training towards composing music for educational ensembles and incorporating composition, improvisation, and music theory into K–12 music classrooms. Students enrolled in the program will produce original compositions for educational ensembles and have them performed publicly by student ensembles.

The degree option in music education with a specialization in composition is designed to provide music educators with the ability to apply compositional and arranging skills and the pedagogy of the creative process to the classroom in K–12 settings. This provides an option for a master’s degree in music education for students with an interest in composition, arranging, and the pedagogy of the creative process as opposed to the more traditional CSU graduate music education offerings of conducting, Kodály, instrumental, and choral.

Master of Music, Music Education—Conducting Specialization

Classes in the Master of Music, Music Education - Conducting Specialization are designed for current middle school and high school choir, band, and orchestra directors who seek to further their personal knowledge and conducting skills while earning a master’s degree, completing most of their course work in three summers. The two-week conducting seminar (four credits each summer) includes daily conducting opportunities in all three disciplines with a workshop orchestra, band, and choir, providing further hands-on training. All participants learn to conduct in all three disciplines.

In addition, each student takes three, 3-credit academic classes (music history, analytical techniques, and music research), one 3-credit music education course (Foundations of Music Education), and three, 1-credit seminars on various topics of interest to music educators. These courses are either offered on campus during the summer or online during the school year.

The complete program consists of 30 credits. A maximum of six credits of academic courses can be transferred to your graduate program from NASM-accredited universities pending approval by your advisor and the Graduate School (https://graduateschool.colostate.edu/).

Master of Music, Music Education—Kodály Emphasis Option

The Master of Music, Music Education - Kodály Emphasis Option is a graduate program designed for elementary classroom music teachers, independent music instructors, and secondary music teachers interested in developing their teaching, conducting, musicianship, and depth of knowledge about music education.

One unique aspect of this program is that it enables students to earn national certification in Kodály music teaching through CSU’s Colorado Kodály Institute while earning a master’s degree. The Colorado Kodály Institute (CKI) is one of the select programs endorsed by the Organization of American Kodály Educators (https://www.oake.org/). CKI faculty are among the top experts in the United States, and the University Center for the Arts location, at the foothills of the Rockies, provides an inspiring setting for personal growth.

The degree is designed to be completed over a time span of three summers with a minimum of 30 total credits, with several online and/or evening courses required to be taken during the school year. Students have the option, therefore, of living remotely during the school year and traveling to Fort Collins for the core summer coursework. The majority of participants in this degree program teach either part or full-time during the school year, gaining relevant experience while pursuing the graduate degree. As a result, they are continually assimilating real-world teaching experiences into their academic coursework. The degree is officially conferred at the end of the fall semester following the term in which all course work has been completed.

Applicants are expected to be State-Licensed Music Teachers* and demonstrate excellent musicianship and interpersonal skills.

* Exceptions may be made by the Music Education area on a case-by-case basis.

Master of Music, Performance Option

The Master of Music, Performance Option is a comprehensive approach to the study and performance of literature in all styles and idioms of music. The curriculum is designed to develop musicianship, technical proficiency, and cultural awareness in both performance and pedagogy. Regardless of degree concentration, the graduate student will maintain regular study on their applied instrument or voice and additional directed areas based on individual goals and needs. Graduate students may choose to specialize in one or more areas as they work toward degree requirements.

The intent of this option is to prepare students with outstanding performance potential to be competitive in performance and teaching careers and to be advocates for the arts in their communities. They may help meet the needs for skilled performers of solo, small, and large ensemble music, and they will be able to teach in a university and help meet the considerable community demand for excellent private studio teachers.

Unique performance opportunities include the Graduate String Quartet/Trio program and professional organizations in Fort Collins’ thriving arts community.

A minimum of 32 credits are required to complete this program.

1 Select course(s) with approval of advisor and graduate committee.
2 Majors in vocal performance are required to be proficient in Italian, German, and French singing diction as well as the use of International Phonetic Alphabet upon entering the program, or to take the appropriate coursework to make up deficiency as soon as possible. In addition, they should have academic proficiency in two of the following languages other than English: French, Italian, and German. The level of proficiency for each language must be equal to a grade of “B” or better.
3 Music literature course(s) will be in the student’s major instrument or voice. Course requirements include a paper, copies of which will be distributed to the graduate committee as a sample of the student's scholarship.

Master of Music, Plan A, Music Therapy Specialization

The Master of Music, Music Therapy Specialization is intended to provide Board Certified music therapists with advanced training in clinical skills and research. Our curriculum specializes in neuroscience and evidence-based music therapy to improve sensorimotor, speech and language, and cognitive function in children and adults who have disabilities. Specifically, the study of music therapy is designed to prepare music therapists for advanced clinical work in music therapy, as music therapy supervisors, administrators, and for teaching positions at the college or university level.

Two master’s curriculum tracks are offered: the first is a thesis program of 30 credit hours (Plan A) designed to provide students with the opportunity to complete a substantial research project. The second track is a 32-hour program (Plan B) that requires, in lieu of a thesis, additional course work in music therapy, a final project, and a common final exam. Either program prepares the student to pursue doctoral study. Our academic curricula meet the standards of the American Music Therapy Association (https://www.musictherapy.org/) and the National Association of Schools of Music (https://nasm.arts-accredit.org/).

Applicants are expected to be Board-Certified Music Therapists (or eligible to sit for the exam) and demonstrate excellent musicianship and interpersonal skills.

The Master of Music, Music Therapy Specialization is offered on-campus (https://music.colostate.edu/music-therapy/) or online (https://www.online.colostate.edu/degrees/music-therapy/).

Major in Theatre

Office in University Center for the Arts, Room 120
(970) 491-5529
smtd@colostate.edu
theatre.colostate.edu (http://theatre.colostate.edu)

Professor Price Johnston, Director

Student performing artists find a welcoming place of study in the School of Music, Theatre, and Dance.

At CSU, faculty, staff, and professional guest artists — all with extensive experience on stages ranging from Broadway to regional theatres, and worldwide — provide students an experienced lens through which to study every aspect of theatre, including the theory and practice of acting, singing, theatrical design, stage management, technical theatre, dramaturgy, dramatic criticism, storytelling, and playwriting.

Upon admission to CSU and declaration of the Bachelor of Arts in Theatre major, students choose one of three concentrations: General Theatre, Performance, or Design and Technology. No matter which concentration is selected, the program provides students with fundamental skills and experiences in theatre within a liberal arts context, preparing students for graduate study in theatre, and/or potential employment opportunities in a variety of fields related to theatre, film, and other creative endeavors.

As a theatre major, students will be challenged academically and artistically with a wide range of performance opportunities and occasions to collaborate across the School of Music, Theatre, and Dance on a shared theatrical vision.

Comprehensive training occurs in classrooms, labs, shops, rehearsal studios, and in annual productions of plays, musicals operas, dance concerts, and special events, produced by a company of student actors, directors, designers, and technicians under the mentorship of our professional faculty and staff. These outstanding artists and technicians provide small class sizes and individualized teaching and advising.
Major in Theatre, Design and Technology Concentration

Stage and laboratory are synonymous at CSU as students, supported by a faculty and staff of working professionals, learn to apply artistic approaches and industry practices in all areas of design and production. Students take foundational courses in set design, costume design, lighting design, sound design, projection design, and stage management, exploring their ideas in the classroom as well as production on plays, musicals, operas, music events, and dance concerts.

This interdisciplinary and collaborative concentration is geared towards creative and imaginative, open-minded individuals with a drive for excellence. Many design and technology students work in multiple areas and most shows are designed and stage managed by undergraduate students from all disciplines, typically adding four shows to their portfolios each year.

Design and Technology students have five world-class venues plus multiple labs and shops available for their use, including a design lab, CAD Lab, scene shop, paint shop, costume shop, sound/video editing lab, lighting lab, and acting labs.

### Major in Theatre, General Theatre Concentration

Generalists explore a selection of courses from both the performance concentration and the design and technology concentration, within the context of the liberal arts. Students emerge as well-rounded, renaissance artists and technicians who begin to develop an artist's aesthetic and world-view. Through real-time production experiences, students learn to think critically and creatively, adapting to the rapid-paced, high-energy world of the performing arts. Students develop the confidence, skills, portfolios, and industry connections needed to pursue a broad base of careers in the performing arts and other disciplines, or pursue further study at the graduate level.

