

# DEPARTMENT OF ECONOMICS

---

## Graduate

### Graduate Programs in Economics

The Department of Economics is currently only admitting students to the Doctor of Philosophy (Ph.D.) program. Six primary fields are presently emphasized: international economics, development economics, public economics, political economy, environmental economics, and regional economics. Core requirements include micro, macro, and heterodox theory, as well as history of economic thought and applied econometrics.

More information is available in the Graduate and Professional Bulletin (<http://catalog.colostate.edu/general-catalog/graduate-bulletin/>).

### Ph.D.

- Ph.D. in Economics (<http://catalog.colostate.edu/general-catalog/colleges/liberal-arts/economics/economics-phd/>)

### Plan B Master's Program

Students admitted to the Ph.D. program earn a master's degree along the way. If a student does not pass the qualifying exam or does not wish to complete the doctorate after two years of study, they may exit the program with a Master of Arts in Economics (Plan B).