**Major in Theatre, Performance Concentration**

CSU's performance concentration equips students with the skills needed to pursue a variety of fields related to their own creative and professional paths. Engaged with their passion and imagination, young performers receive rigorous training in text analysis, acting technique, movement, voice and speech, emotional expression, and critical thinking. In the process of understanding theatre, they make visceral connections between the physical, emotional, and scholarly as they harness their own stories and artistic vision.

The concentration emphasizes both the theoretical and practical aspects of theatre, and focuses on developing well-rounded, responsible artists,
leaders, and communicators who value collaboration within an artistic community.

Major in Philosophy

Philosophy is the oldest form of systematic, scholarly inquiry. It is the study of the most basic moral, legal, aesthetic, religious, and metaphysical ideas by which we quest for understanding and develop principles of conduct. Philosophers seek to establish standards of evidence, provide rational methods of conflict resolution, establish criteria for just social orders, and create techniques for evaluating ideas and arguments.

The study of philosophy broadens and intensifies liberal education while enhancing interpretive abilities in many fields. The curriculum encourages a broad liberal arts background, including courses in foreign languages, and a plan for graduate school and teaching careers in philosophy. The broad relevance of philosophy to other fields permits most students to work toward goals such as professional training in law, medicine, business, or theology. There are three concentrations available to Philosophy majors: General Philosophy; Global Philosophies and Religions; and Philosophy, Science and Technology. It is not unusual for Philosophy majors to second-major in other disciplines, and these concentrations combine easily with other majors at CSU.

Student Learning Outcomes

Outcome 1: Critical Thinking

Students will recognize, construct, and evaluate arguments and alternative positions by correctly applying logical standards and methodology, demonstrating the ability to identify underlying assumptions, ambiguous or contested terms, and potential objections to a thesis.
Outcome 2: Content Knowledge

Students will demonstrate knowledge of major questions, arguments, problems, and figures from a variety of philosophical areas and traditions.

Outcome 3: Reading and Research

Students will develop the interpretive, analytical, and conceptual skills to read with understanding a variety of philosophical texts. Students will be able to assess the quality and relevance of a variety of sources (books, journal articles, etc.) and use these sources in their own research and writing.

Outcome 4: Communication

Students will clearly articulate ideas and arguments in writing and oral communication. Students will demonstrate competence in interpretive, analytical, and argumentative writing. They will effectively present their own ideas and research in oral communication and writing. Students will engage in open, thoughtful, and respectful dialogue.

Outcome 5: Values and Attitudes

Students will demonstrate cognitive flexibility by applying alternative possibilities and conceptual frameworks to their own and others’ ideas and values. They will demonstrate intellectual curiosity in their pursuits of truth and meaning. They will engage in reflective inquiry and aim to achieve a greater understanding of their subject matter.

Potential Occupations

A major in Philosophy prepares students for a wide variety of professional aspirations, including graduate study in philosophy or other disciplines; training in law, computer technology, social work, health care, the ministry, business; and general intellectual flexibility in a changing world. The high level of skill that Philosophy majors acquire in communication, writing, and analytical and critical thinking enables them to secure jobs in a variety of private and public sector professions and to become leaders in their fields.

Depending on the major concentration that a student pursues, available career opportunities include, but are not limited to: public policy analyst, business manager, public administrator, computer programmer, intelligence officer, legislator, teacher, foreign diplomat, social worker, community developer, philanthropic organizer, physician, lawyer, researcher, writer, theologian, human resources manager, publisher, and ethics consultant, in a variety of fields, e.g., in medicine, business, law, public administration, non-profit administration, engineering, and the sciences.

Concentrations

• General Philosophy Concentration
• Global Philosophies and Religions Concentration
• Philosophy, Science, and Technology Concentration

Minor in Philosophy

Philosophy is the study of the most basic moral, legal, aesthetic, religious, and metaphysical ideas by which we pursue understanding and development of principles of conduct. Philosophers seek to establish standards of evidence, provide rational methods of conflict resolution, establish criteria for just social orders, and create techniques for evaluating ideas and arguments. The minor in Philosophy is intended to broaden students’ education and to complement and encourage critical and constructive reflection in other courses.

Effective Fall 2020

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

Students are required to receive at least a C (2.000) in each Philosophy course required for the Minor in Philosophy.

Certificate in Ethics and Society

The Certificate in Ethics and Society aims to provide students with a broad background in ethics and social philosophy. The objective of the certificate is for students to learn to competently navigate questions of social and ethical values on a wide range of issues. The program is structured to foster a deep understanding of both the theoretical foundations and the practical application of ethics. By allowing choice from a wide range of courses in ethics, the certificate provides students the opportunity to gain experience making and assessing value judgments on a variety of important social issues or to focus on the particular issues most relevant to their major or their area of interest. The certificate is open to students in any major or minor.

Certificate in World Philosophies and Religions

The Certificate in World Philosophies and Religions is open to students in any major or minor. It offers a broad education in philosophical and religious perspectives from around the world. Students will develop expertise in the philosophical interpretation and evaluation of religious and non-religious doctrines that have arisen in many times and places, reflecting the broadening of academic philosophy in the U.S. beyond its European roots.

Master of Arts in Philosophy, Plan A

The Department of Philosophy offers courses of study that lead to a Master of Arts in Philosophy. Master’s students can specialize in applied ethics, particularly animal welfare and environmental ethics; comparative philosophy; ethical theory; history of modern philosophy; metaphysics; aesthetics; or epistemology. Students interested in graduate work should refer to the Graduate and Professional Bulletin and the Department of Philosophy. (http://philosophy.colostate.edu/)

Learning Outcomes for the Master of Arts in Philosophy, Plan A

Outcome 1: Critical Thinking Skills
Recognize, evaluate, and construct arguments in a way that correctly applies logical methodology and evaluative standards and demonstrates an ability to identify underlying assumptions, ambiguous or contested terms, and potential objections to a thesis.

Outcome 2: Content Mastery
Explain, orally or in writing, the current state of knowledge and research, referencing the major works and positions in the field, on topics within three areas of philosophy: (1) value theory, broadly construed; (2) metaphysics, epistemology, and related fields; and (3) history of philosophy.

Outcome 3: Research Skills
Conduct independent research on a philosophical topic, identifying the major texts, positions, and arguments concerning that topic.

Outcome 4: Writing Skills
Write an original philosophical paper that contributes to knowledge in some field of philosophical study and is of sufficient quality to be presented at a professional conference or published in a professional journal.

Outcome 5: Oral Communication Skills
Give an oral presentation that clearly and effectively explains philosophical arguments, issues, and positions in a manner demonstrating a broad competency in the field.

Requirements

Effective Fall 2020

Any courses required to address deficiencies must be completed before graduation. Credits earned through completion of such courses do not count toward the M.A. degree.

Major in Political Science

Political science is the study of politics and political action in society. It encompasses international agreements and organizations as well as the patterns of political action which both create and shape them. It encompasses citizen action and the institutions which produce public policy at the local, state, and national levels within the United States. It encompasses systems of voting, political parties, and courts, compared across national political systems. It encompasses the raising of normative questions about the nature and purposes of political life. The presence of politics is felt in all areas and sectors of society at all times. The dynamic and transformative effects of political action are seen virtually everywhere.

The department's curriculum is distributed across five subfields of the discipline: American politics, political theory, comparative politics, international relations, and public policy. Course work across the discipline's subfields is complemented by a required support option. Support options include a minor in another department; an interdisciplinary minor; the second language support option; the methods support option, or a second major.

Learning Outcomes

Students majoring in Political Science shall demonstrate the following:

- Ability to reason through political claims and assertions by political actors
- Skill in recognizing and responding to diverse ideological perspectives
• Ability to locate political issues and controversies within their relevant institutional and historical contexts
• Familiarity with the institutional processes of politics in numerous global and domestic political arenas
• Confidence in expressing opinions and presenting analyses of political problems and their solutions

Potential Occupations

The Major in Political Science, like all studies in the liberal arts, provides students with a broad academic background that is serviceable across a broad spectrum of employment in the public and private sectors. Political Science majors are trained to be independent and critical thinkers; to be discerning and active observers and listeners; to communicate persuasively; to constructively engage and solve intellectual and practical problems; to adapt and function effectively in a number of distinct occupational and institutional settings; to function comfortably in a multiethnic, multiracial, and globalizing society. The employment profiles of departmental alumni attest to the breadth of possibilities for today’s graduates: public and non-profit organization managers, prosecutors, public policy analysts and consultants, federal law enforcement agents, legislators and legislative analysts, foreign service officers, private attorneys, demographers, criminal investigators, advertising specialists, urban/regional planners, environmental policy analysts, state budget analysts, public relations representatives, market researchers, elementary and high school teachers, international businessmen and businesswomen, lobbyists, novelists, construction industry managers, insurance agents and managers, financiers, and real estate brokers. Some graduates join professions following advanced study in law, international relations, area studies, public administration, public policy analysis, and business management.

Concentrations

Students may complete the general Political Science major or select one of the following concentrations for a more specialized course of study.

• Environmental Politics and Policy Concentration
• Global Politics and Policy Concentration
• U.S. Government, Law, and Policy Concentration

For further information on declaring the Major in Political Science, please schedule an appointment with a College of Liberal Arts Academic Success Coordinator by calling 970-491-3117 or visit Clark C 207.

Requirements

Effective Fall 2018

Political science majors must achieve a minimum grade of C (2.000) in each of the political science (POLS) courses counted toward meeting the requirement of the major.

Political Science, Upper-Division

At least 24 credits of upper-division political science courses must be completed for the major. The 24 credits include the senior capstone course, POLS 492, at least 3 credits of AUCC 4A and 4B in addition to POLS 492, and at least one upper-division course in each of the following five subfields.

1. Students may select a 500-level POLS graduate course with approval of advisor and the instructor to fulfill a maximum of 3 credits of the 24-credit upper-division requirement.
2. Students choosing the Methods Support Option must take POLS 320. Credits earned in POLS 495 may not be used to satisfy this requirement.
3. Select a minimum of 24 upper-division (300- to 400-level) courses as described above in the Political Science, Upper-Division list.
4. In addition to POLS 492 students must select at least one course from among the courses listed in the five subfields (see Political Science, Upper-Division list above), for a minimum of 3 credits, that meets the AUCC 4A/4B requirement for the major.
5. Students must have completed upper division courses in at least four of the five subfields (see Political Science, Upper-Division list above) in order to enroll in POLS 492.
6. Select enough elective credits to bring the program total to a minimum of 120 credits, of which at least 42 must be upper-division (300- to 400-level).

### Major Completion Map

**Distinctive Requirements for Degree Program:**

Political science majors must achieve a minimum grade of C (2.000) in each of the political science (POLS) courses counted toward meeting the requirement of the major.

At least 24 credits of upper-division political science courses must be completed for the major. The 24 credits include the senior capstone course, POLS 492, at least 3 credits of AUCC 4A and 4B in addition to POLS 492, and at least one upper-division course in each of the following five subfields.

**Major in Political Science, Environmental Politics and Policy Concentration**

The Environmental Politics and Policy concentration is designed to help students develop the knowledge and skills to analyze the connections between politics and the natural world, and pursue careers in environmental politics and policy-making. Students will learn about how political forces contribute to environmental degradation, the process for developing environmental policies, strategies to assess the strengths and weaknesses of different policy approaches, and how political forces can be harnessed to develop effective responses to problems such as climate change, water and air pollution, food security, and energy provision. Students will explore these issues from both domestic and global perspectives. Environmental Politics and Policy students are strongly encouraged to complete an internship to gain practical experience working in the field.

**Learning Outcomes**

Students majoring in Political Science shall demonstrate the following:

- Ability to reason through political claims and assertions by political actors
- Skill in recognizing and responding to diverse ideological perspectives
- Ability to locate political issues and controversies within their relevant institutional and historical contexts
- Familiarity with the institutional processes of politics in numerous global and domestic political arenas
- Confidence in expressing opinions and presenting analyses of political problems and their solutions

**Potential Occupations**

Graduates may work as policy analysts, advocates, planners, educators or decision-makers in government agencies, non-profit organizations, businesses and consulting firms at the local, state, national and international levels.

For further information on declaring the Major in Political Science, Environmental Politics and Policy Concentration, please schedule an appointment with a College of Liberal Arts Academic Success Coordinator by calling 970-491-3117 or visit Clark C 207.

**Requirements Effective Fall 2018**

Political science majors must achieve a minimum grade of C (2.000) in each of the political science (POLS) courses counted toward meeting the requirement of the major.

**Support Option**

Political Science majors must complete one of the following five Support Options.

**Minor or Interdisciplinary Minor Support Option**

Select a minor or interdisciplinary minor in consultation with advisor.

**Student-Selected Course Group Support Option**

A program of courses proposed by student and approved by advisor containing a minimum of 21 credits, of which at least 12 must be upper-division (300- to 400-level).

**Second Major Support Option**

Select a second major in consultation with advisor. This option may require as much as 36 credits. Credit range shown is approximate, and may require more or less, depending on the second major chosen.

**Foreign Language Support Option**

A minimum of 5 courses totaling at least 15 credits in a single foreign language, including at least 2 courses of language instruction or in the language at the upper-division level.

**Methods Support Option**

Select two from the following:

- POLS 320 Empirical Political Analysis
- STAT 301 Introduction to Applied Statistical Methods
PHIL 120  History and Philosophy of Scientific Thought (GT-AH3)
PHIL 327  Philosophy of Behavioral Sciences
PHIL 415  Logic and Scientific Method
Select one from the following: 3
  STAT 305  Sampling Techniques
  STAT 340  Multiple Regression Analysis
  STAT 350  Design of Experiments
Select two from the following: 6
  ANTH 441  Method in Cultural Anthropology
  AREC 335/ECON 335  Introduction to Econometrics
  SOC 210  Quantitative Sociological Analysis
  SOC 311  Methods of Sociological Inquiry

1. Select a minimum of 12 upper-division (300- to 400-level) credits to fulfill Tier Four. Sophomores may take only 300-level courses from this section. Students may substitute a maximum of 3 credits in one of two ways: 1. from non-POLS specified courses shown above in the program; 2. by petitioning the advisor to include a non-POLS upper-division course when at least fifty percent (50%) of the course material and grading are related to environmental politics and policy. A course syllabus will be required for this option.

2. Courses selected to fulfill Tier Three requirements may not also fulfill Tier Four requirements, and vice versa.
3. Sophomores may take only 300-level Tier Three courses.
4. Select enough elective credits to bring the program total to a minimum of 120 credits, of which at least 42 must be upper-division (300- to 400-level).
5. Students must complete one upper-division course in each of four of the five departmental subfields (American Politics, Political Theory, International Relations, Comparative Politics, and Public Policy and Administration) prior to taking POLS 492.

### Major Completion Map

#### Distinctive Requirements for Degree Program:

Political science majors must achieve a minimum grade of C (2.000) in each of the political science (POLS) courses counted toward meeting the requirement of the major.

Upper-Division course in at least four subfields of Political Science required to register for POLS 492.

Major in Political Science, Global Politics and Policy Concentration

The Global Politics and Policy concentration is designed to help students develop the knowledge and skills to analyze political relationships between and within countries and to pursue careers in international affairs (http://www.apsia.org/career-guide/). Students will learn about different systems of government, state-society relations in various parts of the world, the ways that public and private actors interact through international institutions and the global economy, as well as the causes of and responses to domestic and international conflict. Global Politics and Policy students are strongly encouraged to study a foreign language (http://languages.colostate.edu/) and to complete some of their coursework in one of CSU’s many study abroad programs (http://educationabroad.colostate.edu/students/).

Major in Political Science, U.S. Government, Law, and Policy Concentration

The U.S. Government, Law, and Policy concentration is designed to prepare students to become future leaders in the public sector. The skills gained in this concentration help prepare students for a variety of careers. Resources for careers include the American Political Science Association (http://www.apsanet.org/careersinpoliticalscience/) and the Network of Schools of Public Policy, Affairs, and Administration (https://www.naspaa.org/). The courses in this concentration educate students about the political processes and the legal environment of all levels of American government, as well as the processes of policymaking and the administrative apparatus used to implement public policy. Students will also be exposed to a variety of substantive policy issues including urban policy, energy policy, and environmental policy in the United States. U.S. Government, Law, and Public Policy students are strongly encouraged to complete an internship in one of the many organizations in the broader community. Students in this concentration are also encouraged to participate in the Legislative Internship Program (http://polisci.colostate.edu/undergraduate/legislative-internship/) during their junior or senior years.

Learning Outcomes

Students majoring in Political Science shall demonstrate the following:

- Ability to reason through political claims and assertions by political actors
- Skill in recognizing and responding to diverse ideological perspectives
- Ability to locate political issues and controversies within their relevant institutional and historical contexts
- Familiarity with the institutional processes of politics in numerous global and domestic political arenas
- Confidence in expressing opinions and presenting analyses of political problems and their solutions

Potential Occupations

Graduates may work for government agencies, nonprofits, community organizations, lobbying firms, elected office, political communication, research and policy analysts. Other graduates will utilize their political science education to prepare for law and graduate schools. Past students have completed internships (https://polisci.colostate.edu/internships/) with a variety of law firms, the cities of Fort Collins, Windsor, Loveland, and Westminster, the Colorado General Assembly, and Woodward among others.

For further information on declaring the Major in Political Science, U.S. Government, Law, and Policy Concentration, please schedule an appointment with a College of Liberal Arts Academic Success Coordinator by calling 970-491-3117 or visit Clark C 207.

Minor in Applied Environmental Policy Analysis  
The minor in Applied Environmental Policy Analysis will provide students with a rigorous and in-depth study of the public sector environment, practice, and methods for analyzing and developing policy. Each course will also have the environment as a focus in the material, exams, and assignments. At the end of the minor, students will be able to recall and explain the basic rationales for public policies, apply rigorous research methods for evaluating policy, and integrate the elements of theory, methods, problem structuring, ethics, analysis and argumentation to generate reports useable in government and nonprofit management. The minor is appropriate for practicing professionals and current undergraduate students interested in expanding their applied evaluation skills and environmental policy expertise.

For further information on adding Applied Environmental Policy Analysis as a minor, please contact Kate Sherman at 970-491-5156 or visit Clark C346.
Minor in Political Science

Requirements

Effective Spring 2014

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

Students must complete each course in the minor with a grade of C or better.

Minor in Political Science

The minor in Political Science provides a sound academic core for students in other social science or non-social science majors who are interested in politics. It may be particularly useful for persons preparing themselves for careers in law, teaching in the social sciences, journalism, and public service.

For further information on adding Political Science as a minor, please contact Kate Sherman at 970-491-5156 or visit Clark C346.

Requirements

Effective Spring 1990

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

Twelve credits in political science courses with at least three credits in political theory and in at least one additional subfield of political science. Credits earned in POLS 486A, POLS 486B, and POLS 495 may not be used to satisfy this upper-division credit requirement.

**Major in Sociology**

Sociology is the study of social life, focusing on the mutual interaction between human groups and institutions. Human beings, through patterned social interactions, construct and reconstruct the social webs within which they live. The nature and type of social relationships are central to their lives. Sociologists study relationships within family units from the most primitive cultures to interactions of large, bureaucratic institutions in major industrialized nations. Social issues are studied in a variety of ways: direct observation of groups; surveying or interviewing individuals; analyzing historical research; and a variety of other methods.

Sociology majors have many opportunities to pursue broad and diverse ranges of interest. Students gain a sense of social perspective, an understanding of human affairs, an ability to think critically and perform research, and a capacity to write well. The curriculum includes general courses in the arts and humanities and the social sciences along with sociology course work. A generous selection of electives allows students to major or minor in a complementary discipline. A Sociology major also may enroll in one of the interdisciplinary minors, such as Latin American and Caribbean Studies, Religious Studies, or Women's and Gender Studies.
Learning Outcomes

Students will:

- Analyze critically the major classical and contemporary theories from the 19th and 20th centuries. Students are expected to demonstrate how well these theories help us understand or explain current social phenomena both in the U.S. and abroad. Students will learn to apply a wide variety of theories, including European critical theory, functionalism, symbolic interactionism, and post-modern theory, in required empirical research.

- Analyze critically sociological phenomena by applying objective social research methodologies. Students will demonstrate a working knowledge of sociological theories and the application of these theories to real world social phenomena. Specifically, students will understand conceptual frameworks associated with:
  a. social structure (social stratification, ethnic structures, social institutions, small group dynamics, social demography, and social organizations);
  b. culture (socialization and the development of personalities, social norms, framing normative assumptions of societies and organizations); and
  c. social agency (the behavior of the individual, collective behavior such as with social movements, and the principles of social-psychology).

- Analyze critically sociological phenomena by applying social statistical techniques and qualitative research methods. Students will demonstrate a strong working knowledge of statistical techniques, including:
  a. parametric statistics;
  b. non-parametric statistics;
  c. ordinary least squares statistical analysis;
  d. application of the SPSS statistical package;
  e. interview techniques;
  f. focus group interviews;
  g. qualitative data analysis techniques; and
  h. qualitative data management and presentation.

Potential Occupations

Careers are exceptionally varied. Participating in internships and cooperative education opportunities is highly recommended to enhance practical training and development. Sociology graduates apply their education to a large variety of occupations in the non-profit, private, and public sectors. Because Sociology graduates possess a number of transferable communication, analytical, and people skills, they find positions in government, industry, and academia. Many employers appreciate liberal arts majors for their multiple skills and their ability to adapt to a variety of tasks and work environments. Graduates who go on to advanced studies can pursue careers in sociology or attain advanced positions with the possibility of rising to top professional levels.

Depending on student interests, the electives taken, or the concentration selected, available career choices include, but are not limited to: business manager, personnel director, city manager, clinical social worker, college/university instructor, human relations director, demographer, government aide, labor relations specialist, market analyst, researcher, medical administrator, police officer, politician, probation/parole officer, program director/manager, public administrator, publishers, sociologist-specialist, consultant, criminologist, lawyer, librarian.

Concentrations

- Criminology and Criminal Justice Concentration
- Environmental Sociology Concentration
- General Sociology Concentration

Major in Sociology, Criminology and Criminal Justice Concentration

The Criminology and Criminal Justice concentration trains students to view issues of crime, victimization, and justice through a sociological lens. A sociological perspective on these issues focuses our attention to the social aspects of crime, law, and deviance including understanding societal factors that contribute to crime, effective and innovative programmatic approaches to prevent or control crime, the unintended consequences of our system for marginalized communities, and the role of research in creating effective policy. Our undergraduate program is designed to provide students with a strong foundation in research methods, data collection, analysis, and theory, which are all essential skills for those interested in careers associated with law, justice, or advocacy—all professional paths for which this concentration prepares students well.

Requirements

Effective Fall 2020

Each course used to satisfy requirements of the concentration requires a minimum grade of C (2.000), i.e. all SOC courses, STAT 2**, and each course taken to satisfy the Social and Behavioral Sciences electives or the Criminology and Criminal Justice electives.

Select three credits from AUCC Category 1B except MATH 105, STAT 201, and STAT 204.
No courses used to satisfy AUCC requirements may be used to satisfy the Social and Behavioral Sciences requirement.
Select STAT 201 General Statistics (GT-MA1) or any Statistics course 200-level and above.
For students interested in working in the criminal justice system it is recommended that they enroll in SOC 354, SOC 358, and SOC 455.
Select enough elective credits to bring program total to 120 credits, of which at least 42 must be upper-division (300- to 400-level).

Major Completion Map

Each course used to satisfy requirements of the concentration requires a minimum grade of C (2.000), i.e. all SOC courses, STAT 2**, and each course taken to satisfy the Social and Behavioral Sciences electives or the Criminology and Criminal Justice electives.

Major in Sociology, Environmental Sociology Concentration

The Environmental Sociology concentration takes sociology's long established disciplinary orientation to the world and applies it to the study of nature-society relations. Sociology is about people, institutions, and behaviors. It is about social interactions and social structures. The task of the sociologist, therefore, is to stand back from common sense views of the world and understand the structure and processes of a society as a whole, including global societies. Environmental sociology is about translating these tasks into analysis and action around environmental issues. Some of the pressing contemporary environmental issues to which environmental sociology can be applied are: transboundary pollution, climate change, biodiversity loss, and water and soil degradation. Students will find the concentration helpful in preparing them for a growing number of jobs that have a focus in environmentally related matters.

1 Select three credits from AUCC Category 1B except MATH 105, STAT 201, and STAT 204.
2 No courses used to satisfy AUCC requirements may be used to satisfy the Social and Behavioral Sciences electives.
3 Select 12 credits from the Environmental Sociology electives list of eligible upper-division sociology courses. A total of 6 credits may come from outside sociology. Students can also petition the department for program credit when >25% of course material and grading are related to environment and society.
4 Select STAT 201 General Statistics (GT-MA1) or any Statistics course 200-level and above.
5 Select enough elective credits to bring program total to minimum of 120 credits, of which at least 42 must be upper-division (300- to 400-level).

Major Completion Map

Each course used to satisfy requirements of the concentration requires a minimum grade of C (2.000), i.e. all SOC courses, STAT 2**, and each course taken to satisfy the Social and Behavioral Sciences electives or the Environmental Sociology electives.

Major in Sociology, General Sociology Concentration

A concentration in General Sociology provides students with an opportunity to dig deep into a rich liberal arts education and develop a deep understanding of the nature and dynamics of social life. Sociology is unique because we study a diverse array of phenomenon including the environment, the criminal justice system, religion, class inequality, social policy, and politics. Students who major in this concentration have a lot of flexibility in what they choose to study and can take courses across these topical areas. They also develop a strong skill set in research methods. Because of this rich academic experience, sociology prepares students for a wide variety of jobs upon graduation including researchers, counselors, policy analysts, managers, criminal justice personnel, as well as strong preparation for graduate or law school.

Minor in Criminology and Criminal Justice

The Department of Sociology offers a minor in Criminology and Criminal Justice for students from other departments who wish to have some experience in an area outside their majors. Minors require fewer credit hours to complete than majors. Through this minor, students will gain sociological understanding of a variety of issues related to crime, deviance, and criminal justice. This course work will help prepare students who wish to work in a variety of fields, including those related to the criminal justice system.

Requirements
Effective Fall 2020

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

Students must receive a grade of C or higher for each course counting toward the minor.

College-Wide Graduate Programs
Graduate Certificate

Certificate in Sustainable Military Lands Management

The College offers studies and professional training in the management, administration, and scientific investigation of renewable and nonrenewable natural resources. Programs include the study of every component of natural systems with particular emphasis on fish, forests, minerals, range, watershed, wildlife, and outdoor recreation areas. Graduate areas of emphasis also include ecosystems and greenhouse gas management.

The Natural Resource Ecology Laboratory, housed in the College, is devoted to research and training in ecosystem science and management.

The College also houses the Center for Environmental Management of Military Lands, CEMML, (http://www.cemml.colostate.edu/) which is a team of environmental professionals experienced in the conservation and sustainable management of natural and cultural resources on Department of Defense lands.

College Programs
Undergraduate Majors

The scope of the College's programs is more broadly based than most natural resources schools. There are ten undergraduate degree programs, most with specialized concentrations or designated areas of further study. Undergraduate majors in all five departments lead to the Bachelor of Science degree, which requires a minimum of 120 credits. A minimum of 42 credits in upper division courses is required for all majors.

Field Training Programs

Most undergraduate majors require the completion of a four or five-week summer field training program (five or six credits) before their junior or senior year. Summer field instruction is given at the CSU Mountain Campus (http://mountaincampus.colostate.edu/) campus, 55 miles west of Fort Collins, and the geosciences department offers a summer field course in northern New Mexico and southern Colorado.

During interim or summer periods, some majors devote several weeks to advanced field training programs off campus. Students taking advanced ROTC should arrange their schedules with their advisors in their junior year to avoid conflicts during senior spring semester. It is recommended for all majors, and required for some, that students have a minimum of one summer of field experience before graduation.

International Education

International resources management is an increasingly important concern of the Warner College of Natural Resources. It is desirable that students in the College have opportunities to study abroad, just as students from abroad are encouraged to study here. CSU has agreements covering study abroad opportunities with institutions throughout the world. Students may complete one or two semesters of resources management education abroad. Students interested in studying abroad should plan far in advance by discussing opportunities with their academic advisor and by visiting the Office of International Programs (http://international.colostate.edu) in Laurel Hall.

Graduate Programs

Master of Science and Doctor of Philosophy degree programs are offered in each department. Four professional master's degrees are offered by departments in the college: the Master of Fish, Wildlife, and Conservation Biology, the Master of Natural Resources Stewardship, the Master of Tourism Management and the Professional Science Master's in Ecosystem Science and Sustainability. Descriptions of the various graduate programs may be found in the Graduate and Professional Bulletin or on the departmental websites.

Admissions Information

Contact: Jake Aglietti, Warner College of Natural Resources Recruitment and Engagement Coordinator
(970) 491-4994 Jake.aglietti@colostate.edu (%20Jake.aglietti@colostate.edu)

For High School Graduates

High school students are advised to take all the English, science, and mathematics courses possible to prepare for college-level work in natural resources.

Limitation on Transfer of Credits

Students planning to attend another college or community college prior to enrolling at CSU should follow the freshman program for their chosen major as closely as possible. To assure that they have the opportunity to complete all degree requirements in four years, they should plan to transfer to CSU no later than the beginning of their junior year. Credits which transfer but are not equivalent to specific curriculum requirements may be used as elective credits.

Transfer Students

Students are required to choose a major when enrolling. Transfer students, therefore, should follow the departmental curriculum closely. Check the individual major and concentration for specific courses.

Graduate Certificate in Sustainable Military Lands Management

The Graduate Certificate in Sustainable Military Lands Management at CSU is designed to enhance the knowledge and skills of current practitioners and managers, as well as new professionals interested in applying their education and background to the management of military lands. The knowledge and skill sets are transferable to professionals in a wide array of federal and state land management agencies. This online program is the first and only program of its kind in the United States.

Effective Fall 2017

Additional coursework may be required due to prerequisites.

Minor in Geospatial Information Science for Natural Resources

The minor in Geospatial Information Science for Natural Resources provides students with fundamental geospatial skills in natural resource science and management. Geographic information systems, global positioning systems, and remote sensing are key tools for the 21st century workforce.

This minor is designed for students desiring to gain technical skills and to increase their employment potential in an applied area. The minor in Geospatial Information Science has a broad interdisciplinary appeal due to the ability to adapt and use these technologies in many disciplines.

Requirements

Effective Fall 2019

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

Established in 2011, the Department of Ecosystem Science and Sustainability investigates the intricate physical, chemical, human, and biological interactions driving ecosystems.

The Department of Ecosystem Science and Sustainability currently offers the following degrees and certificates:

- Major in Ecosystem Science and Sustainability
- Major in Watershed Science
- Minor in Watershed Science
- Graduate Certificate in Carbon Management
- Graduate Certificate in Water Resources
- Master of Science in Ecosystem Sustainability
- Master of Science in Watershed Science
- Ph.D. in Ecosystem Sustainability
- Ph.D. in Watershed Science
- Professional Science Master's in Ecosystem Science and Sustainability

Courses
Subjects in this department include: Ecosystem Science and Sustainability (ESS) and Watershed Science (WR).

Ecosystem Science and Sustainability (ESS)

ESS 120 Intro to Ecosystem and Watershed Sciences Credit: 1 (1-0-0)
Course Description: Exploration of the fields of Ecosystem Science and Sustainability and Watershed Science, including career pathways.
Prerequisite: None.
Restriction: Must be a: Undergraduate.
Registration Information: This is a partial semester course. Required field trips.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: Yes.

ESS 129 Information Management for Sustainability Credit: 1 (1-0-0)
Course Description: Learn to access, retrieve, store, and manipulate information for natural resources and sustainability applications. Basic mapping, statistics, and graphing.
Prerequisite: None.
Restriction: Must be a: Undergraduate.
Registration Information: This is a partial semester course. Credit not allowed for both ESS 129 and ESS 180A1.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ESS 130 Intro to Systems Theory for Sustainability Credit: 1 (1-0-0)
Course Description: Introduction to the concept of a “system,” fundamental tenets of systems theory, and application of systems theory to the sustainability of social-ecological systems.
Prerequisite: ESS 129, may be taken concurrently.
Registration Information: This is a partial semester course.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ESS 150 Imagining Sustainability Credits: 3 (3-0-0)
Also Offered As: ANTH 150.
Course Description: Science alone cannot imagine the revolutionary changes necessary to sustain future life on our planet. Explore key concepts and practices of sustainability as represented in contemporary fiction, film, and the news media. Interdisciplinary approach will be anthropological and historical, charting the development of sustainability thinking through different epochs of capitalism.
Prerequisite: None.
Registration Information: Credit allowed for only one of the following: ANTH 150, ANTH 181A1, ESS 150, or ESS 181A1.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ESS 210 Physical Geography Credits: 3 (3-0-0)
Also Offered As: GR 210.
Course Description: Energy, mass budget, and human impacts on atmosphere, hydrosphere, and continental land surfaces.
Prerequisite: None.
Registration Information: Credit not allowed for both ESS 210 and GR 210.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ESS 211 Foundations in Ecosystem Science Credits: 3 (3-0-0)
Course Description: Linkage between society and ecosystems services as foundation for sustainability of the coupled human-environmental system.
Prerequisite: GR 210 or ESS 210.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ESS 220 Research Skills for Ecosystem Science I Credit: 1 (0-0-1)
Course Description: Fundamental skills for participating in ecosystem science research through hands-on learning modules.
Prerequisite: None.
Registration Information: Written consent of instructor.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ESS 221 Research Methods for Ecosystem Science II Credit: 1 (0-0-1)
Course Description: Advanced topics in the practice of the scientific method and participation in research.
Prerequisite: ESS 220.
Registration Information: Written consent of instructor.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ESS 298 Research Credits: Var[1-3] (0-0-0)
Course Description: Directed ecosystem science research.
Prerequisite: ESS 221, may be taken concurrently.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Traditional.
Special Course Fee: No.
ESS 311 Ecosystem Ecology  Credits: 3 (3-0-0)
Course Description: Principles of ecosystems ecology, emphasis on their application to coupled natural and human systems.
Prerequisite: (PH 121 or PH 141) and (LIFE 320).
Registration Information: Required field trips.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ESS 312 Sustainability Science  Credits: 3 (3-0-0)
Course Description: Synthesize multifaceted information across a wide range of disciplines, with the goal to develop potential solutions to complex human-societal-environmental challenges at multiple scales. Implement methods for understanding current issues, develop alternative scenarios to current practices and policies, and stage interventions to achieve more sustainable behaviors and practices.
Prerequisite: LIFE 320.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ESS 320 Internship and Career Preparation  Credit: 1 (0-0-1)
Course Description: Career-related skills and professional development in ecosystem science and sustainability (ESS) for majors.
Prerequisite: LIFE 320.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ESS 330 Quantitative Reasoning for Ecosystem Science  Credits: 3 (2-2-0)
Course Description: Understanding diverse approaches for using data and models to understand complex ecological systems.
Prerequisite: (ESS 211 or LIFE 320) and (MATH 155 or MATH 160) and (STAT 301 or STAT 307 or STAT 315).
Registration Information: Junior or senior standing.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ESS 382A Study Abroad: Socio-Ecological Landscapes of Mongolia  Credits: 6 (0-0-6)
Course Description: Travel to Mongolia for a field-based, place-based experience with Mongolian students and herders. Engage in research projects partnering with Mongolian counterparts for field data collection using ecological, social science, and geospatial tools. Examine the intersection of culture and environment through observational exercises and experiential learning. Experience nomadic culture through field trips and participatory community activity.
Prerequisite: None.
Restriction: Must be a: Undergraduate.
Registration Information: Written consent of instructor.
Term Offered: Summer.
Grade Mode: Traditional.
Special Course Fee: No.

ESS 400 Global Perspectives on Sustainability  Credits: 3 (3-0-0)
Course Description: Explores the intersections between ecosystem science, communities and sustainability in the context of the global challenges of climate change focusing on the new global framework (The Paris Agreement), Sustainable Development Goals (SDGs), and ecological indicators.
Prerequisite: ESS 311.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ESS 401 Sustainability of Parks and Protected Places  Credits: 3 (3-0-0)
Course Description: Explore connections between culture, sustainability, and park management topics while discussing people, parks, and places through the lens of diversity and inclusion in natural resources.
Prerequisite: None.
Registration Information: Completion of AUCC Categories 2 and 3A.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ESS 411 Earth Systems Ecology  Credits: 3 (3-0-0)
Course Description: Earth as a system, stressing ecological interactions among energy, water, and biogeochemistry.
Prerequisite: ESS 311 and ESS 312.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ESS 412 Sustainable Cities  Credits: 3 (3-0-0)
Course Description: Explore the ecology of cities, evaluate the most innovative science developed for the city, and discuss with renowned researchers leading these efforts. Analyze sustainability plans from a variety of cities around the globe, and interact with the practitioners developing and implementing sustainable goals. Delve into sustainability theory, specifically "the sustainable city myth."
Prerequisite: ANTH 100 or ANTH 200 or ESS 210 or GES 101 or GR 100 or GR 210 or LAND 220 or LIFE 220 or LIFE 320 or NR 120A or NR 130 or SOC 220.
Registration Information: Junior standing. Credit not allowed for both ESS 412 and ESS 480A1.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ESS 430A Study Abroad--South Africa: Communities and Conservation  Credits: 6 (0-0-6)
Also Offered As: ANTH 430A.
Course Description: Travel the wildest areas of savanna South Africa to work with and learn from rural and urbanizing communities, offering insights into the innovative forms of community-based natural resource management emerging in South Africa. Understand the new landscapes of conservation associated with post-apartheid South Africa; explore the problems faced by the people living in poverty on the edge of protected areas.
Prerequisite: None.
Registration Information: Sophomore standing. Written consent of instructor. Credit allowed for only one of the following: ANTH 430A, ANTH 482A, ESS 430A, or ESS 482A.
Term Offered: Summer.
Grade Mode: Traditional.
Special Course Fee: No.
ESS 432  Microbial Ecology  Credits: 3 (2-0-1)
Also Offered As: MIP 432.
Course Description: Principles of microorganism interactions with their living and non-living environments; implications for the environment, plants, and animals.
Prerequisite: MIP 300.
Registration Information: Must register for lecture and recitation. Credit not allowed for both ESS 432 and MIP 432.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.

ESS 433  Microbial Ecology Laboratory  Credit: 1 (0-3-0)
Also Offered As: MIP 433.
Course Description: Experimental microbial ecology; the design, conduct and interpretation of experiments that illustrate basic principles of microbial ecology.
Prerequisite: MIP 300.
Registration Information: Must be taken concurrently with ESS 432 or MIP 432. Credit not allowed for both ESS 433 and MIP 433.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.

ESS 440  Practicing Sustainability  Credits: 4 (2-0-2)
Course Description: Capstone integration of ecosystem science and sustainability, focused on case studies.
Prerequisite: ESS 311 and ESS 312.
Registration Information: Senior standing in WCNR. Must register for lecture and recitation.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: Yes.

ESS 471  Special Topics in Ecosystem Sustainability  Credits: Var[1-6] (0-0-0)
Course Description: 
Prerequisite: ESS 311.
Grade Mode: Traditional.
Special Course Fee: No.

ESS 474  Limnology  Credits: 3 (2-2-0)
Also Offered As: BZ 474.
Course Description: Biology, chemistry, and physics of lakes including limnological methods.
Prerequisite: LAND 220 or LIFE 220 or LIFE 320.
Registration Information: Must register for lecture and laboratory. Required field trips. Credit not allowed for both BZ 474 and ESS 474.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

ESS 482A  Study Abroad: Communities and Conservation in South Africa  Credits: 6 (0-0-6)
Also Offered As: ANTH 482A.
Course Description: Travel to the wildest areas of savanna South Africa to work and learn from rural and urbanizing communities. Insights into the innovative forms of community-based natural resource management emerging in South Africa. Understand the new landscapes of conservation associated with post-apartheid South Africa. Explore the problems faced by the millions of people living in poverty at the edge of protected areas.
Prerequisite: None.
Registration Information: Written consent of instructor. Pre-South Africa: during the spring semester prior to the actual study abroad experience, students will meet in March and April for workshops and guest lectures on the CSU campus. In South Africa: travel approximately June 10 – July 2. Post-South Africa: students and instructors will schedule 20 hours of consulting time while students work on group projects over 6 weeks. Credit not allowed for both ANTH 482A and ESS 482A.
Term Offered: Summer.
Grade Mode: Traditional.
Special Course Fee: No.

ESS 486  Ecosystem Practicum  Credits: 2 (0-0-4)
Course Description: One-week field practicum to examine ecosystem science and sustainability issues in Colorado landscapes.
Prerequisite: ESS 311.
Registration Information: Senior standing. Required field trips.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ESS 487  Internship  Credits: Var[1-6] (0-0-0)
Course Description: Supervised work experience in professional settings related to Ecosystem Science and Sustainability.
Prerequisite: ESS 320.
Registration Information: Written consent of instructor.
Terms Offered: Fall, Spring, Summer.
Grade Mode: S/U Sat/Unsat Only.
Special Course Fee: No.

ESS 495  Independent Study in Ecosystem Science  Credits: Var[1-6] (0-0-0)
Course Description: 
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ESS 501  Principles of Ecosystem Sustainability  Credits: 3 (3-0-0)
Course Description: Principles of ecosystem sustainability and threats to sustainability. Students will investigate and develop case studies.
Prerequisite: BZ 300 to 499 or ECOL 300 to 499 or CHEM 300 to 499.
Registration Information: Admission to graduate school. Sections may be offered: Online.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.
ESS 524  Foundations for Carbon/Greenhouse Gas Mgmt  Credits: 3 (3-0-0)
Course Description: Foundations for understanding greenhouse gas emissions management and accounting.
Prerequisite: BZ 300 to 499 or ECOL 300 to 499 or CHEM 300 to 499.
Registration Information: Sections may be offered: Online.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

ESS 542  Greenhouse Gas Policies  Credits: 2 (0-0-2)
Course Description: Rules, regulations and standards for greenhouse gas management and accounting.
Prerequisite: ESS 524, may be taken concurrently.
Registration Information: Graduate standing. Sections may be offered: Online.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ESS 543  Current Topics in Climate Change  Credits: 2 (2-0-0)
Also Offered As: ATS 543.
Course Description: Climate fundamentals and current topics in climate change.
Prerequisite: BZ 300 to 499 or ECOL 300 to 499 or LIFE 300 to 499 or CHEM 300 to 499.
Registration Information: Sections may be offered: Online. Credit not allowed for both ATS 543 and ESS 543.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ESS 545  Applications in Greenhouse Gas Inventories  Credits: 4 (2-6-0)
Course Description: Overview of methods for estimating greenhouse gas emissions and mitigation potential for agriculture and forestry activities.
Prerequisite: ESS 524 and STAT 511A.
Registration Information: Must register for lecture and laboratory. Required field trips.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ESS 555  Life Cycle Assessment for Sustainability  Credits: 3 (3-0-0)
Also Offered As: ENGR 555.
Course Description: The quantitative and qualitative measure of cradle-to-grave impacts of products and services on the environment, the economy, and society.
Prerequisite: BIOM 300 to 479 or BZ 300 to 379 or BZ 400 to 479 or CHEM 300 to 379 or CHEM 400 to 479 or CIVE 300 to 479 or ECOL 300 to 379 or ENGR 300 or CHEM 300 to 379.
Registration Information: Sections may be offered: Online. Credit allowed for only one of the following: ENGR 555, ESS 555, ENGR 581A1, or ESS 581A1.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.
Course Description: Techniques and conceptual understanding for analyzing multivariate ecological data characteristic of community ecology, including ordination, classification, and permanova.

Restriction: Must be a: Graduate, Professional.
Term Offered: Fall (even years).
Grade Mode: Traditional.
Special Course Fee: No.

ESS 660 Biogeochemical Cycling in Ecosystems Credits: 3 (3-0-0)
Course Description: Biotic and abiotic processes responsible for distribution and fluxes of elements at ecosystem, landscape, and global scales.

Restriction: Must be a: Graduate, Professional.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

ESS 692 Seminar Credit: 1 (0-0-1)
Course Description: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Sections may be offered: Online.
Grade Mode: Instructor Option.
Special Course Fee: No.

ESS 695 Independent Study in Ecosystem Science Credits:
Var[1-6] (0-0-0)
Course Description: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

ESS 696 Group Study Credits: Var[1-6] (0-0-0)
Course Description: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Written consent of instructor. Sections may be offered: Online.
Grade Mode: Instructor Option.
Special Course Fee: No.

ESS 698 Research Credits: Var[1-18] (0-0-0)
Course Description: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Written consent of advisor.
Term Offered: Spring (odd years).
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

ESS 699 Thesis Credits: Var[1-18] (0-0-0)
Course Description: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Written consent of advisor.
Term Offered: Fall, Spring, Summer.
Grade Mode: S/U Sat/Unsat Only.
Special Course Fee: No.

ESS 798 Research Credits: Var[1-18] (0-0-0)
Course Description: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Written consent of advisor.
Terms Offered: Fall, Spring, Summer.
Grade Mode: S/U Sat/Unsat Only.
Special Course Fee: No.

ESS 799 Dissertation Credits: Var[1-18] (0-0-0)
Course Description: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: Written consent of advisor.
Terms Offered: Fall, Spring, Summer.
Grade Mode: S/U Sat/Unsat Only.
Special Course Fee: No.

Watershed Science (WR)

WR 204 Sustainable Watersheds (GT-SC2) Credits: 3 (3-0-0)
Also Offered As: GR 204.
Course Description: Effects of climate, land use, and water use on the sustainability of water quantity and quality.
Restriction: None.
Registration Information: Credit allowed for only one of the following: GR 204, GR 304, WR 204 or WR 304.
Terms Offered: Fall, Spring.
Grade Mode: Traditional.
Special Course Fee: No.

WR 406 Seasonal Snow Environments Credits: 3 (2-3-0)
Course Description: Evaluation of the physical environment; characteristics of snow; methods of studying snow; snow safety.
Restriction: None.
Registration Information: Junior or senior standing. Must register for lecture and laboratory. Required field trips.
Term Offered: Spring (odd years).
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

WR 416 Land Use Hydrology Credits: 3 (3-0-0)
Course Description: Fundamental concepts in hydrology and effects of land use on hydrologic processes.
Restriction: GEOL 120 or GEOL 122 or GEOL 124 or GEOL 150 or SOCR 240 and (CIVE 202 or STAT 201 or STAT 301 or STAT 307 or STAT 315) and (PH 110 or PH 121 or PH 141).
Term Offered: Fall.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.
WR 417 Watershed Measurements Credits: 3 (2-3-0)
Course Description: Instrument and field techniques in watershed science. Project design and data analysis.
Prerequisite: None.
Registration Information: Must have concurrent registration in WR 416. Must register for lecture and laboratory. Required field trips.
Term Offered: Fall.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: Yes.

WR 418 Land Use and Water Quality Credits: 3 (3-0-0)
Course Description: Physical, chemical, biological water quality parameters affecting land use; land management to maintain water quality; water quality standards, legislation.
Prerequisite: CHEM 103 and CHEM 104 or CHEM 107 and CHEM 108 or CHEM 111 and CHEM 112.
Term Offered: Spring.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

WR 419 Water Quality Analyses Credits: 3 (2-2-0)
Course Description: Analyze freshwater samples for water quality constituents. Analyze data along with public water quality datasets.
Prerequisite: (CHEM 107 or CHEM 111) and (STAT 301 or STAT 315) and (WR 417).
Registration Information: Must have concurrent registration in WR 418. Must register for lecture and laboratory.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: Yes.

WR 440 Watershed Problem Analysis Credits: 3 (2-2-0)
Course Description: Capstone integration of spatial watershed issues, focused on problem solving in watershed science.
Prerequisite: (NR 322 or NR 319) and (WR 416 and WR 418).
Registration Information: Must register for lecture and laboratory.
Term Offered: Spring.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

WR 474 Snow Hydrology Credits: 3 (3-0-0)
Course Description: Snowfall, accumulation, distribution, physical processes in the snowpack, energy balance, ablation and runoff, measurement methods, runoff forecasting.
Prerequisite: WR 416.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

WR 486 Watershed Field Practicum Credits: 2 (0-6-0)
Course Description: Field visits to watershed management projects and sites of significant field studies.
Prerequisite: None.
Restriction: Must be a: Junior.
Registration Information: Junior standing. Required field trips.
Term Offered: Fall.
Grade Mode: Traditional.
Special Course Fee: No.

WR 487 Internship Credits: Var[1-6] (0-0-0)
Course Description: Supervised work experience in professional settings related to Watershed Science.
Prerequisite: None.
Registration Information: Written consent of instructor.
Terms Offered: Fall, Spring, Summer.
Grade Mode: S/U in Sat/Unsat Only.
Special Course Fee: No.

WR 492 Seminar Credits: Var[1-18] (0-0-0)
Course Description: Instructors.
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

WR 495 Independent Study Credits: Var[1-18] (0-0-0)
Course Description: Independent study. Offered as an online course only. Written consent of instructor.
Prerequisite: None.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

WR 510 Watershed Management in Developing Countries Credits: 2 (2-0-0)
Course Description: Watershed management problems, approaches, and solutions in developing countries.
Prerequisite: CIVE 322 or WR 416.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

WR 511 Water Resource Development Credits: 3 (3-0-0)
Course Description: Basic principles of water resource management including surface and subsurface flows.
Prerequisite: None.
Registration Information: Graduate standing. Offered as an online course only. Written consent of instructor.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

WR 512 Water Law for Non-Lawyers Credits: 3 (0-0-3)
Course Description: Basics of water law and policy for Colorado, western states, and the U.S.
Prerequisite: None.
Registration Information: Graduate standing. Written consent of instructor. Offered as an online course only.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

WR 514 GIS and Data Analysis in Water Resources Credits: 3 (1-4-0)
Course Description: Exposure to multiple data analysis and GIS tools used to study water resources. Assess online data sources, download and pre-process digital data, and analyze water information.
Prerequisite: None.
Restriction: Must be a: Graduate.
Registration Information: Graduate standing. Must register for lecture and laboratory. Offered as an online course only. Credit not allowed for both WR 514 and WR 581A1.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.
WR 516  Cumulative Effects and Watershed Analysis  Credits: 3 (2-0-1)
Course Description: Definition, causal processes, and modeling of cumulative watershed effects; comparison and evaluation of current watershed analysis procedures.
Prerequisite: WR 416 and WR 417.
Registration Information: Must register for lecture and recitation.
Term Offered: Spring (odd years).
Grade Mode: Traditional.
Special Course Fee: No.

WR 520  Evapotranspiration  Credits: 2 (2-0-0)
Course Description: Theory, estimation, measurement, simulation, and application of evapotranspiration processes in hydrology.
Prerequisite: PH 122.
Term Offered: Spring.
Grade Modes: S/U within Student Option, Trad within Student Option.
Special Course Fee: No.

WR 524  Modeling Watershed Hydrology  Credits: 3 (2-2-0)
Also Offered As: CIVE 524.
Course Description: Development and application of watershed models: structure, calibration, evaluation, sensitivity analysis, simulation.
Prerequisite: (CIVE 322 or WR 416) and (CIVE 202 or STAT 301 or STAT 315).
Registration Information: Must register for lecture and laboratory. Credit not allowed for both CIVE 524 and WR 524.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

WR 574  Advanced Snow Hydrology  Credits: 4 (3-0-1)
Course Description: Snow processes in hydrologic cycle; physical and conceptual methods of modeling; techniques for measuring different states and change rates.
Prerequisite: CIVE 322 or ENVE 322 or WR 416.
Registration Information: Must register for lecture and recitation.
Term Offered: Fall (even years).
Grade Mode: Traditional.
Special Course Fee: No.

WR 575  Snow Hydrology Field Methods  Credit: 1 (0-2-0)
Course Description: Field course offering hands-on experience in snow hydrology.
Prerequisite: None.
Registration Information: Enrollment in a graduate program. Required field trips.
Term Offered: Spring.
Grade Mode: Traditional.
Special Course Fee: No.

WR 616  Hillslope Hydrology and Runoff Processes  Credits: 3 (1-0-2)
Course Description: Hillslope hydrology and runoff processes in different environments; implications for management and modeling.
Prerequisite: CIVE 322 or WR 416.
Restriction: Must be a: Graduate, Professional.
Registration Information: Must register for lecture and recitation.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.

WR 671  Advanced Topics in Watershed Science  Credits: Var[1-6] (0-0-0)
Course Description: Explores advanced topics in watershed hydrology, biogeochemistry, and ecology.
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Registration Information: May be repeated for a maximum of 9 credits.
Grade Mode: Traditional.
Special Course Fee: No.

WR 674  Data Issues in Hydrology  Credits: 3 (3-0-0)
Course Description: Types of data, data sources, data quality, missing data, spatial data, data usage, sensitivity in models, error, presentation of data and results.
Prerequisite: WR 574.
Restriction: Must be a: Graduate, Professional.
Term Offered: Spring (even years).
Grade Mode: Traditional.
Special Course Fee: No.

WR 692  Seminar  Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

WR 695  Independent Study  Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

WR 696  Group Study  Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

WR 698  Research  Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.

WR 699  Thesis  Credits: Var[1-18] (0-0-0)
Course Description:
Prerequisite: None.
Restriction: Must be a: Graduate, Professional.
Terms Offered: Fall, Spring, Summer.
Grade Mode: Instructor Option.
Special Course Fee: No.
**WR 712  Watershed Systems  Credits: 3 (2-2-0)**  
**Course Description:** Dynamic simulation of watershed behavior; application and evaluation of current hydrologic models.  
**Prerequisite:** (CIVE 322 or WR 416) and (STAT 340).  
**Restriction:** Must be a: Graduate, Professional.  
**Registration Information:** Must register for lecture and laboratory.  
**Term Offered:** Fall (even years).  
**Grade Mode:** Traditional.  
**Special Course Fee:** No.

**WR 714  Water Quality for Wildland Managers  Credits: 3 (3-0-0)**  
**Course Description:** Sampling, statistics of sampling, concepts of ionic equilibrium, water quality modeling, instream flow requirements.  
**Prerequisite:** WR 418.  
**Restriction:** Must be a: Graduate, Professional.  
**Term Offered:** Fall (even years).  
**Grade Mode:** Traditional.  
**Special Course Fee:** No.

**Major in Ecosystem Science and Sustainability**

The major in Ecosystem Science and Sustainability provides a strong scientific foundation in ecosystem ecology integrated with a broad knowledge of the cultural, social, economic, and political issues that are shaping the issue of sustainability. Students in the major learn to integrate science into real-world decision making, with the goal of developing sustainable strategies to maintain ecosystem services around the globe. We provide students with a broad base of experiential and collaborative learning opportunities, opportunities for undergraduate research, and the latest scientific knowledge about sustainability science and how organisms interact with their environments to form complex ecosystems. Opportunities for research, internships, practical and group-based learning, and field experiences in the beautiful Rocky Mountains and around the world, combined with an outstanding classroom education, build a solid foundation for applying sustainable resource management principles.

**Learning Outcomes**

Students in the major learn:

- How to use natural resources and implement solutions in a sustainable way.
- About environmental change at local to global scales.
- The amazing connections between different earth system components, founded in a systems thinking approach.
- How to conduct research or field work in a variety of settings addressing questions important to sustainability.

**Potential Occupations**

Completion of the undergraduate degree qualifies students for a wide variety of careers related to sustainability and natural resource science. Examples of possible careers include: sustainability coordinator, ecologist, environmental educator, invasive species specialist, biological science technician, climate change scientist, natural resource specialist, or corporate environmental consultant. Students completing the undergraduate degree in Ecosystem Science and Sustainability will also be well prepared to succeed in graduate education in a variety of disciplines.

Professional Development and Engagement Requirement
The timeline to complete the Professional Development and Engagement requirement may vary. Suggested completion of summer coursework (NR 220 and some department-approved study abroad programs) may occur between sophomore and junior years or between junior and senior years. ESS 487 has a prerequisite of ESS 320, so should be completed after junior year. ESS 220/ESS 221/ESS 298 may be completed during the academic year, ideally during junior or senior year, thus moving elective credits to freshman and sophomore years.
